CHAPTER DC DRIVING - COMBINED DRIVING DIVISION

SUBCHAPTER DC-1 GENERAL

DC900 USEF National Rules for Combined Driving Events

A Combined Driving competition includes one or more of the following competition phases: Driven Dressage, Marathon, and Cones. The Federation recognizes three types of Combined Driving competitions:

1. Combined Tests "CT" with two competition phases
2. Combined Driving Events "CDE" with three competition phases
3. Short Format Driving Events "Short Format" with any competition phase(s) as long as the Marathon is Modified when offered.

These rules are intended to standardize USEF Combined Driving as far as it is possible, so that the conditions are fair and similar for all Athletes. A Driving Event commences one hour before the First Horse Inspection and concludes one half hour after the announcement of the final results. For the purposes of these rules, Short Format Driving Events begin at the time the equine arrives on competition grounds and concludes one half hour after the announcement of the final results.

See GR 1217 for duties concerning enforcement of Federation rules. See GR 404 and 409 for Persons Responsible.

SUBCHAPTER DC-2 STRUCTURE OF COMPETITIONS

DC901 Categories and Levels

1. Classes:
 - 1.1. All, or any, of the following classes may be held at the same Event, but each must be classified separately:
Horse: Single (H1), Pair (H2), and Four-in-Hand (H4)

 - 1.3 The Para-Driving single horse/pony class will follow the Intermediate level and Para-Driving rules. Any other Para-Equestrians may enter any division where their USEF and/or FEI Classification and dispensation will be honored.
2. Levels of difficulty:

The division levels are as follows, listed from the highest level of difficulty to the lowest level:

 - Open Advanced
 - Novice Advanced
 - Intermediate
 - Preliminary
 - Training
 - Beginner
 - 2.1 To ensure uniformity, Organizing Committees must send to the Federation a draft prize list for their Event, setting out the general conditions of each Competition and any particular conditions not provided for in these rules, which they wish to present.
3. Competition Format
 - 3.1 Combined Tests can be run over 1 or 2 days in any of the following formats.

Format 1		Format 2		Format 3		Format 4
Day 1: Dressage	Or	Day 1: Dressage or Cones	Or	Day 1: Dressage & Cones	Or	Day 1: Combined Marathon
Day 2: Cones		Day 2: Combined Marathon or Cones				

3.2 Combined Driving Events can be run over 2 or 3 days in any of the following formats.

 - 5.2 USEF National Championships must consist of all three Competition phases.

SUBCHAPTER DC-3 CLASSIFICATION

DC902 Competition Phases

1. At the conclusion of each Competition phase, the Athletes will be classified according to the penalties received in that Competition phase.
2. In each Competition phase, the winner is the Athlete with the least number of penalties.
3. Scores will be calculated to two decimal places.

DC903 Events

1. The Final Classification for individuals is determined by adding together the penalties received in each Competition phase. The Athlete with the lowest number of overall penalties is the winner of the Event.
2. Athletes who are Eliminated or Disqualified or who Retire or Withdraw in any one of the Competition phases cannot be included in the Final Classification. They will only be listed on the result sheet as: Eliminated (E), Disqualified (D), Retired (R), or Withdrawn (W).

DC904 Equality of Scores

If there is an equality of scores on completion of the three Competition phases, the Athlete with the least number of penalties in Marathon will be classified above the others. If there is still an equality of points, the scores in Dressage will be the deciding factor.

DC905 Official Results

1. Results are "official" as soon as they have been signed by the Ground Jury and published on the official board at the Show Office.

2. Inquiries, Protests and Appeals

2.1 Inquiries

The competitor or a parent or guardian of a competitor under 18 years old may inquire about any perceived scoring issues, field of play incidents, or errors in scoring during the course of the competition and up to 45 minutes after the results are official. Such inquiries must be addressed to the Technical Delegate or a member of the Ground Jury within the specified time frame in order to be considered and will follow the protest procedure below.

2.2 Submitting Protests

Protests are only permitted concerning scoring issues or field of play incidents (except in the case of scoring recording errors, which may be corrected immediately upon discovery at any time). The competitor or a parent or guardian of a competitor under 18 years old may submit a protest against results or provisional results up to **30** minutes after the results are official. Protests must be submitted in writing within the specified time frame to the Technical Delegate, accompanied by a fee of \$50.00 made payable to the Organizer, which will be refunded if the protest is upheld.

2.3 Handling Protests

The Ground Jury will make a decision on a protest after making a proper investigation and hearing all sides of the case. If necessary, the Technical Delegate and/or the Veterinarian may participate in an advisory capacity. The Ground Jury must provide an explanation to the competitor and, when applicable or possible, include the rule reference to support the decision. The President of the Ground Jury may refer any protests which they feel are beyond their discretion, to the Organizer. The Technical Delegate will record all protests, forward them to the Ground Jury, and record all decisions of the Jury. Decisions made by the Ground Jury on field of play disputes are final and not able to be protested further. Refer to the Federation Bylaws for additional information regarding Complaints and Disputes.

BOD 06/17/24 Effective 12/01/24

DC906 Principles

Athletes are deemed to have withdrawn if, for any reason, they fail to start in any of the competition phases. Once withdrawn, athletes may not take any further part in the event with the turnout in question.
7. **Lame or Unfit Horses**
If a horse is deemed to be lame or unfit by:
The judge at C in Dressage, the horse must be disqualified and may not compete in any other competition phase. The athlete is eliminated.
A member of the Ground Jury in marathon or cones, the horse will be eliminated as well as the athlete.
8. **Placings and Prize Money:**
Athletes who retire or are eliminated from any competition phases may not be placed in that competition phase or in the final classification.

The Judges will allocate their marks individually. There will be no consultation among judges once the athlete has started the Test. Only the Judge at C may give penalties for incomplete presentation or incidents.

3. Multiple Turnouts

Pairs and Four-in-Hands will be judged as a whole and not as individual horses.

4. Pace

The definition of paces under DC939.2- movements will apply to all types and breeds of horses.

5. Start and Finish

The test starts as the athlete enters the arena at A, unless otherwise stated, and finishes with the final salute. Tests are not timed. The athlete will leave the arena at a trot.

DC938 Movements and their descriptions

1. Halt

The Horse must stand square, straight, and motionless, remaining on the bit.

2. Walk

With a regular four beat movement, the horse, remaining in a light contact, walks energetically, supple, with even and determined strides with the hind feet touching the ground in front of the foot prints of the fore feet and stretching forwards and downwards.

3. Free Walk

Same definition as for the walk, but in addition, gaining ground as much as possible, clearly lengthening the frame and stretching forwards downwards.

A. Lengthened Walk.

This is a more determined and ground-covering walk than the working walk. The main difference between the free walk and the lengthened walk is that the driver now actively asks the horse to produce more push from behind and thus lengthen its stride. The horse must flex its poll somewhat and is expected to work into the bit on a soft contact. The horse should not stretch as long and as low as in the free walk, but has to show a definite lengthening and lowering of the frame compared to the working walk. Some overtrack is expected.

4. Extended Walk

The horse covers as much ground as possible, without haste and without losing the regularity of the steps. The hind feet touch the ground clearly in front of the hoof prints of the fore feet. The athlete allows the horse to stretch out the head and neck (forward and downwards) without losing contact with the mouth and control of the poll. The nose must be clearly in front of the vertical.

5. Working Trot

A forward, active trot with the horse on the bit, carrying itself in balance and rhythm with even, elastic steps and good hock action, and clear impulsion. The steps of the hind feet must at least be touching the ground in the footprints of the fore feet.

6. Collected Trot

The horse remains on the bit and moves energetically forward with a greater degree of engagement, leading to an increased flexion of the hocks and fetlock joints and raising up with the forehand, thus allowing for more mobility and elevation of the strides. The neck will be raised and more arched, with the poll the highest part, the nose should not be behind the vertical, or the neck restricted. The hind legs should take more weight and cadence should be visible.

A. Lengthen Stride in Trot.

This trot is used as a preparation for the extended trot. While maintaining the same rhythm, the horse covers more ground than in the working trot. The horse must lengthen and lower the frame and stride while remaining on contact.

7. Extended Trot

7.1 The horse lengthens its stride to cover as much ground as possible as a result of greater impulsion from the hindquarters. The athlete allows the horse, remaining "on the bit" without leaning on it, to lengthen its frame to gain ground, with the nose slightly in front of the vertical. The hind feet must clearly over track the prints made by the fore feet.

7.2 The horse must remain in balance while maintaining the same rhythm with strides of equal size. Hurried strides is not asked for, and is a severe fault.

8. Medium Trot

Between the defined working trot and extended trot. The horse lengthens its stride to cover less ground than asked for in the extended trot but more ground than asked for in the working trot as a result of greater impulsion from the hindquarters. The athlete allows the horse, remaining 'on the bit' without leaning on it, to lengthen the frame to gain ground, with the nose slightly in front of the vertical. The hind feet should overtrack the footprints made by the fore feet. The horse must remain in balance while maintaining the same rhythm with strides of equal size. Hurried strides is not asked for and is a severe fault.

9. Working Canter

9.1 A forward, active pace with regular strides of three time beat. The horse, showing good balance, remains on the bit without leaning on the hand, and goes forward with light cadenced strides and good hock action.

9.2 A canter to the right, for instance will have the footfalls follow one another in the following sequence: left hind, left diagonal (simultaneously left fore and right hind), right fore, followed by a moment of suspension with all four feet off the ground before the next stride begins.

9.3 The quality of the canter is judged by the general impression, and the regularity and lightness of the three-beat pace in a clear uphill tendency. The horse must be on the bit and well engaged in the hindquarters with good hock action, and must have the ability to maintain its rhythm and natural balance throughout the movement and the transitions. The horse must remain straight on straight lines and correctly bent on curved lines.

10. Collected Canter

Horses strides are shorter than in working canter, the hocks maintain a clear impulsion and the hind legs take more weight; the point of gravity is moving backwards and the neck and poll coming up more and more with the nose always a bit in front of the vertical showing a clear uphill tendency and self-carriage; the basic is a clear three beat and a light steady contact with suppleness and elasticity.

11. Extended Canter

In extended canter the horse covers as much ground as possible with obviously lengthened strides and frame; there should be no hurried strides and the nose should be always in front of the vertical not losing balance and uphill tendency. There should be clear transitions into and out of the extended canter.

12. Simple change of leg at the canter

This is a movement in which, after a direct transition out of the canter into a trot with three (3) to five (5) clearly defined steps, an immediate transition is made into the other canter lead.

13. Reinback

13.1 The horse must walk backwards in a straight line, with the legs being lifted and set down in diagonal pairs. The horse must remain on the bit, straight, and not evade or resist the contact, the poll should remain the highest point.

13.2 Transition to the next movement must be immediate and smooth.

14. Shoulder-In

14.1 For Four-in-hand: Shoulder in for the driven horse is performed in collected trot. The leaders are positioned so that the outside leader's tail is in front of the head of the pole. The leaders' shoulders are taken to the inside with a constant angle of approximately 30 degrees and a slight but consistent bend in the neck. The inside hind leg strides forward into the line of the outside front leg so that the horses are working on three tracks. Impulsion, rhythm and engagement must be maintained throughout. Too much bend in the neck results in loss of rhythm and suppleness. The wheelers must remain straight with no counter bend

14.2 For Singles: The shoulder-in is performed in the collected trot. The horse is driven with a slight but uniform bend maintaining engagement and cadence and a constant angle of approximately thirty (30) degrees. The horse's inside foreleg passes and crosses in front of the outside foreleg; the inside leg steps forward under the horse's body weight following the same track of the outside foreleg, with the lowering of the inside hip. The horse is bent away from the direction in which it is moving.

15. Diagonal Yield

Horse nearly parallel to center line, crossing legs diagonally, hind direction diagonal front together, with slight flexion to the inside.

16. Stretching the frame

Athletes lengthen the reins gradually to the horse(s) using a guided hand, to encourage and enable the horse's neck to stretch forwards and downwards. As the neck stretches forwards and downwards, the horse's mouth should reach the horizontal line corresponding with, but not lower than, the top point of the shoulder. An elastic and consistent contact with the athlete's hands must be maintained and at no point should slack or loose rein be visible during the exercise. The same rhythm and impulsion will be maintained and the horse should remain light in the shoulders with the hind legs well-engaged. As soon as stretching of the frame has been demonstrated, the athlete will bring the horse(s) back to the preceding head carriage by retaking the reins during which the horse must accept the contact without resistance in the mouth or poll.

17. Transitions

Changes of pace must always be made smoothly and promptly with the horse remaining in balance and on the bit. A transition must be completed as the nose of the horse arrives at the prescribed marker, unless otherwise stated.

18. Change of Pace and Movement

Changes of pace and movement are made when the heads of the leaders reach the point indicated in the test.

19. Terminology

The following must be considered when judging driven dressage movements:

1. Obedience and Lightness – willing response to aids without resistance and correctness of bend.
2. Regularity – the regularity, evenness, and rhythm with which the horse puts its feet to the ground.
3. Contact – the connection through the reins between the athlete's hands and the horse's mouth. It should be soft and steady at all times.
4. Impulsion – the willingness of the horse to go forward energetically at all times and to respond quickly and evenly to changes of pace. The horse must remain in balance while maintaining the same tempo with strides of equal size.

5. Straightness – carrying the head, neck, and body in a straight line with the weight evenly divided among the legs. On curved lines the hind legs need to follow the footprints of the forefeet (no escaping or swinging out).
6. Collection – roundness and engagement with good hock action, elevated poll allowing the shoulders to move with ease. The horse's energy is contained in a more deliberate pace than the working trot.

The haunches are more compressed, the croup is lowered and the forehead elevated to the same degree. The stride is shorter but more powerful than the working trot and the front legs will move from the shoulder with greater agility resulting in lightness and greater mobility throughout. The neck should be more arched. The shortening of the frame is not and never should be a result of pulling back but rather of asking and allowing the horse to move forward into the athlete's hand.

Accuracy – Correctness, roundness, and correct size of figures and lines (including corners) as asked in the test.

DC939 General Impression

1. Principle

There are two boxes at the end of the Judges Score Sheets for marks on: Athlete and General Impression & Presentation observed by the judges throughout the whole test.

2. Athlete

2.1 Use of aids, handling of reins and whip, position on the box, accuracy of figures. The mark must reflect the consistent level of accuracy and quality of transitions.

2.2 Para-Driving Athletes in able-bodied competitions - athletes may salute with a nod of their head only. Hats must not be removed at the salute, and contact must be maintained on the reins during the halt and salute.

2.3 Para Driving Athletes are allowed to do one handed movements with two hands, when mentioned in the FEI Classification Master List of active Para Driving Athletes or their Federation dispensation following the classification of the athlete. The maximum points attributed to the athlete shall be 4, if the movement is correctly executed.

3. General impression & Presentation

Appearance of athlete and grooms, correctness, cleanliness, harmonizing with of harness and carriage.

Fitness, matching and condition of horse(s), balanced picture of the complete turnout. Clearance and fit of harness. Harmony between horse(s) and athlete.

DC940 Scoring

1. Marks

1.1 Marks out of 10 will be awarded for each numbered movement and for each heading under General Impression on the following basis:

10.0: Excellent	4.0: Insufficient
9.0: Very Good	3.0: Fairly Bad
8.0: Good	2.0: Bad
7.0: Fairly Good	1.0: Very Bad
6.0: Satisfactory	0: Not Executed
5.0: Sufficient (Marginal)	

1.2 Half marks can be awarded.

2. Error of Test

If an athlete attempts to perform a movement, or attempts to maintain the pace required, and fails to do so, but does not deviate from the track, the President of the Ground Jury may either treat it as an "Error of Course" (see paragraph 3 below), or they may decide to leave the Judges to give the movement an appropriate mark. If an athlete makes no effort to perform a movement in a test then it may either be treated as an Error of Test or as an Error of Course at the discretion of the President of the Jury.

3. Error of Course

- 3.1 An “Error of Course” is when an athlete deviates from the required track or when a movement is performed at the wrong pace, or omitted altogether.
- 3.2 In the event of an athlete making an Error of Course, the President of the Ground Jury will ring the bell and stop the athlete. The athlete must then resume the test from the beginning of the movement where the error was made. If the athlete is in any doubt, they may ask the President of the Ground Jury for guidance, without incurring any penalties.
- 3.3 If any part of the turnout leaves the arena during a movement, it will be marked down for inaccuracy.
- 3.4 If the whole turnout leaves the arena before completing the test, the penalty will be elimination.
4. Disconnected or Broken Harness
If the reins, pole strap, chains or trace become disconnected or broken, or should the horse get a leg over the pole, trace or shaft, the President of the Ground Jury must ring the bell and a groom(s) must dismount and re-connect or repair as appropriate. The athlete will be penalized for a groom(s) dismounting.
5. Disobedience
Any resistance in the forward movement, kicking or rearing is considered to be disobedience and will be penalized by the Judge at C, as follows:
1st Incident 5 penalties
2nd Incident 10 penalties
3rd Incident Elimination
6. Carriage overturn
A carriage overturn is elimination.

DC942 Classification

1. Total Marks

- 1.1 The individual marks awarded by each Judge for each movement and for General Impression will be added together and divided by the number of judges to obtain the average score.
- 1.2 In order to adjust the influence of Driven Dressage on the whole event, where the total possible marks for the test are greater than 160, the average score will be multiplied by the coefficient printed on the score sheet to obtain the adjusted average score to be used in the results.
- 1.3 Penalties are only awarded by the President of the Ground Jury at C. Any penalties will be deducted from the average adjusted score and the final total will be deducted from 160 to obtain the penalties for the test.
- 1.4 Scores will be calculated to two decimal places.
- 1.5 The Athlete with the lowest score in penalties will be the winner Driven Dressage.

SUBCHAPTER DC-12 MARATHON

DC943 General

1. The objective of Marathon is to test the fitness, stamina, and training of the horses, and the driving skill and general horsemanship of the athlete.
2. Overview of the Marathon competition

2.1 Short Format Driving Events must use a Modified Marathon.

DC944 The Course

1. General

1.1 Maximum Distances and speeds must not be exceeded.

1.2 These speeds may be reduced by the Technical Delegate and the President of Jury in the case of adverse weather or ground conditions.

1.3 The Marathon Course must consist of two sections (A and B or Controlled Warm-up and B) and a Cool Down in all classes and levels. The Beginner division will not use a Section A, but can use a Controlled Warm-up.

1.3.1 At Short Format Driving Events, a Modified Marathon will consist of an optional Controlled Warm-up and Section B with 3-5 obstacles. No formal Cool Down section is required.

1.4 The total distance in Section B should be approximately one km per obstacle and preferably not less than 700m between two consecutive obstacles. The total distance in Section B must include the distances through the obstacles.

1.4.1 At Short Format Driving Events, the total distance in a Modified Marathon Section B should be approximately one kilometer per obstacle and preferably not less than 500m between two consecutive obstacles.

1.5 The distances between the end of one section and the start of the next must not be included in the total length and time of the course.

1.6 As an alternative option to the Section A, there can be a controlled warm-up with a maximum time allowed of 30 minutes in a designated warm-up arena of minimum 5000 square meters, properly supervised, with a judge in attendance.

1.6.1 At Short Format Driving Events, a controlled Warm-up may be used but is not required. The Technical Delegate must approve a Warm-up area of any adequate size to accommodate 3 or more entries at a time and the warm-up obstacle is optional.

1.7 Before the start of Section B, a marathon-type warm-up, made of any material and situated in a separated area, must be provided. Each athlete may use the Warm-up obstacle for a maximum of 2 minutes. Grooms must be on the Carriage during the Warm-up Obstacle, failure to comply will incur a Yellow Warning Card. Grooms may dismount when the turnout is standing still with no penalty.

BOD 06/17/24 Effective 12/01/24

4. Compulsory rests

The In-Harness Inspection is not required; however, the safety check must be performed before the start of the Marathon, as described in DC 920. At Short Format Driving Events, for the Modified Marathon the in-harness inspection and safety check are optional at the discretion of the Technical Delegate.

4.1 There must be a halt of 10 minutes in the designated Neutral area prior to the start of Section B. When Section A is a 'controlled Warm-Up', the halt must be reduced to 5 minutes.

4.2 The Neutral area of the halt should, if possible, provide some shade and must be large enough to accommodate three turnouts at once and have room for additional motor vehicles.

4.3 Water must be provided at the Neutral area for the horses.

4.4 A farrier must be available at the start of the Marathon. At Short Format Driving Events, a farrier can be on-call rather than on-site for a Modified Marathon.

4.5 Para Driving: quick release systems to secure a wheelchair and lap belts or 4 points belts with a quick release system must be checked by the Technical Delegate before the start of the marathon.

4.6 In exceptional circumstances, the minimum time required for the halt may be increased by the President of the Jury in consultation with the Technical Delegate.

4.7 Turnouts may stand, walk, or trot within the Neutral area.

5. Section and direction signs

5.1 The beginning and end of each section must be marked with a pair of red and white flags.

5.2 The entire course must be clearly marked with yellow direction markers placed, wherever possible, on the right hand side of the track to be clearly visible to the approaching athlete. A confirmation directional arrow must be placed after every significant turn.

5.3 Sections A and B must have a marker at every kilometer. In Section B the measurement of the kilometers must include the distances through the obstacles.

5.4 The marker for a kilometer occurring within an obstacle should be placed on the post supporting the red exit flag.

5.5 When multiple divisions/levels are offered, the kilometer markers on the Marathon shall be color-coded and/or shaped.

6. Compulsory turning flags

6.1 Sufficient red and white compulsory turning flags must be positioned on the course to ensure that all athletes follow the designated track. Athletes must leave the red flags on their right and the white flags on their left. These

compulsory turning flags must be numbered consecutively in each section and they must be placed so they are clearly visible to athletes from a reasonable distance.

6.2 The location and number of the flags must be marked on the map of the course to clearly indicate the correct route to be driven between the compulsory turning flags before and after each obstacle. In addition, a list showing the order for driving compulsory turning flags and obstacles must be provided for athletes and officials.

6.3 Ground Observers must record the athlete's track through the compulsory turning flags; if any compulsory turning flags are missed out or passed in the wrong sequence, the details must be reported to the member of the Ground Jury or Technical Delegate as soon as possible.

6.3.1 At Short Format Driving Events, ground observers are not required. See DC 948.2.1 for penalties on compulsory turning flags.

7. Paces

7.1 The finish of Section B must not be more than 300m from the exit of the last obstacle unless the Technical Delegate grants an exception. If the last obstacle is situated within 300m of the finish, the Athletes may stop within 30m of the out gate of the obstacle to repair a broken or detached harness without penalty. A 30m marker will be placed on the track to indicate this point if the last obstacle is within 300m of the finish.

7.2 Between the 30 meter sign of the last obstacle (or 300m) and finish, pace must be trot or walk only. The athlete will accumulate one penalty point for each 5 seconds the turnout is not at the walk or trot.

8. Cool Down Area

8.1 At the end of the Section B, a Cool Down area (Arena, Loop or track) of between 800 m and 1200 m in size must be installed. The In-Harness examination, as per DC 920 must be performed between ten and fifteen minutes after the athlete has entered the cool down area. The groom(s) may walk besides the carriage, and additional support personnel may be present in this area. The only penalty that can be incurred in the Cool Down Area is elimination, if the athlete leaves the area before presenting their horses. Brushing boots and bandages may be removed from the horses. After the horses have been examined and cleared by the veterinarians, turnouts must leave the Cool Down Area.

8.2. At Short Format Driving Events, a formal Cool Down Area is not required.

DC945 Obstacles in Section B

1. Number of Obstacles

1.1 Refer to the chart in DC 944.

2. Sketches of Obstacles

Accurate sketches of each obstacle, showing the location of the compulsory gates, dislodgeable/detachable elements and entry/exit flags must be made available to athletes, team and event officials before the first inspection of the course. **In order to avoid Athletes driving a dangerous and unsafe route through an Obstacle, the Course Designer may draw a double line of any color on the course map and on the ground to indicate a track which cannot be crossed at any time by an athlete. If the athlete crosses the area of the course marked by the double line, they will incur 20 penalty points. A Course Designer cannot draw more than 8 double lines on the course map in total. The double lines to be used in the course must be drawn on the ground at least 48 hours before the first start of the Marathon competition.**

3. Design and Construction of Obstacles

3.1 The number of each obstacle must be clearly displayed on the post supporting the red entry flag.

- 3.2 The entry and exit of each obstacle must be marked by red and white flags (red on the right and white on the left), not less than 20 m from the nearest lettered gate, unless the Technical Delegate grants an exception. After the finish line of each obstacle, a 30m sign must be established. A dismounted groom in an obstacle must be back on the carriage before the rear axle passes the sign.
- 3.3 The track through an obstacle should not exceed 250m on the shortest, 2.5m drivable route. That is not narrower than 2.5m at any point, between the entry and exit flags. The track may exceed 250m in exceptional circumstances, at the discretion of the Technical Delegate. A legal drivable route for VSE entries through an obstacle must not be narrower than 200cm at any point.
- 3.4 Obstacles must be at least 700m apart. The Technical Delegate may grant an exception. At Short Format Driving Events, obstacles can be a minimum of 500m apart.
- 3.5 Obstacles must be clearly numbered in the sequence in which the athletes are required to drive them.
- 3.6 Obstacles must not include any feature, which might cause damage or injury to the horses.
- 3.7 Artificial obstacles should be solidly constructed and firmly fixed, so that they are unlikely to be moved or broken during the competition.
- 3.8 If the Course Designer includes any element in an obstacle, which in the opinion of the President of the Jury and Technical Delegate could frighten the horses, an alternative route must be provided, within the obstacle.
- 3.9 Where a constructed water crossing is included in an obstacle, the depth of the water must not be more than 30cm. Where natural water is used the Technical Delegate may allow a maximum depth of 50cm. The bed of any water crossing must be firm. Where water depth exceeds 50cm a substantial fence, firmly fixed, must be constructed, to prevent horses going into deep water.
- 3.10 If a barrier for crowd restraint is required, by local regulations or the Organizer, it must not be positioned closer than 20m from the nearest element in the obstacle, unless the Technical Delegate grants an exception.
- 3.11 Beginner level Marathon courses must not require a route that goes through water.
4. Compulsory gates
 - 4.1 Obstacles will include compulsory gates marked with red and white signs lettered A up to F, indicating the sequence and direction in which the gates must be driven. Advanced will drive gates A to F; Intermediate will drive gates A to E; Preliminary and Training will drive gates A to D; Beginner will drive gates A to C.
 - 4.2 As an alternative option, a maximum of two letters can be used twice in the same obstacle.
 - 4.3 The height of all elements within a compulsory gate must not be less than 1.30 meters. Minimum height for gates and elements for VSEs is 1.0 meter unless an exception is granted by the Technical Delegate.
 - 4.4 For fixed obstacles, the minimum width of a compulsory gate is 2.50 meters. For heavy mobile obstacles, please refer to DC 945. The minimum width of a compulsory gate for VSEs is 2.0 meters. There is no maximum width.
5. Dislodgeable/detachable elements
 - 5.1 The Course Designer may choose any type of dislodgeable/detachable element with a preference for balls such as used in Cones.
 - 5.2 All dislodgeable/detachable elements may not interfere with, or cause injury to the horse or damage to the carriages, when they are dislodged.
 - 5.3 The cups that hold the ball on a dislodgeable element should be a standard 45 - 55mm pipe to hold the balls from the cone driving competition. The cups must be of sufficient depth so that the ball does not rest on the post.
 - 5.4 The number of dislodgeable/detachable elements must not exceed 24 in total on fixed obstacles, heavy mobile obstacles must have one dislodgeable/detachable element each, not counting in the 24. When mobile elements are used, this number can be increased. For Beginner, Training, Preliminary, and Intermediate levels, the number of dislodgeable elements is not limited subject to approval of the Technical Delegate.
 - 5.5 Athletes will incur 2 penalties for each element dislodged.
 - 5.6 A dislodgeable/detachable element is "live" at all times until it is dislodged or completely detached.
 - 5.7 An athlete or groom who attempts to prevent a dislodgeable/detachable element from being dislodged will incur 10 penalties.

6. Obstacles in a Combined Marathon course.
 6.1 Width of cones. The following clearances shall apply.

Division Class	Cones Width
Horse Four-In-Hand	1.90m
Horse Pair	1.80m
Horse Single	1.60m
Ponies Four-In-Hand	1.80m

DC946 Inspection of the Course

1. Visit of the Technical Delegate

At least three (3) days before Marathon, the entire course, including the obstacles, must be available for inspection and approval by the Technical Delegate.

 - 1.1 For Short Format Driving Events, the Modified Marathon course and obstacles must be available for inspection and approval by the Technical Delegate at least 36 hours before the start.
2. Briefing for Athletes and Officials
 - 2.1 The Technical Delegate must arrange a briefing for members of the Ground Jury and the athletes prior to the official opening of the course.
 - 2.2 Ground Observers, obstacle observers, and time keepers must be briefed by the Technical Delegate or their designated representative before the start of Marathon.
 - 2.3 Copies of maps of the entire course must be available at the briefing, for those requiring them. The maps must show each section, the location of all the obstacles and numbered compulsory turning flags, kilometer markers, and any areas of the course which are closed to motor vehicles.
 - 2.4 Drawings of the obstacles must be available for athletes, and officials during the briefing.
 - 2.5 A list showing the order for driving compulsory turning flags and obstacles must also be made available.
3. Inspection of the Course by Athletes.
 - 3.1 At least 48 hours before the first athlete is due to start Marathon, the whole course must be open for inspection by the athletes, except under exceptional circumstances, when organizers have the option not to open Section A for inspection, with the agreement of the Technical Delegate.
 - 3.1.1 At Short Format Driving Events with a Modified Marathon, the whole course must be open for inspection by athletes at 12:00 pm (noon) the day before the scheduled start.
 - 3.2 The Technical Delegate may impose restrictions on the means of access to certain parts of the course.
 - 3.3 The course is closed for inspection from the time the first athlete starts Section A or Controlled Warm-up. The obstacles in Section B may be left open until the first athlete starts Section B.
 - 3.4 Athletes using motor vehicles must remain on the roads and tracks designated by the Technical Delegate.
 - 3.5 The Obstacles may only be inspected on foot. No motor vehicles or bicycles may be taken inside any part of an obstacle and the Controlled Warm-up. Failure to comply will be penalized by the issue of a Warning

for the first infringement and a Yellow Warning Card for the second. Athletes with disabilities must obtain dispensation from the Organizer to be exempt from this DC and their vehicles clearly identified.

DC947 Times

1. Timetable
 - 1.1 A timetable showing the start of Section A or Controlled Warm-up and the time table of each Section, including the halt, must be drawn up by the Organizer for the Ground Jury and Technical Delegate. It must be adjusted in the event of unforeseen circumstances and redistributed.
 - 1.2 A timetable showing the starting time for each athlete on Section A or a Controlled Warm-up must be provided to the athletes and the timekeeper at the start of Section A. Running order lists must be provided to all other timekeepers, ground observers and obstacle observers.
2. Times in Sections
 - 2.1 The Time Allowed in all Sections is calculated according to the average speed selected for that Section.
 - 2.2 The Minimum Time in Section A is two minutes less than the Time Allowed.
 - 2.3 The minimum time in a Controlled Warm-up is two minutes less than the time allowed.
 - 2.4 The Minimum Time for Section B is three minutes less than the Time Allowed.
 - 2.5 The Time Limit for Section A and Controlled Warm-up is the Time Allowed plus 20%. The Time Limit for Section B is twice the Time Allowed.
 - 2.6 The time limit in the Cool Down area is minimum of 10 minutes and maximum of 15 minutes.
 - 2.7 An athlete who exceeds the time limit in any section will be eliminated.
3. Timing
 - 3.1 Electronic timing equipment should be used for the timing of athletes in each Section and the obstacles, whenever possible.
 - 3.2 Time Keepers at the start and finish of each Section must record the start and finishing times for each athlete on the Section Timer Record and enter the time on the Athlete's Marathon (Green) Time Card.
4. Start and finish for Section A, Controlled Warm-up, B, and Cool Down
 - 4.1 Athletes should be at the start of Section A or the Controlled Warm-up at least 10 minutes before their published Start Time.
 - 4.2 If an athlete is not ready to start Section A or the Controlled Warm-up at their scheduled time, the Timekeeper will start the athlete at the earliest available time at their discretion, and record the actual starting time, which must be reported to the Technical Delegate and President of Jury, for onward transmission to the Scorer, at the earliest opportunity. The athlete will be penalized 0.25 of a penalty per second of the time elapsed between their scheduled start time and the time they were ready to start and the athlete must not be allowed to start less than 2 minutes before the next athlete's starting time. For the avoidance of doubt, athletes will not be penalized where the start of Section A is delayed for organizational reasons.
 - 4.2.1 At Short Format Driving Events, DC 947.4.1 & 4.2 do not apply. Timekeepers can start an athlete out of order with no penalty, but should notify an Official of the change so the timecards can be confirmed. Athlete must start each section from the halt with the leading horse behind the line. The Timekeepers will count down to the start time. If an athlete starts before the Timekeeper gives them the authorization, the athlete will be recalled, a new start will be given and the Marathon Time Card will be amended. If the athlete fails to stop they may be eliminated. A member of the Ground Jury must be made aware of the circumstances as soon as possible.
 - 4.3 The timing of the section ends when the nose of the leading horse has passed the finish line. Section penalties will apply until the whole turnout has passed the finish line.
5. Time Penalties in the Sections Section A, Controlled Warm-up, and Section B
 - 5.1 In Section A, Controlled Warm-up, and Section B athletes will be penalized 0.25 of a penalty per second for exceeding the Time Allowed.

Athletes completing Section A, Controlled Warm-up, and B in less than the minimum time will be penalized 0.25 of a penalty point for each second they are early.

DC948 Penalties on the Marathon Course

1. Whips

Whips, if carried, can only be used by the Athlete. Failure to comply will incur 20 penalties.

1.1 Para Driving athletes from nominated profiles may compete with the whip held or used by groom, but must have this noted on the FEI Masterlist or their Federation dispensation following classification evaluation.

2. Error of Course. If an athlete fails to pass through a compulsory turning flag (CTF) in the designated sequence, they may return to the point of error and drive the CTF, provided they have not driven the following CTF or the next Obstacle. An athlete who fails to pass through a CTF or a multiple CTF which is to be drive several times with different numbers, in the published sequence and direction as indicated on the Course plan will be eliminated.

2.1 At Short Format Driving Events, in the Modified Marathon, an athlete who fails to pass through a CTF in the published sequence and direction will incur 5 penalties per error (and no elimination). Deviation from the Course

2.1 Athletes must not deviate from the track for the last 300 meters or between the last obstacle and the finish of Section B. Athletes who stop, circle, zig- zag, or leave the track in any other way will incur 10 penalties for each occurrence.

2.2 Exception: See DC944.6

3. Incorrect pace

Should one or more horses break into a canter within the last 300m before the finish and is not corrected within five seconds the athlete will incur 1 penalty for every occurrence. If the break continues, the athlete will incur 1 penalty for every additional completed period of five seconds.

4. Dismounting in the sections

4.1 During Section A, Controlled Warm-up and Section B (except inside the Obstacles), grooms and athletes are not allowed to dismount unless the carriage is stationary. If the vehicle is not stationary, either or both groom(s) dismounting will incur 5 penalties, the athlete dismounting will incur 20 penalties.

4.2 In the Cool down area, grooms and additional personnel maybe present to remove boots, attend to horses, and add assistance when needed. Only grooms and additional personnel who are assisting may be present during the cool down period.

4.3 The athlete and all grooms must be on the carriage as it crosses the start and finish lines and passes through the Compulsory Turning Flags in each section (Section A, Controlled Warm-up, and Section B). Failure to do so incurs 5 penalty points for grooms and 20 penalty points for athlete on each occasion.

4.4 In exceptional circumstances, if warranted due to the condition of the terrain or weather, the Technical Delegate and the President of the Ground Jury may permit grooms in competitions for ponies and single horses to run behind their carriage on designated parts of the course.

5. Stopping

5.1 Athletes may stop for repairs to carriages or harness or for any reason beyond the athlete's control, anywhere on the course other than while negotiating an obstacle, without incurring penalties, other than loss of time, except as in 960.8.

5.2 Athletes will incur 1 penalty point for each commenced ten seconds that they remain stopped on the course for any other reason.

5.3 If an obstacle is situated within 300m of the finish line, an athlete is allowed to stop to carry out necessary repairs as long as they stop within the signed 30 meters after leaving the last obstacle to make necessary repairs to the harness or carriage without penalty. Stopping for any other reason between the last obstacle or the 300m sign, whichever is closer to the finish line in Section B will incur 10 penalties for each occurrence.

6. Damaged Carriage/Harness

6.1 At the Finish of Section B any missing or disconnected trace, pole strap, or reins will incur 10 penalties for each occurrence.

6.2 At the Finish of Section B a broken or disconnected pole or shaft or bit will incur elimination.

6.3 Carriages must pass the finish of Section B drawn by the number of horses required for the designated class and on the designated number of wheels. Failure to comply will incur elimination. Broken or missing tires are acceptable.

6.4 Carriage overturn. If the carriage overturns (either on the Warm-up Obstacle, Marathon course or in an obstacle), the penalty is elimination and the athlete may not continue on the Marathon.

DC949 Obstacle Penalties

1. Pace in Obstacles

Athletes in the Preliminary division and above may use any pace in the obstacles. The beginner and training divisions must only walk or trot in the obstacles (DC948.4 applies for incorrect pace).

2. Error of Course in an Obstacle

2.1 Athletes entering any part of an obstacle without first passing through the entry flags or failing to pass through the exit flags on leaving an obstacle without correcting the error will be eliminated.

2.2 The compulsory gates in an obstacle are “free” after an athlete has passed through them in the correct direction and in the correct sequence. Athletes may, therefore, go through them again in any direction at any time (for example, athletes must go through A in the correct direction before going through B. A is now “free” and they may go through it again in any direction as often as they like, and so on).

2.3 Athletes, who pass through a compulsory gate in the wrong sequence or direction before it becomes “free” and without correcting the error before passing through the Exit Flags, will be eliminated.

2.4 In order to correct such an error of course, the athlete must return to and drive through the compulsory gate they missed before continuing through the next compulsory gate in the correct sequence (for example, an athlete drives through compulsory gates A and B and then goes through D (missing gate C). In order to correct this error of course, the athlete must go back and drive through gate C before going on to gate D, etc. All gates are neutralized until they reach this gate. Each error corrected shall incur 20 penalties.

2.5 Passing through the exit gate of an obstacle without driving all compulsory gates in the correct sequence will be penalized by elimination.

2.6 An athlete is not considered to have passed through a compulsory gate in an obstacle until the whole turnout has passed between the flags denoting the compulsory gate.

2.7 **An Athlete is not considered as having crossed a double line as per DC 945.2 until the whole turnout has crossed the double line.**

3. Dismounting in the obstacles

3.1 Each time either or both grooms put both feet on the ground in an obstacle, the athlete will incur 5 penalties.

3.2 Once Grooms have dismounted they are not required to get back on the carriage and need not follow the athlete through any of the Compulsory Gates in the rest of the obstacle. Grooms do not have to be on the carriage when it leaves the obstacle. They can get on the carriage outside of the obstacle.

3.3 Each time an athlete dismounts in an obstacle they will incur 20 penalties. The athlete must be on the carriage when it leaves the obstacle.

3.4 In all incidents (for example trace or reins or lead bar over a pole etc.) the grooms must dismount and solve the problem (no climbing over horses or pole). Failure to comply will incur 20 penalties.

3.5 An athlete or groom may only put one foot on any part of an obstacle without incurring penalties. Contravention of this DC will result in 5 penalties.

3.6 A groom may assist the athlete by leading a horse through the obstacle by the bridle end of the reins. The athlete will incur 25 penalties in total. See Rules DC953 and 930.3.

3.7 Groom(s) must be on the carriage when the athlete enters each obstacle on the Marathon. Failure incurs 5 penalties.

4. Disconnecting

Deliberately disconnecting one or more horses and leading them through any part of the obstacle will be penalized by elimination.

5. Elimination in an Obstacle
The decision whether an athlete is eliminated in an obstacle rests entirely with the Ground Jury.
6. Welfare of the Horse
 - 6.1 It is the responsibility of the athlete to stop immediately and put a groom or grooms down whenever a horse has its leg over a pole, shaft, when a wheeler has a leg over the lead bar or the leader's trace, or when a horse is down and remains down. Also, they must stop when instructed to make necessary repairs by a Member of the Ground Jury or Obstacle Observer. However a trace down or a pole strap disconnected needs no repair inside an obstacle. The time will continue to run.
 - 6.2 Failure to stop and put the groom down to correct the situation before leaving the obstacle will incur elimination.
 - 6.3 It is the responsibility of the Athlete to stop immediately and put a groom or grooms down whenever a horse has a leg over a trace. Also, they must stop when instructed to correct the situation by a Member of the Ground Jury or Obstacle Observer. Failure to stop and put the groom down to correct the situation before leaving the obstacle will incur 30 penalties. The time will continue to run.
7. Timing
 - 7.1 The athlete will be timed from the moment when any part of the turnout crosses between the entry flags until any part of the turnout passes between the exit flags from the right direction. Once the timer has stopped, no further penalties from that obstacle can be incurred and the turnout must leave the obstacle.
 - 7.2 Electronic timing equipment should be used to time athletes through the obstacles if at all possible.
 - 7.3 The time limit for athletes in obstacles is five minutes. If athletes fail to complete the whole obstacle and pass the exit flags within the time limit, the Obstacle Observer is to blow two blasts on a whistle indicating to the athlete that the time limit has been reached. The athlete is eliminated, must then vacate the obstacle as quickly as possible (with assistance if necessary) and the horses must be checked by the veterinarian at the end of the Cool Down Area or in the stables if they have been given the authorization to go directly back to the stables by the veterinarian. The athlete may not continue in the Marathon competition.
 - 7.4 The time taken for an athlete to complete an Obstacle shall be recorded to hundredths of a second, either manually or electronically.
 - 7.5 There is no rounding of time or conversion to penalty points for individual obstacles.
8. Hold Ups
 - 8.1 If an athlete arrives at an obstacle while the previous athlete is still negotiating the obstacle, or if the obstacle is not ready to be driven, the athlete is to be held at a point on the course approximately 50m from the Entry Flags.
 - 8.2 One of the Assistant Obstacle Observers is to stop the athlete at that point and start their stopwatch. As soon as the previous athlete is clear of the obstacle, and the Obstacle Observer approves a restart, the Assistant Obstacle Observer will restart the athlete and inform the athlete of the duration of time the athlete was held. This time must be recorded in whole or half minutes next to the athlete's Identification Number on the Obstacle Observation Sheets.
9. Obstacle video recording
Video recording at each obstacle is recommended in all events, but not required.

BOD 06/17/24 Effective 12/01/24

DC950 Judges

1. Positions
 - 1.1 At the compulsory halt before Section B, based on the advice of the veterinarian, a Judge shall decide whether the horses are in a fit condition to continue the competition.
 - 1.2 One member of the Ground Jury must be at the Cool Down area to supervise the inspection of carriages, harness and Marathon Time Cards and when applicable to supervise the weighing of the carriages. An athlete whose carriage is below the prescribed weight will be eliminated. (See DC922.4).

- 1.2.1 At Short Format Driving Events, Judges are not required to be present at the end of the Marathon Course.
- 1.3 The rest of the Jury will be positioned by the President of the Ground Jury.
- 1.4 Members of the Ground Jury at the end of Transfer or Section B are not required to assist the veterinarian in pulse and respiration checks. Organizers should ensure sufficient volunteers are available to assist the veterinarians.

DC951 Officials

1. Ground observers
 - 1.1 Ground Observers should be allocated positions around the course by the Technical Delegate from which they can observe the most critical compulsory turning flags.
 - 1.1.1 At Short Format Driving Events, ground observers are not required. See DC 948.2.1 for penalties on compulsory turning flags.
 - 1.2 Ground Observers must be given the starting order of athletes together with copies of instructions and the Ground Observers Report and a Control Sheet.
 - 1.3 Ground Observers must report all incidents for which an athlete may be penalized, and any other information, to the Ground Jury or a member of the Ground Jury periodically and at the end of their period of duty.
 - 1.4 Ground Observers cannot eliminate or otherwise penalize athletes. It is the responsibility of the Ground Jury to impose appropriate penalties.
 - 1.5 After the competition, Ground observers must remain in the vicinity of the Secretary's Office until dismissed by the President of the Ground Jury.
2. Timekeepers
 - 2.1 Each Timekeeper will be provided with a chronometer with a "time of day" display and instructed in its use by the Technical Delegate or the Chief Timekeeper. The Technical Delegate or their assistant is responsible for the synchronization of the "time of day" on all chronometers issued to Officials.
 - 2.2 The Timekeeper at the start of Section A or Controlled Warm-up must be issued with the starting time schedule and should ensure that athletes have been given a Marathon Time Card (Green Card).
 - 2.3 All other Timekeepers at the start and finish of each Section must be provided with the complete list of athletes and a running order.
 - 2.4 Timekeepers are required to record the start and finish times for their respective Section and to enter them on the athlete's "Marathon Time Card" and the "Section Timer Record".
 - 2.5 Horses must start from the halt with the nose of the leading horse behind the start line.
 - 2.6 The finishing time will be taken as the nose of the leading horse crosses the finish line. The section is finished as the rear axle has passed the Finish Line.
 - 2.7 After the competition, Timekeepers must remain in the vicinity of the Secretary's Office until dismissed by the President of the Ground Jury.
3. Obstacle observers
 - 3.1 There must be one Obstacle Observer at each obstacle. Each Obstacle Observer should have at least two assistants. Short Format Driving Events can have one assistant. The Obstacle Observer must be given a whistle and two stopwatches and instructed in their use by the Technical Delegate or their assistant. They must record the exact time to 1/100th second taken by each athlete through the obstacle.
 - 3.2 Obstacle Observers must be given a starting order listing all athletes together with sufficient copies of Obstacle Reports and diagrams to record each athlete's time and the sequence of the gates through the obstacle as driven.
 - 3.3 In case of incorrect sequence, a drawing of the route must be recorded.
 - 3.4 Obstacle Observers must record and report all incidents to a member of the Ground Jury, as soon as possible after the incident occurred.
 - 3.5 After the competition, Obstacle Observers must remain in the vicinity of the Secretary's Office until dismissed by the President of the Ground Jury.

DC952 Classification

1. Conversion of time to penalties

1.1 The total time taken by the athlete in the Obstacles will be recorded to 1/100 second and penalties will be calculated to 2 decimal places. Any time over the Time Allowed in each of the Sections will be added together and multiplied by 0.25. Any time under the Minimum Time in Sections A and B will be multiplied by 0.25. There shall be no rounding of times. The penalties for under Minimum Time; plus penalties for over Time Allowed and the total obstacle times shall be added to any other driving penalties received to determine the final score for each athlete in Marathon.

1.2 For athletes who are eliminated or retire see DC 911.

1.3 The athlete with the lowest number of penalties will be the winner of the Competition.

1.4 In the event of an equality of penalties, the athletes will be placed on equal rank.

SUBCHAPTER DC-13 CONES

DC954 General

The Cones Competition is to test the fitness, obedience and suppleness of the horses and the skill and competence of the athletes.

DC955 Competitions

1. The Fault Competition shall be used in Driving Events.
 - 1.1 The Fault Competition is conducted on the basis of penalties for obstacles knocked down and for exceeding the Time Allowed. The score from this round will always be used solely to decide the Final Classification in all Events.
 - 1.2 There may be a drive-off between all athletes with zero penalties, or equality of penalties to determine the winner of Cones.
2. The Time Competition

The Time Competition is conducted on the basis of the time in seconds taken by athletes to complete the

course, with any penalties for faults converted to penalty seconds. Time Competitions are only to be used to determine the placings in Cones.

3. Competition in Two Phases:

The result of the first section may solely be used for the final results of the Combined Driving event.

4. Competition with a Winning Round:

A competition run over one round according to penalties and time which will count for the final classification in the Driving Event, and a winning round to determine the placings in Cones.

DC956 The Course

1. Building and Measuring the Course

1.1 The Course Designer is responsible, under the supervision of the Technical Delegate, for laying out, marking and measuring the course and building the obstacles. The Course Designer may indicate with a dotted line on the course plan how the length of the Course was measured. The President of the Ground Jury must ensure that the length of the Course was measured accurately.

1.2 The arena should be not less than 5000 m with a minimum width of 40 m or an equivalent area. Should this not be possible the number of obstacles must be reduced accordingly unless an exception is granted by the Technical Delegate.

1.3 The starting and finishing lines may not be more than 40m nor less than 20m from the first and last obstacles respectively.

1.4 The number of obstacles may not exceed 20 (except DC963.3).

1.5 The length of the course must be between 500m and 800m.

1.5.1 At Short Format Driving Events, the length of the course can be between 400m and 800m.

1.6 Courses must be laid out so that athletes have a chance to maintain a reasonably fast pace throughout the major part of the course. Certain obstacles, and combinations of obstacles, such as open and closed multiples, will inevitably slow down the pace, but such a layout should be limited to a small proportion of the whole course.

1.7 All obstacles should be visible from the Judges' box.

1.8 The President of the Ground Jury must walk the course to inspect it before the start of the Competition. The course is the track, which the driving athlete must follow when competing from passing the start in the correct direction up to the finish. The length must be measured accurately to the nearest meter taking account, particularly on the turns, the normal line to be followed by the horse(s). This normal line must pass through the middle of the obstacles. If there is an alternative obstacle, the official distance has to be measured by the longest route.

DC957 Obstacles

1. Cones

1.1 The cones forming an obstacle must be at least 30 cm high and made of indestructible plastic material. A weighted ball must be placed in the hollow on top of the cone, so that it falls down only if the cone is touched.

1.2 All obstacles consisting of a single pair or double pair of cones (oxer) will constitute a single obstacle.

1.3 The obstacle includes cones, red and white markers, numbers and letters.

1.4 The position of one of the pair of cones must be marked on the ground so that a constant position of the obstacle is maintained throughout the competition. Where practicable a line will also be drawn to ensure that the other cone is maintained at the correct angle.

1.5 Obstacles that entail reining back are not permitted.

1.6 An oxeur will be composed of two pairs of cones in a straight line. The distance between the first set of cones and the second set will be between 1.5 and 3 meters, at the discretion of the Course Designer. The oxeur counts as a single obstacle and the maximum penalty points for knocking down up to 4 balls is 3 penalty points in total. The first set of cones will have the number of the obstacle and be marked with

red and white signs and the second set of cones will be marked with only red and white signs. Refer to ANNEX 8.

1.6.1 A maximum of five oxers are allowed in a Cones course.

2. Multiple obstacles

- 2.1 Multiple Obstacles must conform to the design principles. See Annexes.
- 2.2 Variations or new designs must be pre-approved by the Federation and included in the Event Schedule.
- 2.3 A Multiple Obstacle may be constructed of markers or horizontal rails, elevated to a minimum of 40cm and maximum of 60cm in height.
- 2.4 Each group of cones or elements must be clearly separated and associated with one of the sections of the multiple.
- 2.5 A Multiple Obstacle, other than a “Serpentine”, “Zig-Zag”, a “Double Box”, a “Double U” or a “Wave” must not consist of more than three pairs of cones or dislodgeable elements.
- 2.6 Other than Serpentine, Zig-Zags, Double Boxes, Waves, and Double Us, a Multiple Obstacle may not be longer than 30m measured along the center line through the obstacle.
- 2.7 There may not be more than 3 Multiple Obstacles in any course.
- 2.8 In Multiple Obstacles Athletes can only incur a maximum of 6 penalties in a Double (A & B), 9 penalties in a Triple (A, B & C) and 12 penalties in a Serpentine, Zig-zag, Double Box, Wave, or Double U (A, B, C & D) per attempt, plus any penalties for a rebuild as well as penalties for Disobedience.
- 2.9 Multiple Obstacles may not be used in a Drive-Off. (See DC961 – Drive-off and DC965 – Summary of penalties).

3. Serpentine, Zig-Zags, Double Boxes and Double U and Wave

- 3.1 A Serpentine consists of 4 cones in a straight line facing in alternate directions lettered A, B, C, D (See Annexes).
- 3.2 A Zig-zag consists of not more than 4 pairs of cones, with alternate left and right cones in a straight line (refer to the website). All centerline cones must be placed in a straight line, either at the front, middle or rear of the cone.
- 3.3 A Double Box and a Double U and a Wave are illustrated in the Annexes.

4. Water and bridges

- 4.1 Where Water Obstacles and Bridge Obstacles are included in the course, prior notification must be given in the Schedule for the Event.
- 4.2 Water Obstacles must be at least 3m wide, with a depth between 20 and 40 cm and sloping sides. There must be a pair of cones at the entrance (flag lettered A) and exit (flag lettered B) with the cones 2.0m apart.
- 4.3 Knocking down a ball or balls on either A or B will be penalized as 3 penalties for each pair of cones.
- 4.4 Wooden bridges, or bridges of similar suitable construction approved by the Technical Delegate, with fan shaped wings at the entrance, with the bridge surface not more than 35 cm above the ground with a usable width of three meters and a maximum length of ten meters are permitted, boarded or rail sides are essential. The Technical Delegates may grant an exception if the bridge is of a permanent solid construction with strong side rails. There must be a pair of cones at the entrance (flag lettered A) and exit (flag lettered B) with the cones at least 2.0m apart.
- 4.5 A size-adjusted bridge may be offered for VSEs. Bridge dimensions may not be smaller than 2.5 meters wide, 7.5 meters long, 15cm. high. Entrance cones and exit cones shall be at least 2.0m apart.
- 4.6 Water obstacles may not be used as part of a Beginner, Training or Preliminary level course.

5. Markers

- 5.1 Each obstacle is defined by a pair of markers: a red marker on the right hand side and a white marker on the left hand side as athletes approach the obstacle. They are placed not more than 15cm outside the elements, which form the single and multiple obstacles.
- 5.2 The whole turnout must pass between these markers. Failure is considered as Disobedience. (See DC959.7.3 and 959.7.6.)
- 5.3 Decorations and obstructions must be placed on the course before the official course walk. No penalty is incurred if they are touched, displaced or knocked over.

- 5.4 All obstacles in the course must be numbered in the sequence in which they are to be driven. The number of each obstacle must be indicated on a board placed at the entrance to each single and Multiple Obstacle.
- 5.5 Each distinct section of a closed Multiple Obstacle (Ls, Us and Boxes) must be clearly marked in different colors. (See Annexes) The whole turnout must pass between these markers in the correct alphabetical order.
- 5.6 The red and white markers and the numbered and lettered boards may be combined, so that the numbers and letters appear on the same posts as the red and white markers, or they may be on separate boards or discs. If possible the numbers of the obstacles should be placed so that athletes can see them as they leave the previous obstacle.
6. Plan of the Course
 - 6.1 At least two hours (or one hour for Short Format Driving Events) before the start of the Competition for each class in the Event, a plan of the course, signed off by the Course Designer and the President of the Ground Jury must be posted in the Collecting Ring showing the length, speed in meters per minute and the Time Allowed for that class. Should the timing be adjusted by the Ground Jury, this will be announced by the Commentator.
 - 6.2 A plan for Cones need not be supplied to each athlete, provided one is posted on the Official Notice Board once the Course is approved by the President of the Jury and prior to the course being open for inspection.

BOD 06/17/24 Effective 12/01/24

DC959 Judging Cones Competition

1. Starting the Competition

- 1.1 The Technical Delegate will report to the President of the Ground Jury as soon as the course is ready. The President of the Ground Jury will then authorize and announce the start of the competition.

Starting the Cones course

After the bell run, the Athlete has 45 seconds to cross the start line.

- 1.2 At Short Format Driving Events, the POJ can appoint a Cones judge to oversee the course and document any penalties or errors. Any eliminations or disqualifications must be confirmed by an appropriate Licensed Official.

2. Penalties

- 2.1 If Athletes have entered the Arena but fail to start by passing through the start line within 45 seconds of the starting signal the timing will start.
- 2.2 If an Athlete fails to enter the Arena when the Course is ready, the President of Jury will ring the bell to signify the Start for that Athlete. If the Athlete has not entered the arena within 45 seconds of the first bell, the bell will be rung again and that Athlete is then eliminated.
- 2.3 Athletes starting and passing through an obstacle before the starting signal will be penalized 10 penalty points and must restart.
- 2.4 The start and finish lines are neutralized for passing through from the moment the Athlete has passed through the start line until they have passed through the last obstacle.
- 2.5 Knocking down one or both balls of a single obstacle and knocking down a ball or an element of a Multiple Obstacle incurs 3 penalties in each case.
- 2.6 Knocking down a ball or balls on either A or B on a Water or Bridge Obstacle will incur 3 penalties for each pair of cones.
- 2.7 Grooms must be seated in their proper places between the start and finish lines. For penalties, see DC902.1.2. The groom may advise the Athlete a whistle/bell has sounded.
- 2.8 After the last obstacle the Athlete must pass through the finish line with the red flag on the right and the white flag on the left.
- 2.9 An Athlete may pass between the elements of an open multiple obstacle whilst driving between obstacles without incurring a penalty. If, in this case, a part of the obstacle is knocked down see DC965.
- 2.10 Carriage overturning is elimination.
- 2.11 The Beginner and Training division must only walk or trot in the cones obstacles. Should one or more horses break into canter, the athlete will incur 1 penalty point for every completed period of five seconds.
- 2.12 Failure to pass through the start/finish line will result in elimination.

3. Error of Course

- 3.1 An Athlete is considered to have passed through a gate in an Obstacle when the whole turnout has passed between the Markers.
- 3.2 If an Athlete attempts to pass through an obstacle in the wrong sequence or direction, then the President of Jury must wait until the whole turnout has passed completely through the wrong obstacle before ringing the bell. The Athlete is then eliminated.

3.3 If an Athlete knocks down or dislodges any part of an obstacle which has already been driven, they will incur 3 penalties.

3.4 If any part of an obstacle in advance of the one being driven, is dislodged or knocked down, the President of the Ground Jury or the appointed Cones Judge will ring the bell and stop the clock for the obstacle to be re-built. The Athlete will incur 3 penalties and 10 seconds will be added to their time. The bell will be rung to indicate to the Athlete that the course is ready and the clock will re-start when the Athlete reaches the next Obstacle on course to continue their round.

3.5 If the President of the Jury sounds the whistle/bell while the Athlete is on the course, the Athlete must halt immediately. If the Athlete does not halt, the President of Jury will blow the whistle/bell a second time. If this Athlete continues without stopping, they are eliminated. The Groom may advise the Athlete that the whistle/bell has sounded.

3.6 If the Jury is in doubt whether an obstacle has been properly driven, the Athlete must be allowed to finish the course. The Jury can then reach a decision.

4. Obstacle Rebuild

4.1 If the Athlete knocks down any part of an Obstacle in the process of disobedience or refusal, the bell will be rung and clock stopped for the obstacle to be rebuilt, and ten seconds will be added to the Athlete's time along with any penalties for Disobedience (but not for the elements knocked down at the time of Disobedience).

4.2 When the obstacle is rebuilt the bell is rung again and the Athlete must then retake the complete obstacle and continue their round. The clock will restart when the Athlete reaches the re-built obstacle. Penalty for starting before the bell is Elimination.

4.3 If an Athlete knocks down any part of a Multiple Obstacle in advance of the element they are driving, or if they break out of the Multiple Obstacle and knocks down an element, then the bell will be rung, the clock stopped while the obstacle is rebuilt and 10 seconds added to the total time taken. The athlete will be penalized for Disobedience but not for the elements knocked down at the time of the Disobedience.

5. Broken Harness

If at any time after they have started, an Athlete has a disconnected pole, shaft, rein, trace, pole strap or chains, or should a horse have a leg over the pole, trace, shaft or leader bars the President of the Jury must ring the bell and stop the clock. The Athlete must put a Groom(s) down to correct the problem and will be penalized for a Groom dismounting. After the situation has been corrected and the Groom has remounted the President of the Jury will ring the bell and restart the clock.

6. Athletes and Grooms Dismounting

6.1 Each time an Athlete dismounts they will incur 20 penalties.

6.2 Athletes will incur penalties each time one or both Grooms dismount: 5 penalties on the first occasion, 10 penalties on the second occasion. On the third occasion the Athlete is eliminated.

6.3 The Grooms must be on the carriage when going through each Obstacle. For a Groom(s) dismounting to assist through an obstacle by leading the horse by the bridle ends of the reins while the horse is still attached to the carriage see penalties for leading and dismounting in DC965. The Groom(s) must be on the carriage before the next Obstacle.

7. Disobedience

7.1 It is considered to be a Disobedience when:

- a. The Athlete attempts to pass through an obstacle and their Horse shies away from the obstacle at the last moment without hitting any part of the obstacle.
- b. The Horses run away, or, in the opinion of the President of the Jury, the Athlete has lost effective control.

- c. The whole turnout comes to a complete halt with or without stepping back anywhere on the course, in front of or in an obstacle, or a Multiple obstacle, with or without knocking down any element.
- d. Not passing through an obstacle with the whole turnout, running out of a Multiple, circling within a Multiple or reining back by the Athlete between start and finish line.

7.2 A Disobedience will incur 5 penalties for the first, 10 penalties for the second and elimination for the third instance. Penalties for Disobedience are cumulative wherever they may occur on the course.

7.3 If there is Disobedience in a single obstacle, i.e. the whole turnout does not pass through the markers, the Athlete has to retake the obstacle. The bell will only be rung if part of the obstacle is knocked down (See DC959.4).

7.4 If there is a Disobedience in a Multiple obstacle without knocking down any element the Athlete must continue their drive and is penalized for disobedience (see above).

7.5 In the case when Disobedience is connected with knocking down an element (e.g., Run-out at C and dislodging the ball) the Judge rings the bell, the course is interrupted, the time is stopped and the obstacle rebuilt. The President of the Ground Jury rings the bell again, the Athlete has to restart at the letter A of the Multiple obstacle and the time starts when the horse's nose passes gate A. For the re-building 10 seconds are added once.

7.6 If an Athlete has a Disobedience at any obstacle and knocks down any part of that obstacle they will only incur penalties for the Disobedience and 10 seconds will be added for the rebuilding.

8. Resistance

A Horse is considered to offer resistance if, at any time and for whatever reason it refuses to go forward (with or without moving back), turns around, rears. This will be penalized the same as Disobedience (see DC959.7).

9. Timing

9.1 Each Athlete will be timed by stopwatch or by an electronic timing device, from the moment the nose of the leading horse crosses the Start Line until the nose of the leading horse crosses the Finish and no further penalties can be incurred.

9.2 Times must be recorded to hundredths of a second.

9.3 The Time Limit is twice the Time Allowed. Exceeding the Time Limit will incur elimination.

9.4 The Time Allowed is calculated using the following maximum speeds in meters per minute (except for Time Competition, DC 962).

9.5 The Penalty for exceeding the time allowed: any time over the time allowed in hundredths of seconds, multiplied by 0.5 Penalties will be calculated to two decimal places.

ADDENDUM FOR PARA-EQUESTRIAN DRIVING

Competitions may be open to all people with disabilities that are eligible by USEF or FEI rules. The Classification is the process in which an Athlete is evaluated and assigned a Functional Profile and Grade. The Assessment is conducted by a Classifier, who is a Medical doctor and/or physiotherapist with knowledge of the Profile System who are accredited by the FEI or USEF to grade PE Athletes for competition. Each PE Athlete is issued an FEI Classification Card or USEF Dispensation/Classification Certificate which lists their Functional Profile, Grade, sanctioned special equipment and compensating aids (special allowances). After the closing date of entries, the OC shall send to the FEI or USEF Chief Classifier a list of all Athletes, their Profile Number and the Grade that they are entered. The list will be checked and returned to the OC, verifying those that are already classified and a list of those that need to be classified, or re-examined. For classification procedure see FEI Para Equestrian Generic Rules or USEF procedures.

Grades

Athletes are divided into 2 Grades: Grade I and Grade II.

Grade II Athletes have greater functional ability than Grade I PE Athletes.

FEI Classification Card and USEF Dispensation/Classification Certificate

The FEI or USEF will issue the Athlete with an FEI Classification Card USEF Dispensation/Classification Certificate on which their permitted compensating aids are listed.

All Athletes shall hold an FEI Classification Card or USEF Dispensation/Classification Certificate (also known as an ID Card) which lists their Profile number, Grade, Nation, International Number (if applicable) and the compensating aids and equipment which may be used.

The FEI Classification Card or USEF Dispensation/Classification Certificate must be carried by the Athlete at all competitions in which they are entered.

Any protests to a Athlete's classification are to be dealt with in accordance with FEI or USEF procedures.

The Athlete uses this card and the compensating aids listed on it to compete in national competitions for able bodied Athletes.

All exceptions to dress, special equipment, compensating aids and other assistance required by the Athlete shall be clearly listed on the Athlete's FEI Classification Card or USEF Dispensation/Classification Certificate.

Use of any equipment, or exemption, that has not been sanctioned by FEI or USEF must be supported by medical documentation and approved by the Classifier. Such exceptions shall be clearly listed on the Athlete Profile form and Entry form at the time of entry.

Classes

A PE Athlete may enter a higher Grade than their classification indicates.

A PE Athlete may not enter a lower Grade than their classification indicates.

Grade I Athletes and Grade II Athletes shall be in separate classes, unless participating as part of an able-bodied class.

Eligibility

Only those Athletes with disabilities who are capable of driving Driven Dressage Tests, Cones and Marathons independently and to the applicable FEI or USEF rules are allowed to compete. The Profile and Grade shall be noted on the entry form, programme and score board. The event Organiser has the right to refuse an entry but they must give the reason for the refusal in writing.

Drugs and Medicines

All drugs and medicines used by Athletes must be declared on the entry form, unless registered with FEI through the Medication Advisory Panel (M.A.P.). Teams may register the drugs and medications taken by their Athletes with FEI Headquarters in accordance with the procedures outlined in the current FEI Medical and Anti- Doping Code (WADA). 5.9.4 Horses/ponies may be dope tested.

Horses

PE Athletes may use either a horse or a pony. It must be stated on the entry form which will be used.

Assistance

The ultimate responsibility regarding the use of permitted assistance lies with the PE Athlete.

Grade I Athletes must have an able-bodied whip on the carriage. A Groom must be available at the ring side to assist every Grade 1 PE Athlete in Driven Dressage and Cones.

A Groom may accompany a Grade 1 PE Athlete in Marathon either in the carriage or following behind the carriage on a bicycle. In Section B of Marathon all Grade 1 PE Athletes must be accompanied by an additional Groom either in the carriage or following by a team member behind the carriage on a bicycle, moped, ATV (quad bike) or similar. Team members on bicycles or mopeds etc are not permitted to drive through the obstacles but must wait for the PE Athlete to complete the entire obstacle before proceeding.

Team members may only act in case of emergency and this will be sanctioned as outside assistance. Grooms may act as a groom and will be sanctioned like a groom.

Able-bodied Whips are forbidden to assist in rein handling except in an emergency when help must be given in the interest of safety. Assistance by handling the reins will incur 20 penalty points each time.

Grade II Athletes may put down the able-bodied Whip if necessary but penalties will be incurred as per USEF regulations. In Driven Dressage and Cones the able-bodied Whip must sit so that they can help in case of need. The event Organiser or the Technical Delegate has the right to disapprove of an able-bodied Whip or their position on the vehicle.

PE Athletes may inspect the course in motorized quad bikes or similar if sanctioned by FEI or USEF.

Compensation Aids and special equipment

Only approved special equipment that is listed on the FEI Classification card or USEF Dispensation/Classification Certificate may be used for the duration of the competition, including the training period.

If the PE Athlete wishes to drive in a wheelchair, the wheel chair must be secured. Straps and clamps for the wheelchair must be of a 'quick release' variety.

In the interests of safety, sloping cushions, shell seats, waist high seat sides and arm-rests are permitted. In order to have more upper body support a strap (or similar) held around the Athlete is permitted as long as this in no way attaches the Athlete to the carriage by any technical means or in the manner that it is held. A PE Athlete may be attached for support, but must have a method for quick release.

Supporting aids may be considered for approval by the TD and the PGJ at the Veterinary Inspection that takes place before the start of the competition.

Reins may not be attached to the PE Athlete in any manner that could prevent the PE Athlete from falling free from the carriage.

The disabled PE Athlete may drive with one or 2 hands and with looped reins or any other aids with which they normally drive and which is approved by FEI or the USEF.

The PE Athlete may salute with the head only so that contact is maintained on the reins at all times.

The whip may be used by either the PE Athlete or the able-bodied Whip in all competitions if this has been sanctioned by FEI or USEF. The brake may be used by the groom or converted to a hand brake to be used by the PE Athlete if sanctioned by FEI or USEF, otherwise use of the brake by the groom will be punished by 20 penalty points each time.

Cones

The time allowed will be calculated for a speed of 210 m/min for both horses and ponies. For drive-offs a speed of 220 m/min may be used.

APPENDIX DC-A MEASUREMENT OF COMBINED DRIVING PONIES

1. See DC915 for height limitations.
2. For the Advanced division, the USEF Measurement Card will be presented at the First Veterinary Inspection. If a pony is not in possession of a fully and correctly completed Measurement Card, the Ground Jury may order the pony to be measured by a Federation licensed official certified to measure and the Competition Veterinarian and/or a Judge, pursuant to Chapter 5, Subchapter 5-C in General Regulations. Failure to allow the pony to be remeasured will result in the pony being disqualified at that competition. The remeasurement must be reported to the Ground Jury, which must then disqualify the pony from the competition if it is over height (see DC915.1-4).
3. Ponies in the Advanced division without Measurement cards will be measured before the First Horse Inspection at their first competition of the year.
4. Measurement will be conducted by a Federation licensed official certified to measure and the Competition Veterinarian and/or a Judge.
5. The measurement specifications will be recorded on a USEF measurement form. A copy of this form will be given to the competitor at the time of measurement.

6. Measurement will be required yearly until the pony has reached the age of eight years. Animals four through seven years old will be issued an annual Temporary Measurement card. Animals eight years and older will be issued Permanent Measurement cards which will not need to be renewed.
7. If the Ground Jury questions the height of a pony and the pony is in possession of a fully and correctly completed Measurement card, the Ground Jury may request through the Federation, that the pony be remeasured by a Federation licensed official certified to measure and a Veterinarian who are approved by the Federation, pursuant to Chapter 5, Subchapter 5-C in General Regulations. Remeasurement must be made within 30 days of the request.
