13. Horses must be shown without artificial appliances (see GR802.2). Anything that alters the intended use of equipment as provided for in the description of appointments for a given class is considered to be an artificial appliance. This includes but is not limited to tongue ties and/or mouth ties (see GR802.2). Gag, burr, twisted wire, bicycle chain, mule, and spiked bits of any type are prohibited in any discipline/section. Action produced by artificial methods shall be penalized. supplemental hair in manes, tails or feathers shall be cause for disqualification from the class. Manes and tails must not be clipped with the exception of banging the tail.

24. The use of glitter or other such exterior body products while showing is prohibited (Exception: Costume Classes).
25. The showing of Purebred and Part Bred Friesians in the same class is not permitted. An exception to this rule can only be granted by IFSHA Board of Directors on a case by case basis. If such approval is granted, Purebred Friesians and Part Bred Friesians shown in the same class must be judged and awarded separately just as if the class was conducted separately. Exception: In Equitation and Showmanship Purebred and Part bred horses may be judged in the same class.

The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.
31. Masters Classes are restricted to amateur riders/drivers age 50 years and older. Classes are to be judged in accordance with the amateur class specifications. Manners to be of utmost importance.
32. When holding IFSHA Regional Championship classes, only one Championship class with the same title may be held at a Federation Licensed Competition.
33. DESCRIPTION OF GAITS.
 - a. Walk
 1. Walk: A four-beat gait that is true, brisk, straight, flat-footed with good reach, and ground covering.
 2. Free Walk: The horse is on a long rein and stretching forward and down.
 3. Normal Walk: Regular and unconstrained, moving energetically and calmly forward.
 4. Collected Walk: The horse, remains "on the bit," moves resolutely forward, with its neck raised and arched and showing a clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hind legs are engaged with good hock action. The gait should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the medium walk, because all the joints bend more markedly. The collected walk is shorter than the medium walk, although showing greater activity.
 5. Extended Walk: The horse covers as much ground as possible, without haste and without losing the regularity of the steps. The hind feet touch the ground clearly in front of the hoof prints of the fore feet. The rider allows the horse to stretch out the head and neck (forward and downwards) without losing contact with the mouth and control of the poll. The nose must be clearly in front of the vertical.

6. Flat Walk: A four-beat gait that is collected at a slow regulated speed with impulsive movement.

7. Medium Walk: A clear, regular, and unconstrained walk of moderate lengthening.

The horse, remaining “on the bit,” walks energetically but relaxed with even and determined steps, the hind feet touching the ground in front of the hoof prints of the fore feet. The rider maintains a light, soft, and steady contact with the mouth, allowing the natural movement of the head and neck.

8. Animated Walk: A two or four-beat gait which is highly collected exhibiting much “primp” at a slow regulated speed with good action and animation. It should have snap and easy control. It is performed with great style, elegance and airiness of motion.

b. Trot/Jog

1. Trot: A two-beat diagonal gait that is free-moving, balanced overall, relaxed, straight, easy going with elasticity and freedom of movement, rider maintaining light contact with horse’s mouth at all times.

2. Jog-Trot: A two-beat gait that is free, square, slow, and easy.

3. Normal Trot: A two-beat gait. To be an overall balanced, relaxed, easy-going trot with elasticity and freedom of movement. High action must be penalized. Posting is required.

4. Collected Trot: The horse, remaining “on the bit,” moves forward with the neck raised and arched. The hocks, being well-engaged and flexed, must maintain an energetic impulsion, enabling the shoulders to move with greater mobility, thus demonstrating complete self-carriage. Although the horse’s steps are shorter than in the other trots, elasticity and cadence are not lessened.

5. Animated Trot: A two-beat gait that is executed in a highly collected manner, speed to be penalized. The horse’s energy should be directed toward animation rather than speed. An extended trot is faster, stronger, and bolder, with a fuller extension of stride to obtain desired speed. It is executed in a highly collected manner.

6. Working Trot: This is a variation between the collected and the medium trot, in which a horse’s training is not yet developed enough and ready for collected movements. The horse shows proper balance and, remaining “on the bit,” goes forward with even, elastic steps and good hock action. The expression “good hock action” underlines the importance of an impulsion originating from the activity of the hindquarters.

7. Extended Trot: Maintaining the same cadence and performing at medium speed, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider’s hand as it lengthens its frame while maintaining balance, ease and freedom of movement. In order to extend some horses may need to achieve the desired movement at different speeds and should not be penalized.

8. Strong Trot: This is a stronger trot, performed with a lengthened stride, powerful and reaching, at a rate of speed which may vary between horses since each horse should attain his own strong trot in harmony with his own maximum natural stride. The horse must not be strung out behind. The horse should show moderate collection without exaggeratedly high action in front. He must present a willing attitude while maintaining form. The strong trot must be mannerly, cadenced, balanced, and free-moving.

9. Park Trot: The park trot is executed in a highly collected manner, speed to be penalized. The horse’s energy should be directed toward animation rather than speed.

10. “Show Your Horse”: At this command, the driver has the privilege of showing the Fine Harness horse to its best advantage at the trot, but speed will be penalized.

c. Canter/Lope

1. Canter: A three-beat gait that is to be collected, animated, true, smooth, unhurried, straight and correct on both leads. Loss of form due to excessive speed shall be penalized.

2. Lope: A true three-beat gait. Smooth, slow, easy, and straight on both leads

3. Normal Canter: Light, even strides, should be moved into without hesitation.

4. Collected Canter: Marked by the lightness of the forehand and the engagement of the hindquarters, the collected canter is characterized by supple, free shoulders. Neck is more raised and arched than in normal canter as the head approaches the vertical line, never moving behind it.

5. Working Canter: This is a variation between the collected and the medium canter, in which a horse’s training is not yet developed enough and ready for collected movements. The horse shows natural

balance while remaining “on the bit”, and goes forward with even, light and active strides, and good hock action. The expression “good hock action” underlines the importance of an impulsion originating from the activity of the hindquarters.

6. Extended Canter: Maintaining the same cadence, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider’s hand as it lengthens its frame.

- d. Hand Gallop: A faster gait than a canter, lengthened stride and controlled, straight, and correct on both leads. Is performed with a long, free, ground covering stride. The amount of ground covered may vary between horses due to difference in natural length of stride. The distinction between hand gallop and extended canter is, the latter being the ultimate linear extension of stride within the hand of the rider; the hand gallop being a looser, freer elongation of stride and frame of the horse. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct, and straight on both leads. Extreme speed must be penalized.

- 34. When the Dressage chapter is referenced herein, any rule or portion of a rule that is in direct reference to USEF/USDF or USEF National Championships shall be disregarded for the purpose of breed Dressage classes.

FR102 Falls

- 1. The fall of horse and/or rider does not disqualify the competitor unless due to bad manners of the horse. Exceptions: Show Hack, Western Pleasure and Trail.
- 2. A fall in the Show Hack, Western Pleasure and Trail class requires elimination.

FR103 Shoeing and Hoof Specifications

- 1. General
 - a. Horses 2 and over may be shown shod or barefoot.
 - b. Horses less than 2 years of age must be shown barefoot.
 - c. If the hoof length or shoe dimensions exceed the specifications defined in 2.a and 3.b. the horse will be disqualified for the entire competition and the owner shall forfeit all prize money, sweepstakes, trophies, entry fees, ribbons and points won at said competition by said horse.
 - d. If a shoe is cast during a class, the shoe, pad, and hoof must be inspected by the Federation Competition Steward.
- 2. Hoof Specifications
 - a. The maximum length of toe for barefoot horses is 5 inches and shod horses with or without pad is 5 1/2 inches. The measurement must be conducted as defined in GR510.
 - b. Artificial lengthening of the hoof wall or altering the hoof wall is prohibited. A hoof which needs repair may be filled with artificial material as long as it follows the natural line of the hoof.
- 3. Shoes:
 - a. Any machine-made (keg) or handmade shoe made of magnetic steel, mild steel, or aluminum is permitted; it must be of uniform width and thickness from toe to heel. Shoes made of Tungston Carbide are prohibited.
 - b. The shoe must not exceed the dimensions of 1 1/4 inches wide by 1/2 inch thick.
 - c. The shoe is not to extend more than 1/4 inch beyond the hoof in front, and shall not exceed beyond 1/4 inch of the bulb of the heel when a perpendicular line is drawn from the bulb of the horse’s heel to the ground.
 - d. Use of any kind of material other than hoof packing material (e.g. oakum, pine tar, silicone, foam rubber) and/or hoof repair material, in or around the hoof is prohibited.
 - e. A bar welded to the bottom of the shoe that extends below the shoe’s surface is prohibited.
 - f. Clips: it is most desirable for clips to be drawn from the source material of the shoe. Welded clips are permitted as purchased on keg shoes if the overall height of the clip is 1 inch or less; a maximum of three clips per shoe permitted. Side clips must be set at or ahead of the widest part of the hoof.

- g. Caulks are not permitted.
 - h. Borium is permitted on the toe and heel areas of the shoe for traction. Application of borium should not exceed 1/4 inch in height and 1 1/2 inches of area at the toe and heels. If used, this additional thickness will be taken into consideration for the overall thickness of the shoe. If the shoe gauge is used and these borium pieces are attached, the overall dimension of the shoe will either exceed the limit or be ultra thin.
4. Pads and Wedges
- a. Corrective shoeing with a full pad or rim pad made of leather, rubber, or plastic is permitted. One pad or pad and wedge combination per foot is permitted. The mended hoof must match the original natural hoof.
 - b. Overall length of toe may not exceed 5 ½ inches.
 - c. Bands for attachment or security of shoe and or pad are prohibited.
 - d. Any additional weights added to a shoe or under a pad are prohibited. (See FR103.3 for definition of a shoe).

FR104 Conformation for all horses

(Refer to In-Hand section for exceptions to the general conformation rules)

1. Conformation
- a. The head's width and length should be proportional. The ears are small and alert with the tips pointing slightly toward each other. The eyes are large and shining. The nasal bone is slightly hollow or straight; nostrils are wide. The lips are closed and the teeth meet properly. The jaw bones are not heavy and are spread wide apart to allow the horse to breathe easily while at work. The head is set gracefully on the neck with adequate space for the throat. Overall, the head is dry and expressive and blends smoothly into the neck.
 - b. The neck is lightly arched at the crest. It is long enough for the horse to bend properly and is adequately muscled. The neck is set high and the lower neckline does not bulge between the throat and the chest.
 - c. The withers are well developed, prominent and, in particular, blend gradually into the back.
 - d. The back is not too long and is well muscled. A slightly low back is allowed.
 - e. The loin is wide, strong and well-muscled and makes a smooth transition into the croup.
 - f. The croup is of good length and slopes slightly downward; it is wide and muscular. It neither forms a point nor is overly rounded.
 - g. The tail is not set too low.
 - h. The gluteal muscle is long and well developed.
 - i. The shoulders are long and sloping and are set widely enough apart to form a good chest, which is neither too wide nor too narrow.
 - j. The ribs are long and curved, supplying ample space for the heart and lungs, without being rotund. The belly maintains sufficient depth towards the rear.
 - k. The legs—The forelegs are properly positioned and when viewed from the front, are set parallel with a hoof-width of space at the ground. Viewed from the side, they are perpendicular down through the fetlock joint. The cannon bone is not too long; the forearm, however, has good length. The pastern is resilient, of good length and is at a 45 degree angle to the ground. The hooves are wide and sound.
 - l. The hind legs, viewed from the rear, are straight. Viewed from the side, the legs are set directly under the hind quarters and are strong with good, sound hooves.
 - m. The hind cannon is a little longer than in front; the gaskin is long, with well-developed muscle. The angle at the hock is approximately 150 degrees; the rear pasterns are at a 55 degree angle to the ground.
 - n. The joints in the legs are dry, well-developed, and provide a good foundation for the tendons and ligaments.
 - o. The body overall appearance is more nearly a rectangle than a square. When the shoulder is long and sloping, the back is not too long, and the croup is of adequate length, the ratio of fore-, middle- and hind quarters can be an ideal 1:1:1. The horse is neither too massive nor too light.
2. To be rewarded for all horses:
- Strong, powerful hind quarters, a luxurious horse that is not too heavy, but has ample power, a long, sloping shoulder, hard, dry legs, light-footed movements with a moment of suspension, size neither too

small nor too large. Sufficiently long and well-muscled forearm and gaskin, strong, smooth transition from loin to croup; long and well developed gluteal muscle, good, wide hooves with proper heels, good head/neck connection, an honest character, eager to work and stamina.

3. To be penalized for all horses:

Tail set too high or too loosely set. Extremities with deviations from the plumb. Pasterns too long or excessively short and vertical. Movements displaying poor elevation, irregular tempo or excessive winging. (Refer to the Rulebook for the definition of winging.)

1. All horses must adhere to rules in Subchapter FR1—General Qualifications.
2. Light contact must be maintained with all reins at all gaits. A judge may not request that gaits be performed only on snaffle or curb.
3. Judges are required to consider the performance at each gait equally in adjudicating this class.
4. A Show Hack horse is not necessarily a Dressage horse, nor an English Pleasure horse. Elevation and high knee action are not to be emphasized. The Show Hack is a suitable section for the well trained animal. Show Hacks must be balanced and show vitality, energy, presence, clean limbs and supreme quality. Soundness is required.
5. Horses may show with a braided mane and tail. Braids may be secured with tape, yarn or rubber bands.

FR150 Tack

1. Bridle shall be light, show type; either single snaffle, Kimberwick, double (full) bridle or Pelham. Browbands and cavesons other than Hunter or Dressage types are prohibited. Unconventional tack such as figure eight, drop, or flash nose bands are prohibited.

2. For Championship or evening classes, formal attire consisting of white breeches, top hat, and Shadbelly is appropriate but not required. Protective headgear may be worn without penalty. (See GR801.4)

FR152 Qualifying Gaits

1. A Show Hack shall be able to perform all of the gaits with a noticeable transition between the normal, collected, and extended gaits. The horse must be under complete control and easily ridden. Obedience to the rider is of prime importance. If the horse exhibits clear transitions in a balanced and level manner, appearing to be giving a comfortable and pleasurable ride, it is performing correctly for this class.
2. Walk, a four-beat gait: Straight, true and flat-footed. Normal Walk: Regular and unconstrained, moving energetically and calmly forward. Collected Walk: Strides are shorter and higher than at the normal walk. The head approaches the vertical, but should never move behind it. Pacing is a serious fault. Extended Walk: The horse is allowed to lengthen frame and stride while rider maintains light rein contact. The horse should cover as much ground as possible without rushing.
3. Trot, a two-beat diagonal gait: Free-moving, straight, rider maintaining light contact with horse's mouth at all times. Normal Trot: Light, crisp, balanced and cadenced, with rider posting. Collected Trot: The horse's stride is shorter and lighter, maintaining balance and impulsion. The neck is more raised and arched than at the normal trot as head approaches the vertical line, never moving behind it. Rider is sitting. Extended Trot: Maintaining the same cadence and performing at medium speed, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider's hand as it lengthens its frame. The extended trot may be performed with the rider sitting or posting.
4. Canter, a three-beat gait: Straight on both leads, smooth. Normal Canter: Light, even strides, should be moved into without hesitation. Collected Canter: Marked by the lightness of the forehand and the engagement of the hindquarters, the collected canter is characterized by supple, free shoulders. Neck is more raised and arched than in normal canter as the head approaches the vertical line, never moving behind it. Extended Canter: Maintaining the same cadence, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider's hand as it lengthens its frame.
5. Hand Gallop: The hand gallop is performed with a long, free, ground covering stride. The amount of ground covered may vary between horses due to difference in natural length of stride. The distinction between hand gallop and extended canter is, the latter being the ultimate linear extension of stride within the hand of the rider; the hand gallop being a looser, freer elongation of stride and frame of the horse. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct, and straight on both leads. Extreme speed to be penalized.

SUBCHAPTER FR-18 CARRIAGE DRIVING

FR182 Carriage Pleasure Driving

1. General Rules
 - a. Excessive use of the voice, shouting, or whistling to the horse may be penalized, at the judge's discretion. The driver must control the horse's movements with discreet use of vocal aids.
 - b. Drivers should strive to maintain a safe distance from other vehicles both during the competition, in the warm-up and parking areas.
 - c. In the case of an accident or equipment failure, which requires repair or readjustment, all grooms or passengers carried on the vehicle must dismount the vehicle. They should not remount until the repair has been completed and the turnout deemed fit to continue. The exception would be in the case of a minor adjustment (e.g., trace down), only the groom need dismount. Appropriate penalties will be assessed according to class specifications.
 - d. It is the responsibility of each driver to ensure that the harness and vehicle are in good repair, structurally sound, and safe for competition conditions. Turnouts without braking mechanisms (such as breeching, brakes, or tug stops with wrap girths) may be restricted from certain classes for safety reasons. The judge must eliminate an unsafe entry from any class. Repeated offenses may incur disqualification.
 - e. The driver must sit on the right-hand side of the vehicle unless construction of the vehicle prevents this.
 - f. Either the one- or two-handed method of driving is permitted in all Carriage Pleasure Driving classes, including Reinsmanship.
 - g. Please refer to the USEF Carriage Pleasure rules (CP Chapter) for rules not covered within the FR-18 Carriage Driving subchapter.
2. Vehicles
 - a. Marathon & CDE Vehicles may be used in all Carriage Pleasure Driving Classes with exception of Carriage Pleasure Driving Turnout and Concours D' Elegance.

- b. Any four wheeled vehicle (carriage) is permitted. Please refer to the CP division – Appendix CP-C Turnout and Appointments.
 - c. Wire-wheeled and pneumatic-tired vehicles are permitted.
3. Attire. It is the responsibility of the driver to see that the driver and all attendants, grooms, passengers and horses are appropriately attired and turned out for the class in question. Refer to Appendix CP-C. Turnout and Appointments for additional information.

- a. Attire for drivers, grooms, and passengers:
 - I. Drivers: Dress must conform to the type of turnout (i.e., Formal, Park, Country, Sporting, Commercial). Less traditional attire (example: Combined Driving Marathon attire) is permitted only if it is allowed in the class description, otherwise a penalty or elimination may result. Except for certain commercial turnouts:
 - 1. Gentlemen must wear a coat or jacket while appearing in any class unless excused from doing so by the judge and/or Show Manager. When accepting awards, gentlemen are required to remove their hats.
 - 2. Ladies must wear a conservative dress, tailored suit, or slacks. Floppy hats are prohibited.
 - 3. Unless otherwise specified, the driver must wear a hat, an apron or knee rug and gloves.
 - II. Grooms: Grooms may wear stable livery in any but the more formal vehicles where full livery is appropriate. Where it is specifically allowed in the Omnibus/Prize List or class description, less formal attire may be appropriate, must always be neat and clean. In all classes, grooms must wear a hat or protective headgear.
 - 1. Stable Livery consists of one of the following:
 - a. A conservative suit, white shirt, dark tie, derby, dark shoes and leather gloves.
 - b. A conservative jacket, jodhpurs or drill trousers, jodhpur or paddock boots, white shirt, stock or four-in-hand tie, leather gloves, derby or conservative cap.
 - c. Hunting attire with a hunting derby or bowler.
 - d. Full Livery consists of a close-fitting body coat with buttons of yellow or white metal to match the furnishings of the harness used (if possible), white breeches, black boots with tan tops, white stock, black top hat and brown leather gloves. The color of the coat remains the owner's preference, but must be conservative in nature and, where possible, complementary to the color of the vehicle.
 - III. Passengers: Dress should conform to the type of turnout (i.e., Formal, Park, Country, Sporting). Except for certain Coaching and Commercial turnouts, all passengers should wear a hat, an apron or knee rug, and gloves.

4. Tack

- a. Harness
 - I. The harness must be in good condition, clean, fit properly and be appropriate for the style of vehicle.
 - II. Bridles must fit snugly to prevent catching on the vehicle or other pieces of harness.
 - III. A throatlatch and a full noseband are mandatory. A full noseband is defined as a noseband fully encircling the nose. Flash nosebands are strongly discouraged in pleasure driving classes. The use of gullet straps is acceptable.
 - IV. Black harness is considered appropriate with:
 - 1. painted vehicles;
 - 2. natural wood vehicle with iron parts painted any color except brown;
 - 3. dash, fender, shaft and pole trimmings should match the harness.
 - V. Russet harness is considered appropriate with:
 - 1. natural wood vehicle with brown or black iron;
 - 2. painted vehicle with natural wood panels with any color iron; or
 - 3. vehicle that is painted brown with brown iron;
 - 4. dash, fenders, shaft, and pole trimmings should match the harness.
 - VI. The collars of four-in-hand leaders are not to be tied together.

 - VIII. Standing martingales are allowed for Stanhope or Park Gate Gig vehicles and George IV Phaetons, except in obstacle classes.

IX. Check reins and martingales (except false martingales) are prohibited in Obstacle classes. Failure to comply will incur elimination. In other classes, check reins and martingales may be appropriate turnout for certain vehicles. See Appendix CP-C. Turnout and Appointments

X. Kicking straps are permitted but they should match the harness being used.

- b. Protective Headgear: All juniors in all competitions must wear properly fastened protective headgear which meets or exceeds current ASTM (American Society for Testing and Materials)/ SEI (Safety Equipment Institute) standards for equestrian use and carry the SEI tag. It must be properly fitted with harness secured. Failure to comply will result in elimination. All competitors, attendants, grooms and passengers are encouraged to use of protective headgear.
- c. Additional Safety Equipment: Body protectors are permitted for all participants and are not to be penalized.
- d. A whip must be carried in hand at all times while driving. A driver not in compliance may be eliminated or disqualified. The thong of the whip should be long enough to reach the shoulder of the farthest horse. A driver not in compliance with the above may be penalized. A whip with its thong tied in a manner which renders it incapable of reaching the farthest horse is not allowed. Failure to comply must be severely penalized.

5. Description of Gaits. Cantering and galloping are prohibited unless clearly stated in the prize list.

- a. The walk is a free, regular, and unconstrained walk of moderate extension is ideal. The horses should walk energetically, but calmly, with even and determined pace. The walk is a four-beat gait.
- b. The trot is a two-beat, diagonal gait.
 - i. Slow Trot: The horse should maintain forward impulsion while showing submission to the bit. The trot is slower and more collected, but not to the degree required in the dressage collected trot. However, the horse should indicate willingness to be driven on the bit while maintaining a steady cadence.
 - ii. Working Trot: This is the pace between the strong and the slow trot and more round than the strong trot. The horse goes forward freely and straight; engaging the hind legs with good hock action; on a taut, but light, rein; the position being balanced and unconstrained. The steps should be as even as possible. The hind feet touch the ground in the footprints of the fore feet. The degree of energy and impulsion displayed at the working trot denotes clearly the degree of suppleness and balance of the horses.
 - iii. Strong Trot: This is a clear, but not excessive, increase in pace and lengthening of stride while remaining well balanced and showing appropriate lateral flexion on turns. Light contact to be maintained. Excessive speed must be penalized.
- c. Halt: Horses and vehicle should be brought to a complete and square stop without abruptness or veering. At the halt, horses should stand attentive, motionless, and straight with the weight evenly distributed over all four legs and be ready to move off at the slightest indication from the driver.
- d. Reinback is defined as a backward movement in which the legs are raised and set down simultaneously in diagonal pairs with the hind legs remaining well in line. To be performed in two parts:
 - i. The horse must move backward at least four steps in an unhurried manner with head flexed and straight, pushing the vehicle back evenly in a straight line. The driver should use quiet aids and light contact.
 - ii. Move forward willingly to former position using the same quiet aids.
 - iii. Road Coaches and Park Drags are not to be asked to back up in the show ring.
- e. The canter is a controlled three-beat gait consisting of three evenly spaced footfalls followed by the "suspension" phase when all four legs are off the ground. The three beats and suspension are considered one stride.
- f. The gallop is a four-beat gait, faster than a canter.
- g. A stride is defined as the cycle of movements that is completed when the horse's legs regain their initial positions. Length of stride refers to the amount of ground covered by an entire sequence.
- h. Show Your Horse: At this command, the driver has the privilege of showing the Horse(s) to its best advantage at the trot, but speed will be penalized.

 - 2. In conjunction with a specific class or classes or pleasure drives as designated by the organizer; or
 - 3. By overall impression throughout the competition.
- II. The essence of this class is the word "Elegance." The winner will be the turnout which, in the opinion of the judge, presents the most elegant effect. This will include vehicle, harness, appointments, horse(s), driver, passengers, grooms, etc., but above all, general impression is most important. Vehicle and harness may be inspected to ensure thoughtful restoration and careful maintenance. Attention must be paid to the personal appearance of the driver, grooms, and passengers as it contributes to the overall picture. Period costumes are prohibited, unless otherwise stated in the Omnibus/Prize List. Performance will not be judged unless it detracts from the elegance of the turnout.

7. Pleasure Obstacle Driving Classes

- ii. A groom/passenger may compete as a driver on the same course.

- v. Within any division, schooling entries may be permitted at the discretion of the manager as published in the prize list. These entries are not eligible for competition and will receive no score or placing in any class. At the discretion of the manager, a horse and/or driver may drive as a Schooling Entry on the same courses used in competition after they have competed those courses.

 - b. At the discretion of the competition manager or judge, wider clearances are permitted for Junior, Maiden, Novice, and Limit classes and/or for safety concerns.
- iv. Measurement of Obstacles
 - 1. When using "traffic cones," the following adjustments are:
 - 1. When measuring, the track width of each vehicle should be taken at the ground on the widest pair of wheels. The allowance is added and the cones are aligned and adjusted from corner to corner. This allows the greatest distance between the corner of the base and the upright portion of the cone. The taper of the cone provides clearance for normal hubs, whiffle trees, or splinter bars.
 - 2. If a whiffle tree, splinter bar, or the wheel hubs prove to be too wide for this arrangement, the cones must be adjusted using the widest measurement plus the appropriate allowance.
 - 2. On cones with perpendicular sides, adjustment for the widest part of the vehicle at the highest part of the cones may be made.
 - 3. It is the responsibility of the Technical Delegate to ensure that each set of cones is properly adjusted.

Upon completion of the course, the driver must pass through the finish markers from any direction, where time will be taken.
 - 3. Refusals and run-outs must not be penalized.
 - 4. Course faults will be scored as penalty seconds and added to the driver's elapsed time. (seeCP245)

Emphasis must be placed on the exhibitor's ability to perform maneuvers in a safe and elegant manner. Exhibitors must use the Quarter System and turn the horse away from the handler.
