Rule Change Intent

This would bring us more inline with the FEI whom has been dealing with social license to operate issues longer than the U.S. and I think we need to learn from that. If we don't put this rule into effect we will have to answer to the public as to why we allow equipment to be used on our competitions that have been deemed inhumane in International Competitions.

6. Spurs. Only one spur may be worn on each boot. The contact surface of spurs and all edges must be smooth and rounded made of metal or plastic. Hammer spurs, "impulse spurs" with round knobs, spurs with flat discs, and "dummy spurs" with no shank are permitted. Rowel spurs, with a notched or serrated disc are prohibited. Spurs with a rotating disc that is not notched or serrated are permitted.
