  - a. The prize list and the pre-ride meeting must detail what assistance (crewing) may be given to combinations during a competition and where such assistance is allowed on the course and within any Veterinary Checkpoint. In the instance of inclement weather or course restrictions, crew check points may be adjusted by the Competition Management. Adjustments must be announced and posted in a conspicuous location in a timely manner to ensure all athletes and crew members are aware of the changes.

- b. After a fall or if the rider is separated from their horse, in the case of loose or a lost horseshoe(s) or hoof protection, or other tack malfunction or breakage, a rider may be assisted. The rider must remount and/or continue in the Loop from the point at which they dismounted, left the course, or required intervention.

## **EN106 FEI Novice Qualifications**

The FEI Novice Qualifications process must be completed in accordance with the FEI Endurance Rules with the below additions.

1. Of the four (4) required rides, at least two (2) must be completed at Federation Licensed Competitions and no more than two (2) of the required rides may be completed at non-Federation Licensed Competitions authorized by the Federation.
2. All qualifications must be met no later than the definite entry deadline for the horse's and/or rider's first CEI 1\* as published in the FEI Definite Schedule for that Event, including the Mandatory Out of Competition Period.
3. All FEI registration and/or passport requirements must be completed prior to the submission of the novice qualifications.
4. When submitting results from rides at non-Federation Licensed Competitions authorized by the Federation, riders must provide the Federation with a completed Reporting Form or copy of Logbook.

*BOD 06/17/24 Effective 12/01/24*

## **SUBCHAPTER EN-2 COMPETITION**

### **EN107 Competition Officials**

1. A Federation Licensed Endurance Competition must provide the following officials:
  - a. Steward: At least one Federation licensed Endurance Steward is required.
  - b. Veterinary Panel: The number of veterinarians on the Veterinary Panel is at the discretion of the Ride Manager based upon the number of entries in the ride, but always an odd number. If the entries are minimal, one (1) veterinarian is allowed to act as the entire Veterinary Panel. As the entry numbers increase and taking the safety and welfare of the horses into consideration the Veterinary Panel may include a total of three (3) or more veterinarians.
  - c. Treatment Veterinarian: At least one (1) additional veterinarian must be designated as the Treatment Veterinarian. This veterinarian **must** be present on competition grounds from the start of the Category through the final Best Condition evaluation or the last horse competing on the course, whichever occurs later. The Treatment Veterinarian **must** be a licensed graduate of an accredited veterinary school in good standing in their state of practice and must be licensed in the state(s) where the competition is being held. **Subject to the approval of the Steward, so long as the Treatment Veterinarian is available, the Treatment Veterinarian may assist in conducting the veterinary inspections on the vet lanes if the number of horses arriving simultaneously require the additional assistance. The Treatment Veterinarian must have the necessary USEF licensure to assist in conducting veterinary inspections. The Treatment Veterinarian's primary responsibility at all times is the treatment of horses and in the event a horse needs treatment, the Treatment Veterinarian must vacate the vet lane and resume responsibilities of the Treatment Veterinarian.**
  - d. Farrier
    1. A qualified farrier is recommended to be present on the grounds.
  - e. Competition Manager and Secretary
    1. The Competition Manager is responsible for knowledge of and compliance with all GR and EN rules, including but not limited to completion of all on-line training by the Federation. Eligibility is determined by GR1202. The Competition Manager is responsible for conducting the competition in accordance with Federation rules.
    2. Assistant Managers have the same requirements and responsibilities as listed in this rule. Managers and Assistant Managers must be listed in Federation competition records and in the prize list.
    3. The Competition Secretary is responsible for knowledge of and compliance with all GR and EN rules. Eligibility is determined by GR1203. The Competition Secretary is responsible for performing assigned duties in accordance with Federation rules. Assistant Secretaries have the same

requirements and responsibilities as listed in this rule. Secretaries and Assistant secretaries must be listed in Federation competition records and in the prize list.

4. A Competition Manager or Secretary may not serve as Steward or other licensed official at their own competition. However, they may compete if they designate an assistant in charge while they are competing. This does not absolve the manager's or secretary's duties and responsibilities.

*BOD 06/17/24 Effective 12/01/24*

## **EN108 Categories of Endurance Competitions and Pulse Criteria**

1. A competition is an event or ride licensed by the Federation.
2. A competition may include one or more separate categories including Limited Distance, OPEN 1, OPEN 2, OPEN 3, and OPEN 4.
3. Junior, Young Rider, and/or Senior divisions may be offered in the following competition categories at Federation Licensed Endurance Competitions:
  - a. Limited Distance – all divisions below 80km held over one (1) day. Maximum Pulse at Vet Gate: 64bpm within 30 minutes and 60bpm at the finish within 30 minutes of arrival time.
  - b. OPEN 1 – all divisions between 80km and 119km held over one (1) day. Maximum Pulse Vet Gates: 64bpm within 30 minutes.
  - c. OPEN 2 – Multi-Day. Maximum Pulse at Vet Gate: 64bpm within 30 minutes.
    1. 80km – 100km/day: Over two (2) days with a minimum distance of 80km each day; or
    2. 64km/89km/day: Over three (3) or more days with a minimum distance of 64km each day.
  - d. OPEN 3 – all divisions between 120km and 139km held over one day. Maximum Pulse at Vet Gate: 64bpm within 30 minutes.
  - e. OPEN 4 – all divisions between 140km and 160km held over one day. Maximum Pulse at Vet Gate: 64bpm within 30 minutes.
4. The pulse criteria may be reduced during the ride if, in the opinion of the Veterinary Panel and Steward, they believe there is a risk to the safety and welfare of the horses.

## **EN109 Prize List**

1. The prize list constitutes the ride schedule for Federation licensed endurance competitions. Notification of any and all changes to the competition schedule must be posted in the competition office and communicated during the ride meeting or prior to the start of the Loop concerned.
2. The prize list (**also known as the "Ride Flyer" or 'Schedule'**) must include at a minimum, in addition to the requirements enumerated in GR901:
  - a. The distance(s) of the competition category(ies) or divisions,
  - b. **Any pre-event** Closing date for entries,
  - c. Competition Management's policy on late fees, cancellations, refunds, withdrawals, and substitutions,
  - d. Entry fees,
  - e. Names of the competition's Licensee, Competition Manager, and trail/course manager or course designer, or person responsible for the trail/course, all **expected** Licensed Officials, Veterinary Panel members, and **any** Treatment Veterinarian(s),
  - f. The total length of the course, and the **planned** length and number of Loops on the course,
  - g. General description of the course including location of Vet Gates (e.g., in camp or out on the course),
  - h. Number and location of crewing points, if applicable,
  - i. Speed caps, if applicable,
  - j. Time limits and cut-off times (in total and for each Loop, as applicable),
  - k. Place and time of the start for each competition category and/or division,
  - l. Prizes,
  - m. Tentative time and date of Ride Meeting,
  - n. Notification of specific changes to the competition will be **appropriately** posted **on competition grounds**, and communicated during the ride meeting, or prior to the start of the Loop concerned, and
  - o. A link to the Federation's website, along with the Federation's logo, headquarters' address, telephone number, and contact information for the Director of Endurance **will be included**.
  - p. If established, cut-off times must be **announced and posted before and at the pre-ride meeting**, published in the prize list and are prohibited from establishing an overall course speed **which requires combinations**

to compete at 12.5km/hour or faster. See FEI qualifications for speed restrictions on Novice Qualification rides.

*BOD 06/17/24 Effective 12/01/24*

## **EN110 The Course**

1. Competition Management is responsible for providing an accurately measured and well-marked course.
2. The finish must be long and wide enough to enable several horses to finish at speed without interfering with each other, and must provide sufficient run-out to allow competitors to safely come to a stop after crossing the finishing line in a potential sprint or gallop. If a finish line as described above is not possible, the Steward must approve Competition Management's alternative finish line which must uphold fair-play, safety and horse welfare. It must be situated as close to the Vet Gate as possible.
3. The total length of the course must be divided into several sections called Loops. Loop time is calculated from the time the combination crosses the start line of a Loop until it reaches the end line of that Loop. However, except for the finish, time on course does not stop until the horse has recovered to the requisite recovery pulse at the Vet Gate. Thus, speed on all but the final Loop will be the length of the Loop divided by pulse time less the release time (i.e., when the combination was released to start on the Loop). On the final Loop, depending on the finishing criteria (finish line or pulse), the Loop time may either be as stated above, or the length of the Loop divided by the time at the finish line less the time the combination started on the Loop.
4. The Competition Management will determine the length of each Loop of the section. Competition Management, in consultation with the Veterinary Panel, will determine the length of the holds at each Veterinary Checkpoint.
5. No Loop shall exceed 40km, without express written consent from the Federation.
6. Combinations must have access to water on course at least every 10km, subject to terrain and access limitations. Riders must adjust their pacing accordingly.
7. Competitions shall be organized to allow competitors to establish their own pace to compete against the clock.
8. Cut-off Times. Competition Management is permitted to establish cut-off times to complete the course. See EN109.
9. Crew Points. Competition Management may designate areas on the course where a rider's crew may assist the rider and/or horse. While stopped in crew points, a rider's time on course continues to run. Crew members, athletes, and horses are prohibited from blocking the course or obstructing another rider's access to the crew point or course while in the crew point.

## **EN111 Marking of the Course**

1. The marking of the course must be done in such a manner that there is no doubt on how to proceed along the course. The course may be marked colorfully using signs, lath, marked plates, directional arrows, flags, ribbons, indicators, lime, paint, lights, chemical lights, lanterns, electronic markings, including GPS instructions if reliable cellular and internet access is available on the entire course, or other trail marking methods.
2. Confidence markers are encouraged; especially after turns, divergences, splits, prolonged sections of trail or trail options.
3. Prior to the start of the competition, a plan showing the track of the course and the location of any mandatory Veterinary Checkpoints may be made available to the riders. Prior to the start of the competition, Competition Management must have the Course Designer, or appropriate designee, available to discuss the course and answer riders' questions and explain the location of any mandatory Veterinary Checkpoints.

## **EN112 Modification to the Course and Rescheduling/Delay or Cancellation of Competitions**

1. Course Modification: After the course has been officially established, no alteration shall be made without the approval of the Competition Management and the Steward.
2. Rescheduling/Delay of Competition or Category of Competition: In exceptional circumstances, a competition or category may be rescheduled or delayed in start or held until the competition may be safely resumed by the Competition Management in consultation with the Steward.

3. Cancellation of Competitions: When catastrophic occurrences or circumstances arise beyond the reasonable control of Competition Management at or during a competition, which affect rider safety or horse welfare, or prevents the competition from continuing, a competition may be cancelled by the Competition Management in consultation with the Steward.
4. Notifications: In any case noted above, the riders should be officially notified as soon as reasonably possible of the decision, certainly before the start or before the Loop concerned or when they complete the preceding Loop.
5. Accident Preparedness Plan: Please refer to GR845.

### **EN113 Method of Starting**

1. Combinations must not cross the starting line before the signal is given. If a combination makes a start, which is in any way false, under penalty of disqualification, the combination must return and re-cross the start line. However, their starting time will be recorded as if they had started when originally given the signal
2. Riders must check in within 15 minutes prior to the start of the competition.
3. No combination may start later than 15 minutes after their starting time under penalty of disqualification unless the rider receives permission from the Steward, in consultation with the Competition Management prior to the official start of the competition.

### **EN114 Time and Record Keeping**

1. As timing plays such an important part in the competition, Competition Management must ensure that each combination's start, pulse, and finish time for each timed Loop is accurately noted and recorded by properly qualified persons.
2. Times important to a competition:
  - a. Event Time: Begins at the check-in or at 00:01(12:01 a.m.) local time on the first day of the First Horse Inspection (whichever is earlier), not to exceed 120 hours before the first Start Time, at which point entered riders and horses on-site come under the jurisdiction of these Rules; and conclude when Competition Management closes its on-site record-keeping or monitoring.
  - b. Start Time: when the competition officially starts on course.
  - c. Hold Time: at designated points along a course, combinations are required to be allowed set times for rest and recovery. These may vary at the various designated points.
  - d. Arrival Time: when a combination arrives at a designated point.
  - e. Pulse Time or Vet Gate: when a combination comes to the pulse taker with a pulse that is at or below the parameter designated by the Veterinary Panel.
  - f. Recovery Time: the difference between the pulse time and arrival at a designated point.
  - g. Release Time or Out Time: when the combination is released to the course Release Time or Out Time is calculated by adding Pulse Time and Hold Time.
3. Each combination will be issued a veterinary card that will have the veterinary information and timing information. Alternatively, Federation Logbooks may be used. This veterinary card will be available during the competition.
4. Finishing criteria may be either time when a combination crosses the theoretical finish line or when a combination reaches final pulse criteria. Finishing criteria must be published in the prize list and announced at the ride meeting.
5. Total Time is counted from the instant the signal is given to start until the instant when a combination finishes. Riding Time is the Total Time less the sum of the mandatory hold periods.
6. At the discretion of the Steward and Veterinary Panel, in consultation with Competition Management, Veterinary Checkpoints at mandatory halts may be used. Modification to the Veterinary Checkpoints may be allowed as applicable.
7. At Veterinary Checkpoints, the timing of the combinations must be performed in such a manner to avoid any delay to a combination's timing caused by the arrival of several horses simultaneously for inspection.

### **EN115 Veterinary Control**

1. The Veterinary Panel and Steward, in consultation with the Competition Management, have absolute control on all matters concerning horse safety and welfare.
2. Equine Fatalities. See GR849.9

3. Only riders whose horses have passed all the inspections and examinations are eligible to be ranked in the final results.
4. All the relevant information required at the inspections and examinations must be recorded on an individual veterinary card for each combination and must be available at all subsequent inspections and examinations. Riders are entitled to see and copy the record of the veterinary card referring to their horses immediately after the inspection or examination.
5. The arrival time into the Veterinary Checkpoint must be recorded and the horse must be presented to the Veterinary Panel for inspection within recovery time.
6. The following types of Veterinary Checkpoints may be used:
  - a. Gate Into Hold. Gate into Hold should be held in all divisions at Federation Licensed Endurance
    - i. Riders will be timed in on arrival at the Veterinary Checkpoint (arrival time).
    - ii. Riders must proceed to a designated recovery area, where the horse will have up to 30 minutes to recover sufficiently to be timed into horse inspection upon being presented with a heart rate at or below the maximum heart rate parameters.
    - iii. Prior to being timed into the Vet Gate, a rider's time on course continues to run.
    - iv. Once a horse/rider combination has successfully completed the horse inspection, the mandatory hold period will begin from the successful Pulse Time and the rider's time on course will be stopped. If a rider is required to re-present their horse because they did not meet the pulse parameter, the Pulse Time will be recorded when the horse is at or below the pulse parameter and then proceed to the Horse Inspection.
    - v. Upon completing the mandatory hold period, the rider/horse combination may present to the out-timer and continue on course.
    - vi. Upon presenting to the out-timer, the rider's time on course will resume from their assigned out-time. Any additional time spent in the hold area, outside of the mandatory hold period, will be added to a rider's time on course.
  - b. Stop and Go.
    - i. At a Stop & Go Checkpoint, each rider will be timed into the Veterinary Checkpoint.
    - ii. After being timed into the Veterinary Checkpoint, the rider may present their horse multiple times, as determined by Competition Management within the stated recovery period to present the horse and pass the Horse Examination.
    - iii. A failure to pass the Horse Examination within the stated recovery period will result in Elimination.
    - iv. The horse may be presented under tack, but the rider may be asked for the tack to be removed by the Veterinarian(s).
    - v. The rider's presentation time will be recorded, but the rider's Ride Time continues to run throughout the Stop & Go.
    - vi. The Veterinary Panel may establish a straight departure lane for mounted horses of approximately 30-40 meters, preferably stationing a veterinarian at each end to assess each horse's gait and soundness on departure at the trot. The assessment lane should allow riders to continue onto the course unless stopped due to a veterinary determination that further assessment is warranted.
    - vii. If the horse successfully meets the maximum heart rate parameters as stated in the prize list or ride meeting as prescribed by the Veterinary Panel upon the rider's successful presentation within the rider's hold time that is recorded as the recovery time.
  - c. Mandatory Stop for a Designated Time Period.
    - i. At a Mandatory Stop on Trail Checkpoint, each rider will be timed into the Veterinary Checkpoint.
    - ii. The combination must remain at this checkpoint for the required time before it is released.
    - iii. Typically, upon release, a veterinarian will assess each horse's gait and soundness on departure at the trot. The assessment lane should allow riders to continue onto the course unless stopped due to a veterinary determination that further assessment is warranted.
7. Failure to achieve a heart rate below the maximum heart rate parameters within the recovery time will result in the horse/rider combination being disqualified. See Annex C.

## **EN116 Horse Inspections and Examinations**

1. The Veterinarians' responsibilities to evaluate a horse are the same for all Horse Inspections. Notification of specific changes to the Horse Inspections will be posted in the competition office and communicated during the ride meeting or prior to the start of the Loop concerned.

- a. Assessments will be made of the horse's general condition, its metabolic status and may include gait; heart rate; respiratory rate and body temperature; mucous membrane characteristics; capillary refill time; metabolic condition and gut sounds; soreness, abrasions, rubs or galls on the withers, back, loins, ribs, girth, chest, shoulders and mouth; and leg injuries, hoof conditions and lower leg dermatitis or bruises, cuts or abnormalities. These assessments and any other observations regarding the horse's condition must be recorded on the Vet Card.
- b. The inspection should be run on a flat firm surface at approximately 38 meters (124 feet). All Horse Inspections during the competition will follow the same format.
- c. First Inspection: It shall take place preceding the start of the competition as stated in the prize list and is performed by the Veterinary Panel. It will be conducted according to the standards for all inspections, as outlined below, to include Heart Rate, Respiratory System, General Condition, Gait Evaluation, Soreness, Lacerations, and Wounds, Range of Motion and other matters and items that from time to time may be added to the Veterinary Card. See EN 116.2 for details.
- d. Cardiac Recovery Index (CRI) is recorded at each inspection and involves the examination and recording of the heart rate as part of the metabolic assessment of the horse. Once the heart rate has been recorded the stopwatch is restarted and the horse has one minute to trot approximately 76 meters (250 feet.) allowing for a gait assessment. At the end of the minute, a second heart rate is recorded. The difference between the first and second heart rate is the CRI.
- e. General condition and metabolic status: horses in a generally poor condition or with an abnormally high temperature will be reassessed by the Veterinary Panel.
- f. Re-Inspections or Exit Exams: The Veterinary Panel, in consultation with the Steward and Competition Management, will establish prior to the ride meeting any Vet Gates they will require horses to be presented for an exit exam. The horse must pass the examination before returning to competition.
- g. Re-Inspections: The examining veterinarian may ask a rider to present their horse for re-inspection prior to its scheduled departure if after passing the horse; the veterinarian retains concerns about the horse's continuing stability and fitness to continue.
- h. Failure to represent within the hold time for that horse will result in failure to qualify for the next *Loop*.
- i. Metabolic status: the metabolic status will be assessed by the examination and recording of those parameters that indicate the Horse's fitness to continue including mucous membranes, capillary refill time, hydration, intestinal activity (gut sounds), demeanor and CRI.
- j. Failure to Qualify due to metabolic status, musculoskeletal injuries or other reasons will require a review by the Veterinary Panel.
- k. Vet Gate Inspection (Pulse gate): The first mandatory inspection of the horse at the end of each Loop when the horse is at a pulse that is at or below the parameter designated by the Veterinary Panel.
- l. Final Inspection: The final inspection, which takes place after the horse crosses the finish line of the competition or has successfully met the maximum heart rate parameters in Limited Distance, must be within the time allowed as defined.
- m. Respiratory System: Abnormalities in rate or character of the breathing deemed by the Veterinary Panel to be of such a nature as to endanger the safety of the horse will be cause for failure to qualify for the next Loop.
- n. General Condition: Temperatures may be recorded, and mucous membrane may be examined. Horses in a generally poor condition or with an abnormally high temperature will fail to qualify for the next Loop.
- o. Irregular gait: During any horse inspection, a horse with an irregular gait that is observable through evaluation by trotting the horse on a loose lead in hand straight out and back, will be removed from competition and will Fail to Qualify for the next Loop.
  1. To assess irregular gait:
    - a. If after having once trotted the horse, the observing Veterinarian questions the horse's fitness to continue, the horse will be re-trotted before up to two (2) members or the entire Veterinary Panel who will vote for a pass or fail and communicate their vote directly to the Steward and the Athlete.
    - b. The Veterinary Panel may call for a single additional trot up prior to voting, giving the horse and rider the benefit of the doubt, and will communicate that request to the Steward who will request the horse be trotted again. The additional trot may take place immediately or may take place at a later requested re-inspection. The decision made by the Veterinary Panel will be final. The number of potential re-trots must be announced at the pre-ride meeting in the prize list.
  2. Any unusual feature about a horse's gait must be noted on the horse's Vet Card and/or their USEF Logbook, whether it is deemed grounds for elimination or not.
  3. If the Veterinary Panel is still unable to conclude that the horse is fit to continue, whether it is because of a presentation failure, including the inability of the horse to trot the full distance, the inability of the horse to trot soundly, or based on veterinary assessment criteria, or Veterinary application of AAEP standards, the horse will be designated as Failed to Qualify irregular gait (FTQGA).

- p. Soreness, Laceration and Wounds: Any evidence of soreness, lacerations or wounds in the mouth, on the limbs or on the body, including girth and saddle galls, must be recorded. If participation in or continuation of the competition is bound to seriously aggravate any such soreness, lacerations or wounds, the horse will not be allowed to qualify for the next Loop.
- q. Heart rate assessment procedure: The heart rate of the horse is measured using either a stethoscope or electronic heart rate monitor. The maximum heart rate parameters are set out in EN108. Heart rate of the horse may be assessed by either the veterinarians or a qualified layperson, approved and appointed by the veterinarians. If laypersons are used in the assessment of horses' heart rates, and a heart rate above the maximum heart rate parameters is observed, the Veterinarians are required to confirm the heart rate is above the maximum heart rate parameter prior to holding or disqualifying the horse in accordance with these rules.
  - 1. Heart rate is the first parameter to be examined and recorded during the Horse Inspection. It is an essential criterion to accurately assess the horse's recovery and fitness to continue.
  - 2. Every effort should be made to accurately record the heart rate. If the heart rate cannot be safely determined, the horse will fail the inspection. If the rider or crewmember deliberately disrupts the horse inspection, the horse will fail the inspection.
  - 3. Horses with heart rates higher than maximum heart rate parameters will not be allowed to continue in the competition and will be designated as 'Failed to Qualify –metabolic' (FTQ – ME).
  - 4. Determining whether the Horse's heart rate complies with the maximum heart rate parameters:
    - a. If the horse's heart rate is equal to or less than the maximum heart rate parameter in the preferred time, then the reading will be recorded, and the inspection completed.
    - b. If a pulse is above the maximum parameters, the horse may be reevaluated up until they have reached their maximum recover time. Competition Management must state the number of presentations allowed in the prize list. Modifications may be allowed in consultation with the Steward and Veterinary Panel and riders must be notified during the Ride Meeting or prior to the start of the Loop concerned.
- 2. Veterinary Assessment after each competition:
  - 1. Details of a horse's completed distance to the nearest Vet Gate, reasons for elimination (metabolic, irregular gait or both), treatments at the venue, and any other comments necessary to protect the horse's future safety and welfare deemed necessary by the Veterinary Panel must be recorded on the Vet Card.
  - 2. Vet Cards must be electronically transmitted to the Federation within seven (7) days following a Federation Licensed Competition.
  - 3. The Veterinary Report for the competition must be submitted within 14 days after the last licensed day of the competition.

Only the Veterinary Panel may make entries in a horse's logbook, National Passport, or FEI Passport.
- 3. First Horse Inspections shall take place preceding the start of each category as stated in the prize list and is performed by the Veterinary Panel.
  - a. During the First Horse Inspections and/or Examinations, a member of the Veterinary Panel must:
    - i. Verify the identity of the horse from its Horse ID, Federation logbook, National Passport or FEI passport, using the diagram, description, and (if applicable) the microchip number;
    - ii. Check that the horse meets the USEF Equine Vaccination Rule, GR844
    - iii. Ensure that the horse does not have any clinical signs of infectious disease. This includes a clinical examination to assess the heart rate, respiratory rate, body temperature and the checking of any other clinical parameters; and
    - iv. Assess the horse's general condition which may include gait; heart rate; respiratory rate and body temperature; mucous membrane characteristics; capillary refill time; metabolic condition and gut sounds; soreness, abrasions, rubs or galls on the withers, back, loins, ribs, girth, chest, shoulders and mouth; and leg injuries, hoof conditions and lower leg dermatitis or bruises, cuts or abnormalities. These assessments and any other observations regarding the horse's condition must be recorded on the Vet Card.
  - b. At the discretion of Competition Management, a veterinary examination may be scheduled prior to the First Horse Inspection as stated in the prize list. Following any veterinary examination, any horse considered not fit to compete must be reported to the Steward before completing the First Horse Inspection. The rider or owner may withdraw the horse before the First Horse Inspection in consultation with the Veterinary Panel.
  - c. Horses not vaccinated as required under Federation rules or whose vaccination status cannot be confirmed (e.g., failure to produce acceptable records) may be refused permission to compete and moved to the isolation area.

- d. Horses must be kept in the isolation area if they show any clinical signs of infectious disease, or have been in contact with other horses that show clinical signs of infectious disease. These horses must be kept in the isolation area pending recovery, or until alternative arrangements have been made.
- 4. Final Horse Inspection:
  - a. The horse must be presented to the Veterinary Panel for a full Horse Inspection.
  - b. The assessments will be performed in the same manner, and applying the same criteria, as previous Horse Inspections.
  - c. To qualify for presentation to the Veterinary Panel at the final inspection, the horse's heart rate must have attained 64 bpm or less within 30 min of crossing the finish line or arrival time for horses in the Limited Distance category. Horses that do not meet these criteria will be eliminated but must still be presented to the Veterinary Panel for inspection at 30 minutes after crossing the finish line.
  - d. The Final Inspection is to determine whether the horse is still fit to continue.
- 5. Other Inspections: Other inspections may be carried out by any member of the Veterinary Panel on all, or any horses selected at random at any time during the course of the competition.
- 6. Veterinary Treatment
  - a. After the First Horse Inspection, the Veterinary Panel in consultation with the Treatment Veterinarian, Steward and Competition Management may recommend changes in the treatment arrangements including the placement of members of the Veterinary Panel, or scheduling of their availability, for help in the treatment area.
  - b. While a rider may refuse veterinary treatment for a horse, the rider may be disqualified (See Annex C) and will be reported to the Federation in the Steward's Report and Veterinary Report.
- 7. Mandatory Reporting and Cooperation of Horse/Pony Collapse, Equine Fatality, and Mandatory Necropsy
  - a. Mandatory Reporting and Cooperation of Horse/Pony Collapse: GR849
  - b. Equine Fatality: See GR849.9
  - c. Mandatory Necropsy: See GR842.

## EN117 Classification

- 1. Individuals: In an endurance competition, the winner is the combination with the shortest elapsed time who successfully passes or complies with all protocols and requirements, including but not limited to the final veterinary examination.
- 2. Dead Heat or Ties: When two or more combinations, who start the competition category, have the same time and finish with the same total elapsed riding time, they are classified according to their respective passage across the finish line whether based on plain sight or photo/video evidence. Dead Heats (Ties) between Individuals may be permitted as stated in the prize list per the Competition Management.
- 3. Disqualification, Retirement, or Failure to Qualify:
  - a. Disqualification: Occurs when a rider is penalized by the Steward in consultation with the Competition Management and removed from further competition for a violation of these Rules.
  - b. Failure to Qualify for the next Loop or for final classification: results when a combination is removed from competition for failure to successfully pass a horse inspection, to complete the full course as required, or to meet all time requirements for presentation or completion.
  - c. Retirement (Rider Option): occurs when a rider decides (without otherwise being removed from the competition) not to continue in the competition after their horse successfully passes the First Horse Inspection, or until the rider makes a request to the Veterinary Panel to retire their horse:
    - i. before the combination crosses the start line; or
    - ii. after the combination successfully completes one or more Loops up to the point of retirement and passes all horse inspections after each of those Loops (including any mandatory re-inspection if vet-requested reinspection).
  - d. Withdrawal: occurs when a rider withdraws from the competition (without otherwise being removed from the competition) prior to the First Horse Inspection.
- 3. All horses removed from competition, voluntarily or otherwise and at any point within the event, must be presented for the horse inspection within the time stated in the prize list and the horse's veterinary records updated accordingly. If removal occurs on course the horse must be inspected by a member of the Veterinary Panel as soon as it is returned to the ride base and the horse's veterinary records updated accordingly.

## **EN118 Best Condition**

Competition Management may organize a Best Condition Award for all competitions as stated in the prize list. All horses that completed the competition are eligible to participate in the Best Condition Award. Riders are not required to participate in the Best Condition Award. It is at the discretion of the Veterinary Panel in consultation with the Steward on whether to award Best Condition. Guidelines for determining the Best Condition Award are set out in Annex B.

## **SUBCHAPTER EN-3 FEDERATION ZONES, CHAMPIONSHIPS, RANKING LISTS, AND AWARDS**

### **EN119 Endurance Zones**

1. The Zone of a rider qualifying to participate in Zone restricted rides or on a Zone Endurance team will be determined by the rider's domicile state. That address is locked on December 1 of the competition year or the first day of the rider's membership activation, whichever comes first. However, a Life member's address is always locked on December 1 of the competition year. The address given on the membership application must be the state where the rider is domiciled at the time of membership activation or renewal. A rider may have only one domicile which is where the rider has their permanent home and where, whenever they are absent, intends to return. If a rider is found not in compliance with this rule, the rider may be subject to disqualification from representing a Zone Endurance Team and/or competing in events restricted to Zones. A person may apply to the Federation for permission to change their domicile state.
2. The following Endurance Zones have been established by the Federation. See Annex D for a complete list of states for each Zone:
  - a. Pacific North
  - b. Pacific South
  - c. Mountain North
  - d. Mountain South
  - e. North Central
  - f. South Central
  - g. North East
  - h. South East

## EN120 Endurance National Ranking List

The specifications for the Federation's Endurance National Ranking List, along with the Endurance National Ranking List, can be found on the [Federation's website](#).

## EN121 Zone/National Endurance Championships

1. The rules and qualification criteria for Endurance Zone and National Championship program qualifying and championship classes are listed in the Selection Procedures for each program. These can be found on the Federation website.
2. The following Endurance Zone and National Championship programs have been established by the Federation:
  - a. Zone Championships
  - b. National Endurance Championship
  - c. Zone Team Challenge

## EN122 Awards

An award must be given to all riders who successfully complete their division.

## ANNEX A: DEFINITIONS

Authorized Event: An event that is not licensed by the Federation but designated as authorized for specific purposes.

Catastrophic Injury: an injury that, in the opinion of the Veterinarian Panel or the Treatment Veterinarian(s) requires immediate euthanasia or contributes to the death of a horse in competition or as a result of injuries sustained or illness that arises during a competition, howsoever caused. (For the procedures in the event of a horse fatality, see GR849.9).

Category: Classification of the competition, e.g., Limited Distance, OPEN 1, OPEN 2, OPEN 3, or OPEN 4.

Combination: a horse and rider pair competing in a competition.

Competition: An event in which horses and riders are entered and are placed in order of finish based upon the shortest elapsed time to complete the course and who successfully passes or complies with all protocols and requirements, including but not limited to the final veterinary examination.

Completion: If a combination makes an error on the course, the Steward may (if they consider it appropriate to do so) allow the Combination to correct the error by returning to the place where the error started. If the combination fails to do so, they will be disqualified. If the Steward, in consultation with Competition Management, considers that correcting an error on course is not appropriate and/or in the best interests of the horse, they may determine an alternative that will require the combination to complete an equivalent distance over the same type of terrain so that the combination still passes through each Vet Gate in the correct order and within the relevant time limits. In such cases, the combination will receive a completion and designated as 'Finished Not Ranked' and awarded last place finish in the category. The combination may not be considered for the Best Condition Award and may not count for individual or team awards.

Crewmember: a person assisting a combination on the Field of Play.

Division: Age group permitted to compete in the competition. The three divisions are Junior, Young Rider, and Senior.

Field of Play: The Field of Play includes the defined course, the defined crewing points on the course, the recovery area before the Vetting Area, the Vetting Area, and/or the hold area after the Vetting Area. Certain restrictions apply to the Field of Play as set out in the Federation Rules, the Prize List and the Ride Meeting. A horse should not be removed from the Field of Play without following the proper procedures, the rider may be subject to disciplinary action under Federation General Rules.

Final Horse Inspection: The purpose of the Final Horse Inspection is to determine whether the horse is still fit to continue after a normal rest period for another full Loop. The horse must be fit to continue at the final horse inspection in order to receive a completion and placing.

First Horse Inspection: the mandatory horse inspection that takes place prior to the start of the competition and determines whether a combination may compete.

Hold Time: There must be a rest period for the horse (Hold Time) at each Vet Gate (except the final Vet Gate after the finish) as established by the Veterinary Panel and Competition Management. Riders must be notified of the hold times in the prize list and notified of any modifications to the hold times during the ride meeting or prior to the start of the Loop concerned.

Horse Inspection: Following any recovery time in the recovery area, the rider or crewmembers must enter the Vet Gate with the horse for the Horse Inspection. The Horse Inspection will include an assessment of the horse's fitness to continue in the competition based on its heart rate recovery, metabolic status, gait and general condition. The horse may be inspected more than once if the Veterinarian examining the horse so decides. See EN116.

Loops: The total length of the course is divided into a minimum number of sections or Loops.

Exit Exams: The Veterinary Panel, in consultation with the Steward and Competition Management, may require all horses in a particular division or distance to be presented for a mandatory Exit Exam at specified Vet Gates. These examinations will take place within the last 15 minutes of a combination's Hold Time at the relevant Vet Gate. The horse must pass the Exit Exam to continue in the competition or retire.

Requested Re-inspections: Any member of Veterinary Panel may ask a rider or crewmember to present their horse for re-inspection at any Vet Gate if they have any concerns about the horse. Vet-requested re-inspections will take place in the last 15 minutes of a combination's hold time at the relevant Vet Gate. The horse must pass the Re-inspection to continue in the competition or retire.

Vet Gate: at the end of each Loop, horses must undergo a horse inspection and any other required Veterinary Examinations within a safe and restricted area used exclusively for this purpose (Vet Gate). To move into the Vet Gate, the horse must pulse at or below the parameter designated by the Veterinary Panel.

## ANNEX B: GUIDELINES FOR BEST CONDITION AWARD

### A. Veterinary Score Sheet Standing Evaluation

Maximum Score 500 Points

#### Recovery:

Based upon the ability to demonstrate recovery using the Cardiac Recovery Index. It is recommended to use the CRI taken 10- or 15-minutes post-finish time. Base the respiratory aspects on quality of respiration as determined visually and by auscultation.

#### Hydration Factors:

Use all the metabolic parameters that indicate the state of hydrations: skin tenting, mucous membranes, capillary refill time, jugular refill time and gut sounds.

#### Lesions Producing Pain and Discomfort:

Major concerns are back pain and pain/swelling in joints, tendons and ligaments that may be indicative of potentially serious pathology. Also consider girth, saddle, and other tack-induced lesions and all wounds. Note: Do all but cursory palpations after the movement phase.

#### **Movement Evaluation**

##### Soundness:

Note: Not eligible for consideration for Best Condition if there is a pathological gait aberration greater than grade II. Consider: Regularity of gait and movement.

##### Quality of Movement:

Consider: Attitude, coordination, and impulsion (deterioration exhibited as a reluctance or refusal to trot, stumbling, leg weariness, muscle fatigue and stiffness).

Parts B & C to be completed by the Ride Management ONLY (to be done after veterinary completion of Part A)

### B. Time Factor

# CHAPTER EP ENGLISH PLEASURE DIVISION

## SUBCHAPTER EP-1 GENERAL

### EP101 Eligibility

Horses may be of any breed or combination of breeds. Junior exhibitor classes are open to horses and ponies. Horses must be serviceably sound, in good condition and of English Pleasure type. Animals with complete loss of sight in one eye may be found serviceably sound at the judge's discretion. Stallions are not permitted in Junior Exhibitor classes.

### EP102 Appointments

1. The use of artificial appliances or devices such as chains, shackles, rubber bands, blinkers (except when driving) or blindfolds is prohibited on the grounds before or during a competition. Any animal with prohibited equipment must be disqualified from further competition and forfeit all entry fees and winnings. Tails must not be gingered or put in any device (e.g. tailset, bustle, braced, tied, etc.) which alters their carriage while on the grounds. The fact that a horse's tail has previously been set does not exclude participation. Tongue ties and inconspicuously applied hair in the tail and/or mane are permitted.
2. ENGLISH PLEASURE SADDLE SEAT CLASSES: A full bridle, pelham or curb, English-type saddle (No forward seat or dressage seat saddles allowed). Horses must be shown with a full mane and tail without braids or ornamentation of any kind. For rider, informal saddle seat attire with coat and hat or protective headgear. In all classes, gloves, crop, and spurs are optional. Gaudy colors should be avoided. Prohibited: A single snaffle, hackamore, martingale, or tie-down.
3. ENGLISH PLEASURE HUNTER SEAT CLASSES: Forward, balance seat or side saddle, snaffle bridle, pelham with two reins, kimberwicke bits or a full bridle (curb and snaffle). If a full bridle is used, it must be of hunter style and excessive length of curb shank shall be penalized. Breast plates are permissible, but martingales are prohibited. Horses may be shown with or without braided manes and/or tails. For rider, traditional hunter-style jacket, breeches or hunter jodhpurs, dark hunting cap, derby, or protective headgear and appropriate boots. Tall dress or tall field boots are preferred as traditional. Paddock or jodhpur boots with matching half chaps are permitted although not considered as traditional. A stock, choker or four in hand with any color shirt is correct. In all classes gloves, hunter crop or bat, and spurs are optional. Junior riders must wear fastened protective headgear (See GR801.4) when mounted. Shadbellies are prohibited.
4. ENGLISH PLEASURE DRIVING: Entries to be shown to a two-wheeled show pleasure vehicle or a two-wheeled traditional carriage driving vehicle with driver only. Harness with blinkers and driving bit(s), including sidechecks and overchecks, are permitted in all English Pleasure Driving classes and should be appropriate to the horse and vehicle according to tradition and safety. Running martingales are only permitted with snaffle bits. If a traditional carriage driving vehicle is used, breeching, shaft stops or thimbles must be used if the vehicle has no brakes. Entries must be shown with a full mane and tail without braids of any kind. Driver to dress conservatively (not period attire).

### EP103 Gait Requirements

1. UNDER SADDLE CLASSES.
  - a. Saddle Seat Classes: To be shown at a flat walk, trot, extended trot, and canter both ways of the ring. Horses must stand quietly and back readily in the line-up. Horses may or may not stretch in the line-up.
  - b. Hunter Seat Classes: To be shown at a flat walk, trot, and canter both ways of the ring. Entries may be asked to hand gallop one or more directions of the ring at the discretion of the judge. For safety reasons the judge may limit the number of horses to hand gallop at one time. Horses must stand quietly and back readily in the line-up. Horses must not stretch in the line-up.
2. DRIVING CLASSES: To be shown at a flat walk, trot, and extended trot both ways of the ring. Horses may or may not stretch in the line-up. One attendant without whip is permitted to head each entry during the line up in driving classes. It is imperative that the horse stand quietly and back readily in the line-up and the attendant must not touch the horse except for safety purposes.

## EP104 Judging

1. English Pleasure Saddle Seat classes to be judged by a Federation licensed judge who holds a current license in any breed that includes a saddle seat or English Pleasure section.
2. English Pleasure Hunter Seat classes to be judged by a Federation licensed judge who holds a current Hunter license or a current license in any breed that includes a Hunter or Hunter Pleasure section.
3. English Pleasure Driving classes to be judged by a Federation licensed judge who holds a current license in any breed that includes a Pleasure Driving section.
4. Manners and suitability as a pleasure mount are paramount. Transitions from one gait to another should be smooth and effortless. Horses must be obedient with prompt transitions. Special emphasis is placed on a true, flat walk with special consideration being given to those entries that represent a true recreational type, general riding mount. Entries should not exhibit extreme motion, speed, or resistance of any type. Horses must stand quietly and back readily in the line-up. To be penalized: Pulling, head tossing, laboring action, extreme motion or speed, going sideways, tail switching, and interference from attendant during the line up in driving classes.

## EP105 Classes Offered and Specifications

Open Classes are open to professionals, amateurs, and junior exhibitors. Classes may be restricted (e.g. Amateurs, Jr. Exhibitors, Novice Rider, etc.) only if specifically stated in the prize list. A competition may offer up to three classes in each subsection of the Saddle Seat, Hunter Seat and Driving sections (e.g. three Amateur English Pleasure Hunter seat classes, three English Pleasure Saddle seat Geldings classes, etc.) however, only one class within each subsection and the championship within each subsection will count for HOTY awards for any one competition. The prize list must clearly state which classes count for Horse of the Year points.

1. ENGLISH PLEASURE SADDLE SEAT and CHAMPIONSHIP (Open, Amateur, Jr. Exhibitor, Maiden, Novice, Limit, Geldings, Mares, Ladies, Gentlemen). Judged on manners, performance, presence, quality and conformation.
2. ENGLISH PLEASURE HUNTER SEAT and CHAMPIONSHIP (Open, Amateur, Jr. Exhibitor, Maiden, Novice, Limit, Geldings, Mares, Ladies, Gentlemen). Judged on manners, performance, presence, quality and conformation.
3. ENGLISH PLEASURE DRIVING and CHAMPIONSHIP (Open, Amateur, Jr. Exhibitor, Maiden, Novice, Limit, Geldings, Mares, Ladies, Gentlemen). Judged on manners, performance, presence, quality and conformation.
4. ENGLISH PLEASURE UNDER SADDLE and CHAMPIONSHIP (Open to both Saddle Seat and Hunter Seat Entries). Any English Pleasure class that allows entries to compete in either Saddle Seat or Hunter Seat attire and equipment must be run as an unrated, recognized class or opportunity class. Competition management must list the class specifications in the prize list and a licensed judge is not required.
5. ENGLISH PLEASURE HORSEMANSHIP and CHAMPIONSHIP (Saddle Seat, Hunter Seat, Driving). To be shown at the appropriate gaits listed in EP103.1 and EP103.2. To be judged on the rider's awareness of the horse's performance. Offering of prize money in horsemanship classes for junior exhibitors and amateurs is forbidden. In Horsemanship classes, the rider is the competitor and wins the award. Exception: Breed and Hunter Horsemanship classes may offer classes in which scholarship funds are awarded. However, these funds must be disbursed directly to the institution upon proof of enrollment by the awarded recipient. Horsemanship classes will be held as unrated, recognized classes. Horsemanship classes are to be judged in accordance with EP104.

## **CHAPTER EQ EQUITATION DIVISION**

### **SUBCHAPTER EQ-1 REGULATIONS FOR ALL SEATS**

#### **EQ100 Definition**

The Equitation Division is divided into three sections: Hunter/Jumping, Saddle and Western Seats. Judges officiating these sections shall be licensed accordingly unless permitted in the rules of the specific Equitation Finals (Exception: GR1005). Separate classes can be offered for boys and girls; different age limits; or ribbons won. Dressage Seat Equitation is exempted from the requirements of Chapter EQ. For Dressage Seat Equitation, see DR133.

#### **EQ101 Eligibility**

1. Riders in classes for junior exhibitors cannot have reached their 18th birthday in accordance with GR128, however competitions are encouraged to offer Adult Equitation classes for amateur riders who have reached their 18th birthday.
2. In Equitation classes only the rider is being judged, therefore, any horse that is suitable for a particular style of riding (i.e., Hunter/Jumping Seat, Saddle Seat or Western/Reining Seat) and is capable of performing the required class routine is acceptable. Performing in Saddle Seat Equitation the gaits of the class are the walk, trot, and canter to be shown both ways of the ring, correct diagonals and leads to count. For five gaited division a slow gait and rack will be added to the class gaits.
3. Stallions are prohibited. (Exception: USEF Talent Search Class/Finals; Hunter/Jumping Seat Equitation classes restricted to adults; classes restricted to a breed if division rules for the breed of horse ridden permit their use for juniors, and if the division rules for the breed of horse ridden permit juniors to ride stallions).
4. Any rider competing and or riding anywhere on the competition grounds with their stirrup, stirrup leather, fender, or foot tied and/or secured in any manner(including but not limited to magnetic stirrups or tape) will be eliminated from the entire competition. The steward will note the trainer name(s) on the steward's report, and further disciplinary actions may be taken by the Federation.
5. Management shall not permit an animal to compete in any equitation class restricted to ponies or in any class where the pony's height is a qualifying factor unless the person presenting the animal is in possession of a measurement card issued by the Federation or a copy of a valid measurement form.

#### **EQ102 Judging**

1. SOUNDNESS. Unsoundness does not penalize a competitor unless it is sufficiently severe to impair the required performance. In such cases, the imposition of a penalty is at the judge's discretion. (Exception: Hunter/Jumping Seat Equitation classes held at Hunter Jumper Competitions where, in a case of unsoundness sufficiently severe to impair the required performance, the judge(s) must eliminate the competitor from that class and inform the competition manager, who in conjunction with the Official Veterinarian and the Steward, will evaluate disqualifying the horse from further participation in the competition.)
2. Any rider not having their mount under sufficient control will be dismissed from the ring and disqualified from that class.
3. Riders must remain on the same mount throughout all phases of a class until the judge requests a change.
4. No rider can be asked to perform a test on another horse before they have performed the same test on their own.
5. Attendants are not allowed in the ring except at the request of judge(s).
6. When additional tests are desired, the judges' instructions to riders are publicly announced. It is suggested that the judge go over these instructions with the announcer immediately before they are announced to assure mutual understanding of the wording. For testing in Hunter Seat Finals, when riders are called back collectively into the ring without their trainers, they may be given a copy of the course. If the judge desires, the test may be written on the course diagram.
7. Judges cannot confer with riders individually during the line-up. (Exception: Verbal testing).

8. At Federation licensed hunter and/or jumper competitions, judges may not adjudicate from the same location as the starter, or from a place where competitors and/or trainers are permitted to congregate.
9. ELIMINATIONS.
  - a. If eliminations for a class are separated from the final phase, the performance in each phase has equal consideration unless otherwise specified in the prize list or class specifications. (Exception: ASPCA Horsemanship Finals.)
  - b. The final phase will be conducted in the same manner as the elimination except a different course can be used in the Hunter/Jumping Seat classes and different tests can be used in all classes.
  - c. If a posted workout is to be used at a later time it should be publicly announced and should be posted near the in-gate before the workout is called.
10. In Open Equitation and Medal Classes, horses may not be ridden by more than one rider per class or section of the class. (Exception: Saddle Seat Equitation and Tests requiring a change of horses.)
11. In a work-off a rider may not jump or be required to jump any fence that is not in the original course, except verticals included in the original course may be jumped in the opposite direction provided the ground lines are correct. Jumps must be jumped in the original direction unless otherwise specified.
12. In a Jumping Seat Equitation class, a single judge is not permitted to officiate and operate the electric timer simultaneously.

## **SUBCHAPTER EQ-2 HUNTER/JUMPING SEAT EQUITATION SECTION.**

WHEN A SUBJECT IS NOT ADDRESSED IN THESE RULES, IT MUST BE ADDRESSED BY THE APPROPRIATE COMMITTEE AND THAT COMMITTEE'S INTERPRETATION WILL STAND AS THE RULE UNTIL THE NEXT YEAR WHEN AN APPROPRIATE RULE CHANGE WILL BE SUBMITTED.

### **EQ103 Eligibility to Compete**

1. In order to compete in any Hunter/Jumping Seat Equitation classes at licensed competitions as an exhibitor, rider, trainer, or their agent(s), a person must be an Active member of the United States Hunter Jumper Association, Inc., or pay a Show Pass fee to the United States Hunter Jumper Association, Inc. Exception: Local Competitions and ex-ceptions listed in GR901.9. Exception: Breed restricted Hunter/Jumping Seat Equitation classes.
2. USHJA Horse Registrations.
  - a. All horses competing in Federation licensed and/or USHJA sanctioned competitions with Hunter, Hunter Breeding, Jumper and Hunter/Jumping Seat Equitation classes (except those activities enumerated in GR901.9, items 1-9) not restricted by breed must be properly identified in accordance with GR1101, and must also be registered with USHJA (See GR1101.1). Any change of a horse's name and/or ownership must be recorded with Federation and USHJA in accordance with GR1105 and GR1107. The USEF/USHJA registration number for each horse must be entered on all entry forms for licensed competitions.
  - b. Applications for USHJA Registration can be completed online at ushja.org using the USHJA Horse Registration application form. This form is also available from the USHJA office, as a download from the USHJA website or from competition management. Competition management is responsible for notifying exhibitors of this requirement in their prize list.
3. In addition to the provisions of EQ103.2, on or after December 1, 2017, all horses competing in classes that require USHJA horse registration must provide a microchip number that verifies their animal's identity in order to compete for points, money won or be eligible for Federation and/or USHJA programs and awards where horses are required to be recorded or registered.
4. A microchip used to verify identity must be a fifteen digit ISO compliant 11784/11785 chip and be implanted in the nuchal ligament of the animal.
5. This rule will have a transition period from December 1, 2017 to November 30, 2018. During this period, animals that are not in compliance with this rule will not receive points or be eligible for Federation and/or USHJA programs and awards. After this period, all horses that are competing in classes which require USHJA registration which are not microchipped will be ineligible to compete in Federation licensed competitions.

6. Ponies shown in Adult Hunter/Jumping Seat Equitation classes, suitability to count; may cross enter into WIHS Pony Equitation or USEF Pony Medal or any rated Pony Hunter section. See also HU101.

The use of a whip must be for a good reason, done at the appropriate time, in the proper place and with appropriate restraint. Excessive whipping will not be tolerated.
  - i. Any striking of the horse's head (on the poll or forward of the poll) shall be deemed excessive.
  - j. Repeated jerking on the reins and sawing on the bit unless applied to an unruly horse that is jeopardizing its own safety or the safety of its rider.
  - k. Improper use of the bit resulting in bleeding, broken skin or broken mucous membrane.
  - l. Excessive use of the spurs or spurring resulting in broken and bleeding skin.
  - m. Rapping the legs of a horse with the butt end of a riding crop or other implement.

  - p. Use of a wire or chain in conjunction with any schooling jumps.
  - q. Use of electronic shock devices in schooling or showing.
  - r. Use of shackles, hock hobbles and similar devices, with the exception of kicking chains while the horse is in the stall or in transport. This does not prohibit the use of rubber or plastic exercising devices.
  - s. Showing a horse with hypersensitive, raw or bleeding sores around the cornets, pasterns, legs or body.
  - t. Use of laser beam devices anywhere on the competition grounds, except in an exhibition or if required in class specifications. (Exception: Lasers used in a therapeutic manner).

In addition, after consultation between Competition Management, the Steward, or other official involved, and a Senior Judge in the division, additional penalties including disqualification from the balance of the competition may be imposed. All such violations must be recorded in the Steward's Report and, if cruelty or abusive behavior is evident, it will be reviewed by the Federation for such action as may be deemed appropriate to the particular circumstances.

## **EQ105 Position**

1. General. Rider should have a workmanlike appearance, seat and hands light and supple, conveying the impression of complete control should any emergency arise. Exhibitors may ride side saddle in Adult Equitation classes but not in classes restricted to Juniors.
2. Hands. Hands should be over and in front of horse's withers, knuckles thirty degrees inside the vertical, hands slightly apart and making a straight line from horse's mouth to rider's elbow. Bight of reins may fall on either side. However, all reins must be picked up at the same time. When using two reins, the snaffle rein should be on the outside while the curb rein is on the inside.

3. **Basic Position.** The eyes should be up and shoulders back. Toes should be at an angle best suited to rider's conformation: ankles flexed in, heels down, calf of leg in contact with horse and slightly behind girth. Iron should be on the ball of the foot and must not be tied to the girth.
4. **Position in Motion.** At the walk, sitting trot and canter, body should be a couple of degrees in front of the vertical; posting trot, inclined forward; galloping and jumping, same inclination as the posting trot.
5. **Mounting and Dismounting.** To mount, take up reins in left hand and place hand on withers. Grasp stirrup leather with right hand and insert left foot in stirrup, toe in girth and mount. To dismount, rider may either step down or slide down. The size of rider must be taken into consideration.

## **EQ106 Appointments**

1. **Protective headgear.** All riders must wear protective headgear. See GR801.2. While competing in a class, if a rider's chin strap becomes unfastened, the rider may stop, re-fasten the chin strap and continue their performance without penalty or elimination. A judge may, but is not required, to stop a rider and ask them to refasten a chin strap which has become unfastened, again without penalty to the rider. Headgear must be free from non-traditional adornment.
2. **Conventional attire following the tradition of fox hunting is encouraged and preferred.** It is further recommended that the rider's attire does not distract from the performance of the horse and rider. Judges shall not eliminate a rider for inappropriate attire except for safety (see GR801). Shirts must have a choker, similar collar or tie. Breeches may be buff, canary, tan, rust or white.
3. **Spurs, crops or bats are optional but if used must be a conservative color.**
4. **Inappropriate attire.** When management permits Hunter/Jumping Seat Equitation riders to ride without jackets, riders must wear traditional, short, or long-sleeved riding shirts with chokers or ties. Polo shirts and full chaps are not permitted except in unjudged warm-up classes. Management or Judge may eliminate an exhibitor who is inappropriately attired.
5. **Tack.** Judges may penalize but not eliminate a horse or pony that competes in unconventional tack. Judges must eliminate a horse or pony that competes in illegal tack.
  - a. **Hunter Seat Equitation:**
    1. **Legal bits include snaffles, pelhams, kimberwicks, or full bridles.** Illegal bits include, but are not limited to, two rings, three rings, gags (other than the hunter gag), et cetera. Changing of bit/bridle between phases is permissible.
    2. **Illegal nosebands include but are not limited to, drop, flash and figure eight nosebands.**

3. Martingales are permitted in classes over obstacles and in the jumping phase of classes requiring both jumping and flat work. Martingales are not permitted on the flat in any class or phase unless class specifications allow their use.
  - b. Jumping Seat Equitation (USEF Talent Search, WIHS Jumper Phase, USHJA Jumping Seat Medal, and any class specifically designated as a Jumping Seat Equitation class):
    1. Legal bits include snaffles, pelhams, gags, kimberwicks, and two or three ring bits. Full bridles may be used. Any other bits (including but not limited to hackamores, etc.) are prohibited. Exception: Hackamores may be used in jumping phases of the USEF Talent Search Classes and Finals. Changing of bit/bridle between phases is permissible.
    2. Legal nosebands include leather cavesson, flash, drop and figure eight.
    3. Martingales are not permitted on the flat in any class or phase unless class specifications allow their use. Running Martingales used in the conventional manner are legal in the over fences phase only. Standing martingales, German martingales, draw reins, or restricted martingales are prohibited in all phases.
    4. Bit converters may be used.
    5. Blinkers are prohibited.
  - c. Cable or metal tie downs are prohibited for use on horses and ponies.
  - d. Curbs. When using a curb with any leverage bit, it must be constructed of loose links, joints, and/or lie smooth against the jaw of the horse and be free of twists, sharp objects or anything inhumane. A curb may be wrapped or inserted into a cover for the comfort of the horse. A curb may not be used in conjunction with wire, metal, rawhide, metal “keepers”, or any other substance except for attachment of curb to the bit.
  - e. Boots and conservative colored bandages are permitted on the legs only. An entry will be eliminated for competing with a belly band, or a wrap or bandage anywhere other than the horse’s legs. The total maximum weight of equipment allowed to be added to a horse’s leg, front or hind (single or multiple boots, fetlock rings, etc.) is 500 grams or 17.637 ounces (shoe excluded). (See JP111.5)
  - f. Type of saddle is optional.
  - g. Nose nets are permitted.
6. When showing in the Hunter/Jumping Seat Equitation section it is recommended that riders use traditional stainless steel stirrup irons that promote proper position of the foot in the iron as well as a correct leg position. It is further recommended that riders use stirrup irons that allow judges a clear and unobstructed view of the position of the foot in the stirrup. Judges may not eliminate a rider for using a particular style of stirrup iron. (Exception: see EQ101.4)
  7. Electronic Communication Devices.
    - a. No mounted exhibitor may wear or carry an electronic communication device (i.e., cellular telephone, pager, walkie talkie, etc.) while in the competition ring. The penalty for wearing or carrying a forbidden device if observed by the judge may be elimination from the class during which the device was worn or carried.
    - b. Electronic communication devices used for purposes of coaching, etc., between competitors and individuals outside the ring shall be prohibited in all classes.
    - c. Exhibitors who have a chronic condition may apply for a Presidential Modification exempting them from the provisions of this rule in accordance with GR153. Riders may not use these devices in over fences classes.
    - d. An exhibitor who has a chronic condition and has previously been granted at least one annual presidential modification related to the condition, may submit an application for approval of a special three-year presidential modification related to the same condition. The application must be accompanied by sufficient supporting documentation that the condition is unlikely to improve during the three-year period.
    - e. The unsafe use of electronic devices, as determined by the competition steward in their sole discretion, including cell phones while mounted is prohibited in all areas designated for schooling and exercise, and while lungeing horses on competition grounds. Earphone(s)/Earbud(s) are prohibited in all areas designated for schooling and exercise.

## **EQ107 Conduct**

(See GR1210.1a -.1f)

© USEF 2025

1. Classes for junior and senior riders can be combined.
2. When entries warrant, it is recommended that competitions restrict Maiden, Novice, Limit and Intermediate riders to their respective categories.
3. DIVISION OF CLASSES. In Hunter/Jumping Seat, if there are 40 or more entries at the beginning of the class, it may be divided and run as two separate sections. All classes with 50 or more entries at the beginning of the class must be divided and run as two separate sections with separate trophies and ribbons; for Hunter/Jumping Seat, a "California split" method, as defined in HU158, must be used if the class requires numerical scores. (Exception: Regional and National Equitation Finals and all Equitation Classics)
4. MONEY PRIZES. In Equitation classes the rider is the competitor and wins the award. Offering of prize money in Equitation classes for junior exhibitors and amateurs is forbidden. (Exception: Scholarship funds may be awarded. However, these funds must be disbursed directly to the institution upon proof of enrollment by the awarded recipient.)
5. RIBBONS. In Hunter/Jumping Seat Equitation classes a minimum of six ribbons must be awarded but no more than ten ribbons are required.
6. NUMBERS. Numbers must be worn on the rider's back and must be clearly visible at all times when in competition.
7. Attention getting devices and/or other noisemakers (including but not limited to tape measures, blow horns, altered bamboo poles, etc.) are not allowed in and around the make-up/schooling/warm-up and competition rings during scheduled competition sessions. Use of explosives and fire extinguishers by or for exhibitors/competitors (except in the case of fire) is not allowed on competition grounds at any time. (See also GR839.4j)
8. CHAMPIONSHIPS. Championships in the Hunter/Jumping Seat Equitation division may be offered on a competitive basis or based on points. Only Championships awarded based on points will count for Zone HOTY points.
  - a. Championships awarded on a competitive basis:
    1. Can be held as a free post entry class open to any designated number of place winners in the Hunter Seat section (minimum of two) except Maiden, Novice and Limit classes;
    2. Can be held as an Open class with advance entries for riders who have competed in at least one other class in the Hunter/Jumping Seat division. To be shown over a minimum of six jumps not to exceed 3'6". Wings can be no wider than 36". Judges can require additional tests; or
    3. All judges officiating in classes stated to qualify for the Champion and Reserve can confer and designate a first or second place winner on the basis of performance in these classes. Riders can be required to work-off at judge's discretion using only those tests permitted under EQ113.
  - b. Championships awarded based on points:
    1. A Championship may not be offered in a section unless a minimum of two Over Fences classes and one Flat class are held. A Championship will not count for points unless a minimum of three entries complete a minimum of two over fences classes and one flat class. If a competition offers more than one Flat class in any one section, only one will count toward the Championship. The prize list must specify the class to count.
    2. The Champion and Reserve Champion titles are awarded to the top two of the four riders that acquired the most points performing over a regulation course with obstacles at the full height required in the section in which shown. In addition to these points, only these four riders receive points for ribbons won in one flat class. In case of a tie score the Championship and/or Reserve is awarded to the rider that accumulated the most points over fences.

## **EQ108 Class Routine**

1. Over obstacles.
  - a. The performance begins when the horse enters the ring.
  - b. Each competitor's round will be scored on the rider's performance.
  - c. Each competitor may circle once before approaching the first obstacle. They then proceed around the course keeping an even pace throughout.
  - d. If a refusal occurs in a double or triple, competitors must re-jump all obstacles in the combination.
  - e. The judge will determine a base score for each competitor's performance. A knock down penalty of four (4) points per rail will be deducted from the base score.

- f. In classes with a time allowed, a one (1) point deduction per second over the time allowed will be deducted from the base score.
  - g. The following constitute major faults:
    1. A refusal.
    2. Trotting on course when not part of a test.
    3. Crossing your track; A track is established once a horse has landed from a fence or completes a required test and follows the horse until the consecutive fence is jumped or the next test is executed. Upon completion of each consecutive fence or performance of the next test, the track is erased. Crossing a track between obstacles and/or required tests shall constitute a disobedience and will be penalized by the judge(s). Exceptions:
      - a. A course diagram that requires a rider to cross their track.
      - b. Snake or multiple panel jumps that are jumped consecutively
    4. Addressing a jump – Prior to jumping the first jump, coming to a complete stop in front of a jump in order to show the jump to the horse is unacceptable. Walking or trotting by the jump in a forward moving manner is acceptable.
  - h. The following constitute faults at the judge's discretion:
    1. A loss of stirrup(s).
    2. A loss of rein(s).
  - i. An eliminated rider must leave the ring immediately. If elimination occurs during a ride-off, the competitor is placed last of all those chosen for the ride-off, but placed before any riders not participating (see EQ113). The following actions will result in elimination:
    1. Fall of horse and rider (rider shall not remount in the ring).
    2. Three cumulative refusals. Exceptions: Riders will be eliminated after two refusals in the USEF Hunter Seat Medal Finals, USEF Pony Medal Finals, Maclay Finals, USHJA 3'3 Jumping Seat Medal Classes and Finals, USHJA 3'3 Adult Jumping Seat Medal Classes and Finals, USEF Talent Search class and the WIHS Equitation Jumper phase.
    3. Off course.
    4. Trotting or cantering through the in-gate or out-gate.
  - j. Any or all competitors can be called back to perform at a walk, trot and canter or to execute any appropriate tests included in class requirements (see EQ111 and EQ113). If a rider does not attempt a part of the test (e.g., fails to back, fails to halt) a score of 50 shall be given for the first occurrence. If a rider attempts the test, but encounters difficulty (e.g., loss of counter lead, breaking to the canter in front of a trot fence), up to 10 points may be deducted depending on severity, for each occurrence.
2. Flat Classes and Flat Phases.
    - a. In Hunter Seat or Jumping Seat Equitation flat classes or phases, judges must work competitors in groups of twenty (20) or less.
    - b. Light contact with the horse's mouth is required.
    - c. Martingales are not permitted on the flat in any class or phase unless class specifications allow their use.
    - d. Competitors shall proceed at least once around the ring at each gait and, on command, reverse and repeat. The order to reverse can be executed by turning either toward or away from the rail. Entries then line up on command.
    - e. All tests must be on the flat.
    - f. In addition to the class requirements of EQ111 and EQ113, in Intermediate, Open Equitation classes for riders 12 years of age and older, ASPCA Maclay classes, and all USEF Hunter Seat Medal classes, riders may be asked to work collectively without stirrups.
    - g. In addition to the class requirements of EQ111 and EQ113, in Open Equitation classes for riders 12 years of age and older, ASPCA Maclay classes, and all USEF Hunter Seat Medal classes, judges may call for more advanced flatwork such as shoulder in, shoulder out, haunches in, haunches out, and changing direction collectively.
  3. Outside assistance will be penalized at the judge's discretion.
  4. In cases of broken equipment or loss of shoe, the competitor must continue or be eliminated. Exception: see EQ106.1 for protective headgear.
  5. The number of competitors who complete the course will be used to determine the number of entrants for the increment system.

6. In any two-phase equitation class, i.e. the WIHS, Maclay and the USEF Talent Search, a rider must complete both phases to be eligible for a ribbon in the overall standings. Exception: USEF Hunter Seat Medal see EQ111.5.
7. No medal class with a national year-end finals may run concurrently with any other class or section in the same ring. Exception: Pony Medals and WIHS Equitation Hunter Phase.

## EQ109 Course Requirements

See EQ111 for course requirements specific to Medal Classes

Classes must be held over at least six obstacles.

1. All obstacles must be at least 5'6" wide across the jumpable portion.
2. In Maiden, Novice, Limit and classes for 14 years and under, jumps cannot exceed 3' (or 0.90m when class specifications list fence height in metric.)
3. In Intermediate classes obstacles cannot exceed 3'3" (or 1.0m when class specifications list fence height in metric.)
4. In Open Classes and Classes for 15 to 17 years, obstacles cannot exceed 3'6" (or 1.10m when class specifications list fence height in metric) and wings are optional.
5. In Novice classes, a change of direction is required.
6. In Limit classes, a change of direction and a combination are required.
7. In Intermediate, 15 - 17 and Open classes, at least one change of direction and a combination are required.
8. Combinations are prohibited in classes restricted to riders 12 years old and under, unless required in specific Federation classes. All combinations must be numbered with a single number and the designations A and B or A, B and C on the course diagram. If only one element of a combination is being jumped, it must be the last element.
9. Verticals may be jumped in either direction provided ground lines are correct, i.e. no false ground lines.
10. It is recommended that one class in each competition be held over jumper-type obstacles to encourage interest in FEI competition and one over hunter course so that riders can be judged on their ability to establish and maintain an even hunting pace.
11. In Open Equitation classes for riders 12 years of age and older, the course must include at least two changes of direction, a combination including an oxer and 1/3 of the obstacles must be oxers. In addition, all courses must include at least three of the following:
  - a. Bending Line
  - b. Narrow Jump (5'6"-8')
  - c. Roll-back Turn
  - d. Fence at the end of the ring
  - e. Long approach to a single jump
12. If an option fence is used, a rider may choose to jump either fence. If the horse stops at one of the options, the rider is scored with a refusal and if the fence is dislodged must wait for the fence to be reset, but may then jump either option.
13. The top element of all obstacles must be securely placed so that a slight rub will not cause a knockdown. If safety cups are used the top cup must be the deepest cup available. A plank may not be used as the top element of a jump.
14. FEI approved safety cups must be used for the back rail of all oxers in the competition ring.
15. The use of the FEI approved safety cups is mandatory in all warm-up/schooling areas on the back rail of all oxers. If an oxer is set so that it may be jumped in both directions, safety cups must be used on all top rails. It is the Competition Manager's responsibility to ensure sufficient FEI approved safety cups are available in each warm-up/schooling area, the competitor's responsibility to use the safety cups in the school area, and the Steward or CSS's responsibility to ensure the safety cups are being used.
16. For the purposes of eligibility and cross entry corresponding heights are:

| Height (metric equivalent height) | Corresponding JP/EQ metric class fence heights used for Hunter and Equitation cross entry and eligibility |
|-----------------------------------|---|
| 2'3" (.69 meters)                 | .70 meters  |
| 2'6" (.76 meters)                 | .75 meters  |

|                    |             |
|--------------------|-------------|
| 2'9" (.84 meters)  | .85 meters  |
| 3'0" (.91 meters)  | .90 meters  |
| 3'3" (1.00 meters) | 1.00 meters |
| 3'6" (1.07 meters) | 1.10 meters |
| 3'9" (1.14 meters) | 1.15 meters |
| 4'0" (1.22 meters) | 1.20 meters |
| 4'3" (1.30 meters) | 1.30 meters |
| 4'6" (1.37 meters) | 1.40 meters |

## EQ110 Course Designers.

1. The licensed Hunter Course Designer, or their designated representative, must be on the grounds during the classes they have built. The Hunter Course Designer or their designated representative must be present during all Hunter/Jumping Seat Equitation classes for which they have responsibility and be available to report to the judge at any time. The course designer, or their designated representative, must ensure that the courses are properly set for the competition. (Exception: breed restricted competitions and open competitions with 50% or more breed specific classes.)
2. A Regional, 'r', or 'R' Hunter Course Designer is required to officiate for all Hunter/Jumping Seat Equitation classes at Federation licensed Regional competitions.
  - a. Exception: A Federation licensed Jumper Course Designer is permitted to officiate for any Jumping Seat Equitation classes at Federation licensed Regional competitions.
3. A 'r' or 'R' Hunter Course Designer is required to officiate for all Hunter/Jumping Seat Equitation classes at Federation licensed National or Premier competitions.
  - a. Exception: A Federation licensed Jumper Course Designer is permitted to officiate for any Jumping Seat Equitation classes at Federation licensed National or Premier competitions.

## EQ111 Requirements for Specific Classes

When creating tests, judges must consider the level of ability of the riders in the class.

1. The following age limit classes are suggested but may vary according to local conditions:
  - a. For juniors: 14 and under, and 15-17; and
  - b. For amateurs: 18 to 35, 36 and over.
2. Maiden, Novice, Limit, Intermediate.

Open to riders that have not won one/three/six/twelve first place ribbons respectively competing in equitation classes at Regular and Local competitions of USEF or Equine Canada.

  - a. Maiden. For juniors and amateur riders who have not won 1 blue ribbon over obstacles. Test 1-3
  - b. Novice. For juniors and amateur riders who have not won 3 blue ribbons over obstacles. Tests 1-5.
  - c. Limit. For juniors and amateur riders who have not won 6 blue ribbons over obstacles. Tests 1-7.
  - d. Intermediate. For juniors and amateur riders who have not won 12 blue ribbons over obstacles 3'3" or higher. Tests 1-14.
  - e. Open. For juniors and amateur riders. Tests 1-23.
  - f. The Maiden, Novice, Limit and Intermediate status of riders at Regular and Local Competitions is determined from the closing date of entries. Blue ribbons won in the Hunter/Jumping Seat Equitation section will not affect a rider's status in the Saddle or Stock sections, etc. Ribbons won in classes restricted to a particular breed will affect a rider's status. Ribbons won as a junior affect a rider's status when competing as an adult.
  - g. Ribbons won in leadline classes and in classes where entries are not required to ride at all gaits will not affect Maiden, Novice, Limit and Intermediate status.
  - h. Ribbons won in classes not to jump do not affect a rider's status in classes over jumps. However, ribbons won in classes over jumps do affect a rider's status in classes not to jump. Ribbons won in classes with less than six (6) entries do not affect a rider's status. Ribbons won in short stirrup classes and in classes over obstacles lower than 2'3" will not be counted in reckoning Maiden, Novice, Limit, Intermediate or Open status.

### 3. USEF HUNTER SEAT MEDAL CLASS

For full specifications and qualifying criteria see [www.usef.org](http://www.usef.org).

#### a. Conditions Governing Competitors in USEF Hunter Seat Medal Classes

1. USEF Hunter Seat Medal Classes are open to Individual Junior Members in good standing who have not reached their 18th birthday in accordance with GR128. Affiliated Members are not eligible. No credit will be given for winnings before a competitor becomes a member.
2. A rider can enter USEF Hunter Seat Medal classes anywhere in the United States but the number of points to qualify for the USEF Hunter Seat Medal Final (or semi-finals if held) depends on the requirements of the rider's point state. A rider's point state shall be the state given on the rider's membership application. That address is locked on December 1 of the competition year or the first day of the rider's membership activation, whichever comes first. However, a Life member's address is always locked on December 1 of the competition year. A rider may have only one domicile which is where the rider has their permanent home and where, whenever they are absent, intends to return. The address given on the membership application must be the state where the rider is domiciled at the time of membership activation or renewal. If a rider is found not in compliance with this rule, the rider may be subject to disqualification from the USEF Hunter Seat Medal Finals. A person may apply to the Federation for permission to change their point state.
3. In the USEF Hunter Seat Medal, exhibitors must qualify by the minimum number of points required by their state. Riders may compete in a total of fourteen (14) USEF Hunter Seat Medal Qualifying classes in a single qualifying period. Any rider who continues to compete after they have competed in fourteen (14) qualifying classes will no longer be eligible to compete in the USEF Hunter Seat Medal Final. (Exception: If a rider is not yet qualified for the USEF Hunter Seat Medal Final after fourteen (14) classes, that rider may continue to compete until qualified. That rider must stop competing in USEF Hunter Seat Medal Qualifying classes as soon as they are qualified for the USEF Hunter Seat Medal Final or they will no longer be eligible to compete in the USEF Hunter Seat Medal Final.) It is the rider's responsibility to calculate and know their points as well as the number of classes they have competed in.
  - a. Any rider in their final junior year may not compete in any qualifying classes held at a competition with a start date after August 31 of that competition year.
4. The winner of a USEF Hunter Seat Medal Class Final is no longer eligible to compete in USEF Hunter Seat Medal classes.
5. Qualifying procedures for USEF Hunter Seat Medal Classes and any other USEF classes listed in EQ111 will be approved by the relevant USEF Committees and breed/discipline affiliate organization. Information on qualifying procedures for each of these classes will be available on the USEF website.

- b. A liverpool or water is prohibited in USEF Hunter Seat Medal classes including Regionals and Finals. In addition, all courses must include at least three of the following: Bending line, narrow jump (5'6"-8'), roll-back turn, fence at the end of the ring, long approach to a single jump. Two or more tests of the following number of competitors are required. In classes with three (3) who complete the course, three (3) competitors must be called back for testing. In classes with four (4) to thirty (30) who complete the course, at least the top four (4) competitors must be called back for testing. In classes with thirty-one (31) or more who complete the course, at least the top six (6) competitors must be called back for testing. Eight places must be awarded in classes with thirty-one (31) or more entries (See EQ113 for approved tests). Any exhibitor who does not participate in the testing is placed last of those exhibitors called back to test. Should more than one exhibitor fail to return for testing they will be placed at the judge's discretion. Only one rider per horse. To fill a class three (3) competitors must complete the course. For purposes of determining the number of entries for the increment system, the number of entries is determined by the number of exhibitors who completed the course in a class or section of the class. (See EQ108.5). If there are 40 or more entries at the beginning of this class, it may be divided by every other number and run as two separate sections. If there are 50 or more entries at the beginning of this class, it must be divided by every other number and run as two or more separate classes.

  - b. QUALIFYING PERIOD. Qualifying period: shows starting on or after September 1st through shows starting on or before August 31st.
  - c. Awarding of Points  
1st - 6th place points are tabulated by multiplying the # of riders in the qualifier class by 10, 6, 4, 2, 1, ½ points respectively. Three riders must complete the course in order for points for that phase to count. In order for overall points to count in a two-phase qualifier, three riders must complete the course in at least one of the two phases and at least three riders must compete in the second phase. (See HU119 for definition of competed)

If one phase is split and there are fewer than 50 entries in the second phase, splitting the second phase is optional. Only phases with more than 50 entries must be split. If either phase is double pinned, then the overall results must also be double pinned. Riders who place first or second in a Zone or Regional Championship on or before October 1 shall be automatically qualified to compete at the USEF Hunter Seat Medal Finals in accordance with EQ111.5. Winning after October 1 does not count toward qualifying for the Finals. Placing other than first or second in a Zone or Regional Championship will have no effect on a rider's eligibility to compete in the Finals but will enable the Medal Class winners to compete against each other on a Zone or Regional basis.
- 4. USHJA Zone or Regional Championships are conducted under the same regulations as the Finals, except a minimum of 25% of the riders must be called back for a work-off.
- 5. A minimum of five competitors are required to complete the class.

## **EQ113 Tests From Which Judges Must Choose**

Tests may be performed either collectively or individually but no other tests may be used. Instructions must be publicly announced.

NOTE: In Hunter/Jumping Seat Equitation classes, any exhibitor who does not participate in the testing is placed last of those competitors called back to test. Should more than one exhibitor fail to return for testing they will be placed at the judge's discretion. If exhibitors are called back collectively to test, they must remain in the ring until all exhibitors have completed the test. If riders are asked to be in the ring during the testing, riders must be able to watch the other competitors test. Equitation tests must not have exhibitors trotting or cantering through in gate or out gate; any exhibitor choosing to trot or canter through the in-gate or out-gate must be eliminated (see EQ108). Obstacles jumped in an equitation test must have been included in the original course. Jumps must be jumped in the original direction unless otherwise specified.

1. Work collectively or individually at a walk, rising/posting trot, and/or sitting trot, and/or canter.
2. Downward Transition Test:
  - a) Walk (4-5 steps)
  - b) Halt (4-6 seconds)
  - c) Halt and Back for (3-5 steps). When riders working collectively are asked to halt and then back, they should walk forward a few steps and halt again after backing and then proceed with any further instructions from the judge.
3. Question(s) regarding basic horsemanship, tack or equipment and/or conformation. The judge may ask question(s) that are appropriate for the level of expected skill of any given class or specifications.
4. Working either collectively, or individually, riders may demonstrate the lengthening or collection of strides on the flat at the walk, sitting or posting/rising trot and/or canter.
5. Figure Eight at the trot, demonstrating change of diagonals. In any Figure Eight movement, the rider should start at a center point at the halt. To finish the movement the rider is to return to the halt at same position as the point of commencement.
6. Figure Eight at the canter on the correct lead. In this movement, the rider will begin at the halt and demonstrate a simple change of lead. This is a change whereby the horses is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead. in the center of the figure, then will proceed to the second circle on the opposite lead. The rider will halt in the center at the same point of commencement to finish the figure.
7. Jump a shortened course. The riders must jump all obstacles in the same direction of the original course unless the judge clearly states that a jump be attempted in the opposite direction of the original course. If the judge requests that a jump be used in the opposite direction it must be a vertical and if there are ground lines, they must be correct. (See EQ 102.11).
8. Jump low obstacles at a trot as well as a canter. The maximum height of trot jump is determined as 6" lower than class requirements and is not to exceed 3' for horses and 2' for ponies. Oxers may be used as a trot jump in classes listed at 3'6" or higher.
9. Demonstrate a half- turn or a half-turn in the reverse. In all cases where a figure is requested between 2 jumps that requires a change of direction, the rider will not be charged for crossing their path nor will this count as a refusal between the obstacles.
10. Change leads on a line demonstrating simple or flying changes. The simple change is whereby the horses is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead. The flying change is performed in one stride with the front and hind legs changing at the same moment. The change of the leading front and hind leg takes place during the moment of suspension.
11. Figure Eight at the canter demonstrating flying changes of leads. Like all Figure Eight movements, the rider

is to first halt at a center point. The flying change is performed in one stride with the front and hindlegs changing at the same moment. The change of the leading front and hind leg takes place during the moment of suspension. The rider will halt in the center at the same point of commencement to finish the figure.

12. Collection of strides between 2 fences. It is recommended that a line chosen for this test be not less than 70'.
  - a. For safety purposes, judges may only ask for additional strides to be added and must not ask rider to leave out a stride.
13. Work collectively or individually at the walk, posting/rising trot, and/or sitting trot, and/or canter without irons. In any case where riders are asked to perform without irons they must be allowed to walk or halt and be afforded the opportunity to cross their irons if they wish.
14. Execute serpentine at a trot and/or canter on the correct leads. If trotting, the rider is to demonstrate the changes of diagonals at the center points of the figure, if cantering, the rider should demonstrate the simple or flying changes of lead in the center of the figure. The simple change whereby the horses is brought back into the walk or trot (either is acceptable unless the judges specifies) and then restarted into a canter on the opposite lead.
15. Canter on the counter lead on the flat. For the purposes of Hunt Seat Equitation on the flat, a counter canter is defined as a balanced canter on the outside lead. If working collectively, no more than 12 riders may counter canter at one time. Riders must complete one full revolution around the arena in each direction.
16. A canter on the counter lead may be used on the approach to a jump. For the purposes of Hunt Seat Equitation over fences, the counter canter is designed to improve balance and suppleness. When utilizing this test, rider may be asked to:
  1. Approach a single jump on a counter lead. This test requires riders make at least ONE turn or bend of a course of not less than 90° on the counter lead.
  2. Demonstrate a counter canter between 2 jumps on the course. For this test, the rider upon landing off the first jump can choose from the following acceptable options:
    - a) If the rider lands firstly on the inside lead, they may demonstrate a simple or flying change of lead before cantering through the first 90° turn and continue to hold the counter lead to the next jump. Either the simple or flying change is acceptable.
    - b) If the rider lands firstly on the outside lead, they may continue to hold the outside lead to the next required obstacle.
    - c) A judge can not require a rider to land on the counter lead.
17. Demonstrate a turn on the forehand done through the halt.

18. Demonstrate a turn on the haunches done from the walk.

19. Demonstrate Shoulder-in, Shoulder-out, Haunches-in, Haunches-out, Half pass or Leg Yield at either the walk or the sitting trot.

(Shoulder In) (Shoulder Out/ Haunches Out) (Haunches In) (Half pass) (Leg Yield)

20. Hand Gallop. A hand gallop may be used either when riders are working collectively or individually on the flat (no more than 12 riders may hand gallop at one time) and it may also be used on the approach to a jump. The rider must be in a half-seat when executing the hand gallop. A hand gallop may not be requested into or out of a related distance line.
21. Ride without stirrups over fences. The riders must be allowed to remove the irons from the saddle or cross them if they wish.
22. Demonstration ride of approximately one minute. Riders must advise the judge(s) beforehand what ride they plan to demonstrate.
23. Change horses. (Note: this is the equivalent of two tests.) Riders will only change horses for Championship classes. Riders will not be asked to ride a different horse unless they have ridden the course on their own horse first.
- When a swap of horses is requested, the rider must be given a minimum of 90 seconds to do a brief flat and jump no more than two (2) schooling jumps.
  - Riders may be requested to jump a previous course or a portion of the previous course. Tests 1 – 22 shall not be included even if included in the former course.

## EQ114 Schooling Requirements

- Schooling Rules for all equitation classes will follow USEF Jumper Schooling Rules (see JP Appendix A) EXCEPT that Swedish Oxers (maximum 12" difference), ground lines on both sides of an oxer, tarps, coolers, and liverpools are acceptable.
- The use of FEI approved safety cups is mandatory in all warm-up/schooling areas.
- The unsafe use of electronic devices, as determined by the competition steward in their sole discretion, including cell phones while mounted is prohibited in all areas designated for schooling and exercise. Earphone(s)/Earbud(s) are prohibited in all areas designated for schooling and exercise.

4. Attention getting devices and/or other noisemakers (including but not limited to tape measures, blow horns, altered bamboo poles, etc.) are not allowed in and around the make-up/schooling/warm-up.

## **SUBCHAPTER EQ-3 SADDLE SEAT EQUITATION SECTION**

### **EQ115 Position**

1. GENERAL. Judges should note that the required Equitation Seat should in no way be exaggerated but be thoroughly efficient and most comfortable for riding the type of horse called for at any gait and for any length of time. In Saddle Seat Equitation classes, riders should convey the impression of effective and easy control. To show a horse well, they should show themselves to the best advantage. Ring generalship must be taken into consideration by the judges. A complete picture of the whole is of major importance. An exhibitor is entitled to request only one time-out per class. (See GR833). A judge must order from the ring any unruly horse or one whose actions threaten to endanger the rider, other exhibitors, or their entries.
2. HANDS. Hands should be held in an easy position, neither perpendicular nor horizontal to the saddle and should show sympathy, adaptability and control. The height the hands are held above the horse's withers is a matter of how and where the horse carries its head. The method of holding the reins is optional however both hands must be used and all reins must be picked up at one time. Bight of rein shall be on the off (right) side. According to tradition, the "on side" is the side on which you mount and therefore, the "off side" is the opposite side. Riders shall be penalized for switching or carrying at any time the bight of the rein to the ("on" side) left side.
3. BASIC POSITION. To obtain proper position, rider should place themselves comfortably in the saddle and find their center of gravity by sitting with a slight bend at the knees but without use of irons. While in this position adjust leathers to fit. The rider should not be sliding off the back of the saddle nor should there be excessive space in the seat behind the rider's back. Irons should be placed under ball of foot (not toe nor "home") with even pressure on entire width of sole and center of iron. Foot position should be natural (neither extremely in nor out) with heels down.
4. POSITION IN MOTION.
  - a. Walk: slight motion in saddle.
  - b. Trot: slight elevation in saddle when posting; hips under body not mechanical up-and-down nor swinging forward and backward.
  - c. Canter: close seat, going with horse, not rocking.
  - d. Slow Gait: steady in saddle, no slap nor twist; legs straight down, intermittent calf pressure permissible; hands slightly raised, flexible contact, no sawing.
  - e. Rack: seat smooth in saddle; legs down and slightly back, not thrust forward; hands low in motion with gait, not sawing but placement optional to individual rider and horse.

## EQ116 Appointments

1. **PERSONAL.** Exhibitors and judges should bear in mind that at all times entries are being judged on ability. However, neatness is the first requisite regarding a rider's attire and the following requirements are based on tradition and general present-day customs. Judges must penalize and may eliminate those competitors who do not conform.
  - a. **INFORMAL:** Riding habit will consist of jacket with collars and lapels of the same conservative color with matching jodhpurs, a collared shirt, tie, vest, and complimentary gloves, jodhpur boots, and derby or soft hat (protective headgear may be worn without penalty per GR801.4). Conservative colors for informal riding habits include black, blue, grey, burgundy, green, beige, or brown and may contain herringbone, pin stripes, and other combinations of colors that appear solid. Colors not included in this list are not acceptable and must be penalized and may be cause for elimination. Only informal dress is permitted in American Saddlebred Pleasure Equitation classes and Morgan Classic Saddle Seat Equitation classes, day or night.
  - b. **FORMAL:** Even more conservative attire is required for evening classes. Riding habit will consist of tuxedo-type jacket with collars and lapels of the same color with matching jodhpurs, formal shirt, bow tie, vest or cummerbund, and matching top hat (women), homburg or other soft hat (men). Solid colors for formal riding habits include dark grey, dark brown, dark blue, or black. Formal shirt must be white or off-white with the bow tie and vest or cummerbund to match shirt or riding habit in color. Colors not included in this list are not acceptable and must be penalized and may be cause for elimination. Formal riding habits are not to be worn before 6:00 p.m. and are not mandatory after 6:00 p.m.; exhibitors competing on Pleasure horses have the option to wear formal attire in Open equitation classes as specified by the rule.
  - c. **OPTIONAL:** Blunt end (unrowelled only) spurs and/or riding crops.
2. **TACK.**
  - a. **Bridle:** Entries must be shown in either full bridles (curb and snaffle) or Pelham bits in all Saddle Seat equitation classes. Martingales or similar tie-downs are prohibited.
  - b. **Saddle:** Flat English-type. Forward seat, Western and side saddles are prohibited.
3. **Electronic communication devices used for the purposes of coaching, etc., between competitors and individuals outside the ring shall be prohibited.**
  - a. Exhibitors with a permanent hearing impairment are permitted to use an electronic communication device upon submission of a written certification from a treating medical professional's office certifying the permanent hearing impairment and certifying the requirement of an electronic communication device. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.

- b. An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional's office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.

## **EQ117 Conduct**

(See GR1210.1b -.1e)

1. Classes for junior and senior riders can be combined.
2. When entries warrant, it is recommended that competitions restrict Maiden, Novice, Limit and Intermediate riders to their respective categories.
3. **DIVISION OF CLASSES.**  
In The Good Hands, and Saddle Seat championship classes, judges must work competitors in groups of 20 or less. In USEF Saddle Seat Medal classes, judges must work competitors in groups of 15 or less. In USEF Saddle Seat Adult Amateur Medal Classes it is at the discretion of competition management whether or not to work competitors in groups of 15 or less. In all other Saddle Seat classes, if there are 20 or more entries in a class, it is recommended that the class be divided into separate sections by selecting every other number on the list of entries, and that separate trophies and ribbons be awarded. If there are 25 or more entries, the class must be divided and the notification of such publicly announced and posted at least two hours prior to the start of the class. In classes with eliminations, it is the prerogative of the judge, not of competition management, to determine the number of riders from any given section. The list of qualifying riders for the class finals will not be posted or announced until all sections have been worked.
4. **MONEY PRIZES.** In Equitation classes the rider is the competitor and wins the award. Offering of prize money in Equitation classes for junior exhibitors and amateurs is forbidden. (Exception: Scholarship funds may be awarded. However, these funds must be disbursed directly to the institution upon proof of enrollment by the awarded recipient.)
5. **RIBBONS.** In Saddle Seat Equitation classes one ribbon must be awarded for every six competitors but no more than ten ribbons are required.
6. **NUMBERS.** Numbers must be worn on the rider's back and must be clearly visible at all times when in competition.
7. Attention getting devices and/or other noisemakers (including but not limited to tape measures, blow horns, altered bamboo poles, etc.) are not allowed in and around the make-up/schooling/warm-up and competition rings during scheduled competition sessions. Use of explosives and fire extinguishers by or for exhibitors/competitors (except in the case of fire) is not allowed on competition grounds at any time. (See also GR839)

## **EQ118 Class Routine**

1. Riders enter the ring turning to the right and proceed counterclockwise. All riders shall be worked both ways of the ring at all required gaits as directed by the judge.
2. Incorrect diagonals and leads shall be penalized.
3. The order to reverse can be executed by turning either towards or away from the rail.
4. Entries will line up on command and any or all riders may be required to execute any appropriate tests included in class requirements. (See EQ118 and EQ119).
5. In all classes the judge(s) must walk the line up. If a judging panel is being used to officiate these classes, all judges must comply with this rule.
6. In any class where a workout is required, specifications for each class regarding mandatory workout must be followed.
7. When individual tests are called for, the judge's opinion rests on a 50-50 analysis of the railwork and the individual tests.
8. The fall of horse or rider does not necessarily cause elimination, but is penalized at the judge's discretion.
9. All entries chosen for a collective workout must be worked both ways of the ring in front of each judge at any gait requested.

## EQ119 Requirements for Specific Classes

The following four age restricted classes are suggested but may vary according to local conditions: a) juniors riders who have not reached their 11th birthday; b) junior riders who have reached their 11th but not their 14th birthday; c) junior riders who have reached their 14th but not their 18th birthday; d) adult amateurs who have reached their 18th birthday. A competition committee can also offer classes for riders on a specific type of horse.

1. Maiden, Novice, Limit.
  - a. Open to riders that have not won one/three/six/twelve first place ribbons respectively competing in equitation classes at Regular and Local Competitions of USEF or Equine Canada. The Maiden, Novice, Limit and Intermediate status of riders at Regular and Local Competitions is determined from the closing date of entries. Blue ribbons won in the Hunter section will not affect a rider's status in the Saddle or Stock sections, etc. Ribbons won in classes restricted to a particular breed will affect a rider's status. Ribbons won as a junior affect a rider's status when competing as an adult. Ribbons won in leadline classes and in classes where entries are not required to ride at all gaits will not affect Maiden, Novice, Limit and Intermediate status.
  - b. MAIDEN. For junior riders who have not reached their 18th birthday and have not won a first place ribbon at a licensed competition. Tests 1-4.
  - c. NOVICE. For junior riders who have not reached their 18th birthday and have not won three first place ribbons at licensed competitions. Tests 1-9.
  - d. LIMIT. For junior riders who have not reached their 18th birthday and have not won six first place ribbons at licensed competitions. Tests 1-12.
2. WALK & TROT CLASS. Open to riders 10 years of age and under. To be judged on the rail at a walk and trot only. Riders must not have ever been judged in a class at a licensed or non-licensed competition that required a canter. It is recommended that a class having 12 or more entries be divided. If a division is necessary, the recommended split is to divide the entries into a class for riders 8 years old and under and one for riders 9 and 10 years old. Headers will be permitted in the line-up and will be called in by the announcer after the class has lined-up and before they are judged. No tests shall be called. A judge must order from the ring any unruly horse or one whose actions threaten to endanger the rider, other exhibitors, or their entries.
3. 10 AND UNDER. For junior riders who have not reached their 11th birthday. Tests 1-7.
4. 11 TO 13. For junior riders who have reached their 11th but not their 14th birthday. Tests 1-12.
5. 13 AND UNDER. For riders who have not reached their 14th birthday. Tests 1-12.
6. 14 TO 17. For junior riders who have reached their 14th but not their 18th birthday. Tests 1-16.
7. OPEN. For junior riders who have not reached their 18th birthday. Tests 1-16.
8. PLEASURE EQUITATION. For junior riders who have not reached their 18th birthday, riding Pleasure horses with full mane and tail with natural carriage. Classes may be divided as to sex and age of the rider. (For riders competing on American Saddlebreds: Horses cross entered in the Country Pleasure division at the same competition may not wear tailsets or bustles while on the grounds. Riders competing in these classes cannot compete in any other Saddle Seat Equitation classes at the same competition, except USEF Medal, UPHA, The Good Hands and American Saddlebred Pleasure Equitation Medallion Saddle Seat classes on Pleasure horses with full manes and tails with natural carriage. Riders competing in Pleasure Equitation classes are eligible to compete in the Open Saddle Seat Equitation Championship on a Pleasure horse with a full mane and tail with natural carriage only if a Pleasure Equitation Championship is not offered at that competition.
9. ADULT SADDLE SEAT EQUITATION. Open to amateur riders 18 years of age or older. Tests 1-13 and 15-16.
10. CHAMPIONSHIPS. To be awarded on a competitive basis. Competition management shall decide if championships will be restricted to ribbon winners (minimum of 2) of previous classes with a free post entry or if it will be an open class with advance entries required for riders that have competed in a qualifying class. Competition management must allow any class in the saddle seat sections (i.e. age groups, Challenge Cups, Medals, etc.) of the Equitation or Breed specific Divisions to count as qualifying classes for the open saddle seat equitation championship for riders 17 & under. An Adult rider can only show back in an Adult Saddle Seat Championship. The judge(s) must work a minimum number of riders per number of ribbons awarded (including classes with one entry) from any of the Saddle Seat Equitation Tests appropriate for the class. (See Rules EQ118 and EQ119)
11. FIVE GAITED EQUITATION/HORSEMANSHIP. Open to amateur riders of any age.

Exception: Saddle Seat Adult Amateur classes are open to amateur riders 18 years of age or older. Affiliated Members are not eligible. No credit will be given for winnings before a competitor becomes a member.
    2. Application for membership can be made directly to the Federation.
    3. In Saddle Seat only the first place winner is eliminated from further qualifying classes during that year. In Saddle Seat Adult Amateur Medal classes a win does not eliminate a rider from further competition for the remainder of the year.
    4. The winner of a Medal Class Final is no longer eligible to compete in Medal classes in the division in which the Final was won. (Exception: Winners of the Saddle Seat Adult Amateur Medal Final will be eliminated from further competition in Saddle Seat Adult Amateur Medal classes after two (2) consecutive or non-consecutive wins of the Final).
  - b. For full qualifying and Final specifications for the USEF Saddle Seat Medal Final and USEF Saddle Seat Adult Amateur Medal Final see the USEF website.
  - c. USEF SADDLE SEAT MEDAL CLASS (17 & Under). Open to Junior Active Members of the Federation who have not yet reached their 18th birthday. One win eliminates the rider from further competition in this class for the remainder of the qualifying season. Individual workouts of the top four competitors are required and must include two or more individual tests. Tests 1-16. Judging is based 50% on railwork and 50% on individual workout. To fill a class, two competitors must show with proper appointments. If there are more than 15 entries at the beginning of this class, it must be split and run as two separate classes. The same workout is required for both classes.
  - d. USEF SADDLE SEAT ADULT AMATEUR MEDAL CLASS. Open to Senior Active Amateur Members of the Federation. A win does not eliminate the rider from further competition in this class for the remainder of the qualifying season. Two or more individual tests of the top four competitors are required. Tests 1-13 and 15-16. Judging is based 50% on railwork and 50% on individual workout. If there are more than 15 entries at the beginning of this class, it must be split and run as two separate classes. The same workout is required for both classes.
13. THE GOOD HANDS. For permission to offer this class and complete details, contact The Mid-America Horse Show Association, email [admin@MidAmericaHorseShow.org](mailto:admin@MidAmericaHorseShow.org) or phone (847) 537-4743. There is a class fee.
- a. THE GOOD HANDS QUALIFYING CLASSES. For juniors who have not reached their 18th birthday. To be judged as a group at a walk, trot and canter. A minimum of two riders are required to individually execute a figure eight at a canter, trot to the judge, stop and back. After which, Tests 1-16 may be called for. Judging is based 40% on railwork and 60% on individual workout. Horsemanship only to count. To fill a class, two competitors must compete with proper tack. A rider must place first or second to qualify to compete in The Good Hands Finals. One win eliminates the rider from further competition in this class for the remainder of the qualifying season.
  - b. THE GOOD HANDS FINALS. To be eligible, entrant must have placed first or second in an official Good Hands qualifying class at an approved competition and must be properly certified by the secretary of the competition at which such win was made. The winner of this championship is not eligible for further participation in this particular event. Open to junior riders who have not reached their eighteenth birthday. The finals consist of two sections: Preliminaries and the Championship class. The preliminary class(es) shall also serve as an elimination for the Championship class. In the preliminary, all eligible competitors are to be judged as a group at the walk, trot and canter both ways of the ring and then are required to individually execute the mandatory workout consisting of a figure eight at the canter, trot back to the judge, stop and back. Judging is based 40% on railwork, 60% on individual workout. Judges shall select 10-15 contestants to compete in the Championship class. In the final phase, all contestants are to be judged as a group at the walk, trot and canter both ways of the ring. All contestants shall individually execute a prescribed workout. Further testing of any contestants may be requested at the judges' discretion. Again, judging is based on a 40% railwork, 60% individual workout analysis. A rider's performance in the preliminary has equal consideration as the performance in the final phase. In the event a horse becomes incapacitated, upon examination of the competition's veterinarian and a judge or steward, a substitution will be permitted.

## 15. UPHA CHALLENGE CUP

### a. General

1. The United Professional Horsemen's Association instituted the Challenge Cup class in order to highlight the showmanship of saddle seat equitation riders. Judges should take note that in all qualifying classes (except walk and trot) sixty percent (60%) of the class is judged on the rail work and forty percent (40%) is judged on the individual pattern. In all UPHA Challenge Cup National Finals (except walk and trot) two thirds (2/3) of the entire class is judged on the two rail work portions of the class while only one third (1/3) is judged on the individual pattern. The UPHA Saddle Seat Committee encourages judges to select individual patterns that highlight showmanship as opposed to intricacy.

3. Showmanship is a primary factor throughout the class.
4. No minimum number of entries is required to fill a class.
5. The term "open" refers to a UPHA Challenge Cup class that is not designated to a particular breed/division. They are referred to as "UPHA Challenge Cup" classes and may be divided into age divisions as outlined in the "ELIGIBILITY" section.
6. Judging Specifications and Qualifying Procedures for Individual Programs: All of the individual programs will adhere to the rules and guidelines which govern the UPHA Challenge Cup class unless otherwise specified under the following breed/divisional sections.
7. Specific qualifying procedures for the Open, Walk/Trot, Adult, Morgan, Arabian Breeds, National Show Horse, Pleasure Challenge Cup National Finals and Five Gaited Horsemanship Final are contained under their respective headings.
8. Specifications and Procedures for all UPHA Challenge Cup National Finals and Chapter Championships:
  - a. Judges—In all Chapter, National (including Breeds) and Junior National Finals, the judge(s) must be Saddle Seat Equitation Registered or Recorded in Saddle Seat Equitation with USEF. The UPHA Morgan, Arabian Breeds, and National Show Horse Challenge Cup National Finals are required to have a least one Open Saddle Seat carded judge which may be recorded or registered on a three judge panel. A guest card will not fulfill this requirement. Judges for the UPHA Challenge Cup National Finals are recommended by the UPHA Equitation Committee and a list will be furnished to respective competition managements annually. In all UPHA Challenge Cup National Finals, judges shall be selected from nominations by the UPHA Challenge Cup/Equitation Committee.
  - b. When entering Chapter, National or Junior Challenge Cup Finals, riders must indicate on the entry form the competition and location at which they qualified.
  - c. The qualifying season for all UPHA Challenge Cup National Finals closes seven (7) days prior to the beginning of the competition at which the Championship will be held. At that time, the qualifying season for the following year will begin.
  - d. The same horse must be used in both Phases of the UPHA Challenge Cup National Finals, unless the animal is sick or lame, in which case a veterinarian's certificate is required.
  - e. If the UPHA Challenge Cup National Finals are divided because of its size, it is to be split by every other number. All riders must compete at the walk, show trot and canter both ways of the ring and line up. The divisions are to be dismissed on standby, with the individual workouts executed immediately following completion of the rail work. On completion of the individual workouts, the riders in that group shall be excused and the next division shall begin the rail work and individual workout phase and so on for each section of riders.
  - f. Individual copies of the Judge's Phase I workout must be available to each rider in the competition office no less two (2) hours prior to the performance in which the class is run.
  - g. The preliminary work is called Phase I, in which all contestants must work in a group (or in groups) of 20 or less on the rail and complete an individual workout. A minimum of twelve (12) riders and a maximum of fourteen (14) riders will be chosen for Phase II which is the championship class. If there are less than twelve (12) riders judges are required to bring all riders back for the championship class. No predetermined number need be selected from each group. Exceptions: See UPHA Walk/Trot National Finals specifications.

- h. In all UPHA Challenge Cup National Finals (except the Walk/Trot National Finals), Phase I and Phase II must be judged as a continuous class and must be evaluated using a 1/3-1/3- 1/3 analysis. In Phase I, the rail work portion and the individual workout shall each constitute 1/3 of the overall judging, or 2/3 of the total class. Phase II (the Championship), in which only rail work is performed, shall constitute the remaining 1/3 of the total class. Therefore, the rail work portions constitute two thirds (2/3) of the entire class and the individual pattern constitutes one third (1/3) of the class.
  - i. There will be no less than four (4) hours between the end of Phase I and the beginning of Phase II, and no more than two (2) consecutive days between the two Phases. When the riders return to the ring for Phase II, the announcer is to state that they have been previously judged on rail and figure work.
  - j. No individual workouts will be requested in Phase II, however, at the judges' discretion, selected riders may be requested to do additional rail work as a group for the purpose of breaking a tie. They may not be asked to exchange horses or to ride without irons in this phase.
  - k. In all UPHA Challenge Cup National Finals, a champion and reserve champion will be chosen, with the next eight (8) riders placed in numerical order. Two unannounced reserves should be tied. The "Top Ten" will be announced first, followed by the reserve champion and the champion. All riders must be retired to a holding area outside of the ring and then brought back in individually and numerically for the "Top Ten" awards and the presentation of the reserve champion and champion.
- b. UPHA CHALLENGE CUP 17 & UNDER
1. Open to all saddle seat equitation riders, 17 years of age and under, riding a mare or gelding of any breed. Riders compete at the walk, trot and canter both directions of the ring.   2. The mandatory workout in all qualifying classes is: "Trot a serpentine consisting of four half circles to the opposite end of the ring. Return down either rail at a show trot." Judges are not permitted to alter the mandatory workout in any manner. It is recommended, at the discretion of the judge, to instruct the ringmaster to line riders up as to create a clear area for the serpentine.

On left lead, horse's left leg

reaches further than the right; on the right lead, horse's right leg reaches further than the left. All changes of lead must be a simple change whereby the horse is brought back into a halt or walk and restarted into the canter on the opposite lead. In Medal and Championship classes individual workout instructions must be written down by the judge and delivered to the announcer at the beginning of the class. Instructions can be posted at the judge's discretion provided it is announced and posted at least one hour prior to the session in which the class is held. The work out pattern in all championship classes shall not be posted online or on social media prior to being posted in the horse show office. Competition management is encouraged to post the workout more than one hour prior to the session if possible. At all World and National Championships and Finals, competitors must be allowed ample access to the competition arena in order to walk on foot the posted workout. A minimum of ½ hour is recommended. In Championship classes and any class where a workout is required, judge(s) must work a minimum number of riders per number of ribbons awarded in the class. The judge(s) determine which riders will be required to perform additional testing. A judge must excuse from the ring any unruly horse or one whose actions threaten to endanger the rider, handler, other exhibitors, or their entries. Tests from which judges must choose:

8. Back for not more than eight steps.
9. Figure eight at trot demonstrating change of diagonals. Unless specified, it may be started either facing the center or away from the center. If started facing the center, it must be commenced from a halt.
10. Circle at the canter. When circling clockwise, horse should be on right lead; when circling counterclockwise, horse should be on the left lead.
11. Execute serpentine at a canter.
12. Figure eight at canter. Unless specified, it can be started either facing the center or away from the center. If started facing the center it must be commenced from a halt. Figures are commenced in center of two circles so that one lead change is shown.
13. Canter a straight line, on or off the rail, with or without demonstrating simple change of lead. The judge must specify lead changes to be executed and the beginning lead.
14. Ride without stirrups for a brief period of time, at any gait requested (for not more than one minute at the trotting phase). Riders may be asked to disengage or engage stirrups at a halt or walk or any gait requested by the judge. (Exception: Adult Equitation riders must not be asked to perform without stirrups. See EQ119.9, EQ119.12d and EQ119.15e.)
15. Demonstration ride of approximately one minute on own mount. Movements must be selected from Tests 1-14 above. Rider must advise judge beforehand what ride they plan to demonstrate. To be used only in Championship and/or Medal Classes. Riders must have with them two copies (one for judge and one for announcer) of a written one minute workout in case the judge asks for this test. The test must be stopped at the end of one minute but the rider will not be penalized for not completing it.
16. Exchange horses. This test is to be used only after four or more of the top riders have been tested. Only one pair of riders may exchange horses except in the case of a three-way tie. Saddles may be exchanged. The attendant for each horse being exchanged must be allowed in the ring for the sole purpose of facilitating the change. The purpose of this test is to break a tie.
  - a. Exchanging horses may be used to break a three-way tie in an Equitation Championship or Final. In this case, horses will be exchanged according to the placings on the call judge's card. The first place rider will change to the second place rider's horse, the second place rider will change to third place rider's horse, and the third place rider will change to the first place rider's horse.

## **SUBCHAPTER EQ-4 WESTERN SEAT EQUITATION, REINING SEAT EQUITATION AND WESTERN HORSEMANSHIP SECTION**

(See Western Rules, Chapter WS)

### **EQ123 General**

1. Riders will be judged on seat, hands, performance of horse, appointments of horse and rider and suitability of horse to rider. Results as shown by the performance of the horse are NOT to be considered more important than the method used in obtaining them.
2. Exhibitors can ride sidesaddle in adult equitation classes but not in classes restricted to juniors.

### **EQ124 Position**

1. Basic Position. The stirrup should be adjusted to the proper length to allow heels to be lower than toes, with a slight bend in the knee and calf close to horse. Feet should be placed in the stirrups with weight on ball of the foot with feet flat on stirrup. Consideration, however, should be given to the width of the stirrups, which vary on Western saddles. If stirrups are wide, the foot may have the appearance of being "home" when, in reality, the weight is being properly carried on the ball of the foot. Body should always appear comfortable, relaxed, and flexible. Arms are in a straight line and close with body, the one holding reins bent at elbow. Only one hand is to be used for reining regardless of type of bit used and hands shall not be changed. Hand to be around reins. When using a romal the riders hand shall be closed around the reins with the wrist kept straight and relaxed, the thumb on top. When split reins are used and ends of split reins fall on the same side as reining hand, one finger between reins is permitted. When using romal or when ends of split reins are held in hand not used for reining, no finger between reins is allowed. The position of the hand not being used for reining is optional but it should be kept free of the horse and equipment and held in a relaxed manner with the elbows close to the body and rider's body straight at all times. Rider can hold romal or end of split reins to keep from swinging and to adjust the position of the reins, provided it is held with at least 16 inches of slack rein between the hands. (Exception: In Reining Seat Equitation, reins may not be adjusted while in motion). Hand to be above or slightly in front of horn and as near to it as possible. When riding in a snaffle bit or hackamore two hands may be used with arms in a straight line with the body, bent at the elbow at approximately 90 degree angle with hands 6-16 inches apart. (Exception: Arabian division where hackamore and snaffle bits are not allowed.) Bracing against saddle or coiled riata is penalized

Note: For additional information, see EQ123.1.

2. Position in Motion. Rider should sit to jog and not post. At the lope, rider should be close to saddle. All movements of horse should be governed by the use of subtle aids and the shifting of rider's weight is not desirable. 3. Side Saddle. Side saddle riders should sit square in the saddle, spine to be perpendicular to a horse's backbone. Shoulders to be square and back. Head straight and level. The left leg should hang straight down naturally and close to the horse's side. The heel should be down and the stirrup resting on the ball of the foot, exactly as an astride rider. The left knee rests against the saddle. The lower portion of the rein arm should be parallel with the ground and the reining hand over the right knee. The upper rein arm will take about a 30 degree angle. The knuckles of the reining hand should be vertical with the ground and the reining hand should always be held directly over the right knee and in no way forward of this knee. The upper portion of the inactive arm should be vertical with the body and the elbow of this arm should not protrude to the rear of the upper body. When using closed reins, the inactive hand should be closed around the free ends of the reins and the lower portion of this arm held at about a 45 degree angle in a natural position.

## EQ125 Appointments

Competitors must be penalized for incomplete appointments but not necessarily disqualified.

1. Personal. Riders must wear Western hat; long-sleeved shirt with any type of collar; a necktie, kerchief or bolo tie or brooch; trousers or pants; (a one-piece long-sleeved equitation suit is acceptable provided it includes any type of collar). Hair must be neat and securely fastened if long so as not to cover rider's number.
2. Tack.

- a. The saddle must fit the rider. It may be slick or swelled fork, have a high or low cantle but must definitely be sized to the rider. Nothing that would prevent the stirrups from hanging freely shall be added to or deleted from a standard western saddle. Exhibitors can ride side saddle in adult equitation classes but not in classes restricted to juniors.
  - b. There shall be no discrimination against any standard western bit. Curb chains and leather chin straps may be used but must be flat and at least 1/2" in width, and lie flat against the jaws of the horse. No wire, rawhide, metal or other substance can be used in conjunction with or as part of the leather chin strap or curb chains. A light lip strap is permissible.
  - c. Hackamores as defined in WS105.4, all snaffle bits as defined in WS105.3 may be used on junior horses; tie-downs, running martingales, draw reins, and cavesson-type nosebands are prohibited. Horses shown in the Arabian, Half Arabian, Morgan, National Show Horse, American Saddlebred Divisions may not use hackamores or snaffle bits in the Equitation division and must be shown with one hand.
3. Bandages and boots of any type are prohibited. In the event of injury, the judge may permit a protective bandage. In Western Seat Equitation classes where a pattern is required, the use of shin, bell boots and/or protective bandages on the front legs and standard sliding or rundown boots on the rear fetlocks are permitted.

## **EQ126 Conduct**

(See GR1210.1b -.1f)

2. When entries warrant, it is recommended that competitions restrict Maiden, Novice, Limit and Intermediate riders to their respective categories.
3. DIVISION OF CLASSES
  - a. In Western Seat, all classes with 50 or more entries at the beginning of the class must be divided and run as two separate sections with separate trophies and ribbons. (Exception: Regional and National Equitation Finals and all Equitation Classics)
  - b. If there are 50 or more entries remaining in a class after a class has been divided, the class must be re-divided by every other number and separate trophies and ribbons must be awarded. Once a class has been re-divided it cannot be divided further.
4. MONEY PRIZES. In Equitation classes the rider is the competitor and wins the award. Offering of prize money in Equitation classes for junior exhibitors and ama-teurs is forbidden. (Exception: Scholarship funds may be awarded. However, these funds must be disbursed directly to the institution upon proof of enrollment by the awarded recipient.)
5. RIBBONS. In Western Seat Equitation classes one ribbon must be awarded for every six competitors but no more than ten ribbons are required.
6. NUMBERS. Numbers must be worn on the rider's back and must be clearly visible at all times when in competition. (Exception: Exhibitors in Open Western events must place number on both sides of saddle pad or on the rider's back. Exhibitors in reining seat equitation section may place number on the left side, both sides of the saddle pad or on the rider's back).
7. Attention getting devices and/or other noisemakers (including but not limited to tape measures, blow horns, altered bamboo poles, etc.) are not allowed in and around the make up/schooling/warm-up and competition rings during scheduled competi-tion sessions. Use of explosives and fire extinguishers by or for exhibitors/competitors (except in the case of fire) is not allowed on competition grounds at any time. (See also GR839.4j)

## **EQ127 Western Seat Equitation**

Riders enter the ring at a walk or jog and are judged at a flat-footed four beat walk, two-beat jog and a three-beat lope both ways of the ring. The order to reverse may be executed by turning toward or away from the rail. All competitors are required to back in a straight line during the line up in all classes.

Judges are encouraged to call for at least two tests from EQ131 to be performed by competitors being considered for an award. Due to the difficulty of properly fitting tack, riders shall not be asked to change horses.

See Western Seat Equitation/Western Horsemanship Chart for list of faults and causes for elimination.

### **EQ128 Western Horsemanship**

1. Riders in classes for junior exhibitors cannot have reached their 18th birthday in accordance with GR128.
2. Emphasis shall be placed on horse and rider working together. Execution and correct form of both horse and rider, while maintaining a pleasurable ride are the main criteria for this class.
3. Rider must perform a pattern which will be posted by the judge at least one hour prior to the class. Tests 1-15 may be used.
4. Failure to complete the pattern will not result in disqualification but will be scored accordingly. Rail work is optional at the discretion of the judge. Backing must be included in either the pattern or the lineup.

### **EQ129 Reining Seat Equitation**

1. Riders in classes for junior exhibitors cannot have reached their 18th birthday in accordance with GR128.
2. Emphasis shall be placed on horse and rider working together.
3. Riders will be judged on seat, hands, performance of horse, appointments of horse and rider and suitability of horse to rider.
4. Results as shown by the performance of the horse are NOT to be considered more important than the method used in obtaining them.
5. Riders must perform a reining pattern from RN106, which will be posted by the judge at least one hour prior to the class.
6. No rail work will be performed.
7. A rider who is off pattern will be disqualified and will not receive any award except in a work-off in the case of a tie, the rider will be placed last of those chosen for the work off.
8. Dropping of bits is optional with the judge, but if called for in the ring, assistance, if necessary, may be had from one of the ring officials. Riders must dismount.
9. The official USEF Reining Seat Score Sheet must be used and posted in accordance with RN101.2.
10. Scoring for the Reining portion of the class will be in accordance with RN103. With exception of RN103.2.
11. The Equitation portion of the class will be scored with all riders entering the arena with a score of 70, and each maneuver being scored from a +1-1/2 to -1-1/2.
12. Scores must be announced after each rider works, with the Reining Score being announced first, followed by the Equitation Score, and the Total Score.
13. In the case of tie, the Equitation Score will be used to break the tie. In a multi judge system, the call judge's Equitation Score will be used.

### **EQ130 Requirements for Specific Classes.**

The following three age limit classes are suggested, but may vary according to local conditions: a) juniors who have not reached their 11th birthday; b) juniors who have reached their 11th but not their 14th birthday; c) juniors who have reached their 14th but not their 18th birthday.

1. Maiden, Novice and Limit. For juniors who have not reached their 18th birthday. Tests 1-8.
  - a. Open to riders that have not won one/three/six/twelve first place ribbons respectively competing in equitation classes at Regular and Local Competitions of USEF or Equine Canada. The Maiden, Novice, Limit and Intermediate status of riders at Regular and Local Competitions is determined from the closing date of entries. Blue ribbons won in the Hunter section will not affect a rider's status in the Saddle or Stock sections, etc. Ribbons won in classes restricted to a particular breed will affect a rider's status. Ribbons won as a junior affect a rider's status when competing as an adult.
  - b. Ribbons won in leadline classes and in classes where entries are not required to ride at all gaits will not affect Maiden, Novice, Limit and Intermediate status.
2. Under 11. For juniors who have not reached their 11th birthday. Tests 1-6.
3. 11 and Over. Tests 1-15.

4. Open. For juniors who have not reached their 18th birthday. Tests 1-15.
5. Adult Amateur, Tests 1-15.
6. CHAMPIONSHIPS. To be awarded on a competitive basis. May be held:
  - a. as a free post entry class, open to any designated number of place winners (minimum of two) in previous classes in the Western Seat section except Maiden, Novice and Limit Classes; or
  - b. as an Open class with advance entries for competitors who have competed in at least one other class in the Western Seat Section. Judges may require additional tests. Tests 1-15.
7. USEF WESTERN EQUITATION JUNIOR MEDAL CLASS and USEF WESTERN EQUITATION ADULT AMATEUR MEDAL CLASS
  - a. Eligibility for USEF Western Equitation Junior Medal Class: Open to Junior Active members of the Federation who have not yet reached their 18th birthday.
  - b. Eligibility for USEF Western Equitation Adult Amateur Medal Class: Open to Senior Active Amateur Members of the Federation.
  - c. Class Specifications:
    1. Class will include both rail and pattern work. The judge will determine whether the rail work or pattern work occurs first. Exhibitors are to enter the ring at a walk or jog. Rider will perform work on the rail at a walk, jog, and three beat lope both ways of the ring. Exhibitors may be asked to back during the rail work. Set patterns will be used for these classes. Patterns will be posted on the USEF website.
    2. See EQ123 – 125 for judging specifications.
    3. The same horse must be used in both phases of the class, unless the animal is sick or lame, in which case a veterinarian's certificate is required.
    4. The rail portion will count 50% of the total score, and the pattern will count 50% of the total score.
    5. Off Pattern does not disqualify entries.
    6. Any breed of horse may participate, however stallions are prohibited.
  - d. Points:
    1. There is no minimum number of entries for the class to count. Entries must have proper appointments and complete both the rail and pattern phases in order to place.
    2. Points will be awarded as follows: first place, 6 points; second place, 5 points; third place, 4 points; fourth place, 3 points; fifth place, 2 points; sixth place, 1 point.

### **EQ131 Tests from which judges must choose**

Tests can be performed either collectively or individually but no other tests may be used. Instructions must be publicly announced.

1. Back.
2. Individual performance on the rail.
3. Extended jog.
4. Figure eight at the jog.
5. Circles at either a jog or lope.
6. Lope and stop.
7. Extended lope.
8. Figure eight at lope on correct lead, demonstrating simple change of lead (this is a change whereby the horse is brought back into walk or jog and restarted into a lope on the opposite lead). One figure eight demonstrates two changes of lead and is completed by closing up the last circle.
9. Side pass.
10. Figure eight at lope on correct lead, demonstrating flying change of lead.
11. Change leads down center of ring, demonstrating simple change of lead.
12. Ride serpentine course, demonstrating flying change of lead at each change of direction.
13. Demonstrate sliding stop.
14. Execute 360 degree turns (spins).
15. Roll backs.

## **CHAPTER EV EVENTING DISCIPLINE**

### **SUBCHAPTER EV-1 GENERAL RULES**

#### **EV101 Introduction**

1. **GENERAL.** An Event includes one or more phases from: Dressage, Cross-Country, and Show Jumping. The Federation and the United States Eventing Association (“USEA”) recognize three types of Events: Tests (Individual or Combined), Horse Trials, and Classic Three-Day Events.
  - a. **TESTS.** Tests consist of one or more Dressage, Cross-Country, or Show Jumping phases. Tests may be offered as a separate Event or organized in conjunction with a Federation licensed or endorsed Event.
  - b. **HORSE TRIAL.** Horse Trials are comprised of three phases: Dressage, Cross-Country, and Show Jumping. Typical Horse Trials are held over one or more days, during which the Athlete rides the same Horse throughout. The Dressage phase must be first. The Cross-Country and Show Jumping phases may follow in either order. The following Federation licensed and endorsed levels may be offered: Beginner Novice, Novice, Training, Modified, Preliminary, Intermediate, and Advanced.
  - c. **CLASSIC THREE-DAY EVENT.** The Classic Three-Day Event is comprised of three phases, taking place on separate days, during which the Athlete rides the same Horse throughout. The Dressage phase is held over one or more consecutive days, depending on the number of entries, followed by Cross-Country. Cross-Country is comprised of four phases: Phase A and C (Roads and Tracks), Phase B (Steeplechase), Phase D (Cross-Country Obstacles). Show Jumping is the last phase. The following levels are offered: Training, Modified, and Preliminary.
  - d. There may be a team competition at any Event. Teams must initially consist of three to four Athletes.
2. **RESPONSIBILITY.** An Athlete is ultimately responsible for knowing these rules and complying with them.
3. **CIRCUMSTANCES NOT COVERED IN THESE RULES.**
  - a. For any circumstances not specifically covered in these rules, reference must be made to the following FEI publications:
    1. Rules for Eventing;
    2. Rules for Dressage;
    3. Rules for Jumping.
  - b. Every eventuality cannot be provided for in these rules. In unforeseen or exceptional circumstances, it is the Ground Jury’s duty to make a decision in the best interest of the sport and closest to the intention of these rules.

#### **EV102 Eventing Showcases and Arena Eventing**

These Events are conducted in accordance with the Federation Rules for Eventing. For specifications, qualifications, and Licensed Official requirements, see Eventing Annex 2 on the Federation website.

#### **EV103 National Championships**

Refer to the Federation website for information on USEF Eventing National Championships. The Qualifying Requirements and Selection Procedure documents are updated and approved annually.

## EV104 Definitions

1. **DRESSAGE.** Dressage is the harmonious development of the physique and ability of the Horse. As a result, it makes the Horse calm, supple, loose, and flexible, but also confident, attentive, and keen, thus achieving perfect understanding with their Athlete. These qualities are revealed by:
  - a. The freedom and regularity of the paces;
  - b. The harmony, lightness and ease of movements;
  - c. The lightness of the forehand and the engagement of the hind quarters, originating in a lively impulsion;
  - d. The acceptance of the bridle, with submissiveness throughout and without any tenseness or resistance.
2. **CROSS-COUNTRY.** The Cross-Country phase is to prove the speed, endurance, and jumping ability of the Horse when it is well trained and conditioned. At the same time, it demonstrates the Athlete's knowledge of pace and the use of their Horse across country. It consists of a course with Obstacles, carried out at an appropriate speed for the level.
3. **SHOW JUMPING.** The Show Jumping phase is similar to a Show Jumping competition but without any attempt to find the winner of this phase on its own. The main objective is to prove that the Horse and Athlete are well trained in the specialist discipline of Show Jumping. The nature of the course, its length, the speed demanded, and the dimensions of the Obstacles depend on the degree of difficulty for the whole Event.
4. **UNAUTHORIZED ASSISTANCE.** Any intervention by a third party, solicited or not, with the object of facilitating the task of the Athlete or helping their Horse.
5. **HORSE FALL.** A Horse is considered to have fallen, when at the same time, both its shoulder and quarters have touched either the ground or the Obstacle and the ground.
6. **ATHLETE FALL.**
  - a. Cross-Country: An Athlete is considered to have fallen when they have separated from their Horse in such a way as to necessitate remounting or vaulting into the saddle.
  - b. Show Jumping: An Athlete is considered to have fallen when, either voluntarily or involuntarily, they are separated from their Horse, which has not fallen, in such a way that they touch the ground or find it necessary, in order to get back into the saddle, to use some form of support or outside assistance. If it is not clear that the Athlete has used some form of support or outside assistance to prevent their fall, the benefit of doubt must be given to the Athlete.
7. **OBSTACLE.** An obstacle is considered as such if its boundaries are marked with a red and white marker, or markers, and it is numbered.
8. **ELIMINATION.** Unless otherwise specified, Elimination means that the Athlete/Horse combination in question may not continue to participate in the current Event.
9. **DISQUALIFICATION.** Disqualification means that an Athlete may not take further part in the Event, with any Horse(s).

## EV105 Disqualification Summary Table

The Ground Jury may disqualify an Athlete in the following cases when, in its discretion, the conduct is determined to be unsportsmanlike or abusive. Alternatively, the Ground Jury may apply a penalty of Elimination or a Yellow Warning Card, in its discretion.

| Use of a radio or cellular phone while competing   | EV139              |

## **EV106 Breaking Ties**

1. In the event of a tie between any two (2) or more Athletes for Horse Trials (EV117.5) and Classic Three-Day Events (EV151.2b), the individual classification is decided by:
  - a. The lowest Cross-Country score including penalties for faults at Obstacles, time penalties, and any other penalty incurred.
  - b. If there is still a tie, the classification is decided in favor of the Athlete whose Cross-Country time was closest to the Optimum Time.
  - c. If there is still a tie, the classification is decided in favor of the Athlete with the lowest Show Jumping score including time and Obstacle penalties.
  - d. If there is still a tie, the classification will be decided in favor of the Athlete with the highest collective marks in the Dressage phase.
  - e. If there is still a tie, the tie will remain in the final classification.
2. In the event of a tie between any two (2) or more teams, the winning team will be that whose third placed Athlete has the lowest score.

## **SUBCHAPTER EV-2 ATHLETE**

### **EV107 Membership for Athletes**

1. ATHLETES. Athletes entered in Horse Trials and Classic Three-Day Events must comply with current Federation and USEA membership requirements. Athletes entered in Tests do not need to be members of the Federation or the USEA.
2. HORSES. Horses entered in Horse Trials and Classic Three-Day Events must comply with current USEA registration requirements and must be life recorded with the Federation upon entering FEI level Events. Horses entered in Tests do not need to be registered with the USEA.

### **EV108 Participation**

See also EV116 for Tests, Appendix 2 for Horse Trials, and Appendix 8 for Classic Three-Day Events.

1. ATHLETES. Events are open to professional and amateur Athletes. The age of the Athlete must comply with the specifications of the Event. For Events, the age of the Athlete is determined by the birth year.

2. JUNIORS. An Organizer may offer a competition for Juniors at Tests, at Horse Trials at the Beginner Novice through Preliminary levels, and at CCI1\* and CCI2\*. Athletes in Beginner Novice, Novice, Training, and Modified Horse Trials and CCI1\* will be considered as Juniors until the end of the calendar year in which they reach the age of 18. Athletes in Preliminary Horse Trials and CCI2\* Events will be considered as Juniors from the beginning of the calendar year in which they reach the age of 14 until the end of the calendar year in which they reach the age of 18.
3. YOUNG RIDERS. An Organizer may offer a competition for Young Riders at Tests, at Horse Trials at the Preliminary and Intermediate levels, and at CCI2\* and CCI3\* Events. Athletes will be considered as Young Riders from the beginning of the calendar year in which they reach the age of 16 until the end of the calendar year in which they reach the age of 21.
4. HORSES. Events are open to stallions, mares, or geldings. The age of the Horse must comply with the specifications of the Event. For Horse Trials and Classic Three-Day Events, Horses may only compete once and must be ridden by the same Athlete throughout all phases. At FEI Events running concurrently with a national Event, if a Horse is Eliminated in the Dressage phase for reasons unrelated to horse welfare, the national Ground Jury, in consultation with the Technical Delegate and the Organizer, may at their discretion, permit the Horse to compete in the national Event at the same height level or below. As an exception to GR840, a Horse is eligible for Events even though it has complete loss of sight in one eye, provided sight in the other eye is normal and it meets the other requirements.
5. NUMBER OF HORSES PER ATHLETE. The number of Horses that an Athlete may enter and ride is at the discretion of the Organizer.

## EV109 Loss of Qualifications

For certain levels, Horses and Athletes must meet qualifying requirements, which are detailed in Appendix 2. Loss of these qualifications is outlined below and pertains to any combination of Federation and FEI Events.

1. LOSS OF QUALIFICATION (Preliminary/CCI1\* level and up)
 

Loss of qualification will occur when penalties have been assessed during the Cross-Country phase of an Event as follows:

  - a. A Horse that is Eliminated, for Disobediences, three times within any 12-month period will lose its qualification to compete at the highest level at which an Elimination occurs.
  - b. A Horse that Falls two times in any 12-month period will lose its qualification to compete at the highest level at which a Fall occurs.
  - c. A Horse that incurs two consecutive Cross-Country Eliminations for Refusals, Dangerous Riding, Horse Falls, or Athlete Falls will lose its qualification to compete at the highest level at which an Elimination occurs.
  - d. An Athlete who falls from the same Horse three times in any 12-month period will cause the Horse to lose its qualification to compete at the highest level at which a Fall occurs.
  - e. Any combination of three total occurrences as outlined in a., b., c., or d. above will result in loss of qualification.
  - f. Having lost qualification, a Horse may be re-qualified by achieving two MERs at the next lower height level within any 6-month period and no sooner than **10 days** following the loss of qualification.
  - g. An Athlete who is penalized two times in any 12-month period for Dangerous Riding will lose their qualification to compete at the highest level at which a penalty occurs.
  - h. Any combination of two total occurrences as outlined in e. and g. above will result in loss of qualification for the Athlete.
  - i. Having lost qualification, an Athlete may be re-qualified by achieving two MERs at the next lower height level within any 6-month period and no sooner than 10 days following the loss of qualification.
2. At the Advanced, CCI4\* and CCI5\* levels, Athletes subject to the provisions of this rule may request, in writing, to have their or their Horse's loss of qualifications reviewed by an Ad Hoc of the Eventing Sport Committee.

**BOD 06/17/24 Effective 12/01/24**

## **EV110 Entries**

**See also GR909.**

1. **RESPONSIBILITY.** It is the responsibility of the Athlete to enter a Horse at the level that corresponds to its abilities. If the Athlete is a minor, a specified adult must accept this responsibility by signing the entry form. If an Athlete starts an Event for which they are not qualified, the Athlete may be fined up to \$50 (payable to the Organizer), at the discretion of the Ground Jury.
2. **ENTRY FORMS.**
  - a. Entry forms must be complete by the closing date. All entry and stabling fees must accompany the entry form.
  - b. Mailed entries must be postmarked either on or after the opening date for entries and mailed to the appropriate event secretary. Online entries must be time stamped by the designated collection agent on or after the opening date in the time zone of the relevant Event.
  - c. Entries that are incomplete, postmarked, or time stamped before the opening date, will be returned to the Athlete or placed at the bottom of the list of entries.
  - d. Entries involving Athletes or Horses not yet qualified for the level, but which are otherwise complete, will be accepted as complete pending qualification.
  - e. Entries must be received by the end of the day on the closing date. For the USEA American Eventing Championships, qualifications must be fulfilled by the closing date (See EV110.4).
  - f. Accepted entries are specific to the Athlete and Horse named on the entry form and may not be transferred to another party without the permission of the Organizer, except as specified in EV110.9.
3. **OPENING DATE.** The opening date for national entries must be the Tuesday prior to the date that falls 6 weeks before the first day of the Event. The opening date must be published in the Omnibus for the Event.
4. **CLOSING DATE.** The closing date for entries must be four weeks after the opening date. This date must be published in the Omnibus of the Event. In the case of insufficient entries, the Organizer may accept entries after the closing date. If this is done, the Organizer may charge an additional fee for the entries accepted after the original date, not to exceed an amount equal to the original entry fee.
5. **WAITING LISTS.**
  - a. If space allows, Organizers will accept all entries postmarked or time stamped on the opening date. In the event of over subscription at this stage, a draw will be made, and a waiting list will be established.
  - b. Entries postmarked or time stamped after the opening date will be accepted or placed chronologically on a waiting list.
  - c. At any time, Organizers may fill places that become available with entries from the waiting list, provided the entries were received between the opening and closing dates.
  - d. Entries placed on the waiting list that do not compete must have the full amount of their entry and stabling fees refunded.
6. **HORS DE CONCOURS ENTRIES.** Athletes may enter Horses de hors concours with the permission of the Organizer. They must pay the regular entry fee, be judged in the normal manner, and must participate in accordance with these rules. Hors de Concours entries will not be counted in the final classification.
7. **DOUBLE ENTRIES.** Except where stated contrary in the Omnibus, an entry for two Horses may be made for a division in which only one is to compete, with an office fee for the second Horse. The Horse that will not compete must be declared when the Athlete receives their number.
8. **WITHDRAWALS.** Notification of withdrawal must be given directly to the event secretary. If the Horse is withdrawn prior to 9 p.m. on the closing date for entries, the entry and stabling fees must be refunded, less an office fee, if applicable, not to exceed \$25. If the Horse is withdrawn after the closing date and time, the entry and stabling fees may be refunded at the discretion of the Organizer. If the Horse is withdrawn after the closing date, but before the start of the Event, the scheduled slot for that entry will be assigned by the Organizer. If the Organizer has replaced the withdrawn Horse with one from the waiting list, the entry fee less an office charge must be refunded. If stabling for the withdrawn Horse is occupied by another Horse, the stabling fee must be refunded. The refund policy must be clearly stated in the Omnibus for the Event.

9. **SUBSTITUTIONS.** Substitution of an eligible Horse is permitted after the closing date for entries provided a complete entry form for the substituted Horse is given to the event secretary before the Horse's first phase. An eligible Athlete may be substituted after the closing date for reasons of illness, injury, or the sale of the Horse. The event secretary must be notified of the change before the Horse's first phase.

## **EV111 Restrictions on Schooling**

1. It is prohibited, under penalty of Disqualification, for anyone other than the Athlete who will ride the Horse in the Event to ride the Horse after 3 p.m. the day prior to the start of the Horse's Event.
2. A groom, while mounted, is permitted to walk the Horse or to trot it from one place to another. A groom may also work the Horse in hand or on the lunge.
3. Riding close to Cross-Country Obstacles or riding in the Dressage or Show Jumping arenas prior to the actual Event is prohibited, under penalty of Disqualification, unless authorized by the Ground Jury.
4. The Cross-Country course will be closed to all Athletes on the same date. The course closing date must be published in the Omnibus of the Event. The Dressage and Show Jumping arena may not be used after it has been prepared for the Event and closed by the Organizer. The Organizer must report any violation of this rule to the President of the Ground Jury.
5. The only warmup fences Athletes may jump are marked fences provided by the Organizer. No part of the fences may be held by anyone while a Horse is jumping. These fences must not be raised more than 10 cm above the maximum height permitted for the Event in progress (or about to begin). The oxer must not exceed the maximum width permitted. Ground lines may be placed directly under, or up to 1 m in front of the fence. Ground lines may not be placed on the landing side. Placement poles are not permitted at national Horse Trials. The upper ends of crossed poles must be supported by cups. If a horizontal pole is placed above crossed poles, it must be higher than the upper ends of the crossed poles. Warmup fences must be jumped in the correct direction and only jumped at times permitted by the Organizer. Violation of any of the above rules may result in Disqualification, at the discretion of the Ground Jury.

## **EV112 Abuse of Horses**

1. **ABUSE.** Any act or series of actions that, in the opinion of the Ground Jury, or in its absence the Technical Delegate, can clearly and without doubt be defined as abuse of Horses must be penalized by Disqualification. Such acts include, but are not limited to:
  - a. Riding an exhausted Horse;
  - b. Excessive pressing of a tired Horse;
  - c. Excessive use of whip and/or spurs, and/or bit;
  - d. Riding an obviously lame Horse.
2. **RAPPING.** As an exception to GR839, all rapping (poling) is prohibited, and must be penalized by Disqualification.
3. **WHIP.** The use of the whip must be for a good reason, at an appropriate time, in the right place, and with appropriate severity.
  - a. Reason: The whip must only be used as an aid to encourage the Horse forward, or as a reprimand. It must never be used to vent an Athlete's temper. Such use is always excessive.
  - b. Time: As an aid, the only appropriate time is when a Horse is reluctant to go forward under normal aids of the seat and legs. As a reprimand, the only appropriate time is immediately after a Horse has been disobedient, e.g., napping or refusing. Instances of inappropriate use of the whip include the whip used after Elimination, after the last fence on course, and/or multiple times between Obstacles.
  - c. Place: As an aid to go forward, the whip may be used down the shoulder or behind the Athlete's leg. As a reprimand, it must only be used behind the Athlete's leg. It must never be used overhand (e.g., a whip in the right hand being used on the left flank). The use of a whip on a Horse's head, neck, etc., is always excessive use.

- d. Severity: As a reprimand only, a Horse may be hit hard. However, it should never be hit more than two times for one incident. If a Horse's skin is broken or has visible marks from the use of the whip, that will be deemed excessive use.
4. SPURS: Spurs must not be used to reprimand a Horse. Such use is always excessive, as is any use that results in a Horse's skin being broken.
5. BIT. The bit must never be used to reprimand a Horse. Such use is always excessive.
6. REPORTING. Licensed Officials must report instances of abuse immediately to the Ground Jury, supported by statements from witnesses, if possible.
7. GROUND JURY. If abuse is reported, the Ground Jury must evaluate the evidence to determine if Disqualification is appropriate. If a member of the Ground Jury observes the abuse, they must disqualify the Athlete. There is no appeal against a Ground Jury's decision in a case of abuse. The Ground Jury, the Technical Delegate, and the Course Designer for the Event, when present solely in their role as Course Designer, have the authority to stop an Athlete on the Cross-Country course for abuse.

## EV113 Dangerous Riding

1. Dangerous Riding is considered any Athlete who rides in such a way as to constitute a hazard to the safety or well-being of the Athlete, Horse, other Athletes, their Horses, spectators, or others **during the competition**. **Dangerous Riding may include but is not limited to the following:**
  - a. Riding out of control (Horse clearly not responding to the Athletes restraining or driving aids).
  - b. Riding Obstacles too fast or too slow.
  - c. Repeatedly standing off fences too far (pushing the Horse to the base of the Obstacle, firing the Horse to the fence).
  - d. Repeatedly being ahead or behind the Horse's movement when jumping.
  - e. Series of dangerous jumps.
  - f. Severe lack of responsiveness from the Horse or the Athlete.
  - g. Continuing after three clear refusals, a fall, or any form of Elimination.
  - h. Endangering the public in any way (e.g., jumping out of the roped track).
2. Dangerous Riding will be penalized accordingly, at the discretion of the Ground Jury. Athletes who engage in Dangerous Riding must receive 25 penalties, be Eliminated, and/or issued a Yellow Warning Card. The overall score for the Horse/Athlete combination must not count as a qualifying MER.
3. If Dangerous Riding is reported, the Ground Jury must evaluate the evidence and determine if a penalty is appropriate. If a member of the Ground Jury observes Dangerous Riding, they may Eliminate or penalize the Athlete. There is no appeal against a Ground Jury's decision in a case of Dangerous Riding.
4. The Ground Jury, the Technical Delegate, and the Course Designer for the Event, when present solely in their role as Course Designer, have the authority to stop an Athlete on the Cross-Country course for Dangerous Riding.
5. The President of the Ground Jury may designate one or several deputies (i.e., Eventing Licensed Officials up to the level for which they are licensed and not in an official function at the Event, any Level IV or V USEA ECP Instructor or any Athlete who has represented the USA in a World Championship, Olympic Games, or Pan American Games) for the Cross-Country phase to advise the Ground Jury regarding any action described in 1 or 4 (above). Deputies and fence judges will be provided with a red flag to be waved at the Athlete, at the direction of Ground Jury, to stop the Athlete if the situation continues or for infringement of the above.

## EV114 Medical Data

1. To ensure that vital information is available to medical personnel in the case of emergency, Athletes must comply with the following:

- a. It is mandatory for Athletes include the telephone number of an emergency contact on the entry form.
- b. Athletes must declare medical conditions that may be relevant in case of a medical emergency and are responsible for wearing a medical data carrier (i.e., a small emblem or tag worn on a bracelet, neck chain, or on the clothing, intended to alert medical personnel/physicians that the wearer has an important medical condition) or a medical armband at every Event while riding. Conditions that are relevant include recent head injury, serious past injuries/surgeries, chronic health problems such as diabetes, long-term medications, and allergies. If in doubt, the Athlete should discuss this with their treating physician.

## EV115 Inquiries, Protests, and Appeals

1. **INQUIRIES.** The Athlete, a parent or guardian of an Athlete under 18 years old, the owner of the Horse, or the owner's agent, may inquire about any perceived irregularity or scoring during the Event. Inquiries may be addressed to the Organizer, Ground Jury, or Technical Delegate.
2. **PROTESTS.** The Athlete, a parent or guardian of an Athlete under 18 years old, the owner of the Horse, or the owner's agent authorized in writing, are entitled to lodge a protest. Protests must be addressed to the President of the Ground Jury. Protests must be in writing, signed, delivered to the event secretary, and accompanied by a fee made payable to the Organizer, which will be refunded if the protest (or subsequent appeal) is upheld.
3. **TIME LIMITS FOR PROTESTS.** Protests must be lodged within the following time limits:

| Protest  | Time Limit  |
|--|---|
| Eligibility of a Horse or Athlete                                    | If challenged prior to the start of the Event, the protest must be lodged not later than one hour prior to the start of the Event. If the protest is not made prior to the start of the Event, the Federation may, in its sole discretion, retroactively apply ineligibility but only within the same competition year as the Event at which the eligibility of the Horse or Athlete is being challenged. |
| Condition of the Dressage arena                                      | Not later than one hour before the start of the relevant phase  |
| Cross-Country – Obstacle(s), course length, course condition, etc.   | Not later than 6 p.m. the day before the start of the phase   |
| Show Jumping – Obstacle(s), course length, condition of arena, etc.  | Not later than 15 minutes before the start of the relevant phase  |
| Incidents during the Event or scoring (except errors as noted below) | Not later than 30 minutes after the results of the relevant results are posted  |
| Mathematical or transcription errors                                 | Not later than 3 p.m. the day following the last day of the Event   |

4. **APPEALS.** An appeal against a ruling of the Ground Jury must be lodged within one hour of the announcement of the Ground Jury's determination. Appeals must be addressed to the Organizer, in writing, signed, and delivered to the event secretary.
5. **VIDEO.** As an exception to GR1219, and in addition to Official Video as defined in GR150, unaltered video or still photography is permitted for consideration by the Ground Jury and Technical Delegate for a Cross-Country field of play decision.

  - c. An Athlete who withdraws or retires a Horse is considered to have withdrawn or retired from the entire Event and will not be permitted to continue in subsequent phases with that Horse, unless permitted by the Ground Jury.
5. BREAKING TIES. See EV106.

### **EV118 Dressage Phase Rules**

1. All tests must be ridden from memory, and all movements must follow the order in the test.
2. After the signal has been given by the Judge, the Athlete must enter the arena at A within 45 seconds.
3. A test begins once the Athlete and Horse enter at A and ends once the Horse moves forward after the final salute. Any incidents before the beginning or after the end of the test must have no effect on the marks.
4. The Athlete should leave the arena as indicated in the test.
5. Athletes must take the reins in one hand to salute.

6. When a movement must be carried out at a certain point of the arena, it should be done when the Athlete's body is above this point.
7. The use of voice or clicking the tongue is a serious fault and will result in a deduction of at least two points from what would have been awarded for the movement where this occurred.
8. In the case of marked lameness, the Judge at C, after consultation with the other Judge(s), if applicable, will inform the Athlete that they are Eliminated. There is no appeal against this decision.
9. A Horse leaving the arena, with all four hooves, between the time of entry and the final salute, must be Eliminated.
10. A Horse that resists performing the movements of the test for longer than 20 seconds must be Eliminated.
11. **ERRORS OF COURSE.** If an Athlete makes an error of course (e.g., takes the wrong turn, omits a movement, etc.) the Judge at C warns them by sounding the signal. The Judge may tell the Athlete where to resume the test and the next movement to be executed.
  - a. If the Athlete makes a subsequent error of course, and the sounding of the signal would unnecessarily impede the fluency of the test (e.g., if an Athlete makes a transition at V instead of K), it is at the discretion of the Judge at C to sound the signal.
  - b. If the Athlete makes an error of course and the Judge does not sound the signal, the Athlete may only be penalized once if the movement is repeated, and the same error occurs.
  - c. An Athlete is not permitted to repeat a movement unless the Judge at C determines an error of course and sounds the signal.
  - d. If the Athlete has started the execution of a movement and tries to do the same movement again, the Judge(s) must consider the first movement shown only and penalize for an error of course.
12. **ERRORS OF TEST.** If an Athlete makes an error of test (e.g., rising trot instead of sitting trot, does not salute with the reins in one hand, etc.) they must be penalized for an error of test.
13. If there is more than one Judge, unless all Judges are in agreement on an error, the Athlete receives the benefit of the doubt.
14. Unauthorized Assistance may be penalized by Elimination, at the discretion of the Ground Jury.
15. When there are two or more Judges, one Horse and Athlete, who are not participating in the Event, will perform the prescribed ride in order for the Judges to confer before the Event begins.
16. The Judge at C may stop a test and/or allow an Athlete to restart a test from the beginning or from any point in the test if a circumstance has occurred to interrupt a test.
17. Judges must be given at least a 30-minute lunch break and at least a 10-minute break every two hours. A prior agreement should be made between the Judge and the Organizer if a Judge will be required to officiate longer than eight hours in one day or be required to be on the show grounds longer than 10 hours.

## **EV119 Dressage Phase Scoring**

1. **MARKING.**
  - a. Judges will award marks from 0-10 for each movement and for each collective mark, with 0 being the lowest mark and 10 being the highest. All half marks from 0.5 – 9.5 may be used both for movements and collective marks, at the discretion of the Judge. Scores given must be recorded with a decimal (e.g., 6.0 instead of 6).
  - b. Errors of Course or Test will be penalized as follows:
    1. 1<sup>st</sup> Time by 2 points
    2. 2<sup>nd</sup> Time by 4 points
    3. 3<sup>rd</sup> Time by Elimination
2. The following are considered errors, and two points will be deducted per error, but they are not cumulative and will not result in Elimination:
  - a. Entering the arena, or the space around the arena before the signal to start, with a whip (when they are forbidden) or with boots or bandages, or discrepancy of dress (e.g. lack of gloves at

Intermediate and Advanced levels). The Judge at C may stop the Athlete and permit an assistant to enter the arena to remove the item(s). The Athlete may continue, and marks given before they were stopped, if any, are not changed;

- b. Entering the arena before the signal is given; Not entering the arena within 45 seconds after the signal is given, but within 90 seconds is a two point penalty.
- 3. In the case of a Fall of a Horse and/or Athlete, the Athlete will not be Eliminated. The Athlete will be penalized by the effect of the Fall on the execution of the movement concerned and in the collective mark.
- 4. After Elimination, an Athlete may complete their test, at the Judges' discretion.

## EV121 Cross-Country Phase Rules

### 1. STARTING.

- a. Athletes must be directed by a starter at the start box. The Horse does not have to stand immobile. Athletes should be given reasonable warning before their start time, but it is ultimately the Athlete's responsibility to be ready.
- b. An enclosure approximately 5 m by 5 m must be built at the start with an open front through which Horses will start and a gap in one or both sides through which Horses may enter. Athletes must start from within the enclosure and may move around and through the enclosure. An attendant may lead the Horse into the enclosure and may hold the Horse until the Horse leaves the enclosure. From that instant, the Athlete is on course and the time is recorded from when the signal to start is given. Leaving the start box in a way that puts any Horse or human at risk may subject the Athlete to penalties per EV113.2.
- c. If an Athlete starts early, time will be recorded from the moment they crossed the start line.
- d. Under exceptional circumstances, the Ground Jury may permit an Athlete to start at other than their posted start time. The new, agreed upon start time will become the Athlete's official revised start time.

- e. If an Athlete is not ready to start at their correct time (original or revised), they may be permitted, at the discretion of the starter, to start when they are ready, subject to the following conditions:
    1. A late Athlete will not be permitted to start if there is any risk of interfering with the subsequent Athlete.
    2. Starting time will be recorded as if they had started at the correct time.
2. TIME.
- a. Optimum Time – The distance divided by the designated speed.
    1. Completing the course in less than the Optimum Time results in zero time penalties.
    2. An Athlete exceeding the Optimum Time will be penalized in accordance with EV123.1.
  - b. Speed Fault Time – The distance divided by the speed fault speed. Speed Fault Time is applied at the Beginner Novice, Novice, and Training levels.
    1. Completing the course in less than the Optimum Time is not penalized up to the Speed Fault Time.
    2. Completing the course in less than the Speed Fault Time will be penalized in accordance with EV123.1.
  - c. Time Limit – Twice the Optimum Time.
    1. An Athlete exceeding the Time Limit must be Eliminated.
  - d. Time is counted from when the starter gives the signal to start and runs until the mounted Horse reaches the finish line.
    1. When an electronic timer is used for the start, the starter must cut the beam with their hand.
  - e. For the above, time is counted in whole seconds, parts of a second counting as the next whole second (e.g., 30.25 seconds is recorded as 31 seconds).
3. ERRORS OF COURSE.
- a. All compulsory passages and Obstacles, including all elements and/or options, must be passed or jumped in order, under penalty of Elimination.
  - b. All red and white markers must be passed through correctly wherever they occur on the course, under penalty of Elimination, except as provided for in EV122.5b.
  - c. Retaking an Obstacle already jumped is prohibited, under penalty of Elimination, except as provided for in EV122.5a.
4. PACE AND DISMOUNTING. Between the start and finish lines, Athletes may choose their own pace. They must be mounted to pass all red and white boundary markers. Dismounting as a result of attempting an obstacle, whether voluntary or not, is penalized in accordance with EV123.1. Elsewhere on the course, Athletes may dismount without incurring a fault, other than possible penalties for exceeding the Optimum Time.
5. OVERTAKING.
- a. Any Athlete who is about to be overtaken by a following Athlete must quickly clear the way. An Athlete overtaking another Athlete must do so only at a safe and suitable place.
  - b. When the leading Athlete is before an Obstacle and about to be overtaken, they must follow the directions of the appointed personnel. When the leading Athlete is committed to jumping an Obstacle, the following Athlete may jump that Obstacle only in such a way that will cause no inconvenience or danger for either.
  - c. The penalty for willful obstruction of an overtaking Athlete, failure to follow the instructions of the appointed personnel, or causing danger to another Athlete is Elimination or Disqualification, at the discretion of the Ground Jury.
6. HORSES IN DIFFICULTY. If, in attempting to negotiate an Obstacle, a Horse becomes trapped in such a way it is unable to proceed without assistance, the Horse must be retired from the Event and the score posted as a Mandatory Retirement.
7. STOPPING ATHLETES.
- a. If any part of an Obstacle is obstructed by a Horse or Athlete in difficulty, if any Obstacle has been dismantled to release a fallen Horse, if an Obstacle has been broken and has not yet been rebuilt, or in any similar circumstances, subsequent Athletes must be halted. Athletes may be stopped at Obstacles or at stopping points on the course. In such a case, an appointed personnel should be posted in the path of

the oncoming Athlete. They should wave a red flag, which indicates that the Athlete must stop. Failure to stop may be penalized by Elimination, at the discretion of the Ground Jury.

- c. The appointed personnel will stop Athletes only upon the instructions of the control center or a Licensed Official, or during a rapidly developing emergency at their own Obstacle.
- d. The time during which the Athlete was stopped, from the moment they passed the stopping point until they re-passed the same point after being given the order to restart, will be recorded. It will be deducted from the Athlete's total time taken to complete the course. Time must be taken as the Athlete gallops past the stopping point, not after they halt nor after a start from the halt. Athletes must be informed of the stopping point.

#### 8. UNAUTHORIZED ASSISTANCE.

- a. The following instances of Unauthorized Assistance are prohibited:
  1. To join another Athlete and to continue the course together;
  2. To be followed, preceded or accompanied, on the course by any vehicle, bicycle, pedestrian, or horseman;
  3. To post people at certain points to call directions or make signals in passing;
  4. To have someone at an Obstacle to encourage the Horse by any means;
  5. To tamper with the Obstacles or any part of the course, including but not limited to, markers, indicators, notices, ropes, trees, branches, wire or fences, whether temporary or permanent.
- b. Appointed personnel or spectators who draw the attention of an Athlete to a deviation from the course may result in the Elimination of the Athlete.
- c. Cases of Unauthorized Assistance and associated penalties will be decided by the Ground Jury.

#### 9. AUTHORIZED ASSISTANCE.

- a. Whip, headgear, or spectacles may be handed to an Athlete at any time.
- b. An Athlete may receive clarification of jumping penalties from appointed personnel (e.g., after jumping a marker at a corner, the appointed personnel may clarify whether it was a run-out or not).

10. AFTER ELIMINATION. An Athlete who was Eliminated or has retired must leave the course, mounted or dismounted, at the walk immediately, and may not continue. If the Athlete continues after being Eliminated or retiring, they must be reported to the Ground Jury. Violators must be warned or fined up to \$100 (payable to the Organizer), at the discretion of the Ground Jury.

## EV122 Cross-Country Phase Definitions of Faults

See Appendix 7 for diagrams.

1. GENERAL. Faults (i.e., refusals, run-outs and circles) must be penalized, unless in the opinion of the appointed personnel, they are clearly not connected with the negotiation or attempted negotiation of a numbered Obstacle or element **for the relevant level in progress**. The negotiation or attempted negotiation of an Obstacle commences with the presentation of the Horse to the Obstacle. Falls will be penalized wherever they occur on course between the start flags and the finish line.
2. DISOBEDIENCES (REFUSALS and RUN-OUTS).
  - a. Refusals.
    1. At Obstacles or elements with height exceeding 30 cm, a Horse is considered to have refused if it stops in front of the Obstacle to be jumped.
    2. At all other Obstacles 30 cm or less in height, a stop followed immediately by a standing jump must not be penalized. If the halt is sustained or in any way prolonged, it is considered a refusal. The Horse may step sideways but if it steps back, even with one foot, it is considered a refusal.
    3. A second refusal is considered any attempt by the Athlete to reattempt the Obstacle or element without success or if the Horse is represented at the Obstacle after stepping back, stopping, or step backs again.
  - b. Runouts. **A Horse is considered to have run-out if, having been presented at an Obstacle on the course, it avoids it in a way that the head, neck, and point of either shoulder fail to pass between the**

**Obstacle markers or the hindquarters do not jump the height of the solid part of the Obstacle. Continuing on course without representing will incur Elimination.**

- c. At an Obstacle composed of several elements (e.g., A, B Obstacle), a Horse may be Disobedient and refuse or run-out twice in all before being Eliminated.

**3. CIRCLES.**

- a. At an Obstacle composed of several elements (e.g., A, B, C, etc.) a Horse must be penalized once it has jumped the first element and before it has jumped the last if:
  - 1. The Horse passes around the back of any element of the lettered combination that it subsequently jumps.
  - 2. The Horse crosses between the elements. See diagrams in Appendix 7. Also, see EV145.1c for possible exceptions at options.
- b. After being penalized for a refusal, run-out or circle, an Athlete is permitted to cross their original track, without penalty, in order to make another attempt and may also circle one or more times without penalty, until they represent their Horse at the Obstacle.
- c. At separately numbered Obstacles, an Athlete may circle between or around the Obstacles, without penalty, provided they have not represented their Horse at the second or subsequent Obstacles.

**4. FALLS.**

- a. For Athlete and Horse Fall definitions, see EV104.5 and EV104.6. A Fall must be penalized when it occurs between the elements of an obstacle composed of several elements (e.g., A B C etc.).

**5. MISSED MARKER. To clear an Obstacle, the Horse's head, neck, and shoulder must pass between the Obstacle markers. If the marker is dislodged, the hindquarters must jump the height of the solid part of the Obstacle. If the Obstacle is not navigated as described a 15 point penalty must be assessed.**

**6. ADDITIONAL ATTEMPTS AT OBSTACLES COMPOSED OF SEVERAL ELEMENTS.**

- a. It is permitted, but not required, after a Disobedience at an Obstacle composed of several elements for an Athlete to retake any element already jumped in order to complete the negotiation of the Obstacle. The Athlete may be penalized for any additional fault even if it is at an element previously jumped successfully.
- b. After a Disobedience, when necessary to negotiate the next Obstacle, it is permitted for an Athlete to pass through markers in the wrong direction.

**7. WILLFUL DELAY.** An Athlete is considered to have willfully delayed their finish if, between the last fence and the finish line, the Horse halts, walks, circles, or serpentines. The Athlete may be penalized for a Disobedience at the discretion of the Ground Jury.

**8. RULE INTERPRETATION.** If rule clarification is necessary for the judging of an Obstacle, the Technical Delegate, as directed by the Ground Jury, must provide the clarification and sketch, if necessary. This information must be shared with Athletes at the briefing or as soon as possible.

## **EV124 Show Jumping Phase Signal**

1. An audible signal is used to communicate with the Athletes. The Licensed Official responsible for judging Show Jumping is responsible for the signal and its use. The signal is used:
  - a. To give permission to Athletes to enter the arena when the course is ready for their inspection and to signal when the inspection time is over;
  - b. To give the signal to start and activate a 45 second countdown. 45 seconds is the time an Athlete can spare before commencing their round. The Ground Jury may interrupt the countdown for unforeseen circumstances. Disobediences, Falls, etc., occurring between the signal to start and the Athlete crossing the start line in the correct direction, must not be penalized. After the signal, crossing the start line in the correct direction for a second time before jumping the first Obstacle is penalized as a Disobedience;
  - c. To stop an Athlete for any reason or following an unforeseen incident and to signal to them to continue their round after an interruption (EV126.8a);
  - d. To indicate to an Athlete that an Obstacle knocked down, following a disobedience, has been replaced (EV126.8a);
  - e. To indicate by prolonged and repeated ringing that the Athlete has been Eliminated.
2. If the Athlete does not obey the signal to stop, they may be Eliminated at the discretion of the Ground Jury except where specifically provided for under EV126.8b.
3. If, after an interruption, the Athlete restarts and jumps or attempts to jump without waiting for the signal, they will be Eliminated.

## **EV125 Show Jumping Phase Unauthorized Assistance**

1. Unauthorized Assistance is any intervention by a third party with the object of helping the Athlete or Horse, regardless if it is solicited, between crossing the start line to begin the course and crossing the finish line after jumping the last Obstacle.
2. Unauthorized Assistance may be penalized by Elimination, at the discretion of the Ground Jury.
  - a. If permitted by the Ground Jury, an Athlete may enter the arena on foot or with the help of a groom without being penalized for Unauthorized Assistance.
  - b. Any help given to a mounted Athlete to adjust their saddlery or bridle or to hand them a whip during the round must incur Elimination.
  - c. To hand a mounted Athlete their headgear and/or spectacles during their round must not be penalized as Unauthorized Assistance.
  - d. Warning an Athlete of a deviation from the course must be penalized as Unauthorized Assistance. The Athlete and/or the individual who have the warning may be Eliminated or otherwise penalized, at the discretion of the Ground Jury.

## **EV126 Show Jumping Phase Time**

1. The time of a round, recorded in seconds and in tenths of a second, with parts of a second counting as the next whole second (e.g., 60.2 seconds is recorded as 61 seconds) plus any time correction, is the time taken by an Athlete to complete their round (EV126.7).

- a. After the 45 second countdown signal is given, the Athlete's time on course starts the moment they pass the start line in the correct direction or when the 45 second countdown expires, whichever occurs first. Time is counted until the mounted Athlete jumps the last Obstacle and crosses the finish line in the correct direction.
  - b. Electronic timing, supported by one manual timer, is strongly recommended.
  - c. If electronic timers are not used, two manual timers, one of which must be in line with both the start and finish lines, and has direct contact with the Ground Jury, is required.
2. TIME ALLOWED. The Time Allowed for a round is calculated using the length of the course and the speeds outlined in Appendix 3.
- a. Time Adjustment – The Time Allowed may be adjusted at the discretion of the Judge(s), in consultation with the Course Designer and Technical Delegate, if they determine that an error in the measurement of the course has been made. Adjustment of the Time Allowed must be made no later than after the completion of three rounds without Disobedience. The Time Allowed may never be lowered resulting in the awarding of time faults to any Athletes having ridden prior to the change without Disobedience.
3. TIME LIMIT. The Time Limit is equal to twice the Time Allowed.
4. REFERENCE TIMES. The Time Allowed must be announced prior to the start of the division. If there is no electronic score board, or it is not visible to Athletes in the in-gate area, the reference times for all the Athletes in the division should be announced, along with their score. If the time is adjusted in accordance with EV126.2a, the adjusted time will then be announced.
5. INTERRUPTED TIME.
- a. While the clock is stopped, an Athlete may move around until the signal to start is given. The clock is restarted when the Athlete reaches the place where the clock was stopped. Exception: In the case of a Disobedience with a knock down, EV126.8 applies.
  - b. The responsibility for the clock is the duty of the Licensed Official in charge of the signal, not the timekeeper.
6. DISOBEDIENCES DURING INTERRUPTED TIME.
- a. The time of a round may only be interrupted under the provisions of EV126.5. The clock is not stopped due to a deviation from the course, run-out, or refusal.
  - b. Disobediences are not penalized during interrupted time, except if a second refusal occurs after an obstacle has been rebuilt. In that case, the refusal upon reapproach must be penalized, even if the clock has not yet restarted.
  - c. The provisions concerning Elimination remain in force during interrupted time.
7. TIME CORRECTIONS. If an Athlete displaces or knocks down any Obstacle as the result of a Disobedience, the signal must be given. The clock is stopped until the Obstacle is rebuilt. Once the Obstacle is rebuilt, the signal is given, and the Athlete may continue the round. The Athlete must be penalized for a refusal and a time correction of 6 seconds is added to the Athlete's time. The clock is restarted:
- a. For Preliminary, Intermediate, and Advanced when the Horse leaves the ground at the Obstacle where the refusal occurred. If a Disobedience with a knock down occurs at the second or subsequent part of a Combination, the clock is restarted when the Horse leaves the ground at the first element of the Combination.
  - b. For the Modified level and below where a second refusal is allowed, the clock is restarted when the Horse leaves the ground at the Obstacle where the refusal occurred or a second Disobedience, without a knock down, occurs.
8. STOPPING DURING THE ROUND.
- a. If an Athlete is unable to continue their round for any reason or there is an unforeseen circumstance, the signal must be given to stop the Athlete. As soon as it is evident the Athlete is stopping, the clock will be stopped. When the Athlete may resume their round, the signal will be given, and the clock will be restarted when the Athlete reaches the place where the clock was stopped.
  - b. If the Athlete does not stop when the signal is given, they continue at their own risk, and the clock must not be stopped. The Ground Jury must determine whether the Athlete will be Eliminated or allowed to continue for ignoring the order to stop, or whether, under the circumstances, they should be allowed to

continue. If the Athlete is permitted to continue, their scores following the order to stop are judged in the normal manner.

- c. If an Athlete stops voluntarily to signal to the Ground Jury that the Obstacle to be jumped is built incorrectly or due to unforeseen circumstances beyond the control of the Athlete, and they are unable to continue their round under normal circumstances, the clock must be stopped immediately.
  1. If the dimensions are correct and the obstacle in question has been properly built or if the unforeseen circumstances are not determined by the Ground Jury to be an acceptable reason for stopping, the Athlete must be penalized for stopping during the round (EV127.7b) and six seconds will be added to the Athlete's time.
  2. If the Obstacle or part of the Obstacle needs to be rebuilt or if the unforeseen circumstances are accepted by the Ground Jury, the Athlete must not be penalized. The time of the interruption must be deducted, and the clock stopped until Athlete can continue from the point where they stopped. Any delay must be taken into consideration and an appropriate number of seconds must be deducted from the Athlete's time.

## **EV127 Show Jumping Phase Penalties**

1. During a round, penalties are incurred for the following:
  - a. Knocking down an Obstacle (EV127.2)
  - b. A Disobedience (EV127.3);
  - c. A deviation from the course (EV127.4);
  - d. A Fall of a Horse and/or Athlete (EV104.5, EV104.6b);
  - e. Unauthorized Assistance (EV125);
  - f. Exceeding the Time Allowed or the Time Limit (EV124.2, EV124.3);
  - g. 20 jump penalties (EV127.8)
2. **KNOCK DOWN.**
  - a. An Obstacle is considered to have been knocked down when an action of the Horse or Athlete results in:
    1. When a Vertical Obstacle or part of an Obstacle comprises two or several parts placed one above the other and positioned in the same vertical plane, only the fall of the top part is penalized, even if the part which falls is arrested in its fall by any other part of the Obstacle.
    2. At least one of its ends no longer rests on any part of its support.
    3. When a Spread Obstacle which requires only one effort comprises parts which are not positioned in the same vertical plane, the fall of one or several top parts only counts as one fault whatever the number and position of the parts which have fallen. Displacement of trees, hedges etc. used as filling must not incur a penalty unless previously determined by the Ground Jury.
  - b. Touches and displacements of any part of an Obstacle or its markers, in whatever direction, while in the act of jumping, do not count as a knock down. If in doubt the Ground Jury must decide in favor of the Athlete. The knock down or displacement of an Obstacle as a result of a Disobedience is penalized as a refusal only. In the event of the displacement of any part of an Obstacle (except the markers) as a result of a Disobedience, the signal will be rung, and the clock stopped while the displacement is re-adjusted. This does not count as a knock down and is only penalized as a Disobedience and corrected by time in accordance with EV126.7.
  - c. If any part of an Obstacle which has been knocked down is likely to impede an Athlete in jumping another Obstacle, the signal must be given, and the clock stopped while this part is picked up and the track is cleared.
  - d. If an Athlete jumps an Obstacle correctly which has been improperly rebuilt, they will not incur a penalty, but if they knock down this Obstacle they must be penalized.
3. **DISOBEDIENCES.**
  - a. The following are considered as Disobediences and are penalized as such (EV128.5):

1. A refusal;
  2. A run-out;
  3. A resistance;
  4. A more or less regular circle or group of circles no matter where they occur on the course or for any reason;
  5. To circle around the last Obstacle jumped unless required by the track of the course.
- b. It is not considered a Disobedience to circle for up to 45 seconds after a run-out or a refusal (regardless if the Obstacle has to be rebuilt or not) to get into position to jump an Obstacle.
4. DEVIATION FROM THE COURSE.
- a. It is a deviation from the course when the Athlete:
    1. Does not follow the course as set out on the published plan;
    2. Does not cross the start or finish line between the markers in the correct direction;
    3. Does not jump the Obstacles in the order or in the direction indicated on the plan;
    4. Jumps or attempts to jump an Obstacle which does not form part of the course or omits an Obstacle. The poles of Obstacles not included in the plan may be set in a crossed position over the Obstacle, the markers may be removed, or the Obstacle's appearance altered to indicate they are not part of the current course.
  - b. An uncorrected deviation from the course must incur Elimination (EV128.5).
5. REFUSAL.
- a. It is considered a refusal when a Horse halts in front of an Obstacle which it must jump regardless if the Horse knocks it down or displaces it.
  - b. Stopping in front of an Obstacle without moving backwards and without knocking it down followed immediately by a standing jump must not be penalized.
  - c. If the halt is prolonged, if the horse steps back, even a single pace, it is a refusal.
  - d. If a Horse slides through an Obstacle, the Judge in charge of the signal must decide immediately if it counts as a refusal or a knock down. If the Judge determines that it is a refusal, the signal is given, and the Athlete must reattempt the Obstacle once it is rebuilt (EV126.8.c2).
    1. If the Judge decides that it is not a refusal, the signal is not given, and the Athlete must continue their round. The Athlete must be penalized for a knock down.
    2. If the signal has been given and the Athlete jumps subsequent elements of the combination, they will not incur Elimination or penalties if elements are knocked down.
6. RUN-OUT.
- a. It is considered a run-out when the Horse evades the control the Athlete and avoids an Obstacle of the course.
  - b. When a Horse jumps an Obstacle between two red markers or between two white markers the Obstacle has not been jumped correctly. The Athlete must be penalized for a run-out and reattempt the Obstacle correctly.
  - c. It is considered a run-out and is penalized accordingly if a Horse or any part of the Horse goes past the extended line of an Obstacle, or of an element to be jumped, or the finish line after jumping the final Obstacle.
7. RESISTANCE.
- a. It is considered resistance when the Horse refuses to go forward, halts, makes at least one somewhat regular or complete half turns, rears, or steps back.
  - b. It is also considered resistance when the Athlete stops their Horse at any time, except in the event of an incorrectly rebuilt obstacle or to indicate unforeseen circumstances to the Ground Jury (EV126.8c2). Resistance is penalized as a refusal.
8. COMPULSORY RETIREMENT. An Athlete incurs 20 or more jump penalties at the Training level or higher. Compulsory Retirement is enforced at the end of the round unless the Athlete retires or is Eliminated. An Athlete who receives a CR will not be permitted to begin the Cross-Country phase.

## EV128 Show Jumping Phase Faults

1. Disobediences during the time when the round is interrupted (EV126.6b) must not be penalized.
2. Disobediences, Falls, etc., occurring between the signal to start and crossing the start line in the correct direction, must not be penalized.
3. Penalties for Disobediences accumulate, not just at the same Obstacle, but throughout the entire round.
4. Compulsory Retirement is enforced at the end of the round, unless the Athlete retires or is Eliminated.
5. Faults are penalized by penalty points, Elimination, or Compulsory Retirement in accordance with this section.

Organizers have the right to cancel any Event or division (see GR305), divide any Event into divisions or sections, alter the published schedule, or refuse any entry (see GR914). The Organizer must state the refund policy in the Omnibus.

### **EV131 Omnibus**

The USEA Omnibus constitutes the prize list for Events licensed and endorsed by the Federation. If an Event is not listed in the Omnibus, its Omnibus must include the same information as provided in the Omnibus and as required by GR9.

### **EV132 Competition Standards**

The Eventing Competition Standards apply to all national levels of Eventing Competitions (See Appendix 5).

## EV133 Division of Entries

1. DIVISION OF ENTRIES.
  - a. If the number of entries in a division warrant, it may be divided by sections or draw. If the number of entries in one division of Beginner Novice through Preliminary Horse Trial exceeds 40, it must be divided. Entries in the Advanced and Intermediate divisions which exceed 40 may be divided once, at the Organizer's discretion. Championships and Federation Selection Trials must not be divided.
  - b. An Organizer may offer a level under the conditions listed in Appendix 2.
  - c. An Organizer may divide a level into the sections noted in Appendix 2 (e.g., Junior Training, Training, etc.). Further division must then be done by draw (e.g., Junior Training A, Junior Training B, etc.).
  - d. An Organizer may offer a mixed level section that includes Dressage and Show Jumping at a higher level and Cross-Country at the level below (e.g., Advanced Intermediate). For purposes of qualifications and high score awards, these Events must be considered in accordance with the level of the Cross-Country being run.

## EV134 Starting Order and Timetable

1. STARTING ORDER. If there are only individual Athletes participating, a draw will be conducted by the Organizer to determine starting order. If an Athlete is riding more than one Horse, the Organizer may adjust the starting order to allow sufficient time between rides but must maintain the order of the Horses as drawn. If there are teams competing, the Organizer may use its discretion to schedule the teams. If an Athlete rides more than one Horse, the starting order of the Horses must be determined by a draw. If the third phase of a Horse Trial is Show Jumping in the reverse order of placing, the drawn starting order must be replaced for that phase. If the same Athlete has two Horses scheduled too close together, the order must be adjusted so that there is a minimum of eight Horses, if available, separating them. The lowest placed Horse will move up in the order as far as possible, before the higher placed Horse is dropped down.
2. TIMETABLE. A timetable showing Athlete's starting times must be prepared and distributed by 7 p.m. the day before the relevant Event. If the third phase of a Horse Trial is Show Jumping in the reverse order of placing, only the approximate start and finish times for this phase must be published. If the Organizer of Tests permits entries on the day of the Event, Athletes may sign up for starting times upon entering and only the approximate start and finish times for the Events must be published.

## EV135 Exercising and Warmup Areas

1. IDENTIFICATION NUMBERS. By 3 p.m. the day prior to the start of the entire Event, or upon arrival if later, each Horse, including non-competing Horses, must be issued a number. This number must be visibly worn at all times when the Horse is being ridden or exercised. Failure to display the number must first incur a verbal warning. Repeated offenses may incur a fine of \$50 (payable to the Organizer), at the discretion of the Ground Jury.
2. EXERCISE AREAS.
  - a. Areas suitable for the general exercise of Horses must be made available during daylight hours. The Organizer must inform Athletes of the areas that are available for this purpose. Horses may only be exercised in these designated areas, or in the warmup areas for Dressage and Show Jumping.
  - b. A Dressage warmup area must be provided at a convenient distance from the competition arena. A practice Dressage arena should be at the disposal of the Athletes, if possible.
  - c. A warmup area with fences must be provided at a convenient distance from the start of the Cross-Country and the Show Jumping arena.
  - d. **For the Training levels and below**, the warmup area for Show Jumping must include at least two adjustable oxers and two adjustable vertical practice fences. **For Modified levels and above, the warmup**

area for Show Jumping must include at least four Obstacles which are capable of being set as spreads. Where space or materials are limited for all levels, and with the permission of the Technical Delegate, the warmup may contain three Obstacles which are capable of being set as spreads. The direction of the markers for individual practice fences may be altered at the Intermediate level or higher. The direction of all practice fences must be consistent for the Preliminary level and below.

- e. The warmup area for Cross-Country must include at least **two** adjustable Obstacles capable of being set as spreads and one solid Cross-Country type Obstacle. Where space or materials are limited, and with the permission of the Technical Delegate, the warmup areas may contain at least **one** adjustable Obstacle and **one solid Cross-Country type Obstacle**, including at least one oxer. Obstacles must be marked with red and white markers (red on the right, white on the left).
3. SUPERVISORS. One or more supervisors may be appointed by the Organizer to ensure that the rules regarding exercising and warming up are adhered to. A supervisor must be present at times the Organizer has permitted warmup fences to be jumped.

*BOD 06/17/24 Effective 12/01/24*

## **EV136 Inspection of Courses**

1. CROSS-COUNTRY COURSE.
  - a. Before the course has been opened, it is prohibited to inspect the Obstacles or the course without permission from the Organizer. See EV105.1 for penalties.
  - b. The Cross-Country course must be open for inspection by 3 p.m. the day before the start of the Event. All obstacles and markers must be in position when the course is opened. In the case of multiple courses running on the same track, a sign must be posted at Obstacle(s) to be changed, indicating such change(s). This must include changes of markers or the Obstacle(s). Obstacles and markers may not be moved or altered by Athletes, under penalty of Disqualification.
  - c. After the course has been opened, it may remain open during daylight hours.
2. SHOW JUMPING COURSE. The course for the Show Jumping phase will be opened no less than 30-minutes before the start of the Show Jumping phase, and at convenient intervals during the phase. Athletes on foot will be permitted to enter the arena by the Ground Jury. An announcement must be made over the public address system to announce when the course is open for walking. Unless permission has been given by the Ground Jury, it is forbidden, under penalty of Disqualification, for Athletes to enter the arena on foot once the phase has started.

## **EV137 Interruptions and Modifications**

The Ground Jury, or if the Ground Jury is unavailable, the Technical Delegate, must determine whether to permit an Event to continue when weather or terrain conditions are unfit for competition.

1. INTERRUPTIONS. The timetable may be interrupted due to dangerous conditions. If necessary, the start of any phase may be moved up, postponed, or canceled. The decision to interrupt or cancel a phase will be decided by the President of the Ground Jury, after consultation with the Technical Delegate, if possible. As an exception to GR832, in the case of an interruption the Event will resume as soon as possible from the point of interruption, and all scores recorded prior to the interruption will stand. Every affected Athlete must receive sufficient warning before the Event resumes.
2. MODIFICATIONS. After the courses have been opened, alterations to the course and/or the Time Allowed may be made only when exceptional circumstances (e.g., changes to footing or hot weather) make Obstacles or a phase unfit for competition. The decision will be made by the President of the Ground Jury, after consultation with the Technical Delegate, if possible. In such cases, every affected Athlete must be informed

of the alteration before the start of the phase concerned. Where appropriate, appointed personnel must also be stationed at the place where the alteration or repairs have been made to warn the Athlete.

## **EV138 Medical Requirements**

### **1. ACCIDENTS INVOLVING ATHLETES.**

- a. In the event of an accident in which an Athlete may be injured or concussed, they must be examined by designated medical personnel to determine if they may take part in another phase, ride another Horse, or if they are capable of leaving the grounds. Refusal to be examined may be penalized by a fine of \$100 (payable to the Organizer, at the discretion of the Ground Jury) and a mandatory Yellow Warning Card being issued.
- b. The Ground Jury may direct Athletes who have a Fall, whether or not associated with penalties, be examined as in paragraph a (above). If the Fall occurs on Cross-Country, the Athlete's time will be taken in accordance with EV121.7.
- c. Athletes who fail or refuse to follow the advice of the medical personnel regarding treatment following such a Fall may be subject to Disqualification at the discretion of the Ground Jury.

### **2. In conjunction with GR848.6, the following apply in the case of a fall/accident or other injury that may have caused a concussion (as determined by qualified medical personnel):**

- a. No loss of consciousness and no sign of concussion - no mandatory suspension;
- b. No loss of consciousness but with brief symptoms of concussion e.g., confusion, loss of memory, altered mental state (all symptoms of concussion must have resolved within 15 minutes both at rest and exercise) - minimum of seven days mandatory suspension. The day of the injury counts as the first day of the suspension period;
- c. Any loss of consciousness, however brief, or symptoms of concussion persisting after 15 minutes - minimum 21 days mandatory suspension. The day of the injury counts as the first day of the suspension period.
- d. Notwithstanding the above, Athletes who have established a baseline neurocognitive skills level through a Federation approved testing program (e.g., IMPACT test) may return to competition upon submission to the Federation a certification that they have passed an exam establishing that they have suffered no impairment of that level. In addition, they must submit clearance as required under GR848.6.
- e. All other Athletes may, at the expiration of the mandatory suspension period, return to the Event by complying with the requirements of GR848.6.

### **3. SAFETY COORDINATOR. See GR846.1.**

### **4. MEDICAL PERSONNEL. See GR847.1.**

### **5. ACCESS. The designated medical personnel must have the capability of rapid deployment to any part of the arenas or courses, even in adverse conditions. Should this access not be available, the Ground Jury, on the advice of the Technical Delegate and the Course Designer, must consider alternatives including removal of the inaccessible portion.**

## **EV139 Radios and Cellular Phones**

The use of a radio or cellular phone while competing is prohibited, under penalty of Disqualification. The use of radio or cellular phone in Dressage warmup is permitted. Any other use while on the Event grounds by Athletes, trainers, or members of the Athlete's support group, is subject to restriction by the Technical Delegate and the President of the Ground Jury. The Event must provide adequate, functional radios for communication for Event staff during an Event.

1. During any warmup or training session Athletes or grooms may wear only one earphone while mounted. Earphones and/or other electronic communication devices (with the exception of medical devices, e.g., hearing aids) are not permitted in competition arenas, and is penalized by Elimination.

## **EV140 Handling Protests and Appeals**

1. HANDLING PROTESTS. The Ground Jury must make a determination, after an investigation. The President of the Ground Jury must refer any protests which they determine to be beyond their discretion to the Organizer. The event secretary must record all protests, forward them to the Ground Jury, and record all determinations of the Ground Jury.
2. HANDLING APPEALS. In the event of an appeal, the Organizer must designate three or more unconflicted individuals who are familiar with the Eventing rules to hear the appeal. The event secretary must record all appeals, forward them to the appointed committee, and record all determinations made by the committee. The committee will make a determination, after an investigation. The veterinarian or Technical Delegate may be in attendance in an advisory capacity.
3. To appeal a decision of the Appeal Committee to the Hearing Committee, the appeal must be filed, in writing, with the Hearing Committee at the Federation's office within 15 days of the initial appeal.

## **EV141 Athlete Representative**

1. Prior to opening the Cross-Country course, every Organizer must appoint, with consent, one or more Athlete Representative(s) from the Athletes participating in the Event. The Athlete Representative(s) acts as a channel of communication between the Athletes and the Licensed Officials on any matter directly connected with the Event without removing the right of an Athlete to speak to the Organizer or a Licensed Official. The Athletes must be notified of the Athlete Representative(s)'s name and contact information which must also be posted on the Event notice board.
2. Prior to 6 p.m. the day before Cross-Country, the Athlete Representative(s) may call a meeting of the Athletes, to be attended by the Technical Delegate. The Ground Jury, Organizer, or Course Designer may also attend if specifically requested by the Athlete Representative(s). The purpose of this meeting is to discuss major issues concerning the Obstacles on the course and/or the course distances. Any issues brought up during the meeting must be recorded in writing (the Technical Delegate and Athlete Representative(s) are responsible for this). The response of the Ground Jury must be in writing and signed by the President of the Ground Jury and the Athlete Representative(s). This document must be included with the Technical Delegate's Report.
3. The Athletes may appoint two additional people (to join the already appointed Athlete Representative(s)) as Athlete Representatives to facilitate discussion with the Licensed Officials and the Organizer. These additional two people can be anyone the Athletes choose and do not have to be competing at the Event.

## **SUBCHAPTER EV-6 ORGANIZER – RULES FOR HORSE TRIALS**

### **EV142 Dressage Arenas**

1. The Standard Arena must be 60 m long and 20 m wide. The Small Arena must be 40 m long and 20 m wide. The arena used is dependent on the specifications for the test. The measurements are for the interior of the enclosure. For diagrams, see Appendix 6.
  - a. The arena should be separated from the public by at least 15 m.
  - b. The enclosure should consist of a low fence, about 30 cm high.
  - c. It is recommended that the entrance at A be a minimum of 2 m and a maximum of 4 m wide.

- d. Part of the fence at A should be easy to remove to allow access or it may be left open.
2. The letters should be placed outside the enclosure, about 50 cm from the fence. The letter A should be a sufficient distance from the entrance to allow unobstructed entry. It is recommended to place a special marker on the fence, level with, and in addition to the letters.
3. The center line and the points along the center line, if described in the test to be used, should be clearly and discreetly marked.
4. If there is only one Judge, they must be placed 5 m from the end of the arena, opposite the letter C. When two Judges are used, one (the President) is placed at C and the other is placed 5 m from the side of the arena, opposite the letter E or B. When three Judges are used, one (the President) is placed at C, another (M or H) is placed at the end of the arena on a line with the Judge at C, to their left or right, 2.5 m in from the long side of the arena, and the third Judge is placed 5 m from the side of the arena, opposite either E or B.
5. A separate enclosure (e.g., tent, trailer, etc.) should be provided for each Judge and it should be raised at least 0.5 m above the ground to provide the Judge a good view of the arena.
6. The current USEF Dressage tests for Horse Trials are published on the Federation website. Organizers may select tests from the approved list at their discretion, and the test must be included in the Omnibus.

### **EV143 Calculation of Dressage Scores**

1. The marks from 0-10 awarded by each Judge for each numbered movement of the test are totaled and added to the collective marks, any errors of course or test are deducted.
2. For each Judge, the percentage of maximum possible marks is calculated by dividing the total marks received (minus any error of course or test) by the maximum possible marks and then multiplying by 100 and rounding the result to two decimal digits. This value is the individual mark for that Judge.
3. If there is more than one Judge, the average percentage for the Athlete is calculated by adding the percentage for each Judge and dividing by the number of Judges, always round the result to two decimal digits.
4. To convert percentage into penalty points, subtract the percentage from 100 for one Judge or the average percentages for two or more Judges. Round to one decimal digit.

### **EV144 Cross-Country Phase Courses**

1. MARKING OF THE COURSE.
  - a. Red or White Boundary Markers - These must be used to mark the start and finish lines, to mark compulsory passages, and to define Obstacles. Boundary markers must be placed so the Athlete passes through with the red marker on their right and the white marker on their left. In cases where courses for two or more levels are marked at the same time, only markers which form the course for the relevant level are considered to be in effect at any one time.
  - b. Yellow Directional Markers - These may be used to show the general direction of the course. Where necessary, they may be superimposed with the first letter or color of the level. Passing close to them is not required.
  - c. Numbers and Letters - Each Obstacle must be numbered. Obstacles with elements (see EV145.1) must also be lettered (e.g., A, B, C, etc.). Compulsory passages must be marked with the first letter of the level and numbered consecutively. If an Event is running FEI levels and national levels of the same height level, the national level must be differentiated from the FEI level(s). If an Event is running Classic Three-Day Event levels and national levels of the same height, where there is a deviation on course between the levels, the national markers must be differentiated from the Classic Three-Day Event markers.
  - d. Numbers and letters must be colored as follows:
    1. Advanced - white letters, blue background;
    2. Intermediate - white letters, red background;

3. Preliminary - white letters, green background;
  4. Modified - orange letters, blue background;
  5. Training - white letters, black background;
  6. Novice - black letters, white background;
  7. Beginner Novice - black letters, yellow background;
- e. Start and Finish Signs – In addition to the red and white boundary markers, the start and finish lines must also be marked by distinct signs.
  - f. Stopping Points - These must be marked by a peg painted in a vivid color, surveyor's markers, or by a sign.
2. DISTANCES AND SPEEDS. The distances and speeds are determined by the intended difficulty of the whole phase. Within the limits outlined in Appendix 3, Course Designers may choose the distances and speeds most suitable to the terrain and to the quality and standard of preparation of the Athletes. The number of jumping efforts must not exceed an average of 1 per every 100 m commenced and any portion thereof (e.g., a course that is 2,980 m may have 29 jumping efforts).
  3. FINISH LINE. The last Obstacle of the course must be between 25 m and 75 m from the finish line.
  4. PLAN OF THE COURSE.
    - a. The following must also be available to Athletes by at least 3 p.m. the day before the entire Event:
      1. The plan showing the track of the course;
      2. The position of the start and finish lines;
      3. The numbered compulsory passages;
      4. The numbered Obstacles;
      5. The distance;
      6. The Optimum Time;
      7. The Time Limit.
  5. CROWD CONTROL. A plan must be in place prior to the start of the Event to ensure the course track is kept clear of crowds to avoid obstruction of the Athletes on course.

## **EV145 Cross-Country Phase Obstacles**

1. OBSTACLES WITH ELEMENTS OR OPTIONS.
  - a. All significant jumping efforts that the average Horse may be expected to attempt to negotiate must be defined as an Obstacle or element and marked, numbered and/or lettered accordingly.
  - b. Obstacles Composed of Several Elements. (See also Appendix 7)
    1. If two or more jumping efforts, set closely together, are designed as one integral question, they may be designated as elements of a single numbered Obstacle. Each element must be marked with a different letter (e.g., A, B, C, etc.) and be negotiated in the correct order.
    2. Where two or more jumping efforts are set so closely together that after a refusal, run out or fall, it would be unreasonably difficult to attempt to negotiate the second or subsequent effort without retaking one or more earlier efforts, these jumping efforts must be designated as one numbered Obstacle and lettered accordingly.
  - c. Obstacle with Options or Alternatives.
    1. Where an Obstacle may be jumped in one effort but has options involving two or more efforts, each of these options must be lettered as an element.
    2. Alternative Obstacles or elements may be marked separately and must be identified by the same number/letter as on the direct route. In this case, both sets of markers must be marked with a black line. Such alternatives are to be judged as separate Obstacles or elements, only one of which has to be jumped. An Athlete is permitted to change, without penalty, from one option to another (e.g., jumping 6a left hand route then 6b right hand route) provided they have not presented their Horse at the next element of the original line. (See diagrams Appendix 7)
2. NATURE OF OBSTACLES.

- a. The Obstacles must be fixed and imposing in shape and appearance. When natural Obstacles are used, they should, if necessary, be reinforced so they remain in the same state throughout the phase. All reasonable precautions must be taken to prevent the possibility of an Athlete being able to pass mounted under an obstacle. Portable fences must be secured to the ground in a way that the fence cannot move.
- b. The Obstacles at which a Horse, in falling, is likely to be trapped or to injure itself, must be built in such a way that part of the Obstacle can be quickly dismantled and quickly rebuilt, exactly as before. The required construction must not detract from the solidity of the Obstacle. Bullfinches must be constructed so the average Horse will be encouraged to jump through it.
- c. The use of motorized vehicles as the jumpable portion of an Obstacle is prohibited.

### 3. Safety Markers

- a. The types of fences required to use safety markers include:
  1. Corners;
  2. Fences of less than 3 m jumpable width;
  3. Related fences which because of their design offer a jumpable line of less than 3 m width;
  4. Fences designed to be jumped on an angle where knocking a marker is a possibility.
- b. The safety markers and poles on these fences must meet the following criteria:
  1. The poles must be made of a material that cannot shatter, break, or splinter (e.g., suitable plastic, carbon fiber or any other appropriate materials);
  2. Points anywhere on the poles are prohibited;
  3. Sharp corners and/or edges on the markers must be rounded;
  4. Markers must be secured in such a way that they release and/or move away from the fence if struck by the Horse or Athlete to reduce the risk of injury.
  5. All markers and poles must be approved by the Technical Delegate.

### 4. WATER CROSSINGS.

- a. The bottom should be firm and consistent. Water crossing that which are considered to be an Obstacle must be marked at the entrance.
- b. The maximum depth of the water must not exceed 35 cm.
- c. The minimum width of any simple water crossing flagged as an Obstacle must be 6 m, between entry and exit, except where an exit step(s) or Obstacle is jumped directly out of the water, in which case the minimum length must be 9 m.
- d. In water crossings involving Obstacles, the minimum distance between obstacles must be 9 meters. In all water-to-water Obstacles, there must be a minimum of 6 m of water before the Obstacle.
- e. At the Beginner Novice level, water crossing must be straightforward, Obstacles are not permitted.

### 5. NUMBER OF JUMPING EFFORTS.

- a. Within the limits outlined in Appendix 3, the total number of jumping efforts must be related to the length of the course.
- b. To calculate the number of jumping efforts, the efforts on the route expected to be taken by the average Horse must be totaled.
- c. At the Beginner Novice and Novice levels, water crossings must be marked, numbered, and subject to penalties but must not be counted in the number of jumping efforts.

### 6. DIMENSIONS.

- a. Within the limits outlined in Appendix 3, the dimensions of Obstacles should be related to the quality and standard of preparation of the Athletes.
- b. The fixed and solid part of an Obstacle must not exceed the specified height at any of the points at which an Athlete might reasonably attempt to negotiate the Obstacle.
- c. At Obstacles with spread only (e.g., dry or water filled ditch), a guard rail or hedge in front which facilitates jumping is permitted. It may not exceed 50 cm in height and must be included in the measurement of the spread.
- d. Any roof, or other fixed and solid barrier over an obstacle, must be at least 3.36 m above the ground.
- e. An additional ground line is not required for Obstacles with a leading edge of 50 cm or less.

f. Sloping & Round Leading Edges:

Spread fences including corners must not have an upright or vertical leading edge. The top of the front of the fence must be rounded or sloped. All other fences, including gates and fences using square and/or sawn materials, must not have any sharp or square edges. Brush fences are excluded provided there is at least 20cms of brush above the solid part of the fence. Any front leading edge must not be in front of the base of a fence.

7. MEASUREMENTS.

- a. The height of an Obstacle is measured from the point where the average Horse would take off. The spread of an open Obstacle (e.g., oxer or ditch) is measured from the outside of the rails or other material making up the Obstacle on the line it is intended to be jumped. The spread of a closed Obstacle with a solid top (e.g., table) is measured from the highest point to the highest point on the line on which the Obstacle is intended to be jumped. Base spread measurements include all solid element/rails, including solid ground lines.
- b. When the height of an Obstacle cannot be clearly defined (e.g., natural hedge or brush fence), the height is measured from the fixed and solid part of the Obstacle.
- c. The drop on the landing side of an Obstacle is measured from the highest part of the Obstacle to the spot where the average Horse would land.

8. FRANGIBLE TECHNOLOGY.

- a. Whenever possible, Obstacles for which frangible technology (e.g., frangible pins, MIM Clips, or any other load relieving device) is appropriate must be constructed or retrofitted with frangible technology for the Training level and above.
- b. Training fences constructed prior to January 1, 2024 may remain as such through December 31, 2024 but must be upgraded or retrofitted to meet this rules as of January 1, 2025. All fences constructed after January 1, 2024 must meet this rule.

### EV146 Show Jumping Phase Arena

1. The arena must be enclosed. While a Horse is in the arena during an Event, all entrances and exits must be physically closed.
2. If the arena is less than 5,000 square meters (i.e., approximately 90 m x 55 m) the maximum speed to for any division is 350 m per minute. In arenas less than 2,300 square meters (i.e., approximately 75 m x 30 m) the maximum speed is 325 meters per minute.

## **EV147 Show Jumping Phase Courses and Measuring**

1. Within the limits shown in Appendix 3, the Course Designer may plan a track suitable to the level of the Event. It is permitted, with the approval of the Technical Delegate and Ground Jury, to add up to 10% of the maximum permitted distance.
2. The Technical Delegate and/or the Ground Jury must walk the course to inspect the Obstacles before the start of the Event. The course is the track, the mounted Athlete must follow from passing the start line in the correct direction up to the finish line. The length must be measured accurately to the nearest meter. Turns and the normal line to be followed by the Horse must be considered. The normal line must pass through the middle of the Obstacles.
3. The start and finish lines must be between 6 m and 15 m from the first and last obstacle. The start and finish lines must each be marked with a red marker on the right and a white marker on the left.
4. The round begins once the Athlete crosses the start line for the first time, in the correct direction, after the signal has been given. The time starts running after crossing the start line or after the 45 second countdown, whichever occurs first.

## **EV148 Show Jumping Phase Course Plan**

1. An accurate plan of the course must be posted near the arena entrance at least 30 minutes before the start of each division. An identical copy must be provided to the Ground Jury.
2. The plan must indicate the following:
  - a. The position of the start and finish lines;
  - b. The number, letter, and type (e.g., spread or vertical obstacle, triple bar) of Obstacles.
  - c. The track to be followed by Athletes marked by a series of arrows showing the direction in which each Obstacle must be jumped.
  - d. The speed, Time Allowed, and Time Limit.
    - e. If modifications are made by the Ground Jury the course plan must be updated.
3. Obstacles must be numbered consecutively and in the order they must be jumped.
4. Combination Obstacles may be marked with only a single number. Distinguishing letters must mark each element (e.g., 8A, 8B, 8C or 8A, B, C).

## **EV149 Show Jumping Phase Markers**

1. Markers must mark the following details of the course:
  - a. The start and finish lines;
  - b. The boundaries of the Obstacles.
2. The red and white markers may be attached to the sides of the Obstacles or stand independently. Vertical Obstacles must have one set of markers. Spread Obstacles must have at least two red and two white markers to define the limits of the spread.
3. Red and white markers must also be used in the warmup areas to designate which direction to jump the Obstacles.
4. Athletes must pass between the flags, with red on their right and white on their left, at the start and finish lines and at Obstacles.
5. Knocking down a marker in the arena does not incur a penalty. If a marker designating the limits of an Obstacle or the finish line has been knocked down following a Disobedience, (without passing these lines) or as a result of unforeseen circumstances, the marker will not be replaced immediately. The Athlete must continue their round and the Obstacle will be judged as if the marker was in its original place. The marker must be replaced before the next Athlete is given the signal to start.

## EV150 Show Jumping Phase Obstacles

1. Obstacles must be inviting in their overall shape and appearance.
2. The Obstacles and their constituent parts must be such that they can be knocked down, while not being so light that they fall at the slightest touch or so heavy that they may cause Horses to fall or be injured.
3. The course should have a balance of vertical and spread Obstacles.
4. Closed combinations are not permitted.
5. A water jump is not permitted, however, a liverpool no wider than 1.8 m with rails over the water is permitted.
6. Poles must be constructed of timber or have a solid wood core, and other parts of the Obstacles are held up by supports (i.e., cups). The pole must be able to roll on its support. The support for the top poles should have an ideal depth of 25 mm. The minimum depth is 20 mm or a maximum depth of 30 mm. For planks, balustrades, barriers, gates, etc. the supports must be more open or even flat, with a maximum depth of 13 mm.
7. The minimum length of the jumpable face of an Obstacle is 2.45 m.
8. Within the limits outlined in Appendix 3, at least one third of the Obstacles must be maximum height, except for the Beginner Novice and Novice levels where there is no minimum requirements. The overall spread of an oxer may be no more than 20 cm wider than the maximum height for that division. The overall spread of a triple bar may be no more than 40 cm wider than the maximum height for that level. At Preliminary Championship Events, one vertical and one ascending oxer, not part of a combination, and preferably in the second part of the course, may be built 5 cm higher than the maximum height allowed for that level.
9. If a maximum dimension has been marginally exceeded due to the material used for construction and/or by the position of the Obstacle on the ground, the maximum dimensions will not be considered as having been exceeded, provided every effort has been made not to exceed the maximum dimensions with the material available. On Obstacles with sloping rails, e.g., Swedish oxers, fans, etc. two thirds of the length of the top poles must be within the maximum height for the level.
8. **VERTICAL OBSTACLES.** A vertical is defined as an Obstacle that has all its jumpable parts in the same vertical line on the take-off side. If filler or decorations projects forward of the vertical plane, the Ground Jury must determine before the start of the Event if this is faultable. Filler or decoration may be deemed by the Ground Jury as decoration and not faultable. The same Ground Jury determination applies to the front element of a spread obstacle.
9. **SPREAD OBSTACLES.** A spread is defined as an Obstacle that requires an effort in both spread and height, e.g., oxer or triple bar. Only one pole must be used on the back of any spread obstacle. FEI approved safety cups must be used as support for the back pole of all spread obstacles and in case of a triple-bar to support all center and back poles of the Obstacle.
10. **COMBINATIONS.** Double or triple combinations are a group of two or more Obstacles, with distances between the elements of 7 m minimum and 12 m maximum. The distance is measured from the base of the Obstacle on the landing side to the base of the next Obstacle on the take-off side.
  - a. In Combinations, each element of the group must be jumped separately and consecutively, without circling around any element. Faults committed at any element of a combination are penalized separately.
  - b. When there is a refusal or run-out, the Athlete must retake all the elements.
  - c. In a Combination Obstacle, a triple bar may only be used as the first element.
  - d. Penalties for faults made at each element and during different attempts, are counted separately and added to the final score.
11. **OPTIONS.**
  - a. Options are permitted. Options must be marked on the course plan with the same number and the word 'Option'. The Athlete may jump either alternative.
  - b. If there is a refusal or run-out without a knock-down or displacing of the Obstacle, at the next attempt the Athlete is not required to jump the Obstacle at which the Disobedience occurred. They may jump the Obstacle of their choice.

- c. If there is a Disobedience with a knock-down or displacing of the Obstacle, the Athlete must only restart their round when the Obstacle knocked down or displaced has been replaced and when the Ground Jury gives the signal to start. The Athlete may then jump the Obstacle of their choice.
- d. Red and white markers must be placed at each of the elements of options.

## **SUBCHAPTER EV-7 ORGANIZER – RULES FOR CLASSIC THREE-DAY EVENTS**

### **EV151 Classic Three-Day Event Rules**

1. CLASSIC THREE-DAY EVENTS. For circumstances not covered under Classic Three-Day Event rules, refer to Horse Trial rules.
2. CLASSIFICATION.
  - a. The winning individual is the Athlete with the lowest total of penalty points.
  - b. For Tie Breaking, see EV106.
3. INSPECTION & EXAMINATION OF HORSES.
  - a. Examination of the Horses takes place after they arrive but prior to the first Horse Inspection. The Inspection is performed by a veterinarian, appointed by the Organizer. The Horse is presented in a halter by the Athlete or a designee. The object is to establish each Horse's identity and state of health but not its soundness. The Organizer must determine the place and timetable for this examination in consultation with the veterinarian and inform the Athletes. Abnormal findings regarding the Horse's identity or state of health must be reported to the Ground Jury as soon as practicable and before the first Horse Inspection.
  - b. The first Horse Inspection takes place before the Dressage Phase. It is conducted by the Ground Jury and a veterinarian. The President of the Ground Jury is in charge of this inspection committee. The Horses must be presented by the competing Athlete in a bridle. The Ground Jury may grant permission for a designee to be present. The Horses must be inspected in hand, at rest, and in movement on a firm, level, and clean but not slippery surface.
    1. In a doubtful case the Ground Jury may put the Horse in question in a supervised holding area for examination by a veterinarian. Should the Athlete decide to re-present the Horse, the holding area veterinary delegate must report any findings to the Ground Jury and the head veterinarian prior to the Horse being re-inspected by the inspection committee.
    2. The inspection committee must Eliminate any Horse they judge as unfit, due to lameness or lack of condition, or any other reason. In the event of a tied committee vote, the President of the Ground Jury will have a second vote, and the decision will be announced immediately.
  - c. The second Horse Inspection during the 10-minute box before the start of Phase D is conducted by a Ground Jury member and the veterinarian. Expedient but thorough inspections are ideal to allow Horses the maximum amount of time for recuperation. The committee must Eliminate any lame or exhausted Horse. At least one member of this committee should have participated in the first Horse Inspection. The Athlete's health and safety is also taken into consideration, the Ground Jury may Eliminate an Athlete if they determine continuing will pose a risk to their health and safety. In the event of a tied committee vote, a Ground Jury member will have a second vote.
  - d. Examination after the Cross-Country Obstacle Phase takes place after the Athlete has completed the course. The examination is performed by a veterinarian, appointed by the Organizer. The veterinarian has no authority to Eliminate a Horse, but must report any doubtful case to the Ground Jury and to the head veterinarian. In addition to carrying out any immediate treatment required by an injured or exhausted Horse, the veterinarian will determine if each Horse:
    - a. Is fit to return immediately unassisted to its own stable;
    - b. Should remain for further treatment before returning to its stable;
    - c. Should be transported by vehicle, which must be available, either directly to its stable or to a veterinary hospital.

- e. The third Horse Inspection takes place before the Show Jumping Phase. It is conducted by the same committee and under the same conditions as the first Horse Inspection.
- f. APPEAL. At the three Inspections, there is no appeal against an Elimination determined by the Ground Jury. If requested, the President of the Ground Jury must provide a reason for the committee's decision after the whole Inspection is completed. The veterinarian will be a member of the committee present at these three Horse Inspections.
- g. At times other than Inspections, a Ground Jury member may Eliminate a Horse, which in their opinion is lame or unfit to continue.
- h. The Horse Inspections must be open to the public.

#### 4. EXPLANATION OF PHASES.

- a. Timekeeping for Phases A, B, C, and D is tracked independently. Loss of time in one cannot be compensated for by gain of time in another.
- b. The timetable for Phase B is scheduled to begin 1 minute after the Athlete is due to complete Phase A.
  - 1. If the Athlete is early or late finishing Phase A, the 1 minute break will be increased or decreased accordingly (e.g., if an Athlete finishes Phase A 15 seconds early, their break will be 1 minute 15 seconds; if the Athlete finishes Phase A 20 seconds late, their break will be 40 seconds).
  - 2. If an Athlete is so late finishing Phase A that they cannot start Phase B on time, the Athlete will be started on Phase B as soon as possible (allowances made for adjustments to saddlery, etc. are not permitted). The Athlete's time for Phase B will be recorded from the time the starter starts the Athlete.
- c. The finish time of Phase B is the start time of Phase C.
  - 1. The Athlete's time of Phase C is not affected by the gain or loss of time on Phase B.
  - 2. The gaining of time on Phase B and/or Phase C will result in additional resting time added to the 10 minute compulsory halt provided for the second Horse Inspection before the start of Phase D.
  - 3. The loss of time on Phase B and/or Phase C will not reduce the 10 minute compulsory halt except as provided below. The Athlete's starting time for Phase D must be adjusted.
- d. It is possible that an Athlete might exceed the Optimum Time for one or more Phases. Normally, the starting time of Phase D will be delayed by the sum of any time lost less the sum of any time gained. However, if this delay is small (i.e., the Athlete was only a few seconds late finishing Phase C), the Athlete may be started on Phase D at their scheduled time, in order not to interfere with the timetable.

#### 5. TIME.

- a. Time Limit – For Phases A and C, the Time Limit is one fifth more than the Optimum Time. For Phase B, the Time Limit is twice the Optimum Time.
- b. Time Faults:
  - 1. Phases A and C, exceeding the Optimum Time is penalized 1 penalty point per second.
  - 2. Phase B, exceeding the Optimum Time is penalized .8 penalty point per second.
  - 3. Completing Phase B in less than the Speed Fault Time will be penalized in accordance with EV123.1 per Appendix 4 at .4 penalty point per second.
  - 4. Phase D time faults are calculated per EV121.2 and EV123.

- 6. PACE AND DISMOUNTING. Between the starts and finishes of Phases A and C, Athletes may choose their own pace. They may dismount and proceed on foot beside their Horse, including while negotiating compulsory passages. Athletes must be mounted to pass through the start and finish flags of both Phases.

#### 7. MARKING OF THE COURSE.

- a. Compulsory passages for Phases A, B, and C must be numbered consecutively and with the relevant Phase letter from the start.
- b. Kilometer Markers - The routes of Phases A and C will be marked at intervals of 1,000 meters by signs. The signs must include the distance from the Phase start and the Phase letter.

- 8. FAULTS. Steeplechase faults must be scored in accordance with EV123. Except for Time Faults as outlined in EV151.5b, Phases B and D apply the same methodology for all other fault types in accordance with EV121, EV122, and EV123.

9. ASSISTANCE. At the start of Phase B and of Phase D, and at any other point determined and announced by the Organizer, it is permitted to assist the Athlete and to attend to their horse (groom, water, etc.).

When bit inspections require actual contact with the inside of the horse's mouth, the inspector must use a clean protective glove for each horse. If the competitor so requests, the bridle and bit may be checked immediately after the test has been completed. However, should the bridle or bit in such a case be found not to be permitted, the competitor shall be eliminated.

## **APPENDIX 2 - PARTICIPATION IN HORSE TRIALS**

All Minimum Eligibility Requirements (MER), must be obtained within a 4-year period. Athletes with 20 or more MERs in the previous 4-year-period, at the level they are moving up to, are exempt from having to obtain one MER within 12 weeks.

Classic Three-Day Events qualifying competitions must be completed within a 24-month period prior to the start of the Event.

An Athlete and/or a Horse may be entered in a Horse Trial without having fulfilled the qualifications noted below, provided the qualifications have been fulfilled at least 10 days before the Cross-Country phase of the Event for which it is needed if the MER has been achieved at a Horse Trial or CCI-S or at least 24 days if the MER has been achieved at a CCI-L. For the USEA American Eventing Championships, qualifications must be fulfilled by the closing date (See EV110.4).

At the CCI1\* level and above, at least one MER must be obtained in the 12-month period prior to the Event. e.g., a Horse and/or Athlete who achieved a MER at a CCI4\* and who have not competed for over 12 months must first achieve a MER at the next lowest height level.

Blue route: Clear, because it avoids passing around the back of element, B (crosses the entire projection of the back of element B, but crosses back to avoid passing around the back of an element B)

Green route: Clear, because it avoids passing around to the back of element be space (avoids to cross the entire projection of the back of element B)

Anything that alters the intended use of equipment as provided for in the description of appointments for a given class is considered to be an artificial appliance. This includes but is not limited to tongue ties and/or mouth ties (see GR802.2). Gag, burr, twisted wire, bicycle chain, mule, and spiked bits of any type are prohibited in any discipline/section. Action produced by artificial methods shall be penalized. supplemental hair in manes, tails or feathers shall be cause for disqualification from the class. Manes and tails must not be clipped with the exception of banging the tail.

24. The use of glitter or other such exterior body products while showing is prohibited (Exception: Costume Classes).
25. The showing of Purebred and Part Bred Friesians in the same class is not permitted. An exception to this rule can only be granted by IFSHA Board of Directors on a case by case basis. 31. Masters Classes are restricted to amateur riders/drivers age 50 years and older. Classes are to be judged in accordance with the amateur class specifications. Manners to be of utmost importance.
32. When holding IFSHA Regional Championship classes, only one Championship class with the same title may be held at a Federation Licensed Competition.
33. DESCRIPTION OF GAITS.
  - a. Walk
    1. Walk: A four-beat gait that is true, brisk, straight, flat-footed with good reach, and ground covering.
    2. Free Walk: The horse is on a long rein and stretching forward and down.
    3. Normal Walk: Regular and unconstrained, moving energetically and calmly forward.
    4. Collected Walk: The horse, remains "on the bit," moves resolutely forward, with its neck raised and arched and showing a clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hind legs are engaged with good hock action. The gait should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the medium walk, because all the joints bend more markedly. The collected walk is shorter than the medium walk, although showing greater activity.
    5. Extended Walk: The horse covers as much ground as possible, without haste and without losing the regularity of the steps. The hind feet touch the ground clearly in front of the hoof prints of the fore feet. The rider allows the horse to stretch out the head and neck (forward and downwards) without losing contact with the mouth and control of the poll. The nose must be clearly in front of the vertical.

6. Flat Walk: A four-beat gait that is collected at a slow regulated speed with impulsive movement.

7. Medium Walk: A clear, regular, and unconstrained walk of moderate lengthening.

The horse, remaining “on the bit,” walks energetically but relaxed with even and determined steps, the hind feet touching the ground in front of the hoof prints of the fore feet. The rider maintains a light, soft, and steady contact with the mouth, allowing the natural movement of the head and neck.

8. Animated Walk: A two or four-beat gait which is highly collected exhibiting much “primp” at a slow regulated speed with good action and animation. It should have snap and easy control. It is performed with great style, elegance and airiness of motion.

b. Trot/Jog

1. Trot: A two-beat diagonal gait that is free-moving, balanced overall, relaxed, straight, easy going with elasticity and freedom of movement, rider maintaining light contact with horse’s mouth at all times.

2. Jog-Trot: A two-beat gait that is free, square, slow, and easy.

3. Normal Trot: A two-beat gait. To be an overall balanced, relaxed, easy-going trot with elasticity and freedom of movement. High action must be penalized. Posting is required.

4. Collected Trot: The horse, remaining “on the bit,” moves forward with the neck raised and arched. The hocks, being well-engaged and flexed, must maintain an energetic impulsion, enabling the shoulders to move with greater mobility, thus demonstrating complete self-carriage. Although the horse’s steps are shorter than in the other trots, elasticity and cadence are not lessened.

5. Animated Trot: A two-beat gait that is executed in a highly collected manner, speed to be penalized. The horse’s energy should be directed toward animation rather than speed. An extended trot is faster, stronger, and bolder, with a fuller extension of stride to obtain desired speed. It is executed in a highly collected manner.

6. Working Trot: This is a variation between the collected and the medium trot, in which a horse’s training is not yet developed enough and ready for collected movements. The horse shows proper balance and, remaining “on the bit,” goes forward with even, elastic steps and good hock action. The expression “good hock action” underlines the importance of an impulsion originating from the activity of the hindquarters.

7. Extended Trot: Maintaining the same cadence and performing at medium speed, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider’s hand as it lengthens its frame while maintaining balance, ease and freedom of movement. In order to extend some horses may need to achieve the desired movement at different speeds and should not be penalized.

8. Strong Trot: This is a stronger trot, performed with a lengthened stride, powerful and reaching, at a rate of speed which may vary between horses since each horse should attain his own strong trot in harmony with his own maximum natural stride. The horse must not be strung out behind. The horse should show moderate collection without exaggeratedly high action in front. He must present a willing attitude while maintaining form. The strong trot must be mannerly, cadenced, balanced, and free-moving.

9. Park Trot: The park trot is executed in a highly collected manner, speed to be penalized. The horse’s energy should be directed toward animation rather than speed.

10. “Show Your Horse”: At this command, the driver has the privilege of showing the Fine Harness horse to its best advantage at the trot, but speed will be penalized.

c. Canter/Lope

1. Canter: A three-beat gait that is to be collected, animated, true, smooth, unhurried, straight and correct on both leads. Loss of form due to excessive speed shall be penalized.

2. Lope: A true three-beat gait. Smooth, slow, easy, and straight on both leads

3. Normal Canter: Light, even strides, should be moved into without hesitation.

4. Collected Canter: Marked by the lightness of the forehand and the engagement of the hindquarters, the collected canter is characterized by supple, free shoulders. Neck is more raised and arched than in normal canter as the head approaches the vertical line, never moving behind it.

5. Working Canter: This is a variation between the collected and the medium canter, in which a horse’s training is not yet developed enough and ready for collected movements. The horse shows natural

balance while remaining “on the bit”, and goes forward with even, light and active strides, and good hock action. The expression “good hock action” underlines the importance of an impulsion originating from the activity of the hindquarters.

6. Extended Canter: Maintaining the same cadence, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider’s hand as it lengthens its frame.

- d. Hand Gallop: A faster gait than a canter, lengthened stride and controlled, straight, and correct on both leads. Is performed with a long, free, ground covering stride. The amount of ground covered may vary between horses due to difference in natural length of stride. The distinction between hand gallop and extended canter is, the latter being the ultimate linear extension of stride within the hand of the rider; the hand gallop being a looser, freer elongation of stride and frame of the horse. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct, and straight on both leads. Extreme speed must be penalized.

- 34. When the Dressage chapter is referenced herein, any rule or portion of a rule that is in direct reference to USEF/USDF or USEF National Championships shall be disregarded for the purpose of breed Dressage classes.

## **FR102 Falls**

- 1. The fall of horse and/or rider does not disqualify the competitor unless due to bad manners of the horse. Exceptions: Show Hack, Western Pleasure and Trail.
- 2. A fall in the Show Hack, Western Pleasure and Trail class requires elimination.

## **FR103 Shoeing and Hoof Specifications**

- 1. General
  - a. Horses 2 and over may be shown shod or barefoot.
  - b. Horses less than 2 years of age must be shown barefoot.
  - c. If the hoof length or shoe dimensions exceed the specifications defined in 2.a and 3.b. the horse will be disqualified for the entire competition and the owner shall forfeit all prize money, sweepstakes, trophies, entry fees, ribbons and points won at said competition by said horse.
  - d. If a shoe is cast during a class, the shoe, pad, and hoof must be inspected by the Federation Competition Steward.
- 2. Hoof Specifications
  - a. The maximum length of toe for barefoot horses is 5 inches and shod horses with or without pad is 5 1/2 inches. The measurement must be conducted as defined in GR510.
  - b. Artificial lengthening of the hoof wall or altering the hoof wall is prohibited. A hoof which needs repair may be filled with artificial material as long as it follows the natural line of the hoof.
- 3. Shoes:
  - a. Any machine-made (keg) or handmade shoe made of magnetic steel, mild steel, or aluminum is permitted; it must be of uniform width and thickness from toe to heel. Shoes made of Tungston Carbide are prohibited.
  - b. The shoe must not exceed the dimensions of 1 1/4 inches wide by 1/2 inch thick.
  - c. The shoe is not to extend more than 1/4 inch beyond the hoof in front, and shall not exceed beyond 1/4 inch of the bulb of the heel when a perpendicular line is drawn from the bulb of the horse’s heel to the ground.
  - d. Use of any kind of material other than hoof packing material (e.g. oakum, pine tar, silicone, foam rubber) and/or hoof repair material, in or around the hoof is prohibited.
  - e. A bar welded to the bottom of the shoe that extends below the shoe’s surface is prohibited.
  - f. Clips: it is most desirable for clips to be drawn from the source material of the shoe. Welded clips are permitted as purchased on keg shoes if the overall height of the clip is 1 inch or less; a maximum of three clips per shoe permitted. Side clips must be set at or ahead of the widest part of the hoof.

- g. Caulks are not permitted.
  - h. Borium is permitted on the toe and heel areas of the shoe for traction. Application of borium should not exceed 1/4 inch in height and 1 1/2 inches of area at the toe and heels. If used, this additional thickness will be taken into consideration for the overall thickness of the shoe. If the shoe gauge is used and these borium pieces are attached, the overall dimension of the shoe will either exceed the limit or be ultra thin.
4. Pads and Wedges
- a. Corrective shoeing with a full pad or rim pad made of leather, rubber, or plastic is permitted. One pad or pad and wedge combination per foot is permitted. The mended hoof must match the original natural hoof.
  - b. Overall length of toe may not exceed 5 ½ inches.
  - c. Bands for attachment or security of shoe and or pad are prohibited.
  - d. Any additional weights added to a shoe or under a pad are prohibited. (See FR103.3 for definition of a shoe).

## FR104 Conformation for all horses

(Refer to In-Hand section for exceptions to the general conformation rules)

1. Conformation
- a. The head's width and length should be proportional. The ears are small and alert with the tips pointing slightly toward each other. The eyes are large and shining. The nasal bone is slightly hollow or straight; nostrils are wide. The lips are closed and the teeth meet properly. The jaw bones are not heavy and are spread wide apart to allow the horse to breathe easily while at work. The head is set gracefully on the neck with adequate space for the throat. Overall, the head is dry and expressive and blends smoothly into the neck.

The pastern is resilient, of good length and is at a 45 degree angle to the ground. The hooves are wide and sound.

3. Judges are required to consider the performance at each gait equally in adjudicating this class.
4. A Show Hack horse is not necessarily a Dressage horse, nor an English Pleasure horse. Elevation and high knee action are not to be emphasized. The Show Hack is a suitable section for the well trained animal. Show Hacks must be balanced and show vitality, energy, presence, clean limbs and supreme quality. Soundness is required.
5. Horses may show with a braided mane and tail. Braids may be secured with tape, yarn or rubber bands.

### **FR150 Tack**

1. Bridle shall be light, show type; either single snaffle, Kimberwick, double (full) bridle or Pelham. Browbands and cavesons other than Hunter or Dressage types are prohibited. Unconventional tack such as figure eight, drop, or flash nose bands are prohibited.

2. For Championship or evening classes, formal attire consisting of white breeches, top hat, and Shadbelly is appropriate but not required. Protective headgear may be worn without penalty. (See GR801.4)

## FR152 Qualifying Gaits

1. A Show Hack shall be able to perform all of the gaits with a noticeable transition between the normal, collected, and extended gaits. The horse must be under complete control and easily ridden. Obedience to the rider is of prime importance. If the horse exhibits clear transitions in a balanced and level manner, appearing to be giving a comfortable and pleasurable ride, it is performing correctly for this class.
2. Walk, a four-beat gait: Straight, true and flat-footed. Normal Walk: Regular and unconstrained, moving energetically and calmly forward. Collected Walk: Strides are shorter and higher than at the normal walk. The head approaches the vertical, but should never move behind it. Pacing is a serious fault. Extended Walk: The horse is allowed to lengthen frame and stride while rider maintains light rein contact. The horse should cover as much ground as possible without rushing.
3. Trot, a two-beat diagonal gait: Free-moving, straight, rider maintaining light contact with horse's mouth at all times. Normal Trot: Light, crisp, balanced and cadenced, with rider posting. Collected Trot: The horse's stride is shorter and lighter, maintaining balance and impulsion. The neck is more raised and arched than at the normal trot as head approaches the vertical line, never moving behind it. Rider is sitting. Extended Trot: Maintaining the same cadence and performing at medium speed, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider's hand as it lengthens its frame. The extended trot may be performed with the rider sitting or posting.
4. Canter, a three-beat gait: Straight on both leads, smooth. Normal Canter: Light, even strides, should be moved into without hesitation. Collected Canter: Marked by the lightness of the forehand and the engagement of the hindquarters, the collected canter is characterized by supple, free shoulders. Neck is more raised and arched than in normal canter as the head approaches the vertical line, never moving behind it. Extended Canter: Maintaining the same cadence, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in rider's hand as it lengthens its frame.
5. Hand Gallop: The hand gallop is performed with a long, free, ground covering stride. The amount of ground covered may vary between horses due to difference in natural length of stride. The distinction between hand gallop and extended canter is, the latter being the ultimate linear extension of stride within the hand of the rider; the hand gallop being a looser, freer elongation of stride and frame of the horse. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct, and straight on both leads. Extreme speed to be penalized.

The thong of the whip should be long enough to reach the shoulder of the farthest horse. A driver not in compliance with the above may be penalized. A whip with its thong tied in a manner which renders it incapable of reaching the farthest horse is not allowed. Failure to comply must be severely penalized.

5. Description of Gaits. Cantering and galloping are prohibited unless clearly stated in the prize list.

- a. The walk is a free, regular, and unconstrained walk of moderate extension is ideal. The horses should walk energetically, but calmly, with even and determined pace. The walk is a four-beat gait.
- b. The trot is a two-beat, diagonal gait.
  - i. Slow Trot: The horse should maintain forward impulsion while showing submission to the bit. The trot is slower and more collected, but not to the degree required in the dressage collected trot. However, the horse should indicate willingness to be driven on the bit while maintaining a steady cadence.
  - ii. Working Trot: This is the pace between the strong and the slow trot and more round than the strong trot. The horse goes forward freely and straight; engaging the hind legs with good hock action; on a taut, but light, rein; the position being balanced and unconstrained. The steps should be as even as possible. The hind feet touch the ground in the footprints of the fore feet. The degree of energy and impulsion displayed at the working trot denotes clearly the degree of suppleness and balance of the horses.
  - iii. Strong Trot: This is a clear, but not excessive, increase in pace and lengthening of stride while remaining well balanced and showing appropriate lateral flexion on turns. Light contact to be maintained. Excessive speed must be penalized.
- c. Halt: Horses and vehicle should be brought to a complete and square stop without abruptness or veering. At the halt, horses should stand attentive, motionless, and straight with the weight evenly distributed over all four legs and be ready to move off at the slightest indication from the driver.
- d. Reinback is defined as a backward movement in which the legs are raised and set down simultaneously in diagonal pairs with the hind legs remaining well in line. To be performed in two parts:
  - i. The horse must move backward at least four steps in an unhurried manner with head flexed and straight, pushing the vehicle back evenly in a straight line. The driver should use quiet aids and light contact.
  - ii. Move forward willingly to former position using the same quiet aids.
  - iii. Road Coaches and Park Drags are not to be asked to back up in the show ring.
- e. The canter is a controlled three-beat gait consisting of three evenly spaced footfalls followed by the "suspension" phase when all four legs are off the ground. The three beats and suspension are considered one stride.
- f. The gallop is a four-beat gait, faster than a canter.
- g. A stride is defined as the cycle of movements that is completed when the horse's legs regain their initial positions. Length of stride refers to the amount of ground covered by an entire sequence.
- h. Show Your Horse: At this command, the driver has the privilege of showing the Horse(s) to its best advantage at the trot, but speed will be penalized.

- iv. Measurement of Obstacles
  - 1. When using "traffic cones," the following adjustments are:
    - 1. When measuring, the track width of each vehicle should be taken at the ground on the widest pair of wheels. The allowance is added and the cones are aligned and adjusted from corner to corner. This allows the greatest distance between the corner of the base and the upright portion of the cone. The taper of the cone provides clearance for normal hubs, whiffle trees, or splinter bars.
    - 2. If a whiffle tree, splinter bar, or the wheel hubs prove to be too wide for this arrangement, the cones must be adjusted using the widest measurement plus the appropriate allowance.
  - 2. On cones with perpendicular sides, adjustment for the widest part of the vehicle at the highest part of the cones may be made.

Courtesy and good sportsmanship should prevail at all times.

## **FR199 Judging Guidelines**

Showing a horse in-hand is an art and should be considered as such by the showman and judge alike. The ideal showmanship performance consists of a poised, confident, appropriately attired exhibitor leading a well-groomed and conditioned horse; the exhibitor should quickly and efficiently perform the requested pattern with promptness, smoothness and precision. Emphasis must be placed on the exhibitor's ability to perform maneuvers in a safe and elegant manner. Exhibitors must use the Quarter System and turn the horse away from the handler.

When the judge moves to area II, the exhibitor moves to area I. When the judge moves to area III, the exhibitor moves back to area IV. When the judge moves to area IV, the exhibitor moves back again to area I. An exhibitor should never stop directly in front of the horse, since this is a danger zone. IN ADDITION TO THE REQUIREMENTS SET FORTH IN THIS CHAPTER ADDITIONAL RULES RELATING TO FEDERATION HUNTER AND JUMPER COMPETITIONS ARE LOCATED IN OTHER CHAPTERS OF THE FEDERATION RULE BOOK specifically, GR, HU, EQ, and JP.

Pursuant to GR151.1, when a division or section rule is in conflict with a general rule (GR), the division or section rule shall govern.

In the event that a standard within this section exceeds the requirement in other Federation rules, the higher standard is applicable.

### **SUBCHAPTER HJ-1 INTRODUCTION TO HUNTER/JUMPER COMPETITION STANDARDS**

#### **TYPES**

Hunter Jumper Competition Standards, set forth below are established to provide consistency in the quality of facilities and services offered in Federation hunter and jumper competitions.

#### **HJ100 Types of Standards and Application**

1. Distinguish HJ Competition Standards (HJS) and Basic Standards from Other Federation Standards. The reference to standards can occur in relation to separate and distinct sets of requirements.
  - a. Federation Standards which are applicable to multiple situations, disciplines, procedures and/or competitions.
  - b. Federation H/J Competition Standards (HJS) which are applicable only to Federation Rated licensed H/J competitions or H/J sections of multi-breed competitions.
  - c. Basic Standards set forth in HJ 100 to 108 applicable to Rated HJ competitions.
2. When Standards Are In Conflict.

In the event that a HJS within this section exceeds the requirement in other Federation rules or Standards the higher standard is applicable.
3. HJS Application to Multi-Breed and Breed Restricted Competition Standards.

HJS apply only to the H/J portions of a multi-breed competition and are not applicable to breed restricted competitions.
4. Standards Application.
  - a. All hunter competitions fall into one of the following classifications: Premier ("AA"), National ("A"), or Regional ("B").
  - b. All jumper competitions fall into one of the following classifications: Level 1, Level 2, Level 3, Level 4, Level 5 or Level 6.

For purposes of this chapter, hunter and jumper competitions are considered a single discipline and subject to the same HJS or Basic Standards where applicable.
5. HJS and Basic Competition License Renewal & Fines.

Standards are used as part of the evaluation process for the licensing of competitions. Failure to achieve and to maintain required Standards will be considered a major factor in the decision to renew or not renew a license and/or a rating. Unless the violation of HJS is intentional and/or is related to horse and human safety and welfare no fines relating to HJS standards will be assessed, other than those fines specified in the Federation rules (i.e. Sharps containers \$100 and et cetera).
6. Exemptions from HJS.

A single competition may receive a one-time specific exemption by the Federation for application of the HJS due to unforeseen and/or extenuating circumstances (see ring size exemption provision HJ 102). Exemptions are not permanent and do not modify the requirement to meet the HJS in the future.
7. Other References.

In addition to the requirements set forth in this chapter, additional rules relating to Federation hunter and jumper competitions are located in other chapters of the Federation rule book specifically, GR, HU, EQ, AND

JP. Pursuant to GR151.1, when a division or section rule is in conflict with a general rule (GR), the division or section rule shall govern.

## **HJ101 Effective Dates for Standard Application**

1. Existing Licensed H/J Competitions including Heritage Competitions eligible for renewal on or after 12-01-2011 unless stated otherwise in the HJS, must meet applicable HJS for their Rating. See HJ104 Horse Entry Number HJS.
2. All new competitions must meet applicable Basic Standards and HJS for their Rating. See HJ104 Horse Entry Number HJS.
3. Effective date for changes to HJS.  
Any changes or additions to HJS, unless stated otherwise in the HJS being adopted, must be achieved by a competition effective the first of the month that is 12 months following the date of the Federation's adoption of the HJS or a later effective date set forth in the HJS that is adopted. For example, changes or additions to HJS adopted in January of a year will normally become effective on February 1st of the following year, etc. HJS may be amended or deleted effective immediately when such action is determined appropriate by the Federation.
4. Competitions with the first licensed date of a competition year, prior to the effective date of the modified standard(s) for their Rating or Level, will not be required to meet the new standard(s) until the next competition year.

## **SUBCHAPTER HJ-2 RATINGS & HORSE ENTRY NUMBER STANDARDS**

### **HJ102 HJ Competition Standards (HJS) are Specific to Competition Classification and Ratings as Defined Below**

All competitions must meet the Basic Standards set forth in HJ100 through HJ107. Regardless of rating, additional requirements apply (HJ108) when Horse Entry Numbers exceed five hundred (500) and/or licensed series of competitions are scheduled for a period of twenty-one (21) days or more without a break of at least five (5) consecutive calendar days

A competition must apply for an exception to any competition standard outlined in HJ105-HJ108 if management is unable to remedy facility limitations or space constraints due to extenuating circumstances at the facility, beyond reasonable control of competition management. The application for exception must be submitted at the same time as the competition's license application or license renewal on a form provided by the Federation.

### **HJ103 Definitions**

1. Definitions.
  - a. Rated Hunter competitions are classified as Premier ("AA"), National ("A") or Regional ("B"). Stand-alone International Hunter Derby competitions are a sub-type of the premier hunter rating (see HJ114)
  - b. Jumper competitions are designated as Levels 1, 2, 3, 4, 5, and 6 based upon prize money. See JP104.
  - c. Rated competitions offering hunter only, or both hunter and jumper will be subject to HJS set forth under the Premier, National or Regional hunter rating.
  - d. HJS for a jumper only competition will be:

2. Whenever two (2) Standards are applicable to a competition, the entire competition is to achieve the highest Standard applicable to any portion of the competition.
3. For multi-breed competitions (see HJ100.3) which contain hunter and/or jumper sections, and for local competitions when operating within an existing rated hunter and/or jumper competition, the highest applicable HJS for any portion of the hunter and/or jumper competition is to be applied to the entire hunter and/or jumper discipline sections only.

## **HJ104 HJS Competition Standards Horse Entry & Renewal**

1. Number of Horse Entries Required for HJ Competition Rating.
2. No minimum horse entry number is required to achieve the rating for jumper competitions. Prize money is the alternative criteria required for a jumper rating. See JP104
3. Competitions restricted to only conducting Breeding classes are exempt from the Horse Entry standard requirement.
4. Two day National Junior/Amateur restricted competitions will have a Horse Entry Number requirement of fifty (50). Competitions which utilize only one (1) competition ring or which offer only hunter and equitation classes (no jumper classes) will have a Horse Entry Number requirement as follows: Premier – seventy-five (75), National – fifty (50). There is no Horse Entry Number requirement for a Regional competition.
5. Rating and Horse Entry Numbers.  
(See HJ108 for additional HJS requirements)  
Required number of Horse Entries for Regular competition Classification rated hunter or hunter/jumper are:

7. New Competition or New Rating Horse Entry Requirement.  
During the first three (3) years of a competition, the minimum number of horse entries is determined based upon the minimum number of horse entries required for the rating applied for by the Licensee and approved by the Federation. For competitions with three (3) or more years of operation, a competition License may be renewed if they have achieved the HJS Horse Entry Number in at least two (2) of the last three (3) years. The License renewal may be delayed until the completion of the last competition of the existing License, if it is in the best interest of the competition to achieve the HJS Horse Entry Number required for renewal. The other HJS that are applied to a competition must be achieved every year in order to maintain the Rating/Level.
  - b. If the required minimum HJS Horse Entry Number is not achieved during the period set forth, then the competition will be provided with a License at a lower rating consistent with the Horse Entry Numbers achieved. The Licensee may continue to conduct a competition at the same location and on the same dates at the new Rating and/or Level in accordance with HJ104 and subject to achieving other HJS required for the Rating or Level.
9. Renewal License Request at a Higher HJS Horse Entry Number Requirement. Any higher rating for a competition may only occur upon application by the Licensee and approval of the Federation in accordance with established license procedures. When a competition is approved to receive a license for a higher rating

they must conduct at least three (3) competitions at the new rating before they may again apply for a higher rating.

10. Renewal License Request at a Lower HJS Horse Entry Number or Other HJS Requirement. If the competition Licensee is not able to, or does not wish to, meet the applicable HJS to continue their current rating, the Licensee may request and receive a License at a lower rating, subject to meeting the applicable HJS for the new rating and Federation approval.

11. Renewal License Process Review.

The Federation, in its sole discretion, may determine that a competition has been adversely affected in the competitions ability to achieve the HJS as a result of an unforeseen or unavoidable occurrence. If this unusual occurrence adversely impacts the number of horses entered in the competition, the Federation will not consider the affected competition year in determining renewal rating eligibility. In order for the Federation to make their determination, facts must be reported in writing by competition management to the Federation Competitions Department prior to the earlier of the third day or end of writing by competition management to the Federation Competitions Department prior to the earlier of the third day or end of the licensed competition. Unforeseen or unavoidable occurrences may include Acts of God. The Federation, in its sole discretion, may audit competitions to determine that they are faithfully compliant with the HJS Horse Entry Number Requirement. If a competition is found to be non-compliant due to inclusion of inaccurate information in the competition report or other reports to the Federation, Licensee is subject to immediate revocation of all licenses.

  - a. **Competition Ring:** An area designated with signage and a barrier, with a gate or space for entry and exit, on competition grounds where classes are held for competition of hunters and/or jumpers. All competitions must provide a minimum of one dedicated competition ring. Competition rings may be utilized as an exercise, lunge, or schooling area when not being used for its primary purpose if the ring meets the sizing requirements for each area.
  - b. **Main Competition Ring:** The main competition ring is defined as a competition ring for hunters and/or jumpers which takes priority scheduling over all other competition rings, or holds the class with the largest amount of prize money, and has designated seating for spectators and riders. If one competition ring (defined above) is provided, it will serve as the main competition ring.
  - c. **Schooling Area or Warm-up Area:** A designated area on the competition grounds in which horses are being prepared to compete. A schooling area is required to be designated with signage and on the facility map for each competition ring, and located in close proximity to the competition ring it serves. All horses in the schooling area or warm-up area must have its show number attached to the horse or the individual riding or handling. Any horse without its correct number will be asked to leave the area. Premier competitions must offer a separate schooling area for hunters, jumpers and ponies if running concurrently. Schooling areas must be available one hour prior to the start of the first scheduled class until the end of the last scheduled class in the competition ring for which the schooling area is designated. When utilizing an indoor ring as a competition ring, the competition may use schooling breaks between sections within the competition schedule for each day to comply with this Standards requirement. Schooling areas for hunters must contain adequate standards, jump cups and hunter-type rails to make a minimum of a trotting fence, a vertical and an oxer. See also HU Appendix A.
  - d. **Exercise Area:** A designated area on the competition grounds in which horses at the competition may be exercised, or lessons may be held, both on the flat and over fences. All horses in the exercise area must have its show number attached to the horse or the individual exercising. Any horse without its correct number will be asked to leave the area.
  - e. **Lunging Area:** An area designated on the competition grounds that is used to safely lunge horses on the flat only. All horses being lunged in the designated lunging area, or anywhere else on show grounds, must have its show number attached to the horse or the individual lunging. Any horse without its correct number will be asked to leave the area.
  - f. **Lighting:** Lighting must provide full and complete visibility for a safe working environment for horses and personnel if competition rings, schooling areas, exercise areas, and lunge areas are open for use between sunset and sunrise. Horses cannot be required to be exhibited in the competition ring or schooled in the designated schooling areas before sunrise or after sunset unless lighting in accordance with GR 834.2 is provided that assures full and complete visibility.

These areas must be properly maintained at least daily, and more often depending upon use and weather conditions. Plans and knowledgeable maintenance staff must be in place to monitor the safety of the footing in all riding and lunging areas. Competition licensee or manager must develop a tentative footing maintenance plan for all competition rings, schooling/warm-up areas, exercise areas, and lunging areas prior to and during competition. The maintenance plan should include the type of footing, planned maintenance for each area, weather contingencies, personnel and equipment, and any breaks in the schedule for maintenance.

1. Competition management is required to make appropriate efforts to maintain the best possible footing in competition, schooling, and exercise and lunge areas. Provisions must be made (by having on hand functioning proper equipment and scheduling sufficient breaks in the schedule) to maintain the footing in those areas throughout the competition by dragging, watering, and raking, if necessary.
  2. Water trucks, sprinklers, snow removal, or other climate appropriate system(s) must be used to address climate related conditions, including dust reduction for all riding and lunging areas.
  3. Horses are not permitted in riding and lunging areas while the areas are being serviced by motorized equipment.

  - a. A minimum of one (1) lunge area of at least 20,000 square feet not being used at the time as competition rings, schooling areas and/or exercise areas must be available during competition hours between the hours of sunrise and sunset.   - b. The exercise area must be available for at least five (5) contiguous hours within each calendar day between the hours of sunrise and sunset. The exercise area schedule (if area is not always available) must be posted in the horse show office prior to the first day of competition. This area is required to be available on both competition days and during non-competition days when there are less than five (5) consecutive calendar days of break without scheduled competitions.
2. Indoor competitions. When the above conditions set forth in HJ108 exist, the following minimum requirements must be met for exercise and lunge areas on both competition and non-competition days.

This exercise area period is required to be available on days when competitions are scheduled and during non-competition days at least eight (8) contiguous hours between 5:00 am and 12:00 midnight when there are less than five (5) consecutive calendar days without scheduled competitions. ### **HJ125 Limiting Entries at Hunter/Jumper Competitions**

1. A Federation member in good standing has the right to enter any Federation licensed Hunter, Jumper, and/or Hunter/Jumper competition and any division, section, or class for which they and their horse meet the eligibility requirements. (Exception: Management may refuse entries per GR914.)
  - a. Entries may be accepted on a first-come, first-served basis per GR907.1.
  - b. For competitions restricting entries in the Hunter division based on winnings, see HJ126
  - c. For competitions restricting entries in Jumper sections, see JP115.
2. Management may collect a mandatory membership fee for a particular class or events which are part of a league or series. Collection of a mandatory Participation fee for the entire competition must follow GR1210.12.
3. If a competition wishes to limit entries into a class or section that is part of a League or Series, it must award the qualifying classes to licensed competitions on an equal basis or apply to the Federation Board of Directors for approval to set requirements to hold qualifying classes.
4. National and Zone HOTY points will not be awarded to any class or section with restricted entries. (Exception: Competitions approved by the Federation Board of Directors per the process below.)
5. Any Licensed Competition wishing to have HOTY points awarded for a class or section where entries are restricted must submit an application to the Federation at least ninety (90) days prior to the start of the competition where entries are restricted. If the class or section is part of a League or Series the application must be submitted at least ninety (90) days prior to the start of the qualifying period for the League or Series. ### **HJ126 Limiting Entries in the Hunter Division**

Hunter sections restricting entries based on winnings must use the Federation National Horse of the Year points or prize money won, whichever is applicable, as a means of qualification for the specified time period or, alternatively, must use the greatest number of Federation National Horse of the Year points won at a specified number of competitions within a specified time period. (Exception: Green Hunter 3'0", 3'3", 3'6", and 3'9", Young Hunter 3'0", 3'3", and 3'6", Green Conformation Hunter 3'6", High Performance Conformation Hunter, High Performance Hunter, Performance Hunter 3'6" and Performance Hunter 3'3" sections restricting entries based on winnings must accept 50% of the entries from the Federation National Horse of the Year points list and 50% of the entries from the Federation National Horse of the Year prize money won list. If an odd number of entries will be accepted, the Federation National Horse of the Year prize money won list will take precedence. The procedure for determining horses that qualify and their ranking will begin with the top placed horse on the Money Won standings list, then go to the top placed horse on the Points standings list, back to the second placed horse on the Money Won standings list, then on to the second placed horse on the Money Won standings list, continuing down both lists in that order until all available slots have been filled. If during this process a horse appears on either list that has already qualified, skip that horse and go instead to the next horse on the same list. Continue using this process until all slots are filled). Only points awarded in the particular section to count except in Amateur Owner, Adult Amateur, Children's Hunter, and Junior Hunter sections where points from both the younger and older sections shall be counted. If the Horse of the Year list has been exhausted and positions are still available, an alternate system may be used provided it has been published in the prize list or otherwise prior to the end of any specified time period. Whichever method is used, no other restrictive criteria can be imposed. The method chosen may be clearly stated. Management can allow the previous year's Champion and Reserve Champion or Champion to enter the section they were Champion or Reserve Champion in the previous year without qualifying. Management may allow the horse or pony that is leading for the respective Federation Zone Award in its Zone to enter that section.

The names of the measuring stewards will be **displayed** on the measurement card and they and other measuring officials may be subject to penalties per Chapter GR7 if it is subsequently determined that a measurement is incorrect.
9. Measurements are solely for the internal use of the Federation, its Licensed Competitions and its licensed officials in connection with competing for prizes, and do not constitute any representation or warranty regarding measurement information; accordingly, the Federation, its Licensed Competitions and its licensed officials make no representation and shall have no liability whatsoever for measurement errors.

11. Measurement forms received by the Federation that have inconsistencies or errors may be denied a measurement card at the discretion of the Federation. If the horse or pony is denied a measurement card, the Federation will notify the owner of the horse or pony and the horse or pony must be measured before they are eligible to show.

For ponies, with the exception of ponies under six years old, once a pony is issued a Standard Measurement card, a new card will not be issued unless the height of the pony is protested and upheld, or unless an appeal is made and the re-measurement results in the pony moving to a section other than that indicated on its current measurement card.
  - c. For horses, with the exception of horses under six years old, once a horse is issued a Standard Measurement card, a new card will not be issued unless the height of the horse is protested and upheld, or unless an appeal is made and the re-measurement results in the horse moving to a section other than that indicated on its current measurement card.

## CHAPTER HK - HACKNEY DIVISION

### SUBCHAPTER HK-1 GENERAL QUALIFICATIONS

#### HK101 Eligibility of Hackney Ponies

1. In order to compete, all Hackney Ponies must be registered with the American Hackney Horse Society and/or the Canadian Hackney Society. They must be entered in their full registered names, with registration numbers, and under the names of the owner(s) of record with the AHHS or the CHS. A copy of registration papers showing proof of ownership must be submitted with entry form at the time of making entry or presented to competition office before competition number will be released; competition management is responsible for notifying exhibitors of this requirement. A copy of the registration papers will be returned when exhibitors pick up their numbers, if requested. See GR1308.1d(6). Exception: Ponies shown in the Harness Pony section at a Federation Regular Competition prior to December 31, 1989. Ponies shown in Roadster Pony divisions at Federation Regular Competitions prior to December 31, 1991.
2. Membership Requirements.
  - a. Owners and trainers of Hackney Roadster ponies participating at Federation Licensed Competitions in the Hackney Division must be current members in good standing with either the American Hackney Horse Society or the American Road Horse and Pony Association.
  - b. Owners and trainers of ponies participating at Federation Licensed Competitions in all other sections of the Hackney Division must be current members in good standing with the American Hackney Horse Society.
  - c. Originals or copies of the above listed membership cards must be provided to the competition unless at its discretion the membership can be confirmed electronically with either the AHHS or the ARHPA office.
  - d. Lessees are considered owners in connection with these membership requirements. In the event of an entry under multiple ownership, only one owner need be a member of the required organization.
3. It is not permitted to make an entry in any class in the "name of pony". In classes with multiple animals, i.e. pair, all animals must be named.

#### HK102 Type and Conformation.

1. The Hackney is known as the "aristocrat of the show ring." The Hackney carries itself with an attitude which is seemingly explosive, with great expression. Its diversity and temperament allow it to be adaptable to any challenge. The Hackney is loved for its animation, vigor, endurance, personality, and strong natural way of going. However it is presented, its picture is one of beauty and animation.
2. GENERAL APPEARANCE. Overall view from the side, the animal can be divided into equal thirds: from the tip of the nose to withers; from withers to mid-loin; and mid-loin to tip of buttocks. Type: Symmetry, overall ease of identification as a Hackney. Quality: Bone clean, dense, fine, yet indicating substance. Tendons and joints sharply defined, hide and hair fine, general refinement. Temperament: Gentleness-disposition good; active, intelligent.
  - a. Head: carried relatively high; size and dimensions in proportion, clear-cut features, well-chiseled, straight face line.
  - b. Muzzle: fine; nostrils large; lips thin, trim, even.
  - c. Eyes: prominent orbit, large, full, bright, clear, lid thin.
  - d. Ears: small, fine, alert, out of top of head, pointed, set close.
  - e. Neck: supple, well-crested; throat latch clean; head well set on.
  - f. Shoulders: very long, sloping, yet muscular.
  - g. Forearm: long, broad, muscular.
  - h. Knees: straight, wide, deep, strongly supported.
  - i. Cannons: short, broad, flat, tendons sharply defined, set well back.
  - j. Pasterns: long, sloping, 45 degree angle with vertical, smooth, strong.

- k. Front Feet: round, uniform, straight, frog large and elastic, heels wide.
  - l. Front Legs: When viewed from front, a vertical line from the point of the shoulder should divide the leg and foot into two lateral halves; viewed from the side, the same line should pass through the center of the elbow joint and the center of the foot.
  - m. Withers: high, muscular, well-finished at top, extending well into the back.
  - n. Chest: medium-wide, deep.
  - o. Ribs: well-sprung, long, close.
  - p. Back: short, straight, strong, broad.
  - q. Flank: deep, long, full flank, not tucked, low underline.
  - r. Hips: broad, round smooth.
  - s. Croup: long, level, smooth, no goose-rump.
  - t. Tail: comes out high from back; well-carried.
  - u. Thighs: full, muscular.
  - v. Gaskins: broad, muscular.
  - w. Hocks: straight, wide, point prominent, deep, clean-cut, smooth, well-supported.
  - x. Cannons: short, broad, flat, tendons sharply defined.
  - y. Pasterns: long, sloping, smooth, strong.
  - z. Back Feet: back slightly less round than in front; uniform, straight, sole concave, frog large and elastic, heels wide and full.
  - aa. Back Legs: viewed from the rear, a vertical line dropped from the point of the buttock should divide the leg and foot into lateral halves; viewed from the side, the same vertical line from the point of the buttock should touch the hind edge of the cannon from the hock to the fetlock.
3. CONFORMATION PROPORTIONS.
- a. HEAD: Should be well-shaped and in proportion in size to the size of the animal. The eyes should be large and set wide apart. The ears should be well shaped, set somewhat close together on top of the head and carried alertly. The face should be straight with a fine muzzle, large nostrils and a clean smooth jaw line with the mandible set wide apart - for good air passage.
  - b. NECK: Should be set on top of the shoulder with a definite demarcation where it arises from the chest and also where it attaches to the withers. The top line on the neck should be considerably longer than the under line with a fine throat latch and long poll to facilitate attractive head carriage.
  - c. BODY: The shoulder should be long and well angulated with prominent, well defined withers. The back should be somewhat level with a shorter top line than under line. The hip should also be long with a fairly flat croup and high-set tail carriage.
  - d. LEGS: The front legs should be attached well forward beneath the point of the shoulder. They should be straight with a long forearm and short cannon bone. The pasterns should have sufficient length and angulation to provide a light, springy step. The hind legs should also be set on the "corners" of the body with a long gaskin and short cannon bone. A slight "sickle hocked" appearance is not undesirable and the hock and knee should be approximately the same distance from the ground.
  - e. HOOVES: These should be in proportion to the size of the animal, open at the heel with a concave sole. A slight toeing out is not objectionable.
  - f. VIEW FROM THE FRONT: Chest should be of moderate width. Front legs should be perpendicular to the ground. A straight line through the forearm to the center of the knee to the center of the coronet band is preferable.
  - g. VIEW FROM THE SIDE: The top line represents a curve from the ears and poll to the back, giving the impression of the neck sitting on top of the withers rather than in front of them; continuing to a straight back with a relatively level croup rounding to a well-muscled buttock. Tail should be attached high; at maturity the croup should not be higher than the withers. The underline should be longer than the top line, and the body should be deep through the heart, girth and flank. The front legs should be straight and perpendicular to the ground and attached to the point of the shoulder. From the view from the side, the animal can be divided into equidistant thirds; one-third from the tip of the nose to withers; one-third from withers to mid-loin and one-third from mid-loin to tip of buttocks.

- h. VIEW FROM THE REAR: Croup should be well rounded, thighs and gaskins well muscled. The gaskins should be relatively long in relation to the cannons.
4. TO BE PENALIZED. Lack of Hackney type, coarse or plain head, Roman nose, lop ears, pig or small eyes, short neck, straight neck, ewe neck, thick throat latch, fat withers, swayback or roached back, straight shoulder, crooked legs, calf knees, over at the knees, bow legs, straight pasterns, extreme splayfeet or pigeon-toed, contracted heels, base stance too wide or too narrow, sickle hock, extreme cow hocks, lack of muscle tone, thinness, obesity, rough coat, over all lack of conditioning. These and any other defects attributable to heredity must be penalized. Horses and ponies must be serviceably sound, i.e., must not show evidence of lameness or broken wind.
  5. VARIATIONS TO THE IDEAL. With the natural variations of type within the breed, some Hackneys do not conform to the ideal, but are perfectly suited to various kinds of competition. If they meet all other requirements for a particular event or discipline, they should not be penalized too severely. In the event an animal has lost the sight in one eye, it may still be shown. Contacts are allowed for cosmetic purposes but not to enhance performance.

## HK103 Height

1. For competition purposes, the maximum height of Hackney ponies is 14.2 hands and the maximum height of Harness ponies is 12.2 hands. Competitions may add a new division for those Harness ponies 48 inches and under. See HK137.2 for maximum height of Roadster ponies.
2. Ponies shown in the Harness Pony and Roadster Pony sections must possess a current measurement card or valid measurement form issued by the Federation. (See GR502). **Exception: A Federation measurement card or form is not required for entry into Lite classes restricted by the height of the horse or pony. However, horses and ponies must be within the correct height range when competing in classes restricted by height.** The measurement of Hackney Pleasure Ponies and Hackney Ponies will not be necessary unless the classes are divided according to height.
3. In Pair classes a difference of one-half inch in the height of the two ponies is allowable without penalty. If the difference exceeds one-half inch, it will count against the entry. In a class where height is part of the specifications, such as Pairs not exceeding 13 hands, if two ponies are only one-half inch apart and one is within the height specified, the pair is eligible to compete. If one pony exceeds the limit by more than one-half inch the pair is ineligible. Such a pair is eligible in only one height division. The same provision applies in a class where the specifications call for Pairs over a specified height.
4. The animal should be standing with its front legs perpendicular to the ground. Ideally the animal's head should be lower than its withers. This easily locates the highest part of the withers where the measurement should take place. Handlers must not interfere with the animal in any way that will prevent it from standing in the correct position; blinkers may be allowed.

*BOD 06/17/24 Effective 12/01/24*

## HK104 Judging

1. OPEN, MARES, STALLIONS, GELDINGS, MAIDEN, NOVICE, LIMIT, GENTLEMEN and OWNERS. The OPEN pony should be the ultimate representative of the breed. It should be as nearly perfect as possible; performing all gaits with animation, brilliance and extreme action at both ends. Performance is paramount in these classes. Classes are judged on performance, presence, quality, conformation and manners.
2. FOUR YEARS OLD OR UNDER. STALLIONS, MARES, GELDINGS. To be judged on performance, presence, quality, conformation and manners.
3. LADIES. (Open to mares, stallions and geldings) A Lady's pony should be outstanding in refinement and elegance with suitability of pony to driver taken into consideration. Expression is important and quality is a prime consideration. The execution of the gait should be performed with brilliance on command. The pony must stand quietly and back readily. Classes are judged on manners, quality, suitability, performance, and conformation.

4. JUNIOR EXHIBITORS. (Open to mares and geldings) Manners are paramount in these classes. Ponies should display a willingness to perform, suitability and balanced action. The execution of the gait should be performed with brilliance on command. The pony must stand quietly and back readily. No stallions are permitted in Junior Exhibitor classes. Classes are judged on manners, suitability, quality, performance and conformation.
5. AMATEURS. (Open to mares, stallions and geldings) The Amateur ponies may be a bit stronger and perform in a bolder manner. More action and animation are desired and less emphasis may be put on manners than in Ladies or Junior Exhibitor classes. Ponies must stand quietly and back readily. Classes are judged on manners, performance, quality, presence and conformation.
6. In all Ladies, Amateur, Junior Exhibitor and Pleasure classes the judge(s) must walk the lineup. If a judging panel is being used to officiate these classes, all judges must comply with this rule.

## **SUBCHAPTER HK-2 CONDUCT**

### **HK105 General**

1. Attention getting devices &/or other noisemakers (including but not limited to tape measures, blow horns, bamboo poles, baby powder, whips longer than 6', etc.) are not allowed in and around the make up/schooling/warm-up and competition rings during scheduled competition sessions. Use of explosives and fire extinguishers (except in the case of fire) is not allowed on competition grounds at any time. All such items will be confiscated and offenders will be reported to the Federation. (See also GR839)
2. Stallions are prohibited in Junior Exhibitor classes. Stallions may be shown in classes restricted to Lady drivers, except in the Pleasure section where stallions are never permitted.
3. Maiden/Novice/Limit classes are open to ponies that have not won one/three/six first place ribbons respectively at Federation Licensed Competitions. Ribbons won in classes with only one entry will not count in determining Maiden, Novice or Limit status. Ribbons won within one section (i.e. Hackney Pony, Harness Pony, Roadster, Park Pleasure Driving, Show Pleasure Driving, Country Pleasure Driving) do not count in the reckoning of Maiden/Novice/Limit status if the pony competes in a different Hackney section. However, ribbons won in the Roadster Pony section of the Roadster Division will count towards the maiden/novice/limit status of Hackney Roadster ponies.
4. Hackneys must be serviceably sound. Horses and ponies who show evidence of lameness or broken wind must be severely penalized.
5. Shoeing- to be directed to improving the comfort, balance, and soundness of the pony or horse. Labored way of going due to shoeing to be penalized.
  - a. Pads and wedges- are permitted to protect the feet and limbs from the impact of the pony or horse's natural gait, and maintain the integrity of the hoof wall. Exceptions: see Country Pleasure Driving section.
  - b. Bands- protective hoof bands are permitted to protect the integrity of the hoof and prevent the loss of a shoe resulting in trauma to the hoof. Exceptions: See English Country Pleasure Driving sections.
6. Ponies and horses may be shown with unset tails in any class without penalty.
7. Surgical release of only the ventral sacrocaudal muscle is allowable if performed by a licensed veterinarian.
8. No pony or horse may compete in a class in the Hackney Division with any chemical or other irritant of any kind present to alter the tail carriage.
9. Ponies or horses showing signs of inhumane treatment will be eliminated from competition.

### **HK106 Amateur Owner Trainer - AOT**

1. Every competitor must be an amateur and the owner, or an amateur member of the owner's family.
2. Classes may be offered in any section and specifications must follow those of the amateur class within that section. Riders, drivers, attendants, and headers must meet the specifications for amateur status (refer to GR1306 and GR1307).
3. Ponies are not to have been professionally trained and/or shown by a professional for a period of 60 days prior to the competition (riding and driving instruction for the owner to be excluded).

4. Ponies are not to be exhibited, prepared, groomed or schooled with the aid of or by a professional while on or off the competition grounds immediately before or during the competition. Assistance by other amateurs is permitted. Horses may be stabled with a professional during the competition, and hauled by a professional. Professional help for situations relevant to safety is permitted.
5. Owner must sign as owner, trainer, and rider/driver/ handler on the Federation entry blank.
6. Horses must be registered with the American Hackney Horse Society in the name of the competitor or a member of the competitor's family, as defined by GR123 (Horses registered in a farm/ranch/syndicate/partnership/corporation name may be shown in AOT classes provided the family is the sole owner of the farm or entity as defined by GR123. The sale of a horse does not eliminate this registration requirement. (Contracts of Sale or Bill of Sale will not be accepted)
7. Combined ownership is not permitted in AOT classes unless all owners are members of the same family. Leased horses are not eligible.
8. AOT classes may be restricted to riders, drivers or handlers who are no longer eligible to compete as a junior exhibitor.

### **HK107 Requirements for Competitions**

1. In Hackney performance classes when the judge calls for the line up, exhibitors must continue in the second direction to bring their entries to the line up. Judge(s) shall penalize entries that do not comply.
2. All futurity classes are unrated classes. Procedures for conduct of futurity classes must be printed in the prize list or the Show Committee may state these classes are run under the same specifications as Federation rated classes.
3. UPHA Classic classes are run under the same specifications as Federation Hackney Division rules.
4. Ponies are not to be lined up head-to-tail in performance classes. All awards must be made from the lined up position and entries must not be asked to retire to the end of the ring. Classes shown in-hand may be lined up head-to-tail or as directed by the judge.
5. It is recommended that competition management offer Amateur Ladies and Amateur Gentlemen's classes qualifying for an Amateur Championship. If an Amateur Lady to Drive class is offered, competition management must also offer an Amateur Gentleman to Drive class as well and vice versa. A Junior Exhibitors class is optional.

### **HK108 Cross Entering**

1. A pony may be shown in only one of the six sections of the Hackney Division (Hackney Pony, Harness Pony, Hackney Roadster, Park Pleasure Driving, Show Pleasure Driving, or Country Pleasure Driving) at the same competition.
2. Ponies competing in Hackney Roadster Pony classes within the Hackney Division may enter Roadster Pony classes within the Roadster Division at the same competition. However, a pony shown in the Hackney Pony, Harness Pony, or Pleasure Pony sections within the Hackney Division cannot enter a Roadster Pony class within the Roadster Division at the same competition.

### **HK109 Time outs and Workouts**

1. Any exhibitor stopping during a class for any minor adjustment, other than a time out, will be eliminated. An exhibitor is entitled to request only one time out per class including workout. (See GR833.)
2. All ponies shall be worked both ways of the ring at all required gaits as directed by the judge(s). Workouts will be judged as a separate class and ponies must be tied for placings being considered in that workout. Workouts may be called for by the judge(s) for any or all placings. All ponies chosen for a workout must be worked both ways of the ring at any or all gaits listed in the class specifications that are requested by the judge(s) with the exception of Roadster Ponies (see HK139).

## **HK110 Division of Classes**

1. It is required that classes with 16 or more entries be divided into separate sections. Pony classes can be divided by height of pony, sex of pony or driver, or age of driver or at competition management's discretion. If divided, the prize money must be doubled and separate trophies and ribbons awarded.
2. It is strongly recommended that all pleasure pony classes be divided at 16 entries. It is recommended that classes be divided as to height of pony, age of driver or sex of pony if there are a large number of entries anticipated.

## **HK111 Championships**

1. When time allows, Championship classes should be offered for driving and riding classes.
2. Entries in Hackney division championship classes need not be named until \_\_\_ hours (time to be determined by competition management) before the scheduled time of class, at which time the names and description of entries must be made in writing by owner or their agent.
3. If an amateur ladies class is not offered, amateur ladies showing in the open ladies class will be qualified for the amateur championship.

## **HK112 Attendants**

Attendants, suitably attired, will be permitted in all classes but only in Ladies, Amateur, Junior Exhibitor and multiple hitch classes will attendants be permitted to stand inside the gate. This attendant must take no action that will affect the performance of any pony. Only one attendant is allowed to head a pony. Exception: Hackney Roadster Ponies, see HK139.

The use of chains or rollers as action devices on the competition grounds during or before a competition is prohibited.
4. Electronic communication devices used for purposes of coaching, etc., between competitors and individuals outside the ring shall be prohibited in all classes in the Hackney Division. Exempt from this rule are handicapped drivers/riders who have submitted written proof to the Federation steward.

## **SUBCHAPTER HK-3 BREEDING CLASSES**

8. One attendant must be permitted to stand inside the gate while a ladies, amateur or junior exhibitor class is in progress and only one attendant is allowed to head a horse. An exhibitor is entitled to request only one five minute time out per class including workout. (See GR833).

## **HK147 Hackney Horse Class Descriptions**

1. LADIES HACKNEY HORSES, MARE OR GELDING, SHOWN TO A PHAETON. Manners shall be considered paramount. The horse must show all-around action at a Park Trot and should never be driven any faster. It must stand quietly, remaining checked while lined up, and back when required to do so. The Lady's horse must be driven in the Half Cheek and appear to have a perfect mouth. The horse should be notable for beauty, quality and presence, and should be of solid color without flashy markings. To be judged on manners (paramount), quality and performance.
2. GIG CLASS. For single Hackney horses, stallions, mares or geldings. Size of gig to be in proportion to size of horse shown. A gig horse should have presence, all-around action and be able to do a good pace, but excessive speed should not be required. After the contestants have made an appropriate number of rounds of the ring (depending on arena size) at the trot, horses should be asked to show in turn a walk, a park trot and a smart trot. All horses should be asked to back. To be driven by an amateur. To be judged on presence, manners, quality and performance. (See HK148.2 for appointments).
3. PAIRS—MAIDEN, NOVICE, LIMIT, OPEN, LADIES. See description of respective classes for single horses. In addition to performance, etc., pairs should be mated as closely as possible as to the size, color, type and way of going. In pair classes, a difference of one half inch in the height of the two horses is allowable without penalty. If the difference exceeds one-half inch, it shall count against the entry. In a class where height is part of the specifications, such as pairs under 15.2 hands, if two horse are only one-half inch apart and one is within the height specified, the pair is eligible to compete. If one horse exceeds the limit by more than one-half inch the pair is ineligible. The same provision applies in a class where the specifications call for pairs over a specified height.
4. TANDEM. To be shown to a Gig or other appropriate two-wheeled vehicle. The wheel horses should be of proper size for the shafts and to possess substance and power for the work in hand, with some action. The lead horse to be slightly smaller than the wheel horse, notable for brilliance of action and beauty. A smart leader is essential for a good tandem. Horses need not be eliminated for variance of color but uniformity of color is to be considered. To be shown at a walk, park trot and a smart trot. Horses should be asked to back. To be judged on performance, quality, manners (suitability).
5. COLLECTION OF THREE HACKNEY HORSES. To be shown in single harness or as a pair and a single. Each animal to be the bona fide property of the exhibitor. Exhibitors need not describe animals when making entry. To be judged on performance of horses as a unit, and ability to maintain proper distance between horses, uniformity and quality. Each exhibitor to give a solo performance of their three horses as a unit, both ways of the ring. The prize list should indicate whether entries are to be shown singly or as a pair and a single.
6. SELECTION OF THREE HACKNEY HORSES. Each animal to be the bona fide property of the exhibitor. Exhibitors need not describe animals when making an entry. The prize list should indicate whether entries are to be shown singly or as a pair and a single. Each exhibitor to give a solo performance of their three best animals of one exhibitor without regard to uniformity. This class is offered either as an alternative or in addition to the Collection class (See HK147.5 above).
7. FOUR-IN HANDS.

- a. Park Drag of solid color to be drawn by four matched horses with park harness, including brass hames, black collars, two servants in livery. To be judged on performance, quality, manners, uniformity and appointments.
- b. Road Coach, of bright and often varied colors, to be drawn by a team not necessarily matched as to color; road harness with steel hames and links and brown collars. Must carry a guard in livery. To be judged on performance, substance and appointments. Appointments include: extra collar, traces, reins, brake shoe, quarter blankets and coolers, rubber coats, lap robes, water pail, tool kit, umbrella basket and extra lead bars.

## HK148 Appointments

1. LADIES PHAETON. A George IV, Peter's Phaeton or, in the summer, a Brewster Basket Phaeton may be used. The appointments of the phaeton should include a lash whip, with leather gloves, card case, lap robe, cooler, two rain coats, wheel wrench, umbrella and cover for servant's hat. A dash clock is optional. The horse's mane should not be braided. It should be borne in mind at all times that extreme smartness and perfection should be the aim in horse, harness, vehicle and servant. The pad should be heavier than the one used in classes for other four-wheeled show wagons as the phaeton, being a very heavy vehicle, naturally requires a stronger pad; standing martingale, Buxton bit and breeching and bearing rein are compulsory.
2. GIG CLASS. The gig most commonly used is the "Park Gate" gig. Other gigs which may be used are the "Very Spicy", "Stanhope" and "Tilbury". The latter requires a horse of great presence and lofty action. The horse's mane should not be braided. Harness: Kay collar, standing martingale and kicking strap. The gig bit with plain bridoon and short bearing rein is a trifle more proper, but the Buxton bit and full bearing rein may be used. The saddle pad should be heavier than that used in four wheel show wagons. To be driven by an amateur.
3. GROOM. The Groom may be either a footman or a coachman. If the former, they must wear a single breasted coat with six buttons in front and six on the coat tails, full striped waistcoat, silk hat, tan driving gloves, boots with tops of mahogany, tan or pink, the latter being the smarter, coachman's collar and flat white ascot tie. The footman should be smart looking, active and not tall or heavy. Their coat and breeches should show that they were made for them. The coat should be either black or should be the same color as the upholstery of the gig. Their boots should fit perfectly and the tops should fit close to the leg. The general appearance of the groom should be extremely neat. A coachman is similarly turned out except that they wear a coachman's coat, six buttons in front and four on the coat tails.

## HK149 Class Descriptions

1. Entries in various classes of the Hackney Division are judged on some of the following qualifications: Appointments, Soundness, Conformation (build), Substance, Performance, Uniformity, Manners, Presence, Quality (fineness).
2. The particular qualifications for each class are hereinafter set forth in each class the order of precedence indicates how the emphasis is to be placed in adjudication. In the following class specifications, which are mandatory, all underscored material is optional. Any class may be confined to exhibitors within a desired area by prefixing "local" to the class title and clearly describing the area involved (i.e., "Open to horses owned and stabled within ( ) miles of the competition grounds").
3. Entry fees, trophies and cash awards should be indicated in class specifications. If classes other than herein described are offered, extreme care should be exercised in the proper wording of the specifications.

Wrong leads and cross leads are serious faults.)
6. The mane can be long and natural, pulled, short, braided or roached. The tail may be long or have the appearance of being short. Although artificial appliances are permitted to maintain a tail set in the driving classes, a natural tail set is encouraged, and artificial hair/tail caps are discouraged.

## **HK153 Pleasure Hackney Horse - Under Saddle**

1. These classes provide opportunities to show the Hackney Horse's stylish suitability as a riding horse, with distinct versatility within the breed. Martingales are prohibited in all Pleasure Hackney Horse under saddle classes.
2. PLEASURE HACKNEY SPORT HORSE, UNDER SADDLE. To be shown either under dressage tack (dressage saddle and snaffle or weymouth bridle,) or hunter tack (hunt saddle and snaffle, kimberwicke or

pelham bridle.) The horses will be ridden both directions of the arena, at the flat walk, working trot, lengthened trot, and canter. To stand quietly and rein back willingly. To be judged on manners, purity of gaits, suitability, and performance. This Hackney Horse shall be suitable for Dressage or Hunting. The gaits should be calm, progressive, and pure in cadence. The walk should be free, ground-covering, and purely four beats. The trot should be calm and progressive, with a specific two beat cadence. A change of frame should be noted when moving from the working trot to the lengthened trot, with the horse's frame showing a lengthening throughout, as well as an obvious lengthening of stride. The lengthened trot shall not be a faster version of the working trot. The canter should be calm, forward, straight and purely 3-beat. Wrong leads and cross leading are serious faults. This Hackney Horse does not need the extravagant action of the Country Pleasure Hackney Horse or the Park Hackney Horse. Progression of the strides is more important than high movement, although natural lofty, square movement is always to be considered an attribute of the Hackney Horse. Rushing or excessive speed in any gait is a fault. The Pleasure Hackney Sport Horse's frame need not be as upright as the Country Pleasure Hackney Horse or Park Hackney Horse's frames, and the body should show a freedom to easily change frame for the various gaits.

3. PLEASURE HACKNEY HORSE, COUNTRY PLEASURE, UNDER SADDLE. To be shown under Saddle seat tack (English-type saddle and show snaffle, weymouth or Pelham bridle.) No forward-seat saddles allowed. The horses will be ridden both directions of the arena, at the flat walk, working trot and canter. To stand quietly in the lineup, and rein back willingly. To be judged on manners, purity of gaits, suitability, and performance. This Hackney Horse shall demonstrate the classic way of going the breed is noted for. The Country Pleasure Hackney Horse is distinguished from the Pleasure Hackney Sport Horse by an upright frame, and by a significant generosity of knee and hock lift, resulting in high, lofty, eye-catching action and faultless cadence. Forwardness of the gaits, although important, shall not compromise high, square action in the trot and canter. Although this elegant action is not the only requirement of this class, it is an important element of this particular class. The canter should be calm, forward, straight and purely 3-beat. Wrong leads and cross leading are serious faults.
4. PLEASURE HACKNEY PARK HORSES, UNDER SADDLE. To be shown under Saddle Seat tack (English-type saddle and show snaffle, weymouth or pelham bridle.) No forward-seat saddles allowed. Girth should be either leather, web, string or suitable material. Nosebands must be cavesson-style. No flash, dropped, figure-8 or other non-cavesson style noseband permitted in these classes. The horses will be ridden both directions of the arena, at the flat walk and show trot. To stand quietly in the lineup. To be judged on manners, purity of gaits, suitability, and performance. This Hackney Horse shall demonstrate the classic way of going the breed is noted for. The Pleasure Hackney Park Horse is distinguished from the Pleasure Hackney Sport Horse by an upright frame, and by a significant generosity of knee and hock lift, resulting in high, lofty, eye-catching action and faultless cadence. ## **HK154 Pleasure Hackney Horse - Breeding Classes**

1. Open to stallions, mares, and geldings of all ages, registered with the American or Canadian Hackney Horse Societies. The following two sections, Conformation and Quality and Movement/Way-Of-Going, contain the standards to use when judging the Pleasure Hackney Horse entries in Breeding Classes.
2. TYPE, CONFORMATION & QUALITY STANDARDS
  - a. When standing, the Hackney Horse should have its head and neck raised, expressing the alert and active character of the breed.
  - b. The head should have a straight or slightly convex profile with clear, intelligent eyes set fairly wide apart; the ears should be well-formed and active.
  - c. The neck should be of moderate length, with more or less crest according to age and sex.
  - d. The poll should be of good length.
  - e. The throat should be fine so that there is no restriction of the air passages when bridling.
  - f. The neck should be well attached to reasonably high withers set on powerful, obliquely sloping shoulders.

- g. A fairly long back is not objectionable in a mare.
  - h. The upper line of the croup from the loins to the tail should form a convex curve with the tail well carried.
  - i. Viewed from the front, the chest should be of ample but not excessive width, while from the rear the quarters and gaskins must be well muscled.
  - j. The legs should have plenty of clean, flat bone with the tendons clearly defined. Excessive fineness of bone, especially any tendency to be “tied in below the knee” is objectionable in the Hackney Horse.
  - k. The forelegs should be attached well forward, beneath the point of the shoulder.
  - l. The forearms should be long and well developed while the cannon bones should be short and clean, with plenty of good, flat bone.
  - m. The pasterns should be sufficiently long and set at the proper oblique angle to provide a light and springy step.
  - n. From the side the forelegs should not show any tendency to be “back or over at the knees.”
  - o. From the front they should be seen to be upright without any turning out or in of the pasterns.
  - p. The hind legs should be of good length from the stifles to the hocks with short cannon bones.
  - q. The hocks should be well formed and not be too upright when the horse is standing at ease.
  - r. The hooves should be well rounded, in front forming an angle of about 50 degrees with the ground at the toe. The hind hooves will form a rather more upright angle. The hooves should be open at the heels and have concave soles.
  - s. Quality may be defined as a well-balanced physique with clean limbs; it is also expressed in a generous and alert demeanor which may be emphasized by good presentation.
3. MOVEMENT/ WAY-OF-GOING STANDARDS
- a. When shown in hand, a true, four-beat walk is expected. This should be straight with the forelegs well extended and the hocks flexed in a stride that has the hind feet over striding the imprints made by the forefeet.
  - b. To achieve this in most cases it is necessary to give freedom of movement to the horse’s head which, in the case of entries, may mean letting out the side reins.
  - c. The trot in hand should show well rounded front action, taking a stride of good length with the hocks flexed and following through. Dishing or crossing of the forelegs should be penalized. Straight action is most important in breeding classes as defects in this regard can be hereditary.
  - d. The front action should be lofty and well rounded with no tendency to brush the elbows. It must also be straight and true, and the front feet must be placed squarely on the ground. Dropping on the heels is faulty.
  - e. The hind legs should be well flexed and brought forward under the body with a piston like action. Dwelling of the hocks in a flexed position is undesirable.
  - f. Excessive speed at the trot is not wanted, the aim being to give a well-balanced performance presenting a pleasing picture of poise and elegance.

### **HK155 Pleasure Hackney Horse Breeding Classes—General Specifications**

1. To be shown in-hand at a walk and trot. To be judged on conformation, type, quality, way-of-going, manners/disposition, and performance. All entries must be serviceably sound. Please see Class Description for order of criteria.
2. Weanlings may be shown with dam at side.
3. Weanlings and yearlings to be shown in a halter. Leather halter is preferred.
4. Two years and over horses to be shown in one of the following: halter and lead, or a dressage bridle, hunt bridle, or weymouth bridle, with a snaffle bit, curb bit, pelham bit, or snaffle and curb bit.
5. Only stallions 2 years and over may be shown in stallion tack, which is optional.
6. Horses less than two years of age must be shown barefoot. Horses two years of age and older may be shown shod or barefoot.
7. Breeding in-hand classes for geldings may be offered. To be shown and judged under the same criteria as colts, fillies, mares, and stallions. When colts or stallions and geldings are judged together, the class

specifications will be used, except that geldings shall not be penalized for lack of ability to be a breeding animal.

8. Show Committees are urged to offer separate classes for colts, fillies, stallions, mares, and geldings, when possible, with classes to be combined if entries warrant such.
9. Geldings and stallions classes may be combined.
10. Show Champions and Reserve Champions will be selected as outlined in GR810.
11. Only two handlers per animal are permitted in the ring. Handlers must be neatly and appropriately dressed in clean and well-fitted clothes. Each may carry or use a whip not exceeding 6' including lash; must be a standard whip of suitable style.
12. Horses to enter the ring at the walk and to remain walking unless directed to the contrary by the ring steward or judge.
13. Each horse must be stood up squarely on all four feet to be individually judged. The horse is then trotted, to be viewed from the side, in accordance to the Judge's directions.

### **SUBCHAPTER HK-17 YOUTH SHOWMANSHIP IN HAND**

#### **HK157 Appointments**

1. Weanling—Leather show halter with matching lead strap. Prohibited: all bits on weanlings.
2. Yearling—Leather show halter or snaffle bridle with matching lead strap. Prohibited: Curb bits on weanlings and yearlings.
3. Two-Year-Olds & Older—Double bridle or curb alone. If a double bridle is used, the snaffle rein may be removed. If the snaffle rein has not been removed, it should be placed over the pony's/horse's withers. The pony/horse is led and presented with the curb rein only.
4. Only a riding whip is permitted, but no appendages such as plastic or ribbon may be used. Prohibited: Noise makers, clumps of grass, clickers, quarter boots, blinkers or other appliances.
5. Correct attire: Neat dark slacks (jodphurs are optional), light colored shirt, tie, and gloves; vest are optional. Protective headgear is permitted in Youth Showmanship In-Hand classes. Clothes and person should be neat and clean. (See GR801).

## HK158 Judging Procedures

1. Entries should enter the competition ring at the gait requested and lead in the direction indicated by the ringmaster until asked to line up the pony/horse for inspection. A distance of at least ten feet (about two lengths) should be maintained between entries, both in circling the ring and in the line-up.
2. The pony/horse must stand squarely with weight distributed on all four feet, hooves pointed straight ahead and with the front legs perpendicular to the ground. The pony's/horse's feet may be moved by pulling/pushing on the lead rein as necessary, along with putting the hand on the shoulder and exerting pressure if required. To be penalized: Using a foot or a whip to move the pony's/horse's feet.
3. The handler should be positioned in front of the pony/horse in such a way as to be able to see the animal and present a full view of the pony/horse to the judge, being careful to stay out of the judge's way. The handler should observe both the pony/horse and the judge at all times and not be distracted by persons or objects outside the ring.
4. The lead shank/rein should be held in the right hand about 12 to 24 inches from the halter or bit. The other end should be neatly held in the left hand. It is permitted to change hands if it is more convenient to put the pony/horse in position or while showing to the judge.
5. The handler's body should be well-balanced so as to permit free movement and the proper presentation of the pony/horse. Fluidity of motion and a flexible position to work the pony/horse are essential.
6. When the judge is down the line or is looking at another entry, the handler should stand at the pony's/horse's head on the opposite side of the judge as much as possible. Instructions should be followed promptly and sharply. It is permitted to adjust or mildly correct the pony/horse.

## HK159 Workouts

1. An acceptable standard pattern for the mandatory individual workout:
2. The handler should stand to the pony's/horse's left and move off on a loose rein if possible, leading from the left side. A light touch of the whip is permitted, if necessary. The pony/horse should move out briskly and in a straight line. When moving away from the judge, the pony/horse should be kept in line with the judge so the pony's/horse's movement can be observed. The pony/horse should be brought to a complete stop at either end of the line before turning. The pony/horse should be turned to the right, away from the handler, at the end of the line.
3. When the judge is observing other ponies/horses, the pony/horse should stand reasonably well-posed. The handler should appear alert and showman like until the entire class has been placed and the judge has submitted their card.
4. The handler should be natural and avoid overshadowing, undue fussing and maneuvering, and respond promptly to requests from the judge or other officials. Courtesy and good sportsmanship should prevail at all times.
5. TO BE PENALIZED: Incorrect or dirty attire; poorly groomed and trimmed ponies/horses; incorrect or dirty equipment (i.e., keepers out, twisted cheek pieces, etc.); overuse of whips or reins; interfering with other exhibitors; overcoaching from outside the ring; exaggerated, stiff or rigid position; not following instructions. NOTE: 4-H regulations may differ from the above. If you are showing in 4-H Showmanship classes, please consult local 4-H rules.

## **SUBCHAPTER HU-2 COMPETITION REQUIREMENTS**

### **HU102 Competition Requirements – Rider or Handler**

In order to compete in any Hunter, Hunter Breeding, Pony Hunter Breeding, Junior Hunter, or Pony Hunter classes at licensed competitions as an exhibitor, rider, trainer, or their agent(s), a person must be an Active member of the United States Hunter Jumper Association, Inc., or pay a Show Pass fee to the United States Hunter Jumper Association, Inc. Exception: Local Competitions, competitions restricted to a particular breed, classes restricted to breeds with Federation Recognized National Affiliate status, and exceptions listed in GR901.9.

### **HU103 Competition Requirements – Horse & Pony**

1. USHJA Horse Registrations.
  - a. All horses competing in Federation licensed and/or USHJA sanctioned competitions with Hunter, Hunter Breeding, Jumper and Hunter/Jumping Seat Equitation classes (except those activities enumerated in GR901.9, items 1-9) not restricted by breed must be properly identified in accordance with GR1101, and must also be registered with USHJA (see GR1101.1). Any change of a horse's name and/or ownership must be recorded with Federation and USHJA in accordance with GR1105 and GR1107. The USEF/USHJA registration number for each horse must be entered on all entry forms for licensed competitions.
  - b. Applications for USHJA Registration can be completed online at [www.ushja.org](http://www.ushja.org) using the USHJA Horse Registration application form. This form is also available from the USHJA office, as a download from the USHJA website or from competition management. Competition management is responsible for notifying exhibitors of this requirement in their prize list.
2. The Hunter Division is open to horses, stallions, mares or geldings. (For rules pertaining to exhibitors who are 18 years of age or older riding ponies, see HU101)

### **HU104 Microchipping**

1. In addition to the provisions of HU103.1, on or after December 1, 2017, all horses competing in classes that require USHJA horse registration must provide a microchip number that verifies their animal's identity in order to compete for points, money won or be eligible for Federation and/or USHJA programs and awards where horses are required to be recorded or registered.

3. This rule will have a transition period from December 1, 2017 to November 30, 2018. During this period, animals that are not in compliance with this rule will not receive points or be eligible for Federation and/or USHJA programs and awards. After this period, all horses that are competing in classes which require

USHJA registration which are not microchipped will be ineligible to compete in Federation licensed competitions. Exceptions: USHJA Outreach and those activities enumerated in GR901.9, items 1-9.

## **SUBCHAPTER HU-3 ATTIRE, TACK AND EQUIPMENT**

### **HU105 Tack**

1. Snaffles, pelhams and full bridles, all with cavesson nose bands, are required.
  - a. Judges may penalize, but may not eliminate, a horse or pony that competes in a snaffle, pelham, or full bridle that is unconventional. Unconventional snaffles, pelhams, or full bridles include, but are not limited to, hunter gags, kimberwickes, etc.
  - b. Judges must eliminate a horse or pony that competes in illegal bits or nosebands. Illegal bits include, but are not limited to, three rings, gags (other than the hunter gag), et cetera... Illegal nosebands include, but are not limited to, drop, flash and figure eight nosebands.
2. Curbs: When using a curb with any leverage bit, it must be constructed of loose links, joints, and/or lie smooth against the jaw of the horse and be free of twists, sharp objects or anything inhumane. A curb may be wrapped or inserted into a cover for the comfort of the horse. A curb may not be used in conjunction with wire, metal, rawhide, metal "keepers", or any other substance except for attachment of curb to the bit.
3. Horses must return to the ring for conformation or soundness wearing a snaffle, pelham or full bridle with a cavesson noseband.
4. Martingales of any type are prohibited in under saddle, hack and tie-breaking classes. Standing and running martingales used in the conventional manner are allowed for all over fences classes. All other martingales are considered illegal. A judge must eliminate a horse or pony that competes in a martingale other than a standing or running martingale used in the conventional manner.
  - a. Cable or metal tie downs are prohibited for use on horses and ponies.

### **HU106 Equipment**

1. Light pads and bar shoes are permissible, however, bar shoes indicate a weakness and in Conformation classes a judge may penalize accordingly. All artificial appliances, including but not limited to nasal strips, nose nets, belly bands, boots, wraps and bandages are prohibited. In the case of inclement weather competition management may permit the use of bell boots.
2. Electronic Communication Devices
  - a. No mounted exhibitor may wear or carry an electronic communication device (i.e., cellular telephone, pager, walkie talkie, iPod, etc.) while in the competition ring. The penalty for wearing or carrying a forbidden device if observed by the judge may be elimination from the class during which the device was worn or carried.
  - b. Electronic communication devices used for purposes of coaching, etc., between competitors and individuals outside the ring shall be prohibited in all classes.
  - c. Exhibitors who have a chronic condition may apply for a Presidential Modification exempting them from the provisions of this rule in accordance with GR153. Riders may not use these devices in over fences classes.
  - d. An exhibitor who has a chronic condition and has previously been granted at least one annual Presidential Modification related to the condition, may submit an application for approval of a special three-year Presidential Modification related to the same condition. The application must be accompanied by sufficient supporting documentation that the condition is unlikely to improve during the three-year period.
3. Any rider competing and or riding anywhere on the competition grounds with their stirrup, stirrup leather, or foot tied and/or secured in any manner, will automatically be eliminated from the entire competition. The steward will note the trainer name(s) on the steward's report and further disciplinary actions may be taken by the Federation.

4. Whips. Competitors are prohibited from carrying a whip that is longer than 30" (75cm) while jumping or schooling over fences. A rider may not carry more than one whip. Whips that are weighted at the end are prohibited. (Exception: Ladies Side Saddle and appointments classes. See HU151.)
5. No exhibitor may carry a whip longer than 30" while competing.

## **HU107 Attire**

1. Protective headgear. All riders must wear protective headgear. See GR801.2. While competing in a jumping class, if a rider's chin strap becomes unfastened, the rider may stop, refasten the chin strap and continue their round without penalty or elimination. A judge may, but is not required, to stop a rider and ask them to refasten a chin strap which has become unfastened, again without penalty to the rider.
2. Conventional attire following the tradition of fox hunting is encouraged and preferred. It is further recommended that the rider's attire does not distract from the performance of the horse and rider. Judges shall not eliminate a rider for unconventional attire except for safety (see GR801). Shirts must have a choker, similar collar or tie. Breeches may be buff, canary, tan, rust or white.
3. Formal Attire. Riders are required to wear scarlet or dark coats; white shirts with white stock; white, buff or canary breeches. Members of the Armed Services or the Police may wear the Service Dress Uniform.
4. Inappropriate attire. When management permits Hunter or Hunter Seat Equitation riders to ride without jackets, riders must wear traditional, short, or long-sleeved riding shirts with chokers or ties. Polo shirts and full chaps are not permitted except in unjudged warm-up classes. Management or Judge may eliminate an exhibitor who is inappropriately attired.

## **HU108 Hunt Colors**

1. In classes restricted to members, subscribers or staff of a Hunt recognized by the Masters of Foxhounds Association, all riders who wear colors must carry a letter dated within the current year signifying that they are eligible. This letter must include the name of the Hunt and the color of the collar and must be signed by the Master or Honorary Secretary of that Hunt. The show committee must appoint a competent person to check these letters before riders compete in classes. If a rider holds a current letter but does not have it in their immediate possession or is entitled to receive one, the show committee may accept a signed statement to that effect which must be submitted to the Federation.
2. In classes restricted to junior exhibitors, rules concerning hunt colors will be strictly enforced. Unless a junior wears scarlet, brown boot tops are prohibited.

## **SUBCHAPTER HU-4 COURSES**

### **HU109 General**

1. All obstacles, except those noted below, must be set at required height. The required height may have a variance of no more than 2" over or under. Exceptions:
  - a. Walk fences may not exceed 2' in height and spread.
  - b. Trot fences may not exceed 3' in height and spread for horses and 2' in height for ponies in classes restricted to ponies.
  - c. Brush obstacles, hedges, split-rail fences, simulated rock or stone walls, ditches, banks and other specialty jumps designed to simulate natural obstacles found in the hunt field.
  - d. The first fence of any hunter course.
2. Except in case of inclement weather, broken equipment or similar emergency a course must not be altered except by written permission of all exhibitors. If one or more original obstacles are rendered unusable during a class and no duplicate exists, management may substitute obstacles which approximate as nearly as possible the originals.

3. In classes where Federation course requirements have not been met and the violation has not been observed and corrected prior to the third competitor's performance, the class must be completed without altering the course and the results will stand for the purposes of the Championship.
  - a. With the exception of a course set at an improper height, competitors who have gone over the course with the violation have the option of re-jumping the course.
  - b. Classes conducted over improper courses are ineligible for Federation Horse of the Year Award points.
4. Horses must be shown over a minimum of eight obstacles the required height in all rated sections.
5. In all rated Hunter sections, at least two different courses are required. At least one change of direction (change of lead) is required in every course. All rated sections at National and Premier rated shows, except for Green Hunter Pony, Green Hunter 3'0" and 3'3", and Young Hunter sections, must offer an over fence class as a Handy Hunter. This Handy Hunter class may not be the first class of a section nor can it be the designated first round of a classic when using one round of a section as the first round of a classic.
6. No course may have exhibitors trotting or cantering through the in-gate or out-gate; any exhibitor choosing to trot or canter through the in-gate or out-gate will be eliminated.
7. In over fences classes, riders shall not be required to hand gallop the first fence of a line consisting of a measured distance.
8. A track is established once a horse has landed from a fence or completes a required test and follows the horse until the consecutive fence is jumped or the next test is executed. Upon completion of each consecutive fence or performance of the next test, the track is erased. Crossing a track between obstacles and/or required tests shall constitute a disobedience and will be penalized by the judge(s). Exceptions:
  - a. A course diagram that requires a rider to cross their track.
  - b. Snake or multiple panel jumps that are jumped consecutively.
9. For the purposes of eligibility and cross entry corresponding heights are:

| Height (metric equivalent height) | Corresponding JP/EQ metric class fence heights used for Hunter and Equitation cross entry and eligibility |
|-----------------------------------|---|
| 2'3" (.69 meters)                 | .70 meters  |
| 2'6" (.76 meters)                 | .75 meters  |
| 2'9" (.84 meters)                 | .85 meters  |
| 3'0" (.91 meters)                 | .90 meters  |
| 3'3" (1.00 meters)                | 1.00 meters   |
| 3'6" (1.07 meters)                | 1.10 meters   |
| 3'9" (1.14 meters)                | 1.15 meters   |
| 4'0" (1.22 meters)                | 1.20 meters   |
| 4'3" (1.30 meters)                | 1.30 meters   |
| 4'6" (1.37 meters)                | 1.40 meters   |

## HU110 Course Diagrams

1. Course diagrams must be posted at least one half-hour before scheduled time of class unless they have been illustrated in the prize list. The plan or diagram of the course must show the obstacles which must be taken in the order indicated by numbers but apart from this the rider is not bound to follow a compulsory track. An arrow is used on the diagram to indicate the direction in which each obstacle is to be taken. When distances between related fences in all classes, rated or unrated, are 100' or less, the distance must be included on the posted course diagram.
2. If the area of the courtesy circle is to be restricted by a mandatory line, the line must be indicated on the diagram and a corresponding barrier must be erected on the course. As this becomes part of the judging specifications, this policy must be clearly stated in the prize list (see GR901.10) and announced at least one hour prior to the class.

3. All posted courses at Federation-licensed competitions must include the numbers of fences to be jumped (i.e. Fences 1-8).

## HU111 Height of Obstacles

When a range of fence heights is allowed in a class or section, the minimum height must be used unless a higher height is specified in the prize list. In all cases, the spread of jump may not exceed height and must be measured including flowers, brush and ground lines.

## HU112 Type

1. Obstacles must simulate those found in the hunting field such as natural post and rail, brush, stone wall, white board fence or gate, chicken coop, aiken, hedge, oxer, etc.

2. Chicken coops hinged at the top and free at the bottom; triple bars and hogs back; striped rails; targets; any spread over 4' and square oxers are prohibited.
3. Every course must have at least four different type obstacles. (Exception: see HU172.10). The jumpable portion of all obstacles must be a minimum width of eight feet wide.
4. A minimum 2" difference is required for the back element of an obstacle. A ground line is required for all obstacles except in Handy Hunter classes.
5. Jump Cups.
  - a. The top element of all obstacles except the back rails of oxers must be securely placed with cups at least 1 1/2 inches deep and 3 inches wide so that a slight rub will not cause a knockdown and must be equally secure for different heights in the same class.
  - b. At all Federation approved competitions, FEI approved safety cups must be used for the back rail of all oxers.
  - c. Logs, caps on walls and gates with a separate plank style top element that can be knocked down are permitted.
6. In Handy classes obstacles must simulate those found in trappy hunting country. The course must have at least two changes of direction, at least one in and out, as well as three of the following: hand gallop a jump, bending line, rollback turn, halt, fence at the end of the ring or open a gate while mounted or trot over one obstacle (exception: in and outs are optional for Pony Handy courses). Judges must place emphasis on promptness and tight turns with precedence being given in that order. Handiness is defined as time and ground saving movement without adversely affecting performance or style. Brilliance of pace is defined as a faster pace than ordinary, without sacrificing performance or style. Hand Gallop is defined as a significant increase in pace without sacrificing performance or style.

## **HU113 In and Outs**

1. An in and out is considered as two obstacles in the required number of obstacles. It must never be used at the start of a course.
2. An in and out is two jumps set for one or two strides. The distance may be adjusted during a class requiring different fence heights. Exception: The distance must be adjusted in Pony Hunter classes, see HU114.

## **HU114 Pony Hunter**

In the event that any or all of the Pony Hunter sections (Small, Medium, Large) are combined, the course designer may add or remove fill as necessary to meet the requirements of HU114.1 (spread of a jump). Every effort should be made to make the jump look as similar as possible at each height. Any removed fill should not be left next to the jump, and should be placed within an island or decoration, or removed completely from the ring.

1. Heights and Spreads.
  - a. Fences may be a maximum of 3" lower in Zones 11 and 12.
  - b. If a competition offers a team or pairs class or a Pony Hunter classic in which ponies of mixed heights are permitted, the prize list must state the height of the fences and stipulate all judging requirements.
2. Distances.
  - a. If the distance between related fences is less than 100' (including in and outs), the distance must be adjusted for each height section.
  - b. In Regional rated sections, there must not be any other fences in the same line as an in and out.
3. Exception: In and outs are optional for Pony Handy Hunter classes.
4. For all Hunter classes restricted to ponies, the first obstacle of all courses must be a vertical. For Pony Hunter Handy courses, leading over one obstacle as well as opening a gate are prohibited.

## **SUBCHAPTER HU5 – OFFICIALS**

### **HU115 Veterinarian**

In reference to GR1211.5.a., every competition must have a qualified veterinarian present throughout the competition if the previous year's competition's entry number was 200 horses or greater.

### **HU116 Judges**

1. In National rated sections, a minimum of one Registered judge must officiate. Exception: Judges of either Registered or Recorded status may officiate the following sections alone or independently: Children's Hunter, Children's Pony Hunter, Adult Amateur Hunter, Low Children's Hunter Horse or Pony, Low Adult Amateur Hunter, Small Hunter, Thoroughbred Hunter, Ladies Side Saddle, Hunter and Pony Hunter Breeding, and any USHJA Hunter section.
2. In Premier rated sections, the following applies:
  - a. A minimum of two Registered judges must officiate. They may officiate independently or together. If judging independently, no more than 60% of the classes in the section may be officiated by the same judge. (Exception: High Performance Working Hunter, Performance Hunter 3'6, Performance Hunter 3'3" and Pony Hunter sections held on one day).
  - b. Judges of either Registered or Recorded status may officiate the following sections alone or independently: Children's Hunter, Children's Pony Hunter, Adult Amateur Hunter, Low Children's Hunter Horse or Pony, Low Adult Amateur Hunter, Small Hunter, Thoroughbred Hunter, Ladies Side Saddle, Hunter and Pony Hunter Breeding, and any USHJA Hunter section.
3. All judges who are assigned to a Conformation section must judge the Model class.

### **HU117 Course Designers**

1. The licensed Hunter Course Designer, or their designated representative, must be on the grounds during the classes they have built. The Hunter Course Designer or their designated representative must be present at the ring(s) during all Hunter classes for which they have responsibility and be available to report to the judge at any time. The course designer, or their designated representative, must ensure that the courses are properly set for the competition. (Exception: breed restricted competitions and open competitions with 50% or more breed restricted classes.)
2. A Regional, 'r', or 'R' Hunter Course Designer is required to officiate for all Hunter classes at Federation licensed Regional competitions.
3. A 'r' or 'R' Hunter Course Designer is required to officiate for all Hunter classes at a Federation licensed National or Premier competitions.
4. An 'R' Hunter Course Designer is required to officiate for any Hunter classes offering \$5,000 or more in prize money.

## **SUBCHAPTER HU-6 JUDGING**

### **HU118 General**

1. All classes must be judged on performance and soundness and when indicated, conformation, suitability or manners.
  - a. When a horse makes two faults at one obstacle only the major fault will be counted. (Exception: refusals count in addition.)
  - b. When an obstacle is composed of several elements in the same vertical plane, a fault at the top element is the only one penalized

- c. At an in and out, the faults committed at each obstacle are considered separately. In case of a refusal or runout at the 2nd obstacle of an in and out, the competitor may re-jump both obstacles of the in and out. Judges must penalize unsafe jumping and bad form over fences, whether touched or untouched.
  - d. Teams, pairs and unicorns (abreast and tandem) should be judged as a single unit, scoring only major faults at each obstacle. (Exception: in cases where two or more horses have knockdowns or refusals, they are scored cumulatively.) In tandem formation, faults for horses not keeping proper hunting distance apart and in abreast formation, faults for horses not keeping abreast will be calculated at the rate of 1/2 fault for each 1/2 horse's length and are cumulative at each obstacle, as well as at each end of the ring; or on an outside course, at each obstacle and between each obstacle. No additional penalty for finishing out of original order.
  - e. In classics and when a class is held on an outside course, brilliance should be emphasized.
2. Circling once upon entering the ring and once upon leaving is permissible.
  3. In all classes over obstacles, all horses being considered for an award must jog for soundness using either Option A or Option B below. (Exception: sections or classes with specifications that do not require horses to jog, and unrated classes). Management must state in the competition prize list which method of jogging will be used. Horses/ponies that are unsound will be eliminated and ineligible for an award in that class. The judge's decision regarding soundness is final.

Option A: Horses/ponies are required to trot a circle on a loose rein at the end of each over fences performance. Horses/ponies may be asked to return to the ring and trot another circle at the judge's discretion.

Option B: Horses/ponies will be jogged together with the rider unmounted in the judge's order of preference. Two additional entries in addition to the number of ribbons must jog if there are sufficient entries. Horses/ponies may be asked to re-jog at the judge's discretion. A horse/pony may not leave the ring until the job has been declared official by the judge, or it will be eliminated. A horse that is unruly, one that breaks away from the handler or one whose actions threaten to endanger the rider, handler, other exhibitors or their entries will be eliminated. (Exception: Hunter Breeding and Pony Breeding). A horse may not be eliminated for receiving outside assistance in the jog. In classes restricted to ponies a junior must jog the pony for soundness.

4. In classes over obstacles, competitors cannot be requested to show at a walk, trot and canter or to re-jump the course unless eliminations are held. If eliminations are held, the finals are judged as an independent class.
5. After all competitors have had an opportunity to compete over a course in the High Performance Hunter and Performance Hunter section, competitors with faults which would eliminate the competitor from the ribbons, may be excused by the judge at management's discretion, provided four (4) more competitors than the number of ribbons awarded have completed the course. In Green Hunter classes riders are encouraged to withdraw after a major fault.
6. In cases of broken equipment or loss of shoe while competing, the rider or handler may choose to continue without penalty. If they decide to stop to address the situation that rider/handler will be eliminated. In the case of the jump(s) falling over due to weather or act of God, the rider must remain in the ring until receiving instructions from the judge(s) or be eliminated. In this instance, the decision of the judge(s) is final.
7. In the event of elimination, the horse must exit the ring immediately.
8. Obstacle Not Properly Set. If a competitor jumps an obstacle that has not been reset, or has been reset improperly, due to it being downed by a previous competitor, the weather, or some other factor, the competitor receives no penalty. However, if the competitor knocks down the obstacle they will be penalized accordingly.
9. Results Record. Competitors in an over fences class shall have the following reasons recorded as applicable on the official show results as follows:
  - a. Did Not Compete (DNC) indicates that the competitor failed to enter the arena for the class. Riders can also scratch from classes, including in the rated sections. The competitor will not receive a refund but each horse's respective record will show that the horse did not compete in the scratched classes.

- b. Did Not Place (DNP): All other competitors that competed but did not place in the ribbons or earn a different recording will be recorded as Did Not Place.
- c. Judges are encouraged to mark their cards with (RT) for competitors who entered the arena but voluntarily retired before completing the course; (EL) for competitors that were eliminated; and (OC) for competitors that did not adhere to the course as documented and were subsequently eliminated.

### **HU119 Definition of Competed**

A horse has competed in an over fences class when the horse's entry number and a score for at least the first jump are recorded on the judges card. A horse failing to complete the entire course is not eligible to receive points, awards, or prize money. A horse has competed in an under saddle class when the horse has entered the ring. When three or fewer horses compete in an under saddle class, all horses' numbers must be listed on the judges card regardless of whether they receive an award.

### **HU120 Definition of Completed**

A horse has completed an over fences class when the horse completes the posted course and a score is recorded on the judge's card. A horse failing to complete the entire course is not eligible to receive points, awards, or prize money, nor will it be counted in the number of entries necessary to fill a class or section. A horse has completed an under saddle class when the horse has executed all the gaits required and remains in the ring until the class has lined up.

### **HU121 Soundness**

All horses must be serviceably sound. All horses being considered for an award must jog for soundness (Exception: Under Saddle classes, sections or classes with specifications that do not require horses to jog, in unrated classes). See HU118 for methods of jogging for soundness. Horses/ponies that are unsound will be ineligible for an award in that class. The judge's decision regarding soundness is final. See HU118 for methods of jogging for soundness. Horses/ponies that are unsound will be eliminated and ineligible for an award in that class. The judge's decision regarding soundness is final.

### **HU122 Conformation**

Quality, substance and soundness. Judges must penalize but not necessarily eliminate horses with structural faults, defects and blemishes (such as pin firing) in areas which might impair their activity and durability. Horses must be stripped for conformation judging in any class. (Exception: Under Saddle classes.)

### **HU123 Performance**

1. An even hunting pace, manners, jumping style together with faults and way of moving over the course. Manners to be emphasized in Ladies and Amateur classes; brilliance in Corinthian and Formal Hunting Attire classes.
2. When the class is held in a ring, the performance starts as the competitor enters and ends when they leave. When the class is held outside, the performance starts at any spot designated by competition management and ends at any spot so designated. If the start and finish are not clearly set forth, it is suggested that a judge consider the start approximately 50' before the first obstacle and the finish approximately 50' after the last.

### **HU124 Faults**

1. The following faults are scored according to the judge's opinion and depending on severity or division, may be considered minor or major faults.

- a. Rubbing the jump
  - b. Swapping leads in a line or in front of a jump
  - c. Late lead changes
  - d. Spooking
  - e. Kicking up or out
  - f. Jumping out of form
  - g. Jumping off the center line of jump
  - h. Bucking and/or playing
  - i. Adding a stride in a line with a related distance
  - j. Eliminating a stride in a line with a related distance
  - k. Striking off on a wrong lead on the courtesy circle. (May be corrected with either a simple or flying change of lead)
2. The following are considered major faults.
- a. Knockdown
  - b. Refusal
  - c. Refusal or stopping while on course
  - d. Crossing the track. A track is established once a horse has landed from a fence or completes a required test and follows the horse until the consecutive fence is jumped or the next test is executed. Upon completion of each consecutive fence or performance of the next test, the track is erased. Crossing a track between obstacles and/ or required tests shall constitute a disobedience and will be penalized by the judge(s). Exceptions
    - 1. A course diagram that requires a rider to cross their track
    - 2. Snake or multiple panel jumps that are jumped consecutively
  - e. Dangerous jumping
  - f. Addressing a jump - coming to a stop in front of a jump in order to show the jump to the horse.
  - g. Completely missing a lead change
  - h. Adding or eliminating a stride in an in and out
  - i. Breaking stride, or Trotting while on course. (Exceptions-Where posted on the course diagram i.e. trot jumps, steep banks, etc., and also as outlined above in HU124.1k. Striking off on a wrong lead on the courtesy circle.)
3. The following constitute elimination:
- a. Three refusals (Exception: USEF Pony Hunter National Championship, USEF Junior Hunter National Championship, and the national USHJA International Hunter Derby Championship exhibitors will be eliminated after two cumulative refusals).
  - b. Off course
  - c. Jumping course before it is reset
  - d. Bolting from the ring
  - e. Fall of horse and/or rider (rider shall not remount in the ring).
  - f. Stopping for loss of shoe or broken equipment
  - g. In model classes, a horse or pony that breaks away from the handler or one whose actions threaten to endanger the rider, handler, other exhibitors or their entries.
  - h. Hunter Breeding and Pony Breeding classes, a horse or pony whose actions threaten to endanger any humans or equines in the ring.

*BOD 06/17/24 Effective 12/01/24*

## **SUBCHAPTER HU-7 CONDUCT OF CLASSES**

### **HU125 Back to Back Classes**

No more than two rounds may be ridden back to back. In sections where three classes over fences are held on one day and the section has eight or fewer exhibitors, all three over fences classes may be held using back to

back rounds with the judge's consent. Classes using this format must be jogged, if required, and pinned separately, following the last class. Management may not require back to back rounds in rated classes. Management may not require a judge to score more than three classes concurrently. Classes run back to back must be in the same division (i.e. Hunter or Equitation). Exception: USEF Pony Medal and WIHS Equitation Hunter Phase.

## **HU126 Jumping Order**

1. If a jumping order is established it must be posted in a conspicuous place at least one-half hour before the class. The jumping order must be legible to a mounted rider. If a jumping order is used throughout the section, a systematic rotation of the starting list must be employed so that a complete cycle is made during the competition. Failure to enter the ring within one minute after an audible signal to proceed is given incurs elimination. The time limit for entering the ring must be enforced by competition management. Management may permit a rider to compete out of order to minimize delays and in case of class conflicts.
2. Establishing the Order. (Either manually or via computer) The jumping order for the first round must be established by one of the following procedures:
  - a. The horses' names are drawn individually, starting with the first position and then working down
  - b. The horses' names are listed and their positions drawn
  - c. The horses' names and the positions are both drawn
  - d. The horses' names are listed (with multiple rides pre-spaced) with the first name drawn becoming the first horse to compete in the first round, the remaining horses following from that point (i.e., the horses' name after the one drawn first is second, the next one third, etc.).

## **HU127 Entry Fees**

1. In rated sections in which individual class entry is permitted under these rules, competitions are prohibited from requiring a combined entry fee. A horse that is entered in a section that requires a combined entry fee may be entered in individual classes in another section for which it is qualified. (Exception: the horse may not be entered in the stake class unless it has met all qualifications.) A horse that is exhibited in the first performance class of rated section must pay a combined entry fee, unless otherwise permitted in this chapter. After the first performance class exhibitors may enter individual classes at management's discretion.
2. A Model class may not be included in a combined entry fee. It must always be offered separately as an optional class.

## **SUBCHAPTER HU-8 HUNTER SECTIONS**

### **HU128 General**

Hunter classes are to be judged on performance, way of moving and soundness. All horses being considered for an award must be serviceably sound.

### **HU129 Under Saddle and Hack Classes**

1. In Under Saddle and Hunter Hack classes, horses are shown at a walk, trot and canter both ways of the ring. Light contact with the horse's mouth is required. Horses should be obedient, alert, responsive and move freely. They should not be eliminated for slight errors. Judges may ask horses to hand gallop collectively, one way of the ring. (Exception: green classes.) No more than eight will be asked to hand gallop at one time. (Exception: Hunter National Championships see Championship Specifications) All horses being considered for an award must be serviceably sound. Judges must work competitors in groups of (20) or less or they must work a larger group in one direction, line up their selected competitors before working those remaining on the

rail in the second direction, excusing the unselected competitors, and judging the selected competitors in the second direction.

2. To be eligible for a Model or Under Saddle class counting toward a Championship in any rated hunter section, horses must be entered in at least one full point class over obstacles in the same section during the competition. To maintain awards or points won in the aforementioned classes the competitor must complete the course in at least one class.

## **HU130 Non-rated Classes**

1. The following classes have no point value for Championships or for Horse of the Year Awards. Judging percentages are left to the discretion of competition management. (Exception: Hunter Hack for Ladies Side Saddle.) Unrated classes are not required to jog for soundness.
  - a. MAIDEN, NOVICE, LIMIT HUNTERS. Open to horses which have not won a blue ribbon, three blue ribbons, six blue ribbons in Hunter over fences classes at Regular Competitions.
  - b. HUNTER HACK. To be shown at a walk, trot and canter both ways of the ring. At least eight horses, if available, are required to jump two obstacles and gallop one way of the ring. Horses are not to gallop in Green Hunter classes.
  - c. BRIDLE PATH HACK (Hunter type). To be shown at a walk, trot and canter and hand gallop. To back easily and stand quietly. Emphasis is placed on actual suitability to purpose.
  - d. THREE-YEAR-OLD HUNTER. Section must include two or three Over Fences classes and one Under Saddle class with a Championship and Reserve Championship awarded. If possible, this section should be held immediately after the Three-Year-Old Hunter Breeding class. Courses are to be simple. One Over Fences class must be judged on at least 25% conformation.
  - e. Walk-Trot.
    1. Classes that the exhibitor is asked to walk and trot only. These classes are exempted from non-member fees per GR901.9(5).
    2. The horse must give the appearance of being a safe and suitable mount for the class. The safety of all exhibitors is of primary concern in walk-trot Hunter, walk-trot pleasure and walk-trot equitation classes.

## **HU131 Hunter Eligibility and Green Eligibility Status for Horses**

1. In all cases, the Hunter eligibility and green status of the horse is the responsibility of the owner.
2. Hunter eligibility for a horse begins when a horse of any age, competes for the first time in any over fences class with jumps at three feet (3'0") in height or higher in any Hunter or Hunter/Jumping Seat Equitation classes or sections held at a Federation or Equine Canada licensed competition. Any previous jumper experience attained prior to the horse competing in its first Hunter or Hunter/Jumper Seat Equitation class at 3'0" or above shall not impact the horse's green status. Once a horse begins competing in any of the classes mentioned above, however, competing in comparable jumper classes will impact a horse's green eligibility in the same manner as Hunter or Hunter/Jumping Seat Equitation classes.
3. Once a horse begins its Hunter eligibility by competing in Hunter or Hunter/Jumping Seat Equitation classes or sections at 3'0" or higher held at a Federation or Equine Canada licensed competition the following statements apply:
  - a. Green Hunter 3'/3'3": A horse in its first competition year of showing in classes with fence heights of 3'0' - 3'5" is eligible for Green Hunter 3'0" and 3'3" for a total of two competition years (not necessarily consecutive). During a horse's Green Hunter 3'0" and 3'3" years:
    1. Horses competing in classes at 3'6": Once a horse competes in any Hunter, Hunter/Jumping Seat Equitation, or Jumper class at a Federation or Equine Canada licensed recognized competition with fence heights of 3'6" (or 1.10m), it will be deemed is no longer eligible to compete in the Green Hunter 3'0" section but remains eligible to compete in the Green Hunter 3'3" section.
    2. Horses competing in classes higher than 3'6": Once a horse competes in any Hunter, Hunter/Jumping Seat Equitation, or Jumper classes at Federation or Equine Canada licensed competitions with

fences higher than 3'6" (or 1.10m), it shall no longer be eligible for the Green Hunter 3' or 3'3" sections.

3. A horse that competes in any Hunter, Hunter/Jumping Seat Equitation, or Jumper classes at a Federation or Equine Canada licensed competition with fence heights of 3'6" (or 1.10m) during more than four (4) competitions shall no longer be eligible to compete in the Green Hunter 3'3" section.
4. Once a horse competes in a Federation or USHJA National Championship/Event with fence heights of 3'6" (or 1.10m) or higher it is no longer eligible for the Green Hunter 3'0" or 3'3" sections.
- b. Green Hunter 3'6": A horse in its first competition year showing in classes with fence heights 3'6" (or 1.10m) or higher is eligible for the Green Hunter 3'6" section for one competition year. Exception: see points 1 and 2 below.
  1. A horse shall remain eligible for the Green Hunter 3'6" section in a future year if it meets the following criteria:
    - a. Has not competed at more than four (4) competitions in one competition year prior to August 1 at Federation or Equine Canada licensed competitions in any Hunter, Hunter/Jumping Seat Equitation, or Jumper classes with fence heights of 3'6" (or 1.10m).
    - b. Has not competed at any Federation or Equine Canada licensed competitions in any Hunter, Hunter/Jumping Seat Equitation, or Jumper classes with fence heights of higher than 3'6" (or 1.10m).
    - c. Has not competed at any Federation or Equine Canada licensed competitions in any Hunter, Hunter/Jumping Seat Equitation, or Jumper classes with fence heights of 3'6" (or 1.10m) or higher on or after August 1.
    - d. Has not competed in a Federation or USHJA National Championship/Event with fence heights of 3'6" or higher.
  2. Should a horse meet all of the above criteria, its Green Hunter 3'6" year may be postponed for a future competition year. Classes may be divided by sex and/or breeding and competition management is encouraged to divide classes where entries warrant. Only these classes will count for Federation Horse of the Year Awards. A Best Young Horse class must be offered and judged as a separate class. Winners in all qualifying classes may show in the Best Young Horse class. Second place winners may return. ### **SUBCHAPTER HU-11 SHOW CHAMPIONSHIPS**

#### **HU154 General**

1. Show Championships must be offered in rated sections.
2. A Championship may not be offered in a section unless a minimum of two over fences classes and one Under Saddle class are held. A Championship will not count for points unless a minimum of three entries complete in at least two over fences classes and one under saddle class (Exception: Ladies Side Saddle, see HU151; Performance Hunter, High Performance Hunter, and any other sections where individual classes may be entered, see HU154.3). If a competition offers more than one Under Saddle class in any one section, only one will count towards the Championship. (Exception: classes divided as to weight, height, age or breeding.) The prize list must specify the class to count.

3. The number of Championship and Reserve Championships that are awarded will be determined by the number of sections created from dividing the first over fences class. In order to award a section Championship in the Performance Hunter, High Performance Hunter, and any other sections where individual classes may be entered at least two (2) over fences classes per section and one (1) under saddle class must be held in which a minimum of three (3) entries complete. When multiple Championships are awarded when using the California Split method, under saddle classes with fewer than thirty (30) entries are not required to be split. When multiple Championships are awarded and only one under saddle class is held the points from the one under saddle class will be used to calculate the Championship for both sections. When a random split is used, multiple Championships may only be awarded if a minimum of two (2) over fences and one (1) under saddle class are held per section.
  - a. When a Championship is offered, management must keep a score card or chart of winnings throughout the competition, which must be prominently displayed so that exhibitors may inspect it at all times. Only the first six ribbons count towards Championships regardless of the number offered.
  - b. Ribbons won in classes with specifications restricting horses in any manner, will not count toward any Championship unless such classes are complementary and over the same course, affording equal opportunity to all horses competing. If, however, competition management, having reserved the right to do so in the prize list, combines two or more complementary classes because of insufficient entries, thus making one open class, ribbons won in such a class count toward the Championship.

### **HU155 Show Championship Eligibility**

1. General.
  - a. The Champion and Reserve Champion titles are awarded to the top two of the four horses that acquired the most points performing over a regulation course with obstacles at the full height required in the section in which shown, except under the provisions of HU151. In addition to these points, only these four horses, receive half points for ribbons won in Model classes and full points for ribbons won in one Under Saddle class. Exception: High Performance and Performance Hunter sections with three classes receive half points for the under saddle class, see HU135.
  - b. The prize list must state the numbers of the full point and half point classes counting towards the Championship in each section.
2. The following classes do not count towards nor make a horse eligible for Championships: Appointment, Breeding, Local, Junior, Consolation, Maiden, Novice, Limit, Owners, Hunter Hack, Pairs, Teams and any class restricted unless complementary classes are offered. Points won in one section do not count towards nor make a horse eligible for the Championship in another section.

### **HU156 Ties**

1. In case of a tie score the Championship and/or Reserve is awarded to the horse that accumulated the most points over fences. If horses have an equal number of points over fences and no points under saddle, the tied horses will be asked to compete in a hack off, or independent under saddle class, to be judged on soundness and performance at the walk, trot and canter. Competitors may be asked to hand gallop at the discretion of the judge. (Exception: Green Hunters and Young Hunters.) Any competitor may concede to the other if they choose not to hack off, or if both competitors agree, they may choose to break the tie with a coin toss. If horses have an equal number of points over fences, under saddle, and model (i.e. Green Conformation Hunter 3'6" or High Performance Conformation Hunter) the tie will stand as is and both horses will receive Horse of the Year Points in their respective Champion and/or Reserve position.
2. If all tied horses are declared unsound, selection of the winner among such tied competitors is left to the discretion of the judges.

## **HU157 Combination Hunter Championship**

All competitions with a limited number of Hunter classes, including events in more than one section (i.e. High Performance Conformation or Green Conformation Hunter 3'6", Green, High Performance or Performance Hunter), may count points won in such classes toward a Combination Hunter Championship. A Combination Hunter Championship and Reserve are awarded to two of the four horses which have acquired the most points performing over a regulation Hunter course with fences the height required in the section in which shown. In addition to these points, only these horses receive half points for ribbons won in Model, Maiden, Novice, Limit and Green classes and full points for ribbons won in one Under Saddle class or, if not held, in one Hunter Hack class, if otherwise qualified. The prize list must specify which classes count. This Championship does not count toward a Federation Horse of the Year Award except for Amateur Owners Hunters.

## **HU158 Challenge Trophies**

If a Challenge Trophy for a Championship is being offered in a section that has not previously been divided it must be awarded to the horse which has obtained the most points towards the Championship in its respective section. If a Challenge Trophy for a class is being offered in a class that has not previously been divided it shall be awarded to the first place winner with the best performance.

## **SUBCHAPTER HU-12 COMBINING AND DIVIDING OF SECTIONS OR CLASSES**

### **HU159 General**

1. Unless stated otherwise in Federation rules, a competition may offer sections as combined or divided. However, if originally offered as combined, but later divided, each subsequent divided section must offer the minimum amount of prize money offered in the original combined section (see HU160).
2. Sections must be divided or combined based on the number of entries in the first over fences class and may not be combined or divided after the first class. Exception: Performance/High Performance Working Hunter, see HU164.1b.
3. No section may be divided if there are less than 30 entries with the exception of those sections required to split sections based on the number of entries for a particular fence height, horse size, or rider age section i.e.:
  - a. Exception:
    1. Green Hunter (HU166.2)
    2. Young Hunter (HU166.3)
    3. Junior Hunter (HU166.5)
    4. Amateur Owner Hunter (HU166.6)
    5. Regional rated Pony Hunter sections (HU166.8)
    6. Children's and Adult Amateur Hunter sections refer to HU166.9; HU166.10 and sections governed by USHJA Zone Specifications.
4. Any section with 50 or more entries at the beginning of the first class must be divided. If there are 50 or more entries remaining in a section after it has been divided, the section must be redivided by every other number. Once a section has been redivided it may not be divided further.

### **HU160 Prize money**

Whenever a section is divided, the prize money offered in each divided section must be the same as offered in the original section. Additionally, the prize money offered per class and per placing in each of the divided sections must be no less than the amounts offered in the original undivided section.

1. Prize money must be doubled whenever a section is divided.
2. Unless otherwise approved by the Federation, prize money (including exhibition class prize money), bonus money, add backs, leading rider, and/or any other award (including series awards), whether cash or in-kind, are

all included in the calculation for total prize money when determining Hunter Rating. All elements of the total hunter prize money must be included and reported to the Federation in the Prize List and competition results. For purposes of these rules, cash prize money must be used to meet the minimum prize money paid as required by the relevant Hunter Rating. In-kind prizes may be awarded in addition to the cash prize money offered but the total combined value shall not exceed the maximum prize money permitted in the relevant Hunter Rating. In-kind prizes shall be valued at the fair market value of the prize.

3. Leading Rider and other series awards do not count toward USEF Horse of the Year standings or qualification for any other USEF competitions.

4. All competitions included in a series must be the same hunter rating, unless otherwise approved by the Federation.

## HU161 Methods of Dividing

1. California Split (see HU162 below for definition)
2. Random Split (see HU163 below for definition)
3. Floating Split (see HU164 below for definition)
4. Junior/Amateur (see HU165 below for definition)
5. Size of Horse
6. Age of Rider

## HU162 Definition of a California Split:

1. The California Split is used to divide large classes. The judge keeps track of twice the number of placings required for either ribbons or the jog order. At the completion of the jog, the judge creates two separate orders using alternating numbers in the following manner: the highest score is first in Section A, the second highest score is first in Section B, the third highest score is second in Section A, the fourth highest score is second in Section B and so on until all placings are awarded or the jog order is complete. The result is two sections of the same class being pinned separately. Competition Management may choose to split classes using the California Split after the class has started.

Example:

| Horse's Placing | Prize Awarded |
|-----------------|---------------|
| 1st             | 1st           |
| 2nd             | 1st           |
| 3rd             | 2nd           |
| 4th             | 2nd           |
| 5th             | 3rd           |
| 6th             | 3rd           |
| 7th             | 4th           |
| 8th             | 4th           |
| 9th             | 5th           |
| 10th            | 5th           |
| 11th            | 6th           |
| 12th            | 6th           |
| 13th            | 7th           |
| 14th            | 7th           |
| 15th            | 8th           |
| 16th            | 8th           |

2. Jog. The judge will call one jog order of up to twenty (20) horses. Once the horses have jogged for soundness and the jog has been made official, the A and B sections will be pinned using the California Split.

3. Under Saddle. A Section with twelve (12) or less must be judged as one class using the California Split. Sections that are judged under the California Split must have results for Section A and B. A random split will be used for under saddle classes of more than twelve (12).
4. In reckoning Championship points, the top eight horses that receive the most points in the Over Fences classes are awarded points for the Under Saddle and/or Model class(es). The Championship is awarded as follows: Horse with most points—Champion Number 1. Horse with second highest points— Champion Number 2. Horse with third highest points—Reserve Champion Number 1. Horse with fourth highest points— Reserve Champion Number 2.

### **HU163 Definition of a Random Split**

A random split allows management to draw horses for a section either by hand or a computer-generated draw. The number of horses in each section must be equal with a variable of one.

### **HU164 Definition of Floating Split**

A Floating Split allows management to adjust sections offered split by age in the prize list either up or down in one year increments until the minimum number of entries required for each new section has been reached. As long as the minimum requirements for splitting sections are met, management may split the sections using the age split they deem most appropriate for their competition. Rider age must be given on the entry blank.

### **HU165 Definition of Split by Junior Amateur**

If there are 30 or more entries in a section that is open to all competitors, Competition Management may choose to divide the section and offer one of the divided sections as restricted to Juniors and Amateurs (See GR128 and GR1306-GR1307 for definition of Junior and Amateur).

### **HU166 Combining and Dividing Specific Sections**

1. Performance Hunter and High Performance Hunter.
  - a. Number to hold separate sections: Performance: four (4) and High Performance three (3). If four (4) compete and only three (3) complete (i.e. one is eliminated or retires) points will be awarded as per GR 1113.
  - b. Combining
    1. At all licensed competitions, if there are fewer than four entries in either the Performance Hunter 3'3" or Performance Hunter 3'6" they must be combined, but they cannot be combined with any other Hunter sections, except High Performance Hunter. If there are four or more entries in each Performance Hunter section, they must be held separately. If the Performance Hunter 3' 6" and the Performance Hunter 3'3" sections have fewer than three entries after they have been combined they may be further combined with the High Performance Hunter section.
    2. If there are fewer than three entries in the High Performance Hunter section it must first be combined with the Performance Hunter 3'6" section or the Green Hunter 3'9" section (or with Green Hunter 3'6"/3'9" if offered combined). If the High Performance Hunter section is combined with the Performance Hunter 3'6" section it may then further be combined with the Performance Hunter 3'3" section, but may not be combined with the Green Hunter section(s).
    3. When the High Performance Hunter section is combined with the Performance Hunter section the following applies:
      - a. When combining High Performance Hunter with Performance Hunters, the combined sections must offer the same number of classes offered by the Performance Hunter section(s) with which it is combined.

- b. When combining High Performance Hunter with another section, if different amounts of prize money or entry fees were offered in the original sections, the combined sections will use the lower amount for both prize money and entry fees.
4. When the High Performance Hunter section is combined with the Green Hunter section the following applies:
    - a. If, after combining, there are still fewer than three entries in the combined section, it must be further combined with the Green Hunter 3'6" section
    - b. If combined Green Hunter sections have fewer than three entries, they must be combined with High Performance Working Hunter.
    - c. A horse that is eligible for more than one section must be declared and compete in only one. Horses will jump the respective height for the entered section.
    - d. When combining High Performance Working Hunter with another section, if different amounts of prize money or entry fees were offered in the original sections, the combined sections will use the lower amount for both prize money and entry fees.
    - e. When combining a section of High Performance Hunter with either a section of Green Hunter 3'6", Green Hunter 3'9", or both, the combined sections must offer the same number of classes offered by the Green Hunter section(s) with which it is combined. In addition, a section entry fee will be required and individual classes may no longer be entered for the combined section.
    - f. The High Performance Hunter section may be combined with a combined Green Hunter 3'6"/3'9" section but may not be combined with any Green Hunter 3'3" or 3'0" sections.
  - c. Dividing:
    1. In Performance Hunter, High Performance Hunter and any other sections where individual classes may be entered, the sections may only be divided after thirty (30) horses have competed in the first over fences class. Subsequent classes may be divided once twelve (12) horses have competed in each class. For Championships, see HU154.
2. Green Hunter
    - a. Number to hold separate sections: three (3).
    - b. Combining:
      1. Green Hunter section(s) may not be combined with any other hunter section(s). (Exception; The High Performance Hunter section may be combined with the Green Hunter 3'6" and 3'9" sections, see HU164.1)
      2. Regardless of competition rating, each Green Hunter section that is offered separately must be held separately when there is a minimum of three entries.
      3. If there are fewer than three entries in a Green Hunter section, that section must be combined with a contiguous fence height section of the Green Hunter.
      4. If, after combining, there are still fewer than three (3) entries in the combined section, it must be further combined with the next contiguous fence height section of the Green Hunter.
      5. In the case where there are no entries in the fence height section that bridges the gap between the two non-contiguous fence height sections those two non-contiguous fence height sections may be combined.
      6. If Premier or National rated Green Hunter 3'0" and/or 3'3" sections are combined with Premier or National rated Green Hunter 3'6" and/or Green Hunter 3'9" sections a Handy Hunter class is not required. The combined sections must meet class number requirements for Premier or National rated Green Hunter 3'6" and Green Hunter 3'9" and use the lower amount for both prize money and entry fees.
      7. When the High Performance Hunter section is combined with the Green Hunter section the following applies:
        - a. If, after combining, there are still fewer than three entries in the combined section, it must be further combined with the Green Hunter 3'6" section
        - b. If combined Green Hunter sections have fewer than three entries, they must be combined with High Performance Working Hunter.

- c. A horse that is eligible for more than one section must be declared and compete in only one. Horses will jump the respective height for the entered section.
  - d. When combining High Performance Working Hunter with another section, if different amounts of prize money or entry fees were offered in the original sections, the combined sections will use the lower amount for both prize money and entry fees.
  - e. When combining a section of High Performance Hunter with either a section of Green Hunter 3'6", Green Hunter 3'9", or both, the combined sections must offer the same number of classes offered by the Green Hunter section(s) with which it is combined. In addition, a section entry fee will be required and individual classes may no longer be entered for the combined section.
  - f. The High Performance Hunter section may be combined with a combined Green Hunter 3'6"/3'9" section but may not be combined with any Green Hunter 3'3" or 3'0" sections.
- c. Dividing:
- 1. Regardless of competition rating, any Green Hunter section that is offered combined must be split by fence height, and sections held separately when there is a minimum of three entries in any one fence height section provided at least three (3) entries remain in each of the other two sections, which would also be held separately, or as one other combined section. Contiguous fence height sections should be combined before combining non-contiguous fence height sections.
3. Young Hunter
- a. Number to hold separate sections: three (3).
  - b. Combining:
    - 1. Young Hunter section(s) may not be combined with any other Hunter section.
    - 2. At Competition Management's discretion, and with at least three (3) Young Hunters entered in any section, the Young Hunter Section(s) may run concurrently with the corresponding Green Hunter height section or Combined Green Hunter Section. Horses that are entered in both the Young Hunter and Green Hunter section(s) will be eligible for awards in both sections. Horses that are not entered in both sections will only be eligible for awards in the section in which they are entered. If there are fewer than three (3) entries in any of the Young Hunter section(s) they must be combined for awards per HU166.3. A separate entry fee for the Young Hunter Section will apply. The Green Hunter section requirements by rating listed in HU166.2 will still apply.
    - 3. Regardless of competition rating, each Young Hunter section that is offered separately must be held separately when there is a minimum of three entries. If there are fewer than three (3) entries in a Young Hunter section that section must be combined with a contiguous fence height section of the Young Hunter. If, after combining, there are still fewer than three (3) entries in the combined section, it must be further combined with the next contiguous fence height section of the Young Hunter. In the case where there are no entries in the fence height section that bridges the gap between the two non-contiguous fence height sections those two non-contiguous fence height sections may be combined.
  - c. Dividing:
    - 1. Regardless of competition rating, any Young Hunter section that is offered as a combined section must be split by fence height, and sections held separately when there is a minimum of three entries in any one fence height section provided at least three (3) entries remain in each of the other two sections, which would also be held separately, or one other combined section. Contiguous fence height sections should be combined before combining non-contiguous fence height sections.
4. Green Conformation Hunter 3'6" and High Performance Conformation Hunter
- a. Number to hold separate sections: three (3).
  - b. Combining:
    - 1. The Green Conformation Hunter 3'6" may only be combined with the High Performance Conformation Hunter. The High Performance Conformation Hunter may only be combined with the Green Conformation Hunter 3'6".
    - 2. When offered as two sections, if there are fewer than three (3) horses in either the Green Conformation 3'6" or the High Performance Conformation section they must be combined.

3. When combining Green Conformation Hunter with High Performance Conformation Hunter, if different amounts of prize money or entry fees were offered in the original sections, the combined section will use the lower amount for both prize money and entry fees.
- c. Dividing: If there are three (3) or more horses in each Conformation section they must be held separately.
5. Junior Hunter
  - a. Number to hold separate sections: four (4) in each section. If four (4) compete and only three (3) complete (i.e. one is eliminated or retires) points will be awarded as per GR 1113.
  - b. Combining:
    1. The Junior Hunter 3'6", Junior Hunter 3'3", Amateur Owner Hunter 3'6", and Amateur Owner Hunter 3'3" sections may only be combined with other Junior Hunter or Amateur Owner Hunter sections. See below for conditions.
    2. At Premier, National or Regional rated competitions if there are fewer than three (3) entries in the Amateur Owner 3'3", the Amateur Owner 3'6", the Junior Hunter 3'3" or the Junior Hunter 3'6" sections, Competition Management may choose to combine the sections. If sections are combined, the horses must jump the respective height of the original section entered. In addition, while the sections can be combined if entries warrant, in order for Horse of the Year points to count they must be offered separately in the prize list for Premier rated competitions (see HJ122). When sections are combined as per above, three (3) must complete for points to count.
    3. It is recommended that when competitions anticipate 50 horses or more this section be divided by age of rider or height of horse when prize list is prepared.
  - c. Dividing:
    1. When divided, sections must be split using one of the methods from HU161 Methods of Dividing.
    2. If there are 50 or more entries in the section at the beginning of the first class it must be divided and the prize money must be doubled.
    3. If there are 50 or more entries remaining in a section after it has been divided, the section must be redivided and the prize money must be doubled. Once a section has been redivided it may be divided further if management so desires.

    5. If there are four (4) or more entries in each divided section, the divided sections must be held separately. If there are fewer than four (4) entries in any sections divided by age and/or height of animal, those sections must be combined with other sections. If there is a minimum of twelve (12) entries once any sections have been combined, the newly combined section must be redivided.

## **HU174 Hunter Classics**

1. Any Premier, National or Regional rated competition may offer a Hunter Classic.
2. Hunter Classics may be offered for any rated sections offered and held at the same competition. An Open Hunter Classic is a classic that is open to entries from multiple Hunter sections of the same rating. It is permitted for Open Hunter Classics to encompass several fence heights to correspond with the respective Hunter sections being offered. The prize list must state the specific Hunter sections that are invited to compete in the Open Hunter Classic. If a horse competes in more than one Hunter section qualifying for the Open Hunter Classic, the exhibitor must declare their point section to the Competition Secretary on a declaration form at the time of entry into the Classic. All other provisions of HU174 apply to Open Hunter Classics.
  - a. Six (6) entries are required to conduct a Hunter Classic.
  - b. If there are fewer than six (6) entries in any one Hunter Classic, it may combine with other sections of the same rating, regardless of the combining or dividing rules of the section. Exception: The Adult Amateur Hunter Classic, Low Adult Amateur Hunter Classic, Children's Pony Hunter Classic, Children's Hunter Classic, Low Children's Hunter Horse Classic, and Low Children's Hunter Pony Classic may be held with the number of entries indicated in the Zone specifications. If Hunter Classics are combined and a horse is shown in more than one section qualifying for the Hunter Classic, the exhibitor must declare their point section to the Competition Secretary on a declaration form at the time of entry into the Classic.
  - c. Ponies entered in the Green Hunter Pony section are not eligible for the Regular Pony Hunter Classic unless they have competed in the Regular Pony Hunter section (see HU174.6).
  - d. Hunter Classics cannot be divided in any manner and held by section if there are fewer than six (6) entries in each divided section. Exception: Premier or National rated sections must have twelve (12) entries to divide.
3. All Hunter Classics must be conducted as a two round class. A handy hunter round may not be used as part of a Hunter Classic. A Hunter Classic may be conducted as a separate two round class or a designated Hunter class of the specified Hunter section may be counted as the first round of the Hunter Classic. However, the second round may not be another designated class in the Hunter section, but must be held as a separate round. If a designated class is used as a first round, each round shall count 50%.
4. At National and Premier competitions, in sections with a National or Premier rating, Hunter Classics conducted using either a designated Hunter class as the first round or a separate two round class must offer at least \$1000 in prize money, except Pony Hunter Classics, Children's Hunter Classic, Adult Amateur Hunter Classic, and Low Adult Amateur Hunter Classic must offer a minimum of \$500 in prize money. (Exception: Children's Hunter Pony, Low Children's Hunter Horse, and Low Children's Hunter Pony are not required to offer prize money). At Regional competitions, in sections with a Regional rating, Hunter Classics conducted using either a designated Hunter class as the first round or a separate two round class must offer at least \$250 in prize money (Exception: Children's Hunter Pony and Low Children's Hunter Horse are not required to offer prize money and if a Children's Hunter Horse and Children's Hunter Pony Classics are combined, the competition is not required to offer prize money in the combined Classic). At Premier, National or Regional competitions, when a Hunter Classic is conducted as a separate two round class, the minimum prize money offered is stated above.
5. The entry fee may not exceed 10% of the prize money offered in the Hunter Classic.

6. To be eligible, horses must have entered, shown and completed the course in at least two classes in the Hunter section. All horses being considered for an award must be serviceably sound and may be jogged if so stated in the prize list.
7. A minimum of the top 12 entries, if available, or 50% of the entries in the first round, whichever is greater, will return for the second round. If a horse or pony is eliminated in the first round of competition, they may not return for the second round. If a horse/rider combination does not return for the second round or is eliminated during the second round of a classic, a score of zero will be combined with the first round score and the horse/rider combination will be placed accordingly. If possible, twelve places are to be awarded.
8. The Hunter Classic does not count toward the minimum number of classes required for the section's rating.
9. Bonus points will be awarded toward Horse of the Year Awards in the horse's respective section and are based on the number of horses that compete in the classic. In a Hunter Classic using a designated class of the Hunter section as the first round, the number of horses that compete in the classic is determined by the number of horses who have entered and competed in the first round of the classic, not the designated class used as the first round. In a Hunter Classic held as a separate two round class, the number of horses that compete in the classic is determined by the number of horses who compete in the first round of the classic. The bonus points are as follows:
  - a. In a Hunter Classic using a designated class as the first round, the bonus points for Zone HOTY are determined by adding one point for each entry that competes in the first round of a classic to the applicable increment in GR1132.5 and multiplying the result by 1.25.
  - b. In a Hunter Classic held as a separate two round class, the bonus points for Zone HOTY are determined by adding one point for each entry that competes in the first round of a classic to the applicable increment in GR1132.5 and multiplying the result by 1.5.
  - c. In a Hunter Classic using a designated class as the first round, the bonus points for National HOTY are determined by adding one point for each entry that competes in the classic to the applicable increment in GR1132.5 and multiplying the result by 1.75.
  - d. In a Hunter Classic held as a separate two round class, the bonus points for National HOTY are determined by adding one point for each entry that competes in the classic to the applicable increment in GR1132.5 and multiplying the result by 2.
10. The first round of all Hunter Classics must consist of eight (8) to ten (10) obstacles in accordance with HU109. In the second round of all Hunter Classics the course must consist of a minimum of **eight (8)** obstacles of at least six different types. **Exception: separate standalone classics must have ten (10) obstacles.**
11. An open numerical judging system must be used. If there are multiple judging panels, one judging panel must be appointed as the tie breaker.
12. Attire: riders are required to comply with HU107.
13. There is no limit to the number of horses a rider may compete on in a Hunter Classic. Exception: Competitors in a Regular or Green Hunter Pony Classic may only ride two ponies per height section.
14. The same horse/rider combination must compete in both rounds of a Hunter Classic.
15. A horse may not compete in more than one classic per section but may compete in an open classic, a USHJA National Hunter Derby, or a USHJA International Hunter Derby at the same competition. A horse is limited to competing in a maximum of two classics or derbies or combination of classics and derbies per competition. (Exception: Leagues approved by the Federation in accordance with HJ124).
16. The same pony may not compete in the USHJA Pony Hunter Derby and the USHJA National Hunter Derby at the same competition.
17. If more than 30 horses are entered in a Junior Hunter Classic, the classic must be split in accordance with HU166.5b.

**BOD 06/17/24 Effective 12/01/24**

## Appendix A. USEF Hunter Schooling Rules

1. Schooling over obstacles by a hunter exhibitor while on competition grounds must be consistent with the obstacles requirements set forth in Hunter Schooling Rules Appendix A.
2. For Certified Schooling Supervisor duties and requirements see GR1030.
3. Schooling areas for Hunters must contain adequate standards, jump cups and rail and Hunter-type rails to make a minimum of a trotting fence, a vertical and an oxer.
4. A supervisor of schooling must be appointed for the schooling areas designated for hunters, if the total square footage of these areas is less than 20,000 sq. ft. in size. Exception: Breed-restricted competitions offering hunter classes or sections.
5. Duties of Certified Schooling Supervisors (see also GR1030)
  - a. The Certified Schooling Supervisor's or official competition Steward's decision regarding schooling rules in the warm-up/schooling area is final.
  - b. Competition Management is responsible for providing a Category 1 Steward or Certified Schooling Supervisor to supervise schooling in the Hunter schooling area during any Hunter class offering \$10,000 or more in prize money.
6. **Within the thirty minutes prior to the scheduled start of the class, any schooling over obstacles by an entry in a class of \$10,000 or more, or any USHJA National Hunter Derby or USHJA International Hunter Derby must be done in a designated area.**
7. The use of FEI approved safety cups is mandatory in all warm-up/schooling areas on the back rails of all oxers. If an oxer is set so that it may be jumped in both directions, safety cups must be used on all top rails. It is the Competition Manager's responsibility to ensure sufficient FEI approved safety cups are available in each warm-up/schooling area, the competitor's responsibility to use the safety cups in the schooling area, and the Steward or CSS's responsibility to ensure the safety cups are being used.
8. The unsafe use of electronic devices, as determined by the competition steward in their sole discretion, including cell phones, while mounted is prohibited in all areas designated for schooling and exercise, and while lunging horses on competition grounds. Earphone(s)/Earbud(s) are prohibited in areas designated for schooling and exercise.
9. It is important to remember that all exercise areas are different in size, type of footing, and jump material provided. Furthermore, the ability of the horse and rider must always be taken into consideration as well when deciding what is permitted and not permitted during preparation.
10. In the schooling/exercise areas during the preparation before competition, a minimum of one vertical and one oxer must be provided. The ground must be in good condition. Management must provide sufficient obstacle material. The jumping area should be large enough to provide sufficient room for the training.
11. Obstacles may be flagged, in which case they must be jumped in the proper direction. The Steward, and/or Schooling Supervisor should decide if the flags may be interchanged.
12. No one may hold a rail or touch a standard while it is being jumped.
13. 10 All rails must be either in cups or totally on the ground (exception: one end of a cross rail may rest on the ground). Rails must be able to fall easily when hit.
14. If a rail is placed on the edge of a cup it must be placed on the far side of the cup, and is only allowed at an oxer if it does not cause the front rail to be higher than the back rail (i.e. offset).
15. Walk rails may be no higher than 12" at the highest point. A walk rail may be parallel to the ground with both ends in cups, or may have one end resting on the ground. Cross rails are NOT allowed. Ground rails are NOT permitted. Horses will approach and depart in a straight line only and may NOT be turned.
16. There may never be more than two (2) rails on the back of an oxer, with the lower rail equal in height to the lowest rail on the front of the oxer. If the oxer is flagged so that it may only be jumped in one direction, there may only be one (1) rail on the back.
17. Ground lines are not mandatory, however if they are used they must be placed either directly below the front of the jump or up to 1 m (3'3") out. If a ground line is used on the landing side of a jump, there must be one on the take-off side, and it may not be any further out than the one on the take-off side. If an oxer is flagged so it may only be jumped in one direction, the ground line is only permitted on the front of the oxer.
18. If a trot, canter or placement rail is used, it may not be used at a jump higher or wider than 1.30m (4'3"). If used on the take-off side, it may not be closer than 2.50m (8'2"). If used on the landing side of a vertical, it

may be no closer than 3.0m (9'10"). If used on the landing side of an oxer, it may be no closer than 20' from the back rail of the oxer.

19. If guide rails are used on the landing side of a jump, the closest part of the rail must be a minimum of 3 m (9'10") from the jump. The schooling supervisor may allow a shorter distance for ponies.
20. A cross rail may be made either by itself, in which case it may not exceed 1.30 m (4'3") in height, or be below a rail at a vertical, or the front of an oxer.
21. Swedish Oxers are permitted with the following stipulations: a) no more than a 6" height difference (low to high points) for ponies, and b) no more than an 18" height difference (low to high points) for horses.
22. If an item (blanket, cooler, etc.) is laid over the rail of an oxer, it may be laid over the front rail. If there is more than one rail on the front of the oxer, the item may be laid over any of those rails.
23. The use of materials which proves dangerous is forbidden.
24. If space and available material allows and safety conditions permit, combinations may be built using correct distances. Bounce jumps may only be used with verticals and may not exceed 1.10m (3'7") in height.
25. Any action deemed not in the best interest of the horse will not be allowed.
26. The total maximum weight of equipment allowed to be added to a horse's leg, front or hind (single or multiple boots, fetlock rings, etc.), is 500 grams or 17.637 ounces (shoe excluded). Failure to comply with this paragraph will incur disqualification.

1. In order to compete in any Jumper classes at licensed competitions as an exhibitor, rider, trainer, or their agent(s), a person must be an Active member of the United States Hunter Jumper Association, Inc., or pay a Show Pass fee to the United States Hunter Jumper Association, Inc. Exception: Local Competitions, competitions restricted to a particular breed, and exceptions listed in GR901.9.
2. USHJA Horse Registrations
  - a. All horses competing in Federation licensed and/or USHJA sanctioned competitions with Hunter, Hunter Breeding, Jumper and Hunter/Jumping Seat Equitation classes (except those activities enumerated in GR901.9, items 1-9) not restricted by breed must be properly identified in accordance with GR1101, and must also be registered with USHJA (see GR1101.1). The USEF/USHJA registration number for each horse must be entered on all entry forms for licensed competitions.
  - b. Applications for USHJA Registration can be completed online at [www.ushja.org](http://www.ushja.org) or [www.usef.org](http://www.usef.org) using the USEF Horse Registration application form. Competition management is responsible for notifying exhibitors of this requirement in their prize list.
3. In addition to the provisions of JP 100.2, all horses competing in classes that require USHJA horse registration must provide a microchip number that verifies their animal's identity in order to compete for points, money won or be eligible for Federation and/or USHJA programs and awards where horses are required to be recorded or registered.
4. A microchip used to verify identity must be a fifteen digit ISO compliant 11784/11785 chip and be implanted in the nuchal ligament of the animal.
5. All horses that are competing in classes which require USHJA registration which are not microchipped will be ineligible to compete in Federation licensed competitions.
6. If a USEF Jumping Sport Sub-Committee or Jumper Task Force is composed geographically, the State of a Jumper member is the one that the member resides in the majority of the year. A person may apply to the Federation for permission to represent a different State.
7. The Zone of a rider qualifying to participate on a Zone Jumper team will be determined by the rider's point state. A rider's point state shall be the state given on the rider's membership application. That address is locked on December 1 of the competition year or the first day of the rider's membership activation, whichever comes first. However, a Life member's address is always locked on December 1 of the competition year. A rider may have only one domicile which is where the rider has their permanent home and where, whenever they are absent, intends to return. The address given on the membership application must be the state where the rider is domiciled at the time of membership activation or renewal. If a rider is found not in compliance with this rule, the rider may be subject to disqualification from representing a Zone Jumper Team. A person may apply to the Federation for permission to change their point state.

5. For add-back classes, the base prize money (or money guaranteed by management) for a class plus any bonus money, if offered, is used to determine the requirements for that class as it pertains to attire, tack, equipment, officials, etc.
6. See GR 832.6 for Interruption of Procedure due to weather or other emergency for Jumper Classes.
7. Per JP 123.1.c, if classes of different heights are combined, one of the following methods must be used:
  - a. The entry fee, prize money, and payouts for each placing will follow the class that has the higher prize money in accordance with the prize list. The start fee must be refunded to declared competitors who choose not to declare for the combined class.
  - b. The entry fee, prize money, and payouts for each placing will follow the relevant entries of original classes, in accordance with the prize list.

## JP109 Nominating Fees

Nominating Fees. A nominating fee may be charged for either the Jumper Division or for each Jumper Section, but not both. Exception: An additional nominating fee may be charged for the highest prize money class at the show. If this fee is for a class offering \$25,000 or more in prize money, the total amount of Entry and Nominating fees assessed must not exceed 2% of prize money per JP151.6.

## JP110 Show Championships

1. Number of Classes. Championships are optional, but if offered, a minimum of three (3) classes must be held in the section.
2. Methods of Determining. If Championships are offered, they must be decided on the basis of points won in classes throughout a section, on the basis of money won in the section, or on the results of the highest prize money class in the section, provided qualification was required for that class based on results of earlier classes in the section.

The method of determining Championships must be stated in the prize list. The Competition Committee must post a score card of winnings throughout the competition where it is available to exhibitors at all times. Credit towards Championships will be given only for the first six ribbons when points are the determining factor.

Ribbons have the same value even if less than the specified six places are awarded due to lack of entries.

First Place...10 points, Second Place...6 points, Third Place...4 points, Fourth Place...2 points, Fifth Place...1 point, Sixth Place...1/2 point. If a competition offers Bonus Points to classes in the prize list: First Place...15 points, Second Place...9 points, Third Place...6 points, Fourth Place...3 points, Fifth Place...2 points, Sixth Place...1 point.

3. Ties. Ties involving Championships must remain tied, with tied horses receiving equal legs on any trophy. Exception: the bonus point class may be used to break Championship ties if so stated in the prize list.

## JP111 Tack and Attire

1. Martingales. The following rules only apply to riders while in the competition ring.
  - a. Classes offered at 1.30m or below—No martingale restrictions when used in a conventional manner (see also JP111.4). See JP111.1b for conventional manner.
  - b. Classes offered above 1.30m (and all classes restricted to young horses)—The only martingales permitted are running martingales used in the conventional manner. Running martingale used in the conventional manner: Only one martingale stopper per rein is allowed. The stopper must be positioned between the ring of the martingale and the attachment of the rein to the bit, hackamore or bridle.  
Exception: Irish martingales are permitted in all classes.
2. Whips. Competitors are prohibited from using a whip that is longer than 30" (75cm) while in the process of jumping or schooling over fences. A rider may not carry more than one whip. Whips that are weighted at the end are prohibited at any time.
3. Curbs  
When using a curb with any leverage bit, it must be constructed of loose links, joints, and/or lie smooth against the jaw of the horse and be free of twists, sharp objects or anything inhumane. A curb may be wrapped or inserted into a cover for the comfort of the horse. A curb may not be used in conjunction with wire, metal, rawhide, metal "keepers", or any other substance except for attachment of curb to the bit.
4. Draw Reins/German Martingales. Draw reins and German martingale may **not be used in any competition/class restricted to Ponies, Juniors, and/or Amateurs, or by age of horse. Draw reins and German martingales may** only be used in a conventional manner when schooling or in classes with no prize money that are offered at 1.20m or below. **Draw reins and/or German martingales may not be used on Ponies at any time when ridden by a Junior.** No other head set devices (chambon, etc.) are permitted in any class.

5. The total maximum weight of equipment allowed to be added to a Horse's leg, front or hind (single or multiple boots, fetlock rings, etc.), is 500 grams or 17.637 ounces (shoe excluded). Failure to comply with this paragraph will incur disqualification.
  - a. See JP 117.2 for Classes Restricted by Age of Horse.
  - b. For classes to be included in the USEF Ranking List, the following will also apply to hind boots. Fasteners may only be Velcro, stud type, or hook type. No mechanism that allows the fastener to double back on itself or any kind of leverage to be applied to the fastener is permitted. No additional elements may be added to or inserted in the boot itself. The inside of the boot must be non-abrasive and smooth, that is, the surface must be even and there may not be any pressure points on the inside of the boot. Sheepskin linings are allowed.
6. Tied Stirrups. Any rider competing with their stirrup, stirrup leather or foot tied and/or secured in any manner, will automatically be eliminated from that class. Riding anywhere on the competition grounds with stirrup, stirrup leather or foot tied or otherwise secured is cause for disqualification, by the steward, of that rider from the subsequent class in which the rider is entered. In the case of junior or amateur riders, the steward will note the trainer name(s) on the Steward's Report and further disciplinary actions may be taken by the Federation. Exception: Devices approved by the FEI are allowed.
7. See GR801.2 and .4 for Safety Helmets and Safety Vests.
8. No mounted exhibitor may wear or carry an electronic verbal communication device (i.e., cellular telephone, pager, walkie talkie, etc.) while in the competition ring that may result in a competition advantage, as determined by the Federation at its sole discretion. The penalty for wearing or carrying a forbidden device if observed by the judge may be elimination from the class during which the device was worn or carried. Exception: A disabled participant may use electronic devices if, prior to the class, they present to the Federation Steward written justification from treating personnel setting forth the necessity for the equipment.
9. Attire
  - a. Formal Jumper Attire. Dark, muted or similar colored, or red (scarlet) coats are required; team or sponsored coats of different colors are also permitted; white or fawn breeches; a white tie, choker (unless the shirt, by design, has the choker built in for its intended use) or hunting stock, and a white or lightly colored shirt must be worn. Shirts must have a white collar and white cuffs. Shirts must be fastened at the neck and tucked into breeches. Boots are required. Half chaps are permitted as long as the color matches the paddock boots being worn. Members of the Armed Services or the police may wear the service dress uniform with protective headgear. (See General Rules, GR801.3)
  - b. Proper Jumper Attire. Coats of any color are required. Breeches must be light color (white, fawn or canary). Pastel and dark colored breeches are not allowed. Shirts, light in color, must be tucked into breeches and fastened at the top of the neck. Ties or chokers of any color must be worn (unless the shirt, by design, has the choker built in for its intended use). Boots are required. Half chaps are permitted as long as the color matches the paddock boots being worn.
  - c. Standard Jumper Attire. Coats are not required. Breeches of any color are permitted.   - e. In cases where the above requirements are not followed, the penalty for a first or minor offense will be a warning and for repeated violations by the same exhibitor at the same event, the penalty may be elimination.
10. (Back) Numbers: Any competitor who competes in a class without a number or with an incorrect number will be noted on the Judge's card and:
  - a. will receive a verbal warning for the first occurrence;
  - b. may receive a yellow card for the second occurrence at a competition; and
  - c. may be eliminated by the judge, for the third occurrence at a competition.
11. A rider who loses their headgear or whose harness becomes unfastened during the course of their round must recover and replace it, or in the case of the harness becoming unfastened must refasten it. In such

case, the rider will not be penalized for halting to retrieve their headgear and/or refasten the harness, but the clock will not be stopped. A rider who jumps or attempts to jump an obstacle without headgear or with a harness incorrectly fastened or not fastened will be eliminated unless the circumstances rendered it unsafe for the rider to stop immediately in order to refasten the harness (e.g. if the harness becomes unfastened in the middle of a combination or one or two strides before the obstacle in question). See also GR 801 and JP136.10.

12. Hooded blinkers, sunglasses, fly masks, goggles, etc. that cover the horse's eyes are only allowed with a veterinary certificate stating the necessity. Blinkers or cheek pieces attached to the bridle may not exceed 5cm (2").

*BOD 06/17/24 Effective 12/01/24*

## **JP112 Starting Order (See also JP151 for classes offering \$25,000 or more)**

1. When a starting order is used, the order in which horses are to jump must be posted in a conspicuous place, at least one-half hour prior to the start of the class. The class cannot be started prior to that time without permission of all exhibitors. The jumping order must be legible to a mounted rider. A systematic rotation of the starting list must be employed throughout the classes of a section so that a complete cycle is made during the competition.
  - a. A starting order must be used for all classes offering \$5,000 or more in prize money.
  - b. A starting order must be drawn for the highest money class in each section, unless the order is automatically established by the results of a previous class(es).
2. Establishing the Order. (Either manually or via computer)
  - a. The jumping order for the first round must be established by one of the following procedures:
    1. the horses' names are drawn individually, starting with the first position and then working down;
    2. the horses' names are listed and their positions drawn;
    3. the horses' names and the positions are both drawn;
    4. Any other system must be approved by the Jumping Sport Committee if it differs from any of the above.
    5. The method for establishing the order must be printed in the prize list or option 1 must be used.
  - b. Multiple Rides. If the same rider has two or more horses drawn too close together, the order may be adjusted so that there will be a minimum of eight horses (if available) separating them. To adjust the order for the multiple rides, the horse drawn first will move up as far as possible in the order before the second horse is dropped down and so on down the line.
  - c. All horses ridden by a single rider must be ridden in the sequence that appears on the jumping order in all rounds of a competition unless class specifications call for a new order for a second round and/or jump-off. If a rider with multiple horses competes out of the drawn sequence of their horses in any class with a drawn and posted order, the remaining out of sequence horses will be eliminated, unless the out of sequence rides are approved in advance by the judge due to extraordinary circumstances. (Exception: In Table II, Sec 2(a/b) classes, riders with multiple horses may jump-off immediately or later with each horse as they choose.)
  - d. Two Sessions. In classes in which individuals are permitted to ride more than one entry, the first round may be split into two parts, with all riders riding one horse in the second part. (The first part will consist of riders' second, third, etc., horses.) For riders with more than one entry, a draw must be done to decide which horse will go in the second part. The order for both parts of the first round will be established by a draw.
  - e. Two Round Competitions. In classes with two rounds prior to the jump-off the order for the second round must be established by one of the following methods: a) the competitors return in the first round's order; b) the competitors return according to their faults in the first round, competitors with equal faults maintaining their original order; c) the competitors return according to their faults and times in the first round.
3. Jump-Off Order. Jump-off orders must be established by following one of the following procedures: a) the competitors return in the original order; b) the competitors return in the previous round's order; c) the competitors return according to their times in the first or second rounds.

Unless rules of a Table state otherwise, the starting order in the jump-off(s) must remain the same as the official starting order that is established and posted for the initial round, irrespective of any competitors who might have voluntarily moved up in the order during the initial round.

4. Moving Ahead in the Order.
  - a. To minimize delays, management may permit a rider to compete ahead of their posted order in a class.
  - b. Competitors with multiple rides; even if allowed by management to move ahead in the order, may NOT compete out of sequence per JP112.2b.
5. Accuracy of Jumping Order. It is the rider's responsibility to make sure their name or number or each of their horse's names or numbers are on the jumping order before the class begins. Failure to do so may result in elimination by management.

## **SUBCHAPTER JP-2 ELIGIBILITY, QUALIFICATION AND RESTRICTION OF ENTRIES**

### **JP114 Eligibility**

1. Jumpers may be of any breed, height, or sex. (Exception: Pony Jumpers, see JP119.4)
2. Stallions. Junior riders may show stallions. (Exception: Stallions are prohibited in Pony Jumper Sections. See JP119.4)
3. Sections. Sections or Classes may be offered for Junior, Young Rider or Amateur riders; and/or for Pony, Young Horse, Open Jumpers or Thoroughbred Jumper. Competitions may offer any or all sections, as well as specific Sections or Classes differentiated by specific height. (See Subchapter JP-3 for definitions and specifications for each of the sections mentioned above.) If Jumper sections are offered which are not covered within the definitions contained in Chapter JP, full specifications (including eligibility requirements) must be printed in the prize list or referred in the Prize List to a conspicuous place on the competition's website.
4. Ineligible Horses. If a horse is shown in a class for which it is ineligible, the owner will be fined \$500 for a first offense; if it is not the owner's first offense, the horse will be suspended from competing in licensed competitions for a period of three months. If the owner wishes to appeal or dispute the action taken, and gives notification to the Federation within 10 days of their notification from the CEO or their designee, such

suspension will be deferred until the matter has been resolved following a hearing by the Federation's Hearing Committee, whose decision shall be final.

## **JP115 Limiting Entries and/or Qualifying**

1. Cross Entry. Unless USEF rules or the prize list restricts horses to a particular section or sections, horses may compete in another section(s).
2. Horses per Rider. If the number of horses per rider will be limited, the prize list must so state.
3. Prior Classes. Management may require horses to enter and compete in one or two classes at the same competition in order to be eligible for the stake or largest money class in a section. The number of starters in this highest prize money class of a section may be limited (and/or the starting order determined), based on results of the prior class(es), provided that the system to be used is stated clearly in the prize list.
4. Restrictions on Entry.
  - a. Jumper sections restricting entries based on winnings must use prize money won in the horse's respective section (i.e., Amateur Owner, Junior, Amateur Owner/Junior, and Open Jumper) during the specified time period; however for Jumper sections/or classes for which a Federation endorsed Computer Ranking List has been established, this list (as of a date indicated in the prize list) may be utilized instead of prize money won. Management may also allow the winner of the previous year's class to enter without further qualifying.
  - b. Any competition wishing to set restrictive criteria for accepting entries other than as specified above may make written application to the Federation Jumping Sport Committee, at least 120 days prior to the event, detailing the criteria being requested. The Jumping Sport Committee will issue a recommendation for consideration by the International Disciplines Council which may approve any such application in its discretion and may condition any such approval in its discretion, and must in all instances require that there be publication in the prize list or otherwise of such restrictive criteria sufficiently in advance of the closing date of entries where appropriate, for all interested to have a fair opportunity to enter. This is a one-time requirement, and further approval is not required provided the system of qualifying does not change.
5. Elimination Trials. When the number of entries warrants it, elimination trials may be held. Elimination trial scores of the competitors eligible to compete for the final awards may be added to their respective scores in the finals with the total scores used to determine the winners, or the finals may be scored independently of the elimination trials. If the total score is to determine the winners, announcement must be made of each competitor's score in the preliminaries at the time of the finals.

## **SUBCHAPTER JP-3 SECTION SPECIFICATIONS**

### **JP116 Jumper Sections/Classes Restricted by Prior Winnings**

      2. 1.30/1.35m Junior classes will have courses set at 1.30 m (4'3") to 1.35 m (4'5"). All Junior classes set at 1.30 m to 1.35 m will be pointed towards the 1.30/1.35m Junior Jumper category for the purposes of HOTY awards.
      3. 1.20/1.25m Junior sections will have courses set at 1.20m (3'11") to 1.25m (4'1"). All Junior Jumper classes at 1.20m to 1.25m will be pointed towards the 1.20/1.25m Junior Jumper category for the purposes of HOTY awards.
      4. 1.10/1.15m Junior classes will have courses set at 1.10m (3'7") to 1.15m (3'9"). All Junior classes set at 1.10m to 1.15m will be pointed towards the 1.10/1.15m Junior category for the purposes of HOTY awards. These specifications will apply unless addressed by specific USHJA Zone specifications (available at [www.ushja.org](http://www.ushja.org)).
      5. 1.00/1.05m Junior classes will have course set at 1.00m (3'3") to 1.05m (3'5"). All Junior classes set at 1.00m to 1.05m will be pointed towards the 1.00/1.05m Junior category for the purposes of HOTY awards. These specifications will apply unless addressed by specific USHJA Zone specifications (available at [www.ushja.org](http://www.ushja.org)).

6. Local Competitions - no minimum course requirements and no points towards National Horse of the Year awards.
3. Jumper classes held below .90m that are restricted to Junior and/or Amateurs, must not be scored under Table II, Sec .1 (see JP 146.2) or Table III (see JP 148). Courses must not include combinations (see JP 127).
4. Young Rider Jumper: A horse ridden by a young rider under the rules of the Federation. Individuals are eligible as Young Riders from the beginning of the calendar year in which they reach the age of 16 until the end of the calendar year in which they reach the age of 21.
5. Combined Sections. A section or sections combining Amateur, Juniors, and/or Young Riders may be offered.
  - a. Dividing of Combined Sections/Classes. After the prize list is published, if entries so warrant this section may be split into separate sections. Any class with fifteen or more Junior Jumper entries and fifteen or more or Amateur Jumper entries must be divided, and the prize money must be doubled. Exception: Special Classes i.e. Combined Classics or the highest prize money class of the section.
  - b. Combining of Sections. If Junior and/or Amateur sections are offered separately in the prize list, the sections may be combined if there are eight or less entries in either section.
6. Restrictions
  - a. Any athlete that competes in an FEI Championship for Seniors (i.e. World Equestrian Games, Olympic Games, Pan-American Games, World Cup Finals) is ineligible to compete in any Junior and/or Amateur Jumper class with the same horse for a period of one year.
  - b. Any athlete that competes in a CSI5\*, CSI4\*, a CSI-W or CSIO is ineligible to compete in a Junior and/or Amateur Jumper class held below 1.40m at that same competition.
  - c. Any athlete competing in open jumper classes held at the USEF High Performance Standard or CSI3\*, CSI4\*, or CSI5\* FEI Grand Prix classes offering \$25,000 or more in prize money are not eligible to compete in the highest money class, in the lowest height section of Junior and/or Amateur Jumpers offered at the same competition where more than one height section is offered for Junior and/or Amateur Jumpers.

*BOD 06/17/24 Effective 12/01/24*

## **JP119 Sections/Classes Restricted to Ponies**

1. Pony Jumper: A pony, 14.2 hands and under in height, that is ridden by an individual who has not reached their 18th birthday. Stallions are prohibited in Pony Jumpers
  - a. Measurement. A measurement card is required as per Chapter HJ, Subchapter HU-7 Measurement.
  - b. Style Award. A Rider Style Award is recommended at any competition offering three or more classes. The Style Award is to be decided by the Pony Jumper Judge(s) based on the following criteria: To be presented to the Pony Jumper Rider who exhibits the best classical jumper style of riding throughout the Pony Jumper classes. This award will not necessarily be given to the rider accumulating the most points in the Pony Jumper division.
  - c. Course Requirements. Only the initial element of combinations may be a spread.
  - d. Level of Difficulty. 1.05 (3'5") or above as specified in Prize List. Local Competitions - no minimum height or spread, but fence dimensions must be stated in the Prize List. (Note: see USEF web site, www.usef.org, for U.S. Pony Jumper Championships Selections Procedures).
  - e. Pony Jumper classes held below .90m must not be scored under Table II, Sec .1 (see JP 146.2) or Table III (see JP 148). Courses must not include combinations (see JP 127). In Pony Jumper sections, to avoid over-emphasis on speed jump-offs, it is recommended that management write sections with initial class(es) scored under Table IV (Optimum Time) or as "clear round" events (all entrants without jumping or time faults remain equal); Final class(es) only to have a jump-off against the clock to determine show championship.
2. Graduated Difficulty. Competitions are encouraged to offer sections for Pony Jumpers in which successive classes within the section are at increasing fence heights (for example: first class at 1.00 m (3'3"), second class at 1.05 m (3'5"), third class at 1.10 m (3'7")).

## **JP120 U25 (25 and Under) Jumper Sections/Classes**

1. U25 classes are open to riders from the beginning of the calendar year in which they reach the age of 16 until the end of the calendar year in which they reach the age of 25. Amateur classification is not a factor for entry into a U25 class.
2. Specifications:
  - a. U25 courses must be set at 1.40m or above.
  - b. U25 classes offering \$25,000 or more in prize money must be held at a Regional, American National, or High Performance Standard (per JP123.4).
  - c. If a competition offers only one U25 class, it must be scored as a jump-off class.
3. U25 Overlay Class.
  - a. A U25 Overlay Class is defined as additional money specifically for U25 riders entered in an Open Jumper Class offering \$25,000 or more held at the Regional, American, National or High Performance Standard (see JP123.4).
  - b. U25 competitors are placed in the regular Open Jumper Class the same as all other entries in the class. However, in addition to the regular placement of competitors in the class, the U25 competitors will also be placed among themselves with the additional U25 prize money being distributed to those U25 competitors that placed in the original class.
4. In principle, no U25 class offering more than \$10,000 in prize money may be held within the fourteen (14) days prior to, any days during, or seven (7) days after the USEF U25 National Show Jumping Championship or the North American Youth Championships (NAYC).
5. For information on the U25 Ranking List, please refer to the Jumping page of the USEF website at [www.usef.org](http://www.usef.org) (Disciplines/International/Jumping/National Jumping).

## **JP121 Open Jumper Sections/Classes**

1. Open Jumper. Any horse, regardless of money won, is eligible to compete in this section.
2. Difficulty. The specific height (classes up to \$24,999) or standard (classes of \$25,000 or more) at which the class or section is being offered must be stated in the prize list.

## **JP122 Thoroughbred Jumper**

1. Thoroughbred restricted classes are open only to horses that are registered with USHJA and are in possession of Breed Registry papers. Horses must have been either registered with The Jockey Club or meet the criteria below. All horse shows must require riders to verify registration on the day of the horse show through one of the following methods:
  - a. The Jockey Club Certificate of Foal Registration or a copy thereof.
  - b. The horse's lip tattoo, the horse's 5-cross pedigree and the successful tattoo lookup result from The Jockey Club's Tattoo Identification Services, (located at [www.registry.jockeyclub.com](http://www.registry.jockeyclub.com)).
  - c. If neither of the above is available, a letter from The Jockey Club verifying the horse's identity.
2. Fence Heights to be set at 1.0m-1.05m not to exceed 1.05m (3'5").
3. Cross entry into other sections is allowed unless otherwise stated in the prize list.
4. If Championships are offered, they must be offered in accordance with JP110.
5. Thoroughbred jumper points will tabulate in accordance with GR1133.2.

## **SUBCHAPTER JP-4 LEVELS OF DIFFICULTY**

### **JP123 Fence Dimensions**

1. At Licensed Competitions the Level of Difficulty for each class must be indicated in the prize list and on the course plan. This may be shown as either
  - a. specific height in feet/inches or metric measure or a height range of not more than 5cm or 3" (i.e. 1.30m to 1.35m or 4'3" to 4'6"). If a range is indicated, fence heights may not be lower than the low height specified (except the first fence or the first element of a combination, and High Jump, Puissance, Gambler's Choice, and Accumulator classes). If a range is shown, the higher height will determine how the class is counted toward HOTA awards, etc.
  - b. as one of the "Standards" defined below for classes of \$25,000 or more. Spreads must be set as noted below.
  - c. Management may choose to run a class over two different heights (not more than 10 cm of difference), permitting competitors to elect at which height to compete. The conditions for such classes must be stated in the prize list unless the two-height class results from the combining of classes due to insufficient entries (defined as less than six entries in either grouping) See JP108.7. The steward's report must indicate any two-height class held, and the official results submitted to the Federation must accurately state at which height each entrant competed.

2. Heights:

The following fence dimensions are approximate equivalents in metric and English units:

|        |                          |
|--------|--------------------------|
| 0.70 m | = Fences 2'3" in height  |
| 0.75 m | = Fences 2'5" in height  |
| 0.80 m | = Fences 2'7" in height  |
| 0.85 m | = Fences 2'9" in height  |
| 0.90 m | = Fences 2'11" in height |
| 0.95 m | = Fences 3'1" in height  |
| 1.00 m | = Fences 3'3" in height  |
| 1.05 m | = Fences 3'5" in height  |
| 1.10 m | = Fences 3'7" in height  |
| 1.15 m | = Fences 3'9" in height  |
| 1.20 m | = Fences 3'11" in height |
| 1.25 m | = Fences 4'1" in height  |
| 1.30 m | = Fences 4'3" in height  |
| 1.35 m | = Fences 4'5" in height  |
| 1.40 m | = Fences 4'7" in height  |
| 1.45 m | = Fences 4'9" in height  |
| 1.50 m | = Fences 4'11" in height |
| 1.55 m | = Fences 5'1" in height  |
| 1.60 m | = Fences 5'3" in height  |

3. Width:

- a. All courses require a minimum of three obstacles in which the spread exceeds the height by 5 cm (2") up to 15 cm (6"). (See JP125.7)
  - b. Triple Bars may be up to 30 cm (12") wider than the height listed.
4. Standards: Any class offering \$25,000 or more in prize money must be offered at one of the following standards delineated below: Regional, American, National, or High Performance. Heights alone do not apply to these classes and the standard must be clearly stated in the prize list. Competitions must apply to the Jumping Sport Committee for permission to offer \$25,000 or more in prize money in any class if it does not meet one of the following:

- a. Regional Standard: 1.35m - 1.40m with spreads to 1.55m, excluding Triple Bar, Water Jump and the first fence on course. At least 6 Verticals and 4 Oxers must be set at 1.40m. The maximum spread for the Triple Bar is 1.85m, and the maximum spread for the Water Jump is 3.60m.
  - b. American Standard: 1.40m - 1.45m with spreads to 1.60m, excluding Triple Bar, Water Jump and the first fence on course. At least 4 Verticals and 2 Oxers must be set at 1.45m. The maximum spread for the Triple Bar is 1.90m, and the maximum spread for the Water Jump is 3.80m.
  - c. National Standard: 1.45m - 1.50m with spreads to 1.70m, excluding Triple Bar, Water Jump and the first fence on course. At least 4 Verticals and 2 Oxers must be set at 1.50m\*. The maximum spread for the Triple Bar is 2.00m, and the maximum spread for the Water Jump is 4.00m. \*If conditions warrant (deterioration of footing, inclement weather, insufficient lighting, fewer than 10 entries at the time declarations are due), the Course Designer after consultation with Management and Judges, may use a 5cm variance up or down for these 6 required efforts.
  - d. High Performance Standard: 1.45m - 1.60m with spreads to 1.80m, excluding Triple Bar, Water Jump and the first fence on course. At least 2 Verticals must be set at 1.60m, and at least 4 Oxers must be set at 1.50m+\*, excluding Triple Bar and Water Jump. The maximum spread for the Triple Bar is 2.20m, and the maximum spread for the Water Jump is 4.00m. \*If conditions warrant (deterioration of footing, inclement weather, insufficient lighting, fewer than 10 entries at the time declarations are due), the Course Designer after consultation with Management and Judges, may use a 5cm variance up or down for these 6 required efforts.
5. Conforming to Level of Difficulty. (Does not apply to the Standards listed above in JP123.4 except as noted above by \*). 60% of the fences in the first round of a class must be set at the required height indicated, and the remaining 40% within a two-inch (5 cm) variance; water jump, first fence on course, and first fence of a triple combination excluded and are not part of the 60%. (Exception: Gambler's Choice/Top Score, Derbys, and classes 1.50 m and above).
  6. Changing the Level of Difficulty from that published in prize list. The height at which a given competition is held may be altered from that listed in the prize list with the joint approval of the Course Designer, Judges and competition management; only in the case of inclement weather, or unsafe conditions. Changes in the height for any other reason may be done ONLY with the prior written consent of the majority of competitors in the class. See GR832.6 for class postponement due to weather conditions. All changes MUST be specifically noted in the Steward's report for the competition. For Standards, see JP151.
  7. Certifying the Standard for USEF Show Jumping Ranking List Classes. Classes to be included in the USEF Show Jumping Ranking List must be certified by the following: A course plan showing the actual heights and spreads of all the fences, signed by the Course Designer and given to the Senior Judge. After the Senior Judge inspects the course, they must sign and give the course plan to the Course Designer. The Course Designer must submit the signed course plan to the Ryegate Show Services within 48 hours of the completion of the competition/event. The Senior Steward must submit the USEF Show Jumping Ranking List Steward's Report to Ryegate Show Services within 48 hours of the completion of the competition/event. If the class is held at a different standard than that listed in the prize list, the Steward must certify in both the USEF Steward's Report and the USEF Show Jumping Ranking List Steward's Report that the requisite rules and procedures of JP151.1 were correctly followed.

## **SUBCHAPTER JP-5 COURSE REQUIREMENTS**

### **JP124 Jump Equipment**

1. Rails and other parts of the obstacles are held up by supports (cups). A rail must be able to roll on its support; in this case the support must have a depth of 18 mm (.7") minimum and a depth of 20 mm (.79") for the maximum depth of cup. For planks, gates, etc. the diameter of the supports must be more open or even flat, but not deeper than 12mm (1/2").
2. Jump Cups.
  - a. Any licensed competition must use FEI Approved Safety Cups for the back pole of all spreads in every jumper class.

- b. The use of FEI Approved Safety Cups to support the back rails of all spread obstacles in all warm-up and schooling areas is mandatory. If an oxer is set so that it may be jumped in both directions, safety cups must be used on all top rails.
  - c. It is the Competition Manager's responsibility to ensure sufficient FEI approved safety cups are available in each warm-up/schooling area, the competitor's responsibility to use the safety cups in the schooling area, and the Steward or CSS's responsibility to ensure the safety cups are being used.
  - d. Breakable pins are prohibited in the competition ring.
  - e. For information on sources for obtaining FEI approved cups, contact the Jumper Department at the Federation.
3. Rails. Rails must be at least eight feet long.
  4. Flags. All obstacles must be both flagged and numbered at competitions offering over \$2,500 in the Jumper Division. When flags are used at obstacles, they must be placed at the outside extremities of the elements to be jumped, the red flag on the right, white on the left.

## **JP125 Jumper Courses**

1. The term Obstacles refers to either single obstacles or combination obstacles. All obstacles are numbered numerically. Combination obstacles are those consisting of two or more jumping efforts, as indicated with the letters "A," "B," "C," etc. Faults are accrued at all parts of a combination obstacle. The total number of Jumping efforts on a course includes each single obstacle and each part of any combination obstacles. Obstacles for jumping competitions may consist of any of the following: verticals, oxers, triple bars, combinations, water jumps, ditches, banks; as well as variations such as liverpools, fans, etc. Combination obstacles consist of two or more separate jumping efforts. For purposes of determining the minimum requirements in various jumping competitions held under USEF rules, the total number of jumping efforts will be the determining factor.
2. Height or Standard. All courses must be accurately set according to the Height or Standard published in the prize list.
3. Identical Courses. No two courses in any section may be identical. (Exception: Local Competitions).
4. Obstacles. Obstacles should be attractive, varied and appropriate to their setting. They and/or their components must be capable of being knocked down and should be neither so light or poorly supported that they fall at a slight touch, nor so heavy or firmly supported that they can hardly be dislodged. In principle, the resistance to shock should be approximately the same for all obstacles on the course.
5. Gates. All suspended elements (i.e., gates, panels, etc.) must be hung not more than 10 cm (4") from their top edges.
6. Number of Jumping Efforts. Every course must contain a minimum of ten jumping efforts. Exceptions:
  - a. jump-off courses,
  - b. High Jump,
  - c. Six Bar.,
  - d. Puissance
  - e. Table II, Sec. 2(c) & Table II, Sec. 2(d) (see JP146.3(d) JP146.3(e))
7. Ratio of Spreads. At least three out of the first eight jumping efforts must be spreads. (Exceptions: Same as 6 above). For each additional four jumping efforts, one must be a spread.
8. Start and Finish Lines. A start line must be established at least 3.65 m (12') from the first obstacle and a finish line at least 7.30 m (24') from the last obstacle, each indicated by two markers at least 3.65 m (12') apart.
9. Change of Direction. There must be at least one change of direction in every course including jump-off courses. (Exception: Puissance, Six Bar and High Jump.)<sup>[SEP]</sup>
10. Combinations. At least one combination must be included in every course. (Exception: Combinations are prohibited in Puissance, High Jump, Fault and Out Time classes and classes scored on faults and time with choice of course. Combinations are optional in Jump-offs and classes held below .95 m (3'1") and in classes at Local Competitions.)
11. Permanent Obstacles. Competitions offering more than \$2,500 are encouraged to include banks, ditches and water jumps in their courses.

12. Single Rails. An obstacle composed of a single rail must not exceed 4'3" in height.
13. Crossed Rails. Double crossed rails (i.e., two pairs of crossed rails, with a spread between them) are prohibited, and care should be exercised in constructing single crossed rails to prevent abnormal difficulty.
14. Brush Obstacles. Brush obstacles must have a clearly visible rail placed above or beyond them.

## **JP126 Spread Obstacles**

1. Definition. A spread obstacle is an oxer, a triple bar, Liverpool, or a water jump with a width dimension. All courses require a minimum of three obstacles in which the spread exceeds the height by 5 cm (2") up to 15 cm (6"). (Exception: Puissance, Six Bars and special classes.) Refer to JP123.7 for required number of spreads.
2. Measurement. Spread obstacles are measured from their two outermost top extremities on a line parallel to the ground.
3. A solid element (i.e., coop, wall, etc.) may not be used as part of the further-most element. Only straight rails (not curved), may be used on the back of spread obstacles. Only a single rail may be used on the middle or back of a spread unless the lack of a second rail would leave an excessive gap between the top of the front element and later elements. Standards in which the rail rests on the top of the post are prohibited.

## **JP127 Combinations**

1. Definition. A double, treble, or multiple combination is composed of two, three or more obstacles with a maximum inner distance between them of 39'5", which must be taken in two, three or more successive jumps. The distance is measured from the base of an obstacle on the landing side to the base of the next obstacle on the take-off side. Any obstacles with 39'5" or less between them must be designated as a combination by numbering them with a single number and the use of A and B or A, B and C, or A, B, C, and D.
2. Pony Jumpers. In Pony Jumper classes, only the initial element of combinations may be a spread.

## **JP128 Permanent Obstacles**

1. Closed Combinations. Banks and sunken roads (Pulvermans) may be regarded as double, treble, or multiple, open or closed. The course designer must decide before the competition whether the obstacle is to be considered as closed or open, and this must be clearly specified on the plan of the course. (Note: Any completely closed obstacle or part of an obstacle in which a competitor, having jumped the first part, may not exit without jumping out or down should be designated as 'closed.')
- Each part must be jumped separately and faults are penalized separately. In the event of a disobedience inside a closed portion, the rider does not exit to re-jump the prior portion. The knockdown of a flag taking the place of a standard is scored. Any combination obstacle which is not described as closed on the plan of the course is considered an open combination.
2. Bank Jumps. A bank which has no associated obstacle or only a single rail may be taken in one effort without incurring penalty.

## **JP129 Water Obstacles**

1. General: A water obstacle is a jump which requires a horse to jump over water. A water obstacle may be used as an open water jump, a rail over a water jump, or as a liverpool.
2. Open Water Jump
  - a. Definition: An open water jump has no obstacle in front (except as noted in .5 below), in the middle, or behind the water.
    1. An open water jump must have a minimum width of 4.90 m (16') at the face.
    2. The water must have a minimum spread with at least 2.45 m (8') spread and must be dug into the ground.

3. The deepest point is determined according to a maximum rise of 5 cm (2") per foot of length which may not exceed 4.70m (15').
  4. When a concrete or metal water jump is used a secure mat at least 1 cm (1/2") thick must cover the entire obstacle.
  5. An obstacle with a minimum height of 40cm and a maximum height of 50cm, must be placed on the take-off side. Although counted in the calculation of the total width, these elements are not part of the obstacle and displacing them or knocking them down is not penalized.
  6. A white strip of wood (lath) or plasticine (which maybe a color that contrasts to the footing), approximately 10 cm (4") wide, must be used and should be placed as close to the water line on the landing side as possible. Several spare laths or pieces of plasticine must be provided so that when the lath or plasticine has been marked by a horse it is replaced.
  7. In classes of \$50,000 or more, plasticine must be used.
- b. Scoring:
1. Whether a lath or plasticine is being used, only a mark from the horse's hoof on the lath or plasticine, or a foot in the water is penalized; touching the lath or plasticine with the fetlock joint or boot is not.
  2. The limits must be clearly marked both on the take-off and the landing sides with visible flags. Flag poles must not be made of metal or unbreakable material and must be 6' to 8' in height.
  3. The knockdown of a flag marking the limits of an open water jump will not be penalized.
  4. Judges should stand at a position between the take-off and landing side, and not directly parallel to or beyond the landing lath, thus providing a good view of the lath and water.
3. Rail Over Water Jump
- a. Definition: A water obstacle may have one rail no higher than 1.00 m (3'3") over it. The rail must never be placed behind the center point and approximately 1/3 from the front is preferable. When the obstacle is built in this manner, extreme care must be taken not to create an optical illusion to the horse with a large gap between the take-off element and the rail, or of the lath and the rail appearing to produce a false ground line.
  - b. Scoring: When used in the manner described above, the rail and the lath, or only the rail may be judged. When only the rail is being judged, a foot in the water is not penalized. However, whenever the lath is being judged, a foot in the water is always penalized. The method of scoring must be indicated on the course diagram.
4. Liverpool
- a. Definition: A Liverpool is an obstacle built with water. The water may be used under, in front of or behind an obstacle (vertical or oxer). When used in this manner, the total width of the obstacle (including the water), may not exceed 2m. A vertical jump may be built over the center of a 3m or less water (up to a 3.60m water in 1.60m classes only). The rails may not exceed 1.50m in height and must be placed in safety cups.
  - b. Scoring: In all cases only the rail is scored.

### **JP130 Substitution of Obstacles**

When one or more of the original obstacles is sufficiently damaged to become unusable while a class is in progress and no duplicate is available, a Competition Committee must substitute obstacle(s) which approximate as nearly as possible the original obstacle(s).

### **JP131 Measuring Courses**

1. Measurement. Accurate measurement of courses is essential. Courses must be measured with a measuring wheel similar to those used by public utilities, by a measuring tape, or by computer or planimeter with the course laid out on an accurate scale drawing of the ring. A measuring wheel must be used for classes offering \$25,000 or more in prize money.

2. All courses must be measured as described in 1. above at competitions offering over \$2,500 in the Jumper Division. The judge should assure that the course has in fact been properly measured and the time allowed calculated according to the speed listed in the prize list.

### **JP132 Speed, Time Allowed, Time Limit, and Optimum Time**

1. Calculation. The Time Allowed to complete the course should be calculated from an actual measurement of the course's length for all rounds and jump-offs. However, if the number of turns on the course or the size of the ring suggests that the calculated Time Allowed may prove unfair in practice, speed may be adjusted prior to the start of the competition.
2. Speed. The Time Allowed is based on a minimum speed of 350 meters per minute (382 yards per minute). If a speed other than 350 m/m (382 yards per minute) is to be used, it must be printed in the prize list. Where the arena size is 5,000 square meters or more (approximately 55m x 90m [180ft x 300ft]) the maximum speed to be used for any division shall be 375 meters/min. In arenas of less than 5,000 square meters the maximum speed to be used shall be 350 meters/minute.
3. Reference Times. The Time Allowed must be announced and posted prior to the start of the class. After the first competitor has completed their round, the Time Allowed and the competitor's time should be announced. In cases where an electronic read out board is not visible to riders in the in-gate area, the reference times for the first three riders should be announced.
4. Adjustment of the Time Allowed. The Time Allowed may be adjusted at the sole discretion of the Judge(s), if they feel it is inaccurate, but only after consultation with the course designer. However, the time allowed may only be adjusted once during the early rounds of a given competition, never later than after the third competitor to complete the course without a disobedience or if any of the first three take more than 45 seconds to cross the start line. The time allowed can never be lowered so that time faults will be awarded to any previous competitor that has started the course within the 45 seconds and completed the course without a disobedience.
5. Time Limit. The 'Time Limit' is defined as double the Time Allowed.
6. Optimum Time. For classes scored under Table IV the optimum time is defined as 4 seconds less than the Time Allowed.

### **JP133 Posting and Walking Courses**

1. Time for Posting. Courses must be posted at least one-half (1/2) hour before the scheduled time of the class. Classes may not be started prior to that time without permission of all exhibitors.
2. Course Plan. The plan or diagram of the course, including the Speed, Time Allowed, length of course, start and finish, and jump-off course, must show the obstacles which must be jumped with the order indicated by number. Apart from this, unless designated by the course designer by the use of a solid line between obstacles on the course plan, the rider is not bound to follow a compulsory track. An arrow is used to indicate the direction in which each obstacle must be jumped. Closed combinations and option fences must be clearly marked. For all classes of \$25,000 or more, and classes restricted to five, six, and seven year olds, the posted course plan must include the height and spread of each obstacle.
3. Walking the Course. A competitor cannot enter the arena until course and judge are ready. However, riders may be permitted to inspect the course on foot prior to commencement of the class at management's discretion.

### **JP134 Judge(s) Inspection of Courses**

1. The judge should assure that the course has been properly set according to specifications indicated in the prize list, and that it has been measured and the Time Allowed calculated properly, and call attention to any errors that would result in unfair or inappropriate courses. The judge should also ensure that any or all obstacles have been appropriately reset after disruption of any kind during the competition. For all classes of

\$25,000 or more, the Senior Judge must physically inspect the course to ensure that the obstacles are set at the correct dimensions (Standard) as stated in the prize list.

2. At Licensed Competitions when no licensed course designer is present, stated dimensions of height and width indicated in the prize list may be altered, according to all provisions of JP123, only when requested by the judge.

## **JP135 Jump-Off Courses**

1. Obstacles. Jump-offs are held over obstacles from the original course that may include obstacles not included in the initial round. In a jump-off, any sequence of obstacles in either direction may be employed. Obstacles may be raised, lowered, broadened or narrowed. In Table II Sec. 2(b) classes, it is recommended that course designers incorporate at least two new obstacles set at jump-off height. There must be at least one change of direction.
2. Number. Courses may be shortened after the first round and must be shortened if there is more than one jump-off. (Exception: Six Bar classes.) The jump-off course may not be shortened to less than six jumping efforts and must include at least one vertical and one spread obstacle. Exceptions:
  - a. Puissance classes.
  - b. Table 11, Sec 2 (c) (see JP146.3.d)
  - c. Table 11, Sec 2 (d) (See JP146.3.e)

## **SUBCHAPTER JP-6 SCORING**

### **JP136 General**

1. In principle, jumpers are scored on penalties incurred between the start line and finish line. A competitor, after receiving the signal to begin their round, is not being scored on penalties incurred from knockdowns or refusals until crossing the start line in the proper manner. However, in the event of a fall of a Horse and/or Rider at any time from the moment the Horse/Rider combination enters the Competition ring, whether or not the signal to start has been given, the combination will not be permitted to start in the round or Class in question.
  - a. Penalties apply for late falling rails:
    1. after crossing the finish line but before leaving the ring, or
    2. before the tone sounds for the start of the next round.
  - b. A competitor will be scored on penalties incurred before crossing the start line in the proper manner for:
    1. taking more than 45 seconds to jump the first obstacle after the time of the rounds has begun;
    2. jumping an obstacle before crossing the start line, unless said obstacle is designed as a practice obstacle or after crossing the finish line, whether forming part of the course or not; or
    3. actions against a horse deemed excessive.
2. Penalty faults include disobediences, falls, knockdowns (while in the process of jumping an obstacle) and time penalties. No more than one penalty may be scored at each attempt. If an obstacle is knocked down or displaced for any reason other than it was caused by jumping or an attempt to jump, no penalty is incurred.
3. Verticals. When an obstacle is composed of several elements in the same vertical plane, a fault at the top element is the only one penalized.
4. Spreads. When an obstacle to be taken in one effort is composed of several elements not in the same vertical plane (i.e., oxer, triple bar, etc.) faults at more than one element are penalized only once. Judges must pay attention when a rail is placed over or slightly behind a standing element. This could result in confusion in scoring and exactly how it will be scored must be determined by the judge(s) before the class begins.

5. Combinations. In combinations, the faults committed at each element are scored separately. In case of refusal or run-out at one element of a combination (and upon the judge's signal that the obstacle has been reset, if necessary), the competitor must re-jump the entire combination. (Exception: Closed obstacles).
6. Broken Equipment. In cases of broken equipment or loss of shoe while on course, the rider must continue if they wish to avoid penalty, or may retire.
7. Setting a Standard. After the first round of the first class in any section, management or the judges may order a competitor from the ring when it becomes evident that their performance prohibits them from being in the ribbons.
8. Courtesy Fence. An eliminated competitor has the right to make one attempt to jump an additional single obstacle, which the judge(s) may designate, but may not continue thereafter. (Exception: The right to attempt an additional obstacle does not apply to Fault and Out classes or in the case of the fall of the horse or rider.)
9. Exiting the Arena. Any competitor who does not leave the ring promptly at the end of the round or after being eliminated is liable for a fine of up to \$100 payable to The Federation, and may be disqualified from future classes during the competition at the discretion of the judge(s). Any competitor at the end of their round who does not leave the arena through the designated gate(s) (e.g. jumping out of the arena), is eliminated. Leaving the ring before crossing through the start markers to begin their round will not incur penalty. Exception: JP146.3.b leaving the ring anytime while on course results in elimination.
10. Outside Assistance. Riders receiving physical assistance from outside the ring (i.e., lunge whips, etc.) while on course will be eliminated. (Note: This does not apply to riders between rounds in Table II Sec. 2(b) or Table IV Sec. 2(b) competitions provided the rider begins their jump-off within the limits of JP136.) To hand a mounted Athlete their headgear and/or spectacles during their round is not considered to be outside assistance.
11. Jumping Obstacles Not Part of the Course. Under penalty of elimination and possible fine (not to exceed \$250 made payable to the Federation), any obstacle in the arena which requires a jumping effort, whether flagged or not, may not be jumped by a competitor at any time while in the arena except as it may constitute a part of the current competition. Exception: Natural obstacles, which are not numbered and flagged, may be jumped unless specifically crossed off in the field or noted as crossed off on the course plan by the course designer, after consultation with the judge(s). [Questionable items in arena that will be scored may need to be pre-determined by the judges and so noted and announced prior to start of class.]
12. Obstacle Not Properly Set. If a competitor jumps an obstacle that has not been reset, or has been reset improperly, due to it being downed by a previous competitor, the weather, or some other factor, the competitor receives no penalty. However, if the competitor knocks down the obstacle they will be penalized accordingly.
13. Competed. A competitor is considered to have competed only after they have entered the ring, and received the signal to start. Competitors who are unable to complete the first round of a competition have no right to any prize, with the exception of Fault & Out, Gamblers Choice or other classes with special rules with requirements as to the finish.
14. A horse may enter a class Hors Concours at Competition Management's discretion and this must be determined prior to the start of the class. A horse shown in a given class may not enter that class again as Hors Concours. If a horse competes Hors Concours, the horse cannot compete in a subsequent class for prize money in the same ring on the same day. However, the rider of an Hors Concours horse may compete in subsequent classes.
15. Failing to Complete. A competitor failing to complete a particular round shall have the reason recorded on the judge's card as follows:

- a. Withdrew (WD), or did not start (DNS) indicates that the competitor failed to enter the arena within one minute of being called. The time for entering the ring must be enforced by management. To prevent unfairness to an exhibitor, management may extend the time for entering the ring.
  - b. Retired (RT) indicated that the competitor voluntarily retired prior to completing their round.
  - c. Eliminated (E or EL) indicates that during their round the competitor was eliminated by the judge for any of the various reasons indicated in these rules.
16. Points Not Covered in Rules. Judges have the authority to make decisions on any point not covered in the rules applying to class procedure, scoring, and conduct affecting a class under their jurisdiction.
17. A protest may not be made against a judge's decision occurring in the competition ring, provided it is not in violation of Federation rules. Decisions such as, but not limited to:
- a. Where the decision is based on a factual observation of performance during a class; whether an obstacle was knocked down; whether a horse was disobedient; whether a horse refused at an obstacle or knocked it down while jumping; whether a rider or horse has fallen; whether a horse circled in a combination or refused or ran out; the time taken for the round; whether an obstacle was jumped within the time; and/or whether, the particular track followed by a rider caused them to incur a penalty under the applicable rules.
  - b. The Elimination or Disqualification of a horse for soundness reasons.
  - c. The Elimination or Disqualification of a rider for medical reasons/fitness to compete.
  - d. The imposition of a Warning without additional penalties or of a Yellow Warning Card.
  - e. Elimination and/or Disqualification during an event.

## **JP137 The Competition Round**

1. Starting and Finishing. In order to receive a score other than "Withdrew (Did Not Start)," "Retired," or "Eliminated":
  - a. The horse must cross the start line between the markers in the proper direction with the rider mounted. Passing through the starting markers in the improper direction before starting, does not incur penalty. Competition Management and/or the judge(s) may permit or disallow a rider to lead a horse into the ring prior to mounting.
  - b. The horse must cross the finish line between the markers in the proper direction and with the rider mounted. (Exception: Fault and Out or other classes with special rules regarding the finish)
  - c. The horse must jump all of the required fences between the start and finish markers.
  - d. The horse must not resist for 45 consecutive seconds or take more than 45 seconds to jump the first obstacle after the time of the round has begun. The horse must not take more than 45 seconds to jump the next obstacle on course, including after the tone has sounded following a time out.
  - e. The horse must not be eliminated for other prohibited actions that might occur while the horse is in the competition arena. (Exception: Fault and Out classes.)
2. Entering the Arena. Failure to enter the ring within one minute of being called incurs elimination. The time limit for entering the ring must be enforced by management. To prevent unfairness to an exhibitor, management may extend the time limit for entering the ring.
3. Time to Start. A competitor will have 45 seconds from the time the judge(s) sound an audible signal to cross between the start markers in the proper direction and start on course. If a competitor does not cross through the start line within the allotted time, the time on course will start when the allotted time expires. A count-down clock visible to the rider must be in use for any class offering \$2,500 or more in prize money.
4. Use of Audible Signal. An audible signal (bell, horn, whistle, gong or buzzer) is sounded for the following purposes:
  - a. to give the signal to start;
  - b. to stop a competitor in the event of an unforeseen incident (which also designates a time-out);
  - c. to interrupt the 45-second period which a rider has to begin the course in the event of an unforeseen incident;
  - d. to indicate that an obstacle has to be reset before being retaken after it has been knocked down during a refusal (designating a time-out);
  - e. to give the signal for a competitor to continue their round after an interruption. See JP138.2 and .3.

- f. to indicate by repeated and prolonged ringing that the competitor has been eliminated; and
- g. to indicate that the rider should not proceed to the jump-off round in a Table II Sec. 2. (c) class, or a Table IV(c) class.

## JP138 Timing

1. Starting & Stopping. Time is taken from the instant the horse passes through the start markers in the proper direction or upon the expiration of 45 seconds following the sounding of the audible tone, until it reaches the finish line. The Judges have the right to interrupt the 45-second countdown if unforeseen circumstances occur and/or, if the welfare of the horse is involved, temporarily excuse the competitor, allowing them to return at a later period in the class. Incidents such as, but not limited to disobediences, etc., occurring between the signal to start and the moment the competitor crosses the starting line in the correct direction, are not penalized. The Ground Jury, in its discretion, if the situation so warrants, has the right not to activate the start or to cancel the starting procedure, give a new signal to start and restart the countdown.
2. If a rider stops to fasten their chin strap, they must indicate to the judge that there is an issue with their chinstrap. The rider is not penalized for halting to refasten the chin strap, but the clock will not be stopped. This also applies to the loss of headgear. See also JP 111.10.
3. If as a result of a disobedience a competitor displaces or knocks down any obstacle or a flag marking the limits of the water jump, of a natural obstacle or in all cases where the nature of the obstacle is changed by knocking down the flag, the tone is sounded and the time is stopped until the obstacle has been rebuilt. When the obstacle has been rebuilt, the tone is sounded to indicate that the course is ready and that the competitor can continue the round. The competitor is penalized for a refusal and a time correction of 6 seconds is added to the time taken by the competitor to complete their round. The time is restarted at the moment when the horse leaves the ground at the obstacle where the refusal occurred.
4. Additional Time Out.
  - a. If a rider is forced to hold up due to a fence not being reset or reset improperly, or knocked down or displaced for any reason other than it was caused by jumping or an attempt to jump, (a previous competitor, the weather, or some other factor), the tone will sound, and time will be stopped while the fence is being rebuilt. No penalty is incurred and 6 seconds is not added to their time. After the fence is rebuilt, the tone is sounded, and the time is restarted when the rider is as close as possible to the place on the course when the time was stopped.
  - b. If the rider does not stop when the tone is sounded, the rider continues at their own risk, and the time should not be stopped. The judges must decide whether the rider is to be eliminated for ignoring the order to stop, or whether they should be allowed to continue.
  - c. If a competitor jumps an obstacle that has not been reset, or has been reset improperly, or due to it being downed by a previous competitor, the weather, or some other factor, the competitor receives no penalty. However, if the competitor knocks down the obstacle they will be penalized accordingly.
  - d. If a knockdown occurs following a refusal, but not as a result of the refusal, the time is stopped and the fence is rebuilt. No additional penalty is incurred and 6 seconds is not added to their time. Once the fence has been rebuilt, the tone is sounded and the time is restarted no matter where the rider might be on the course.
5. If a disobedience with the knock down in .3 occurs at the second or subsequent part of a combination, the time is restarted when the horse leaves the ground at the first element of the combination. Elements knocked down preventing a horse from jumping the next obstacle must be removed, even if time must be taken out for this purpose.
6. On Course. After the signal to start has sounded, a competitor must pass through the start markers in the proper direction to be considered on course. (See JP136.1)
7. Time Faults. One (1) time fault will be charged for each commenced second by which the time allowed is exceeded in any class for which time is a factor in scoring.
8. Exceeding the Time Limit. Any competitor whose time including penalty seconds which might have been assessed for time-out(s), as described under 2 and 3 above, exceeds the Time Limit is eliminated. The 'Time Limit' is defined as double the Time Allowed.

9. Option Fences. At any obstacle marked as an option on the course plan, in the event of a disobedience at one portion, the competitor has the right to attempt either portion in their following attempt. However, in the case of a displacement of any part of the obstacle, the tone must be sounded and all portions must be reset prior to the continuation of the round.
10. During rounds where time is a deciding factor, a re-jump of the entire course may only be considered as an option if there is no automatic or manual time due to very exceptional circumstances. In these cases a competitor may elect not to re-jump the course and instead be placed after competitors with equal faults. If a re-jump does take place, the original score will be void.

*BOD 06/17/24 Effective 12/01/24*

## **JP139 Disobediences**

1. Refusal. Stopping in front of an obstacle to be jumped, whether or not the horse knocks it down or displaces it, is penalized as a disobedience. Stopping at an obstacle without knocking it down and without backing, followed immediately by jumping from a standstill, is not penalized. However, if the halt continues, or if the horse backs even a single step or circles to retake the course, a refusal is incurred.
2. Run-out. Evading or passing the obstacle to be jumped or the finish line or jumping an obstacle outside its limiting markers is penalized as a disobedience.
3. Resuming the Course. After a run-out or refusal the competitor must, before proceeding on course, re-jump the obstacle at which the disobedience occurred or be eliminated. If the flag, standard, wing, or obstacle has not been reset when the competitor is ready to jump, they must await the signal to start or be eliminated. (For Option Fences, see JP138.9)
4. Loss of Forward Movement. Halting or stepping backward after crossing the start line, (unless due to a refusal, run-out or an order from a judge due to unforeseen circumstances such as a fence being blown down), will be penalized as a disobedience. Loss of forward movement on banks will not be scored as a disobedience unless the horse takes a step backwards.
5. Circling. Any form of circle or circles whereby the horse crosses its original track between two consecutive obstacles (start and finish included), or stops advancing toward or turns at least 180 degrees away from the next fence, or finish line, except to retake an obstacle after a disobedience, is considered a disobedience. This is a judgment call. (NOTE: Coming sideways or zigzagging toward an obstacle does not constitute a disobedience unless the horse passes or turns its back to the next obstacle or the finish line).

## **JP140 Falls**

1. The first fall of horse or rider results in elimination, except in classes in which special rules apply. (Fault and Out, Top Score, etc.)
2. A rider is considered to have fallen when they are separated from their horse, which has not fallen, in such a way as to necessitate remounting or vaulting into the saddle.
3. A horse is considered to have fallen when the shoulder and haunch on the same side have touched the ground or an obstacle and the ground.
4. In the case of a fall at any time in the competition ring, the rider may not remount.

## **JP141 Knockdowns**

1. Definition. An obstacle is considered knocked down when in jumping an obstacle, a horse or rider, by contact:
  - a. changes any part thereof which establishes the height of the obstacle or the height of any element of a spread obstacle, even when the falling part is arrested in its fall by some other portion of the obstacle; or
  - b. moves any part thereof which establishes the height of the obstacle so that it rests on a different support from the one on which it was originally placed.
2. Special Circumstances. Should a pole resting in a cup come to rest on the lip of the cup, or on a bracket which is an integral part of the cup, or in the case of a safety cup where all parts of the cup are still attached to the sleeve it is not considered a knockdown. Narrowing the width of a spread obstacle without altering the

height of any elements as defined above is not considered a knockdown. If, while in the process of being jumped, the top element is struck in such a fashion that it changes the height of the jump, with both ends remaining in the cups and nothing else supporting the top element, it is scored as no faults.

## **JP142 Off Course**

A competitor is considered off course when they deviate from the course as shown by the diagram and jumps an obstacle prior to rectifying the deviation.

## **JP143 Breaking Ties**

1. Competitors who withdraw, retire or are eliminated from a Jump-off:
  - a. A competitor who is eliminated in a jump-off will be tied with a competitor who retires and will be placed last of the competitors who have completed that jump-off.
  - b. A competitor who withdraws (does not participate) from a jump-off must always be placed after a competitor(s) eliminated or who retires while on the course.
2. Even if only one competitor is willing to participate in the jump-off they are required to enter the arena and receive the signal to start in order to earn top placement.
3. Withdrawing From a Jump-Off. If a competitor wishes not to take part in a jump-off they must notify the judge(s). The competitor will be placed last of those still qualified (on the result of the previous round). Exception: JP146.3.g.
4. Except in Fault and Out classes, when two or more horses incur the penalty of elimination during a jump-off, they remain tied regardless of the cause of elimination or the point at which the penalty was incurred. A competitor who does not take part in a jump-off must always be placed behind a competitor who has been eliminated in the same jump-off.
5. Same Ownership. Whenever tied horses are under one ownership or management, the competitor may designate the order of placement.
6. Any competitors that compete in the jump off and are still tied for any placing (i.e. 1st, 2nd, 3rd, etc.) shall remain tied unless otherwise stated in the prize list. Prize money and Championship points shall be combined and divided equally among the tied competitors.
7. Competitors who are tied for other than first place in all Jumper sections may either remain tied, the prize money being divided equally among them, or be placed according to the time taken to complete the course. The method of breaking ties must be stated in the prize list and on the judge(s)' cards. If the competitors remain tied, riders must toss a coin for the ribbons, unless management chooses to provide additional ribbons. If points are awarded, points should be added and divided equally among the competitors. A judge or steward must conduct the breaking of ties when they are to be determined by the tossing of a coin.

## **JP144 Violations**

1. Course Requirements. In cases in which Federation course requirements have not been met and the violation has not been observed and corrected prior to the first competitor's performance, the class must be completed without altering the course, and the result stands for purposes of the Competition Championship. (Federation stewards are required to specify all such classes in their steward's reports, having first verified the violation and apprised the competition secretary of it.)
2. Scoring Irregularities. Possible violations, such as judges' or time-keepers' incorrect application of class conditions, etc., must be reviewed, as soon as feasible, by a committee consisting of the judges, Federation steward, a representative of management and the exhibitors directly concerned, and every effort should be made to find a mutually satisfactory solution.
3. Use of Video. The Senior Judge, alone or with other members of the judge's panel, may, at their discretion, view an official video recording of all or part of a class in order to verify decisions involving scoring. A review of an official video recording is solely at the discretion of the Senior Judge. The Senior Judge may consult with a licensed 'R' Judge who may or may not be officiating at that competition. Upon review of such video

recording, provided it is made available within 60 minutes after the results are announced the Senior judge may make corrections to the placing of the class. An official video recording is considered to be a recording made by the designated host broadcaster and/or a designated official video recording company as named by horse show management. Only under certain circumstance when there is no official video recording the Senior Judge may consider using a private video. Note: A video may never be used to establish the time of a round.

## JP146 TABLE II—Classes scored on Faults and Time

1. Clear Round (Table II) - The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. Horses with clear rounds or equal faults remain equal.
2. Time First Round (Table II, Sec. 1)—The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. Horses with clear rounds or equal faults are classified according to their time taken to complete the course. (Note: it is recommended that Table II Sec. 1 be conducted over a Table II course rather than a Table III course.)
3. Time first jump-off
  - a. Table II, Sec. 2 (a)—The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the event of equality of faults after the first round, there will be one jump-off for first place only in which time will decide in the event of equality of faults.
  - b. Table II, Sec. 2 (b)—The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. If a competitor has gone clear in the first round, the competitor will, without leaving the ring, upon an audible signal, commence the designated jump-off course. A competitor with a clear round may dismount, and with assistance if necessary, adjust tack and/or equipment; however, upon the audible signal to begin their round, the competitor is responsible to adhering to the 45 seconds rule as per JP137.3. In case of a fall of a Rider and/or Horse after crossing the finish line of the first round, the Rider/Horse combination may not continue to the jump-off, and will be placed according to their Score in the first round. A competitor who leaves the arena after a clear round (before or after the tone) will be considered to have withdrawn from the jump-off (exception JP138.1). If there are no clear rounds and a tie exists for first place, the results will be determined by the scores and time from that round. It is recommended that no more than twelve numbered obstacles be included in the first round when the class is scored under this table.
  - c. Table II, Sec. 2 (a/b)—Each exhibitor has the option of taking part in the jump-off at the completion of their round as in 2(b), or after all exhibitors have completed the first round as in 2(a). If there are no clear rounds and a tie exists for first place, a jump-off will be held with those tied for first place.
  - d. Table II, Sec. 2 (c)—Two Phase Competitions - The first phase to consist of 8 to 10 jumping efforts and the second phase of 5 to 7 jumping efforts. Scores are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed if any. If a competitor has gone clear in the first phase, they will, upon crossing the finish line, commence the second phase course. Time starts as the horse crosses the finish line of the first phase. If there are no clear rounds and a tie exists for first place, the results will be determined by the scores and time from the first phase. The use of a Time Allowed is optional in the first phase. If a Time Allowed is not used in the first phase then those with equal faults will remain tied.
  - e. Table II, Sec. 2 (d)—Two Phase Competitions - Each phase will consist of 5 to 7 obstacles. Scores are decided by adding together the faults incurred over both phases and any penalties for exceeding the Time Allowed if any. Whether or not a competitor has gone clear in the first phase, they will, upon

crossing the finish line, commence the second phase course. Time starts as the horse crosses the finish line for the initial course. The use of a Time Allowed is optional in the first phase.

- f. Table II Sec.2(e)—Time first jump-off with designated number of competitors to jump-off. The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, if any. Following the first round a pre-determined number of competitors based on faults and time will compete in one timed jump-off round in which time will decide in the event of equality of total faults from both rounds. One of the following options must be used:
  1. The pre-determined number must be from 6 to 16 but in no case more than the number of places to be awarded, the exact number to be indicated in the prize list (exception: all clear rounds return). The order of go for the jump-off round will be reverse order of scores (faults and time) from the first round. Adjustment of this order, in the case of one rider qualifying multiple horses, may be allowed at management's discretion.
  2. The pre-determined number must be from 6 to 16 but in no case more than the number of places to be awarded, the exact number to be indicated in the prize list. Those tied for the final predetermined number, including clear rounds, will be determined by their time in the first round. The order of go for the jump-off round will be reverse order of scores (faults and time) from the first round. Adjustment of this order, in the case of one rider qualifying multiple horses, may be allowed at management's discretion.
- g. Table II Sec.2(f)—Time first jump-off with designated number of competitors to jump-off. The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, if any. Following the first round a pre-determined number of competitors based on faults and time will compete in one timed jump-off round in which time will decide in the event of equality of total faults from both rounds. The pre-determined number must be from 6 to 16 but in no case more than the number of places to be awarded, the exact number to be indicated in the prize list (exception: all clear rounds may return). However, in this jump-off the clear rounds will be competing against other clear rounds, 4 faults will be competing against other 4 faults, 8 faults against other 8 faults, etc. A competitor in the jump-off cannot be beaten by another competitor who returns for the jump-off with a greater number of faults. If a competitor qualifies for the jump-off but there are no other competitors with equal faults, that competitor will not be required to jump-off. The order of go for the jump-off round will be reverse order of scores (faults and time) from the first round. Adjustment of this order, in the case of one rider qualifying multiple horses, may be allowed at management's discretion. If a competitor who qualifies for the jump-off is tied with another competitor and chooses not to jump-off, they will be placed last of those competitors with equal faults from the first round.
4. Time Second Jump-off (Table II, Sec. 3)—The first round, first jump-off and second jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the event of equality of faults after the first round and first jump-off, if any, there will be a second jump-off for first place only in which time will decide in the event of equality of faults.
5. Fault and Out (Table II, Sec. 4)—These competitions are timed and take place over medium sized single obstacles (combinations are not permitted). The competitor's round finishes with the first fault incurred under Table II. Points are awarded instead of faults, two points being awarded for each obstacle jumped clear and one point for the obstacle knocked down. The winner is the competitor who scores the greatest number of points. Time will decide in the event of equality of points.
  - a. If the fixed time is reached at the moment when the horse is already taking off, this obstacle counts whether it is knocked down or not. If a fall or disobedience occurs after landing, the horse is scored as though the fault had occurred at the next obstacle. When the penalty of elimination is incurred, the rider is credited with obstacles cleared.
  - b. When an obstacle is knocked down or the Time Allowed, if there is one, has been reached, a signal is sounded. The competitor must then jump the next obstacle and the clock is stopped at the moment the horse's forefeet touch the ground. No points are scored for obstacles jumped after the signal has been sounded.

- c. When a fault constitutes a disobedience or fall, or when the rider is eliminated or does not jump the obstacle at which the clock should have been stopped, the signal is sounded, and the competitor is placed last of those gaining an equal number of points.
- d. Fault and Out classes can be conducted in one of two ways; which must be designated on the course plan as either:
  - 1. Once Around, in which case the maximum number of obstacles to be jumped is fixed, and the clock is stopped when the competitor crosses the finish line, or
  - 2. With a Fixed Time Allowed which must not be set at less than 50 seconds, nor more than 60 seconds. If the competitor has jumped all the obstacles before the expiration of the Time Allowed, they start around the course again but is not required to go back through the start markers.

## **JP147 TABLE II—Classes scored on Faults Only**

Time does not apply for any purpose except as provided for in JP145.7 through JP145.9 of the Table of Faults.

1. Knock Down and Out (Table II, Sec. 5) The winner to be the competitor clearing the most obstacles without a fault.
2. Puissance (Table II, Sec. 6). The initial round will comprise from 4 to 6 single obstacles of which at least one must be a vertical obstacle. The first obstacle must be at least 1.40 m (4' 7") in height, two obstacles from 1.60 m (5' 3") to 1.70 m (5' 6") and one wall or vertical obstacle, which may vary from 1.70 m (5' 6") to 1.80 m (5' 9") in height. All combination obstacles, water jumps, ditches and natural obstacles are forbidden. It is permissible to use a wall with a sloping face on the take-off side (maximum slope of 30 cm (12") offset at the base).
  - a. A vertical obstacle instead of a wall may be used, in which case, planks with a pole on top may be used as a substitute.
  - b. In the event of equality for first place, there must be successive jump-offs over two obstacles, which must be a wall or a vertical obstacle and a spread obstacle.
  - c. In the jump-offs, both obstacles must be increased regularly in height and the spread obstacle also in spread. The vertical obstacle or wall may be increased in height only if competitors equal for first place have not been penalized in the preceding round.
  - d. If, at the end of the third jump-off, there is no single winner, the Ground Jury may stop the competition at its discretion. After the fourth jump-off, the Ground Jury MUST stop the competition. The competitors left in the competition will be placed equal first.
3. Six Bars (Table II, Sec. 7) This is a test of power and skill outside the category of doubles, trebles or multiples. Six obstacles are placed in a straight line with a distance of approximately 11 m (36') between each of them.
  - a. If the size of the arena or other conditions warrant it, the number of obstacles may be reduced to five.
  - b. The obstacles are of identical construction and type.
  - c. At the choice of management, the obstacles may be either: a) all the same height, such as 1.20m (4'0") or b) at progressive heights.
  - d. If the competitor knocks down any of the obstacles, they do not stop but must continue the course. If the horse refuses or runs out, the rider must resume the course at the obstacle at which the fault occurred and is permitted to make their approach from outside the space between the two obstacles, thus jumping the fence at an angle.
  - e. Only those without fault in the preceding round are entitled to take part in the next round. If there are not sufficient clear rounds for the placement, ties are broken as provided in JP143.6.
  - f. If, at the end of the third jump-off, there is no single winner, the Ground Jury may stop the competition at its discretion. After the fourth jump-off, the Ground Jury MUST stop the competition. The competitors left in the competition will be placed equal first.

## **JP148 TABLE III—Faults Converted Into Seconds**

1. Faults incurred when jumping an obstacle, for putting one or more feet in the water, or on the marking lath are penalized by adding four seconds for each occurrence. In indoor arenas or smaller rings, competitors may be penalized with three (3) seconds added for each occurrence at the discretion of the Senior Judge. Time penalties (3 or 4 seconds) must be listed on the course plan.
2. A Time Limit of 120 seconds will be automatically applied. (180 seconds for courses over 600m.) Seconds added due to jumping faults do not count towards the 120 or 180 second time limit determination.
3. The first disobedience is penalized automatically by the extra time taken. Causes of elimination in Table of Jumping Faults JP145.3 through .19 apply.

## **JP149 TABLE IV—Optimum Time Classes**

Classes are scored on Faults under Table II, however, all ties are broken on the basis of Optimum Time.

1. Optimum Time in First Round (Table IV Sec. 1)—The first round is decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In the case of equality of faults, ties will be broken on the following basis: an “Optimum Time” (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc.
2. Optimum Time in First Jump-Off
  - a. Table IV Sec. 2 (a)—The first round and first jump-off are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. In case of equality of faults, ties will be broken on the following basis: an “Optimum Time” (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc.
  - b. Table IV Sec. 2 (b)—The first round and first jump-off are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed. If a competitor has gone clear in the first round, the competitor will, without leaving the ring, upon an audible signal, commence the designated jump-off course. In case of a fall of a Rider and/or Horse after crossing the finish line of the first round, the Rider/Horse combination may not continue to the jump-off, and will be placed according to their Score in the first round. A competitor with a clear round may dismount, and with assistance if necessary, adjust tack and/or equipment; however, upon the audible signal to begin their round, the competitor is responsible to adhering to the 45 seconds rule as per JP137.3. A competitor who leaves the arena after a clear round (before or after the tone) will be considered to have withdrawn from the jump-off (exception JP138.1). In the case of equality of faults in the jump-off, ties will be broken on the following basis: an “Optimum Time” (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc. If there are no clear rounds and a tie exists, the results will be determined by the scores and time from that round. It is recommended that no more than twelve numbered obstacles be included in the first round when the class is scored under this table.
  - c. Table IV Sec. 2 (c) – Two Phase Competitions - The first phase to consist of 8 to 10 jumping efforts and the second phase of 5 to 7 jumping efforts. Scores are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed if any. If a competitor has gone clear in the first phase, they will, upon crossing the finish line, commence the second phase course. Time starts as the horse crosses the finish line of the first phase. In the case of equality of faults in the second phase, ties will be broken on the following basis: an “Optimum Time” (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to this Optimum Time (over or under) will prevail in the tie, next closest next, etc. If there are no clear rounds in the first phase, the results will be determined by the scores and time from the first phase using the basis described above.

## JP150 Special Classes

1. Top Score/Gambler's Choice Competition (FEI Rules for Jumping Art. 270)
  - a. In this competition, a certain number of obstacles are set up in the arena. Each obstacle carries from 10 to 120 points according to its difficulty. Combination obstacles are not allowed. The obstacles must be built so that they can be jumped in both directions.
  - b. The points allocated to the obstacles may be repeated at the discretion of the Course Designer. If it is not possible to place 12 obstacles in the arena, it is up to the Course Designer to delete the obstacles they wish.
  - c. The competitor is credited with the number of points carried by each obstacle that they have jumped correctly. No points are awarded for an obstacle knocked down.
  - d. Each competitor has 45 (minimum) to 90 seconds (maximum). During this time, they may jump all the obstacles they wish in any order and in any direction. The competitor may cross the starting line in either direction. The starting line must be provided with four flags; a red and a white flag at each end of the line.
  - e. Ringing the bell declares the end of the round. The competitor must then cross the finishing line in one direction or the other to allow their time to be recorded. If they do not cross the finishing line, they are placed last of the competitors with the same number of points. The finishing line must be provided with four flags; a red and a white flag at each end of the line.
  - f. If the fixed time is reached at the moment when the horse is already taking off (front hooves off the ground), this obstacle counts if it is correctly jumped.
  - g. Any obstacle knocked down during a round will not be rebuilt; if it is jumped again, no points will be credited to the competitor. The same applies for knocking down an obstacle in disobedience or for displacing a lower part positioned in the same vertical plane. In the case of a disobedience without a knock-down, the competitor may jump that obstacle or continue to the next obstacle.
  - h. Each obstacle may be jumped twice. The act, voluntarily or not, of jumping an obstacle for the third time or of passing between the flags of an obstacle for the third time or of passing between the flags of an obstacle already knocked down does not incur elimination. However, the competitor does not score the points allotted to this obstacle.
  - i. All disobediences are penalized by the time lost by the competitor. The competitor must stop after a fall. Nevertheless, they are placed according to the points obtained up to the moment of their fall disregarding the time.
  - j. The competitor who has obtained the highest number of points will be declared the winner. In the event of equality of points, the fastest time taken between the starting line and the finishing line will decide. In the event of equality of points and time for first place, there will be a jump-off according to the same formula with a fixed time of 40 seconds.
  - k. There are two options for using a Joker:
    1. An obstacle may be provided in the course duly marked by flags and titled "Joker". The Joker may be jumped twice; 200 points are awarded each time this obstacle is jumped correctly, but if it is knocked down, 200 points must be deducted from the total points obtained so far by the competitor.
    2. The Joker is not part of the main course. After the fixed time has expired, the bell is rung to end the competitor's round. The competitor must cross the finishing line to have their time recorded they then have 20 seconds in which to attempt the Joker. Only one attempt at the Joker is allowed. 200 points are awarded if this obstacle is jumped correctly, but if it is knocked down 200 points must be deducted from the total points obtained by the competitor.
2. Take Your Own Line. This competition takes place over a course of about ten obstacles scored under Table 2 or 3 as stated in the prize list. After crossing the start line, the competitor must jump each obstacle in either direction, in any order and cross the finish line.
  - a. If a competitor incurs a refusal, they may proceed to another obstacle. However, if the standard or flag is knocked down or displaced, the judge gives an audible signal, the clock is stopped and six seconds added to the time taken by the competitor to complete their round. The time is restarted at the moment when the horse leaves the ground at its next obstacle. Upon signal to proceed, the competitor may continue their round, re-attempting the obstacle refused or any other obstacle on the course not previously jumped.

- b. A first refusal is penalized only by time. The second refusal incurs elimination. (Exception, see JP145.4 and .5)
3. High Jump. Conducted over a single obstacle, starting at approximately 4'6" or 5'. A double set of wings or their equivalent must be used.
    - a. Each competitor is allowed three attempts to clear a particular height and receives three points for clearing it at the first attempt, two for the second and one for the third. Points are cumulative from start to finish of class. Failure on the third attempt eliminates.
    - b. Winner is the competitor clearing the greatest height, or an equal height with a greater number of points.
    - c. A practice obstacle, which is not scored, may be jumped before each attempt. If all competitors are brought into the ring before the start of the class and held there during class, a start mark must be established at an appropriate distance from the obstacle.
  4. Match Race. This class is run under Table III, faults converted into seconds, with each knockdown and the first refusal penalized by the addition of three (3) seconds. A competitor may ride only one horse. See JP Appendix B for Order of Starting in Qualifying Rounds. The following conditions apply:
    - a. Two competitors will compete against each other simultaneously over two identical courses, with each competitor timed separately. Combinations are not allowed. If a particular competitor finds that their opponent has withdrawn from any round, the competitor remaining in the class must complete the round in question alone. If one competitor enters the other competitor's course and as a result interferes with that competitor, the competitor responsible for the interference will be eliminated.
    - b. In each round in the case of a first refusal with or without a knock-down the competitor will continue their round without jumping that obstacle or waiting until it has been rebuilt, however 3 seconds will be added to their time. The second refusal will eliminate a competitor. A competitor passing an obstacle without attempting to jump it will be eliminated.
    - c. The competitor who has the fastest time will be qualified for the next round and so on until the two finalists meet to decide the winner. Losing competitors in corresponding rounds will be placed equal.
    - d. A member of the judge's panel must be stationed at the starting line to give the starting signal.
    - e. If there is a dead heat between two competitors, the round must be started again.
  5. Rotating Pair Relay. This competition is for teams of two. A horse can only compete once in this class, but a rider may compete on more than one horse. The entire course must be jumped twice in the correct order by either competitor. The competitor who crosses the start line must jump the first obstacle and the competitor who jumps the last obstacle must cross the finish line.
    - a. One change is mandatory. Competitors may change over as often as they wish. A change is obligatory whenever a fault is incurred. A fault is indicated by an audible signal at which time the other competitor continues the course from the next obstacle. In the event of a disobedience, the other competitor must first jump the obstacle which has not been jumped by their partner and then continue the course.
    - b. Faults incurred are penalized by adding four seconds for each occurrence to the time of the round. The first two disobediences are penalized only by time, the third disobedience incurs elimination. Should a competitor jump an obstacle before their partner has landed over preceding obstacle, the pair will be eliminated.
    - c. The fastest overall time wins. In case of a tie for first place only, there will be a compulsory jump-off over a shortened course.
  6. Other Relays—See the FEI Rules for Jumper Events.

### **JP151 Classes Offering \$25,000 or more in prize money**

1. Specifications. Once the specifications for a class have been printed in the prize list, the class conditions may not be changed. The Standard may only be changed in the case of inclement weather or unsafe conditions. In exceptional circumstances, permission for a change in specifications may be granted upon the approval of the Jumping Sport Committee Chairman, or their designee, and two additional Jumping Sport Committee members. Any changes must be noted in the Steward's Report.
2. Officials.

- a. Course Designer. A Federation Registered ('R') Course Designer must be used. (See Chapter GR10, Subchapter 10-F and GR1205)
  - b. Judges. For classes offering \$25,000 or more in prize money a total of two Federation licensed 'R' judges are required, one of whom will act as official timer. The third judge is necessary if an open water jump is used; this can be a 'r' judge. In addition, two back up timers with digital stop watches are required. (Note: A timer technician may also be utilized as per JP106.2; however one of the two 'R' judges must be responsible for the official time recorded for each entry.) For all classes of \$25,000 or more, the Senior Judge must physically inspect the course to ensure that the obstacles are set at the correct dimensions (Standard) as stated in the prize list.
  - c. Schooling Supervision. See JP103.
3. Qualifying Class. If a qualifying class is held for a class offering \$25,000 or more, it must be held under the same schooling and equipment rules.
  4. Cross Entries. Management may restrict cross entries if it is so stated in the prize list.
  5. Prize Money. Prize money must be distributed as follows: 30% for 1st, 22% for 2nd, 13% for 3rd, 8% for 4th, 6% for 5th, 5% for 6th, 4% for 7th, 3% for 8th and 9th, 2% for 10th, 11th, and 12th place.
  6. Entry Fees. Entry fee may not exceed 2% of the prize money. Further, when a Class Nominating Fee or a Starting or Declaration Fee is charged for entry into the class (excluding a Nominating fee for the Jumper Division, a Jumper Section, or for multiple Jumper Classes) the Total amount assessed including all Entry and Nominating fees (for any entry received by the closing date(s) and time(s) designated in the prize list) may not exceed 2% of the prize money.
  7. Tack and Equipment. Only running martingales, used in the conventional manner, are permitted. Standing martingales, draw reins or restricted running martingales are prohibited. See JP 111.5.b for Boot Rules in Ranking List classes.
  8. Attire. (See GR801.2, JP111.9)
  9. Schooling.
    - a. All horses competing must be presented for check-in to the Competition Steward or their designee and must be present on the grounds for the twenty-four hour period prior to the scheduled start of the class. Any horse that has been removed from the grounds for any reason without permission of competition management is ineligible to compete in that class. Competition management will determine who the person(s) responsible is (i.e. rider, trainer, etc.) for removing that horse. All of the responsible person's horses will be eliminated from that class and entry fees for that class will be forfeited.
    - b. In order to compete, horse may not be schooled over off-sets for a twenty-four hour period prior to the scheduled start of the class, or while schooling during the class.
  10. Open Classes of \$25,000 or more.
    - a. The prize list and the official results must clearly indicate the Standard for any such class. Should a prize list fail to indicate at what Standard the class is to be conducted, the correct information must be posted prominently at the competition office prior to the closing of declarations, and both the Steward's Report and the Official Results must clearly indicate Regional, American, National or High Performance Standard. Should this requirement not have been met, the competition results shall be recorded as though the class had been conducted at the Regional Standard.
    - b. The posted course plan must include the height and spread of each obstacle.
  11. Starting Order (see also JP112 for Starting Order)
    - a. A rider, trainer or owner of a horse in that class is welcome to witness the draw.
    - b. The previous year's winning rider may be seeded last if it is so stated in the prize list. If that rider has more than one horse in the class, a draw will be conducted to determine which of their horses will be seeded last.

## **JP152 FEI Classes and Classes not Covered Under these Rules**

1. Other variations of the classes outlined in Subchapter JP-8 may be offered upon application to and approval of the Jumping Sport Committee. (See JP151 for requirements for all classes offering \$25,000 or more in prize money.)
2. FEI Classes. Classes not included in Subchapter JP-7 may be offered such as those specified in the FEI Rules for Jumper Events (Relay, Accumulator, etc.). Any jumper class may also be run in accordance with FEI rules if management so specifies in the prize list. In either case, management must clearly state in the prize list what FEI Jumper Article applies, whether FEI or Federation equipment and/or schooling rules will be in effect and the starting time of enforcement.

## **SUBCHAPTER JP-8 NATIONAL/INTERNATIONAL CHAMPIONSHIPS**

### **JP153 Championship Qualification**

1. All qualifying criteria must be objective and strive to ensure a fair and level playing field and must be publicly available prior to the start of qualifying period. The goal of the criteria will be to ensure that all riders who qualify under the criteria are capable of competing at the level of difficulty required by the specific championship. All qualifying criteria must be approved by the USEF Board of Directors.
  - a. If qualifying is based on a time period, the resulting standings of competitors must be made publicly available throughout the qualifying time period.
  - b. If the Championship will be comprised of teams based geographically by Zone, in addition to the above, the criteria for each Zone must be comparable in level of difficulty and if trials are used, must be evenly dispersed throughout the zone. Zones with an insufficient number of competitors to constitute a team may combine individuals to form a team.
2. FEI North American Youth Championships (NAYC) Qualifying criteria must be submitted by USHJA sixty (60) days prior to the start of each zone's qualifying period. If no changes are submitted, the following specifications will apply:
  - a. NACHC – qualifying criteria will automatically be based on Junior Jumper and Open Jumper classes held at 1.20m or above, and Jumper classes offering \$25,000 or more in prize money. Points will be awarded per GR 1133.3. Qualifying period is June 14 the year prior to June 15.
  - b. NAJC - qualifying criteria will automatically be based on Junior Jumper classes held at 1.35 m (4'5") or above as well as Open Jumper Classes offering \$25,000 or more in prize money between November 1 and June 15. Points will be awarded per GR1133.3
  - c. NAYRC - qualifying criteria will automatically be based on Junior, Amateur Owner and Amateur Jumper classes held at 1.35 m (4'5") and above as well as Open Jumper Classes offering \$25,000 or more in prize money between November 1 and June 15. Points will be awarded per GR1133.3.
3. National Junior Jumper Championships. Qualifying criteria for the National Junior Jumper Championships must be submitted in writing by the USHJA to the Federation no later than July 15 of the year prior. If no changes are submitted, the qualifying criteria will automatically be based on Junior Jumper classes held at 1.40 m (4'7") or above between September 1 and August 31. Points will be awarded per GR1133.3.
4. US Pony Jumper Championships. Selection Procedures are approved by the Federation and published annually prior to the qualifying period.

## APPENDIX A

### USEF JUMPER SCHOOLING RULES

1. It is important to remember that all exercise areas are different in size, type of footing, and jump material provided. It is also important to take into account the size of the horse and the length of its stride when determining the distance of placement rails. Furthermore, the ability of the horse and rider must always be taken into consideration when deciding what is permitted and not permitted during preparation.
2. In the schooling/exercise areas during the preparation for a competition, a minimum of one vertical and one oxer must be provided. The ground must be in good condition. Management must provide sufficient obstacle material. The jumping area should be large enough to provide sufficient room for the training.

3. The use of FEI Approved Safety Cups to support the back rails of all spread obstacles in all warm-up/schooling areas is mandatory.
4. Obstacles must be flagged and jumped in the proper direction. The Steward and/or Schooling Supervisor will decide if the flags may be interchanged.
5. When schooling for a Five, Six, or Seven Year Old class in progress, jumps in the schooling area may not exceed the height or width by more than 10cm of the jumps in the class.
6. No one may hold a rail or touch a standard while it is being jumped.
7. All rails must be either in cups or totally on the ground (exception: one end of a cross rail may rest on the ground). Rails must be able to fall easily when hit.
8. If a rail is placed on the edge of a cup, it must be placed on the far side of the cup, and is only allowed at an oxer if it does not cause the front rail to be higher than the back rail (i.e. offset).
9. Walk rails are not permitted. Horses are not permitted to walk over cross or slant rails.
10. Jumps in the schooling area may not exceed 1.60m (5'3") in height, 1.80m (5'11") in width.
11. Any jump 1.30 m (4'3") or higher must have a minimum of 2 rails, in cups, on the takeoff side of the jump, regardless of whether a ground line is used. The lower rail must always be below 1.30 m (4'3").
12. There may never be more than two (2) rails on the back of an oxer, with the lower rail equal in height to the lowest rail on the front of the oxer.
13. Ground lines are not mandatory, however if they are used, they must be placed either directly below the front of the jump or up to 1m (3'3") out. If a ground line is used on the landing side of a jump, there must be one on the takeoff side, and it may not be any further out than the one on the takeoff side. A ground line may never be placed past the vertical plane on the take-off side.
14. If a trot/canter/placement rail is used it may only be used, at a vertical which may not exceed 1.30m (4'3") in height. If a rail is used on the takeoff side of a jump, it may be no closer than 2.50m (8'2"). If a rail is used on the landing side of a jump, it may be no closer than 3 m (9'10"). Any rail placed 6m (19'8") or further from the takeoff or landing side of a jump is not to be considered a placement rail and is allowed.
15. If guide rails are used on the landing side of a jump, the closest part of the rail must be a minimum of 3 m (9'10") from the jump.
16. A cross rail may be made either:
  - a. by itself, in which case the height at which the cups are set may not exceed 1.30m (4'3") in height, or
  - b. below a rail at a vertical or the front rail of an oxer, in either case the cups set not to exceed 1.30m (4'3") in height.
17. Swedish Oxers are not permitted for Jumpers.
18. If a liverpool is supplied and used at a vertical or oxer, the front of the liverpool may not be behind the front plane of the jump. Also, the back of the liverpool may not be placed beyond the front plane of the jump. If used at an oxer, the front of the liverpool may not be more than 1 m (3'3") in front of the jump. The total depth (front to back) may never exceed 1.80m (5' 11").
19. If space and available fence material allows and safety conditions permit, combinations may be built using correct distances. Bounce jumps may only be used with verticals and may consist of a maximum of three (3) obstacles not exceeding 1 m (3'3") in height.
20. For scheduled Five, Six, and/or Seven Year Old classes, any schooling jump 1m (3'3") or over must have a minimum of two rails, in cups, on the take-off side of the jump, regardless of whether a ground line is used. The lower rail must always be below 1 m (3'3").
21. If an item (blanket, cooler, etc.) is laid over the rail of an oxer, it must only be laid over the front rail. If there is more than one rail on the front of the oxer, the item may be laid over any of those rails.
22. The use of materials, which prove hazardous is forbidden.
23. Manual poling and the use of offsets are not permitted.
24. Riders are fully responsible for any jump taken by their horse.
25. Any action deemed not in the best interest of the horse will not be allowed.
26. The total maximum weight of equipment allowed to be added to a horse's leg, front or hind (single or multiple boots, fetlock rings, etc.), is 500 grams (17.637 ounces), shoe excluded. For Young Jumpers, 350 grams (12.345 ounces), shoe excluded. Failure to comply with this paragraph will incur disqualification.

#### TAPING/MARKING SCHOOLING FENCES

For Jumpers, fences should be taped or marked at; 1) At the 1.30 m (4'3") mark, so when a rail is placed above the tape/mark the competitors knows that they need a second rail; 2) At the 1.60 m (5'3") mark, so competitors know that they are not permitted to build higher than that point. For Young Jumper classes, fences should be taped or marked at the 1 m (3'3") mark.

# CHAPTER MO MORGAN HORSE DIVISION

## SUBCHAPTER MO-1 GENERAL

### **MO101 Eligibility**

1. Horses shown in this division must be registered with the American Morgan Horse Association, Inc., or an organization having registry reciprocity, (Canadian Morgan Horse Association, British Morgan Horse Society, Swedish Morgan Horse Society.) Horses must be entered under their full registered name or if under one year of age be eligible for registration. Horses must be entered under the names of the owner(s) or lessee of record. A copy of the registration papers showing recorded ownership or proof of lease must be submitted with entry form at the time of making entry. Competition management is responsible for notifying exhibitors of this requirement.
2. Canadian horses born after January 1, 1985, can be shown with Canadian registration papers as long as the papers do not state "not eligible for U.S. reciprocity."
3. Owners (lessees), riders, drivers, handlers, coaches, and trainers of horses participating at Federation licensed competitions in all Morgan sections must be current members in good standing with the American Morgan Horse Association, Inc., or an organization having registry reciprocity (or pay a non-member fee. Set fees shall be payable to AMHA.) An original or a copy of the membership card must be provided to the competition unless the competition, at their discretion, confirms membership electronically with one of these organizations. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownerships, only one owner need be a member. Exceptions: Exhibitors in Leadline and/or Walk-Trot classes are exempt from this membership requirement. AMHA membership or non-member fee is not required at a Lite Competition. Additionally, a parent/guardian when only signing an entry blank for a minor is not required to be a member or pay a non-member fee.
4. In classes for Maiden, Novice or Limit horses, ribbons won as a driving horse within a section do not count when reckoning the status of the horse as a driving horse in another Section. In classes for Maiden, Novice or Limit horses, ribbons won as a saddle horse within a section do not count when reckoning the status of the horse as a saddle horse in another Section. Ribbons won as a driving horse do not count when reckoning the status of a saddle horse and visa versa.
5. In classes for Maiden, Novice or Limit riders, ribbons won in any saddle class of any Division or Section shall count in reckoning the status as a rider. In classes for Maiden, Novice or Limit drivers, ribbons won in any driving class of any Division or Section shall count in reckoning the status as a driver.

### **MO102 Type and Conformation**

1. The Morgan's form and movement in its distinctive gaits is the result of selective breeding and good training. A Morgan is distinctive for its stamina and vigor, personality and eagerness and strong natural way of moving. The head is made up of a straight or slightly dished face; large prominent eyes set wide apart; short and shapely ears set rather wide apart and carried alertly; small muzzle with firm lips and large nostrils; well-rounded jowls. In body conformation the Morgan gives the appearance of a very strong powerful horse with great shoulder angulation and depth, short back, broad loins, croup long and well-muscled and with tail attached high and carried gracefully and straight. Head is carried proudly and neck slightly arched meeting the head at a well defined throttle. Legs are straight and sound with short cannons, flat bone, medium length pasterns and an appearance of overall substance with refinement. The Morgan ranges from 14.1 to 15.2 with occasional entries over and under.
2. The Morgan horse is judged against the criteria set forth in The Morgan Horse Judging Standards. The Standards supplement the Federation Morgan Division rules. Federation rules take precedence. It is the responsibility of judges, stewards, exhibitors and officials to be familiar with the criteria and intent of The Morgan Horse Judging Standards. The Morgan Horse Judging Standards contain no protestable rules.
3. Entries shall be serviceably sound and in good condition. Animals with complete loss of sight in one eye may be found serviceably sound at the judge's discretion, except in a class over fences where a judge may ask a rider to change horses.

4. Morgan horses shall exhibit natural tail carriage. See MO114.2.
5. The specific kind of class being judged determines the importance of each criterion in the final judging outcome. The order in which each is listed in the class specifications determines where the emphasis should be placed.
6. Morgan division classes which are judged without consideration for type and conformation shall include Reining, Working Western, Trail, Jumper, Carriage Driving, Eventing, Sport Horse, Fitting & Showmanship, Dressage and Equitation.

### **MO103 Shoeing Regulations**

1. Except for weanlings and yearlings which must be shown barefoot, horses may be shod or barefoot. If shod, the shoe may be of any type and configuration. Exception: In the case of the bar shoe, the bar may not extend below the ground surface of the shoe. Borium or standard screw-in caulks are allowed.
2. There are different length restrictions according to the section or class within the Morgan Division.
3. If the limit for length of toe and/or width of pad is exceeded, the horse must be disqualified from the entire competition and forfeit all entry fees and all winnings including but not limited to all prize money, sweepstakes, trophies, scholarships, ribbons, points, etc. from the entire competition.
4. In Classic Pleasure classes the length of toe must not exceed 4 1/2" including pads and shoes.
5. In English Pleasure, Western Pleasure, Hunter Pleasure, Pleasure Driving, and Natural Park classes the length of toe must not exceed 5" including pad and shoe.
6. In all In-Hand classes, Parade, Park Saddle, Park Harness, Hunter, Jumper, Eventing, Cutting, Reining, Working Western, Carriage, Morgan Heritage, Equitation and all other Morgan Classes (exception: English Pleasure, Pleasure Driving, Western Pleasure, Hunter Pleasure, Natural Park, and Classic Pleasure Sections) the length of toe must not exceed 5 3/4" including pads and shoe.
7. At an all Morgan competition and any competition designated as an AMHA Regional Championship Competition, all Champions and Reserve Champions in classes restricted to Morgans must have one foot measured by the C2 Steward immediately upon leaving the ring except in classes where points are accumulated to determine Championships (i.e., Dressage and Hunter) (See GR510).
8. In Morgan Division classes which are judged without consideration for type and conformation where the Federation has specific shoeing regulations in the discipline rules, those Federation rules govern all Morgan classes, except the length of toe must not exceed 5 3/4" including pads and shoe. In Saddle Seat Classic Equitation, the Classic Pleasure shoeing will prevail (MO127.3).
9. See GR804, GR507.1, GR510 and GR512, GR513.

### **MO104 Special Requirements**

1. Stallions are prohibited in Ladies, Junior Exhibitor, Equitation, Walk/Trot, and Leadline Classes.
2. It is the responsibility of all exhibitors to officially scratch entries in any event in which they do not plan to participate.
3. An exhibitor is allowed only one time-out per class including Hunter Seat Equitation on the Flat. (See GR833.1) Exception: No time outs are permitted in the Working Western Section.
4. Side saddle riders, in appropriate tack and attire, are allowed in all classes except equitation.
5. Electronic communication devices used for purposes of coaching exhibitors during a competition are prohibited in all classes in the Morgan Division. Exhibitors with a permanent hearing impairment are permitted to use an electronic communication device upon submission of a written certification from a treating medical professional's office certifying the permanent hearing impairment and certifying the requirement of an electronic communication device. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report. An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional's office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.
6. All headers in the Morgan division must be a minimum of sixteen (16) years of age (Federation competition age, see GR103).

7. Model classes are prohibited.
8. When the terms “prohibited”, “not permitted”, “mandatory”, or “required” are used in these rules, any competitor who fails to comply **MUST BE ELIMINATED** by the judge, unless another penalty is stipulated. When the terms “must” or “shall” are used in these rules, and no penalty is prescribed, any competitor who fails to comply must be penalized by the judge. When the term “should” is used in these rules, any competitor who fails to comply may be penalized at the judge’s discretion.
9. Horses entered in Amateur Owner and Junior Owner classes must be registered in the name of the competitor or a member of the competitor’s family, as defined by GR123. (Horses registered in a farm/ranch/syndicate/partnership/corporation name may be shown in Amateur Owner classes provided the family is the sole owner of the farm or entity as defined by GR123. The sale of a horse does not eliminate this registration requirement. (Contracts of Sale or Bill of Sale will not be accepted.) In the case of a junior exhibitor, the parent or guardian must sign.
10. In the Morgan Division, classes that are judged without consideration for type and conformation (See MO102.6), the judging of these disciplines and classes will be conducted under the Federation rules of the applicable chapters and the Morgan Subchapters (Morgan Dressage, Working Western, and Fitting & Showmanship).
  - a. When the Dressage chapter is referenced herein, any rule or portion of a rule that is in direct reference to USEF/USDF or USEF National Championships shall be disregarded for the purpose of breed Dressage classes.
11. The first word of the class description denotes which criteria is used for judging the class. For example, an Amateur Ladies class will follow the rules and specifications of an amateur class.

## **MO105 Appointments**

1. The Morgan is shown in all its natural beauty with a full mane, forelock and tail. Braiding is permitted only in Hunter, Jumper, Dressage, Sport Horse, and Carriage Pleasure Driving. Braiding is also permitted in performance and equitation classes when shown under proper hunter, dressage, sport horse, or carriage driving tack and attire.
2. The use of any device in the ring to alter the natural carriage of the tail or ears shall result in disqualification. The steward may check for appliances to alter the ear carriage when measuring feet for championships. Rubber bands, an inconspicuous braid or tape in the forelock are permitted. In harness classes, an inconspicuous braid in the end of the tail is permitted to allow it to be fastened to the driving vehicle.
3. The use of supplemental hair on the horse is prohibited in any class restricted to Morgans and shall result in disqualification from the competition, and all entry fees and winnings of the entry for the entire competition will be forfeited.
4. Boots and other artificial appliances are forbidden in the Morgan division during competition in a class. Exception: boots are permitted in all Reining, Working Western, Roadster, Jumper, Hunter on the Flat Equitation, and Hunter Seat over Fences.
5. In case of inclement weather competition management may permit the use of polo boots or bandages and may allow tails to be tied up provided this is publicly announced before a class or session.
6. Rubber or elastic (except on boots) attached in any way to the legs or hooves must not be used on the competition grounds at any time.
7. The use of chains or rollers as action devices on the competition grounds during or before a competition is prohibited.
8. Vertical half-cup blinkers are acceptable on the competition grounds and in the warm-up ring. Blinders of any kind are not allowed.
9. A rein (or driving line) is defined as a length of leather, or other material, which remains flexible at the point of contact with the bit and which does not create an extension of leverage of the bit.
10. An inconspicuous tongue tie is permitted in all Morgan sections with the exception of Carriage Driving, Dressage, Working Hunter over Fences, Hunter Seat Equitation Over Fences, Reining Seat Equitation, Western Seat Equitation, Working Western, Trail, Reining, Western Dressage, and Western Pleasure.
11. Nasal strips are allowed with the exception of the competition arenas during scheduled performances.

## **MO106 Attire**

1. Rider's attire must be suitable to the saddle being ridden. Protective headgear (See GR801) may be worn without penalty.
2. Protective headgear (See GR801) must be worn by riders in lead line classes at all times while mounted.

## **MO107 Division of Classes**

1. All Harness classes must be divided if there are over 25 entries or in which safety appears to be a factor in the judgment of the show committee and/or judge.
2. In a divided class, separate ribbons and trophies will be awarded. Management, at its discretion, may divide or duplicate the prize money. Exception: In Championship classes or in classes in which a Challenge or Perpetual Trophy is offered, eliminations followed by a work off will determine the final placings.

## **MO108 Championship Classes**

1. At All-Morgan competitions and any competition designated as an AMHA Regional Championship Competition, stripping of horses is mandatory in open and junior horse championship classes under saddle (Park Saddle, English Pleasure, Hunter Pleasure, Western Pleasure Sections) when type and conformation are part of the specifications. (Exception: One horse classes, Parade classes and Classic Pleasure Saddle classes.) All judges must walk the line at Regional and National Championships in classes restricted to Morgans. At other than All- Morgan competitions, stripping of horses is mandatory in open and junior horse championship classes under saddle (Park Saddle, English Pleasure, Hunter Pleasure, Western Pleasure Sections) when type and conformation are part of the specification unless the prize list states that it is not required. Stripping of these horses will be accomplished by not more than two attendants assisting the rider. Refer to GR808, GR809, GR810.2.
2. To be eligible to show in a Performance Championship class a horse must have been properly entered, shown and judged in one qualifying class in the same section. An entry which while performing in a qualifying class fails to qualify by reasons of equipment repair, shoeing time, illness (certified by the official veterinarian) or failure of a class to fill shall be permitted to pay double fee and make a post entry in another qualifying class in the section or if no subsequent qualifying class is available for such post entry, the horse shall be considered qualified for the Performance Championship class, provided the horse has previously been entered in the Championship or Stake. (See also GR117.3).
  - a. If stated in the Prize List, an amateur who participates in the Ladies or Gentlemans class of a given section is eligible for the Amateur Championship of said section if a Ladies Championship or Gentlemans Championship is not held.

## **MO109 Stakes**

At an all Morgan competition and any competition designated as an AMHA Regional Championship Competition, all classes that require a qualifying class must be called a championship. (Refer to MO103.7 and MO108.1) At all other competitions, a stake class may either be a qualifying class for the championship or the final competition for that particular division. Stake classes must be judged by the same specifications as qualifying classes.

## **SUBCHAPTER MO-2 ALL IN-HAND CLASSES**

### **MO110 Appointments**

1. Rubber bands or tape inconspicuously applied in the forelock are permitted.
2. Curb bits are prohibited for weanlings and yearlings in In-Hand classes.

## **MO111 Shoeing**

In all In-Hand classes the length of toe must not exceed 5 3/4" including pads and shoe.

## **MO112 Class Specifications**

1. Entries are to be judged individually, standing then at a walk and trot on the line and must be serviceably sound.
2. Horses should stand with front legs perpendicular to the ground. Rear legs may be placed slightly back. The horse is also judged at some time during the class not stretched.
3. Emphasis is placed on type and conformation with consideration given to horse's ability to move correctly on the lead. Unnatural tail carriage should be penalized. See MO102.4 and MO114.2.
4. No more than two handlers shall be allowed in the ring to show each horse in In-Hand classes. No item may be used inside or outside the ring while showing the horse except one whip per handler. (See General Rules, GR803.)

## **MO113 Classes**

1. There is only one standard for type and conformation of the Morgan horse. If In-Hand classes are offered for horses in specific disciplines or specific classes or suitable to become classes (Classic Pleasure In-Hand, Western In-Hand, etc.) horses are judged against the criteria stated in MO102.  
If such classes are offered competition management must print the above in the prize list to assure there is no misunderstanding and that no horse will be judged against any standard for another breed, discipline, or division.
2. In-Hand classes may include: Weanling colts, Yearling colts, Two-year-old colts, Three-year-old stallions, Four-year-old stallions, Five-year-old and over stallions, Sire and Get Class (stallions to be shown with two to four of Get), Get of Sire (two to four of Get to be shown), Weanling fillies, Yearling fillies, Two-year-old fillies, Three-year-old mares, Four-year-old mares, Five-year-old and over mares (may be divided into mares that have had foals and mares that have not produced foals), Broodmare and foal, Dam and Produce (mares to be shown with two or more of Produce), Produce of Dam (two to four of Produce to be shown), Weanling geldings, Yearling geldings, Two-year-old geldings, Three-year-old geldings, Four-year-old geldings and Five-year-old and over geldings; Champions and Reserve Champions are selected as outlined in GR810.1, GR810.2 and GR810.4.
3. In Classic Pleasure In-Hand classes, all handlers/tailers must not be professionals as defined in GR1306.
4. If specialty in-hand classes are held, they do not qualify for In-Hand Championships and are held according to local specifications.

## **SUBCHAPTER MO-3 SHOWING AND JUDGING REGULATIONS IN PERFORMANCE CLASSES**

### **MO114 Judging**

1. Suitability of the horse and its motion for the type of job at hand is essential. Natural animated motion is desired in Park Horse classes. Easy ground-covering motion is desired in Pleasure and Working events. Judges must severely penalize any horse with laboring motion at any gait whether or not such motion indicates excessive weight or use of artificial training devices.
2. Judges must penalize unnatural tail carriage, which includes evidence of tail-setting and/or vertical break-over, dead tail and wry tail (wry tail is defined as askew, deformed, distorted or twisted). Judges must severely penalize tails carried vertically with an abrupt break-over (double-vertical).
3. Unless class specifications state otherwise entries are judged 40% on type and conformation and 60% on other qualifications appropriate to the class. Stakes are judged as qualifying classes. In Championship performance classes type and conformation shall count 50%. Judges must strictly apply these percentages.
4. Youth classes are to be judged in accordance with Open class specifications, open to exhibitors 21 years of age and under. A youth rider or driver may exhibit stallions, mares and geldings.
5. Cross entering between Youth and Junior Exhibitor classes is permitted unless prohibited in the prize list.
6. Horses are to be shown at all required gaits both ways of the ring.
7. All horses chosen for a workout must be worked both ways of the ring at any gait requested.

8. In Pleasure Classes Under Saddle, horses must not be tested on obstacles.
9. Masters Classes are restricted to amateur riders/drivers age 50 years and older.

## **MO115 Qualifying Gaits**

1. Walk: Flat-footed, steady, elastic.
2. Park Walk: Snappy, collected, animated, elastic and on a straight line.
3. Trot: Square, collected and balanced.
4. Park Trot: Animated, square, collected and balanced.
5. Pleasure Trot: Easy going trot with elasticity and freedom of movement.
6. Extended Trot: The extended trot should be bold, energetic, balanced and ground covering with a definite lengthening of stride resulting in an increase of speed without a sense of racing or straining. The mouth should remain light and the horse should demonstrate a complete acceptance of control without resistance at all times. A horse that does not remain light in the mouth and does not demonstrate a complete acceptance of control without resistance should be penalized.
7. Road Trot: Balanced, ground covering. Form should not be sacrificed for speed. Excessive speed should be penalized.
8. Slow Trot: (Formerly "Collected") The neck is raised, thus enabling the shoulders to move with greater ease in all directions, the hocks being well engaged and maintaining energetic impulsion, not withstanding the slower movement. The horse's steps are shorter but they are lighter and more mobile.
9. Working Trot: This is a pace between the strong and the slow trot and more round than the strong trot. The horses go forward freely and straight, engaging the hind legs with good hock action, on a taut but light rein, the position being balanced and unconstrained. The steps should be as even as possible. The hind feet touch the ground in the foot prints of the fore feet. The degree of energy and impulsion displayed at the working trot denotes clearly the degree of suppleness and balance of the horses.
10. Strong Trot: ("Trot On") Clear but not excessive increase in pace and lengthening of stride while remaining well balanced and showing appropriate lateral flexion on turns; light contact to be maintained. Excessive speed will be penalized. The term used for calling this gait is "Trot on."
11. Jog-Trot: A free, easy, two beat diagonal gait without a tendency to mix gaits.
12. Extended Jog-Trot: A lengthening of stride while maintaining a free and easy two beat diagonal gait.
13. Canter: Smooth, collected and straight on both leads.
14. Lope: Smooth, slow, straight and a three beat cadence.
15. Extended Lope: A lengthening of stride while maintaining a smooth, straight, three beat cadence.
16. Extended Canter: The extended canter should be ground covering, free moving and smooth. The extended canter should show a definite lengthening of stride, while still being controlled and mannerly. Extreme speed SHALL be penalized.
17. Hand Gallop: Long, free ground covering stride under control. Not a fast collected canter, but a true lengthening of stride, correct and straight on both leads. Extreme speed penalized.

## **SUBCHAPTER MO-4 MORGAN PARK SECTION**

### **MO116 General**

1. A Ladies Park Horse is outstanding in refinement and elegance, with suitability of horse to rider taken into consideration. Expression is paramount and quality is a prime consideration. The execution of gaits is performed with brilliance on command. The horses should walk and stand quietly. Stallions are prohibited.
2. A Junior Exhibitor Park Horse should be mannerly, willing and expressive, with balanced action. The execution of gaits should be performed with brilliance on command. The horses should walk and stand quietly. Suitability of horse to rider is of particular importance, and manners are still the primary consideration. Stallions are prohibited.

The mouthpiece consists of a metal bar 5/16" to 3/4" in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or latex wrapped. Nothing must protrude below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three piece mouthpiece may include a connecting ring of 1 1/4" or less in diameter or a connecting flat bar of 3/8," to 3/4" (measured top to bottom with a maximum length of 2"), which lies flat in the mouth, or a roller or port as described herein. Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Roping bits with both reins connected to a single ring at center of cross bar must not be used. Reins must be attached to each shank. Any rein design or other device which increases the effective length and thereby the leverage of the shank of a standard

western bit is prohibited. Anything that alters the intended use of equipment as provided for in the description of appointments for a given class is considered to be an artificial appliance.

3. Standard snaffle bits are permitted in any class on a junior horse four years old and under. A standard snaffle bit is defined as a center jointed single rounded, unwrapped smooth mouthpiece of 5/16" to 3/4" diameter metal as measured from ring to 1" in from the ring with a gradual decrease to the center of the snaffle. A hackamore includes a bosal rounded in shape and constructed of flexible braided rawhide or leather and must have a flexible nonmetallic core attached to a suitable headstall with maximum diameter of 3/4" at the cheek. Attached reins must be of hair, rope, leather or leather-like materials. Other material of any kind must not be used in conjunction with a bosal, i.e., steel, metal or chains (Exception: Smooth plastic electrical tape is acceptable).
5. Artificial appliances that tend to alter performance are prohibited. Use of tongue ties or materials of any kind placed in the horse's mouth other than a standard Western bit or snaffle bit as defined in MO132.2 and MO132.3 is prohibited. Curb chains and leather chin straps may be used but must be flat and at least 1/2" in width and lie flat against the jaws of the horse. Wire, rawhide, metal or other substance must not be used in conjunction with or as part of the leather chin strap, or curb chains. Rounded, rolled, braided or rawhide curb straps are prohibited. A light lip strap is permissible. Hackamore bits, pencil bosals, cavesson type nosebands, martingales and tie downs are prohibited. A judge does not have the authority to add or to remove any of the allowed equipment as specified above.

## **SUBCHAPTER MO-9 MORGAN ROADSTER SECTION**

### **MO140 General**

1. Gait requirements. The principal assignment for Roadsters is the trot. They shall be asked to trot at three distinctive speeds; the slow jog-trot, the faster road gait and at full speed. Judges may ask Roadsters to walk. At all speeds they shall work in form with their heads set and their legs working beneath them. The trot should be balanced. Long sprawling action in front, dragging or trailing hind legs and spraddle gaited behind makes a balanced trot impossible. Animation, action, brilliance and competition ring presence should characterize Roadsters in working at a jog-trot or road gait. When asked to show at speed, they must show speed and go in form. Although speed is of great importance, horses that pace, break or run on the turns must be severely penalized.
2. Judging Procedure. Roadsters enter the ring clockwise at a jog-trot, show at a road gait; turn counter-clockwise at the jog-trot, show at a road gait and then trot at speed. Horses should be shown on the rail at all times, except when passing and should go to the far end of every corner without side reining, should be light mouthed, capable of being taken up at any time, willing to walk and stand while being judged in the line-up. When horses are lined-up, no header is permitted and driver shall not leave their vehicle when left in the center of the ring while part of the class is on the rail for a workout. During the line-up, headers are permitted in Amateur, Master, Ladies and Juvenile Roadster classes. The header must not touch the entry except for safety reasons. During a workout the header may uncheck and hold the entry. However, when the workout is over the horse must be rechecked and the header must move away from the horse. The header must take no action that would affect the performance of any animal.

Ground lines are crucial and the obstacles should simulate those found in the hunting field-post and rails, brush, stone and brick walls, white board fences, and gates, coops, oxers, etc. Targets and striped rails are not appropriate, but can often be redecorated or camouflaged to achieve a hunter style course. Handy class obstacles should simulate those found in hunt country. There should be at least two changes of direction and a combination. For In and Outs, refer to HU113.
3. Horses must execute at least eight jumping attempts. Any number of fences, jumped multiple times, will suffice. A change of direction is required in all classes.

## **MO152 Championship Points**

1. A championship may not be offered in a section unless a minimum of two over fences classes and one Under Saddle class are held (exception: Ladies Side Saddle does not count). If a competition offers more than one Under Saddle class, only one may count towards the Championship. The prize list must specify the class to count.
2. When a Championship is offered, a poster must be kept in a prominent place with cumulative points charted. Only the first six places count toward Championship regardless of the number of ribbons offered.
3. Ribbons won in restricted classes will not count unless complementary classes are also offered to afford each equal opportunity to fulfill the minimum class requirements.

If the fall (or three disobediences in over fence classes) occurs during a ride-off, the contestant must be placed last of those chosen for the ride-off. ## MO168 AMHA Saddle Seat Medal Class

Exhibitors must be AMHA youth members in good standing and must not have reached their 22nd birthday as of December 1 of the competition year.

### 1. SEAT AND HANDS

- a. GENERAL-Judges should note that the required equitation seat should in no way be exaggerated, but be thoroughly efficient and most comfortable for riding the type of horse called for at any gait and for any length of time. Riders should convey the impression of effective and easy control. To show a horse well, the rider should show themselves to the best advantage. Ring generalship shall be taken into consideration by the judge. A complete picture of the whole is of major importance.
- b. HANDS-Hands should be held in an easy position, neither perpendicular nor horizontal to the saddle, and should show sympathy, adaptability, and control. The height the hands are held above the horse's withers is a matter of how and where the horse carries its head. The method of holding the reins is optional, except that both hands shall be used and all reins must be picked up at one time. Bight of rein should be on the off side.
- c. BASIC POSITION-To obtain proper position, the rider should place themselves comfortably in the saddle and find their center of gravity by sitting with a slight bend at the knees, without the use of irons. While in this position, adjust leathers to fit. Irons should be placed under the ball of the foot (not toe nor home), with even pressure on entire width of sole and center of the iron. Foot position should be natural (neither extremely in nor out).
- d. POSITION IN MOTION-Walk: slight motion in saddle. Trot: slight elevation in saddle while posting; hips under body, not mechanical up and down nor swinging forward and backward. Canter: close seat, going with horse.

### 2. APPOINTMENTS

- a. PERSONAL-Exhibitors and judges should bear in mind that, at all times, entries are being judged on ability. However, neatness should be the first consideration of attire. The following requirements are based on tradition and general present-day customs. Judges must eliminate those contestants who do not conform. Adjustments to tack and attire for valid medical reasons are permitted providing the steward is notified prior to the class. Protective headgear with harness is acceptable.
- b. Informal: Conservative colors are required (i.e. herringbone, pinstripes, and other combinations of colors that appear to be solid). Solid colors include black, blue, gray, dark green, beige, brown, or dark burgundy. Jacket with MATCHING JODHPURS, derby or soft hat, or protective headgear, and jodhpur boots must be worn.
- c. Formal: Even more conservative attire is required for evening wear. Solid colors include dark gray, dark brown, dark blue or black tuxedo-style jacket with collars and lapels of the same color; jodhpurs to match, top hat or protective headgear, cummerbund, and gloves are appropriate. The most formal evening outfit would include a tuxedo-style Saddle Suit, top hat (ladies), homburg (men), patent leather boots, wing collar shirt, white pique tie,

white vest, cummerbund and white gloves. A dark riding habit with accessories and jodhpur boots is also acceptable. Formal riding habits must not be worn before 6 p.m. and are not mandatory after 6 p.m.

- d. Miscellaneous: Spurs of the unrowelled type and whip or crop are optional.
- e. TACK-Bridle: Entries must be shown in full bridles (curb and bridoon). Martingales or similar tiedowns are prohibited. Saddle must be of the flat, English style. Forward seat, Dressage seat, or Western saddles are prohibited.

### 3. CLASS ROUTINE

- a. Entries are to enter the ring at a trot and are to be judged both ways of the ring at the walk, trot, and canter. At the canter, entries should always be on the correct lead. The reverse may be executed by turning either toward or away from the rail. At least the top four riders must perform two or more individual tests. When individual tests are called for, the judge's decision is a 50-50 analysis of the rail work and the individual tests. If there are more than 20 entries in the class, the judge must work contestants in groups of 20 or less. Division of the class must be publicly announced and posted at least two hours prior to the start of the class.

### 4. TESTS FROM WHICH JUDGES MUST CHOOSE

Tests may be performed either individually or collectively but only the tests below may be used. Instructions must be publicly announced. Individual workout instructions may be posted for all competitors to study, at least one hour before the session containing the class, and, if so, announced to the exhibitors.

- a. Address reins-the process of laying down reins and picking up reins (only in line up).
- b. Back for not more than eight steps.
- c. Performance on rail.
- d. Performance around ring.
- e. Feet disengaged from stirrups, then reengaged, in the lineup only.
- f. Change of diagonals down center of ring or on the rail.
- g. Execute serpentine at a trot. A series of left and right half circles off center of imaginary line where correct diagonal must be shown.
- h. Circle at a trot.
- i. Figure eight at trot demonstrating change of diagonals. Unless specified, it may be started either facing the center or away from the center. If started facing the center, it must be commenced from a halt. At left diagonal rider should be sitting the saddle when left front leg is on the ground; at right diagonal rider should be sitting saddle when right front leg is on the ground. When circling clockwise, rider should be on left diagonal; when circling counterclockwise, rider should be on right diagonal.
- j. Execute serpentine at a canter on correct lead demonstrating simple change of lead. (This is a change whereby the horse is brought back to a halt/walk and restarted into a canter on the opposite lead.)
- k. Circle at the canter on the correct lead.
- l. Figure eight at canter on a correct lead demonstrating simple change of lead. Unless specified, it can be started either facing the center, or away from the center. If started facing the center, it must be commenced from a halt. Figures are commenced in center of two circles so that one lead change is shown.
- m. Change leads down center of ring or on the rail demonstrating simple change of lead. The judge must specify exact lead changes to be executed and the beginning lead. In a simple change of lead, the horse is brought back to a halt/walk and restarted into a canter on the opposite lead from the halt or walk.
- n. Demonstration ride of approximately one minute on own mount. Movements must be selected from Tests .a-.m above. Rider must advise judge beforehand what ride they plan to demonstrate. Riders must have with them two copies (one for judge and one for announcer) of a written, one-minute work-out in case the judge asks for this test. The test must be stopped at the end of one minute, but the rider will not be penalized for not completing it.
- o. Exchange horses, no more than three pairs of riders and horses to exchange. Saddle may be exchanged. The attendant for each horse being exchanged must be allowed in the ring only to facilitate the change. This test is used only to break a tie within the pairs of riders. In other words, if two pairs are called to exchange horses, one pair will receive 1st and 2nd place, and the other pair will receive 3rd and 4th place.
- p. Ride without stirrups for a brief period of time, no more than one minute at the trotting phase. Riders may be asked to engage stirrups at a halt or walk

## MO169 AMHA Western Seat Medal Class

Exhibitors must be AMHA youth members in good standing and must not have reached their 22nd birthday as of December 1 of the competition year.

### 1. SEAT AND HANDS

- a. GENERAL-Riders will be judged on seat, hands, performance of horse, appointments of horse and rider, and suitability of horse to rider. Results as shown by the performance of the horse are NOT to be considered more important than the method used in obtaining them.
- b. HANDS-In repose, arms are in a straight line with body, and the one holding the reins is bent at the elbow. Only one hand is to be used for reining and hands shall not be changed. Hand to be around reins. When ends of split reins fall on near side, one finger between the reins is permitted
- c. . When using romal or when ends of split reins are held in-hand not used for reining, no finger is allowed between the reins. The position of the hand not being used for reining is optional, but it should be kept free of the horse and equipment and held in a relaxed manner with the rider's body straight at all times. Rider may hold romal or end of split reins to keep from swinging and to adjust the position of reins, provided there are at least 16 inches of rein between the hands. If a romal is used, hands are to be above the horn and as near to it as possible. Bracing against horn or coiled riata will be penalized.
- d. BASIC POSITION-The stirrup should be just short enough to allow heels to be lower than toes. Body should appear comfortable, relaxed, and flexible. Feet should be placed in the stirrups with the weight on the ball of the foot. Consideration, however, should be given to the width of the stirrups, which vary on Western saddles. If stirrups are wide, the foot may have the appearance of being home when, in reality, the weight is being properly carried on the ball of the foot.
- e. POSITION IN MOTION-Rider should sit to jog and not post. At the lope, it should be close to saddle. All movements of horse should be governed by the use of imperceptible aids and the shifting of rider's weight is not desirable.

### 2. APPOINTMENTS

- a. PERSONAL-Riders must wear suitable hat; long-sleeved shirt with collar; a necktie, kerchief or bolo tie or pin; trousers or pants (a one-piece equitation suit is acceptable provided it includes a collar). Chaps, shotgun chaps or chinks and boots are required. A vest, jacket, coat and/or sweater may also be worn. Protective headgear is acceptable; it is not required to be of Western type. Spurs are optional. Hair must be neat and fastened so as not to cover rider's number.
- b. TACK-The saddle should fit the rider. It may be a slick or swelled fork, have a high or low cantle, but must definitely be sized to the rider. Nothing which would prevent the stirrups from hanging freely shall be added to or deleted from a standard western saddle. Exhibitors must not ride side-saddle. There shall be no discrimination against any permitted western bit. Curb chains and leather chin straps may be used, but must be flat, at least 1/2"

in width and lie flat against the jaws of the horse. Wire, rawhide, metal or other substance must not be used in conjunction with or as part of the leather chin strap or curb chains. A light lip strap is permissible. Hackamores, bosals, or snaffle bits may not be used and rider must show with one hand. Silver equipment may be used, but should not be given preference over good working equipment. Shin, bell or skid boots are prohibited. Bridles may be checked at the discretion of the judge(s). The judge(s) may designate the steward to check bridles. If checking is done in the class lineup, one attendant must be invited in, and if requested by the judge(s), may assist in the checking of bridles. The attendant may assist with re-bridling and remounting.

c. Competitors must be penalized for incomplete appointments and attire but not necessarily disqualified.

### 3. CLASS ROUTINE

a. Entries are to enter the ring at a walk or jog, and are to be judged at a flatfooted, four-beat walk; diagonal, two-beat jog; and three-beat lope. They are worked both ways of the ring. At the lope, entries should be on the correct lead. The reverse may be executed by turning either toward or away from the rail. All contestants are required to back in a straight line during the line up in all classes. At least the top four riders must perform two or more individual tests. When individual tests are called for, the judge's decision should be a 50-50 analysis of the rail work and the individual tests. If there are more than 20 entries in the class, the judge must work contestants in groups of 20 or less. Division of the class must be publicly announced and posted at least two hours prior to the start of the class. Due to the difficulty of properly fitting tack, riders shall not be asked to change horses.

### 4. TESTS FROM WHICH JUDGES MUST CHOOSE

Tests may be performed either collectively or individually, but only the tests below may be used. Instructions must be publicly announced. Individual workout instructions may be posted for all competitors to study, at least one hour before the session containing the class, and, if so, announced to the exhibitors.

a. Back.

b. Individual performance.

c. Figure eight at the jog.

d. Lope and stop.

e. Figure eight at lope on correct lead, demonstrating simple change of lead. This is a change whereby the horse is brought back into walk or jog and restarted into a lope on the opposite lead. One figure eight demonstrates two changes of lead and is completed by closing up the last circle and stopping in the center of the eight.

f. Turn on the haunches or on the forehand (from the walk).

g. Extended jog on or off the rail.

h. Lope on the counter lead.

i. Demonstration ride of approximately one minute. Rider must advise judge beforehand what ride they plan to demonstrate.

### 2. APPOINTMENTS

a. PERSONAL-Riders must wear suitable hat, long-sleeved shirt with collar, a necktie, kerchief or bolo tie or pin, trousers or pants (a one-piece equitation suit is acceptable provided it includes a collar). Chaps, shotgun chaps or chinks and boots are required. A vest, jacket, coat and/or sweater may also be worn. Protective headgear is acceptable; it is not required to be of Western type. Spurs are optional. Hair must be neat and securely fastened if long so as not to cover rider's number.

b. TACK-The saddle must fit the rider. It may be a slick or swelled fork, have a high or low cantle, but must definitely be sized to the rider. Nothing which would prevent the stirrups from hanging freely shall be added to or deleted from a standard Western saddle. Exhibitors may not ride side-saddle. There shall be no discrimination against any permitted Western bit. Curb chains and leather chin straps may be used, but must be flat, at least 1/2" in width and lie flat against the jaws of the horse. No wire, rawhide, metal or other substance may be used in

Silver equipment may be used, but should not be given preference over good working equipment. Shin, bell or skid boots are permitted. Judge must ask to have bits dropped with rider dismounted.

c. Competitors must be penalized for incomplete appointments and attire but not necessarily disqualified.

### 3. CLASS ROUTINE

a. Each entry must perform one of the Federation Reining patterns outlined in RN106.

b. The Reining Seat Medal Class is an equitation class where position, hands and seat are paramount. The class will be judged 50% on equitation and 50% on the reining pattern. A contestant who is off pattern will be disqualified and will not receive any award except in a ride-off where the contestant shall be placed last of those chosen for the ride-off. The horse should be in perfect balance at all times, working entirely off its haunches. Neck and head should be in a direct line with body, mouth closed and head at normal height. If the horse works off its hindquarters at all times and in a straight line, all possibility of draw-reining will be avoided. It must be remembered that, above all, a reining horse is one that responds instantly and smoothly to all aids. To be consistent with Reining rules, if a judge believes a major penalty is unclear, they may request a review of an official video and hold their score pending review. If the judge determines the penalty was incurred, it must be applied; if not, the score will be announced as originally submitted. Additionally, per RN103.20, an exhibitor or owner may request a review of a major fault penalty applied to a run and if granted by the judge, they must believe the entire class has been videotaped by the official videographer. The request must be made no later than 30 minutes after the last run of the day and before the judge has left the grounds.

### 4. REINING SEAT PATTERN

a. INSTRUCTIONS-The pattern MUST be posted one hour prior to the class.

Any rider violating this rule at anytime must immediately be prohibited from further riding until their headgear is properly in place.

## **MO182 Conduct In-Hand Classes**

1. Sport Horse In-Hand Classes. An Individual Score Sheet shall be used. Each judge will be assigned a scribe who will record scores and comments as dictated by the judge. Horses will be shown individually on the triangle.
  - a. Following a posted or announced order, or on request from the judge, entries in each class will approach the judging area one at a time and walk to the apex of the triangle. Conformation judging may take place before or after performance on the triangle, so entry is required to wait for the judge's instructions. The handler will lead the horse on the perimeter of the triangle at the walk and trot, returning to the apex and wait for further instructions. At the completion of the judging, the handler will lead the horse away from the judging area. When presented to the judge, the horse is to be shown in an "open position," for conformation judging. The traditional way of showing open position would be with the right front leg slightly back and the right hind leg slightly forward; as long as all four legs of the horse are visible to the judge when standing on either side of the horse, would be acceptable. The horse's head and neck should be allowed to show in a natural and comfortable carriage, and the handler should stand away from the horse with a loose lead line.

## **MO183 Scoring Procedures**

The judge shall use the approved Morgan individual scoresheets. These will be downloadable from [www.usef.org](http://www.usef.org) and found under the Morgan link, Forms and Guidelines. Decimals will be used in scoring. Tied scores shall be broken first by referring to the totals of the movement scores. If still tied, the tie may be broken at the judge's discretion, by the use of decimals, or the horses may be examined again (movement only). If a mathematical error is discovered, it must be brought to the attention of competition management within one hour of the official posting from the last class of the competition day. Competition management must announce said posting and must make score sheets available to competitors immediately.

## **MO184 Sport Horse Under Saddle General**

## **SUBCHAPTER MO-17 MORGAN-GAITED**

### **MO190 Morgan Gaited - General**

The Gaited Morgan is presented Under Saddle. This is a horse suitable for trail riding and should possess athleticism with a relaxed attitude and way of going. The Gaited Morgan should be eye appealing and confident, showing the impression of being a sure, safe and pleasurable ride.

### **MO191 Gaits**

The Gaited Morgan performs three gaits: Trail Walk, Show Gait and Pleasure Gait.

1. **TRAIL WALK.** The Trail Walk has equal weight in the judging of a class. The ability to transition from the highest performance level in the class to a completely relaxed walk is an important indication of the correct mentality and temperament. The Trail Walk is an authentic four beat walk, suitable for use on the trails. The walk must be calm, relaxed, and ridden with clearly observable slack in the reins. Reins at all times must droop with the lowest point noticeably lower than the point of attachment to the bit. The head and neck should be lower than the position that is maintained at Show and Pleasure Gaits. Horses unable to move from any gait into a relaxed, natural walk, horses that must be restrained by the reins from accelerating, or a horse who appears to “jig” performing the Trail Walk, must be severely penalized by the judge.
2. **SHOW GAIT.** The show gait is a collected, four beat gait performed at moderate speed, with stride and action appropriate for the class. The Show Gait must be collected and smooth with no exaggeration in form or execution. The sequence of the footfalls is rhythmic and cadenced.
3. **PLEASURE GAIT.** This gait is a four beat gait with the greatest speed and action in any section. There must be a distinct difference in the speed demonstrated at the Show Gait and Pleasure Gait, although speed must not come at the expense of form and correct footfalls. Horses that do not exhibit a distinct difference in speed between the Show Gait and the Pleasure Gait must be penalized. The ability of the horse to demonstrate forward movement, with speed and action appropriate for this section, while maintaining correct form, is of primary importance at gait.
4. **SADDLE GAIT.** Horses performing the Show or Pleasure Gait may perform any “Saddle Gait”. The “Saddle Gait” may be either a lateral or diagonal gait. The Pace, Trot and Jog/Canter are not allowed. If both Show and Pleasure Gaits are to be demonstrated in a class, the horse must maintain the same Saddle Gait footfall sequence throughout the test. The only change will be in the tempo/speed as required by the call throughout the test.
5. **BACKUP.** In all performance classes, backing at least three steps in a straight line is called for in the line-up. The horse must not throw its head above the bit, gape at the mouth or show other signs of resistance. Failure to follow a straight track will be penalized.

### **MO192 General Judging Requirements for Under Saddle Gaited Classes**

1. Credit shall be given to an entry that exemplifies the look of the proper section.
2. A horse that does not demonstrate correct form for the class will be penalized by the judge.
3. Scoring: Proper cadence and balance, presence and apparent ability to give a good pleasurable ride 60%; type and confirmation 40%.
4. Championship: The same specifications as the above paragraph except the percentages are 50%-50% instead of 60%-40%.

## **MO193 Gaited Morgan Country Trail Pleasure Class**

1. Appointments: See MO122.1.2
2. Shoeing: See MO103.5
3. The Gaited Country Trail Pleasure entry must exemplify the attributes of a pleasure riding horse suitable for all members of the family. The Trail Pleasure horse must have gaits that are effortless and extremely smooth, with no animation. The head and neck of the Gaited Country Trail Pleasure entry must be relaxed and show little to no elevation, and the horse in gait should be ridden with a minimum of bit contact and should remain relaxed at all times. There is to be no sign of animation, nervousness, or the need for restraint. The Gaited Country Trail Pleasure classes are shown in two gaits: Show Gait and Trail Walk. Speed is not desired in this section. Animation, more than moderate speed, nervousness, or an elevated head and/or neck carriage shall be penalized. Manners are paramount in this section. A horse that does not demonstrate correct style shall be penalized by the judge and shall not be placed above a horse that has the correct way of going as long as they are performing in proper gait, regardless of other criteria.

The judge may additionally ask the rider to dismount and remount while the horse stands quietly.
4. To be penalized: The horse should not be presented in a collected, up headed and animated frame. There is no maximum or minimum degree of animation, but smoothness and frame tie over animation and speed.

  - a. Working Cowhorse including reined and fence work (see the NRCHA rulebook for class specifics).
- 2. Limited Working Cowhorse – as working cowhorse with the following exceptions
  - a. No reined work
  - b. Limited ranch cow work exhibitors are allotted one minute and thirty seconds to complete the work. When there is 30 seconds left, the announcer will announce, 30 seconds remaining. At one minute and thirty seconds, the announcer will call for time. Exhibitors are not required to use all of the allotted time, but must ride until the judge whistles the end of the run or time expires, whichever occurs first.
  - c. There are four parts to the work: boxing the cow; setting up the cow and driving it down the fence to the opposite end of the arena; and boxing it at the opposite end of the arena, and then driving the cow past the middle marker again. There is no expectation that the exhibitor will make a 'fence turn', rather the drive down the fence demonstrates correct position and control around the corner.
    - 1. Part One – Boxing the Cow – The rider shall ride into the arena, face the cattle entry gate, and signal for their cow to be turned into the arena. The cow shall be controlled on the entry end of the arena for a sufficient amount of time to demonstrate the horse's ability to "hold" the cow. If the cow does not immediately challenge the horse, the rider shall aggressively move in on the cow to demonstrate their horse's ability to drive and block the cow.
    - 2. Part Two - Set Up Cow and Drive Down Fence to Opposite End of Arena – After the cow has been controlled on the entry end of the arena, the rider shall set the cow up for driving down the side of the arena. When coming out of corner, the horse shall be close enough to cow to demonstrate control with cow against the fence. This distance and control should be maintained for approximately 1/2 to 3/4 the length of arena. Rider will then stop and release the cow and move horse toward center of arena to set the cow up for boxing.

3. Part Three – Boxing the Cow at Opposite End of Arena – The exhibitor will regain control or “hold” the cow at end of the arena to demonstrate the horse’s ability to “hold” the cow.
  4. Part Four – Drive the Cow back down the fence past the middle marker and continue until the judge blows the whistle to show completion.
3. Working Cow Horse Boxing
- a. PART 1 Reined Work:  
Horses shall work individually. Judging begins the moment the Horse enters the arena. There will be no schooling from the time the horse enters the arena. A reined work must consist of the following: circles, lead changes and runs terminating in well-balanced stops straight to the line of travel, turns and a back-up of a reasonable distance with slight hesitations denoting each maneuver. NRCHA Rein Work Patterns are required. The judge may deviate from traditional order of performance and they may also deviate from the exact printed pattern due to arena conditions. The judging ends when the rider indicates they are finished by coming to a complete stop. Praising or rewarding of the horse is only allowed after the reining pattern is complete and before the exhibitor calls for a cow. The best reined horse shall be easily guided or controlled with little or no apparent resistance. Bad manners exhibited by the horse will be penalized. All deviations from the exact given pattern must be considered a loss of control and marked down accordingly. Credit shall be given for the smoothness, finesse, attitude, quickness and authority of performing various maneuvers while using controlled speed which raises the difficulty level and makes the horse more exciting and pleasing to watch.
  - b. PART 2 Boxing:  
At the start of the work, each contestant, upon receiving a cow in the arena, shall hold that cow on the prescribed end of the arena for a sufficient time to demonstrate the ability of the horse to contain the cow at that end. The horse should exhibit superior cow sense and natural cow working ability without excessive reining or spurring. In the head-to-head working position, the degree of difficulty shall be considered.

## **MO207 Versatility Championship**

1. Ranch Horse Versatility Championship

  - a. Exhibitors must enter a minimum of 3 classes which must include ranch conformation and one cattle class. If an exhibitor enters more than the minimum 3 classes the additional class placings will be added into their versatility score. The show committee will decide how they wish to award points to class placings though must be consistent from class to class. If there is a tie, the cattle class is used to break the tie. The decision of how to award points must be listed in the prize list.

    1. Ranch Riding
    2. Ranch Trail
    3. Ranch Reining
    4. Working Cowhorse Boxing
    5. Working Cowhorse

  - a. Exhibitors must show in a minimum of 3 of the Working Western Non Cattle classes to participate. Show committees must list in the prize list which classes (3 or more) will qualify for the championship. The show committee will decide how they wish to award points to class placings though must be consistent from

class to class. The show committee will determine how they wish to break a tie, should a tie occur. The decision of how to award points and break a tie must be listed in the prize list.

When used, only one of either type boot is permitted on a hoof. In case of inclement weather, the use of polo boots and bandages may be permitted provided competition management publicly announces it before a class.

### **NS104 Breed Standard**

The National Show Horse shall strive to produce an athletic horse which retains size, beauty and refinement. Specifically, the following traits are desirable:

1. Motion—Balance and obvious power from the hindquarters flowing into an elevated front end, the front legs showing both flexion and extension;
2. Neck—Very long, set high on the shoulder and relatively upright with fine throatlatch. The neck should be shapely but without a pronounced crest;
3. Head—Relatively small, short and refined with large eyes and small, well placed ears and a straight or slightly concave profile (a "Roman nosed" or convex profile is not desirable);
4. Pronounced withers and a very deep and well laid-back shoulder;

5. Proportionately short back closely coupled with a long hip and relatively level top line (moderately sloping croup not to be penalized);
6. Legs—Correct from all angles with long forearms and short cannon bones in front and long, well-angled pasterns front and rear;
7. Refinement of bone but not lacking in substance, especially in the chest, girth, shoulder and hip;
8. A relatively high-set tail, natural and flowing;
9. When observed at rest or in motion, the horse must exhibit a natural presence and, when animated, extreme brilliance. The horse must exhibit high carriage when showing or relaxed.

## NS105 General

1. All horses shall be worked both ways of the ring at all required gaits as directed by the judge(s). All horses chosen for a workout must be worked both ways of the ring in front of each judge, at any gait except the walk.
2. To be penalized: Over-bridling (i.e., over-flexed, chin toward chest); mixed gaits; unbalanced action; pulling; fighting the bit; tossing the head; carrying head to one side or going sideways; leaving hocks behind; strung out; wrong lead or cross-cantering; breaking of gait; winging; interfering; traveling wide behind; loss of form due to excessive speed; bad manners; exaggerated opening of mouth; carrying sour ears; bucking; rearing; balking; kicking, or not being under control. *BOD 06/17/24 Effective 12/01/24*

## NS107 Conduct

An exhibitor is entitled to request only one time out per class. See GR833.

## NS108 Judging Criteria

The specific type of class being judged determines the importance of each criterion in the final judging outcome. The order in which each is listed in the class specifications determines where the emphasis should be placed. For

example, a horse placed first in a class judged on performance, quality, manners and conformation could justifiably be unplaced against the same horses if the class were judged on manners, quality, performance and conformation. The criteria considered are; performance, manners, quality and conformation.

## **NS109 Qualifying Classes and Specifications**

1. OPEN, JUNIOR, THREE-YEAR-OLD, TWO-YEAR-OLD, MAIDEN, NOVICE, AND LIMIT. Classes are judged on performance, quality, manners and conformation (Exceptions: NS128). The OPEN horse should be the ultimate representative of the breed. It should be as nearly perfect as possible; performing all gaits with animation, brilliance and extreme action at both ends. Performance is paramount in these classes; next is quality, manners and conformation.
2. LADIES. Classes are judged on manners, quality, performance, and conformation. A Lady's horse should be outstanding in refinement and elegance with suitability of horse to rider taken into consideration. Expression is paramount and quality is of prime consideration. The execution of gaits should be performed with brilliance on command. The horse should walk and stand quietly.
3. JUNIOR EXHIBITORS, AMATEUR and OWNERS. Classes are judged on manners, performance, quality and conformation (Exception: Show Hack). Manners are paramount in these classes but there is a difference in the way in which horses are judged in each. Suitability of horse to rider shall be given consideration.
4. The JUNIOR EXHIBITOR horse should be mannerly, willing and expressive with balanced action. The execution of gaits should be performed with brilliance on command. The horse should walk and stand quietly.
5. AMATEUR, GENTLEMEN, and OWNERS horses can be a bit stronger and perform in a bolder manner. More action and animation are desired and less emphasis can be put on manners than in Ladies and Junior Exhibitor classes.

## **NS110 Division of Classes**

1. It is recommended that classes of 25 or more entries be divided into separate sections by sex, size of horse or selecting every other number on the list of entries. The division of entries must be posted in the competition office and announced over the public address system or listed in the program.
2. In Ladies, Junior Exhibitor, Amateur, Owner, Fine Harness, Pleasure Driving and Country Pleasure Driving classes it is recommended that classes of more than 15 entries be divided in the same manner.

## **SUBCHAPTER NS-2 DESCRIPTION OF GAITS**

### **NS111 General**

1. The standard of excellence of the National Show Horse is beauty, symmetry and balance. Balance features coordinated motion, with straight true folding action of the front legs with flexing hocks carried close together, producing a clean, rhythmic and fluid way of going. In addition, the National Show Horse possesses animation, brilliance and extreme grace of movement.
2. UNDESIRABLE: Winging, interfering, traveling wide behind, mixing of gaits, shackled look and loss of form.

### **NS112 Walk**

Judging at the walk is based on manners, quality and natural action it is not used as a rest period.

1. WALK: The walk should be an elastic, ground covering and collected four-beat gait maintaining proper form and consistency in stride. It should be executed in a brisk manner that is compatible with the type of class. It should display the horse's good manners, type of stride and attitude. The walk is relaxed.
2. ANIMATED WALK: The animated walk is a highly collected gait, exhibiting much "primp" at a slow, regulated speed, with good action and animation. It should have snap and easy control. It can be either a two-beat or

four-beat gait. It is performed with great style, elegance and airiness of motion. A flat-footed walk is not to be penalized.

3. The walk is required as a transition between gaits in English Pleasure, Three-Gaited and Five-Gaited, except between the trot and strong trot and slow gait and rack.

### **NS113 Trot**

1. The trot is a natural, two-beat diagonal gait in which the front foot and the opposite hind foot take off from the ground in unison and land simultaneously. A balanced trot features coordinated motion with straight, true, shoulder motion of front legs, with flexing hocks carried close together. To be performed at a moderate speed and collection. The trot must be mannerly, balanced, cadenced and free moving. Posting is required.
2. Strong trot: A two-beat gait. At the strong trot the horse exhibits more power and motion than at the trot. It is performed with a lengthened stride but no decrease of collection. The speed is determined by each horse's own natural ability to increase stride, to maintain collection and not to lose form. Horses that string out behind are to be penalized. Extreme knee flexion or extreme extension are encouraged if combined with a bright and willing attitude and an unlabored, pleasurable appearance. The strong trot must be mannered, balanced, cadenced, and free moving.
3. Park trot: A two-beat gait that requires extreme knee flexion and use of the shoulder for balanced, graceful extension. Speed to be penalized. The most desirable park trot gives a balanced appearance from front and rear. It should be executed in a highly collected manner. Posting is optional.
4. Roadster Jog-trot: The jog-trot is called to display the purity of the horse's gait. It is executed in a highly collected manner. The horse's energy should be directed toward animation rather than speed.
5. Gaited trot: The trot of the Five-Gaited horse should show speed in form. The desired speed is the maximum rate at which the horse can trot while still maintaining proper form, control and balance. Posting is optional.
6. "Show Your Horse": At this command the driver has the privilege of showing the Fine Harness horse to its best advantage at the trot but excessive speed shall be penalized.
7. Road Gait: The road gait trot is executed in a highly collected manner. It is faster, stronger and bolder than the jog-trot; with a fuller extension of stride to obtain desired speed.
8. Drive On: When asked to drive on in Roadster classes, the horse must show speed in form. The desired speed is the maximum rate at which a horse can trot while still maintaining proper form, control and balance.

### **NS114 Canter**

Criteria.

1. A three-beat gait. Smooth, unhurried, with moderate collection, correct and straight on both leads. The horse must appear bright but relaxed.
2. It is acceptable, although not encouraged, for the horse to have a bolder, stronger canter in those classes where manners are not paramount or where speed at a qualifying gait is desired. Ease of control, rate of speed and collection may vary according to the class specifications.
3. Where manners are paramount, a slow, consistent rate of speed must be maintained with little obvious effort from the rider.

### **NS115 Slow Gait**

1. The slow gait was developed from the pace to be a four-beat gait with each of the four feet contacting the ground separately. In the takeoff, the lateral front and hind feet start almost together but the hind foot contacts the ground slightly before its lateral forefoot.
2. The slow gait is a highly collected gait with most of the propulsion coming from the hindquarters, while the forequarters assist in the pull of the final beats. The slow gait is not a medium rack.

3. The slow gait is a restrained four beat gait, executed with hesitation and slight elevation with true and distinct precision. Speed is to be penalized. It is high, lofty, brilliant and restrained, denoting style, grace and polish of the horse.

### **NS116 Rack**

1. The rack is a four-beat gait in which each foot meets the ground at equal, separate intervals. It is smooth and highly animated, performed with great action and speed, in a slightly unrestrained manner. Desired speed and collection are determined by the maximum rate at which a horse can rack in form. Racking in form should include the horse remaining with a good set head. It should be performed by the horse in an effortless manner from the slow gait, at which point all strides become equally rapid and regular.
2. TO BE PENALIZED: Any tendency to become “trotty”, “pacey”, or “hitchy gaited”.
3. In Pleasure classes, there is more emphasis on the way of going as a pleasure gait with only moderate speed required. Where manners are paramount, there is more emphasis on the ease by which it is performed by the rider.

### **NS117 Hand Gallop**

The hand gallop is performed with a long, free, ground-covering stride. The amount of ground covered may vary between and among horses due to difference in natural length of stride. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct and straight on both leads. The hand gallop is not a fast collected canter.

### **NS118 General**

2. Horses to be shown standing, at a walk and at the trot. Halter horses are not to be stretched or “parked out”. Horse’s weight evenly distributed on all four legs. Emphasis shall be placed upon adherence to breed standards, conformation and quality, with close attention placed upon animated motion, flexion of the joints and correct movement of the horse. Transmissible weakness to be counted strongly against breeding stock. Horses must be serviceably sound.
3. A suitable headstall equipped with throatlatch is mandatory. Curb bits are optional on horses one year and older. Only one handler is permitted in the ring per horse. Showmanship is important in any competition class including halter. Excessive use of the whip which would harm the horse, cause negative reaction of the spectators or interfere with another entry is forbidden. Halter handlers shall dress neatly. It is recommended that both men and women wear a vest and/or a dress jacket. Gloves, hats and ties are recommended. English riding suits are preferred but only with pants and coats specifically tailored in length for standing. Rolled up pants are not permitted. 2. Trot, a two-beat gait: Free-moving, straight, rider maintaining light contact with the horse's mouth at all times.

    - c. Extended Trot: Maintaining the same cadence and performing at medium speed, the horse lengthens its stride as a result of greater impulsion from the hindquarters. Horse should remain light in the rider's hand as it lengthens its frame. Rider is posting.
  3. Canter, a three-beat gait: straight on both leads, smooth.
    - a. Normal Canter: Light even strides, should be moved into without hesitation.
    - b. Collected Canter: Marked by the lightness of the forehand and the engagement of the hindquarters, the collected canter is characterized by supple, free shoulders. Neck is more raised and arched than in normal canter as the head approaches the vertical line, never moving behind it.

    - d. Hand gallop: The hand gallop is performed with a long, free, ground covering stride. The amount of ground covered may vary between horses due to the difference in natural length of stride. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct and straight on both leads.
  4. The collected and extended gaits are to be called by the judge both ways of the ring. At the discretion of the judge, horses while on the rail may be asked to halt and rein back. A Show Hack shall be able to perform all of these gaits with a noticeable transition between the normal, collected, and extended gaits. All horses registered with PFHA after 2018 must be microchipped to be eligible to compete. All participants (owners, agents, lessees, trainers, riders, exhibitors, and handlers) must be current members of, and in good standing with, the PFHA. These rules are a condensed version of the Paso Fino Horse Association rules. Please refer to the latest edition of the PFHA rules for details.
  - a. The following credentials must be made available to Competition Management and steward and copies of said credentials must accompany the entry form however items 1 and 3 may be electronically verified when possible by the competition secretary:
    1. Each participant's PFHA and USEF membership card.
    2. The participant's PFHA and USEF amateur card, if applicable.
    3. A copy of each horse's entry's registration papers (back side only if it contains the owner's name) or PFHA show validation certificate.
    4. All other papers and health documents required by law or by competition management.
    5. Copies of applicable lease agreements
    6. Affidavits of sales contracts.
  - b. If the participant has submitted their entries via the PFHA online entry system then the following credentials must be made available to Competition Management and the steward, and copies of said credentials must be presented at time of check in:
    1. All other papers and health documents required by law or by competition management
    2. Copies of applicable lease agreements
    3. Affidavits of sales contracts
    4. USEF membership card (may be electronically verified when possible by the competition secretary).
2. Definition of an Amateur Owner. Each exhibitor in an Amateur Owner Class must be an amateur, certified as an Amateur by the Federation and be the owner of the horse being ridden or a member of the owner's family (GR106 and GR123). In the case of a corporate owner, the stockholders of the corporation shall be considered the owners for purposes of this definition. A horse that is the subject of a lease to an amateur is not considered owned by that amateur for purposes of this definition. The purchaser of a horse under an installment method of payment shall be considered the owner of the horse for purposes of this definition, if the purchaser, either before or at the time of the competition in question, files an affidavit on a form provided by the Paso Fino Horse Association for this purpose that describes certain relevant information about the purchase.
3. No artificial appliances are allowed. Artificial appliances include, but are not limited to leg/fetlock ankle chains (leather, string, plastic, rubber chain, wood, etc.) of any weight. These are prohibited on the showgrounds and exhibitors using such appliances are subject to penalties and expulsion from the show grounds. Normal grooming preparations including the use of black or clear polish on hooves are allowed, but make-up, (other than on hooves), and glitter are prohibited. All horses must be in good condition. The color of a horse or the color of the horse's eyes will not be a consideration in judging a horse.
4. Soring of a horse is prohibited. Any physical evidence, including but not limited to scars or blisters, of training with heavy shoes or artificial devices or soring shall cause the horse to be disqualified.
5. Inspection. At the line-up in all classes, Judges will carefully inspect the horses for artificial devices, training scars, raw or bleeding sores, soundness, marked lameness, and welts from whips or spurs in accordance with these rules. At all PFHA approved shows, the Judge may, at their discretion, inspect any horse for evidence of soring. Any evidence of soring shall disqualify the horse for the class and remainder of the show.

6. Prohibited: Any injection of any foreign substance or drug or any surgical procedure that could affect the horse's performance or alter its natural conformation or appearance, except for those surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the horse. Upon discovery that prohibited surgery or injection of a foreign substance or drug has occurred, show management shall immediately disqualify the horse and report the matter to the PFHA for further investigation.
  - a. This rule shall not apply to castration or to the cosmetic alteration of the horse's tail. However, the horse's tail may not be altered by the insertion of a foreign object, foreign substance or drug. Under no circumstances may a horse with a "dead tail" be shown at a PFHA sanctioned show.
7. Examination of Horse Required. Every owner and exhibitor shall, upon request of show management, permit examination of a horse for determination of the presence of prohibited surgery or foreign drug or substance. Refusal to comply with such request shall: (1) constitute grounds for disqualification of the horse from further participation at the show or from further approved events pending hearing of the PFHA Hearing Committee; (2) bar the horse from participation in future approved events or shows for such period as determined by the PFHA Hearing Committee; and (3) constitute grounds for suspension of PFHA membership of the owner and trainer.
8. To be eligible to show in a Performance Championship class a horse must have been properly entered, shown and judged in one qualifying class in the same division or section.

## **PF102 General Rules**

All four (4) feet must be shod with the same type of shoe of the same material, weight, and thickness although front and back hooves may be shod in different sizes. Aluminum shoes and rim shoes are permitted. Each shoe cannot exceed ten (10) ounces. Weighted shoes, trailers, heel caulks, and any style of pads are prohibited. Toe and/or side clips drawn from the shoe are allowed as long as the clips are an integral part of the plate shoe. All horses showing in Classic Fino must be shown shod.

### **PF104 Type and Conformation**

The Paso Fino horse reflects its Spanish heritage through its proud carriage, grace and elegance. Modern care and selective breeding have enhanced its beauty, refinement and well-proportioned conformation that conveys strength and power without extreme muscling.

1. Head: The head should be refined and in good proportion to the body of the horse, neither extremely small nor large with the preferred profile being straight. Eyes are large and well-spaced, very expressive and alert, and should not show excessive white around the edges. Ears are comparatively short, set close and curved inward at the tips. The lips should be firm and the nostrils large and dilatable. Jaws are defined but not extreme. The impression should be of a well-shaped, alert, and intelligent face.
2. Neck: The neck is gracefully arched, medium in length and set on at an angle to allow high carriage, breaking at the poll. The throat latch should be refined and well-defined.
3. Forehand: Shoulders are sloping into the withers with great depth through the heart. Chest is moderate in width. Withers are defined but not pronounced and slope smoothly into the back.
4. Midsection: The midsection is moderate in length with a well-sprung rib cage. The top line should be proportionately shorter than the underline. The back should be strong and muscled. The midsection should join the forehand and the hindquarters so as to give the horse a pleasing, proportioned appearance.
5. Hindquarters: The croup is slightly sloping with rounded hips, broad loins, and strong hocks. The tail is carried gracefully when the horse is in motion.
6. Legs: The legs are straight with refined bones and strong, well defined tendons and broad, long forearms with shorter cannons. The thigh and gaskin are strong and muscled but not exaggerated. Standing slightly under in the rear is acceptable. Pasterns are sloping and medium in length. Bones are straight, sound, and flat, and

joints are strong and well defined. Hooves are well rounded, proportionate in size and do not show excessive heel.

7. Mane, Tail and Forelock: Mane, tail, and forelock are as long, full, and luxurious as nature can provide. No artificial additions or alterations are allowed. A bridle path not exceeding 4" is acceptable. Horses under 12 months will not be penalized for having clipped manes or tails.
8. Size: Paso Fino horses are 13 to 15.2 hands with 13.3 to 14.2 being the most typical size with weight ranging from 700 to 1100 pounds. Full size may not be attained until the fifth year.
9. Color: Every equine color can be found, with or without white markings.
10. Disposition: The Paso Fino is an extremely willing horse that truly seems to enjoy human companionship and strives to please. It is spirited and responsive under tack while sensible and gentle at hand.

## **PF105 Gaits**

1. The Paso Fino is born with a gait unique to the breed, and its attitude seems to transmit to the observer that this horse knows its gait is a very special gift that must be executed with style and pride! The gait, being totally natural, does not exhibit the catapulting or exaggerated leg action of man-made gaits; rather the movements are smooth, rhythmic, purposeful, straight, balanced in flexion and synchronous front to rear, resulting in unequalled comfort and smoothness for the rider. The Paso Fino is a graceful, agile and supple equine athlete that uses all four legs with precision and harmony. With its definite but controlled spirit, natural gait and presence, and responsive attitude, the Paso Fino is, indeed, a rare and desirable equine partner.
2. The gait of the Paso Fino horse is an evenly-spaced four-beat lateral gait with each foot contacting the ground independently in a regular sequence at precise intervals creating a rapid, unbroken rhythm. Executed perfectly, the four hoof beats are absolutely even in both cadence and impact. Footfall is in the same sequence as a natural equine walk, i.e., left rear, left fore, right rear, right fore. Propulsion is primarily from the hind limbs and the horse's motion is absorbed in its back and loins, resulting in unequalled smoothness and comfort for the rider.
3. In all classes, special attention shall be afforded to the rhythmic consistency and smoothness of the Paso gait. While style of execution may vary with horses, any style of execution that reduces smoothness and consistency shall be penalized. In addition, a horse shall be excused for failure to perform any gait prescribed in a class. Any tendency to mix gaits, the loss of even cadence or lack of smoothness, as evidenced by an up and down or side to side movement of the horse's croup or of the rider, shall be penalized. Horses who fight the bit, flatten their ears or swish their tails shall be penalized.
4. In all qualifying gaits, light contact on the reins is required. Horses requiring undue restraint or "holding" in gait or collection shall be penalized. While the degree of collection required varies from class to class, in no gait should the horse go "strung-out" behind, squat down in the rear, jut out its nose, lug, or work behind the headgear. Exaggerated leg action (excessive fold, over-reaching, unnaturally high front leg action, etc.) is not desirable. The ideal Paso Fino should track straight; however, some slight winging or paddling is acceptable and should be penalized only if it is severe or a result of conformation faults. In all classes and all gaits, the Paso Fino should give the appearance of naturalness and ease combined with a degree of the pride and elegance that is characteristic of the Paso Fino breed.
5. The Paso Fino gait is performed at three forward speeds (Classic Fino, Paso Corto, Paso Largo) and with varying degrees of collection. In all speeds of the gait, the rider should appear virtually motionless in the saddle, and there should be no perceptible up and down motion of the horse's croup.
6. Qualifying Gaits
  - a. Walk—Smooth, steady, evenly-spaced four-beat gait.
    1. Collected Walk - Evenly-spaced four-beat gait, cadenced, straight, brisk, animated and rhythmic. This gait is executed with collection, style and brilliance. This gait is called for in Paso Performance and Paso Versatility classes.
    2. Flat Walk - True, evenly-spaced four-beat, flat-footed, smooth gait executed with mild collection. The horse's head carriage is natural and relaxed. This gait is called for in Paso Pleasure, Paso Trail, and Paso Western Pleasure classes.

- b. Classic Fino— Smooth, steady, evenly-spaced four-beat gait. Extension is absolutely minimum, forward speed is very slow and footfall is extremely rapid. It should be animated, exciting and executed with brilliance and style. Horse must be fully collected and balanced, putting its complete dynamic energy into its carriage and quickness of its footfall. Flexion and extension should be harmonious in all four legs, and the horse must present a picture of symmetry and fluidness of motion. The horse must perform naturally and willingly and any indication that the horse is being excessively restrained or held in gait shall be penalized.
- c. Paso Corto— Evenly spaced four-beat gait executed with moderate forward speed and extension. Horse should be smooth, balanced and exhibit symmetry in flexion and stride. Forward speed is ground-covering but unhurried. Movements should be fluid, willing, relaxed, balanced and free--moving. The horse's head carriage is natural and relaxed.
  - 1. Collected Paso Corto - an evenly-spaced four-beat lateral gait with moderate forward speed and extension. This gait is smooth, supple, cadenced, animated and brilliant, with the horse well-collected, fully balanced, and exhibiting symmetry in flexion and extension. The horse should demonstrate pride, style, elegance and enthusiasm, along with good manners and ready response.
  - 2. In the Paso Performance and Paso Versatility classes the horse is well-collected, animated, proud and brilliant.
  - 3. In the Paso Pleasure, Paso Trail and Paso Western Pleasure classes collection and carriage are natural and relaxed with slightly more collection required in the Paso Pleasure class.
- d. Paso Largo— Forward speed is rapid and the gait is executed with longer extension and faster cadence than the Paso Corto. Extension and flexion must be harmonious with no tendency to become light on the front or strung out behind. A definite change of speed from the Paso Corto must be observed. A significant difference will be rewarded. The even four-beat cadence must be retained. Forward speed varies with the individual horse, since each horse should attain its top speed in harmony with its own natural stride and cadence.
  - 1. Collected Paso Largo, which is an evenly-spaced four-beat lateral gait. This gait is smooth, balanced, collected, bold and animated, with rapid forward motion. Extension and flexion must be harmonious with no tendency to become "light" on the front or "strung out" behind. The horse should appear eager and willing to move out, and a definite change of speed from the Paso Corto to the Paso Largo must be observed, yet a willingness to reduce speed on command must be demonstrated. All transitions between gaits should be performed evenly and smoothly. An even, four-beat cadence must be maintained, together with style, presence, boldness, and brilliance. Loss of form, cadence, or smoothness due to excessive speed shall be penalized. In this class, the horse should combine style and spirit along with obedience and good manners. The horse should move out willingly, and stand quietly when requested.
  - 2. In Paso Performance and Paso Versatility, the gait is collected, bold and animated.
  - 3. In the Paso Pleasure class, collection is mild and carriage is natural and relaxed.
- e. Lope—True, three-beat gait, slow, cadenced, smooth, straight on both leads, with no tendency to mix gaits. Horse should be balanced going with mild collection.
- f. Canter—True, three-beat gait, cadenced, straight on both leads, smooth and unhurried with no tendency to mix gaits. The canter should be executed with collection; the head well-elevated and set.

## **SUBCHAPTER PF-2 PASO FINO YOUTH SECTION**

### **PF106 General**

- 1. An exhibitor's age for Youth classes shall be determined by the exhibitor's age on September 1 of the current competition year, and this age shall remain the same throughout the competition year.
  - a. If a competition is in progress on September 1, an individual's age at the start of the competition will be maintained throughout the competition.
- 2. Junior. Junior riders shall be 13-17 years of age.
- 3. Sub-Junior. Sub-Junior riders shall be 7-12 years of age.

4. Walk-Corto Leadline. Walk-Corto Leadline riders shall be 3-9 years of age.
5. Safety Headgear. All exhibitors 12 years of age and under as determined by the current competition year, including walk-corto leadline riders, are required to wear Safety Headgear at all times while on horseback or driving or while in the driving cart. (GR801)
6. Handling Stallions. A child under thirteen years of age as determined by the current competition year shall not at any time ride, handle or exhibit a colt or stallion on the show grounds during an Association sanctioned show. This rule applies to all classes, point or non-point, specifically including leadline classes. The adult responsible for such a child who violates this rule will be subject to dismissal from the show grounds and forfeiture of any remaining fees.
7. Ineligible for Championship. Riders in the youth classes are not eligible for the championship classes because of riding in the Youth division classes.
8. Youth Championship Classes. Championship classes may be offered for youth riders in any division in which two or more qualifying classes are offered at a given competition. Youth Championship classes may be divided into Junior Youth (13-17 years of age) and Sub-Junior Youth (7-12 years of age) or held as Youth (7-17 years of age). To be eligible for entry into a championship class, a horse/rider combination must have been properly entered, shown, and judged in one of the qualifying classes. To be considered shown and judged, a horse must perform all required gaits both ways of the ring in the original class and must remain in the ring until either placed or excused by the judge(s).
9. A Junior Youth rider may be excused from a class if the rider's horse does not meet the requirements of the class.
10. Suitability. In all youth classes, special attention should be paid to the suitability of the horse for its rider. Horses should not appear unmanageable or too excitable for their riders, nor should they be unwilling to work for their riders. Good disposition is paramount for a youth horse.

### **PF107 Class Separations**

1. Any youth class may be offered as open to all youth or may be divided into age groups as follows: (Exception: International Paso Equitation, see PF119.1)
  - a. Divided into Junior Youth (13-17) and into Sub-junior Youth (7-12)<sup>SEP</sup>
  - b. Divided into Junior Youth Level I (13-15), Junior Youth Level II (16-17), Sub-junior Youth Level I (7-9) and Sub-junior Youth Level II (10-12)

### **PF108 Walk-Corto Leadline**

This class is open to children three (3) to nine (9) years of age and to physically or mentally disabled adults or children who are unable to show in other classes. Exhibitors in the Walk-Corto Leadline class shall not cross enter into other classes with exception of the Costume class. Tack and attire will be the same as that for the Paso Pleasure class except riders are required to wear Safety Headgear. See GR801 for the definition of Safety Headgear. No belt or other type implement shall be used to hold a child in the saddle. The horses must enter the ring with the child mounted and an adult holding a leadline attached to a leather or nylon halter worn over the bridle or holding the pisador attached to the bridle. The leadline is for control only if necessary and should remain slack during the class if possible. The child should control the horse. This class is to be judged the same as the Equitation class except that no dismount/mount or tests will be asked for and the horses will be requested only to perform at a Paso Corto gait and at a walk. All exhibitors shall receive participant ribbons for this class and there shall be no points awarded for riders or horses. In addition, there shall be no point requirement to enter this class in the National Show.

### **PF109 Paso Equitation**

1. The class is to be judged 100% on equitation. Results as shown by the performance of the horse are not to be considered more important than the method used in obtaining them.

2. **Basic Position.** The rider shall convey the impression of effective and complete control at all times, showing both the horses and the rider to the rider's best advantage. A complete picture of the whole is of major importance.
3. **Arm and Hand Position.** The arm should hang naturally with the elbows not extending outward beyond a perpendicular line even with the rider's shoulders. The reins shall be held in one of the following manners:
  - a. The reins should be held one (1) rein in each hand entering at the bottom below the little finger and extending upward with the bight (excess) of the rein hanging on the off (right) side of the horse.
  - b. The rein must pass directly from the bit, between the little and third fingers, the thumb being placed on top. It is important that the third finger holds the edges of the rein in the joints nearest the palm and that the fingers are closed securely but without tension. Bight (excess) of the rein should be on the off (right) side.  
 The rider's hands should be held in an easy position, neither perpendicular nor horizontal to the saddle and should show sympathy, adaptability and control. The height the rider's hands are held above the horse's withers is determined by the head carriage of the individual horse. However, extremely high or low hand positions are improper. The rider's hands should not pass over or behind the pommel of saddle. The rider shall make every effort to achieve as straight a line as possible from the elbow through the forearm, hand and rein to the bit. Hands and wrists should be flexible and not held extremely separated.
4. **Head Position.** The rider's head should be held erect with the chin up. The rider's eyes should look straight forward.
5. **Back Position.** The rider's back should be straight, but not stiff. The rider's shoulders should be square.
6. **Feet and Leg Position.** The rider's leg should hang naturally with a slight bend at the knee. The rider's lower leg should be under the rider's body and not flared outward. Flaring of lower leg shall be penalized. The rider's feet should be parallel with the horse's body with the heels slightly lowered (approximately 1 inch). The ball of the rider's foot should rest directly over the stirrup iron with even pressure on the entire iron with heel, hip and point of shoulder in line. The rider's foot position should be natural (neither extremely in nor out).
7. **Position in Motion.** The rider's position in motion should be natural, coordinated and graceful. The rider should remain almost motionless at all gaits. From the side a straight line should be able to be drawn perpendicular to the ground through the rider's head, shoulder, hip and ankle. The rider's toe should never be more forward than their knee, thereby keeping their center of balance directly above their feet and ankles. The rider's upper arms should fall naturally from the shoulders toward the hip bones and should be flexible, never clutched to the body, extended forward, or spread away from the body. The rider should appear to have a natural flow downward into the saddle and show no side to side movement of upper body. At all gaits the rider should remain in the center of the saddle and not slip back on the -candle.

## PF110 Tests

The rider may be required to perform the following tests:

1. Ride without stirrups at a Paso Corto, maintaining the proper position. The stirrups may be crossed over the pommel of the saddle if so desired.
2. Back their horse smoothly and under control. The horse's mouth should remain closed and horse should not throw its head.
3. Dismount and mount. To dismount, the rider may either step down or slide down. The size of the rider must be taken into consideration. To remount, the rider shall check the curb chain and girth and adjust them if necessary. The rider shall gather the reins in their left hand with gentle pressure. The rider shall stand diagonally facing the front of the horse. The rider shall place their left hand in front of the horse's withers without holding the mane, turn the stirrup toward the rider with their right hand and place their left foot in the stirrup. The rider shall place their right hand either on the far side of the saddle at the waist or on the front arch (pommel), and spring lightly up, straightening both knees. The rider shall ease into the saddle and place their right foot in stirrup without looking down.
4. Perform a figure eight at Paso Corto (see diagram for pattern). The rider shall always turn and face the Judge unless otherwise instructed. The Judge may tell exhibitors whether they prefers large or small diameter circles.

5. Move their horse from Paso Largo to walk on a quiet rein.
6. Answer questions on parts of the horse and tack. See line drawings. Judge must refer to these drawings in asking questions.

## **PF111 Procedures**

1. The exhibitors will enter the ring to the right at a Paso Corto and circle the arena in a counterclockwise manner until asked to reverse or change gait. Entries will space themselves, maintain the same relative position and avoid bunching up. Entries will be penalized for bunching up or for not working on the rail. The sequence of the gait will be Paso Corto, Paso Largo, walk, reverse, and repeat. The reverse will be executed toward the center of the ring. A halt will be called at least once during the Paso Corto. Entries will execute the above class requirements and, in addition, Judges are encouraged to call for at least two (2) of the tests provided above, of the top contestants. Each of the tests is to be performed individually.
  - a. Judges must select only from test numbers 2, 5 and/or 6 for Sub-Junior riders. Junior riders may be asked to perform any of the tests.
  - b. For the safety of the other entries, Judges are required to excuse any rider who is unable to control their mount.

## **PF112 Appointments**

The tack shall be English type. Schooling tack is not acceptable. The attire shall be the official Paso Fino show costume. (See PF128.1 Official Paso Fino Show Costume.)

## **PF113 Classic Fino Youth**

Qualifying gaits, procedures and appointments, except for Safety Headgear (GR801), if applicable, are the same as described under the Classic Fino Division.

## **PF114 Paso Performance Youth**

Qualifying gaits, procedures and appointments, except for Safety Headgear (GR801), if applicable, are the same as described under the Paso Performance Division.

## **PF115 Paso Pleasure Youth**

Qualifying gaits, procedures and appointments, except for Safety Headgear (GR801), if applicable, are the same as described under the Paso Pleasure Division.

## **PF116 Youth Horsemanship**

Regional Group shows may offer this class at their discretion. This class shall be judged: 50% on horsemanship of rider, 10% on the suitability of the horse to the rider, and 40% on the performance of the horse. An individual test will be performed by each exhibitor. The course pattern must be posted at least two (2) hours prior to the test.

## **PF117 Procedures**

Exhibitors will enter the ring to the right at a Paso Corto and circle the arena in a counterclockwise manner until asked to reverse or change gait. The entries will space themselves, maintain the same relative position and avoid bunching up. Entries will be penalized for bunching up or for not working on the rail. The sequence of the gait will be Paso Corto, Paso Largo, walk, reverse, and repeat. The reverse will be executed toward the center of the ring.

A halt will be called at least once during the Paso Corto. Entries will execute the above class requirements. Horses that do not perform the paso gait will be eliminated after lining up. Judges will line up exhibitors and require exhibitors to perform the chosen tests individually.

Gaits:

Walk: slightly collected and maintained at an even pace with no hesitations

Corto: collected, with sustained cadence and rhythm

Largo: collected, with good transitions to and from corto, sustained cadence and rhythm.

## PF118 Tests

1. Stop: The rider should quietly stop the horse and keep the horse still and parallel to the rail.
2. Serpentine: At a corto, the rider will serpentine through cones without touching cones while maintaining gait, cadence, and rhythm.
3. Circles: At a corto, the rider will perform two (2) circles through cones while maintaining gait, cadence, and rhythm.
4. Figure Eights: In a distance of nine (9) feet between two (2) cones with the horse at a corto, the rider will perform the number of figure eights as described in the designated pattern while maintaining gait, cadence and rhythm without touching the cones.
5. Back: The horse shall back four (4) to six (6) steps in a straight line.
6. Sounding Board: At a corto, the rider shall put horse over the sounding board while maintaining gait, cadence and rhythm. The horse should move straight down the center of the board, tracking straight. The rider shall circle at the end of the board and return over the sounding board.

The course shall be posted approximately two (2) hours before the class. Off pattern: a rider will not be disqualified for failure to complete the pattern in the correct sequence but must be placed accordingly.

## PF119 International Paso Equitation

The Paso Horse Equitation highlights the style, grace, rhythm of the Paso horse, and the special relationship between the horse and rider. Paso Equitation is the art of effectively and correctly riding a horse using effective aids to achieve the best performance of the horse while maintaining correct posture, seat and balance that enhances the oneness between rider and horse. This event is judged 100% on the international equitation parameters and rules as defined herein.

Results as shown by the performance of the horse are not to be considered more important than the method, skills and aids used in obtaining the best performance of the horse.

1. Class Separation: Classes may be offered as an Open class or can be divided into age groups as follows:
  - a. Divided into International Paso Equitation Mini (4-5), International Paso Equitation (6-8), International Paso Equitation (9-11), International Paso Equitation (12-14), International Paso Equitation (15-17)
  - b. Divided into International Paso Equitation Mini (4-8), International Paso Equitation (9-12), International Paso Equitation (13-17)
    1. The "mini" category must use a protective riding vest without any posture aids.
    2. In the 4-5 and 6-8 age groups, there should be a minimum of four helpers in the arena for safety, designated by the Technical Committee, and music kept low.
2. Riders Position while the Horse is in Motion: The rider's position while the horse is in motion should be natural, coordinated and graceful. From the side, a straight line should be able to be drawn perpendicular to the ground through the rider's head, shoulder and ankle. The center of balance should be kept directly above the feet and ankles. The rider's upper arms should fall naturally from the shoulders toward the hip bones and should appear flexible, never tight against the body, reaching forward and/ or spread away from the body. The rider should appear relaxed, comfortable and natural. The upper body should not appear to be rocking from side to side. The rider must maintain a centered seat on the saddle and not slip backwards on/over the cantle

regardless of the modality/gait of the horse being ridden. The rider should appear to have a natural flow downward into the saddle and the body should not interfere with the movement of the horse.

3. Posture: The rider shall have a balanced, natural and correct position on the horse that promotes the best performance of the horse. The rider shall convey the impression of effective and complete control of the horse at all times, handling the horse in the most appropriate/ effective manner while maintaining a high degree of elegance, style and oneness with the horse.
4. Seat: The rider seat should have a natural flow downward into the saddle so that the torso, pelvis and legs are balanced and symmetrical. The body of the rider should not interfere with the movement and balance of the horse, but it should promote a good performance. The rider should be centered on the saddle and aligned with the horse's dorsal line. The seat must appear natural and comfortable at all times, highlighting the union with the horse. The seat should never appear rigid or tense.
5. Head: The rider's head must be held straight at all times, with the chin up, looking forward in the direction of travel so as to maintain full control of the horse while in motion.
6. Back: The rider's back should be straight, but not tense or stiff. The position of the back must look natural and it should not be arched, leaning forward or backward. The rider's shoulders should be square, but not tense or stiff. From behind, the riders back should be aligned with the horse's dorsal line.
7. Arm and Hand Position: The arms should hang naturally with the elbows not extending forward, backward or outward beyond a perpendicular line even with the rider's shoulders. The reins shall be held in one of the following ways (riders twelve (12) years of age and under may use a, b, or c. Riders thirteen (13) and over must use c.):
  - a. One rein in each hand entering at the bottom below the little finger and extending upward with the bight (excess) of the rein hanging to the right side of the horse.
  - b. The reins must pass directly from the ring of the bit, between the little and ring fingers, with the thumb being placed on top holding down the reins. It is important that the ring finger holds the edges of the rein in the joints (knuckles) nearest to the palm and that the fingers are closed securely, but without tension. The bight (excess) of the rein should hang to the right side of the horse. The rider's hands should be held in an easy and natural position, horizontal to the saddle, and should convey softness, adaptability and control. The appropriate height the rider's hands are held above the horse's withers is determined by the head carriage of the rider's horse. However, it is improper to maintain hands in an extremely high or low position. The rider must make every effort to achieve as straight of a line as possible from the elbow through the forearm; from the forearm to the hand; from the hand to the rein; and to the ring of the bit. The hands and wrists should remain flexible and not too far apart from each other.
  - c. The rider may also hold both reins in one hand. The other hand should take the reins from over or underneath the first hand so that both hands have control of the reins. The reins should be close together with the bight (excess) of the rein always hanging to the right side of the horse.
8. Leg and Feet Position: The rider's leg should hang naturally. The rider's lower leg should be under the rider's body and should not be extended forward or backwards; that is, it should follow a straight line from the knee down to the stirrup. Extending the leg forward, backward or not keeping a straight line from the knee to the stirrup shall be penalized. The rider's feet should be maintained parallel to the horse's body with the heels slightly lower than the toes (approximately one inch). The ball of the rider's foot should rest directly on the stirrup while exerting even pressure on the entire stirrup. The rider's foot position should appear natural and be as parallel as possible to the horse's body. The foot's position should not appear to be forced inwards and/or the toes pointing outwards. Those riders that appear to be forcing the foot position or maintain the toes pointing towards the body of the horse (inwards) or outwards; shall be penalized.
9. Judging Criteria

This class shall be judged: 60% on horsemanship/ riding skills and individual tests, 40% on the equitation posture of the rider as follows:

| Handling/ Riding Skills   |            |
|---|------------|
| Handling of the horse, control, confidence, focus, skills and ability to maintain the horse in gait throughout the class. | 30 points  |
| Effective use of aids   | 10 points  |
| Individual Tests  |            |
| Figure Eight (Including Entrance and Halt)  | 7 points   |
| Back  | 3 points   |

| Feet  | 4 points   |
| Subtotal  | 40 points  |
| Grand Total   | 100 points |

- a. The individual tests start at the figure eight and ends after completion of the Sounding Board test. The individual test must be completed in its entirety.
- b. Participants that don't follow the sequence of the tests shall be penalized with 15 points under the Handling and focus area.
- c. In the event that a participant omits or does not complete a test, the participant shall be penalized with up to five points under the Focus area plus five points for each incomplete test.
- d. The rider's seat should appear centered on the saddle and aligned with the horse's dorsal line. The seat must appear natural and comfortable at all times highlighting the oneness with the horse. The seat should never appear rigid and/or tense. A seat that does not appear to be natural and uneven/off-center shall be penalized with up to eight points.
- e. The rider's foot position should appear natural and be as parallel as possible to the horse's body. The foot's position should not appear to be forced inwards and/ or the toes pointing outwards. The feet position should appear natural. Those rider's that appear to be forcing the foot position, or that maintain the toes pointing towards the body of the horse (inwards) or outwards shall be penalized with up to four points.

#### 10. Class Procedures

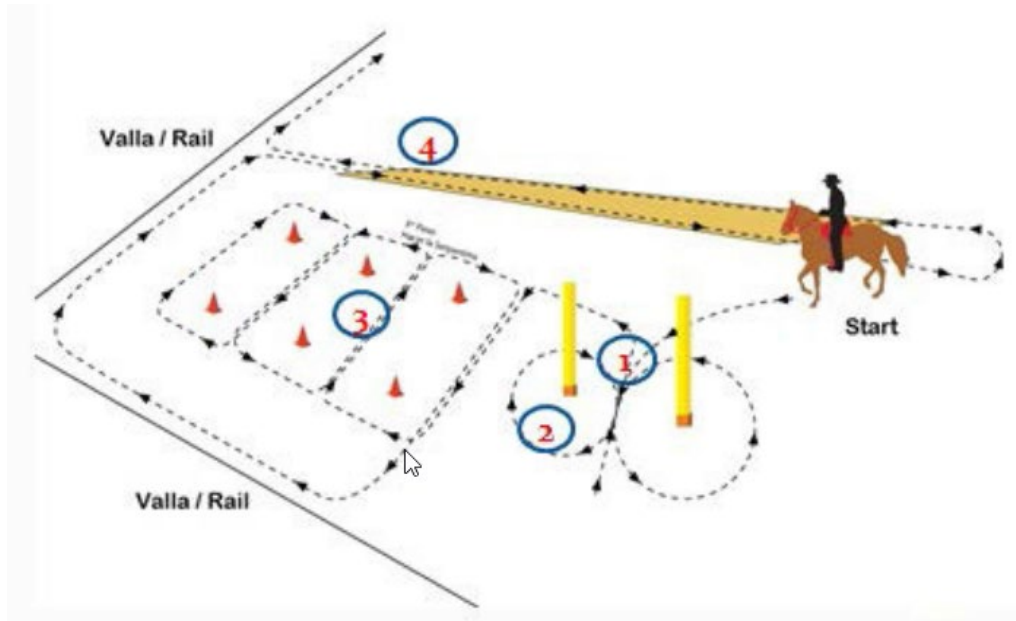

- a. All exhibitors must maintain horses at a Corto or Fino while being judged.
- b. Participants shall enter the arena to the right, close to the rail and circle the arena in a counterclockwise manner. Participants should maintain their horses on the rail. The rail should not have any obstacles that may prevent the continuous movement of participants, including personnel and/ or judges. At the

discretion of the Judges, the participants will be ordered to complete various circles in one direction until instructed to reverse to be evaluated clockwise. The reverse will be executed toward the center of the ring returning to the rail in the opposite direction. The turn should not exceed an area of three meters. The rider should maintain their horses in gait during the reverse. Judges will observe the rider's skills, focus, handling and ability to maintain the horse in gait during its movement on a straight line as well as during the turns. Participants will then be asked to line up their horses in a predetermined area of the arena where they will wait to be asked to go over the sounding board one by one in both directions and exit to the Holding/ Line up area where they will wait for their individual tests.

- c. Regardless of where the participants start from, participants shall approach the Figure Eight from in between the sounding board and the Figure Eight poles. After completing the Figure Eight and Back, the participants shall exit the figure eight in a straight line from the middle of the two poles and head towards the Serpentine test. After completing the serpentine, the riders will head to the rail in a straight line and proceed to the sounding board. The sounding board test must be completed in both directions. Not performing the tests in the sequence established herein shall be penalized with the corresponding loss of points. Participants must maintain the horses in gait at all times.
- d. Each participant will perform individually in order the following mandatory tests:
  1. Figure Eight
  2. Halt and Back
  3. Serpentine
  4. Sounding Board
- e. Figure Eight. Participants shall execute three Figure 8s around the poles (two in one direction and one in the opposite direction). The start and end of each figure eight will be in the center (midpoint) of the two poles. Participants shall enter the figure eight from in between the sounding board and the first figure eight pole to cross over the midpoint to the second pole and complete two figure eights in one direction, followed by a straight line (towards the entry point) from one pole to the next and then complete one more Figure Eight in that direction. At the completion of the last Figure Eight, participants will halt in between the two poles facing the judges. Participants that turn in circles around one of the poles during the Figure Eight test to show off shall be disqualified in classes over nine years of age. Younger ages shall be penalized. Participants shall be penalized if they enter the Figure Eight incorrectly or, perform more or less than three figure eights in the manner described herein.

During the Figure Eight test, the Judges will evaluate the softness of the hands on the reins, the use of aids balancing the body on the horse during the turns, and the rider's ability to maintain the horse in gait throughout the test. Participants shall be penalized if the rider opens and widens the position of the hands and arms while turning (except in classes of youth less than 12 years old), using a leading rein on/or close to the horse's neck, using excessive aids (kicking, slapping the reins, etc.), if their mount veers off track during the turns, or does not maintain gait during the test.
- f. Halt and Back. Once the figure eights are completed, participants must halt in the middle of the two Figure Eight poles and back their horses a minimum of four steps and a maximum of six steps. Judges will evaluate the smoothness of the command to halt, the rider's seat (relaxed natural seat, balance, and proper position), the way the rider guides the horse backwards with subtle commands, and in a straight line using even diagonal steps until halting the horse to complete the back. After completing the required back, the participant must come to a full stop and command the horse to move forward with softness, focus and determination. This is accomplished with the use of the proper aids and the rider's balance on the horse. After completing the halt and back, the rider should head in straight line in between the poles towards the serpentine.
- g. Serpentine. After completing the "Halt and Back" test, participants must perform a Serpentine in an area designated for such. This test allows the Judges to evaluate the riders' use of aids and the ability to maintain their horses in gait, with cadence and flexibility during the straight lines and turns. The serpentine test consists of alternating straight-line movements and half circles turns. During the half-circle turns, the horse's body should bend toward the center of the circle. During the transition from straight lines to half-circle turns, the horse must not move over the tangent, in zigzag or sinusoid patterns (Refer

to diagram below). The serpentine pattern will be marked with three rows of cones to ensure that the test is performed correctly. The use of bright yellow objects is recommended (refer to diagram below).

## Serpentina / Serpentine

### LEYENDA / LEGEND

- Postes / Poles
- ▲ Conos / Cones
- ▲ Recorrido de la Serpentina / Serpentine
- ▲ Finaliza la Serpentina / End of Serpentine

### Tabla Sonora / Sounding Board

- h. Sounding Board. The board shall be placed at ground level. If this is not possible, then there must be access ramps. Once the serpentine test is completed, participants must go over the sounding board in both directions with the horse centered in the middle of the board and straight tracking throughout. Participants must traverse the sounding board in one direction, come off completely (in any direction) and return in the opposite direction. Not performing the test in the manner reference above shall be penalized. The Judges shall evaluate the rider's ability to maintain the horse in gait, the ability to keep the horse in a straight-line trajectory over the sounding board. Participants shall be penalized for not maintaining their horses in gait; or allowing the horse to move sideways (not straight) over the sounding board; or allowing

the horse to step off (one leg) the sounding board. Participants in categories of nine years of age and older shall be disqualified for turning on the sounding board or stepping more than one leg off the sounding board. Participants in categories under nine years of age shall be penalized for turning on the sounding board.

- i. Additional Test/ Work Offs. Judges may request optional tests/ work offs between two or more participants. These tests shall be randomly selected (from tests 1, 2, 3, 4) through a lottery system prior to the competition and will be performed independently one at a time until the judges are ready to pin the class.
  1. Reverses - Four Calls for Reverse
  2. Parallel Comparison
  3. Circles (three circles around the poles in one direction, reverse towards the pole and three circles around the poles in the opposite direction)
  4. Dismount and Remount (can only be requested for participants 13 years of age and older). Riders must follow the procedure outlined.
- j. Dismount/ Remount Procedure.
  1. To dismount, the rider may slide down off the saddle or use the stirrups. The participant's height must be taken into consideration.
  2. Before mounting, the rider must check, and if necessary, readjust the curb chain and the cinch.
  3. The rider should hold the reins in the left hand using little pressure on the reins and stand diagonally by the side of the horse facing front and looking at the horse's withers.
  4. The participant should then place their left hand on the horse's withers while holding on to the mane or the pommel.
  5. Turn the stirrup towards their body using the right hand and put the left foot into the stirrup.
  6. Holding the opposite side of the saddle (cantle) or on the front panel (the pommel or the horn) with the right hand, the rider should smoothly lift themselves up to the saddle, straighten both knees and cross the right leg over the seat of the saddle, and then ease down into the seat while placing the right foot into the stirrup without looking down.
  7. Judges must take into consideration the training and manners of the horse. A participant may not be penalized for the behavior of the horse during the dismount and remount procedure.

## **SUBCHAPTER PF-3 BELLAS FORMAS (CONFORMATION) CLASSES**

### **PF120 Class Specifications & Qualifying Gait**

The choice of gait is optional, either Classic Fino or Paso Corto, and one form of the gait shall not be given preference over the other.

Both conformation and gait shall be judged in this class. Transmissible faults, such as buck-kneed, calf-kneed, base wide, base narrow, cow hocks, sickle hocks, toe-in, toe-out, offset knees, standing under, camped out in front, too straight behind, etc., shall be counted heavily against breeding stock. A horse with a swayback or fallen crest will be heavily penalized. A horse must be serviceably sound to be considered for placement. Any horse that fails to demonstrate the Paso gait so that the Judge can evaluate shall be disqualified from placement. This class shall be judged: 60% on conformation, 30% on quality and naturalness of gait, and 10% on appearance, grooming, and manners.

### **PF121 Procedures**

1. Entries of any age may be shown with a halter and single or double lead line. If two lines are used, they shall be long and shall be one on either side of the halter; if two lines are used, the horse may be handled by one attendant holding both lines or by two (2) attendants- one holding each line. If one line is used, only one (1) attendant is allowed. No attendants other than those actually holding the lines are allowed. Lines may end in

The Judge shall penalize a horse if the handler uses their hands on the horse's leg below the knee to position the hoof in the lineup.
4. Additional work-offs may be required at the Judge's discretion including the use of the sounding board to exhibit horse's cadence of gait. Bumps, balls, and knots are not allowed in either nose piece or chin pieces in any class. Except for Schooling classes in the Classic Fino and Paso Performance divisions, metal is not permitted in, under, over or attached to the cavesson nosepiece except for necessary buckles. 2. Schooling Headgear. Schooling headgear is defined as a bosal and barbada or alsador attached to the correct bridle for that division. Schooling Headgear is permitted in the following circumstances:
  - a. Schooling classes,
  - b. 36 to 60 month old horses in Amateur or Open classes that are not Schooling classes or

- c. 36 to 60 month old horses in Youth classes, except Equitation and Horsemanship classes, headgear can be any training headgear not considered cruel or inhumane by the Judge or Show Committee. Bare metal, except for curb chains or parts of buckles, is not allowed. In a schooling class, metal may be used if covered in a nosepiece or under the chin, but it must not be considered cruel or inhumane by the Judge or Show Committee and be sufficiently covered to ensure comfort to the animal.
3. Bits. (All Divisions)
- a. Bits are required in all classes except Schooling Classes or other classes as specified. Bits may be of any humane approved type, curb or snaffle. See Paso Fino Tack Guide.  
There shall be no discrimination against any standard curb bit. A standard curb bit is defined as having a shank with a maximum length overall of 8 1/2". When a curb bit is used a curb strap or curb chain is required and must be at least 1/2 inch in width. The mouthpiece will consist of a metal bar 5/16" to 3/4" in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or latex wrapped. Nothing may protrude above or below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three-piece mouthpiece may include a connecting ring of 1 1/4" or less in diameter or a connecting flat bar of 3/8" to 3/4" (measured top to bottom with a maximum length of 2"), which lies flat in the mouth, or a roller or port as described herein. The port must be no higher than 3 1/2" maximum with roller(s) and covers acceptable. Jointed mouthpieces, half-breeds and spade bits are standard. Straight bar bits must have rounded edges or be wrapped. The diameter or thickness of the bar is not to exceed 3/4". The width (flat surface) of the bar must not exceed 1". Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Roping bits with both reins connected to a single ring at center of cross bar shall not be used. Reins must be attached to each shank. Any rein design or other device which increases the effective length and thereby the leverage of the shank of a standard curb bit is prohibited. Anything that alters the intended use of the equipment as described in the appointments for a given class is considered to be an artificial appliance. A standard snaffle bit is defined as a center jointed single rounded, unwrapped smooth mouthpiece of 5/16" to 3/4" diameter metal as measured from ring to 1" in from the ring with a gradual decrease to the center of the snaffle. The rings may be from 2" to 4" outside diameter of either the loose type, eggbutt, dee or center mounted without cheeks. The inside circumference of the ring must be free of rein, curb or headstall attachment hooks. Snaffle bits do not require a curb chain. If a curb strap is used it must be attached below the reins.
  - b. Shanks cannot exceed eight and a half (8.5) inches. The length of a shank shall be measured in a straight line from the inside of the uppermost part of the headstall slot to the point on the rein ring where the rein would pull from when pressure is applied to the rein.
  - c. All ports must be less than three and a half (3 1/2) inches in height as measured from the bottom of the mouthpiece to the top of the port or spoon. Measurement will be taken by placing a straight edge at the bottom of the bars to have an accurate line as the "bottom" when measuring the height.
  - d. All bits with shanks must have a curb strap or curb chain attached and used for leverage. Snaffle bits do not require a curb chain. If used, curb chains and leather straps must be flat and at least 1/2 " in width and lie flat along the "chin groove" (the part of the jaw behind the bulge of the chin) of the horse. Soft cover and/or wrap may be used on the curb chain. No wire, rawhide, or metal can be used in conjunction with, or as part of, the leather chin strap or curb chain.
  - e. All mouthpieces must be smooth or latex wrapped. The mouthpiece will consist of a metal bar 5/16" to 3/4" in diameter, as measured 1" from the shank. Flat bar mouthpieces must be measured 1" from shank and will be 5/16" to 3/4" on the upper and lower surface. The width of the flat bar will be no wider than 1.5". Nothing may protrude below the mouthpiece such as extensions, prongs, or rivets designed to intimidate the horse.
  - f. Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Any rein design or bit shank which increases the effective length and thereby the leverage of the shank of the bit is prohibited.
  - g. The competition steward may require a rider or riders to dismount and drop their horse's bits for inspection. Competition officials may select entire classes or individuals in any section for inspection. In championship classes, the steward or judge may inspect bits of the top placing horses at the end of

the class. This may be done in the ring or as the horses exit the ring. For safety, riders must dismount and drop the horse(s)'s bit for inspection. Show officials may determine the extent and number of placements to be checked and the location for the inspection.

4. Saddles.

- a. Plantation Saddle – Pleasure type saddle allowed in all pleasure classes. If a saddle pad is used, it will be conservative in color and does not necessarily need to conform to the overall shape of the saddle.

The browband and cavesson nose piece may not exceed one (1) inch in width and must be a minimum of 3/8" wide or in diameter. Dropped nosebands, tie downs, and martingales are prohibited. Headstalls may have a throatlatch with a pisador. The pisador may be rawhide. Throat latches may tie rather than buckle.
- c. Reins. Reins may be leather, flat, rolled or braided. Nylon or other natural or man-made fiber reins may be used (hereafter referred to "nylon"). When nylon reins are used, they must be the same color as the headstall or conservative in color. Combination leather/nylon buckle-back reins may be used. Snaps that attach the reins to the bit or bosal may be used except in Equitation and Horsemanship classes. Reins with buckle attachments and without snaps must be used in all Equitation and Horsemanship classes.

Western saddles are allowed in those classes requiring Western tack and in pleasure classes if Western tack is used and Western attire is worn. Silver equipment is permitted but must not predominate. The head stall shall be of the Western type customarily used with a stock saddle. Western Pleasure horses under the age 60 months and under may use a snaffle or bosal; horses 61 months and over must use a curb bit. These special considerations may include the exemption from dismounting and mounting in Paso Pleasure classes. <sup>[1]</sup><sub>[5EP]</sub>When a dismount/remount is called for during the lineup in any Paso Pleasure class, any exhibitor may request the use of a mounting block to complete the test. Each show will have a mounting block available in center ring which will be provided to an exhibitor upon request.

### **PF142 Procedures.**

The exhibitors will enter the ring to the right of the rail at a Paso Corto, and circle the arena in a counterclockwise manner. Sequence of gaits will be: Paso Corto, Paso Largo, walk, reverse and repeat, then line up. When requested by the Judge, the rider will back the horse out of the line up, dismount from the left side, walk around to the front of the horse checking the headgear and/or bridle appointments, then remount from the right side and return to the line up. Rider's style of dismount and mount is not to be emphasized; rather, emphasis is placed on the horse's willingness to back in a calm controlled manner and to stand quietly. While executing all gaits, entries should space themselves to avoid bunching up and maintain their relative positions on the rail except to pass. When western style tack is used, the rider may use either one or two hands.

## **PF145 Paso Versatility Class**

1. Class Specifications.
  - a. In this class, the horse will be asked to demonstrate balance, flexibility, coordination and manners while performing the various gaits, tests, and maneuvers. Manners and willingness are very important. The back must be controlled and smooth. Failure to properly execute the Paso Corto and Paso Largo, demonstrating an evenly-spaced four-beat lateral gait, will automatically disqualify the horse, and it will not be asked to do the individual work out, executing a figure eight maneuver at a Paso Corto and taking the jump from the canter. Failure to take the correct lead in the canter shall be penalized. One refusal to take the jump will cause a lowering of the horses placing within the class. Two refusals to take the jump will automatically disqualify an entry from the class. The figure eight is to be performed at the Paso Corto and should be smooth, consistent in gait, and supple. A jump that is a minimum of eighteen (18) inches and a maximum of two (2) feet will be taken from the canter.
  - b. The class shall be judged: 20% on the Paso Corto; 20% on the Paso Largo; 10% on the walk; 10% on the canter; and 40% on back, jump, manners, and figure eight.
2. Procedures. The exhibitors will enter the ring to the right on the rail at a Paso Corto and circle the arena in a counterclockwise manner. The sequence of gaits shall be: Paso Corto, Paso Largo, flat walk, collected canter, flat walk, reverse and repeat. In the remaining gaits, exhibitors shall remain on the rail except to pass. Riders shall be asked individually to back, execute a figure eight maneuver at a Paso Corto, and take a jump from the canter.
3. Appointments. The tack and headgear are to be English type, with a bridle and cavesson. No schooling headgear allowed. Forward seat saddles are also allowed. Attire is to be English-style as described in the Paso Pleasure Division (PF139). Safety Headgear is required. (GR801)

## **PF146 Paso Western Pleasure**

1. Class Specifications

In all gaits, the horse must be smooth and responsive, and both horse and rider should appear comfortable and relaxed. The horse must work on a very light rein, but some contact should be maintained. Gait transitions should be taken on the first stride, and the horse should maintain its speed and cadence without restraint by the rider. Failure to take the correct lead in the lope shall be penalized.
  - b. This class shall be judged: 35% on Paso Corto; 30% on lope; 10% on flat walk; and 25% on manners, attitude, and way of going.
2. Procedures. The exhibitors will enter the ring to the right on the rail at a Paso Corto and circle the arena in a counterclockwise manner. Only one hand may be used on the reins when using a curb bit and hands must not be changed. If hands are changed or if two hands are used with a curb bit, the exhibitor shall be penalized. If the left hand is used with reins, the bight must drape to the left side of the withers. The only exception to this is if long reins or a romal are used. In that case, one hand may be used to carry the excess rein, but the hands must be at least twelve (12) inches apart. All horses being considered for an award are required to back in a straight line. Refusal to back disqualifies a horse from placement. The sequence of the gaits shall be: Paso Corto, flat walk, lope, flat walk, reverse, and repeat. Riders should space themselves while executing the flat walk to avoid bunching up and maintain their relative positions on the rail. In the Paso Corto and lope, entries shall remain on the rail except to pass. The judge may require each rider to dismount and remount in the line-up from the left side. The rider's style of dismount and mount is not to be emphasized; rather, emphasis is placed on the horse's willingness to stand quietly. The judge is prohibited from requiring a horse to perform the Paso Largo on the sounding board. The judge also may require any of the following tests to any or all entries:
  - a. Demonstrate a straight back for up to 15 feet.
  - b. Lope and stop either on the rail or on the center.

- c. Perform the figure eight at the lope on the correct lead demonstrating a simple change of lead. One or two figure eights may be required. In a simple change of lead, the horse is brought back to the halt and restarted into the lope on the opposite lead from the halt or walk.
  - d. Perform the Paso Corto gait over the sounding board.
3. Appointments. The tack and attire are to be Western type. Horses 60 months and under may use a snaffle or bosal. Horses 61 months and over must use a curb bit.   - c. Horses are to be penalized for any unnecessary delay while approaching the obstacles. Judges are encouraged to advance on to the next obstacle any horse taking excessive time at an obstacle.
  - d. Any horse not properly performing the gait required between the obstacles or any horse that fails to follow the prescribed obstacle or follow the prescribed course of travel through the obstacle should be penalized in the same manner as not completing the obstacle.

2. Procedures.
  - a. In this class, each horse shall be asked to negotiate through obstacles. Obstacles are to be negotiated by exhibitors individually with only one horse in the arena at a time.

An exhibitor in this class cannot design or set up the course. The course will show the line of travel through obstacles and the gait required to perform obstacles. Changes or revisions will not be permitted after posting. The course will specify how a horse is to negotiate or travel between obstacles that seems appropriate. The trail pattern must be posted at least two (2) hours prior to the class.
  - c. Tests that may be required are: negotiating a gate, carrying an object from one part of the arena to another, riding through water, over logs or simulated brush, riding down into, up and out of a ditch without lunging or jumping, crossing a bridge, backing through obstacles, sidepassing, mounting and dismounting from either side, and performing over any reasonable conditions along the trail. (See WS103.4 for posting requirements.) Any coat or jacket to be put on by the rider must be open in front and not be an item which must be put on over the head. Unnatural obstacles, such as fire extinguisher, perforated plywood in water boxes, or exotic animals should be avoided. After consulting with show management, a sounding board may be used as an obstacle. The judge is prohibited from requiring a horse to perform the Paso Largo on the sounding board.
  - d. The course is to include a minimum of six (6) obstacles and a maximum of eight (8) obstacles. (See WS126, as may be amended from time to time, for dimensions of trail obstacles only, does not include section on Unacceptable Obstacles.)

They shall be judged: 80% on attractiveness of costuming and appropriateness of same to the horses and the completeness of the costuming idea; 10% on the brilliance of gait and on the carriage of the horse; and 10% on manners of the horse. Points in this class shall be assigned to the rider.

  - g. Hoof Inspection. All horses entered in any classes at the National Show shall have their hoofs inspected before entering the ring by a committee of three appointed by the Show Chairperson, consisting of an impartial farrier, a veterinarian, and a member of the Show Committee. Any evidence that the hooves have been trimmed too closely, which is a practice called "soring," shall disqualify the entry for the remainder of the show.
  - h. Grand National Champions: Grand National Championships will be divided by gender (Stallions, Mares, Geldings) in the Classic Fino, Paso Performance, and Paso Pleasure divisions in both Open and Amateur classes. To be eligible for entry into the Grand National Championship class, a horse must have been properly entered, shown and judged in one of the qualifying classes.
  - i. The Association National Show shall be an "A" rated USEF licensed competition.

All horses registered with PFHA after 2018 must be microchipped to be eligible to compete. All participants (owners, agents, lessees, trainers, riders, exhibitors, and handlers) must be current members of, and in good standing with, the PFHA. These rules are a condensed version of the Paso Fino Horse Association rules. Please refer to the latest edition of the PFHA rules for details.
  - a. The following credentials must be made available to Competition Management and steward and copies of said credentials must accompany the entry form however items 1 and 3 may be electronically verified when possible by the competition secretary:
    1. Each participant's PFHA and USEF membership card.
    2. The participant's PFHA and USEF amateur card, if applicable.
    3. A copy of each horse's entry's registration papers (back side only if it contains the owner's name) or PFHA show validation certificate.
    4. All other papers and health documents required by law or by competition management.
    5. Copies of applicable lease agreements
    6. Affidavits of sales contracts.
  - b. If the participant has submitted their entries via the PFHA online entry system then the following credentials must be made available to Competition Management and the steward, and copies of said credentials must be presented at time of check in:
    1. All other papers and health documents required by law or by competition management
    2. Copies of applicable lease agreements
    3. Affidavits of sales contracts
    4. USEF membership card (may be electronically verified when possible by the competition secretary).
2. Definition of an Amateur Owner. Each exhibitor in an Amateur Owner Class must be an amateur, certified as an Amateur by the Federation and be the owner of the horse being ridden or a member of the owner's family (GR106 and GR123). In the case of a corporate owner, the stockholders of the corporation shall be considered the owners for purposes of this definition. A horse that is the subject of a lease to an amateur is not considered owned by that amateur for purposes of this definition. The purchaser of a horse under an installment method of payment shall be considered the owner of the horse for purposes of this definition, if the purchaser, either before or at the time of the competition in question, files an affidavit on a form provided by the Paso Fino Horse Association for this purpose that describes certain relevant information about the purchase.
3. No artificial appliances are allowed. Artificial appliances include, but are not limited to leg/fetlock ankle chains (leather, string, plastic, rubber chain, wood, etc.) of any weight. These are prohibited on the showgrounds and exhibitors using such appliances are subject to penalties and expulsion from the show grounds. Normal grooming preparations including the use of black or clear polish on hooves are allowed, but make-up, (other than on hooves), and glitter are prohibited. All horses must be in good condition. The color of a horse or the color of the horse's eyes will not be a consideration in judging a horse.
4. Soring of a horse is prohibited. Any physical evidence, including but not limited to scars or blisters, of training with heavy shoes or artificial devices or soring shall cause the horse to be disqualified.
5. Inspection. At the line-up in all classes, Judges will carefully inspect the horses for artificial devices, training scars, raw or bleeding sores, soundness, marked lameness, and welts from whips or spurs in accordance with these rules. At all PFHA approved shows, the Judge may, at their discretion, inspect any horse for evidence of soring. Any evidence of soring shall disqualify the horse for the class and remainder of the show.

6. Prohibited: Any injection of any foreign substance or drug or any surgical procedure that could affect the horse's performance or alter its natural conformation or appearance, except for those surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the horse. Upon discovery that prohibited surgery or injection of a foreign substance or drug has occurred, show management shall immediately disqualify the horse and report the matter to the PFHA for further investigation.
  - a. This rule shall not apply to castration or to the cosmetic alteration of the horse's tail. However, the horse's tail may not be altered by the insertion of a foreign object, foreign substance or drug. Under no circumstances may a horse with a "dead tail" be shown at a PFHA sanctioned show.
7. Examination of Horse Required. Every owner and exhibitor shall, upon request of show management, permit examination of a horse for determination of the presence of prohibited surgery or foreign drug or substance. Refusal to comply with such request shall: (1) constitute grounds for disqualification of the horse from further participation at the show or from further approved events pending hearing of the PFHA Hearing Committee; (2) bar the horse from participation in future approved events or shows for such period as determined by the PFHA Hearing Committee; and (3) constitute grounds for suspension of PFHA membership of the owner and trainer.
8. To be eligible to show in a Performance Championship class a horse must have been properly entered, shown and judged in one qualifying class in the same division or section.

## **PF102 General Rules**

1. Horse's Age. A horse's age requirement will be counted in months. For purposes of determining the appropriate class at a horse show, a horse's age is determined in months from the foaling date to the end of the month preceding the month of the show.
2. Ring Conduct. The ring conduct of any exhibitor shall not be such as to affect adversely the exhibition of any other exhibitor's horse in the ring. Horses should be spirited, display refinement and beauty, but must be obedient. In all mounted classes, the riders shall space their mounts in such a manner so as to avoid bunching up and shall maintain such relative positions during such class demonstrations.

      - d. Ineligible horse due to relationship with judge
      - e. Undue stress on horse

f. Soring

4. Enforce General Rules: Report Violations & Facilitate Correction. The judge shall have the responsibility to enforce the class and competition rules, and also rules relating to the soundness of horses at any competition at which they are judging. The rules are to be enforced by any of the following means:
  - a. Requiring the violation to be corrected.
  - b. Excusing the horse and exhibitor from the class.
  - c. Prohibiting the horse and exhibitor from participating in the class.
  - d. Other appropriate action.

It is the purpose and intent of this rule to permit and further competition. Therefore, correction of violations should be permitted where practical and where correction may be done without undue delay of the competition and without being unfair to other competitors. The Judge shall report to the Steward any violations noted under this rule.
5. Calling Class Placement. After a class has been pinned and Judge's Card turned in, any non-placing horses shall be excused from the ring. Non-winners of ribbons in any class should remain in the ring until excused. The placement of the class shall be called starting with honorable mention seventh (7th) and proceeding sixth (6th) through first (1st). The first (1st) place horse shall have the option of making a victory ride once around the ring. The first (1st) and second (2nd) places shall have the option of going down the sounding board.
6. In a class with a single entry a judge may have the horse perform all required gaits one way of the ring and pin it or excuse it in accordance with the rules. Exception: In a youth class, the class shall be worked as if there were several horses.
7. Delay and/or Commencement of Classes.
  - a. Commencement see GR109. Delay see GR831.
  - b. Show management may apply one of the following procedures in order to ensure timely commencement of classes:
    1. When horses are competing collectively, if the first horse does not enter the in-gate within one minute after the in-gate is opened the class is cancelled.
    2. When the first horse enters the in-gate within one minute and there are remaining exhibitors who have not entered the ring, a three minute warning may be issued. If the remaining horses do not enter at the end of the three minute warning, the gate will be closed.
    3. Judging must commence upon closure of the gate.
8. Jumps. In all classes calling for jumps, the jumps may be either horizontal bar jumps or cross rails. The horizontal bar jumps must include two (2) vertical poles, appropriate jump cups, a horizontal bar for the jump, and a bar for a ground line. All material should be white or some other color that is in contrast to the ring. Jump rails for the horizontal bar jump must sit firmly in jump cups and cannot be on the cup edges. Ground lines must be on the approach side of the jump and no farther than two (2) feet away from the horizontal jump crossbar. The horizontal bar jump shall be a minimum of eighteen (18) inches and a maximum of two (2) feet. The height of a cross rail may not exceed eighteen (18) inches and shall be measured at the top of the center of the intersection of the poles. The height of the jump cups should be set so the angle of the pole does not exceed approximately 30 degrees. Hay bales cannot be used as jumps. All jumps in warm-up areas must conform to the above guidelines.
9. Withdrawing from Competition. No exhibitor may withdraw a horse from a sanctioned competition after it has commenced, or remove the horse from the competition grounds, without the permission of the competition secretary. An exhibitor who has entered the ring may request permission of the judge to exit the ring before judging is completed. If an exhibitor voluntarily removes a horse from the ring without the permission of the judge, except in deference to safety, the Show Committee will disqualify the exhibitor and all their entries from all future classes at that competition and all prizes and entry fees for the entire competition shall be forfeited.
10. Same Rider on Two Horses/Two Different Riders on Same Horse Prohibited. A rider must not show more than one horse in a class, with the exception of a trail class. For a trail class, a rider is permitted to show more than one horse if there is a handler for each horse. When accepting awards for a trail class, the rider with multiple horses will ride one horse into the arena and the other horses are to be led in by a handler, one per each horse. In any saddle class, the rider is not to be changed during the class.

11. An exhibitor may not use any type of electronic, mechanical or similar communication or mechanical device in the show ring while being judged, except for an exhibitor who is hearing impaired and who normally uses a sound enhancing device to achieve normal -hearing.
12. Showing a horse with raw or bleeding sores or raw or bleeding abrasions around the muzzle, nose, chin groove, or jaw is considered an act of abuse. Horses showing signs of undue stress or inhumane treatment must be disqualified from the competition.
13. Soundness. All horses must be serviceably sound for competition purposes. A horse must not show evidence of lameness, or broken wind. Animals with complete loss of sight in either eye may be found serviceably sound at the Judge's discretion.
14. Extremes of temperature or climate conditions, may modify the requirements for attire as specified in various sections of these rules. Competition management will determine the modification and need thereof.
15. In the Paso Fino division, exhibitors must be given no more than one placement per class. Classes will be judged under one of the following procedures;
  - a. One judge per class;
  - b. Conferring or a panel of judge submitting a single judges placements card; or
  - c. A panel of three (3) or five (5) judges issuing placements that are averaged prior to announcing the final placement for the exhibitor(s).

### **PF103 Shoeing Regulations**

If a horse is shown unshod, hooves will be neatly trimmed to a short natural length, not to exceed four (4) inches. If a horse is shown shod, the length of the hooves is not to exceed four and one half (4 1/2) inches, including shoes. All four (4) feet must be shod with the same type of shoe of the same material, weight, and thickness although front and back hooves may be shod in different sizes. Aluminum shoes and rim shoes are permitted. Each shoe cannot exceed ten (10) ounces. Weighted shoes, trailers, heel caulks, and any style of pads are prohibited. Toe and/or side clips drawn from the shoe are allowed as long as the clips are an integral part of the plate shoe. All horses showing in Classic Fino must be shown shod.

### **PF104 Type and Conformation**

The Paso Fino horse reflects its Spanish heritage through its proud carriage, grace and elegance. Modern care and selective breeding have enhanced its beauty, refinement and well-proportioned conformation that conveys strength and power without extreme muscling.

1. Head: The head should be refined and in good proportion to the body of the horse, neither extremely small nor large with the preferred profile being straight. Eyes are large and well-spaced, very expressive and alert, and should not show excessive white around the edges. Ears are comparatively short, set close and curved inward at the tips. The lips should be firm and the nostrils large and dilatable. Jaws are defined but not extreme. The impression should be of a well-shaped, alert, and intelligent face.
2. Neck: The neck is gracefully arched, medium in length and set on at an angle to allow high carriage, breaking at the poll. The throat latch should be refined and well-defined.
3. Forehand: Shoulders are sloping into the withers with great depth through the heart. Chest is moderate in width. Withers are defined but not pronounced and slope smoothly into the back.
4. Midsection: The midsection is moderate in length with a well-sprung rib cage. The top line should be proportionately shorter than the underline. The back should be strong and muscled. The midsection should join the forehand and the hindquarters so as to give the horse a pleasing, proportioned appearance.
5. Hindquarters: The croup is slightly sloping with rounded hips, broad loins, and strong hocks. The tail is carried gracefully when the horse is in motion.
6. Legs: The legs are straight with refined bones and strong, well defined tendons and broad, long forearms with shorter cannons. The thigh and gaskin are strong and muscled but not exaggerated. Standing slightly under in the rear is acceptable. Pasterns are sloping and medium in length. Bones are straight, sound, and flat, and

joints are strong and well defined. Hooves are well rounded, proportionate in size and do not show excessive heel.

7. Mane, Tail and Forelock: Mane, tail, and forelock are as long, full, and luxurious as nature can provide. No artificial additions or alterations are allowed. A bridle path not exceeding 4" is acceptable. Horses under 12 months will not be penalized for having clipped manes or tails.
8. Size: Paso Fino horses are 13 to 15.2 hands with 13.3 to 14.2 being the most typical size with weight ranging from 700 to 1100 pounds. Full size may not be attained until the fifth year.
9. Color: Every equine color can be found, with or without white markings.
10. Disposition: The Paso Fino is an extremely willing horse that truly seems to enjoy human companionship and strives to please. It is spirited and responsive under tack while sensible and gentle at hand.

## **PF105 Gaits**

1. The Paso Fino is born with a gait unique to the breed, and its attitude seems to transmit to the observer that this horse knows its gait is a very special gift that must be executed with style and pride! The gait, being totally natural, does not exhibit the catapulting or exaggerated leg action of man-made gaits; rather the movements are smooth, rhythmic, purposeful, straight, balanced in flexion and synchronous front to rear, resulting in unequalled comfort and smoothness for the rider. The Paso Fino is a graceful, agile and supple equine athlete that uses all four legs with precision and harmony. With its definite but controlled spirit, natural gait and presence, and responsive attitude, the Paso Fino is, indeed, a rare and desirable equine partner.
2. The gait of the Paso Fino horse is an evenly-spaced four-beat lateral gait with each foot contacting the ground independently in a regular sequence at precise intervals creating a rapid, unbroken rhythm. Executed perfectly, the four hoof beats are absolutely even in both cadence and impact. Footfall is in the same sequence as a natural equine walk, i.e., left rear, left fore, right rear, right fore. Propulsion is primarily from the hind limbs and the horse's motion is absorbed in its back and loins, resulting in unequalled smoothness and comfort for the rider.
3. In all classes, special attention shall be afforded to the rhythmic consistency and smoothness of the Paso gait. While style of execution may vary with horses, any style of execution that reduces smoothness and consistency shall be penalized. In addition, a horse shall be excused for failure to perform any gait prescribed in a class. Any tendency to mix gaits, the loss of even cadence or lack of smoothness, as evidenced by an up and down or side to side movement of the horse's croup or of the rider, shall be penalized. Horses who fight the bit, flatten their ears or swish their tails shall be penalized.
4. In all qualifying gaits, light contact on the reins is required. Horses requiring undue restraint or "holding" in gait or collection shall be penalized. While the degree of collection required varies from class to class, in no gait should the horse go "strung-out" behind, squat down in the rear, jut out its nose, lug, or work behind the headgear. Exaggerated leg action (excessive fold, over-reaching, unnaturally high front leg action, etc.) is not desirable. The ideal Paso Fino should track straight; however, some slight winging or paddling is acceptable and should be penalized only if it is severe or a result of conformation faults. In all classes and all gaits, the Paso Fino should give the appearance of naturalness and ease combined with a degree of the pride and elegance that is characteristic of the Paso Fino breed.
5. The Paso Fino gait is performed at three forward speeds (Classic Fino, Paso Corto, Paso Largo) and with varying degrees of collection. In all speeds of the gait, the rider should appear virtually motionless in the saddle, and there should be no perceptible up and down motion of the horse's croup.
6. Qualifying Gaits
  - a. Walk—Smooth, steady, evenly-spaced four-beat gait.
    1. Collected Walk - Evenly-spaced four-beat gait, cadenced, straight, brisk, animated and rhythmic. This gait is executed with collection, style and brilliance. This gait is called for in Paso Performance and Paso Versatility classes.
    2. Flat Walk - True, evenly-spaced four-beat, flat-footed, smooth gait executed with mild collection. The horse's head carriage is natural and relaxed. This gait is called for in Paso Pleasure, Paso Trail, and Paso Western Pleasure classes.

- b. Classic Fino— Smooth, steady, evenly-spaced four-beat gait. Extension is absolutely minimum, forward speed is very slow and footfall is extremely rapid. It should be animated, exciting and executed with brilliance and style. Horse must be fully collected and balanced, putting its complete dynamic energy into its carriage and quickness of its footfall. Flexion and extension should be harmonious in all four legs, and the horse must present a picture of symmetry and fluidness of motion. The horse must perform naturally and willingly and any indication that the horse is being excessively restrained or held in gait shall be penalized.
- c. Paso Corto— Evenly spaced four-beat gait executed with moderate forward speed and extension. Horse should be smooth, balanced and exhibit symmetry in flexion and stride. Forward speed is ground-covering but unhurried. Movements should be fluid, willing, relaxed, balanced and free--moving. The horse's head carriage is natural and relaxed.
  - 1. Collected Paso Corto - an evenly-spaced four-beat lateral gait with moderate forward speed and extension. This gait is smooth, supple, cadenced, animated and brilliant, with the horse well-collected, fully balanced, and exhibiting symmetry in flexion and extension. The horse should demonstrate pride, style, elegance and enthusiasm, along with good manners and ready response.
  - 2. In the Paso Performance and Paso Versatility classes the horse is well-collected, animated, proud and brilliant.
  - 3. In the Paso Pleasure, Paso Trail and Paso Western Pleasure classes collection and carriage are natural and relaxed with slightly more collection required in the Paso Pleasure class.
- d. Paso Largo— Forward speed is rapid and the gait is executed with longer extension and faster cadence than the Paso Corto. Extension and flexion must be harmonious with no tendency to become light on the front or strung out behind. A definite change of speed from the Paso Corto must be observed. A significant difference will be rewarded. The even four-beat cadence must be retained. Forward speed varies with the individual horse, since each horse should attain its top speed in harmony with its own natural stride and cadence.
  - 1. Collected Paso Largo, which is an evenly-spaced four-beat lateral gait. This gait is smooth, balanced, collected, bold and animated, with rapid forward motion. Extension and flexion must be harmonious with no tendency to become "light" on the front or "strung out" behind. The horse should appear eager and willing to move out, and a definite change of speed from the Paso Corto to the Paso Largo must be observed, yet a willingness to reduce speed on command must be demonstrated. All transitions between gaits should be performed evenly and smoothly. An even, four-beat cadence must be maintained, together with style, presence, boldness, and brilliance. Loss of form, cadence, or smoothness due to excessive speed shall be penalized. In this class, the horse should combine style and spirit along with obedience and good manners. The horse should move out willingly, and stand quietly when requested.
  - 2. In Paso Performance and Paso Versatility, the gait is collected, bold and animated.
  - 3. In the Paso Pleasure class, collection is mild and carriage is natural and relaxed.
- e. Lope—True, three-beat gait, slow, cadenced, smooth, straight on both leads, with no tendency to mix gaits. Horse should be balanced going with mild collection.
- f. Canter—True, three-beat gait, cadenced, straight on both leads, smooth and unhurried with no tendency to mix gaits. The canter should be executed with collection; the head well-elevated and set.

## **SUBCHAPTER PF-2 PASO FINO YOUTH SECTION**

### **PF106 General**

- 1. An exhibitor's age for Youth classes shall be determined by the exhibitor's age on September 1 of the current competition year, and this age shall remain the same throughout the competition year.
  - a. If a competition is in progress on September 1, an individual's age at the start of the competition will be maintained throughout the competition.
- 2. Junior. Junior riders shall be 13-17 years of age.
- 3. Sub-Junior. Sub-Junior riders shall be 7-12 years of age.

4. Walk-Corto Leadline. Walk-Corto Leadline riders shall be 3-9 years of age.
5. Safety Headgear. All exhibitors 12 years of age and under as determined by the current competition year, including walk-corto leadline riders, are required to wear Safety Headgear at all times while on horseback or driving or while in the driving cart. (GR801)
6. Handling Stallions. A child under thirteen years of age as determined by the current competition year shall not at any time ride, handle or exhibit a colt or stallion on the show grounds during an Association sanctioned show. This rule applies to all classes, point or non-point, specifically including leadline classes. The adult responsible for such a child who violates this rule will be subject to dismissal from the show grounds and forfeiture of any remaining fees.
7. Ineligible for Championship. Riders in the youth classes are not eligible for the championship classes because of riding in the Youth division classes.
8. Youth Championship Classes. Championship classes may be offered for youth riders in any division in which two or more qualifying classes are offered at a given competition. Youth Championship classes may be divided into Junior Youth (13-17 years of age) and Sub-Junior Youth (7-12 years of age) or held as Youth (7-17 years of age). To be eligible for entry into a championship class, a horse/rider combination must have been properly entered, shown, and judged in one of the qualifying classes. To be considered shown and judged, a horse must perform all required gaits both ways of the ring in the original class and must remain in the ring until either placed or excused by the judge(s).
9. A Junior Youth rider may be excused from a class if the rider's horse does not meet the requirements of the class.
10. Suitability. In all youth classes, special attention should be paid to the suitability of the horse for its rider. Horses should not appear unmanageable or too excitable for their riders, nor should they be unwilling to work for their riders. Good disposition is paramount for a youth horse.

### **PF107 Class Separations**

1. Any youth class may be offered as open to all youth or may be divided into age groups as follows: (Exception: International Paso Equitation, see PF119.1)
  - a. Divided into Junior Youth (13-17) and into Sub-junior Youth (7-12)<sup>SEP</sup>
  - b. Divided into Junior Youth Level I (13-15), Junior Youth Level II (16-17), Sub-junior Youth Level I (7-9) and Sub-junior Youth Level II (10-12)

### **PF108 Walk-Corto Leadline**

This class is open to children three (3) to nine (9) years of age and to physically or mentally disabled adults or children who are unable to show in other classes. Exhibitors in the Walk-Corto Leadline class shall not cross enter into other classes with exception of the Costume class. Tack and attire will be the same as that for the Paso Pleasure class except riders are required to wear Safety Headgear. See GR801 for the definition of Safety Headgear. No belt or other type implement shall be used to hold a child in the saddle. The horses must enter the ring with the child mounted and an adult holding a leadline attached to a leather or nylon halter worn over the bridle or holding the pisador attached to the bridle. The leadline is for control only if necessary and should remain slack during the class if possible. The child should control the horse. This class is to be judged the same as the Equitation class except that no dismount/mount or tests will be asked for and the horses will be requested only to perform at a Paso Corto gait and at a walk. All exhibitors shall receive participant ribbons for this class and there shall be no points awarded for riders or horses. In addition, there shall be no point requirement to enter this class in the National Show.

### **PF109 Paso Equitation**

1. The class is to be judged 100% on equitation. Results as shown by the performance of the horse are not to be considered more important than the method used in obtaining them.

2. **Basic Position.** The rider shall convey the impression of effective and complete control at all times, showing both the horses and the rider to the rider's best advantage. A complete picture of the whole is of major importance.
3. **Arm and Hand Position.** The arm should hang naturally with the elbows not extending outward beyond a perpendicular line even with the rider's shoulders. The reins shall be held in one of the following manners:
  - a. The reins should be held one (1) rein in each hand entering at the bottom below the little finger and extending upward with the bight (excess) of the rein hanging on the off (right) side of the horse.
  - b. The rein must pass directly from the bit, between the little and third fingers, the thumb being placed on top. It is important that the third finger holds the edges of the rein in the joints nearest the palm and that the fingers are closed securely but without tension. Bight (excess) of the rein should be on the off (right) side.  
 The rider's hands should be held in an easy position, neither perpendicular nor horizontal to the saddle and should show sympathy, adaptability and control. The height the rider's hands are held above the horse's withers is determined by the head carriage of the individual horse. However, extremely high or low hand positions are improper. The rider's hands should not pass over or behind the pommel of saddle. The rider shall make every effort to achieve as straight a line as possible from the elbow through the forearm, hand and rein to the bit. Hands and wrists should be flexible and not held extremely separated.
4. **Head Position.** The rider's head should be held erect with the chin up. The rider's eyes should look straight forward.
5. **Back Position.** The rider's back should be straight, but not stiff. The rider's shoulders should be square.
6. **Feet and Leg Position.** The rider's leg should hang naturally with a slight bend at the knee. The rider's lower leg should be under the rider's body and not flared outward. Flaring of lower leg shall be penalized. The rider's feet should be parallel with the horse's body with the heels slightly lowered (approximately 1 inch). The ball of the rider's foot should rest directly over the stirrup iron with even pressure on the entire iron with heel, hip and point of shoulder in line. The rider's foot position should be natural (neither extremely in nor out).
7. **Position in Motion.** The rider's position in motion should be natural, coordinated and graceful. The rider should remain almost motionless at all gaits. From the side a straight line should be able to be drawn perpendicular to the ground through the rider's head, shoulder, hip and ankle. The rider's toe should never be more forward than their knee, thereby keeping their center of balance directly above their feet and ankles. The rider's upper arms should fall naturally from the shoulders toward the hip bones and should be flexible, never clutched to the body, extended forward, or spread away from the body. The rider should appear to have a natural flow downward into the saddle and show no side to side movement of upper body. At all gaits the rider should remain in the center of the saddle and not slip back on the -candle.

## **PF110 Tests**

The rider may be required to perform the following tests:

1. Ride without stirrups at a Paso Corto, maintaining the proper position. The stirrups may be crossed over the pommel of the saddle if so desired.
2. Back their horse smoothly and under control. The horse's mouth should remain closed and horse should not throw its head.
3. Dismount and mount. To dismount, the rider may either step down or slide down. The size of the rider must be taken into consideration. To remount, the rider shall check the curb chain and girth and adjust them if necessary. The rider shall gather the reins in their left hand with gentle pressure. The rider shall stand diagonally facing the front of the horse. The rider shall place their left hand in front of the horse's withers without holding the mane, turn the stirrup toward the rider with their right hand and place their left foot in the stirrup. The rider shall place their right hand either on the far side of the saddle at the waist or on the front arch (pommel), and spring lightly up, straightening both knees. The rider shall ease into the saddle and place their right foot in stirrup without looking down.
4. Perform a figure eight at Paso Corto (see diagram for pattern). The rider shall always turn and face the Judge unless otherwise instructed. The Judge may tell exhibitors whether they prefers large or small diameter circles.

5. Move their horse from Paso Largo to walk on a quiet rein.
6. Answer questions on parts of the horse and tack. See line drawings. Judge must refer to these drawings in asking questions.

## **PF111 Procedures**

1. The exhibitors will enter the ring to the right at a Paso Corto and circle the arena in a counterclockwise manner until asked to reverse or change gait. Entries will space themselves, maintain the same relative position and avoid bunching up. Entries will be penalized for bunching up or for not working on the rail. The sequence of the gait will be Paso Corto, Paso Largo, walk, reverse, and repeat. The reverse will be executed toward the center of the ring. A halt will be called at least once during the Paso Corto. Entries will execute the above class requirements and, in addition, Judges are encouraged to call for at least two (2) of the tests provided above, of the top contestants. Each of the tests is to be performed individually.
  - a. Judges must select only from test numbers 2, 5 and/or 6 for Sub-Junior riders. Junior riders may be asked to perform any of the tests.
  - b. For the safety of the other entries, Judges are required to excuse any rider who is unable to control their mount.

## **PF112 Appointments**

The tack shall be English type. Schooling tack is not acceptable. The attire shall be the official Paso Fino show costume. (See PF128.1 Official Paso Fino Show Costume.)

## **PF113 Classic Fino Youth**

Qualifying gaits, procedures and appointments, except for Safety Headgear (GR801), if applicable, are the same as described under the Classic Fino Division.

## **PF116 Youth Horsemanship**

Regional Group shows may offer this class at their discretion. This class shall be judged: 50% on horsemanship of rider, 10% on the suitability of the horse to the rider, and 40% on the performance of the horse. An individual test will be performed by each exhibitor. The course pattern must be posted at least two (2) hours prior to the test.

## **PF117 Procedures**

Exhibitors will enter the ring to the right at a Paso Corto and circle the arena in a counterclockwise manner until asked to reverse or change gait. The entries will space themselves, maintain the same relative position and avoid bunching up. Entries will be penalized for bunching up or for not working on the rail. The sequence of the gait will be Paso Corto, Paso Largo, walk, reverse, and repeat. The reverse will be executed toward the center of the ring.

A halt will be called at least once during the Paso Corto. Entries will execute the above class requirements. Horses that do not perform the paso gait will be eliminated after lining up. Judges will line up exhibitors and require exhibitors to perform the chosen tests individually.

Gaits:

Walk: slightly collected and maintained at an even pace with no hesitations

Corto: collected, with sustained cadence and rhythm

Largo: collected, with good transitions to and from corto, sustained cadence and rhythm.

## PF118 Tests

1. Stop: The rider should quietly stop the horse and keep the horse still and parallel to the rail.
2. Serpentine: At a corto, the rider will serpentine through cones without touching cones while maintaining gait, cadence, and rhythm.
3. Circles: At a corto, the rider will perform two (2) circles through cones while maintaining gait, cadence, and rhythm.

5. Back: The horse shall back four (4) to six (6) steps in a straight line.
6. Sounding Board: At a corto, the rider shall put horse over the sounding board while maintaining gait, cadence and rhythm. The horse should move straight down the center of the board, tracking straight. The rider shall circle at the end of the board and return over the sounding board.

The course shall be posted approximately two (2) hours before the class. Off pattern: a rider will not be disqualified for failure to complete the pattern in the correct sequence but must be placed accordingly.

## PF119 International Paso Equitation

The Paso Horse Equitation highlights the style, grace, rhythm of the Paso horse, and the special relationship between the horse and rider. Paso Equitation is the art of effectively and correctly riding a horse using effective aids to achieve the best performance of the horse while maintaining correct posture, seat and balance that enhances the oneness between rider and horse. This event is judged 100% on the international equitation parameters and rules as defined herein.

Results as shown by the performance of the horse are not to be considered more important than the method, skills and aids used in obtaining the best performance of the horse.

1. Class Separation: Classes may be offered as an Open class or can be divided into age groups as follows:
  - a. Divided into International Paso Equitation Mini (4-5), International Paso Equitation (6-8), International Paso Equitation (9-11), International Paso Equitation (12-14), International Paso Equitation (15-17)
  - b. Divided into International Paso Equitation Mini (4-8), International Paso Equitation (9-12), International Paso Equitation (13-17)
    1. The "mini" category must use a protective riding vest without any posture aids.
    2. In the 4-5 and 6-8 age groups, there should be a minimum of four helpers in the arena for safety, designated by the Technical Committee, and music kept low.
2. Riders Position while the Horse is in Motion: The rider's position while the horse is in motion should be natural, coordinated and graceful. From the side, a straight line should be able to be drawn perpendicular to the ground through the rider's head, shoulder and ankle. The center of balance should be kept directly above the feet and ankles. The rider's upper arms should fall naturally from the shoulders toward the hip bones and should appear flexible, never tight against the body, reaching forward and/ or spread away from the body. The rider should appear relaxed, comfortable and natural. The upper body should not appear to be rocking from side to side. The rider must maintain a centered seat on the saddle and not slip backwards on/over the cantle

regardless of the modality/gait of the horse being ridden. The rider should appear to have a natural flow downward into the saddle and the body should not interfere with the movement of the horse.

3. Posture: The rider shall have a balanced, natural and correct position on the horse that promotes the best performance of the horse. The rider shall convey the impression of effective and complete control of the horse at all times, handling the horse in the most appropriate/ effective manner while maintaining a high degree of elegance, style and oneness with the horse.
4. Seat: The rider seat should have a natural flow downward into the saddle so that the torso, pelvis and legs are balanced and symmetrical. The body of the rider should not interfere with the movement and balance of the horse, but it should promote a good performance. The rider should be centered on the saddle and aligned with the horse's dorsal line. The seat must appear natural and comfortable at all times, highlighting the union with the horse. The seat should never appear rigid or tense.
5. Head: The rider's head must be held straight at all times, with the chin up, looking forward in the direction of travel so as to maintain full control of the horse while in motion.
6. Back: The rider's back should be straight, but not tense or stiff. The position of the back must look natural and it should not be arched, leaning forward or backward. The rider's shoulders should be square, but not tense or stiff. From behind, the riders back should be aligned with the horse's dorsal line.
7. Arm and Hand Position: The arms should hang naturally with the elbows not extending forward, backward or outward beyond a perpendicular line even with the rider's shoulders. The reins shall be held in one of the following ways (riders twelve (12) years of age and under may use a, b, or c. Riders thirteen (13) and over must use c.):
  - a. One rein in each hand entering at the bottom below the little finger and extending upward with the bight (excess) of the rein hanging to the right side of the horse.
  - b. The reins must pass directly from the ring of the bit, between the little and ring fingers, with the thumb being placed on top holding down the reins. It is important that the ring finger holds the edges of the rein in the joints (knuckles) nearest to the palm and that the fingers are closed securely, but without tension. The bight (excess) of the rein should hang to the right side of the horse. The rider's hands should be held in an easy and natural position, horizontal to the saddle, and should convey softness, adaptability and control. The appropriate height the rider's hands are held above the horse's withers is determined by the head carriage of the rider's horse. However, it is improper to maintain hands in an extremely high or low position. The rider must make every effort to achieve as straight of a line as possible from the elbow through the forearm; from the forearm to the hand; from the hand to the rein; and to the ring of the bit. The hands and wrists should remain flexible and not too far apart from each other.
  - c. The rider may also hold both reins in one hand. The other hand should take the reins from over or underneath the first hand so that both hands have control of the reins. The reins should be close together with the bight (excess) of the rein always hanging to the right side of the horse.
8. Leg and Feet Position: The rider's leg should hang naturally. The rider's lower leg should be under the rider's body and should not be extended forward or backwards; that is, it should follow a straight line from the knee down to the stirrup. Extending the leg forward, backward or not keeping a straight line from the knee to the stirrup shall be penalized. The rider's feet should be maintained parallel to the horse's body with the heels slightly lower than the toes (approximately one inch). The ball of the rider's foot should rest directly on the stirrup while exerting even pressure on the entire stirrup. The rider's foot position should appear natural and be as parallel as possible to the horse's body. The foot's position should not appear to be forced inwards and/or the toes pointing outwards. Those riders that appear to be forcing the foot position or maintain the toes pointing towards the body of the horse (inwards) or outwards; shall be penalized.
9. Judging Criteria

This class shall be judged: 60% on horsemanship/ riding skills and individual tests, 40% on the equitation posture of the rider as follows:

| Handling/ Riding Skills   |            |
|---|------------|
| Handling of the horse, control, confidence, focus, skills and ability to maintain the horse in gait throughout the class. | 30 points  |
| Effective use of aids   | 10 points  |
| Individual Tests  |            |
| Figure Eight (Including Entrance and Halt)  | 7 points   |
| Back  | 3 points   |
| Serpentine  | 5 points   |
| Sounding Board  | 5 points   |
| Subtotal  | 60 points  |
| Posture/ Equitation   |            |
| Head Position   | 4 points   |

| Hands   | 6 points   |
| Legs  | 6 points   |
| Feet  | 4 points   |
| Subtotal  | 40 points  |
| Grand Total   | 100 points |

- a. The individual tests start at the figure eight and ends after completion of the Sounding Board test. The individual test must be completed in its entirety.
- b. Participants that don't follow the sequence of the tests shall be penalized with 15 points under the Handling and focus area.
- c. In the event that a participant omits or does not complete a test, the participant shall be penalized with up to five points under the Focus area plus five points for each incomplete test.
- d. The rider's seat should appear centered on the saddle and aligned with the horse's dorsal line. The seat must appear natural and comfortable at all times highlighting the oneness with the horse. The seat should never appear rigid and/or tense. A seat that does not appear to be natural and uneven/off-center shall be penalized with up to eight points.
- e. The rider's foot position should appear natural and be as parallel as possible to the horse's body. The foot's position should not appear to be forced inwards and/ or the toes pointing outwards. The feet position should appear natural. Those rider's that appear to be forcing the foot position, or that maintain the toes pointing towards the body of the horse (inwards) or outwards shall be penalized with up to four points.

#### 10. Class Procedures

- a. All exhibitors must maintain horses at a Corto or Fino while being judged.
- b. Participants shall enter the arena to the right, close to the rail and circle the arena in a counterclockwise manner. Participants should maintain their horses on the rail. The rail should not have any obstacles that may prevent the continuous movement of participants, including personnel and/ or judges. At the

discretion of the Judges, the participants will be ordered to complete various circles in one direction until instructed to reverse to be evaluated clockwise. The reverse will be executed toward the center of the ring returning to the rail in the opposite direction. The turn should not exceed an area of three meters. The rider should maintain their horses in gait during the reverse. Judges will observe the rider's skills, focus, handling and ability to maintain the horse in gait during its movement on a straight line as well as during the turns. Participants will then be asked to line up their horses in a predetermined area of the arena where they will wait to be asked to go over the sounding board one by one in both directions and exit to the Holding/ Line up area where they will wait for their individual tests.

- c. Regardless of where the participants start from, participants shall approach the Figure Eight from in between the sounding board and the Figure Eight poles. After completing the Figure Eight and Back, the participants shall exit the figure eight in a straight line from the middle of the two poles and head towards the Serpentine test. After completing the serpentine, the riders will head to the rail in a straight line and proceed to the sounding board. The sounding board test must be completed in both directions. Not performing the tests in the sequence established herein shall be penalized with the corresponding loss of points. Participants must maintain the horses in gait at all times.
- d. Each participant will perform individually in order the following mandatory tests:
  1. Figure Eight
  2. Halt and Back
  3. Serpentine
  4. Sounding Board
- e. Figure Eight. Participants shall execute three Figure 8s around the poles (two in one direction and one in the opposite direction). The start and end of each figure eight will be in the center (midpoint) of the two poles. Participants shall enter the figure eight from in between the sounding board and the first figure eight pole to cross over the midpoint to the second pole and complete two figure eights in one direction, followed by a straight line (towards the entry point) from one pole to the next and then complete one more Figure Eight in that direction. At the completion of the last Figure Eight, participants will halt in between the two poles facing the judges. Participants that turn in circles around one of the poles during the Figure Eight test to show off shall be disqualified in classes over nine years of age. Younger ages shall be penalized. Participants shall be penalized if they enter the Figure Eight incorrectly or, perform more or less than three figure eights in the manner described herein.

During the Figure Eight test, the Judges will evaluate the softness of the hands on the reins, the use of aids balancing the body on the horse during the turns, and the rider's ability to maintain the horse in gait throughout the test. Participants shall be penalized if the rider opens and widens the position of the hands and arms while turning (except in classes of youth less than 12 years old), using a leading rein on/or close to the horse's neck, using excessive aids (kicking, slapping the reins, etc.), if their mount veers off track during the turns, or does not maintain gait during the test.
- f. Halt and Back. Once the figure eights are completed, participants must halt in the middle of the two Figure Eight poles and back their horses a minimum of four steps and a maximum of six steps. Judges will evaluate the smoothness of the command to halt, the rider's seat (relaxed natural seat, balance, and proper position), the way the rider guides the horse backwards with subtle commands, and in a straight line using even diagonal steps until halting the horse to complete the back. After completing the required back, the participant must come to a full stop and command the horse to move forward with softness, focus and determination. This is accomplished with the use of the proper aids and the rider's balance on the horse. After completing the halt and back, the rider should head in straight line in between the poles towards the serpentine.
- g. Serpentine. After completing the "Halt and Back" test, participants must perform a Serpentine in an area designated for such. This test allows the Judges to evaluate the riders' use of aids and the ability to maintain their horses in gait, with cadence and flexibility during the straight lines and turns. The serpentine test consists of alternating straight-line movements and half circles turns. During the half-circle turns, the horse's body should bend toward the center of the circle. During the transition from straight lines to half-circle turns, the horse must not move over the tangent, in zigzag or sinusoid patterns (Refer

to diagram below). The serpentine pattern will be marked with three rows of cones to ensure that the test is performed correctly. The use of bright yellow objects is recommended (refer to diagram below).

## Serpentina / Serpentine

### LEYENDA / LEGEND

- Postes / Poles
- ▲ Conos / Cones
- ▲ Recorrido de la Serpentina / Serpentine
- ▲ Finaliza la Serpentina / End of Serpentine

### Tabla Sonora / Sounding Board

- h. Sounding Board. The board shall be placed at ground level. If this is not possible, then there must be access ramps. Once the serpentine test is completed, participants must go over the sounding board in both directions with the horse centered in the middle of the board and straight tracking throughout. Participants must traverse the sounding board in one direction, come off completely (in any direction) and return in the opposite direction. Not performing the test in the manner reference above shall be penalized. The Judges shall evaluate the rider's ability to maintain the horse in gait, the ability to keep the horse in a straight-line trajectory over the sounding board. Participants shall be penalized for not maintaining their horses in gait; or allowing the horse to move sideways (not straight) over the sounding board; or allowing

the horse to step off (one leg) the sounding board. Participants in categories of nine years of age and older shall be disqualified for turning on the sounding board or stepping more than one leg off the sounding board. Participants in categories under nine years of age shall be penalized for turning on the sounding board.

- i. Additional Test/ Work Offs. Judges may request optional tests/ work offs between two or more participants. These tests shall be randomly selected (from tests 1, 2, 3, 4) through a lottery system prior to the competition and will be performed independently one at a time until the judges are ready to pin the class.
  1. Reverses - Four Calls for Reverse
  2. Parallel Comparison
  3. Circles (three circles around the poles in one direction, reverse towards the pole and three circles around the poles in the opposite direction)
  4. Dismount and Remount (can only be requested for participants 13 years of age and older). Riders must follow the procedure outlined.
- j. Dismount/ Remount Procedure.
  1. To dismount, the rider may slide down off the saddle or use the stirrups. The participant's height must be taken into consideration.
  2. Before mounting, the rider must check, and if necessary, readjust the curb chain and the cinch.
  3. The rider should hold the reins in the left hand using little pressure on the reins and stand diagonally by the side of the horse facing front and looking at the horse's withers.
  4. The participant should then place their left hand on the horse's withers while holding on to the mane or the pommel.
  5. Turn the stirrup towards their body using the right hand and put the left foot into the stirrup.
  6. Holding the opposite side of the saddle (cantle) or on the front panel (the pommel or the horn) with the right hand, the rider should smoothly lift themselves up to the saddle, straighten both knees and cross the right leg over the seat of the saddle, and then ease down into the seat while placing the right foot into the stirrup without looking down.
  7. Judges must take into consideration the training and manners of the horse. A participant may not be penalized for the behavior of the horse during the dismount and remount procedure.

## **SUBCHAPTER PF-3 BELLAS FORMAS (CONFORMATION) CLASSES**

### **PF120 Class Specifications & Qualifying Gait**

The choice of gait is optional, either Classic Fino or Paso Corto, and one form of the gait shall not be given preference over the other.

Both conformation and gait shall be judged in this class. Transmissible faults, such as buck-kneed, calf-kneed, base wide, base narrow, cow hocks, sickle hocks, toe-in, toe-out, offset knees, standing under, camped out in front, too straight behind, etc., shall be counted heavily against breeding stock. A horse with a swayback or fallen crest will be heavily penalized. A horse must be serviceably sound to be considered for placement. Any horse that fails to demonstrate the Paso gait so that the Judge can evaluate shall be disqualified from placement. This class shall be judged: 60% on conformation, 30% on quality and naturalness of gait, and 10% on appearance, grooming, and manners.

### **PF121 Procedures**

1. Entries of any age may be shown with a halter and single or double lead line. If two lines are used, they shall be long and shall be one on either side of the halter; if two lines are used, the horse may be handled by one attendant holding both lines or by two (2) attendants- one holding each line. If one line is used, only one (1) attendant is allowed. No attendants other than those actually holding the lines are allowed. Lines may end in

a smooth link chain (minimum width 3/8") which may be crossed over the nose and/or under the jaw. The horse must demonstrate the Classic Fino or the Paso Corto gait whenever moving. In the lineup, the horse must stand square, not stretched, and remain quiet without undue restraint.

2. Horses shall enter the ring one at a time in the order that show management designates. The horses shall proceed to the right and circle the arena in a counter-clockwise direction on the rail.
3. Quality of gait, that is, smoothness, symmetry of action, harmony of cadence, and naturalness, that is, consistency, absence of undue restraint, will be judged during rail work. After completing one circle, or when instructed by the Ringmaster, the horse will line up in the center of the ring for conformation inspection. The Judge shall penalize a horse if the handler uses their hands on the horse's leg below the knee to position the hoof in the lineup.
4. Additional work-offs may be required at the Judge's discretion including the use of the sounding board to exhibit horse's cadence of gait. The judge is prohibited from requiring a horse to perform the Paso Largo on the sounding board. During work-offs, the horses must remain on the rail except to pass.

## **PF122 Appointments**

1. A horse will be shown in a leather show halter without a bit, nameplate or inscription thereon. The halter will be English or Colombian type leather, flat, rolled, or braided (3/8, 1/2, or 5/8 inch) with a matching stitched or plain nose piece with optional browband not to exceed one (1) inch in width. A matching lead line, or long lines, as described in Section A above is required. A riding crop or whip not exceeding 30" in length including the lash may be carried. No other devices may be used.
2. Attendants will be attired in the official Paso Fino show costume.

## **PF123 Classes within this Division**

Classes within this Division may be separated into one of the following categories:

1. Open Bellas Formas (all ages and all sexes);
2. Yearlings Up to 23 months Bellas Formas (may be open or, if divided, must be divided into Colts, Geldings, and Fillies), and/or Bellas Formas 24 to 35 months (may be open or, if divided, must be divided into Colts, Geldings, and Fillies), and/or Bellas Formas 36 to 48 months (may be open or, if divided, must be divided into Colts, Geldings and Fillies); and/or Bellas Formas 49 months and Older (may be open or, if divided, must be divided into Mares, Geldings and Stallions); or

In a show where Bellas Formas classes are offered by age groups, e.g., 36 to 48 months colts, a younger horse must be shown in the class corresponding to its age group and cannot be shown in a mares, geldings, or stallions class.

## **SUBCHAPTER PF-4 PERFORMANCE CLASSES (UNDER SADDLE)**

### **PF124 Showing**

1. Horses shall be shown at all required gaits both ways of the ring. In all classes except Classic Fino and Costume all horses shall enter the ring at paso corto. Exception: see PF102.6
2. Only one hand may be used on reins when the horse is shown under Western tack and hands must not change except in Trail Classes. Rider may hold romal or end of split reins to keep from swinging.

## **PF125 Schooling Classes**

1. Horse Must be 30 Months No horse may be ridden in a saddle class, whether a Schooling class or regular class, until it is at least thirty (30) months old, based on the actual date of foaling.
2. Schooling Class Sections. Schooling classes may be offered in the Fino, Performance and Pleasure Divisions, including the Amateur Classes. There may be open schooling classes for horses 36 to 60 months old. Alternatively, there may be two Schooling age sections within a Division for: (1) horses that are 36 to 48 months, and (2) horses that are 49 to 60 months. In addition to age sections, classes may also be divided into two sections for: (1) fillies, and (2) colts and geldings; or into three sections for: (1) fillies, (2) colts, and (3) geldings. The horse's age for purposes of determining the appropriate class shall be determined under GR102.1a
3. Crediting of Points. In a show that does not offer Schooling classes, a schooling horse may compete in the regular appropriate class and still retain its schooling status, and any show points awarded to such horses shall be computed and credited as points awarded in the appropriate Schooling class.
4. Restriction on Schooling Status. Once a horse has been shown in a regular Paso Performance, Paso Pleasure or Classic Fino class at a show that offers Schooling horse classes, it can never be shown again in a Schooling class in that Division. This class does not qualify for Amateur Performance Championship.

## **PF126 Junior Riders, Youth and Amateur Classes**

1. Riders under the age of thirteen may not ride stallions and/or exhibit a colt or stallion on the competition grounds during a Federation sanctioned competition. This rule applies to all classes, point or not-point, specifically including lead line classes.
2. Youth Classes. Youth classes are offered where the award goes to the rider and not the horse. Youth riders must be seventeen years old or under. Youth classes shall be Junior (ages thirteen to seventeen) and Sub-Junior (ages seven to twelve). Horses entered in Youth classes may be cross entered in other classes in the same section.
3. Amateur Classes. Horses entered in Amateur classes may be cross entered in other classes in the same section.
4. When horses that are at least thirty (30) months old but no older than sixty (60) months old are shown in Amateur or Youth classes (not including Equitation and Horsemanship), schooling headgear is allowed.
5. Entries in Youth classes in a division are not eligible for Championship classes in that division unless otherwise qualified.

## **PF127 Tack**

Bumps, balls, and knots are not allowed in either nose piece or chin pieces in any class. Except for Schooling classes in the Classic Fino and Paso Performance divisions, metal is not permitted in, under, over or attached to the cavesson nosepiece except for necessary buckles. In all Paso Pleasure classes, including schooling classes, metal is not permitted in, under, over or attached to the cavesson nosepieces and headriser, except for necessary buckles.
  - b. Metal on bridles and breast straps/breast collars. Flat and/or engraved metal decoration is allowed on browbands, cavesons and/or cheek pieces of bridles as well as on the straps of breast straps/breast plates. No reflective vinyl is allowed on headgear, breast straps, or breastplates.

  - b. 36 to 60 month old horses in Amateur or Open classes that are not Schooling classes or

- c. 36 to 60 month old horses in Youth classes, except Equitation and Horsemanship classes, headgear can be any training headgear not considered cruel or inhumane by the Judge or Show Committee. Bare metal, except for curb chains or parts of buckles, is not allowed. In a schooling class, metal may be used if covered in a nosepiece or under the chin, but it must not be considered cruel or inhumane by the Judge or Show Committee and be sufficiently covered to ensure comfort to the animal.
3. Bits. (All Divisions)
- a. Bits are required in all classes except Schooling Classes or other classes as specified. Bits may be of any humane approved type, curb or snaffle. See Paso Fino Tack Guide.  
There shall be no discrimination against any standard curb bit. A standard curb bit is defined as having a shank with a maximum length overall of 8 1/2". When a curb bit is used a curb strap or curb chain is required and must be at least 1/2 inch in width. The mouthpiece will consist of a metal bar 5/16" to 3/4" in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or latex wrapped. Nothing may protrude above or below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three-piece mouthpiece may include a connecting ring of 1 1/4" or less in diameter or a connecting flat bar of 3/8" to 3/4" (measured top to bottom with a maximum length of 2"), which lies flat in the mouth, or a roller or port as described herein. The port must be no higher than 3 1/2" maximum with roller(s) and covers acceptable. Jointed mouthpieces, half-breeds and spade bits are standard. Straight bar bits must have rounded edges or be wrapped. The diameter or thickness of the bar is not to exceed 3/4". The width (flat surface) of the bar must not exceed 1". Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Roping bits with both reins connected to a single ring at center of cross bar shall not be used. Reins must be attached to each shank. Any rein design or other device which increases the effective length and thereby the leverage of the shank of a standard curb bit is prohibited. Anything that alters the intended use of the equipment as described in the appointments for a given class is considered to be an artificial appliance. A standard snaffle bit is defined as a center jointed single rounded, unwrapped smooth mouthpiece of 5/16" to 3/4" diameter metal as measured from ring to 1" in from the ring with a gradual decrease to the center of the snaffle. The rings may be from 2" to 4" outside diameter of either the loose type, eggbutt, dee or center mounted without cheeks. The inside circumference of the ring must be free of rein, curb or headstall attachment hooks. Snaffle bits do not require a curb chain. If a curb strap is used it must be attached below the reins.
  - b. Shanks cannot exceed eight and a half (8.5) inches. The length of a shank shall be measured in a straight line from the inside of the uppermost part of the headstall slot to the point on the rein ring where the rein would pull from when pressure is applied to the rein.
  - c. All ports must be less than three and a half (3 1/2) inches in height as measured from the bottom of the mouthpiece to the top of the port or spoon. Measurement will be taken by placing a straight edge at the bottom of the bars to have an accurate line as the "bottom" when measuring the height.
  - d. All bits with shanks must have a curb strap or curb chain attached and used for leverage. Snaffle bits do not require a curb chain. If used, curb chains and leather straps must be flat and at least 1/2 " in width and lie flat along the "chin groove" (the part of the jaw behind the bulge of the chin) of the horse. Soft cover and/or wrap may be used on the curb chain. No wire, rawhide, or metal can be used in conjunction with, or as part of, the leather chin strap or curb chain.
  - e. All mouthpieces must be smooth or latex wrapped. The mouthpiece will consist of a metal bar 5/16" to 3/4" in diameter, as measured 1" from the shank. Flat bar mouthpieces must be measured 1" from shank and will be 5/16" to 3/4" on the upper and lower surface. The width of the flat bar will be no wider than 1.5". Nothing may protrude below the mouthpiece such as extensions, prongs, or rivets designed to intimidate the horse.
  - f. Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Any rein design or bit shank which increases the effective length and thereby the leverage of the shank of the bit is prohibited.
  - g. The competition steward may require a rider or riders to dismount and drop their horse's bits for inspection. Competition officials may select entire classes or individuals in any section for inspection. In championship classes, the steward or judge may inspect bits of the top placing horses at the end of

the class. This may be done in the ring or as the horses exit the ring. For safety, riders must dismount and drop the horse(s)'s bit for inspection. Show officials may determine the extent and number of placements to be checked and the location for the inspection.

Two refusals to take the jump will automatically disqualify an entry from the class. The figure eight is to be performed at the Paso Corto and should be smooth, consistent in gait, and supple. A jump that is a minimum of eighteen (18) inches and a maximum of two (2) feet will be taken from the canter.
  - b. The class shall be judged: 20% on the Paso Corto; 20% on the Paso Largo; 10% on the walk; 10% on the canter; and 40% on back, jump, manners, and figure eight.
2. Procedures. The exhibitors will enter the ring to the right on the rail at a Paso Corto and circle the arena in a counterclockwise manner. The sequence of gaits shall be: Paso Corto, Paso Largo, flat walk, collected canter, flat walk, reverse and repeat. In the remaining gaits, exhibitors shall remain on the rail except to pass. Riders shall be asked individually to back, execute a figure eight maneuver at a Paso Corto, and take a jump from the canter.

## **PF146 Paso Western Pleasure**

1. Class Specifications
  - a. In this class, the horse should move in the working cow horse image, while still retaining the air of pride and grace that is typical of the Paso Fino. In all gaits, the horse must be smooth and responsive, and both horse and rider should appear comfortable and relaxed. The horse must work on a very light rein, but some contact should be maintained. Gait transitions should be taken on the first stride, and the horse should maintain its speed and cadence without restraint by the rider. Failure to take the correct lead in the lope shall be penalized.
  - b. This class shall be judged: 35% on Paso Corto; 30% on lope; 10% on flat walk; and 25% on manners, attitude, and way of going.
2. Procedures. The exhibitors will enter the ring to the right on the rail at a Paso Corto and circle the arena in a counterclockwise manner. Only one hand may be used on the reins when using a curb bit and hands must not be changed. If hands are changed or if two hands are used with a curb bit, the exhibitor shall be penalized. If the left hand is used with reins, the bight must drape to the left side of the withers. The only exception to this is if long reins or a romal are used. In that case, one hand may be used to carry the excess rein, but the hands must be at least twelve (12) inches apart. All horses being considered for an award are required to back in a straight line. Refusal to back disqualifies a horse from placement. The sequence of the gaits shall be: Paso Corto, flat walk, lope, flat walk, reverse, and repeat. Riders should space themselves while executing the flat walk to avoid bunching up and maintain their relative positions on the rail. In the Paso Corto and lope, entries shall remain on the rail except to pass. The judge may require each rider to dismount and remount in the line-up from the left side. The rider's style of dismount and mount is not to be emphasized; rather, emphasis is placed on the horse's willingness to stand quietly. The judge is prohibited from requiring a horse to perform the Paso Largo on the sounding board. The judge also may require any of the following tests to any or all entries:
  - a. Demonstrate a straight back for up to 15 feet.
  - b. Lope and stop either on the rail or on the center.

- c. Perform the figure eight at the lope on the correct lead demonstrating a simple change of lead. One or two figure eights may be required. In a simple change of lead, the horse is brought back to the halt and restarted into the lope on the opposite lead from the halt or walk.
  - d. Perform the Paso Corto gait over the sounding board.
3. Appointments. The tack and attire are to be Western type. Horses 60 months and under may use a snaffle or bosal. Horses 61 months and over must use a curb bit. Australian stock saddles are prohibited but Western saddles made in Australia (with a horn) are allowed. See PF127 concerning Western tack.
  4. Class separations. Shall be offered as Open (includes all ages and all sexes) and Amateurs.

## **PF147 Paso Trail**

1. Class Specifications.
  - a. This class shall be judged 100% on the obstacle course; there is no rail work. This includes the distance from the beginning of an obstacle to the beginning of the next obstacle.
  - b. Entry will be evaluated on willingness, responsiveness, correctness, and general attitude while negotiating through the obstacle course. Obstacles occurring in a natural trail environment only are to be used to break a tie.
  - c. Horses are to be penalized for any unnecessary delay while approaching the obstacles. Judges are encouraged to advance on to the next obstacle any horse taking excessive time at an obstacle.
  - d. Any horse not properly performing the gait required between the obstacles or any horse that fails to follow the prescribed obstacle or follow the prescribed course of travel through the obstacle should be penalized in the same manner as not completing the obstacle.
  - e. Qualifying gaits include: Flat Walk, Paso Corto, Paso Largo. It is not required to use all the qualifying gaits.
2. Procedures.
  - a. In this class, each horse shall be asked to negotiate through obstacles. Obstacles are to be negotiated by exhibitors individually with only one horse in the arena at a time.
  - b. A drawn course will be provided by show management, reviewed for compliance with required procedures and approved by the judge(s). An exhibitor in this class cannot design or set up the course. The course will show the line of travel through obstacles and the gait required to perform obstacles. Changes or revisions will not be permitted after posting. The course will specify how a horse is to negotiate or travel between obstacles that seems appropriate. The trail pattern must be posted at least two (2) hours prior to the class.
  - c. Tests that may be required are: negotiating a gate, carrying an object from one part of the arena to another, riding through water, over logs or simulated brush, riding down into, up and out of a ditch without lunging or jumping, crossing a bridge, backing through obstacles, sidepassing, mounting and dismounting from either side, and performing over any reasonable conditions along the trail. (See WS103.4 for posting requirements.) Any coat or jacket to be put on by the rider must be open in front and not be an item which must be put on over the head. Unnatural obstacles, such as fire extinguisher, perforated plywood in water boxes, or exotic animals should be avoided. After consulting with show management, a sounding board may be used as an obstacle. The judge is prohibited from requiring a horse to perform the Paso Largo on the sounding board.
  - d. The course is to include a minimum of six (6) obstacles and a maximum of eight (8) obstacles. (See WS126, as may be amended from time to time, for dimensions of trail obstacles only, does not include section on Unacceptable Obstacles.)
3. Appointments. The tack and type of attire are optional; tack and attire as described for either the Paso Western Pleasure class or the Paso Pleasure class are permitted. Safety Headgear is required if a jump is included in the class. See GR801. Only one hand may be used on the reins except that both hands may be used to negotiate an obstacle.
4. Class separations. Shall be offered as Open (includes all ages and all sexes) and Amateurs. Classes may be run concurrently but judged separately.

## CHAPTER RD ROADSTER DIVISION

### SUBCHAPTER RD-1 GENERAL QUALIFICATIONS

#### RD101 Eligibility

1. Roadster Horses: In order to compete all horses must be a Standardbred or Standardbred type. Roadster Ponies are not permitted to compete in Roadster Horse classes.
  - a. All horses competing in Federation Licensed Competitions must be properly identified and must obtain a Roadster Horse Identification number from the American Road Horse and Pony Association (ARHPA). An ARHPA Roadster Horse ID number for each horse must be entered on all entry forms for licensed competitions.
  - b. Only one unique ARHPA Roadster Horse ID Number will be issued per horse. This unique ID number must subsequently remain with the horse throughout its career. Anyone knowingly applying for a duplicate ID Number for an individual horse may be subject to disciplinary action.
  - c. The Federation and/or ARHPA as applicable must be notified of any change of ownership and/or competition name of the horse. Owners are requested to notify the Federation and/or ARHPA as applicable of corrections to previously submitted information, e.g., names, addresses, breed registration, pedigree, or markings.
  - d. The ARHPA Roadster Horse ID application is available from the ARHPA or the Federation office, or it can be downloaded from the ARHPA or Federation website or completed in the competition office. Competition management is responsible for notifying exhibitors of this requirement in their prize list.  
Roadster Ponies: Registration is not required for ponies competing in the Roadster division. Ponies may not be shown in a performance class unless the owner possesses a current Measurement Card or valid Measurement Form issued by the Federation (see GR502). **Exception: A Federation measurement card or form is not required for entry into Lite classes restricted by the height of the horse or pony. However, horses and ponies must be within the correct height range when competing in classes restricted by height.**
2. All Roadster Ponies must be re-measured and issued new measurement cards prior to competing in licensed competitions for the year 2004 and beyond.
3. Membership Requirements.
  - a. Owners and trainers of roadster ponies participating at Federation Licensed Competitions in the Roadster Division must be current members in good standing with either the American Road Horse and Pony Association or the American Hackney Horse Society.
  - b. Owners, riders, drivers, and trainers of horses participating at Federation Licensed Competitions in the Roadster Division must be current members in good standing with the American Road Horse and Pony Association.
  - c. Originals or copies of the above listed membership cards must be provided to the competition unless at its discretion the membership can be confirmed electronically with either the AHHS or the ARHPA office.
  - d. Lessees are considered owners in connection with these membership requirements. In the event of an entry under multiple ownership, only one owner need be a member of the required organization.  
**BOD 06/17/24 Effective 12/01/24**

#### RD102 Type and Conformation

1. The Roadster should be attractive in appearance, balanced in conformation, and must have manners which make a safe risk in the ring.
2. The roadster horse should have the look of a refined race horse. The roadster should have a refined head with a broad forehead, large nostrils and shallow mouth. It should have smart well placed ears and a fine throat latch. Neck is fine but muscular and show depth through the chest. The roadster should be a good full made horse with refined solid legs, powerful shoulder and hindquarters. The roadster should have a full mane and tail and may be of any color. Tail should be carried outright while performing.

3. There are three types of Roadsters for competition-those suitable for bike, under saddle, and road wagon. Occasionally there are horses or ponies that are suitable for all purposes.
  - a. Bike: Roadsters in the Bike sections are able to strongly perform three distinct speeds at the trot while maintaining their form and have the look of a refined race horse or pony.
  - b. Under Saddle: Horses competing under saddle should be pretty and have the natural ability to carry their head high.
  - c. Wagon: Usually the Wagon Roadster will have more scale and height than the Bike Roadster. Roadsters in the Wagon sections must have the strength to comfortably pull a wagon without losing form. Typical Roadsters in the Wagon sections are good looking horses or ponies that complement the appointments of the wagons.

## **RD103 Soundness and Welfare**

1. Horses and ponies must be serviceably sound.
2. Shoeing- to be directed to improving the comfort, balance, and soundness of the horse. Labored way of going due to shoeing to be penalized.
  - a. Pads and wedges- are permitted to protect the feet and limbs from the impact of the horse's natural gait, and maintain the integrity of the hoof wall.
  - b. Bands- protective hoof bands are permitted to protect the integrity of the hoof and prevent the loss of a shoe resulting in trauma to the hoof.
3. No horse may compete in a class in the Roadster Division with any chemical or other irritant of any kind present to alter the horse's tail carriage.
4. Horses showing signs of inhumane treatment will be eliminated from competition. See GR838.

## **RD104 Gait Requirements**

1. The principal gait assignment for Roadsters is the trot. They shall be asked to trot at three different speeds; the jog-trot, the Road Gait, and then at full speed. At all speeds they should work in form; that is their chins set and their legs working beneath them, going collectedly. At the trot a horse whose action features folding of the knees, flexing of hocks, with straight true action of front legs and with hocks carried close together and with motions coordinated, is executing a balanced trot. Long sprawling action in front, dragging or trailing hind legs and straddle gaited action behind makes a balanced trot impossible.
2. Animation, brilliance, and competition ring presence should characterize the Roadster in working at a jog-trot or Road Gait.
3. When asked to drive on, the horse must show speed and go in form.
4. Labored way of going, pacey gaited or mixey gaited horses that pace and rack the turns or break and run on the turns shall be penalized.
5. Judges must emphasize that Roadsters are to be shown at three distinct speeds. Exhibitors executing gaits not called for must be penalized.

## **SUBCHAPTER RD-2 SHOWING PROCEDURES**

### **RD105 General**

1. Roadsters must enter the ring clockwise at a jog-trot then show at the Road Gait; turn counter clockwise at the jog-trot, show at the Road Gait and then trot at speed. Judges must emphasize that Roadsters are to be shown at three distinct speeds.
2. In Roadster horse and pony performance classes when the judge calls for the line up, exhibitors must continue in a counter-clockwise direction to bring their entries to the line up. Judge(s) shall penalize entries that do not comply.

3. It is very important to emphasize that Roadster horses/**ponies** must trot solidly down the straight away as well as around the turns. Horses/**ponies** must be shown on the rail at all times except when passing and should go to the far end of every corner without side reining; should be light mouthed, capable of being taken up at any time, and stand well when being judged in the center of the ring. Any horse/**pony** not in compliance, that is determined by the judge (s) to be a safety risk must be excused.
4. Any driver, rider, horse or pony in the Roadster division exhibiting inappropriate or dangerous behavior or whose actions would in any way threaten the safety of any other exhibitor, their entries, or the safety of class officials must be immediately eliminated from the class by the judge. When eliminating a driver, rider, horse, or pony due to inappropriate or dangerous behavior, the judge must call the class to a stop and excuse the relevant driver, rider, horse, or pony from the ring. Once the eliminated driver, rider, horse, or pony has exited the ring, the judge may resume the class. When showing a Roadster to Bike or Wagon, the driver must sit on the inside of the seat and hold the bight end of the reins in hand. When showing to the bike, both feet must remain in the stirrups while showing, except for while standing in the lineup. Any driver who fails to comply with the above will be considered to be exhibiting dangerous behavior as described above and must immediately be eliminated from the class by the judge. It is the judge's responsibility to ensure that safety requirements are followed at all times.
5. **In Roadster horse and pony classes**, performance at all three gaits must be judged. In the event of a workout, it will be judged as a separate class and horses/**ponies** must be tied for placings being considered in that workout. Workouts may be called for by the judge(s) for any or all placings. All horses/**ponies** chosen for a workout must be worked both ways of the ring at all gaits listed in the class specifications. An exhibitor choosing to not complete the workout for any reason, including broken tack, a horse/**pony** becomes uncheck, loss of shoe, or concern for the welfare of the horse/**pony**, has the option of lining up and receiving the last ribbon awarded in the workout. If two or more horses/**ponies** retire from a workout, these entries will be placed in reverse order of retirement. In the event of a simultaneous withdrawal of a workout, the placings will go to the fall of the cards. An exhibitor is entitled to request only one five-minute time out per class, including workout. (See GR833).
6. When **Roadsters** are lined up, no attendant is permitted and driver shall not leave their vehicle except for necessary adjustments. The driver may, however, uncheck and stand at horse's head when left in the center of the ring while a part of the class is on the rail for a workout. **In Amateur and Youth Road Horse classes, attendants are permitted in the lineup. The horse must remain checked, and the check must not be adjusted. Attendants are permitted to hold the horse, except when the judge(s) walks to the horse in the lineup.** During a workout the **attendant** may uncheck and hold the entry. **When the workout is over the horse must be rechecked.** The attendant must take no action that would affect the performance of any animal.
7. An exhibitor is entitled to request only one time-out per class. (See GR833).
8. Championships. Championship classes are judged in the same manner as the qualifying classes. Saddle classes do not qualify a horse for Bike or Wagon Championships. Wagon classes will qualify for a Bike Stake if a Wagon Stake is not offered. In Amateur Championships, to bike or wagon, if qualifying classes are offered the horse must have been qualified by an Amateur in one other Amateur Bike or Wagon Class. Exception: Lady Amateurs may qualify for the Amateur Championship if they enter and show in a Ladies bike or wagon class.
9. In the Roadster Division a class is considered completed when the class has been judged according to the rules and the judges have turned in their cards. In qualifying classes the judge's cards must be turned in before an entry is qualified to show in the Championship class.

***BOD 06/17/24 Effective 12/01/24***

### **SUBCHAPTER RN-1 JUDGING**

USA Reining Rules and Regulations can be found at [www.usareining.us](http://www.usareining.us)

#### **RN101 General**

1. The ideal Reining horse is guided through every movement of every maneuver. The best Reining horses should exude a willing disposition with no indication of resistance. The overall impression of a superior horse and rider team in the sport of Reining is one of complete harmony in communication and effort, showing a forward expression, and exciting bursts of power and speed tempered by quiet moments of peacefulness and above all, an obvious demonstration of athleticism in honor of the ranching origins of the sport. A movement on the horse's own is considered a rider's lack of control. A deviation from the pattern will be considered a lack of control or temporary loss of control and therefore must be marked down according to established scoring system. After deducting all faults, set in the included scoring system, and considering the horse and rider's overall performance, credit will be given for smoothness, finesse, attitude, quickness and authority of performing various maneuvers, while using controlled speed. This raises the difficulty level and makes the sport more exciting and pleasing to watch to an audience. The scoring system shall be specified in the Judges Guide.
2. When copying is available, posting judges scores sheets is mandatory. Score sheets should be posted within one hour of class completion. In the event copies are not an option, judges score sheets must be available for supervised inspection. Original judges score sheets must be retained by Competition Management for five years from the date of the competition and made available to USA Reining upon request.
3. A Reining competition will be complete and the posted scores will be considered "official" one hour following the completion of the competition.
4. All entries in a class must be drawn for position and must run as drawn. All entries must have a correct exhibitor number displayed. If a rider starts more than one horse, there should be a spread of at least eight horses between his starts. In the event that fewer than eight horses are available for the spread, the maximum number of horses possible shall be inserted between his starts. If an entrant misses their turn as determined by the draw, they will be disqualified from that go round (except for cases where extraordinary and unavoidable conditions exist). Each case will be judged on its own merit by the Competition Management and/or Ground Jury, especially at competitions with multiple competition arenas.
5. Substitution of riders will be permitted by agreement of Competition Management and/or Ground Jury.
6. A rider may not show more than three (3) horses in a class. (Exception: Arabian, see AR201; Morgan, see MO177.4) A horse may be entered only once per class. In the instance where classes are run concurrently a rider may show three horses per class and any shown horse may only start once.
7. All horses must be ridden astride.
8. It is mandatory for all riders to use appropriate western tack and western attire while showing: this would include a long sleeve shirt, western hat or protective headgear, boots, western saddle and western bridle. (Freestyle Reining being exempt based on conditions). Failure to use appropriate attire will result in a score of zero.
9. For purposes of competition in the Reining Division: An individual is eligible to compete as a Junior from January 1 until the end of the calendar year in which they reach the age of 18.

#### **RN102 Equipment**

1. All bits must be free of mechanical device.
2. References to hackamore mean the use of a flexible, braided, rawhide, leather, or rope bosal, the core of which may be either rawhide or flexible cable with a maximum diameter of 3/4" at the cheek. Absolutely no rigid material will be permitted under the jaws, or on the noseband in connection with the bosal, regardless of

how padded or covered. Horsehair bosals are prohibited. This rule does not refer to the equipment termed “mechanical hackamore” which is illegal.

3. References to snaffle bits mean conventional O-ring, egg-butt, or D-ring with a ring no larger than 4” and no smaller than 2”. The inside circumference of the ring must be free of rein, curb or headstall attachments which would provide leverage. The mouthpiece should be round, oval or egg-shaped, smooth and free of wire. It may be inlaid, but smooth and/or latex wrapped. The bars must be a minimum of 5/16” in diameter, measured 1” in from the cheek with a gradual decrease to center of the snaffle. Optional curb strap is acceptable however curb chains are not acceptable. These requirements remain the same for all classes in which a rider may use a snaffle bit.
4. References to a bit means the use of a curb bit that has a solid or broken mouthpiece, has shanks and acts with leverage. All curb bits must be free of mechanical device and should be considered a standard Western bit. A standard Western bit includes:
  - a. 8 1/2” maximum length shank to be measured as indicated in the USA Reining Rules and Regulations. Shanks may be fixed or loose.
  - b. Concerning mouthpieces, bars must be round, oval or egg-shaped, smooth and unwrapped metal (or other hard rubber or plastic) of 5/16” to 3/4” in diameter, measured 1” from the cheek. They may be inlaid, but must be smooth or latex wrapped. Nothing may protrude more than 1/8 inch below the mouthpiece (bar).
  - c. The port must be no higher than 3 1/2” maximum, with rollers and covers acceptable. Broken mouthpieces, half-breeds, and spades are standard.
  - d. Slip or gag bits, donuts or flat polo mouthpieces are not acceptable.
5. Except for Snaffle Bit and Freestyle Classes, only one hand may be used on the reins, and the hand must not be changed. The hand is to be around the reins; index finger only between split reins is permitted. Violation of this rule results in a penalty score of zero (0).
6. When a curb bit is used, a curb strap or curb chain is required and must be at least 1/2” in width, lie flat against the jaw, and be free of bars, wire, and/or twists.

## **RN103 Scoring**

1. The scoring will be on a basis of 0-Infinity, with 70 denoting an average performance. The individual maneuvers are scored in 1/2 point increments from a low of -1 1/2 to a high of +1 1/2 with a score of 0 denoting a maneuver that is correct with no degree of difficulty. Scores will be announced after each horse works.
2. All ties for 1st place will be worked off if the tied exhibitors agree to participate in a run-off. Tied exhibitors have the alternate option of agreeing not to run-off and to be named co-champions but must determine the winner of the awards by a flip of a coin. If they do not agree, the exhibitor(s) who does not want to run-off will forfeit first place to the other. (Exceptions: Freestyle Reining - see Freestyle Reining conditions to determine winner or co-champions.
  - a. If a tie occurs after the run-off, the entrants will be named co-champions; will evenly split 1st and 2nd prize money, but must determine the winner of the awards by a flip of a coin. A horse not returning for a run-off without such an agreement will forfeit 1st place prize money regardless of the prize money. In the case of a run-off, the contestant(s) not winning the run-off cannot be placed lower than the lowest position for which they were tied, i.e., 2nd/3rd. All other ties are not worked off and will involve as many places as there are horses tied, i.e., 4th, 5th, 6th, 7th. The prize money in the previously mentioned example is added together and split equally-four ways.
  - b. Ties for first at USA Reining National Championships and USEF National Championships (if concurrent with USA Reining National Championships) will be worked off. If one or more of the riders with an equality of scores chooses not to run off, a coin toss (or similar) for prizes will be conducted at the prize giving ceremony and any money earned will be combined and split between the rankings with an equality of scores. However, the national championship title will always go to the entrant who did not concede the title, or to the winner of the run-off if that is the choice of the tied entrants.
3. The following will result in no score:

- a. abuse of animal in competition arena and/or evidence that an act of abuse has occurred prior to or during the exhibition of a horse in competition;
  - b. use of illegal equipment, including wire on bits, bosals or curb chains;
  - c. use of illegal bits, bosals or curb chains;
  - d. use of tack collars, tie downs or nose bands;
  - e. use of whips or bats;
  - f. use of any attachment which alters the movement of or circulation to the tail;
  - g. failure to dismount and/or present horse and equipment to the appropriate judge for inspection;
  - h. disrespect or misconduct by the exhibitor
  - i. infraction of any state or federal law which exists pertaining to the exhibition, care and custody of horses within the state or county where the Reining competition is conducted.
  - j. The judge(s) may excuse a horse at any time while in the arena for unsafe conditions or improper exhibition pertaining to either the horse and/or rider.
  - k. closed reins are not allowed except as standard romal reins and mecates on snaffle bits and bosals in classes where the use of two hands is allowed.
4. Excess rein may be straightened anytime during the pattern, provided the rider's free hand remains behind the rein hand. Any attempt to alter the tension or length of the reins from the bridle to the rein hand is to be considered use of two hands and a penalty of zero (0) must be applied. In addition, should the judge determine the free hand is being used to instill fear or praise, a penalty of five (5) must be applied, and a reduction in the maneuver score. When using a romal the rider's hand shall be around the reins with the wrist kept straight and relaxed, the thumb on top and the hand closed around the reins; no fingers between the reins are allowed. The free hand may be used to hold the romal, provided it is held in a relaxed position and there is at least 16" from free hand to the the Reining hand. Use of the free hand while holding the romal, to alter the tension or length of the reins from the bridle to the Reining hand, is considered to be use of two hands, and a score of 0 will be applied, with the exception of any place a horse is allowed to be completely stopped during a pattern.
5. The following will result in a score of 0:
- a. use of more than index or first finger between reins;
  - b. use of two hands (exception: snaffle bit or hackamore classes designated for two hands) or changing hands;
  - c. use of romal other than as outlined in #4;
  - d. failure to complete pattern as written;
  - e. performing the maneuvers other than in specified order;
  - f. the inclusion of maneuvers not specified, including but not limited to
    1. backing more than two strides
    2. turning more than 90 degrees (Exception: a complete stop in the 1st quarter of a circle after a canter departure is not to be considered an inclusion of maneuver; a 2 point break of gait penalty will apply.
    3. On run in patterns, once beginning a canter a complete stop prior to reaching the first marker.
  - g. equipment failure that delays completion of pattern, including dropping a rein that contacts the ground while the horse is in motion;
  - h. balking or refusal of command where performance is delayed
  - i. running away or failing to guide where it becomes impossible to discern whether the entry is on pattern;
  - j. jogging in excess of one-half circle or one-half the length of the arena while starting a circle, circling or exiting a rollback;
  - k. overspins of more than 1/4 turn;
  - l. fall to the ground by horse or rider. A horse is deemed to have fallen when its shoulder and/or hip and/or underline touches the ground;
  - m. dropping a rein that contacts the ground while the horse is in motion;
  - n. failure to wear appropriate western attire as outlined in the USA Reining Rules and Regulations. Western attire may include protective headgear. See GR801.4 and RN101.8;
  - o. neither a "no score" nor a 0 is eligible to place in a go round or single go round class;

- p. neither a no score nor a 0 may advance in a multi-go event. In multi go events, finals qualifying horses that get a 0 or a scratch will still be eligible for payouts, with a 0 placing higher than a scratch;
  - q. in the event not enough horses qualify for total purse distribution, the undistributed portion of the purse will be retained by competition management.
  - r. when going to and coming out of a rollback in a pattern requiring a run-around, a rollback that crosses the center line.
6. The following will result in a \$25 fine, payable to the show organizer.
    - a. Failure to have correct exhibitor number displayed
  7. The following will result in a five-point penalty:
    - a. spurring in front of cinch;
    - b. use of either hand to instill fear at any time in the arena or praise during the pattern;
    - c. holding saddle with either hand;
    - d. blatant disobedience including kicking, biting, bucking, rearing and striking.
  8. The following will result in a two-point penalty:
    - a. Break of gait.
    - b. Freezing up in spins or rollbacks.
    - c. On walk-in patterns, cantering prior to reaching the center of the arena and/or failure to stop or walk before executing a canter departure.
    - d. On run-in patterns, failure to be in a canter prior to reaching the first marker or break of gait prior to the first marker.
    - e. If a horse does not completely pass the specified marker before initiating a stop position.
  9. Starting or performing circles or eights out of lead will be judged as follows:
    - a. Each time a horse is out of lead, a judge is required to penalize by 1 point. The penalty for being out of lead is accumulative, and the judge will add 1 penalty point for each 1/4 of the circumference of a circle or any part thereof that a horse is out of lead. A delayed change of lead is a one (1) point penalty from one stride to 1/4 of circumference of a circle and is also cumulative beyond that point.
    - b. A judge is required to penalize a horse 1/2 of a point for a delayed change of lead by 1 stride where the lead change is required by the pattern description.
  10. Deduct 1/2 point for starting circle at a jog or exiting rollbacks at a jog up to 2 strides. Jogging beyond 2 strides but less than 1/2 circle or 1/2 the length of the arena, deduct 2 points.
  11. Deduct one-half (1/2) point for over or under spinning up to one-eighth (1/8) of a turn; deduct one (1) point for over or under spinning up to one-quarter (1/4) of a turn.
  12. In patterns requiring a run-around, failure to be on the correct lead when rounding the end of the arena will be penalized as follows: For 1/2 the turn or less, 1 point; for more than 1/2 the turn, 2 points.
  13. There will be a half point penalty for failure to remain a minimum of 20 feet from the side of the arena when approaching a stop and/or rollback.
  14. In a pattern requiring a run-around, there will be a one half (1/2) point penalty for failure to remain a minimum of 10 feet from either side of the center of the arena; for small arenas it will be at the judge's discretion.
  15. Judges may not confer as to any penalty or maneuver score prior to submitting a score. If a major penalty (a penalty which results in a no score, a 0, or a 5 point penalty) is unclear, a judge will submit his/her score and ask that the score be held, pending a conference and/or review of the official video at the earliest appropriate time. Should the judges determine via conference or official video replay that a penalty was incurred, it should be applied. If, however, no penalty occurred, the score will be announced as originally submitted. No judge shall be required to change his/her score following a conference or official video replay. Each judge's decision is an individual call and based on individual decision from a conference or official video replay. The use of official video equipment by the judges is only permissible if the judge has reason to believe that all entries have been videotaped. All competitions are required to have video instant replay available to the jury of judges for this reason.
  16. The judge shall have the authority to remove any contestant from a competition they are judging, should said contestant show any disrespect or misconduct as to render themselves or the competition in an unprofessional manner.

17. All riders must dismount. The horse must be presented and the bridle dropped by the rider or a designated representative. The horse and equipment must be checked by the designated judge or steward in close proximity to the arena during a pre-check or only in the case a sitting jury member is checking equipment in the arena, a post-check. Should the equipment judge detect cause for a no score, the exhibitor or their representative, trainer, or guardian may at that time accept the no score and allow the equipment judge to cause the appropriate changes to all score cards or request the other judges confer on the appropriate call. In the case of a youth exhibitor, should a parent, trainer, or guardian not be present, it will be assumed that all parties are aware of this rule and agree to abide by the exhibitor's decision. If requested, the equipment judge will confer with the other judges as soon as practical. Failure to comply with this rule will result in a no score. Competitions are encouraged to establish check stations in advance of each individual run and give the competitor appropriate time to correct the equipment change to comply with legal equipment, should there be a question on equipment.
18. Judges shall be the sole person responsible to determine if a rider has correctly completed the pattern as written.
19. The judge has the option of awarding a re-ride to any contestant who, in the judge's opinion, is unable to complete a pattern for reasons that are out of the rider's control. In the instance where a re-ride is warranted in the judge's opinion, they should advise Competition Management as soon as is possible.
20. An exhibitor or owner in the respective class may request a review of a major penalty applied to a run (penalty score of 0 and 5 point penalty). The judge(s) has the right to deny or honor the request. If honored by the judge(s) they must believe the entire class was videotaped by an official videographer. The request must be made no later than 30 minutes after the last run of the day, and before the judge(s) has left the grounds for the day. In cases where a class is run in sections over multiple days, each day's scores will be official thirty minutes after the last run of each section. Exhibitors or owners may not have direct contact with the judge(s) during the entire process of requesting a review. The request must be submitted to the Competition Steward, Competition Representative, or if need be Competition Management who will take the request to the judge(s).
21. For regulations concerning showing under judges, refer to GR1304.

## **RN104 Categories of Competition and Class Eligibility**

1. Class eligibility is based on the rider's and/or the horse's earnings as of January 1 of the current competition year. It is the responsibility of the owner and/or rider to be aware of the eligibility of the horse and/or rider as recorded by USA Reining. When limits of eligibility are surpassed during the competition year, the exhibitor can complete the year in that specific class or division.
  - a. OPEN—USA Reining approved classes; Subject to the general conditions, any rider with a current USA Reining and USEF membership may show any horse in the class regardless of ownership.
  - b. AMATEUR - USA Reining approved class open to any rider holding a current USA Reining and USEF membership with Amateur Designation may show any horse, regardless of ownership. Refer to USEF Rule GR1306 for the definition of an Amateur Competitor.
  - c. YOUTH. USA Reining approved classes open to any rider holding a current USA Reining and USEF membership with a Junior or Youth Designation may show any horse regardless of ownership. Age divisions in the Youth class include:
    1. YOUTH (13 & UNDER)
    2. YOUTH (14-18)
    3. YOUTH (19-21)
  - d. BREED CLASSES
    1. Dually sanctioned classes that are conducted at breed association shows and dually sanctioned by the breed association and USA Reining. Mostly commonly correspond with a concurrent FEI class (CRI-Breed) but may also stand alone to count for USA Reining points at partner breed association events.
  - e. REGIONAL CLASSES

1. USA Reining recognizes the need for diversity in classes held at different levels of competition and in different geographical areas, as well as to generate promotional activity for affiliate groups. This diversity allows for growth and development of affiliates and uniqueness in Competition Management.
  2. Among these types of classes are: Geldings, Green as Grass, Green Reiner, Ladies, Men's, and many additional classes with a variety of individual conditions written by the affiliate or Competition Management. These classes often use USA Reining Rules and Regulations with a noted variation in show conditions to accommodate the specific class.
  3. USA Reining does not sanction these classes for national competition, but does recognize and encourage their use for the growth and development of the affiliates, the interest of the exhibitors, and the overall management of the Reining competition.
- f. **FREESTYLE**
1. **FREESTYLE OPEN.** Any current member of USA Reining and USEF may show in this class. See rules for Freestyle in USA Reining's Rules and Regulations;
  2. **FREESTYLE AMATEUR.** Any current member of USA Reining and USEF which is also designated as Amateur may show in this class. See rules for Freestyle in USA Reining's Rules and Regulations;
  3. **FREESTYLE YOUTH.** Any current member of USA Reining and USEF which is also designated as Junior or Youth may show in this class. See rules for Freestyle in USA Reining's Rules and Regulations.

## **RN105 Freestyle Reining**

1. Reining maneuvers originated from moves that a cowhorse must use in performing its duties and have been refined to the high level of competition existing today. Freestyle Reining not only provides an opportunity to use these maneuvers creatively, but also to expand them to music by means of choreography. Riders are encouraged to use musical scores which permit them to show the athletic ability of the horse in a crowd appealing way.
2. USA Reining Rules and Regulations will apply except where the following rules pre-empt same.
3. Required maneuvers will be defined as follows:
  - a. A minimum of 4 consecutive spins to the right.
  - b. A minimum of 4 consecutive spins to the left.
  - c. A minimum of 3 stops.
  - d. A minimum of 1 lead change at the canter from right to left.
  - e. A minimum of 1 lead change at the canter from left to right.
4. Exhibitors will only be judged astride. Exhibitors are allowed to use two hands (as well as one or no hands) and any bit approved by USA Reining Rules and Regulations, including snaffle bits and bosals.
5. Failure to perform all the required maneuvers or failure to complete the performance within the time limit will result in a 0.
6. Additional maneuvers such as rollbacks, backups, speed variations, and non classical reining maneuvers such as half pass and side pass are appropriate in Freestyle and shall be given appropriate credit.
7. Additional repetitions of required maneuvers are appropriate, but will only add or subtract from the existing scores already given for the required maneuvers, not as additional scores.
8. Program Time Limit is a maximum of 4 minutes including any introductions. The time limit will be from the beginning of the music or from the beginning of the introduction (whichever is first) and will end with the music.
9. Costumes are permitted but not required. Emphasis is placed on performing the Reining maneuvers to music.
10. Props are permitted but at no time may hinder the judges' view of the horse. The use of props will not add to the score.
11. Judging of the Freestyle Reining.
  - a. Required maneuvers in Freestyle will receive a score based on technical merit from the technical judges utilizing judges score sheets specifically designed for the Freestyle.
  - b. Transitional maneuvers and other maneuvers not specified as Reining maneuvers will be evaluated and scored accordingly in a specified box and counted as a single maneuver score.

- c. If an artistic impression judge is used, they must use the score sheet provided by USA Reining and are encouraged to include remarks regarding performance. In the event an artistic judge is not used, the technical judges will assess an artistic impression score in the box specified using a –2 to a +2 evaluation.
12. Two or more licensed Reining judges must be used in any Freestyle class that offers \$2000 or more in added money. As part of the overall score, each judge would weigh the artistic impression of the ride as 10% of the overall ride.
  13. One judge (not to be an artistic impression judge) shall be designated as the tie breaker prior to the Freestyle class. In the event a tie still occurs (or the tie occurs with one judge), the technical merit scores will be tallied to break the tie. In the event a tie remains, the exhibitors tied will be declared co-champions.
  14. Validating required maneuvers will be the responsibility of the judges. At least one scribe will be used to assist in verifying the required maneuvers for each horse as they are completed in the pattern.
  15. Elimination rounds are to be used at the discretion of competition management and should use USA Reining patterns, USA Reining judging rules (found in the USA Reining Rules and Regulations) as applied to all classes, and USA Reining approved judges shall be used in any elimination round, just as they are in finals and single go-rounds. Elimination rounds may be held without music or costuming, but must allow the use of either one or two hands. The emphasis in the design of any eliminations should be on quality of competition.
  16. Applause meters or Artistic impression judges should not represent more than 20% of the combined score and should only be used in conjunction with (minimum) two USA Reining approved judges. When used in scoring, the following formulas should be applied to properly weigh the scores according to the above percentage and still produce a comparable numerical score as when three judges are used.
    - a. Score for Judge 1 should be multiplied by 1.2
    - b. Score for Judge 2 should be multiplied by 1.2
    - c. Score for the Applause Meter should be multiplied by .6. All three scores should then be added to determine the final score for placing.
  17. If an open Freestyle Reining class is offered a Youth and or Amateur Freestyle class may also be held. Competition Management shall reserve the right to run them concurrently or separately.
  18. Competition Management shall reserve the right to rule on music or dress which may be inappropriate or offensive to the spirit and nature of the competition. Competition management may also determine the use of special lighting.
  19. Equipment used in freestyle must adhere to the following standards:
    - a. All equipment must be non-abusive and humane based on Federation and USA Reining Rules and Regulations.
    - b. Any equipment not specifically covered by or in conflict with standard equipment guidelines must be non-abusive to the horse.

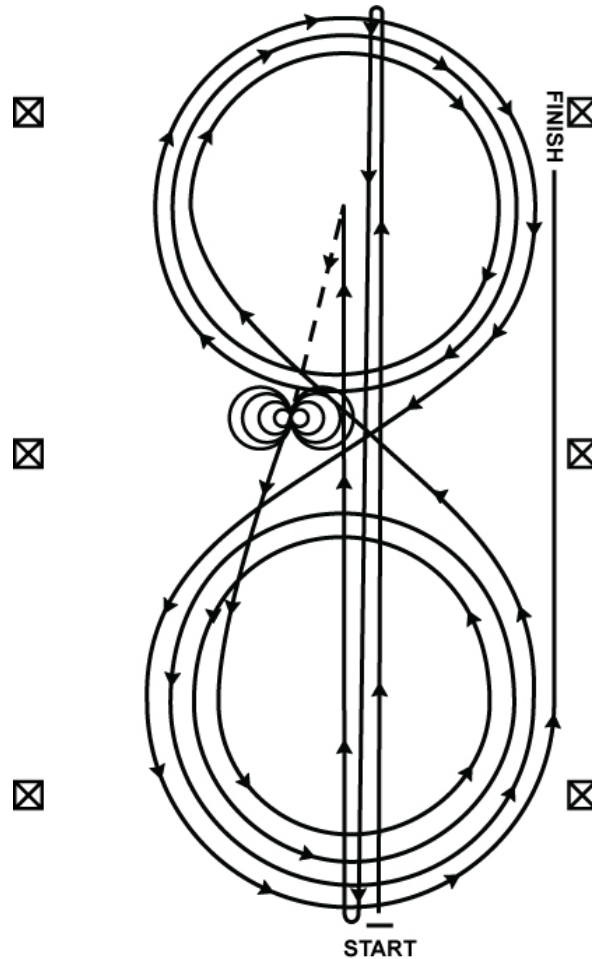

## **SUBCHAPTER RN-2 PATTERNS**

### **RN106**

2. Markers will be placed on the wall or fence of the arena as follows:
  - a. at the center of the arena
  - b. at least 50' (15 meters) from each end wall.
3. Where designated in the Pattern for stops to be beyond a marker, the horse should begin its stop after it passes the specified marker.
4. Each pattern is drawn so that the bottom of the page represents the end of the arena entered by contestants and must be run as such. In the event that an arena has only one gate and it be in the exact middle of the side, that side shall represent the right side of the page the pattern is drawn on.
5. All horses will be judged immediately upon entering the arena and judging will cease after the last maneuver. Any fault incurred prior to the commencement of a pattern will be scored accordingly.

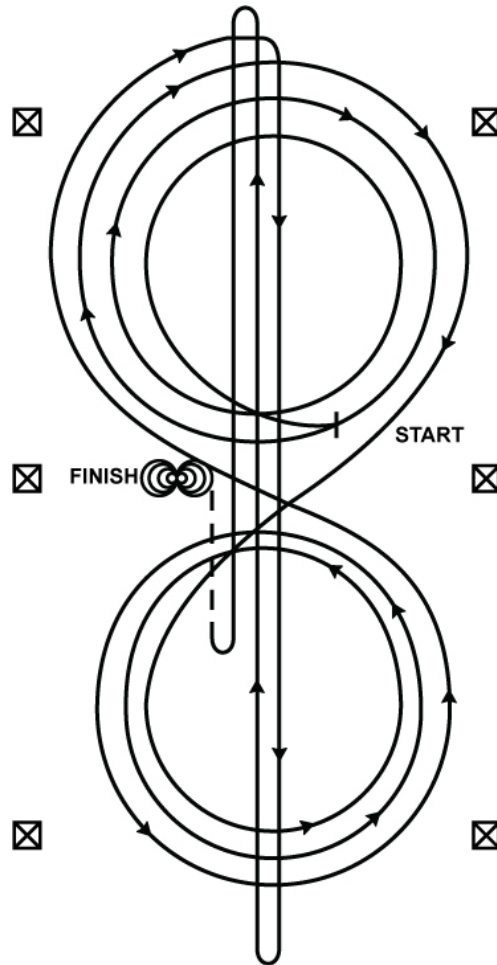

6. All judges' decisions are final.

### **SUBCHAPTER SB-1 GENERAL QUALIFICATIONS**

#### **SB101 Eligibility**

1. Purebred American Saddlebreds - In order to compete, all horses must be registered with the American Saddlebred Horse & Breeders Association (ASHBA) or the Canadian Livestock Records Corporation (CLRC). They must be entered in their full registered names with registration numbers and under the names of the owner(s) of record with the A.S.R. or the C.L.R.C. A copy of the registration papers showing recorded ownership, or a copy of the registration papers with a Certificate of Eligibility to Show issued by the ASHBA or must be submitted with entry form at the time of making entry or presented to competition office before competition number will be released unless the competition, at its discretion, confirms registration electronically with the ASHBA or the CLRC; competition management is responsible for notifying exhibitors of this requirement. See GR1308.2a. Exception: Horses shown in any USEF Regular Competition prior to December 31, 1979, and American Saddlebred-type ponies. A copy of the registration papers will be returned when exhibitors pick up their numbers, if requested.
2. Half American Saddlebred Horses shown in the Half American Saddlebred division must be registered with the ASHBA. Horses registered with the ASHBA may compete in the following divisions provided competition management offers separate classes restricted to Half American Saddlebreds: Five Gaited, Fine Harness, Park, Park Pleasure, Show Pleasure, Country Pleasure, Western, Hunter Country Pleasure, Dressage Suitability, In Hand, Model, Parade, and Roadster. Competitions may offer classes restricted to American Saddlebreds &/or Half American Saddlebreds. The breed restrictions must be clearly published in the prize list. Half American Saddlebreds may not be shown in American Saddlebred classes with Purebred American Saddlebreds in the American Saddlebred and Half American Saddlebred division.
3. Owners, riders, drivers, handlers and trainers of horses competing at Federation licensed competitions in all American Saddlebred sections must be current competing members in good standing with the ASHBA or the American Saddlebred Horse Association of Canada and provide an original or copy of the ASHBA or ASHBA of Canada membership card unless the competition, at their discretion, confirms membership electronically with the ASHBA or the ASHBA of Canada office. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownership, only one owner need be a member. Exception: Owners, riders and trainers of horses competing in American Saddlebred restricted walk/trot classes are exempt from ASHBA and ASHBA of Canada membership. If the ASHBA competing membership card is not available, the exhibitor, or their agent, must sign the ASHBA membership affidavit giving their name, address, the fact that they are in possession of the proper credentials and the reason the information is not available.

#### **SB102 Type and Conformation**

1. The American Saddlebred is the epitome of the show horse. It carries itself with an attitude that is elusive of description—some call it “class”, presence, quality, style, or charm. This superior air distinguishes its every movement.
2. The ideal American Saddlebred is well-proportioned and presents a beautiful overall picture. The animal should be in good flesh, with good muscle tone and a smooth, glossy coat. Masculinity in stallions and femininity in mares are important and should be taken into consideration. The average height is 15 to 16 hands and the weight 1,000-1,200 pounds. Any color is acceptable; the most prominent are chestnut, bay, brown and black with some gray, roan, Palomino and Pinto. HEAD—well-shaped with large, wide-set expressive eyes, gracefully shaped ears set close together on top of the head and carried alertly; a straight face line with a relatively fine muzzle and large nostrils and a clean and smooth jaw line. NECK—long, arched and well-flexed at the poll with a fine, clean throatlatch. WITHERS - well defined and prominent. SHOULDERS—deep and sloping. BACK—strong and level with well sprung ribs. CROUP—level with a well

carried tail coming out high. TAIL - carried proudly, coming out high from the croup. LEGS—The front leg should set well forward under the shoulder. The line of the hind leg, in a natural stance, should be vertical from the point of the buttock to the back edge of the cannon bone. The forearms and hindquarters are well muscled to the knees and hocks. Legs are straight with broad flat bones, sharply defined tendons and sloping pasterns. HOOVES—good and sound, open at the heel, neither toed in or toed out. TO BE PENALIZED: lack of American Saddlebred type, coarse or plain head, roman nose, round jaws, lop ears, wide ears, small eyes (pig eyes), short neck, straight neck, ewe neck, thick throatlatch, flat withers, sway-back, roached back, crooked tail, hollow chest, straight shoulders, crooked legs, calved knees, over at the knee, bow legs, rough joints, round bones, straight pasterns, splay feet or pigeon toes, contracted heels, base stance too wide or too narrow, sickle hocks, cow hocks, dished feet, lack of muscle tone, thinness, obesity, rough coat or overall lack of conditioning. These and any other defects attributable to heredity must be penalized. With the natural variations of type within the breed, some horses do not conform to the ideal but are perfectly suitable for various kinds of competition. If they meet all other requirements for a particular event, they should not be penalized too severely, except in stripped classes, Harness classes and In-Hand classes where extremely low backed horses must be severely penalized.

3. The Half American Saddlebred offers characteristics similar to its Saddlebred parent – smooth gaits, willingness to work with people, intelligence and versatility. Half American Saddlebreds may be of any size and may show characteristics of any other breed. HEAD – should be attractive with wide-set expressive eyes. NECK – flexed at the poll with a fine clean throatlatch. WITHERS – well defined. BACK – strong and level. LEGS – true and straight forward action, neither toe in or toe out. FEET – well conformed.

### **SB103 General, Soundness, and Welfare**

1. The American Saddlebred and Half American Saddlebred have clean, rhythmic and fluid action which is straight and true. Winging, interfering, traveling wide behind, mixing of gaits and loss of form are undesirable.
2. All horses must be serviceably sound. In In-Hand classes for sires and dams or prospective sires and dams, transmissible unsoundness only shall be considered. Horses must not show evidence of lameness, broken wind or complete loss of sight in both eyes.
3. Shoeing- to be directed to improving the comfort, balance, and soundness of the horse. Labored way of going due to shoeing to be penalized.
  - a. Pads and wedges- are permitted to protect the feet and limbs from the impact of the horse's natural gait, and maintain the integrity of the hoof wall. Exceptions: see English Country Pleasure, Western, and Hunter Country Pleasure sections.
  - b. Bands- protective hoof bands are permitted to protect the integrity of the hoof and prevent the loss of a shoe resulting in trauma to the hoof. Exceptions: See English Country Pleasure, Western, and Hunter Country Pleasure sections.
4. Horses may be shown with unset tails in any class without penalty.
5. Surgical release of only the ventral sacrocaudal muscle is allowable if performed by a licensed veterinarian.
6. No horse may compete in a class in the American Saddlebred Division with any chemical or other irritant of any kind present to alter the horse's tail carriage.
7. All horses must be worked both ways of the ring at all required gaits as directed by the judge(s). Workouts will be judged as a separate class and horses must be tied for placings being considered in that workout. Workouts may be called for by the judge(s) for any or all placings. All horses chosen for a workout must be worked both ways of the ring at any or all gaits listed in the class specifications that are requested by the judge(s). An exhibitor choosing to not complete the workout for any reason (including concern for the welfare of the horse) has the option of lining up and receiving the last ribbon awarded in the workout. If two or more horses retire from a workout, these entries will be placed in reverse order of retirement. In the event of simultaneous withdrawal of a workout, the placings will go to the fall of the cards. An exhibitor is entitled to request only one five minute time out per class including workout. (See GR833).
8. A judge must order from the ring any unruly horse or one whose actions threaten to endanger the rider, driver, handler, other exhibitors or their entries. (See GR1032.11)

9. A judge must order from the ring any rider, driver, or handler who exhibits inappropriate or dangerous behavior or whose actions would in any way threaten the safety of any exhibitor, their entries or the safety of class officials. (See GR1032.12)
10. To be penalized: Mixed gaits; unbalanced action; labored way of going, pulling; fighting the bit; tossing the head; carrying head to one side or going sideways; leaving hocks behind; strung out; wrong lead or cross-cantering; breaking of gait; winging; interfering; traveling wide behind; loss of form due to excessive speed; bad manners; exaggerated opening of mouth; carrying sour ears.
11. Horses showing signs of inhumane treatment will be eliminated from competition. See GR838.
12. Definition of Maiden/Novice/Limit for horses/riders/drivers. Maiden/Novice/Limit classes are open to horses/riders/drivers who have not won one/three/six first place ribbons respectively, at any Federation Licensed Competitions or at any non-USEF but ASHBA recorded competitions in any under saddle/driving class of any Breed and/or Discipline. Beginning April 1, 2019 first place ribbons in any under saddle class count towards Maiden/Novice/Limit status of a horse/rider in any under saddle class but do not affect the status of a horse/driver in any driving class. Conversely, status for Maiden/Novice/Limit for Driving classes does not affect the status for Maiden/Novice/Limit in any under saddle classes. Winning classes in Equitation, Academy, Lead Line, and/or non-cantering classes will not affect the Maiden/Novice/Limit status of a horse or rider. Ribbons won in leadline classes and in classes where entries are not required to canter will not affect Maiden, Novice and Limit Status.
13. Attention getting devices &/or other noisemakers (including but not limited to tape measures, blow horns, bamboo poles, explosives, fire extinguishers, baby powder, whips longer than 6', etc.) are not allowed in and around the make up and competition rings during scheduled competition sessions or at any times designated by Competition Management. All such items will be confiscated and offenders will be reported to the USEF. (See also GR839)
14. Master classes are restricted to amateur rider/drivers age 60 years and older. Classes are to be judged according to amateur class specifications. Master classes are never to be stripped for conformation judging.
15. When the Dressage chapter is referenced herein, any rule or portion of a rule that is in direct reference to USEF/USDF or USEF National Championships shall be disregarded for the purpose of breed Dressage classes.

*BOD 06/17/24 Effective 12/01/24*

  - b. An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional's office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. 13. Whips longer than 6', including snapper or lash, are not allowed in the warm-up area.

## **SB105 Stripping**

The stripping of horses for conformation judging is mandatory in Under Saddle Championship Classes in all sections at the Kentucky State Fair World's Championship Horse Show and The UPHA/American Royal National Championship Horse Show (Exception: Park Horse, Pleasure Horse, Three Gaited Junior Exhibitor, and Five Gaited Junior Exhibitor sections and all Kentucky County Fair Championship classes) and in all ASHBA signature classes for horses three years old and under (i.e. ASHBA Futurities, ASHBA Sweepstakes). Stripping is also mandatory in all Three Gaited and Five Gaited Open Championship classes except one horse classes. The above excepted classes and other classes may not be stripped unless it is so stated in the prize list. In any stripped class, horses may be presented individually for conformation judging. Horses with extremely low backs must be severely penalized in all stripped performance classes. Only two attendants, suitably attired, per animal are permitted in the ring. In classes where manners are paramount (i.e. Ladies, Junior Exhibitors, Amateurs, and Owners), riders must remount and return to the line up before the judges will be allowed to turn in their cards.

## **SB106 Judging Criteria for American Saddlebred Horses and for Half American Saddlebred Horses**

The specific type of class being judged determines the importance of each criterion in the final judging outcome. The order in which each is listed in the class specifications determines where the emphasis should be placed. For example: A horse placed first in a class judged on performance, presence, quality, manners and conformation could justifiably be unplaced against the same horses if the class were judged on manners, presence, quality, performance and conformation. The criteria considered are: performance, manners, presence, quality and conformation.

## **SB107 Line Up**

1. In American Saddlebred performance classes when the judge calls for the line up exhibitors must continue in a clockwise direction to bring their entries to the line up. Judge(s) to penalize entries that do not comply.
2. In American Saddlebred performance classes requiring entries to back, the judge(s) must walk the line up (exception: judge(s), at their discretion, may instruct the ringmaster to walk the line up during the back).

## SB108 Qualifying Classes and Specifications

1. OPEN, JUNIOR, THREE-YEAR-OLD, TWO-YEAR-OLD, MAIDEN, NOVICE AND LIMIT. The OPEN horse should be the ultimate representative of the breed. It should be as nearly perfect as possible; performing all gaits with animation, brilliance and extreme action at both ends. Performance is paramount in these classes. Classes are judged on performance, presence, quality, manners, and conformation.
2. LADIES, JUNIOR EXHIBITORS, AMATEURS, MASTERS, OWNERS, AND YOUTH. Manners are paramount in these classes but there is a difference in the way in which horses are judged in each.
  - a. LADIES. A Lady's horse should be outstanding in refinement and elegance with suitability of horse to rider taken into consideration. Expression is important and quality is a prime consideration. The execution of gaits should be performed with brilliance on command. The horse should walk and stand quietly. Classes are judged on manners, quality, presence, performance, and conformation.
  - b. JUNIOR EXHIBITORS. The Junior Exhibitor's horse should be mannerly, willing, and expressive with balanced action. The execution of gaits should be performed with brilliance on command. The horse should walk and stand quietly. Classes are judged on manners, performance, presence, quality, and conformation.
  - c. AMATEURS, MASTERS AND OWNERS. The Amateur's, Master's and Owner's horses can be a bit stronger and perform in a bolder manner. More action and animation are desired and less emphasis can be put on manners than in Ladies, Junior Exhibitor or Youth classes. Classes are judged on manners, performance, presence, quality, and conformation.
  - d. YOUTH: The youth classes are to be judged in accordance with Amateur class specifications, open to exhibitors 16-21 years of age. Stallions are prohibited. At shows where the Junior Exhibitor and Amateur Championships are combined, and there is no Youth Championship, the youth will be included in the combined Championship. If no youth championship is offered, (i) horses shown by riders 17 and under, will be qualified for the Junior Exhibitor Championship and (ii) horses shown by riders 18 and over, who possess an amateur card, will be qualified for the Amateur Championship, and (iii) horses shown by riders 18 and over, who do not possess an amateur card, will be qualified for the Open Championship, if the prize list so allows.
3. AMATEUR OWNER TRAINER (AOT) CLASSES
  - a. OWNERSHIP. Horses entered in AOT classes must be registered in the name of the competitor or a member of the competitor's family, as defined by GR123. Combined ownership is not permitted unless all owners are members of the same family. Horses registered in a farm/ranch/syndicate/partnership/corporation name may be shown in AOT classes provided the family is the sole owner of the farm or entity as defined by GR123. In the case of a junior exhibitor, the parent or guardian must sign. Leased horses are not allowed unless owned by a member of the competitor's family. CLASSES. AOT classes can be offered in any Saddlebred section. Horses may be stabled with a professional during the competition and hauled by a professional. Professional aid is permitted only in the areas of grooming, preparation, and ground assistance in the warm up ring and after judging is complete. Headers and in-ring assistants must be amateurs. Professional coaching in the warm up-ring and during the class is strictly prohibited in any class that the horse-rider combination compete in at the same show. Professional help for situations relevant to safety is permitted. Owner must sign as owner, trainer and rider/driver on the Federation entry blank.
  - b. TRAINING. Horses are not to have been professionally trained for a minimum of 90 days prior to the start of the competition. Training includes, but is not limited to, in-hand work, lunging, long lining, driving, riding, and stall bridling.
  - c. LESSONS AND CLINICS. AOTs may take lessons and attend clinics with their AOT horse, another horse owned by them, or any other horse. Trainers/instructors may demonstrate training techniques on the horse to be shown in AOT classes for the purpose of educating the owner. Training demonstrations are limited to no more than one instance per 30 day period, and the last instance cannot be less than 30 days prior to the start of a show. If more than one instance occurs in 30 days or one occurs less than 30 days before the start of a show, 90 days must pass from the last instance until the horse is again eligible for AOT classes.

## **SUBCHAPTER SB-2 DESCRIPTION OF GAITS**

### **SB113 General**

1. The standard of excellence of the American Saddlebred is beauty, symmetry and balance. Balance features coordinated motion, with straight true folding action of the front legs with flexing hocks carried close together, producing a clean, rhythmic and fluid way of going. In addition, the American Saddlebred possesses animation, brilliance and extreme grace of movement.
2. UNDESIRABLE: Winging, interfering, traveling wide behind, mixing of gaits, shackled look and loss of form.

### **SB114 Walk**

Judging at the walk is based on manners, quality and natural action; it is not used as a rest period.

1. **FLAT WALK:** The flat walk should be an elastic, ground covering and collected four beat gait maintaining proper form and consistency in stride. It should be executed in a brisk -manner that is compatible with the type of class. It should display the horse's good manners, type of stride and attitude. The flat walk is relaxed.
2. **ANIMATED WALK:** The animated walk is a highly collected gait, exhibiting much "pimp" at a slow, regulated speed, with good action and animation. It should have snap and easy control. It can be either a two beat or four beat gait. It is performed with great style, elegance and airiness of motion.
3. **WALK (FOR HUNTERS).** A four beat gait, straight, true and flat-footed. Regular and unconstrained with good reach.

## **SB115 Trot**

1. The trot is a natural, two beat diagonal gait in which the front foot and the opposite hind foot take off from the ground in unison and land simultaneously. A balanced trot features coordinated motion with straight, true, shoulder motion of front legs, with flexing hocks carried close together. It is executed in a highly collected manner and should display the horse's athletic ability.
2. **PARK TROT:** The park trot in Three-Gaited, Park, and Fine Harness classes is executed in a highly collected manner, speed to be penalized. The horse's energy should be directed toward animation rather than speed.
3. **PARADE GAIT:** The parade gait is a collected trot at a maximum speed of five miles per hour. It displays the horse's athletic ability and animation.
4. **ROADSTER JOG-TROT:** The jog-trot is called to display the purity of the horse's gait. It is executed in a highly collected manner. The horse's energy should be directed toward animation rather than speed.
5. **WESTERN JOG-TROT:** The jog is primarily a Western Pleasure gait used for long distance riding. It should generate very little motion in the saddle with a minimum of control from the rider. A free, easy, two beat diagonal gait without a tendency to mix gaits.
6. **TROT (FOR HUNTERS):** A two beat gait, straight and regular. The trot should be mannerly, cadenced and balanced. It is to be performed at a medium speed with a free-moving, ground-covering stride, with the rider posting.
7. **GAITED TROT:** The trot of the Five-Gaited horse should show speed in form. The desired speed is the maximum rate at which the horse can trot while still maintaining proper form, control and balance.
8. **EXTENDED TROT:** The extended trot is faster, stronger and bolder; with a fuller extension of stride to obtain desired speed. It is executed in a highly collected manner.
9. **EXTENDED TROT (FOR HUNTERS):** A two beat gait that is bold, energetic, balanced and ground covering with definite lengthening of stride. This should result in an increase in speed without a sense of racing or scurrying. The mouth must remain light and the horse must demonstrate complete acceptance of control without resistance at all times.
10. **"SHOW YOUR HORSE":** At this command the driver has the privilege of showing the Fine Harness horse to its best advantage at the trot but speed will be penalized.
11. **ROAD GAIT:** The road gait trot is executed in a highly collected manner. It is faster, stronger and bolder than the jog-trot; with a fuller extension of stride to obtain desired speed.
12. **DRIVE ON:** When asked to drive on in Roadster classes the horse must show speed in form. The desired speed is the maximum rate at which a horse can trot while still maintaining proper form, control and balance.

## **SB116 Canter**

1. **Criteria.**
  - a. Canter is relatively slow, lofty and fluid with a definite three beat cadence. High action, a good way of going and proper collection are paramount. It is a restrained gallop in which two diagonal legs are paired, the single beat falls between the successive beats of the other two unpaired legs. The unpaired legs act independently—the foreleg with which the horse leads and its diagonal hind. The propulsion is in the hindquarters with the leading foreleg sustaining the concussion of the final third beat. There is a brief interval when all four feet are off the ground. It is an ambidextrous gait, executed on the lead which is toward the center of the ring to relieve stress and aid in balance (A lead is determined by which foreleg—

right or left—sustains the concussion of the final third beat, after its diagonal hind leg started the propulsion of the first beat).

- b. It is acceptable, although not encouraged, for the horse to have a bolder, strong canter in those classes where manners are not paramount or where speed at a qualifying gait is desired. Ease of control, rate of speed and collection may vary according to the class specifications.
  - c. Where manners are paramount, a slow, consistent rate of speed must be maintained with little obvious effort from the rider.
  - d. CANTER (FOR HUNTERS): A three beat gait, even, smooth, unhurried, correct and straight on both leads.
  - e. EXTENDED CANTER: The extended canter should be ground covering, free moving, and smooth. The extended canter should show a definite lengthening of stride, while still being controlled and mannerly. Extreme speed shall be penalized.
  - f. HAND GALLOP: The hand gallop is performed with a long, free, ground-covering stride. The amount of ground covered may vary between and among horses due to difference in natural length of stride. A decided lengthening of stride should be shown while the horse remains controlled, mannerly, correct and straight on both leads. The hand gallop is not a fast collected canter.
2. LOPE: The lope is the western version of the canter. It should be easy riding with good motion that is consistent and steady; neither too slow nor too fast and performed equally well on either lead. It should give the appearance of being a comfortable gait with a definite three beat cadence that avoids trotting behind.

### **SB117 Slow Gait**

1. The slow gait was developed from the pace to be a four beat gait with each of the four feet contacting the ground separately. In the takeoff, the lateral front and hind feet start almost together but the hind foot contacts the ground slightly before its lateral forefoot.
2. The slow gait is a highly collected gait with most of the propulsion coming from the hindquarters, while the forequarters assist in the pull of the final beats. The slow gait is not a medium rack.
3. The slow gait is a restrained four beat gait, executed slowly but with true and distinct precision. Speed is to be penalized. It is high, lofty, brilliant and restrained denoting the style, grace and polish of the horse.

### **SB118 Rack**

1. The rack is a four beat gait in which each foot meets the ground at equal, separate intervals. It is smooth and highly animated, performed with great action and speed, in a slightly unrestrained manner. Desired speed and collection are determined by the maximum rate at which a horse can rack in form. Racking in form should include the horse remaining with a good set head. It should be performed by the horse in an effortless manner from the slow gait, at which point all strides become equally rapid and regular.
2. TO BE PENALIZED: Any tendency to become “trotty”, “pacey” or “hitchy gaited”.
3. In Pleasure classes, there is more emphasis on the way of going as a pleasure gait with only moderate speed required. Where manners are paramount, there is more emphasis on the ease by which it is performed by the rider.

Traditional Driving Bridle

## **SUBCHAPTER SB-3 PERFORMANCE, FINE HARNESS**

### **SB119 General**

The Fine Harness horse should possess all of the elegance and refinement of the ideal American Saddlebred and its energy should be directed toward animation rather than speed. It is shown with a full mane and tail. The Half American Saddlebred Fine Harness horse should also possess elegance and refinement and its energy should be directed toward animation rather than speed.

## **SUBCHAPTER SB-25 RANCHMANSHIP**

### **SB221 General**

1. The purpose of this class is to bring forth the versatility in both the ranch horse and exhibitor, while performing the designated pattern constructed using both Ranch Trail obstacles and Ranch Riding maneuvers. Obstacles and maneuvers will be judged to the standards written in Ranch Trail and Ranch Riding in each part of the patterns that pertain to these classes (See SB 210, SB 217-218).
2. Each horse will work individually performing the pattern designated by the judge. The judge may submit a pattern or

select one of the four (4) suggested patterns offered on the relevant Recognized Affiliate website, as well as the USEF website under the breed applicable page as the designated pattern for the class. Horses will be scored on a basis of 0-100, with 70 denoting an average performance.

3. There will be no time limit.

## **SB222 Eligibility**

This class is open to all horses 3 years of age and older. Classes can be held for Open, Amateur, and Youth Riders as entries warrant and at the discretion of competition management.

## **SB223 Apparel and Equipment**

1. Attire and tack should be clean and presentable. Working tack is encouraged. Equipment with silver should not count over a good working outfit. Silver headstalls and saddles are discouraged.
  - a. Hoof polish is not prohibited but is discouraged.
  - b. No braiding or banding of manes, no switches or tail extensions.
  - c. Trimming of bridle path, fetlocks, or whiskers is permitted. A horse left in a natural state is not to be penalized.
  - d. Split or rommel reins are permitted.
  - e. Riders shall wear long sleeved, collared shirt, cowboy hat or helmet and boots. Chaps or chinks are permitted. Scarves or wild rags are allowed

## **SB224 Class Maneuvers**

Please see USEF Website for suggested patterns under applicable breed page.

1. Class maneuvers may include a side pass, turns of 360 degrees or more, change of lead (simple or flying), walk, trot, or lope over a pole(s); or some combination of maneuvers to show the versatility of a ranch horse.
2. The judge may designate a pattern combining these maneuvers or may designate one of the suggested patterns offered on the USEF website as the pattern for this show. If the judge designates their own pattern, and does not use one of the suggested patterns, the pattern must include at least 6 maneuvers. If a judge uses one of their own patterns, it is recommended to not have the stop following an extended lope.
3. The use of natural logs is encouraged.
4. Posting or standing in the stirrups at the extended trot is permitted.
5. Touching or holding the saddle horn is permitted at extended gaits or during obstacles where rider safety is a concern.

## **SB225 Gaits**

1. The overall cadence and performance of the gaits should be with an emphasis on forward movement, free-flowing, and ground covering for all gaits. Transitions should be performed where designated, with smoothness and responsiveness.
2. A simple or flying lead change should be executed precisely in the specified number of strides and/or at the designated location. A simple lead change is performed by breaking to a walk or trot for one to five strides (before break of gait penalty applies). Flying lead changes should be simultaneous front to rear. All changes should be smooth and timely. Penalties will be incurred for halting or losing forward motion when changing leads.
3. This class will also be judged on quality of movement of the horse. The horse should reflect the versatility, attitude and movement of a working ranch horse riding outside the confines of an arena. The horse should be well-trained, relaxed, quiet, soft and cadenced at all gaits. The ideal ranch horse will travel with forward movement and demonstrate an obvious lengthening of stride at extended gaits. The horse can be ridden with light contact or on a relatively loose rein without requiring undue restraint, but not show on a full drape of reins. The overall manners and responsiveness of the ranch riding horse to make timely transitions in a smooth and correct manner, as well as the quality of the movement are of primary considerations. The ideal ranch riding horse shall have a natural head carriage for that individual horse at each gait.

## SB226 Scoring

1. The Ranchmanship class will be scored in  $\frac{1}{2}$  point increments from  $-1\frac{1}{2}$  to  $+1\frac{1}{2}$  on the score sheets on the overall quality of the horse's movement. The judge will score on all gaits, maneuvers, and obstacles performed at the end of the pattern on overall average of each gait. Transitions should be performed where designated, with smoothness and responsiveness. Posting or standing in the stirrups at extended trot is acceptable. Horn may be held at extended gaits or over obstacles where safety is a concern.

2. Riders will be judged on ability and decision making in the show pen. A rider that puts their horse in the correct positions and making the horse's job easier should receive credit. Riders will also be scored in  $\frac{1}{2}$  point increments from  $-1\frac{1}{2}$  to  $+1\frac{1}{2}$  at the end of the pattern for overall performance. No penalties will be given in the quality of movement section of the scoresheet.

When moving pony, be sure that the judge gets a clear, unobstructed view of the pony's action. Do not crowd the exhibitor next to you when in a side-by-side position. Do not crowd exhibitor in front when lined up head to tail. When judge is observing other animals, let yours stand if posed reasonably well. Be natural. Over showing, undue fussing, and maneuvering are objectionable.

Show the animal at all times. Be courteous and sportsmanlike at all times. Recognize and respond quickly to correct faults of your pony. Respond quickly to requests from judges and officials. Keep showing until the entire class has been placed and excused from the ring. ### **SUBCHAPTER WD-1 WESTERN DRESSAGE HORSE GOALS AND OBJECTIVES**

#### **WD101 Goals and Objectives**

The goal of Western Dressage is to develop a partnership between a happy equine athlete working in harmony with its rider. A system of progressive training produces a horse that is physically strong, balanced, supple, and flexible; this equine athlete also demonstrates a calm, confident, attentive attitude and is happy to do its job.

1. A Western Dressage horse achieves this goal by using the principles of classical dressage training while emphasizing the lightness and harmony with the rider which is a hallmark of a Western Dressage horse.
2. The Western Dressage horse demonstrates free flowing, comfortable strides. The gaits are free, regular in cadence and rhythm, consistent in speed and tempo. The horse presents a balanced appearance.
3. The Western Dressage horse's head and neck are carried in a relaxed, natural manner; head and neck carriage are dictated by conformation and serve as a balance arm to facilitate proper movement.
4. The Western Dressage horse engages its hindquarters; uses its back freely; and lifts its forehand. These characteristics of framing and movement are more pronounced as the horse advances in its training and development.
5. The Western Dressage horse carries its body in a straight line when required by the maneuvers of the test; the Western Dressage horse carries itself in a consistent curve whose degree of bend is consistent throughout a movement that calls for a curve. The straightness or bend is consistent throughout the horse's body and is dictated by the requirements of the maneuver being performed.
6. Lightness and harmony are the hallmarks of the Western Dressage horse; it willingly accepts a light contact on the bit without tension or resistance. The Western Dressage horse gives the appearance of performing the requested gaits and maneuvers of its own accord. The horse and rider appear as one.

#### **WD102 Participation in Western Dressage Competitions**

1. Western Dressage classes are open to riders on horses, mules and/or ponies of any origin. Classes may be restricted to one or more breeds at a licensed breed restricted competition.
2. A Horse/Rider combination may enter no more than two consecutive levels, Freestyle levels included, at any one competition. Suitability, Hack and Equitation are excluded from the maximum limit of rides per day and horses in these classes may compete at any level for which they are otherwise eligible during the same competition.
3. Horse/rider combinations may ride the same test twice at the same competition, given they are separate class numbers.
4. No horse may be ridden more than once in any Western Dressage class including separate sections of the same class number.
  - a. Horses may be ridden in junior, amateur, and open sections at the same competition.
5. Horses cannot be ridden by more than two riders. Shows may further limit number of rides per horse and level if stated in their prize list.
6. If there is a conflict with breed division rules regarding WD102.2-4, the breed division rules will govern.
7. For purposes of competition in Western Dressage classes:
  - a. Junior exhibitor definition: See GR128
  - b. Amateur exhibitor definition: From the beginning of the competition year in which they reach 18, individuals must possess a current Amateur Certification to be eligible to compete as Amateurs at a Federation Licensed Competition. Adult Amateur riders as defined in GR1306 and GR1307. At non-

Federation Licensed Competitions, organizers should consult the appropriate breed or show rules for eligibility to compete as an Amateur.

- c. An individual may not compete as a Junior Rider and as an Amateur in Western Dressage at the same competition.
8. WDAA Membership.
- a. To be eligible to participate and/or compete as an exhibitor, owner, lessee, agent, coach, or trainer in any Western Dressage class or at any Federation Western Dressage Licensed Competition persons must be active members of WDAA or pay a non-member fee equal to the price of an annual membership for each competition. Exception: WDAA membership or non-member fee is not required at a Lite Licensed competition. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownership, only one owner need be a Member or pay a non-member fee. The competition is responsible for listing either the active member or the owner that paid the non-member fee in the results. The competitions will be responsible for forwarding a list of the names of individuals who pay non-member fees at the competition to WDAA with the post competition report. Payment of non-member fees for the purpose of competing does not entitle the individual to any privileges of the WDAA membership.
  - b. WDAA membership is a requirement for participation at the WDAA World Championship Show.
9. Federation Membership. A Federation non-member, who wishes to participate as a rider, owner, lessee, or agent at Regular Federation Competitions, Reining Competitions or Federation Open Western competitions that hold Western Dressage classes, must pay a show pass fee. Eligible exhibitors are prohibited from obtaining more than one (1) Show Pass per competition year. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownership, only one owner needs to be a Member or pay a show pass fee. The competition is responsible for listing either the active member or the owner that paid the show pass fee in the results.
- Participants in the following classes are exempt from the requirements of this rule: leadline; exhibitions; games and races; classes for 4-H members; walk trot; academy classes, and Opportunity classes.
- Payment of show pass fees for the purpose of competing does not entitle the individual to any privileges of the Federation membership.
10. An exhibitor is not allowed to request a Time-Out in Western Dressage.
11. If it becomes necessary to interrupt a Western Dressage competition, and/or as to cause suspension of judging, the unfinished portion may be recommenced and rescheduled for the same or following day at the option of the Show Committee with the officials' consent. All scores recorded before the interruption will stand. When classes are re-commenced after a delay on the same day, competitors must be given at least 30 minutes notice of the starting time. Exhibitors whose ride times are changed to a subsequent day as a result of the interrupted competition or inclement weather condition, must be individually notified at least two hours prior to a rescheduled ride time.
12. Competitions may limit the number of rides and/or the number of levels in which horses may compete if printed in the prize list.
13. Electronic communication devices used for purposes of coaching exhibitors during a competition are prohibited in all classes in the Western Dressage Division. Exhibitors with a permanent hearing impairment are permitted to use an electronic communication device upon submission of a written certification from a treating medical professional's office certifying the permanent hearing impairment and certifying the requirement of an electronic communication device. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.
14. An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional's office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.

## **SUBCHAPTER WD-2 GAITS**

The horse's three gaits, walk, jog and lope will be enhanced and amplified through correct training. Development of its strength and balance as a result of correct training will let it carry its rider with ease and confidence while maintaining correct rhythm and a steady tempo at all times.

### **WD103 The Walk**

1. The walk is a well-marked four time beat marching gait in a regular cadence with equal intervals between each beat. This regularity combined with complete relaxation must be maintained throughout all walk movements.
2. When the foreleg and the hind leg on the same side swing forward almost at the same time, the walk has a lateral rhythm. This irregularity is a serious fault of the gait.
3. The following walks are recognized: Collected walk, Working walk, Free walk and Extended walk. There should always be a clear difference in the attitude and tracking in these variations.
  - a. Collected Walk. The horse, remaining "on the bit", moves resolutely forward with its neck raised and showing a clear self-carriage. The head approaches the vertical position, and a light contact is maintained with the mouth. The hind legs are engaged with good flexion of the joints. The gait should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the Working walk, because all the joints bend more markedly. The step at the Collected walk is shorter than the Working walk and shows greater activity.
  - b. Working Walk. Four-beat, active, energetic walk with resolutely forward-reaching steps and confident stretch to the bit. Head and neck should swing naturally as a result of a relaxed back and free shoulders. The nose shall be on or slightly in front of the vertical. The hind feet should touch the ground into or beyond the prints of the forefeet.
  - c. Free Walk. A relaxed walk with unconstrained, forward reaching steps where hind feet touch the ground in or in front of the footprints of the forefeet. The horse must be relaxed and be allowed complete freedom to lower its head and neck to stretch forward and down and out. The length of stride, rhythm, the relaxation and swing through its back are of great importance.
  - d. Extended Walk: The horse demonstrates optimum ground cover, a lengthened frame and reach to the contact without sacrificing regularity, suppleness of the back and an open frame. Without hurrying, the horse exhibits balance, freedom and over track.

### **WD104 The Jog**

1. The jog is a two-beat gait of alternate diagonal legs (left fore and right hind leg and vice versa) separated by a moment of suspension.
2. The jog should show free, active and regular steps.
3. Excessive speed or slowness will be penalized.
4. The quality of the jog is judged by general impression, i.e., the regularity and elasticity of the steps, the cadence and impulsion in extension at all three paces. This quality originates from a supple back and well-engaged hindquarters, and by the ability to maintain the same rhythm and natural balance in all variations of the jog.
5. The following jogs are recognized: Collected jog, Working jog, Lengthening of Strides, and Free Jog.
  - a. Collected Jog. The horse, remaining "on the bit", moves forward in a two-beat gait with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position, and a light contact is maintained with the mouth. The hocks are well-engaged and flexed and must maintain an energetic impulsion, enabling the shoulders to move more freely. Although the horse's steps are shorter than in the other jogs, elasticity and cadence are not lessened. The Collected jog must be ridden seated.
  - b. Working Jog. An energetic, regular, two-beat jog; the horse must go forward with even and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs step actively up under the horse. The horse must show proper balance and maintain light

contact with the bit. The horse's nose shall be on or slightly in front of the vertical. In the Introductory, Basic and Level 1 tests, the Working jog may be ridden either posting or sitting. In more advanced tests from Level 2 up, the Working jog must be ridden seated.

- c. Lengthening of Strides. This is a variation of the Working jog; the horse covers more ground through lengthening its frame while maintaining the same tempo as in the Working jog. Excessive speed will be penalized. Lengthening of stride may be ridden either posting or sitting.
- d. Free Jog. This is a pace **that confirms a relaxed, supple topline to facilitate freedom and throughness.** Without hurrying, the horse **jogs** forward in a two-beat gait **while stretching downward and forward over the back showing a willingness to reach towards a soft elastic connection.** Balance, **bend**, tempo, and regularity **should be maintained as the horse shows increased swing through the back.** There should be a smooth willing retake of the reins in transition to the working jog. The free jog may be ridden posting or sitting.

*BOD 06/17/24 Effective 12/01/24*

## **WD105 The Lope**

1. The lope is a gait with three equal, regular beats with time of suspension after the third beat. One stride equals three beats, or three footfalls. This gait may be demonstrated on right or left lead. Footfall sequence in right lead is: left hind, right hind and left fore together, right fore, then suspension. Footfall sequence in left lead: right hind, left hind and right fore together, left fore, then suspension.
2. The lope has a typically slower tempo than a canter and must keep the three beat rhythm or the regularity is lost. Excessive speed or slowness must be penalized.
3. The correct lope must be balanced, rhythmic, and with three beats with a clear time of suspension; it must be straight, adjustable and supple, showing willingness to move forward in self-carriage with engaged hindquarters.
4. The quality of the lope is judged by the general impression, i.e., the regularity and lightness of the steps. The uphill tendency of the forehand and the steady cadence, originating from engagement of the hindquarters transmit the energy from back to front and connect into a willing acceptance of the bridle. The horse's mouth is quiet and its poll is soft. The horse should always remain straight on straight lines and correctly bent on curved lines.
5. The following lopes are recognized: Collected lope, Working lope, Lengthening of Strides, and Counter Lope.
  - a. Collected Lope. The horse, remaining "on the bit", moves forward in a three-beat cadence with the neck raised and arched. The hocks are well-engaged and maintain an energetic impulsion, enabling the shoulders to move more freely, demonstrating self-carriage and an uphill tendency. The horse's strides are shorter than in the other lopes, without losing elasticity and cadence.
  - b. Working Lope. While maintaining the three beat cadence, the horse must go forward with even and elastic steps. The back must be relaxed and the shoulders free; there is an obvious push from the hindquarters and the hind legs step actively up under the horse. The horse must maintain light contact with the bit and its nose shall be on or slightly in front of the vertical.
  - c. Lengthening of Strides. This is a variation of the Working lope; the horse covers more ground through lengthening its frame while maintaining the same tempo as in the Working lope. Excessive speed will be penalized.
  - d. Counter-lope. The counter lope is a balancing and straightening movement. The horse appears to be cantering on the incorrect lead to the direction of travel. The horse lopes in a correct sequence to the left on the right lead; the horse lopes to the right in a correct sequence on the left lead.
6. Change of lead through the Jog. This is a change of lead where the horse is brought back into the jog and after 2-3 strides, strikes off into a lope with the other leg leading.
7. Change of lead through the Walk. This is a movement in which, after a direct transition out of the lope into a walk, with 3-5 clearly defined steps at the walk, an immediate transition is made into the other lead. This is considered a Simple Lead Change when done through the walk.
8. Flying change of lead. The flying change of lead will ideally begin with the sequence of the new outside hind leg, the diagonal pair and followed by the new leading front leg. The change of lead of the hind and front leg

take place immediately after the moment of suspension without a break of gait. The aids should be precise and unobtrusive. Flying changes of lead can also be executed in series. For example, flying changes can be performed at every 4th, 3rd, 2nd or at every stride. The horse, even in the series, remains light, calm and straight with lively impulsion, maintaining the same rhythm and balance. In order to not restrict or restrain the lightness, fluency and groundcover of the flying changes in series, enough impulsion and forwardness must be maintained. The flying lead changes show the reaction, sensitivity and obedience of the horse to the aids.

9. Gaited horses perform the lope.

## **WD106 Saddle Gait**

The saddle gait has a noticeable increase in cadence from the working walk. Excessive speed or slowness will be penalized.

1. In lieu of a jog, gaited horses perform gaits of various rhythms and footfalls. The gaited horse will perform a saddle gait in place of the jog.
2. The saddle gait is a four beat gait that is timely and consistently performed. The tempo, rhythm and foot falls of the gait the rider chooses to perform must not change throughout the test. The gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test specifies.
3. The quality of the saddle gait is judged by general impression, i.e. the regularity and rhythm of the steps, the cadence and impulsion. This quality originates from the horse having a supple back and well engaged hind quarters, and the ability to maintain the same rhythm and natural balance in all variations of the saddle gait.
  - a. Collected Saddle Gait. The horse, remaining “on the bit”, moves forward with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hocks are well-engaged and must maintain an energetic gliding impulsion, enabling the shoulders to move more freely. Although the horse’s steps are shorter than in the other saddle gaits, elasticity and cadence are not lessened.
  - b. Working Saddle Gait. With an energetic, regular consistent rhythm; the horse must go forward with consistent and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs actively glide under the horse. The horse must show proper balance and maintain light contact with the bit. The horse’s nose must be on or slightly in front of the vertical.
  - c. Lengthening of Stride. This is a variation of the Working saddle gait; the horse covers more ground while maintaining the same tempo, consistent rhythm as in the Working saddle gait. Speeding up is a fault.
  - d. Free Saddle Gait. This is a gait that confirms a relaxed, supple topline to facilitate freedom and throughness. Without hurrying, the horse moves forward in a clear Saddle Gait while stretching downward and forward over the back showing a willingness to reach towards a soft elastic connection. Balance, bend, tempo, and regularity should be maintained as the horse shows increased swing through the back. There should be a smooth willing retake of the reins in transition to the working saddle gait.

## **WD107 The Back**

1. Back is a rearward diagonal movement with a two-beat rhythm but without a moment of suspension. Each diagonal pair of legs is raised and returned to the ground alternately, with the forelegs aligned on the same track as the hind legs.
2. During the entire exercise, the horse should remain “on the bit”, maintaining its desire to move forward at the slightest indication of the rider.
3. Serious faults are: Anticipation of the movement, resistance to or evasion of the contact of the bit either by raising the neck or going behind the bit, deviation of the hindquarters from the straight line, spreading or inactive hind legs and dragging forefeet.

4. Steps are counted as each foreleg moves back. After completing the required number of steps backward, the horse should show a square stop or move forward in the required gait immediately. In tests where a back of one horse's length is required, it should be executed with three or four steps.
5. A back series is a combination of two backs with walk steps in between. It should be executed with fluent transitions and the required number of steps.

## **WD108 Faults**

Faults of gaits include crookedness, loss of rhythm; tight and tense back with short stiff neck; horse on forehand and/or leaning on the bit; nose consistently behind the vertical; raising of the head to avoid collection; changing tempo; and evasion of contact which can come from improper training, too harsh a bit, or bad hands. In all cases faults will be penalized.

## **SUBCHAPTER WD-3 ADDITIONAL MOVEMENTS AND METHODS**

### **WD109 The Halt**

1. At the halt the horse should stand attentive, engaged motionless, straight and square with the weight evenly distributed over all four legs. The neck should be raised with the poll as the highest point and the head slightly in front of the vertical. While remaining "on the bit" and maintaining a light and soft contact with the rider's hand, the horse may quietly mouth the bit and should be ready to move off at the slightest indication of the rider.
2. The halt is obtained by the displacement of the horse's weight to the hindquarters by a properly increased action of the seat and legs of the rider, driving the horse towards a soft hand, causing an almost instantaneous but not abrupt stop at a previously fixed place.
3. The quality of the gaits before and after the stop is an important part of the assessment.

### **WD110 Transitions**

1. The changes of gait and pace should be clearly shown when the rider's leg is at the prescribed marker; they should be quickly made yet must be smooth and not abrupt. The cadence of a gait or pace should be maintained up to the moment when the gait or pace is changed or the horse halts. The horse should remain light in hand, calm and maintain a correct position.
2. In transitions where the horse approaches the letter from a line on the diagonal or perpendicular to the point where the letter is positioned, the transition must be done when the horse's nose reaches the track at the letter so that the horse is straight in the transition. This includes the execution of flying changes.

### **WD111 Changes of Direction**

1. At changes of direction, the horse should adjust the bend of its body to the curvature of the line it follows, remaining supple and following the aids of the rider, without any resistance or change of gait, rhythm or speed. Corners should be ridden as one-quarter of a circle appropriate to the level of the test.
2. Changes of directions can be executed in the following ways:
  - a. Right-angled turn including riding through the corner (one quarter of a small circle of approximately 6 meters). Short and long diagonal.
  - b. Half small circles and half small circles with change of rein.
  - c. WD Turn on the forehand and WD Turn on the haunches.
  - d. Serpentine loops.
  - e. Counter-changes of hand (in zig-zag). The horse should be straight for a moment before changing direction.

## WD112 Figures and Exercises

1. The figures asked for in Western Dressage tests are: the circles, the serpentines and the figure eights.
  - a. Circle. The circle is a round figure which varies in size according to the requirements of each test. The diameter of a circle is specified in each test.
  - b. Serpentine. There are three variations:
    1. The serpentine with several loops touching the long side of the arena consists of equal half circles connected by a straight line. When crossing the centerline, the horse should be parallel to the short side.
    2. Depending upon the size of the half circles, the straight connection varies in length. The serpentine with one loop on the long side of the arena is executed with 5-meter or 10-meter distance from the track.
    3. The Serpentine around the centerline is executed between the quarter line

- c. Figure eight. This figure consists of two circles of equal size as specified in the test, joined at the center of the eight. The rider should make their horse straight an instant before changing direction at the center of the figure.
2. The Exercises.
  - a. Stretching Through the Frame. The horse gradually takes the reins, stretching forward and downward with light contact, while maintaining balance, rhythm and tempo and quality of the gait. Important: The horse must point its nose clearly forward. This is a clear release of contact while the horse maintains self-carriage, rhythm, tempo, straightness, and quality of gait.
  - b. Release of Rein. This is a clear release of contact while the horse maintains self-carriage, rhythm, tempo, straightness, and quality of gait. The rider lets their hand(s) move forward from the elbow.

## WD113 Work on Two Tracks and the Lateral Movements

1. The aim of movements on Two Tracks is:
  - a. To improve the obedience of the horse to the aids of the rider;
  - b. To supple all parts of the horse thereby increasing the freedom of its shoulders and the suppleness of its quarters as well as the elasticity of the bond connecting the mouth, the poll, the neck, the back and the haunches;
  - c. To improve the balance, cadence and straightness and bring the gaits into harmony.
2. In all lateral movements - shoulder in, counter shoulder in, haunches in, haunches out, half-pass - the horse is slightly bent and moves with the forehand and the hindquarters on different tracks.

- a. Lateral movements are the beginning of collection
- b. The bend or flexion must never be exaggerated so that it impairs the balance and fluency of the movement concerned.
- c. At the lateral movements the gait should remain free and regular, maintained by a constant impulsion and forwardness, yet it must be supple, cadenced and balanced. The impulsion should not be lost because of the rider's preoccupation mainly in bending the horse and pushing it sideways. The horse should maintain rhythm and not lose impulsion.
- d. Shoulder-In. The exercise is performed in collected jog. The horse is ridden with a slight but uniform bend around the inside leg of the rider maintaining cadence at a constant angle of approximately 30 degrees. The horse's inside foreleg passes in front of the outside foreleg; the inside hind leg steps forward under the horse's body weight following the same track of the outside foreleg, while lowering the inside hip. The horse's footfall creates three tracks. The horse is bent away from the direction in which it is moving.
- e. Haunches-In. The horse is slightly bent round the inside leg of the rider. The forehand remains on the track and the quarters are moved inwards. The horse is bent in the direction in which it is moving. To start the haunches-in, the hindquarters should leave the track or, after a corner or circle, are not brought back onto the track. At the end of the haunches-in, the hindquarters are brought back on the track as one would finish a circle, without any counter-flexion of the poll/ neck. The horse's footfall creates four tracks.
- f. Renvers (Haunches-Out). This is the inverse movement in relation to haunches-in. The hindquarters remain on the track while the forehand is moved inward. To finish the haunches-out, the forehand is aligned with the hindquarters on the track. Otherwise, the same principles and conditions that apply to the haunches-in are applicable to the haunches-out. The horse is slightly bent around the rider's inside leg. The horse is bent in the direction in which it is moving. The forehand is displaced to the inside. Balance and cadence are maintained.
- g. Half-pass. This movement is a variation of haunches-in, executed on a diagonal line instead of along the wall. The horse should be slightly bent around the inside leg of the rider and into the direction in which it is moving. The horse should maintain the same cadence and balance throughout the whole movement. In order to give more freedom and mobility to the shoulders, it is of great importance that the impulsion be maintained, especially the engagement of the inside hind leg. The horse's body is nearly parallel to the long side of the arena with the forehand slightly in advance of the hindquarters. The bend in the half-pass should increase with the steepness of the diagonal.
  - 1. In the jog and the lope, the movement is performed in a series of forward/sideways strides. Aims of the half-pass in the jog and the lope: Show a fluent collected movement on a diagonal line with a greater degree of bend than in shoulder-in. Fore and hind legs cross, balance and cadence are maintained.
  - 2. The aims of the half-pass: to both demonstrate and develop the collection and suppleness by moving fluently forwards and sideways without any loss of rhythm, balance or softness and willing cooperation to the bend.
- h. Leg yield. Leg yielding is not a lateral movement. The horse is almost straight, except for a slight flexion at the poll away from the direction in which it moves, so that the rider is just able to see the corner of the eye and nostril on the inside. The inside legs pass and cross in front of the outside legs. Leg-yielding can be performed on the diagonal in which case the horse should be as close as possible parallel to the long sides of the arena although the forehand should be slightly in advance of the hindquarters. The leg yield can also be ridden along the wall with approximately a 35 degree angle.
- i. Sidepass. The side pass is a lateral maneuver performed from a halt in which a horse crosses its fore and hind legs to move directly sideways. The horse's body should stay straight and square or flexed slightly in the direction of travel. The horse should remain supple while yielding softly and willingly to subtle aids. When a horse sidepasses, it should be crossing its legs evenly with balance and a consistent walk tempo. In a sidepass to the right, the left front and left hind should cross in front of the respective right front and right hind legs. Loss of balance, counter bending, hesitation, crookedness and outside legs crossing behind inside legs or not crossing are faults.

## **WD114 WD Turn on the Haunches; Pivot; WD Turn on the Forehand**

1. WD Turn on the Haunches
  - a. The WD Turn on the haunches is executed out of a working walk prepared by half halts to shorten the steps. During the movement the forefeet and the outside hind foot move around the inside hind foot. The WD Turn on the haunches can be performed on a larger diameter than the pivot. This movement is executed at Level 1 and Level 2. Riders may choose to pivot or WD Turn on the haunches. Switching from one method to the other within the same movement will be penalized. At Level 3 and above, only the pivot may be performed.
  - b. For younger horses that are still not able to perform a collected walk, the 'WD Turn on the haunches' is an exercise to prepare the horse for collection. The 'WD Turn on the haunches' is executed out of working walk prepared by half-halts to shorten the steps a little and to improve the ability to bend the joints of the hindquarters.
  - c. The horse must bend a little in its ribcage around the rider's inside leg. The 'WD Turn on the haunches' can be executed on a larger diameter (approximately one meter) than the pivot in walk, but the demands of the training scale concerning rhythm, contact, activity and bend are the same.
2. Pivot

In keeping with traditional Western Stock horse movements, the horse pivots on the inside hind leg and step around it with the outside hind leg. The horse pushes off with the outside hind leg. The pivot leg is allowed to pickup and reset when it reaches the point of stress. The horse should maintain correct bend and balance and respond to the rider's leg. A pivot should begin at a walk tempo with forward intention, building speed moderately while maintaining form and fluidity. Pivoting around the middle axis of the horse should receive a marginal to insufficient score of 5 or lower. It is not a fault to step forward 1-2 steps into the pivot.
3. WD Turn on the Forehand. It is executed out of a halt or a working walk prepared by half-halts to shorten the steps.
  - a. The horse's hindquarters make a circle around the horse's front end. To achieve this, the inside hind leg should cross in front of the outside hind leg considering that the inside is the side the horse is flexed towards.
  - b. The purpose of this exercise is to supple the horse and teach it to yield to the rider's leg.
  - c. WD Turn on the forehand right - the horse is slightly flexed at the poll to the right, when the haunches move to the left yielding to the riders right leg and the right rear hoof crosses in front of the left rear hoof.
  - d. WD Turn on the forehand left the horse is slightly flexed at the poll to the left when the haunches move to the right yielding to the rider's left leg and the left rear hoof crosses in front of the right rear hoof.

The horse must maintain the same rhythm, tempo, contact and activity and show willingness to be on the outside rein. Stepping back is a fault.

## **WD115 Pirouette, Half Pirouette, and Quarter Pirouette at the Lope**

1. The lope pirouette is a circle or part of a circle executed on two tracks with the forehand moving around the haunches. The haunches are lowered to afford the lightness required to maintain the proper lope sequence throughout. The horse is slightly bent in the direction of the turn and lightly on the bit. The quality of the pirouette is further demonstrated by the relatively small size of the turn, suppleness, balance, fluidity and maintenance of forward intention.
2. Quarter Pirouette: the quarter pirouette is a preliminary exercise to prepare the horse for half and full pirouettes. While the demands of a smaller figure of a quarter turn consisting of 2-3 strides are less, the same criteria for full pirouettes apply.
3. The strength and balance required for the pirouette is further demonstrated by the ability to perform the half-pirouette, full pirouette and sequences of multiple pirouettes. Impulsion, willingness to carry and engagement behind in the pirouette create a highly collected lope while maintaining a calm, confident demeanor which is the hallmark of the Western Dressage horse.

## **SUBCHAPTER WD-4 COLLECTION, WILLING COOPERATION, IMPULSION, AIDS**

### **WD116 Collection**

1. Collection is achieved by increased weight bearing of the horse's haunches, thereby lowering the croup and lightening the forehand to allow the shoulders more freedom.
2. The aim of the collection of the horse is to add to the ease and carriage of the horse, to increase the strength and athleticism, and to make it more pleasurable to ride.
3. Horses ridden with the face consistently behind the vertical plane must be penalized.
4. The position of the head and neck of a horse at the collected gaits is naturally dependent on the stage of training and on its conformation. It should, however, be distinguished by the neck being raised and unrestrained, forming a harmonious curve from the withers to the poll which is the highest point. The head is on or slightly in front of the vertical. However, when the rider applies their aids in order to obtain a momentary and passing collecting effect, the head may momentarily become more or less vertical.
5. The lightness of contact, which is the hallmark of Western Dressage, shall be demonstrated in collection.
6. A marked lowering of the horse's pelvis and an increased flexion of the hocks should be demonstrated. This is also called "coiling of the loins".

### **WD117 Impulsion**

1. Impulsion is the term used to describe the transmission of an eager and energetic, yet controlled, positive forward energy generated from the hindquarters into the athletic movement of the horse. Its ultimate expression can be shown only through the horse's soft, relaxed, swinging back guided by a light, elastic contact with the rider's hand.
2. Speed, of itself, has nothing to do with impulsion; the result is more often a flattening of the gaits. A visible characteristic of impulsion is a more pronounced articulation of the hind leg, in a continuous rather than staccato action. The hock, as the hind foot leaves the ground, should first move forward rather than being pulled upwards and certainly not backwards. A prime ingredient of impulsion is the time the horse spends in the air rather than on the ground. Impulsion is, therefore, seen only in those gaits that have a period of suspension.
3. Impulsion is required for a good collection in the jog and lope. If there is no impulsion, then there is nothing to collect.

### **WD118 Willing Cooperation and Harmony**

1. Willing cooperation of the horse does not mean subordination, but an obedience revealing its presence by a constant attention, willingness, and confidence in the whole behavior of the horse as well as by the harmony, lightness and ease it is displaying in the execution of the different movements. Willing cooperation is also demonstrated by the way the horse accepts the bit, with light contact and a supple poll. Resistance to or evasion of the contact, by being either "above the bit" or "behind the bit" demonstrate lack of willing cooperation.
  - a. Putting out the tongue, keeping it above the bit or drawing it up altogether, as well as grinding the teeth or agitation of the tail, are mostly signs of nervousness, tension or resistance on the part of the horse and must be taken into account by the judges in their marks for every movement concerned, as well as in the collective mark for harmony.
  - b. Willingness is the most important consideration when evaluating obedience. The horse understands what is being asked of it and is confident in the rider by responding to the aids without fear or tension.
  - c. The horse's straightness, uphill tendency and balance enable it to stay in front of the rider's legs and go forward into an accepting, light and self-carrying contact with the bit. This is what really produces the picture of harmony and lightness.
  - d. Harmony between the horse and rider is demonstrated by the horse and rider moving as "one". The rider uses tactful cues; the horse performs without resistance, agitation or wariness. The horse shows attention

and confidence in its ease of movements and acceptance of the bit while staying up in the poll and keeping its nose in front of the vertical. The degree of lightness increases as the horse advances in its training.

## **WD119 Position and Aids of the Rider**

1. All the Western Dressage movements should be obtained with imperceptible aids and without apparent effort of the rider. The rider should be well-balanced, elastic, sitting deep in the center of the saddle, smoothly absorbing the movement of the horse with their core muscles, supple thighs with the legs steady and stretched well down. The heels should be the lowest point with the ankles relatively relaxed. The upper part of the body should be tall and supple demonstrating a vertical alignment of shoulder to hip to heel. The light contact of the rider's hands should be independent from the rider's seat. The hands should be carried steadily in a style appropriate to the style of rein and bit being used with a straight line from the supple elbow through the hand to the horse's mouth. The elbows should be close to the body. All of these criteria enable the rider to follow the movements of the horse smoothly and freely.
2. The rider may use one or two hands with a curb bit but may not go from one handed to two handed during an individual test. The rider may use one or two hands with a curb bit and split reins, but with a Romel, the rider is to only use one hand.
3. Not only the aids of the rider's hands and the legs, but also of the seat are of great importance in Western Dressage. The rider who understands how to properly engage the core muscles at the right moment is able to influence the horse correctly.
4. Accuracy: precise placement of the figures and transitions, the effectiveness of the rider's aids determines the accurate fulfillment of the test. There should always be the impression of a harmonious cooperation between horse and rider.
5. Quiet use of the voice and clicking of the tongue is permitted.

## **SUBCHAPTER WD-5 APPOINTMENTS**

### **WD120 General**

1. At Federation Licensed Competitions, the C2 Steward or the person who is under the direction of the Steward and appointed by the competition management will be responsible for overseeing the checking of the horse, tack, and attire. A horse must be eliminated from the test just completed if the horse or any tack and/or attire are in violation of the rules and/or the tongue has been tied. C2 Stewards or Equipment Inspectors are only required to inspect bits and other appointments on a minimum of one-third of the horses in a class. (See WD124)

### **WD121 Tack**

1. Bridles:
  - a. Any Western type headstall must be used.
  - b. A cavesson (braided or plain), or pencil bosal with space for two fingers placed between the cavesson and the jowl of the horse is allowed. The inside of the noseband must be smooth and free of any metal, other than the buckle.
  - c. A Hackamore (Bosal) is permitted on a horse of any age at any level. A hackamore includes a bosal rounded in shape and constructed of braided rawhide or leather and must have a flexible non-metallic core, attached to a suitable headstall. No other material of any kind is to be used in conjunction with the bosal, i.e. steel, metal or chains. Bosals may be wrapped with smooth electrical tape to prevent rubbing.
  - d. The Western Two Rein bridle is permitted. This is a bridle and bit, snaffle or curb ridden over a full or pencil bosal or bosalita. The following are acceptable ways to hold the reins when using a Two Rein bridle:

1. The two Rein with Snaffle Bit: The two rein with snaffle consists of a snaffle bit and a pencil or full bosal or bosalita. When using a snaffle the rider must ride with two hands whether using a loop rein or split reins. The rider will hold a bosal rein (mecate) and a snaffle rein in each hand.
2. The two Rein with Curb Bit: The rider has the following choices:
  - a. Split Reins: When using a curb bit with Split reins and a pencil bosal or bosalita, the rider can ride with all reins in one hand but can only have one finger between the reins or the rider can ride with a bit rein and a bosal rein in the left hand and a bit rein and bosal rein in the right hand.
  - b. Romal Reins: When using a curb bit with Romal Reins and a pencil bosal or bosalita the rider has two options:
    1. A romal must be held with one hand with the romal coming up from the bottom and out of the top of the hand. The bosal rein can then be held in the opposite hand.
    2. A romal and bosal may be ridden in one hand, the reins coming up from the bottom of the hand and out of the top. No fingers can be between the reins.

Note: When using a curb bit as part of the Western two rein bridle, only a pencil bosal or bosalita can be used, not a full bosal.

The end of the mecate called the tail, can be wrapped around the saddle horn or slipped under the rider's belt.

2. Snaffle Bit:
  - a. A snaffle bit may be used on a horse of any age being ridden at any level.
  - b. A snaffle offers no leverage or curb action.
  - c. A Western Dee bit.
  - d. A standard snaffle is a conventional O-Ring, Egg Butt, Full Cheek (keepers optional) or D-Ring, all with rings having an outside diameter no smaller than 2 inches (50.8 mm), nor larger than 4 inches (101.6 mm). The inside of the circumference of the ring must be free of rein, curb or headstall attachments that would provide leverage.
    1. Bars: Bars of the mouthpiece must be round, oval or egg shaped, smooth and unwrapped, except with **smooth, non-abrasive, self-fusing bit wrap**; and no less than 5/16 inch (7.9 mm) to ¾ inch (19.05 mm) in diameter measured one inch (25 mm) from the cheek and may be inlaid, if smooth.
      - a. **Electrical tape, duct tape, medical tape, etc. is not self-fusing, therefore, not allowed.**
    2. Three-Piece Mouthpiece: If a mouthpiece is three pieces, a connecting ring must be no larger than 1 ¼ inches (31.75 mm) in diameter, or a connecting piece must be no longer than 2 inches (50.8 mm) and 3/8 inch (9.5 mm) to ¾ inch (19.05 mm), measured top-to-bottom.
  - e. Any solid mouthpiece or barrel mouthpiece may be used.
  - f. If a bit hobble is used on a ring snaffle it must be attached below the reins.
  - g. No flat, sharp, slow twist, twisted, or pointed edges on mouthpieces are allowed.
3. Curb Bit: There is no discrimination against any standard Western bit.
  - a. A standard Western bit is defined as having a shank with a maximum length overall of 8 1/2" (215.9 mm). The mouthpiece will consist of a metal bar 5/16" (7.9 mm) to 3/4" (19.05 mm) in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or wrapped **with smooth, non-abrasive, self-fusing bit wrap. Electrical tape, duct tape, medical tape, etc. is not self-fusing, therefore, not allowed.** (The bars may be encased in smooth 5/16" (7.9 mm) to 3/4" (19.05 mm) in diameter tubular barrels that rotate around the bars). Nothing may protrude above or below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three-piece mouthpiece may include a connecting ring of 1 ¼ inch (31.75 mm) or less in diameter or a connecting flat bar of 3/8 to ¾ inch (9.5mm – 19.05 mm) measured top to bottom with a maximum length of 2" (50 mm), which lies flat in the mouth, or a roller or port as described herein. The port must be no higher than 3 ½ inches (88.9 mm) maximum with roller(s) and covers acceptable. Jointed mouthpieces, half-breeds and spade bits are standard. Wire on the braces (above the bars and attaching to the spade) of a traditional spade bit is acceptable.
  - b. Reins must be attached to each shank.
  - c. Curb chains or straps are required with curb bits **and must be flexible.**

1. Must be flat and must be at least 1/2 inch (12.7 mm) in width and lie flat against the jaw of the horse.
  2. Curb chain may have leather or nylon adjustable straps connecting the buckle to the chain.
  3. No wire, rawhide, metal other substance, or wrapping can be used in conjunction with or as part of the flat leather chin strap or curb chain.
  4. Round, rolled, braided or rawhide curb straps are prohibited.
  5. Leather curb straps may have up to 2 smooth, thin, metal, loop strap keepers.
- d. A slobber guard on a curb bit is permitted. Rein chains with a spade bit are allowed.
4. Bitless Bridles:
- a. A bitless bridle is permitted on a horse of any age at any level.
  - b. All bitless bridles must be of Western style made of flat leather or leather like materials.
  - c. Cross under bitless bridle - a simple and subtle two loop system, one over the poll and one over the nose that embraces the whole of the head, see figure a. and b. No other variations are permissible.

- d. Bitless bridles with sidepulls are prohibited.
5. Reins:
- a. When the rider uses a snaffle bit, the following reins may be used: loop/connected reins, split reins, buckled reins, mecate reins, or Romal reins without a popper; two hands must be used with any of these combinations. Horsehair, rope reins and mecate reins are allowed for bosals and snaffles. The mecate tail can be tied to the saddle horn, held by the rider, or looped in the rider's belt.
  - b. When the rider uses a curb, the following reins may be used: Romal reins, Split reins, loop/connected reins, buckled reins or Romal reins without a popper. When using a curb with Romal reins with a popper, only one hand is allowed; when using other rein choices, one or two hands are allowed.
  - c. Hand position on reins:
    1. In the case of Romal reins, the Romal is held in one hand with no fingers between the individual reins. The end of the Romal may be held in the hand not used for reining to keep the Romal from swinging and to adjust the position of the rein. The reins must be held so that there is at least 16" of rein between the hands.
    2. In the case of when split reins are held in one or two hands, the rider may not switch back and forth during a test. When the split reins are held in one hand, there are two ways that the rider may use them. The rider may put one finger between the split reins; the ends of the reins fall on the side of the reining hand. The rider may hold both reins in one hand without a finger between the reins; the hand must be around the reins. The ends of the Split reins may be held in the hand not used for reining to keep them from swinging and to adjust the position of the reins. No finger is allowed between the reins. The reins must be held so that there is at least 16" of rein between the hands.

3. In the case of looped/connected reins, buckled reins, or Romal reins without a popper, the reins are held in one or two hands; the rider must not switch back and forth during a test. (Exception: Freestyle).
- d. At the end of the Free Walk or Free Jog, riders using split reins held in one hand may use the free or offhand to pull the reins back to the desired length. Riders using Romal reins may use the hand holding the popper to alter the tension or length of the reins from the bridle to the reining hand.
6. Saddle:
 

A standard American Western stock saddle with swells, a seat, cantle, skirt, fenders, and Western stirrups is required. A working Western side saddle is also acceptable.

  - a. Optional and permitted features may include:
    1. Horn
    2. Padding or pads on the seat of saddle
    3. Bucking rolls
    4. Tapaderos, except in Western Dressage Equitation
  - b. The following features and style of saddles are not permitted:
    1. Thigh & knee rolls
    2. Saddles: Australian, Baroque, English, McClellan and Spanish
  - c. Silver equipment will not count over a good working outfit.
  - d. A breastplate, crupper, and/or breeching may be used.
7. Protective "polo" style leg wraps are permitted, either white or a color closely matching the natural color of the horse as much as possible. Bright colors should be avoided.
8. Fly hoods (ear covers) should be discreet in color and design and should not cover the horse's eyes.
9. Whip: One whip no longer than 47.2 inches (120cm) including lash, is permitted in all Classes/Tests.

*BOD 06/17/24 Effective 12/01/24*

All curb bits must be free of mechanical devices. Nothing such as extensions, rivets or prongs, may protrude below the mouthpiece (bars). Prohibited bits may include but are not limited to:

  - a. Slip or gag bits, half cheeks, snaffle bits with hooks and slots, donut or flat polo mouthpieces and kimberwicks.
  - b. Roping bits with reins attached to a single ring at the center of a cross bar.

## **SUBCHAPTER WD-6 OFFICIALS**

### **WD124 Judges and Stewards**

1. Western Dressage classes offered at Federation licensed competitions must be judged by a Federation licensed Western Dressage judge in good standing. Any judge officiating Western Dressage classes at a Federation licensed competition must be a current member in good standing with the Western Dressage Association of America.

Exception:

  - a. For Western Dressage Suitability, Western Dressage Hack and Western Dressage Seat Equitation, judged as a group on the rail with the option of individual work rather than as an individual performance, a judge must be a Federation licensed judge in the appropriate breed(s) or a Federation Licensed Western Dressage judge.
  - b. Opportunity Classes must be judged by a Federation licensed judge or an individual who has been issued a Guest Card. Conflict of interest rules in GR1040 apply. See GR1004.
2. For additional restrictions see GR1007 - GR1011.
3. C2 Stewards. A Federation Licensed Competition that offers Western Dressage tests/classes may use either a Federation licensed Category 2 Steward or an inspector designated by show management and under the

direction of the C2 Steward. Tack and bits on both sides of the horse of a minimum of one-third (1/3) of the horses in each class/test must be inspected.

- a. Once the exhibitor leaves the arena, the exhibitor must remain mounted until they reach the C2 Steward or equipment inspector. At that time, the exhibitor will dismount for the equipment inspection. Competitors will be asked to drop the bridle of the horse, removing the bit to below the mouth of the horse. A metal detector and/or magnet may be used to detect the presence of the metal in nosebands. Random pulling of leg wraps will also occur at this time. See also WD120.
- b. Any evidence of blood on the horse's mouth or sides or the addition of substances or devices behind wraps or boots will result in elimination of the entry for that class/test.
- c. The checking of the bridle must be done with the greatest caution, as some horses are very touchy and sensitive about their mouths.
- d. New disposable gloves must be available for and used by bit inspectors if a mouthpiece must be handled by the inspector.
- e. The responsibility for the correct attire and equipment rests with the competitor.

## **SUBCHAPTER WD-7 COMPETITION REQUIREMENTS**

### **WD125 Warm Up Ring and Training Area**

1. The restrictions regarding Prohibited Equipment (see WD122) apply to warm-up and other training areas; however, training martingales (only with snaffle rein or plain snaffle bridle), boots, bandages (without magnets) and earmuffs are permitted. A training martingale consists of a divided strap attached to the girth that does not provide downward pull; the extension of each strap must be connected from the point of division only to the rein on the same side and must be free to slide. The rings through which the reins slide must be connected to a neck strap.
2. Fly hoods (ear covers) that do not cover the horse's eyes are permitted in warm-up and other training areas.
3. Single direct side reins or double sliding reins (triangle reins) are permitted only when longeing (mounted or unmounted). A single direct side rein is defined as an auxiliary rein affixed to the bit and to the girth, saddle or surcingle on the side of the horse (not between the legs).
4. Only one longe line is permitted while longeing in a group setting, two lines are permitted when the horse is being longed alone. A longe line must attach only to the halter, cavesson or snaffle bit of a bridle and go directly to the hand of the longeur.
5. **Only the** following whips are permitted for schooling:
  - a. One whip no longer than 47.2 inches (120 cm), including lash, may be carried by the rider when mounted.
  - b. There is no restriction on the length of whip permitted for working a horse in hand.
  - c. **One longeing whip is permitted only while longeing.**  
**BOD 06/17/24 Effective 12/01/24**

### **WD126 Execution and Judging of Tests**

1. Calling Tests. Western Dressage Tests may be called during the competition. If a test is announced, it is the responsibility of the competitor to arrange for a person to announce the test. Unless an exception is made by the judge, the announcing of the test must start with the first movement. Lateness and errors in announcing the ride will not relieve the rider from "error penalties". Announcing the tests is limited to reading the movement as it is written once only. However, the repetition of reading of a movement is acceptable if there is reason to doubt that the rider heard the original call. For riders exhibiting gaited horses, the announcer may substitute "saddle gait" or the name of the equivalent gait where the test requires a jog.
  - a. All Freestyle Rides must be ridden from memory.
2. Salute. At the salute riders must take the reins in one hand. A lady rider shall let one arm drop loosely along her body and then incline her head in a slight bow; a gentleman rider shall remove his hat and let his arm drop loosely along his body or may render the salute as does a lady rider.
3. Voice. The quiet use of the voice or clicking the tongue once or repeatedly is permitted.

4. Touch. Petting the horse is allowed during the test as a gentle reward.
5. Corners of the Dressage Arena: A rider should ride their horse as deeply as possible into the corners of the Dressage Arena while maintaining impulsion, balance, bend and rhythm.
6. Errors.
  - a. When a competitor makes an “error of the course” (takes the wrong turn, omits a movement, etc.) the Judge warns them by sounding the bell. The Judge shows them if necessary, the point at which the competitor must take up the test again and the next movement to be executed then leaves them to continue by themselves. If the same error is made when the competitor takes up the test again, only one error is recorded.
  - b. Switching from one hand to two hands or vice versa during a test is considered an “error of course”. From time to time an unsafe situation may arise that requires a rider to switch from one hand to two hands, or vice versa, at the discretion of the judge, this may be done without penalty so long as there is no unfair advantage given to the rider.
  - c. Every “error of the course” whether the bell is sounded or not, must be penalized, as noted above:
    1. The first time by 2 points
    2. The second time by 4 points;
    3. The third time the competitor is eliminated. However, at the discretion of the judge, the rider may continue to finish the test. If the competitor’s continued presence in the ring is about to interfere with the start of the next scheduled ride, then the judge must excuse them from the ring.
    4. When the competitor makes an “error of the test” (at the salute does not take the reins in one hand, etc.) they must be penalized as for an “error of the course”.
    5. If the judge has not noted an error the competitor has the benefit of the doubt.
    6. The penalty points are deducted on each judge’s sheet from the total earned by the competitor.
7. Other Errors.
  - a. Entering the arena before the sound of the bell.
  - b. If the rider performs the collected jog rising when a sitting jog is required, the bell must be sounded and the rider warned that this is an error that accumulates if repeated, leading to elimination at the third occurrence.
8. Lameness. In the case of marked lameness the judge informs the competitor that they are eliminated. There is no appeal against this decision.
9. Judging a Test.
  - a. The mark for each movement should first establish the fact of whether the movement is marginal (5 or below) or higher. The judge should state the reason for their judgment, at least when giving marks of 6 and below.
  - b. If a problem appears once it may be treated lightly by the judge; if it appears successively, they will score it more harshly each time, i.e., nodding, stumbling, shying, etc.
  - c. Grinding of the teeth and excessive wringing of the tail are signs of tenseness or resistance on the part of the horse and should be considered in the marks for each movement where they appear, as well as in the Collective Marks. Horses demonstrating relaxed and free carriage of the tail shall be rewarded. Horses that get their tongues over the bit or perform with an open mouth shall be marked down.
  - d. The levels of Western Dressage are offered as a means of evaluating a horse that is changing and developing. The purpose of each test is printed on the cover. The horse shall be considered in light of the degree of training it should have achieved to be shown at that level.
  - e. In the case of a fall of horse and/or rider the competitor will be eliminated.
  - f. If the horse leaves the arena with or without the rider (all four feet outside the fence or line marking the arena perimeter) between the beginning and end of the test, the competitor is eliminated.
  - g. A test begins with the entry at “A” and ends after the final salute, as soon as the horse moves forward; except in Freestyle, where the test begins in the first stride after the salute and ends at the final salute. The competitor should leave the arena at “A” at a walk, on long or loose rein.
  - h. Horses, that enter the arena with their tongues tied down, shall be eliminated.

- i. The judge may stop a test and/or allow a competitor to restart a test from the beginning or from any appropriate point in the test if, in their discretion, some unusual circumstance has occurred to interrupt a test. Time-outs are not permitted in the Western Dressage division.
  - j. After the sound of the bell, the competitor should enter the arena at "A" as soon as possible. Exceeding 45 seconds before entering the arena after the bell has sounded will entail elimination. No competitor can be required to ride prior to their scheduled time without their written consent.
  - k. Any continuing resistance, which prevents the continuation of the test for longer than 20 seconds, is cause for elimination. However, resistance that may endanger the rider, horse, judge or the public will result in elimination for safety reasons earlier than within twenty (20) seconds.
  - l. All movements and certain transitions from one to another, which have to be marked by the judge, are numbered on the judge's sheets. They are marked 0 to 10, 0 being the lowest mark and 10 being the highest. Half marks from 0.5-9.5 may also be used both for movements and collective marks, at the discretion of the judge, and all scores given must be recorded with a decimal (i.e., as 6.0 instead of 6)
10. The scale of marks is as follows:

|    |              |   |               |
|----|--------------|---|---------------|
| 10 | Excellent    | 4 | Insufficient  |
| 9  | Very Good    | 3 | Fairly Bad    |
| 8  | Good         | 2 | Bad           |
| 7  | Fairly Good  | 1 | Very Bad      |
| 6  | Satisfactory | 0 | Not Executed* |
| 5  | Marginal     |   |               |

\* "Not executed" means practically none of the movement has been performed

11. Collective marks are awarded (from 0 to 10, including half marks) after the competitor has finished their performance for:
- a. Gaits: freedom and regularity; elasticity of steps.
  - b. Impulsion: engagement - transmission of an eager and energetic, yet controlled positive forward energy generated from the hindquarters into the athletic movement of the horse; suppleness of the back.
  - c. Rider's position, seat and hands: well-balanced elastic seat demonstrating vertical, centered alignment, with light independent contact from hand(s).
  - d. Rider's correct and effective use of aids: evidenced by the horse's responsiveness, steady elastic connection cultivating athletic expression. Accuracy - precise placement of the figures and transitions, the effectiveness of the rider's aids determines the accurate fulfillment of the required movements of the tests.
  - e. Harmony: The horse accepts the aids and influence of the rider with attention, relaxation, and confidence, and demonstrates a willing partnership between horse and rider resulting in a free flowing performance.
12. Unauthorized Assistance is forbidden under penalty of elimination. Any intervention by a third party with the object of facilitating the task of the competitor, including voice, signals, etc., is prohibited assistance. Except in the case of an error, any outside assistance provided by or not authorized by the Judge will result in elimination. A Judge may not discuss a ride with a competitor before the bell.
13. The execution of the tests is not timed, except for the Freestyle Test. The time shown on the Judge's sheet is for scheduling purposes only.
14. Time-Out: An exhibitor is not allowed to have a time-out in Western Dressage.

## **WD127 Scoring, Classification and Prize-Giving**

- 1. After each performance and after the judge has given their Collective Marks which must be done with due consideration, the judge's sheets pass into the hands of the scorers. Having two scorers is recommended. Scores and comments must be written in ink. It is recommended that adding machine tape is initialed and attached to the test. Any corrected score must be initialed by the judge having made the correction. The

marks are multiplied by the corresponding co-efficient where applicable and then totaled. Penalty points incurred for errors in the execution of the test are then deducted on each judge's sheet.

2. The total score for the classification is obtained by adding the total points. Total final results must be published in marks as well as in percentages with numbers to three places after the decimal point. Scores must be posted on a public scoreboard as soon as possible after each ride or within one hour. The public scoreboard may be in either paper or electronic format. The name of the judge must be posted, as well as the time of the posting.
3. Individual Classification. In all competitions the winner is the competitor having the highest total points. In the case of a tie, it is at competition management's discretion whether to break ties and it must be stated in the prize list. If ties are to be broken, the following process must be followed. Exception:AR278
  - a. The competitor with the highest scores for Collective Marks shall be declared the winner of the tie;
  - b. In the event a tie remains, the competitor with the highest Collective Mark scores by the judge sitting at C shall be declared the winner of the tie;
  - c. In the event a tie still remains, the competitor with the highest free walk score shall be declared the winner;
  - d. In the event there is a tie on the free walk, the competitor with the highest sum of scores with coefficients greater than one shall be declared the winner;
  - e. If a tie remains, the judge(s) must break the tie.
4. Final results for each class must be posted as soon as possible after the class is completed and all results must include total points and percentages with numbers to three places after the decimal point, eliminated horses, and the placing of each horse that receives an award. If a competitor withdraws (scratches) prior to a class or is excused, eliminated or a "no show" prior to or during the performance of a test, the words "scratched", "excused", "eliminated", or "no show" or abbreviations of each, must appear after the competitor's name in the result sheet. The published final results may be in paper or electronic format and must remain posted through-out the entire competition.
5. Video tape may not be used to dispute a judge's decision.
6. A judge is free to leave when all scores from their class/tests are totaled.
7. If a mathematical or judging error, such as speaking aloud during tests or posting when posting is allowed, on the score sheet is discovered, it must be brought to the attention of competition management within 1 hour of the official posting of the scores from the last class of that competition day. Competition Management must announce said posting, and must make test sheets available to competitors immediately.
8. After the awards for a class have been presented, the judge's score sheet should be given to the competitor. The score sheet must be handed directly to the competitor or their representative. Privacy must be maintained.
9. It is recommended that scorers and scribes may not be a competitor, or an owner, coach, trainer or family member of a competitor/horse in the class(es) in which they are scoring or scribing.

## WD128 Elimination

1. Horse and rider combinations shall be eliminated from the competition for "a, f and i" below; horse and rider combination shall be eliminated from the current or next class depending on which is closest to the time the incident occurred for all others, under the following circumstances:
  - a. Misrepresentation of entry or inappropriate entry.
  - b. Blatant disobedience (bucking, rearing, striking, etc.) while riding **in any class**.
  - c. Use of prohibited equipment, including rein holds.
  - d. Unauthorized assistance.
  - e. Three errors of the course or test.
  - f. Horse's tongue tied down.
  - g. Late entry into the arena.
  - h. All four feet of the horse leave the arena with or without rider.
  - i. Cruelty including excessive spurring.
  - j. Resistance of longer than 20 seconds.

- k. Concern for the safety of rider, other exhibitors or their entries
- l. Evidence of blood on a horse in the competition arena shall be cause for elimination from the class by the judge at "C". Evidence of blood on a horse outside the competition arena shall be cause for elimination by competition management, after consultation with the steward, from either the last class in which the horse competed or next class in which it is scheduled to compete, depending on which is closest to the time the incident occurred. Environmental causes such as insect bites shall normally not be cause for elimination.
- m. Failure of the competitor to wear their number.
- n. Fall of a horse and/or rider.
- o. Any situation where a direct rule violation can be cited. Where a violation cannot be cited, a competitor is not eliminated.

*BOD 06/17/24 Effective 12/01/24*

## **WD129 Requirements for Competition Management**

1. All classes must be listed in the prize list.
2. When permitted by the rules or special criteria, classes may be divided into separate sections based on qualifications, age or other eligibility of horses or riders.
3. Sections of a class are considered to be a separate "class" only if listed as such in the prize list. Sections of a class may be held in different rings and judged by different judges. When sections are held under different conditions (i.e., different ring or judges), separate awards must be given.
4. When entries warrant, competitions are encouraged to split classes into separate sections, and to provide separate awards for Open riders, Amateurs, and Junior. Horses may be ridden only once in any class, including separate sections of the same class and not by multiple riders.
5. Competition Schedule.
  - a. A tentative class schedule must be included in the prize list.
  - b. Organizers must prepare a time schedule including all rides. If possible, competitors should be notified of their riding times prior to arrival at the competition.
  - c. The time schedule must be posted in a conspicuous place by noon the day before the competition. Ride times may not be changed after noon the day before the start of the entire competition without the written consent of the competitor affected. Competitions may reserve the right to fill a competitor's subsequent ride times if that competitor fails to notify the competition secretary of their intention to scratch (i.e. is a "no show").
  - d. Western Dressage classes must be run in their entirety and rides may only be scheduled out of sequence to allow a reasonable interval between two or more horses entered by the same rider in the same class. Also, when preparing a time schedule consideration must be given to riders entered in more than one class or riding more than one horse.
  - e. At least 50 minutes must be scheduled between start times for a rider's tests on different horses unless they have agreed, in writing, to a shorter interval between tests. Time intervals should be allowed between rides for judge's breaks and awards presentations.
  - f. If a competitor cannot show due to the management's change of scheduling on the day a competitor must ride, their entry fees must be refunded.
  - g. Suspension of Judging: If it becomes necessary to interrupt a Western Dressage competition for any reason, the unfinished portion may be recommenced and rescheduled for the same or following day at the option of the Show Committee with the official's consent. All scores recorded before the interruption will stand. When classes are re-commenced after a delay on the same day, competitors must be given at least 30 minutes notice of the starting time. Exhibitors whose ride times are changed to or on a subsequent day as a result of an interrupted competition or inclement weather conditions, must be individually notified at least two hours prior to a rescheduled ride time.
  - h. Prior to the start of a class section, exhibitors and their horses may be provided access to the competition arena. Show management may designate time(s) for this access.
6. Schooling and Longeing.

- a. One or more schooling areas must be provided far enough away from the arena(s) so as not to disturb the competitors during their tests. Schooling areas must be of sufficient size for several competitors to prepare their horses at the same time.
  - b. Competitors will not be allowed in or around the arena while a class is in progress or inside the arena at other times except under the following conditions:
    1. Management must post and announce, in advance, designated times that competitors may school inside the arena(s);
    2. Competitors should be permitted by management or the Judge to enter the arena prior to their ride if arena conditions do not permit riding around the perimeter of the arena prior to entry. Such permission must be announced prior to the start of the class.
  - c. Competitions are permitted to charge warm-up or schooling fees prior to a competition for horses entered in the competition.
7. Judges.
- a. Judges must be given at least a 45-minute lunch break and at least a 10 minute break every 2 hours.
  - b. Judges are not to be housed in private homes unless the judge has agreed to it prior to the competition.
  - c. Judge's comments, while judging, may not be audio-recorded without prior written permission of the judge, the specific competitor(s) and management.
8. Scribes.
- a. Scribes should have knowledge of the tests being ridden.
  - b. Scribes must not be an owner, coach, trainer or family member of a competitor/horse in the class(es) in which they are scribing.
  - c. Scribe changes should not be made more than once per day for each judge.
9. Specifications.
- a. The arena should be on as flat and as level ground as possible.
  - b. The Standard Arena is 60 meters long and 20 meters wide. The Small Arena is 40 meters long and 20 meters wide. Arena measurements are for the interior of the enclosure. The Small Arena is recommended for Western Dressage classes for the Introductory and Basic Levels.
  - c. The Large Arena is required for Level 1 and above.
  - d. The enclosure itself must consist of a low fence about 0.3 meters high and must be completely enclosed, except for the entrance at "A". The width of the entrance must be at least two meters.
  - e. The fence should be such to prevent the horse's hooves from becoming entangled and arena stakes, if used, must be covered with a ball or similar object so as to prevent injury. Rope, concrete or unbreakable chain fencing is not allowed.
10. Location of Judges. The Judge should be placed at the letter "C", an elevated platform or place that ensures safe and good viewing. Additional judges are similarly placed at "E" and/or "B".
11. Footing Maintenance. Competition management must make every effort to provide the best possible footing in competition and schooling areas. The footing in all areas must be as uniform as possible.
12. Schooling/Warm-up Area Supervisor.
- a. The management must appoint a designated person to check saddlery, inspect bits and protective leg wraps in each class under the direction of the C2 Steward.
  - b. Schooling and warm-up areas must be monitored by the designated ring stewards starting at least 30 minutes before the first scheduled ride.
  - c. The designated ring stewards must use new disposable gloves should it be necessary to physically touch the bits.
13. Miscellaneous.
- a. A separate number must be issued for each horse/rider combination. Exception: Arabians see AR112. This number must be worn when the horse is in the designated schooling area and during the competition.
  - b. The Prize List must state if ties will be broken or not. See WD127.3 for tie breaking system.

## **SUBCHAPTER WD-8 TESTS**

### **WD130 General**

The WDAA approves and issues tests for use at Federation licensed and WDAA recognized competitions in the United States. Tests cannot be modified without approval of the WDAA with the exception that gaited horses must be ridden at the saddle gait instead of the jog in Western Dressage classes.

A link to the tests is located on the Federation website at [www.usef.org](http://www.usef.org). Competitions are permitted to hold gaited classes but they are to be held as separate classes. If gaited classes are not being held at a competition, then gaited and non-gaited horses are permitted to compete together in the same class. The gaits required in lieu of the jog are defined in Subchapter WD-2.

1. Introductory Level. Tests provide an introduction to the discipline of Western Dressage; the horse performs only at the gaits of walk and jog. The rider may sit or post the jog. The rider should demonstrate correct basic position, use of basic aids, and understanding of the figures. The horse should show relaxation and harmony between horse and rider is important. The horse accepts the aids and influence of the rider. The jog should be a natural gait within the horse's scope and should demonstrate a swinging back. To be eligible for Intro Level, a horse/rider combination must not have shown in a Western Dressage Test at Level 1 or above in the same competition year.
2. Basic. Tests confirm that the horse is supple and moves freely forward in a clear and steady rhythm, accepting light contact with the bit. The horse demonstrates a greater understanding of the aids and calm acceptance of the bridle; greater emphasis is placed on relaxation, willing cooperation, harmony, rideability and pure gaits. The horse is beginning to develop more impulsion and balance.
3. Level 1. Tests confirm that the horse is building on the elements from lower levels and is developing more engagement to show sufficient impulsion as the lengthened jog and lope are performed. The horse demonstrates a more consistent light contact with the bit. These tests introduce some collection and lateral and longitudinal balance, suppleness, and emphasize harmony and rideability.
4. Level 2. To confirm that the horse, having achieved the impulsion required in Level 1, now accepts more weight on the hindquarters (collection); moves with an uphill tendency; especially in the lengthened paces; and is reliably and lightly on the bit. A greater degree of straightness, bending, suppleness, balance and self carriage is required than at Level 1.

5. Level 3. To confirm that the horse has achieved the impulsion required in Level 2, now accepts more weight on the hindquarters (collection); moves with a greater degree of an uphill tendency as required in the collected gaits especially in the collected lope. The horse must maintain a light contact on the bit showing balance, self-carriage and energy that result from improved engagement and weight-carrying by the hind quarters as performed in the collected lope. The movements should be performed with greater bending, suppleness, balance and self-carriage than in Level 2.
6. Level 4. To confirm that the horse has achieved the impulsion, engagement, uphill balance and self-carriage required in Level 3. Level 4 movements should be performed with greater engagement, straightness, suppleness and balance. The marked lightness of the forehand results from a distinct lowering of the haunches and throughness required to perform the partial lope pirouette. A solid foundation is evidenced throughout by a correct, willing, harmonious performance softly on the aids.
7. Level 5. To Confirm that the horse has achieved the suppleness, impulsion, thoroughness and clear uphill balance required in Level 5. The marked lightness of the forehead resulting from improved engagement and collection is demonstrated in the full lope pirouette. The flying lead changes in series reveal the responsiveness and obedience of the horse to the aids. A solid foundation is evidenced throughout by a calm, willing, harmonious performance.

## **SUBCHAPTER WD-9 FREESTYLE**

### **WD131 Western Musical Freestyle**

1. A Western Dressage Freestyle is a performance utilizing the gaits and movements of the discipline ridden to music. Each test includes the required movements, gaits and paces of the standard Western Dressage Tests for that level. The competitor is absolutely free in the form and manner of the presentation they choose within a fixed time provided. The performance should clearly show the unity between rider and horse as well as harmony in all the movements and transitions. The horse and rider should appear as one; lightness of contact is the hallmark of Western Dressage Freestyle.
  - a. The competitor must declare to the management (and consequently the judge) at what level they will be riding.
  - b. The competitor must provide two (2) recordings of the music to which the Freestyle will be performed. Management must provide time for a sound check.
  - c. The Freestyle ride must not exceed the time limit listed on the test. Time begins when the horse moves forward out of the initial halt and ends with the final halt and salute. Both halts are mandatory.
  - d. The judge will provide two (2) sets of scores; one for the technical correctness of the movements performed and one for the artistic merit.
    1. The artistic score is comprised of several elements:
      - a. Harmony between horse and rider.
      - b. Choreography: use of arena, design and creativity. Not "test-like".
      - c. Degree of difficulty: points are only awarded when the attempts are performed well.
      - d. Music: suitability to the horse. Edits in music are smooth/flowing.
      - e. Interpretation: music must express gaits and paces.
    2. Technical correctness:
      - a. Judged on the execution of required technical movements in the test i.e. figures, gaits/paces and transitions.
      - b. Certain movements (leg yield, half-pass etc.) must be performed in both directions.
      - c. Riders are permitted to switch from one hand to two hands or vice versa during their test.
2. Penalties:
  - a. Within 45 seconds of the entry bell the rider must either enter the arena, signal the sound engineer, or be eliminated. The rider must enter the arena within 20 seconds of the start of the music, or may be eliminated, at the discretion of the judge.
  - b. Time Limit Deductions: One (1) point is deducted from the total for artistic merit for exceeding the time limit. There is no minimum time, or specified deduction.

- c. Four (4) points will be deducted for forbidden movements and above the level movements. They are not cumulative and will not result in elimination.

## **SUBCHAPTER WD-10 WESTERN DRESSAGE SUITABILITY**

### **WD132 General**

1. To be eligible for a Western Dressage Suitability class, a horse must not have shown in a Western Dressage competition/Test at Level 1 or above and/or shown in a Western Dressage Hack class.
2. Refer to WD101 for Goals and Objectives, WD110 for Transitions, WD116-117 for Collection, Impulsion and Submission and WD119 for Position and Aids of Rider.

### **WD133 Appointments**

Refer to Subchapter WD-5

### **WD134 Qualifying Gaits, refer to WD103-105.**

### **WD135 Western Dressage Suitability Objectives.**

To confirm that the horse's muscles are supple and loose, and that it moves freely forward in a clear and steady rhythm with a look of forward impulsion with purity of gaits, and accepting light contact with the bit. The horse should show lightness of the forehand and engagement of the hindquarters. Resistance and tension of the horse is to be penalized. The horse's potential as a Western Dressage mount is to be considered.

### **WD136 Class Specifications.**

1. Horses to enter at a working jog, in a counter clockwise direction. Horse must perform all gaits both ways of the ring. Gaits shall be the working walk, working jog, and working lope. Free walk on a loose rein with horse stretching forward and down to be performed in at least one direction. Transitions into and out of the lope will be called for through the working jog. Horses will be asked to reverse direction at the working jog or working walk at the judge's discretion. Jog work may be ridden sitting or posting. In the lineup, horses must stand quietly and may be asked to back individually or as a group.
2. To be judged: 70% on performance of gaits and transition, with attention to impulsion and submission, and using the objectives above as reference; and, 30% on the rider's position, seat, and effective use of aids.
3. Classes may be divided for Open, Amateur, Junior Exhibitor, Stallions, Geldings and Mares. If classes are divided, a Championship class is recommended. A separate Junior Exhibitor Championship class may be offered.
4. At a breed restricted or multi-breed competition, a judge licensed in that breed(s) is eligible to officiate this class.
5. *Walk-Jog Suitability may be offered with the same specifications, with the exception that the working lope must not be called for.*
6. *Horses participating in Walk Jog Suitability are prohibited from competing in Walk-jog-lope suitability at the same show.*

*BOD 06/17/24 Effective 12/01/24*

## **SUBCHAPTER WD-11 WESTERN DRESSAGE HACK**

### **WD137 General**

1. The Western Dressage Hack class is open to any horse, pony, or mule; however, once a horse has been entered and shown in a Western Dressage Hack class, that horse may not subsequently be shown in a Western Dressage Suitability class.
2. Refer to WD101 for Goals and Objectives, WD110 for Transitions, WD116-117 for Collection, Impulsion and Submission and WD119 for Position and Aids of the Rider.

### **WD138 Appointments**

Refer to Subchapter WD-5

### **WD139 Qualifying Gaits**

Refer to WD103-105.

### **WD140 Western Dressage Hack Objectives**

In addition to the objectives as defined in WD135 Western Dressage Suitability Objectives, horses should begin to show more pushing power and show progression towards a degree of balance and throughness. The horse should be light on the bit. A greater degree of straightness, bending, suppleness and throughness is required. There should be a clear distinction between the gaits (working and lengthening). The horse's ability as a Western Dressage mount is to be highly considered.

### **WD141 Class Specifications**

1. Horses to enter at the working jog, sitting or rising, in a counter clockwise direction. Horses must perform a working walk, working jog, working lope, and a lengthening of strides at the jog and lope both ways of the arena. Free walk on a long rein with the horse stretching forward and down to be performed in at least one direction. A back may only be asked for in the line up. Transitions into and out of the lope will be asked for through the working jog. Horses will be asked to reverse directions at the judge's discretion. Jog work to be ridden sitting or rising.
2. To be judged 70% on performance of gaits and transitions, with attention to impulsion, submission, and using the objectives as referenced above (WD140); 30% on the rider's position, seat and effective use of aids.
3. Classes may be divided for Open, Amateur, Junior Exhibitor, Stallions, Gelding and Mares. If classes are divided, a Championship class is recommended. A separate Junior Exhibitor Championship class may be offered.
4. At breed restricted or multi-breed competition, a judge licensed in that breed(s) is eligible to officiate this class.

## **SUBCHAPTER WD- 12 WESTERN DRESSAGE SEAT EQUITATION**

### **WD142 General Performance Directives for Western Dressage Seat Equitation**

- turns and on the circles and moves on straight lines. The rider is capable of keeping the horse moving forward maintaining the tempo of each gait. The transitions are performed effortlessly, willingly and smoothly.

### **SUBCHAPTER WD-1 WESTERN DRESSAGE HORSE GOALS AND OBJECTIVES**

#### **WD101 Goals and Objectives**

The goal of Western Dressage is to develop a partnership between a happy equine athlete working in harmony with its rider. A system of progressive training produces a horse that is physically strong, balanced, supple, and flexible; this equine athlete also demonstrates a calm, confident, attentive attitude and is happy to do its job.

1. A Western Dressage horse achieves this goal by using the principles of classical dressage training while emphasizing the lightness and harmony with the rider which is a hallmark of a Western Dressage horse.
2. The Western Dressage horse demonstrates free flowing, comfortable strides. The gaits are free, regular in cadence and rhythm, consistent in speed and tempo. The horse presents a balanced appearance.
3. The Western Dressage horse's head and neck are carried in a relaxed, natural manner; head and neck carriage are dictated by conformation and serve as a balance arm to facilitate proper movement.
4. The Western Dressage horse engages its hindquarters; uses its back freely; and lifts its forehand. These characteristics of framing and movement are more pronounced as the horse advances in its training and development.
5. The Western Dressage horse carries its body in a straight line when required by the maneuvers of the test; the Western Dressage horse carries itself in a consistent curve whose degree of bend is consistent throughout a movement that calls for a curve. The straightness or bend is consistent throughout the horse's body and is dictated by the requirements of the maneuver being performed.
6. Lightness and harmony are the hallmarks of the Western Dressage horse; it willingly accepts a light contact on the bit without tension or resistance. The Western Dressage horse gives the appearance of performing the requested gaits and maneuvers of its own accord. The horse and rider appear as one.

#### **WD102 Participation in Western Dressage Competitions**

1. Western Dressage classes are open to riders on horses, mules and/or ponies of any origin. Classes may be restricted to one or more breeds at a licensed breed restricted competition.
2. A Horse/Rider combination may enter no more than two consecutive levels, Freestyle levels included, at any one competition. Suitability, Hack and Equitation are excluded from the maximum limit of rides per day and horses in these classes may compete at any level for which they are otherwise eligible during the same competition.
3. Horse/rider combinations may ride the same test twice at the same competition, given they are separate class numbers.
4. No horse may be ridden more than once in any Western Dressage class including separate sections of the same class number.
  - a. Horses may be ridden in junior, amateur, and open sections at the same competition.
5. Horses cannot be ridden by more than two riders. Shows may further limit number of rides per horse and level if stated in their prize list.
6. If there is a conflict with breed division rules regarding WD102.2-4, the breed division rules will govern.
7. For purposes of competition in Western Dressage classes:
  - a. Junior exhibitor definition: See GR128
  - b. Amateur exhibitor definition: From the beginning of the competition year in which they reach 18, individuals must possess a current Amateur Certification to be eligible to compete as Amateurs at a Federation Licensed Competition. Adult Amateur riders as defined in GR1306 and GR1307. At non-

Federation Licensed Competitions, organizers should consult the appropriate breed or show rules for eligibility to compete as an Amateur.

- c. An individual may not compete as a Junior Rider and as an Amateur in Western Dressage at the same competition.
8. WDAA Membership.
  - a. To be eligible to participate and/or compete as an exhibitor, owner, lessee, agent, coach, or trainer in any Western Dressage class or at any Federation Western Dressage Licensed Competition persons must be active members of WDAA or pay a non-member fee equal to the price of an annual membership for each competition. Exception: WDAA membership or non-member fee is not required at a Lite Licensed competition. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownership, only one owner need be a Member or pay a non-member fee. The competition is responsible for listing either the active member or the owner that paid the non-member fee in the results. The competitions will be responsible for forwarding a list of the names of individuals who pay non-member fees at the competition to WDAA with the post competition report. Payment of non-member fees for the purpose of competing does not entitle the individual to any privileges of the WDAA membership.
  - b. WDAA membership is a requirement for participation at the WDAA World Championship Show.
9. Federation Membership. A Federation non-member, who wishes to participate as a rider, owner, lessee, or agent at Regular Federation Competitions, Reining Competitions or Federation Open Western competitions that hold Western Dressage classes, must pay a show pass fee. Eligible exhibitors are prohibited from obtaining more than one (1) Show Pass per competition year. Lessees are considered owners in connection with this membership requirement. In the event of an entry under multiple ownership, only one owner needs to be a Member or pay a show pass fee. The competition is responsible for listing either the active member or the owner that paid the show pass fee in the results.

Participants in the following classes are exempt from the requirements of this rule: leadline; exhibitions; games and races; classes for 4-H members; walk trot; academy classes, and Opportunity classes.

Payment of show pass fees for the purpose of competing does not entitle the individual to any privileges of the Federation membership.
10. An exhibitor is not allowed to request a Time-Out in Western Dressage.
11. If it becomes necessary to interrupt a Western Dressage competition, and/or as to cause suspension of judging, the unfinished portion may be recommenced and rescheduled for the same or following day at the option of the Show Committee with the officials' consent. All scores recorded before the interruption will stand. When classes are re-commenced after a delay on the same day, competitors must be given at least 30 minutes notice of the starting time. Exhibitors whose ride times are changed to a subsequent day as a result of the interrupted competition or inclement weather condition, must be individually notified at least two hours prior to a rescheduled ride time.
12. Competitions may limit the number of rides and/or the number of levels in which horses may compete if printed in the prize list.
13. Electronic communication devices used for purposes of coaching exhibitors during a competition are prohibited in all classes in the Western Dressage Division. Exhibitors with a permanent hearing impairment are permitted to use an electronic communication device upon submission of a written certification from a treating medical professional's office certifying the permanent hearing impairment and certifying the requirement of an electronic communication device. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.
14. An exhibitor with a disability (other than hearing) will be provided reasonable accommodation upon submission of a written certification from a treating medical professional's office certifying the disability and identifying the accommodation necessary for the exhibitor to compete safely. The medical certification must be provided to the competition Steward within a reasonable time prior to competing who shall attach a copy to the Steward report.

## **SUBCHAPTER WD-2 GAITS**

The horse's three gaits, walk, jog and lope will be enhanced and amplified through correct training. Development of its strength and balance as a result of correct training will let it carry its rider with ease and confidence while maintaining correct rhythm and a steady tempo at all times.

### **WD103 The Walk**

1. The walk is a well-marked four time beat marching gait in a regular cadence with equal intervals between each beat. This regularity combined with complete relaxation must be maintained throughout all walk movements.
2. When the foreleg and the hind leg on the same side swing forward almost at the same time, the walk has a lateral rhythm. This irregularity is a serious fault of the gait.
3. The following walks are recognized: Collected walk, Working walk, Free walk and Extended walk. There should always be a clear difference in the attitude and tracking in these variations.
  - a. Collected Walk. The horse, remaining "on the bit", moves resolutely forward with its neck raised and showing a clear self-carriage. The head approaches the vertical position, and a light contact is maintained with the mouth. The hind legs are engaged with good flexion of the joints. The gait should remain marching and vigorous, the feet being placed in regular sequence. The steps cover less ground and are higher than at the Working walk, because all the joints bend more markedly. The step at the Collected walk is shorter than the Working walk and shows greater activity.
  - b. Working Walk. Four-beat, active, energetic walk with resolutely forward-reaching steps and confident stretch to the bit. Head and neck should swing naturally as a result of a relaxed back and free shoulders. The nose shall be on or slightly in front of the vertical. The hind feet should touch the ground into or beyond the prints of the forefeet.
  - c. Free Walk. A relaxed walk with unconstrained, forward reaching steps where hind feet touch the ground in or in front of the footprints of the forefeet. The horse must be relaxed and be allowed complete freedom to lower its head and neck to stretch forward and down and out. The length of stride, rhythm, the relaxation and swing through its back are of great importance.
  - d. Extended Walk: The horse demonstrates optimum ground cover, a lengthened frame and reach to the contact without sacrificing regularity, suppleness of the back and an open frame. Without hurrying, the horse exhibits balance, freedom and over track.

### **WD104 The Jog**

1. The jog is a two-beat gait of alternate diagonal legs (left fore and right hind leg and vice versa) separated by a moment of suspension.
2. The jog should show free, active and regular steps.
3. Excessive speed or slowness will be penalized.
4. The quality of the jog is judged by general impression, i.e., the regularity and elasticity of the steps, the cadence and impulsion in extension at all three paces. This quality originates from a supple back and well-engaged hindquarters, and by the ability to maintain the same rhythm and natural balance in all variations of the jog.
5. The following jogs are recognized: Collected jog, Working jog, Lengthening of Strides, and Free Jog.
  - a. Collected Jog. The horse, remaining "on the bit", moves forward in a two-beat gait with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position, and a light contact is maintained with the mouth. The hocks are well-engaged and flexed and must maintain an energetic impulsion, enabling the shoulders to move more freely. Although the horse's steps are shorter than in the other jogs, elasticity and cadence are not lessened. The Collected jog must be ridden seated.
  - b. Working Jog. An energetic, regular, two-beat jog; the horse must go forward with even and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs step actively up under the horse. The horse must show proper balance and maintain light

contact with the bit. The horse's nose shall be on or slightly in front of the vertical. In the Introductory, Basic and Level 1 tests, the Working jog may be ridden either posting or sitting. In more advanced tests from Level 2 up, the Working jog must be ridden seated.

- c. Lengthening of Strides. This is a variation of the Working jog; the horse covers more ground through lengthening its frame while maintaining the same tempo as in the Working jog. Excessive speed will be penalized. Lengthening of stride may be ridden either posting or sitting.
- d. Free Jog. This is a pace **that confirms a relaxed, supple topline to facilitate freedom and throughness.** Without hurrying, the horse **jogs** forward in a two-beat gait **while stretching downward and forward over the back showing a willingness to reach towards a soft elastic connection.** Balance, **bend**, tempo, and regularity **should be maintained as the horse shows increased swing through the back.** There should be a smooth willing retake of the reins in transition to the working jog. The free jog may be ridden posting or sitting.

*BOD 06/17/24 Effective 12/01/24*

## **WD105 The Lope**

1. The lope is a gait with three equal, regular beats with time of suspension after the third beat. One stride equals three beats, or three footfalls. This gait may be demonstrated on right or left lead. Footfall sequence in right lead is: left hind, right hind and left fore together, right fore, then suspension. Footfall sequence in left lead: right hind, left hind and right fore together, left fore, then suspension.
2. The lope has a typically slower tempo than a canter and must keep the three beat rhythm or the regularity is lost. Excessive speed or slowness must be penalized.
3. The correct lope must be balanced, rhythmic, and with three beats with a clear time of suspension; it must be straight, adjustable and supple, showing willingness to move forward in self-carriage with engaged hindquarters.
4. The quality of the lope is judged by the general impression, i.e., the regularity and lightness of the steps. The uphill tendency of the forehand and the steady cadence, originating from engagement of the hindquarters transmit the energy from back to front and connect into a willing acceptance of the bridle. The horse's mouth is quiet and its poll is soft. The horse should always remain straight on straight lines and correctly bent on curved lines.
5. The following lopes are recognized: Collected lope, Working lope, Lengthening of Strides, and Counter Lope.
  - a. Collected Lope. The horse, remaining "on the bit", moves forward in a three-beat cadence with the neck raised and arched. The hocks are well-engaged and maintain an energetic impulsion, enabling the shoulders to move more freely, demonstrating self-carriage and an uphill tendency. The horse's strides are shorter than in the other lopes, without losing elasticity and cadence.
  - b. Working Lope. While maintaining the three beat cadence, the horse must go forward with even and elastic steps. The back must be relaxed and the shoulders free; there is an obvious push from the hindquarters and the hind legs step actively up under the horse. The horse must maintain light contact with the bit and its nose shall be on or slightly in front of the vertical.
  - c. Lengthening of Strides. This is a variation of the Working lope; the horse covers more ground through lengthening its frame while maintaining the same tempo as in the Working lope. Excessive speed will be penalized.
  - d. Counter-lope. The counter lope is a balancing and straightening movement. The horse appears to be cantering on the incorrect lead to the direction of travel. The horse lopes in a correct sequence to the left on the right lead; the horse lopes to the right in a correct sequence on the left lead.
6. Change of lead through the Jog. This is a change of lead where the horse is brought back into the jog and after 2-3 strides, strikes off into a lope with the other leg leading.
7. Change of lead through the Walk. This is a movement in which, after a direct transition out of the lope into a walk, with 3-5 clearly defined steps at the walk, an immediate transition is made into the other lead. This is considered a Simple Lead Change when done through the walk.
8. Flying change of lead. The flying change of lead will ideally begin with the sequence of the new outside hind leg, the diagonal pair and followed by the new leading front leg. The change of lead of the hind and front leg

take place immediately after the moment of suspension without a break of gait. The aids should be precise and unobtrusive. Flying changes of lead can also be executed in series. For example, flying changes can be performed at every 4th, 3rd, 2nd or at every stride. The horse, even in the series, remains light, calm and straight with lively impulsion, maintaining the same rhythm and balance. In order to not restrict or restrain the lightness, fluency and groundcover of the flying changes in series, enough impulsion and forwardness must be maintained. The flying lead changes show the reaction, sensitivity and obedience of the horse to the aids.

9. Gaited horses perform the lope.

## **WD106 Saddle Gait**

The saddle gait has a noticeable increase in cadence from the working walk. Excessive speed or slowness will be penalized.

1. In lieu of a jog, gaited horses perform gaits of various rhythms and footfalls. The gaited horse will perform a saddle gait in place of the jog.
2. The saddle gait is a four beat gait that is timely and consistently performed. The tempo, rhythm and foot falls of the gait the rider chooses to perform must not change throughout the test. The gait the horse performs, should be able to be ridden in a working, lengthened, free and collected manner as the Western Dressage test specifies.
3. The quality of the saddle gait is judged by general impression, i.e. the regularity and rhythm of the steps, the cadence and impulsion. This quality originates from the horse having a supple back and well engaged hind quarters, and the ability to maintain the same rhythm and natural balance in all variations of the saddle gait.
  - a. Collected Saddle Gait. The horse, remaining “on the bit”, moves forward with the neck raised and arched and showing clear self-carriage. The head approaches the vertical position and a light contact is maintained with the mouth. The hocks are well-engaged and must maintain an energetic gliding impulsion, enabling the shoulders to move more freely. Although the horse’s steps are shorter than in the other saddle gaits, elasticity and cadence are not lessened.
  - b. Working Saddle Gait. With an energetic, regular consistent rhythm; the horse must go forward with consistent and elastic steps. The back must be relaxed and the shoulders free, while there is an obvious push from the hindquarters. The hind legs actively glide under the horse. The horse must show proper balance and maintain light contact with the bit. The horse’s nose must be on or slightly in front of the vertical.
  - c. Lengthening of Stride. This is a variation of the Working saddle gait; the horse covers more ground while maintaining the same tempo, consistent rhythm as in the Working saddle gait. Speeding up is a fault.
  - d. Free Saddle Gait. This is a gait that confirms a relaxed, supple topline to facilitate freedom and throughness. Without hurrying, the horse moves forward in a clear Saddle Gait while stretching downward and forward over the back showing a willingness to reach towards a soft elastic connection. Balance, bend, tempo, and regularity should be maintained as the horse shows increased swing through the back. There should be a smooth willing retake of the reins in transition to the working saddle gait.

## **WD107 The Back**

1. Back is a rearward diagonal movement with a two-beat rhythm but without a moment of suspension. Each diagonal pair of legs is raised and returned to the ground alternately, with the forelegs aligned on the same track as the hind legs.
2. During the entire exercise, the horse should remain “on the bit”, maintaining its desire to move forward at the slightest indication of the rider.
3. Serious faults are: Anticipation of the movement, resistance to or evasion of the contact of the bit either by raising the neck or going behind the bit, deviation of the hindquarters from the straight line, spreading or inactive hind legs and dragging forefeet.

4. Steps are counted as each foreleg moves back. After completing the required number of steps backward, the horse should show a square stop or move forward in the required gait immediately. In tests where a back of one horse's length is required, it should be executed with three or four steps.
5. A back series is a combination of two backs with walk steps in between. It should be executed with fluent transitions and the required number of steps.

## **WD108 Faults**

Faults of gaits include crookedness, loss of rhythm; tight and tense back with short stiff neck; horse on forehand and/or leaning on the bit; nose consistently behind the vertical; raising of the head to avoid collection; changing tempo; and evasion of contact which can come from improper training, too harsh a bit, or bad hands. In all cases faults will be penalized.

## **SUBCHAPTER WD-3 ADDITIONAL MOVEMENTS AND METHODS**

### **WD109 The Halt**

1. At the halt the horse should stand attentive, engaged motionless, straight and square with the weight evenly distributed over all four legs. The neck should be raised with the poll as the highest point and the head slightly in front of the vertical. While remaining "on the bit" and maintaining a light and soft contact with the rider's hand, the horse may quietly mouth the bit and should be ready to move off at the slightest indication of the rider.
2. The halt is obtained by the displacement of the horse's weight to the hindquarters by a properly increased action of the seat and legs of the rider, driving the horse towards a soft hand, causing an almost instantaneous but not abrupt stop at a previously fixed place.
3. The quality of the gaits before and after the stop is an important part of the assessment.

### **WD110 Transitions**

1. The changes of gait and pace should be clearly shown when the rider's leg is at the prescribed marker; they should be quickly made yet must be smooth and not abrupt. The cadence of a gait or pace should be maintained up to the moment when the gait or pace is changed or the horse halts. The horse should remain light in hand, calm and maintain a correct position.
2. In transitions where the horse approaches the letter from a line on the diagonal or perpendicular to the point where the letter is positioned, the transition must be done when the horse's nose reaches the track at the letter so that the horse is straight in the transition. This includes the execution of flying changes.

### **WD111 Changes of Direction**

1. At changes of direction, the horse should adjust the bend of its body to the curvature of the line it follows, remaining supple and following the aids of the rider, without any resistance or change of gait, rhythm or speed. Corners should be ridden as one-quarter of a circle appropriate to the level of the test.
2. Changes of directions can be executed in the following ways:
  - a. Right-angled turn including riding through the corner (one quarter of a small circle of approximately 6 meters). Short and long diagonal.
  - b. Half small circles and half small circles with change of rein.
  - c. WD Turn on the forehand and WD Turn on the haunches.
  - d. Serpentine loops.
  - e. Counter-changes of hand (in zig-zag). The horse should be straight for a moment before changing direction.

## WD112 Figures and Exercises

1. The figures asked for in Western Dressage tests are: the circles, the serpentines and the figure eights.
  - a. Circle. The circle is a round figure which varies in size according to the requirements of each test. The diameter of a circle is specified in each test.
  - b. Serpentine. There are three variations:
    1. The serpentine with several loops touching the long side of the arena consists of equal half circles connected by a straight line. When crossing the centerline, the horse should be parallel to the short side.
    2. Depending upon the size of the half circles, the straight connection varies in length. The serpentine with one loop on the long side of the arena is executed with 5-meter or 10-meter distance from the track.
    3. The Serpentine around the centerline is executed between the quarter line

- c. Figure eight. This figure consists of two circles of equal size as specified in the test, joined at the center of the eight. The rider should make their horse straight an instant before changing direction at the center of the figure.
2. The Exercises.
  - a. Stretching Through the Frame. The horse gradually takes the reins, stretching forward and downward with light contact, while maintaining balance, rhythm and tempo and quality of the gait. Important: The horse must point its nose clearly forward. This is a clear release of contact while the horse maintains self-carriage, rhythm, tempo, straightness, and quality of gait.
  - b. Release of Rein. This is a clear release of contact while the horse maintains self-carriage, rhythm, tempo, straightness, and quality of gait. The rider lets their hand(s) move forward from the elbow.

## WD113 Work on Two Tracks and the Lateral Movements

1. The aim of movements on Two Tracks is:
  - a. To improve the obedience of the horse to the aids of the rider;
  - b. To supple all parts of the horse thereby increasing the freedom of its shoulders and the suppleness of its quarters as well as the elasticity of the bond connecting the mouth, the poll, the neck, the back and the haunches;
  - c. To improve the balance, cadence and straightness and bring the gaits into harmony.
2. In all lateral movements - shoulder in, counter shoulder in, haunches in, haunches out, half-pass - the horse is slightly bent and moves with the forehand and the hindquarters on different tracks.

- a. Lateral movements are the beginning of collection
- b. The bend or flexion must never be exaggerated so that it impairs the balance and fluency of the movement concerned.
- c. At the lateral movements the gait should remain free and regular, maintained by a constant impulsion and forwardness, yet it must be supple, cadenced and balanced. The impulsion should not be lost because of the rider's preoccupation mainly in bending the horse and pushing it sideways. The horse should maintain rhythm and not lose impulsion.
- d. Shoulder-In. The exercise is performed in collected jog. The horse is ridden with a slight but uniform bend around the inside leg of the rider maintaining cadence at a constant angle of approximately 30 degrees. The horse's inside foreleg passes in front of the outside foreleg; the inside hind leg steps forward under the horse's body weight following the same track of the outside foreleg, while lowering the inside hip. The horse's footfall creates three tracks. The horse is bent away from the direction in which it is moving.
- e. Haunches-In. The horse is slightly bent round the inside leg of the rider. The forehand remains on the track and the quarters are moved inwards. The horse is bent in the direction in which it is moving. To start the haunches-in, the hindquarters should leave the track or, after a corner or circle, are not brought back onto the track. At the end of the haunches-in, the hindquarters are brought back on the track as one would finish a circle, without any counter-flexion of the poll/ neck. The horse's footfall creates four tracks.
- f. Renvers (Haunches-Out). This is the inverse movement in relation to haunches-in. The hindquarters remain on the track while the forehand is moved inward. To finish the haunches-out, the forehand is aligned with the hindquarters on the track. Otherwise, the same principles and conditions that apply to the haunches-in are applicable to the haunches-out. The horse is slightly bent around the rider's inside leg. The horse is bent in the direction in which it is moving. The forehand is displaced to the inside. Balance and cadence are maintained.
- g. Half-pass. This movement is a variation of haunches-in, executed on a diagonal line instead of along the wall. The horse should be slightly bent around the inside leg of the rider and into the direction in which it is moving. The horse should maintain the same cadence and balance throughout the whole movement. In order to give more freedom and mobility to the shoulders, it is of great importance that the impulsion be maintained, especially the engagement of the inside hind leg. The horse's body is nearly parallel to the long side of the arena with the forehand slightly in advance of the hindquarters. The bend in the half-pass should increase with the steepness of the diagonal.
  - 1. In the jog and the lope, the movement is performed in a series of forward/sideways strides. Aims of the half-pass in the jog and the lope: Show a fluent collected movement on a diagonal line with a greater degree of bend than in shoulder-in. Fore and hind legs cross, balance and cadence are maintained.
  - 2. The aims of the half-pass: to both demonstrate and develop the collection and suppleness by moving fluently forwards and sideways without any loss of rhythm, balance or softness and willing cooperation to the bend.
- h. Leg yield. Leg yielding is not a lateral movement. The horse is almost straight, except for a slight flexion at the poll away from the direction in which it moves, so that the rider is just able to see the corner of the eye and nostril on the inside. The inside legs pass and cross in front of the outside legs. Leg-yielding can be performed on the diagonal in which case the horse should be as close as possible parallel to the long sides of the arena although the forehand should be slightly in advance of the hindquarters. The leg yield can also be ridden along the wall with approximately a 35 degree angle.
- i. Sidepass. The side pass is a lateral maneuver performed from a halt in which a horse crosses its fore and hind legs to move directly sideways. The horse's body should stay straight and square or flexed slightly in the direction of travel. The horse should remain supple while yielding softly and willingly to subtle aids. When a horse sidepasses, it should be crossing its legs evenly with balance and a consistent walk tempo. In a sidepass to the right, the left front and left hind should cross in front of the respective right front and right hind legs. Loss of balance, counter bending, hesitation, crookedness and outside legs crossing behind inside legs or not crossing are faults.

## **WD114 WD Turn on the Haunches; Pivot; WD Turn on the Forehand**

1. WD Turn on the Haunches
  - a. The WD Turn on the haunches is executed out of a working walk prepared by half halts to shorten the steps. During the movement the forefeet and the outside hind foot move around the inside hind foot. The WD Turn on the haunches can be performed on a larger diameter than the pivot. This movement is executed at Level 1 and Level 2. Riders may choose to pivot or WD Turn on the haunches. Switching from one method to the other within the same movement will be penalized. At Level 3 and above, only the pivot may be performed.
  - b. For younger horses that are still not able to perform a collected walk, the 'WD Turn on the haunches' is an exercise to prepare the horse for collection. The 'WD Turn on the haunches' is executed out of working walk prepared by half-halts to shorten the steps a little and to improve the ability to bend the joints of the hindquarters.
  - c. The horse must bend a little in its ribcage around the rider's inside leg. The 'WD Turn on the haunches' can be executed on a larger diameter (approximately one meter) than the pivot in walk, but the demands of the training scale concerning rhythm, contact, activity and bend are the same.
2. Pivot

In keeping with traditional Western Stock horse movements, the horse pivots on the inside hind leg and step around it with the outside hind leg. The horse pushes off with the outside hind leg. The pivot leg is allowed to pickup and reset when it reaches the point of stress. The horse should maintain correct bend and balance and respond to the rider's leg. A pivot should begin at a walk tempo with forward intention, building speed moderately while maintaining form and fluidity. Pivoting around the middle axis of the horse should receive a marginal to insufficient score of 5 or lower. It is not a fault to step forward 1-2 steps into the pivot.
3. WD Turn on the Forehand. It is executed out of a halt or a working walk prepared by half-halts to shorten the steps.
  - a. The horse's hindquarters make a circle around the horse's front end. To achieve this, the inside hind leg should cross in front of the outside hind leg considering that the inside is the side the horse is flexed towards.
  - b. The purpose of this exercise is to supple the horse and teach it to yield to the rider's leg.
  - c. WD Turn on the forehand right - the horse is slightly flexed at the poll to the right, when the haunches move to the left yielding to the riders right leg and the right rear hoof crosses in front of the left rear hoof.
  - d. WD Turn on the forehand left the horse is slightly flexed at the poll to the left when the haunches move to the right yielding to the rider's left leg and the left rear hoof crosses in front of the right rear hoof.

The horse must maintain the same rhythm, tempo, contact and activity and show willingness to be on the outside rein. Stepping back is a fault.

## **WD115 Pirouette, Half Pirouette, and Quarter Pirouette at the Lope**

1. The lope pirouette is a circle or part of a circle executed on two tracks with the forehand moving around the haunches. The haunches are lowered to afford the lightness required to maintain the proper lope sequence throughout. The horse is slightly bent in the direction of the turn and lightly on the bit. The quality of the pirouette is further demonstrated by the relatively small size of the turn, suppleness, balance, fluidity and maintenance of forward intention.
2. Quarter Pirouette: the quarter pirouette is a preliminary exercise to prepare the horse for half and full pirouettes. While the demands of a smaller figure of a quarter turn consisting of 2-3 strides are less, the same criteria for full pirouettes apply.
3. The strength and balance required for the pirouette is further demonstrated by the ability to perform the half-pirouette, full pirouette and sequences of multiple pirouettes. Impulsion, willingness to carry and engagement behind in the pirouette create a highly collected lope while maintaining a calm, confident demeanor which is the hallmark of the Western Dressage horse.

## **SUBCHAPTER WD-4 COLLECTION, WILLING COOPERATION, IMPULSION, AIDS**

### **WD116 Collection**

1. Collection is achieved by increased weight bearing of the horse's haunches, thereby lowering the croup and lightening the forehand to allow the shoulders more freedom.
2. The aim of the collection of the horse is to add to the ease and carriage of the horse, to increase the strength and athleticism, and to make it more pleasurable to ride.
3. Horses ridden with the face consistently behind the vertical plane must be penalized.
4. The position of the head and neck of a horse at the collected gaits is naturally dependent on the stage of training and on its conformation. It should, however, be distinguished by the neck being raised and unrestrained, forming a harmonious curve from the withers to the poll which is the highest point. The head is on or slightly in front of the vertical. However, when the rider applies their aids in order to obtain a momentary and passing collecting effect, the head may momentarily become more or less vertical.
5. The lightness of contact, which is the hallmark of Western Dressage, shall be demonstrated in collection.
6. A marked lowering of the horse's pelvis and an increased flexion of the hocks should be demonstrated. This is also called "coiling of the loins".

### **WD117 Impulsion**

1. Impulsion is the term used to describe the transmission of an eager and energetic, yet controlled, positive forward energy generated from the hindquarters into the athletic movement of the horse. Its ultimate expression can be shown only through the horse's soft, relaxed, swinging back guided by a light, elastic contact with the rider's hand.
2. Speed, of itself, has nothing to do with impulsion; the result is more often a flattening of the gaits. A visible characteristic of impulsion is a more pronounced articulation of the hind leg, in a continuous rather than staccato action. The hock, as the hind foot leaves the ground, should first move forward rather than being pulled upwards and certainly not backwards. A prime ingredient of impulsion is the time the horse spends in the air rather than on the ground. Impulsion is, therefore, seen only in those gaits that have a period of suspension.
3. Impulsion is required for a good collection in the jog and lope. If there is no impulsion, then there is nothing to collect.

### **WD118 Willing Cooperation and Harmony**

1. Willing cooperation of the horse does not mean subordination, but an obedience revealing its presence by a constant attention, willingness, and confidence in the whole behavior of the horse as well as by the harmony, lightness and ease it is displaying in the execution of the different movements. Willing cooperation is also demonstrated by the way the horse accepts the bit, with light contact and a supple poll. Resistance to or evasion of the contact, by being either "above the bit" or "behind the bit" demonstrate lack of willing cooperation.
  - a. Putting out the tongue, keeping it above the bit or drawing it up altogether, as well as grinding the teeth or agitation of the tail, are mostly signs of nervousness, tension or resistance on the part of the horse and must be taken into account by the judges in their marks for every movement concerned, as well as in the collective mark for harmony.
  - b. Willingness is the most important consideration when evaluating obedience. The horse understands what is being asked of it and is confident in the rider by responding to the aids without fear or tension.
  - c. The horse's straightness, uphill tendency and balance enable it to stay in front of the rider's legs and go forward into an accepting, light and self-carrying contact with the bit. This is what really produces the picture of harmony and lightness.
  - d. Harmony between the horse and rider is demonstrated by the horse and rider moving as "one". The rider uses tactful cues; the horse performs without resistance, agitation or wariness. The horse shows attention

and confidence in its ease of movements and acceptance of the bit while staying up in the poll and keeping its nose in front of the vertical. The degree of lightness increases as the horse advances in its training.

## **WD119 Position and Aids of the Rider**

1. All the Western Dressage movements should be obtained with imperceptible aids and without apparent effort of the rider. The rider should be well-balanced, elastic, sitting deep in the center of the saddle, smoothly absorbing the movement of the horse with their core muscles, supple thighs with the legs steady and stretched well down. The heels should be the lowest point with the ankles relatively relaxed. The upper part of the body should be tall and supple demonstrating a vertical alignment of shoulder to hip to heel. The light contact of the rider's hands should be independent from the rider's seat. The hands should be carried steadily in a style appropriate to the style of rein and bit being used with a straight line from the supple elbow through the hand to the horse's mouth. The elbows should be close to the body. All of these criteria enable the rider to follow the movements of the horse smoothly and freely.
2. The rider may use one or two hands with a curb bit but may not go from one handed to two handed during an individual test. The rider may use one or two hands with a curb bit and split reins, but with a Romel, the rider is to only use one hand.
3. Not only the aids of the rider's hands and the legs, but also of the seat are of great importance in Western Dressage. The rider who understands how to properly engage the core muscles at the right moment is able to influence the horse correctly.
4. Accuracy: precise placement of the figures and transitions, the effectiveness of the rider's aids determines the accurate fulfillment of the test. There should always be the impression of a harmonious cooperation between horse and rider.
5. Quiet use of the voice and clicking of the tongue is permitted.

## **SUBCHAPTER WD-5 APPOINTMENTS**

### **WD120 General**

1. At Federation Licensed Competitions, the C2 Steward or the person who is under the direction of the Steward and appointed by the competition management will be responsible for overseeing the checking of the horse, tack, and attire. A horse must be eliminated from the test just completed if the horse or any tack and/or attire are in violation of the rules and/or the tongue has been tied. C2 Stewards or Equipment Inspectors are only required to inspect bits and other appointments on a minimum of one-third of the horses in a class. (See WD124)

### **WD121 Tack**

1. Bridles:
  - a. Any Western type headstall must be used.
  - b. A cavesson (braided or plain), or pencil bosal with space for two fingers placed between the cavesson and the jowl of the horse is allowed. The inside of the noseband must be smooth and free of any metal, other than the buckle.
  - c. A Hackamore (Bosal) is permitted on a horse of any age at any level. A hackamore includes a bosal rounded in shape and constructed of braided rawhide or leather and must have a flexible non-metallic core, attached to a suitable headstall. No other material of any kind is to be used in conjunction with the bosal, i.e. steel, metal or chains. Bosals may be wrapped with smooth electrical tape to prevent rubbing.
  - d. The Western Two Rein bridle is permitted. This is a bridle and bit, snaffle or curb ridden over a full or pencil bosal or bosalita. The following are acceptable ways to hold the reins when using a Two Rein bridle:

1. The two Rein with Snaffle Bit: The two rein with snaffle consists of a snaffle bit and a pencil or full bosal or bosalita. When using a snaffle the rider must ride with two hands whether using a loop rein or split reins. The rider will hold a bosal rein (mecate) and a snaffle rein in each hand.
2. The two Rein with Curb Bit: The rider has the following choices:
  - a. Split Reins: When using a curb bit with Split reins and a pencil bosal or bosalita, the rider can ride with all reins in one hand but can only have one finger between the reins or the rider can ride with a bit rein and a bosal rein in the left hand and a bit rein and bosal rein in the right hand.
  - b. Romal Reins: When using a curb bit with Romal Reins and a pencil bosal or bosalita the rider has two options:
    1. A romal must be held with one hand with the romal coming up from the bottom and out of the top of the hand. The bosal rein can then be held in the opposite hand.
    2. A romal and bosal may be ridden in one hand, the reins coming up from the bottom of the hand and out of the top. No fingers can be between the reins.

Note: When using a curb bit as part of the Western two rein bridle, only a pencil bosal or bosalita can be used, not a full bosal.

The end of the mecate called the tail, can be wrapped around the saddle horn or slipped under the rider's belt.

2. Snaffle Bit:
  - a. A snaffle bit may be used on a horse of any age being ridden at any level.
  - b. A snaffle offers no leverage or curb action.
  - c. A Western Dee bit.
  - d. A standard snaffle is a conventional O-Ring, Egg Butt, Full Cheek (keepers optional) or D-Ring, all with rings having an outside diameter no smaller than 2 inches (50.8 mm), nor larger than 4 inches (101.6 mm). The inside of the circumference of the ring must be free of rein, curb or headstall attachments that would provide leverage.
    1. Bars: Bars of the mouthpiece must be round, oval or egg shaped, smooth and unwrapped, except with **smooth, non-abrasive, self-fusing bit wrap**; and no less than 5/16 inch (7.9 mm) to 3/4 inch (19.05 mm) in diameter measured one inch (25 mm) from the cheek and may be inlaid, if smooth.
      - a. **Electrical tape, duct tape, medical tape, etc. is not self-fusing, therefore, not allowed.**
    2. Three-Piece Mouthpiece: If a mouthpiece is three pieces, a connecting ring must be no larger than 1 1/4 inches (31.75 mm) in diameter, or a connecting piece must be no longer than 2 inches (50.8 mm) and 3/8 inch (9.5 mm) to 3/4 inch (19.05 mm), measured top-to-bottom.
  - e. Any solid mouthpiece or barrel mouthpiece may be used.
  - f. If a bit hobble is used on a ring snaffle it must be attached below the reins.
  - g. No flat, sharp, slow twist, twisted, or pointed edges on mouthpieces are allowed.
3. Curb Bit: There is no discrimination against any standard Western bit.
  - a. A standard Western bit is defined as having a shank with a maximum length overall of 8 1/2" (215.9 mm). The mouthpiece will consist of a metal bar 5/16" (7.9 mm) to 3/4" (19.05 mm) in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or wrapped **with smooth, non-abrasive, self-fusing bit wrap. Electrical tape, duct tape, medical tape, etc. is not self-fusing, therefore, not allowed.** (The bars may be encased in smooth 5/16" (7.9 mm) to 3/4" (19.05 mm) in diameter tubular barrels that rotate around the bars). Nothing may protrude above or below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three-piece mouthpiece may include a connecting ring of 1 1/4 inch (31.75 mm) or less in diameter or a connecting flat bar of 3/8 to 3/4 inch (9.5mm – 19.05 mm) measured top to bottom with a maximum length of 2" (50 mm), which lies flat in the mouth, or a roller or port as described herein. The port must be no higher than 3 1/2 inches (88.9 mm) maximum with roller(s) and covers acceptable. Jointed mouthpieces, half-breeds and spade bits are standard. Wire on the braces (above the bars and attaching to the spade) of a traditional spade bit is acceptable.
  - b. Reins must be attached to each shank.
  - c. Curb chains or straps are required with curb bits **and must be flexible.**

1. Must be flat and must be at least 1/2 inch (12.7 mm) in width and lie flat against the jaw of the horse.
  2. Curb chain may have leather or nylon adjustable straps connecting the buckle to the chain.
  3. No wire, rawhide, metal other substance, or wrapping can be used in conjunction with or as part of the flat leather chin strap or curb chain.
  4. Round, rolled, braided or rawhide curb straps are prohibited.
  5. Leather curb straps may have up to 2 smooth, thin, metal, loop strap keepers.
- d. A slobber guard on a curb bit is permitted. Rein chains with a spade bit are allowed.
4. Bitless Bridles:
- a. A bitless bridle is permitted on a horse of any age at any level.
  - b. All bitless bridles must be of Western style made of flat leather or leather like materials.
  - c. Cross under bitless bridle - a simple and subtle two loop system, one over the poll and one over the nose that embraces the whole of the head, see figure a. and b. No other variations are permissible.

- d. Bitless bridles with sidepulls are prohibited.
5. Reins:
- a. When the rider uses a snaffle bit, the following reins may be used: loop/connected reins, split reins, buckled reins, mecate reins, or Romal reins without a popper; two hands must be used with any of these combinations. Horsehair, rope reins and mecate reins are allowed for bosals and snaffles. The mecate tail can be tied to the saddle horn, held by the rider, or looped in the rider's belt.
  - b. When the rider uses a curb, the following reins may be used: Romal reins, Split reins, loop/connected reins, buckled reins or Romal reins without a popper. When using a curb with Romal reins with a popper, only one hand is allowed; when using other rein choices, one or two hands are allowed.
  - c. Hand position on reins:
    1. In the case of Romal reins, the Romal is held in one hand with no fingers between the individual reins. The end of the Romal may be held in the hand not used for reining to keep the Romal from swinging and to adjust the position of the rein. The reins must be held so that there is at least 16" of rein between the hands.
    2. In the case of when split reins are held in one or two hands, the rider may not switch back and forth during a test. When the split reins are held in one hand, there are two ways that the rider may use them. The rider may put one finger between the split reins; the ends of the reins fall on the side of the reining hand. The rider may hold both reins in one hand without a finger between the reins; the hand must be around the reins. The ends of the Split reins may be held in the hand not used for reining to keep them from swinging and to adjust the position of the reins. No finger is allowed between the reins. The reins must be held so that there is at least 16" of rein between the hands.

3. In the case of looped/connected reins, buckled reins, or Romal reins without a popper, the reins are held in one or two hands; the rider must not switch back and forth during a test. (Exception: Freestyle).
- d. At the end of the Free Walk or Free Jog, riders using split reins held in one hand may use the free or offhand to pull the reins back to the desired length. Riders using Romal reins may use the hand holding the popper to alter the tension or length of the reins from the bridle to the reining hand.
6. Saddle:
 

A standard American Western stock saddle with swells, a seat, cantle, skirt, fenders, and Western stirrups is required. A working Western side saddle is also acceptable.

  - a. Optional and permitted features may include:
    1. Horn
    2. Padding or pads on the seat of saddle
    3. Bucking rolls
    4. Tapaderos, except in Western Dressage Equitation
  - b. The following features and style of saddles are not permitted:
    1. Thigh & knee rolls
    2. Saddles: Australian, Baroque, English, McClellan and Spanish
  - c. Silver equipment will not count over a good working outfit.
  - d. A breastplate, crupper, and/or breeching may be used.
7. Protective "polo" style leg wraps are permitted, either white or a color closely matching the natural color of the horse as much as possible. Bright colors should be avoided.
8. Fly hoods (ear covers) should be discreet in color and design and should not cover the horse's eyes.
9. Whip: One whip no longer than 47.2 inches (120cm) including lash, is permitted in all Classes/Tests.

*BOD 06/17/24 Effective 12/01/24*

## **WD122 Prohibited Equipment**

1. Prohibited Bits:
 

All curb bits must be free of mechanical devices. Nothing such as extensions, rivets or prongs, may protrude below the mouthpiece (bars). Prohibited bits may include but are not limited to:

  - a. Slip or gag bits, half cheeks, snaffle bits with hooks and slots, donut or flat polo mouthpieces and kimberwicks.
  - b. Roping bits with reins attached to a single ring at the center of a cross bar.
  - c. Any rein design or other devices which increase the effective length and thereby the leverage of the shank of a standard western bit.
  - d. Round, rolled, braided or rawhide curb straps are prohibited.
2. Anything that alters the intended use of equipment as provided for in the description of appointments for a given class/test.
3. Use of martingales, bit guards, any kind of gadgets (such as bearing, side, running, balancing reins, nasal strips, tongue tied down, etc.), any kind of boots (including "easy-boots" splint boots, hock boots, bell boots, etc.), tail bandages, any form of blinkers, and nose covers are cause for elimination.
4. Rein additions or attachments which create additional leverage are not allowed.
5. Any decoration of the horse with extravagant items, such as ribbons or flowers, etc. in the mane, tail, etc. Exception: Costumed freestyle.
6. Costumed Freestyle - Any accessories that may frighten other horses and/or threaten the safety of riders in the warm up area may be prohibited in the warm up area, at the discretion of competition management. Horses must wear bridles in all classes.
7. Garrocha poles are prohibited in all classes.
8. Flash, figure eight or dropped nose bands.
9. Mechanical Hackamores.
10. Bitless bridles with sidepulls.

## **SUBCHAPTER WD-6 OFFICIALS**

### **WD124 Judges and Stewards**

1. Western Dressage classes offered at Federation licensed competitions must be judged by a Federation licensed Western Dressage judge in good standing. Any judge officiating Western Dressage classes at a Federation licensed competition must be a current member in good standing with the Western Dressage Association of America.

Exception:

  - a. For Western Dressage Suitability, Western Dressage Hack and Western Dressage Seat Equitation, judged as a group on the rail with the option of individual work rather than as an individual performance, a judge must be a Federation licensed judge in the appropriate breed(s) or a Federation Licensed Western Dressage judge.
  - b. Opportunity Classes must be judged by a Federation licensed judge or an individual who has been issued a Guest Card. Conflict of interest rules in GR1040 apply. See GR1004.
2. For additional restrictions see GR1007 - GR1011.
3. C2 Stewards. A Federation Licensed Competition that offers Western Dressage tests/classes may use either a Federation licensed Category 2 Steward or an inspector designated by show management and under the

direction of the C2 Steward. Tack and bits on both sides of the horse of a minimum of one-third (1/3) of the horses in each class/test must be inspected.

- a. Once the exhibitor leaves the arena, the exhibitor must remain mounted until they reach the C2 Steward or equipment inspector. At that time, the exhibitor will dismount for the equipment inspection. Competitors will be asked to drop the bridle of the horse, removing the bit to below the mouth of the horse. A metal detector and/or magnet may be used to detect the presence of the metal in nosebands. Random pulling of leg wraps will also occur at this time. See also WD120.
- b. Any evidence of blood on the horse's mouth or sides or the addition of substances or devices behind wraps or boots will result in elimination of the entry for that class/test.
- c. The checking of the bridle must be done with the greatest caution, as some horses are very touchy and sensitive about their mouths.
- d. New disposable gloves must be available for and used by bit inspectors if a mouthpiece must be handled by the inspector.
- e. The responsibility for the correct attire and equipment rests with the competitor.

## **SUBCHAPTER WD-7 COMPETITION REQUIREMENTS**

### **WD125 Warm Up Ring and Training Area**

1. The restrictions regarding Prohibited Equipment (see WD122) apply to warm-up and other training areas; however, training martingales (only with snaffle rein or plain snaffle bridle), boots, bandages (without magnets) and earmuffs are permitted. A training martingale consists of a divided strap attached to the girth that does not provide downward pull; the extension of each strap must be connected from the point of division only to the rein on the same side and must be free to slide. The rings through which the reins slide must be connected to a neck strap.
2. Fly hoods (ear covers) that do not cover the horse's eyes are permitted in warm-up and other training areas.
3. Single direct side reins or double sliding reins (triangle reins) are permitted only when longeing (mounted or unmounted). A single direct side rein is defined as an auxiliary rein affixed to the bit and to the girth, saddle or surcingle on the side of the horse (not between the legs).
4. Only one longe line is permitted while longeing in a group setting, two lines are permitted when the horse is being longed alone. A longe line must attach only to the halter, cavesson or snaffle bit of a bridle and go directly to the hand of the longeur.
5. **Only the** following whips are permitted for schooling:
  - a. One whip no longer than 47.2 inches (120 cm), including lash, may be carried by the rider when mounted.
  - b. There is no restriction on the length of whip permitted for working a horse in hand.
  - c. **One longeing whip is permitted only while longeing.**  
**BOD 06/17/24 Effective 12/01/24**

### **WD126 Execution and Judging of Tests**

1. Calling Tests. Western Dressage Tests may be called during the competition. If a test is announced, it is the responsibility of the competitor to arrange for a person to announce the test. Unless an exception is made by the judge, the announcing of the test must start with the first movement. Lateness and errors in announcing the ride will not relieve the rider from "error penalties". Announcing the tests is limited to reading the movement as it is written once only. However, the repetition of reading of a movement is acceptable if there is reason to doubt that the rider heard the original call. For riders exhibiting gaited horses, the announcer may substitute "saddle gait" or the name of the equivalent gait where the test requires a jog.
  - a. All Freestyle Rides must be ridden from memory.
2. Salute. At the salute riders must take the reins in one hand. A lady rider shall let one arm drop loosely along her body and then incline her head in a slight bow; a gentleman rider shall remove his hat and let his arm drop loosely along his body or may render the salute as does a lady rider.
3. Voice. The quiet use of the voice or clicking the tongue once or repeatedly is permitted.

4. Touch. Petting the horse is allowed during the test as a gentle reward.
5. Corners of the Dressage Arena: A rider should ride their horse as deeply as possible into the corners of the Dressage Arena while maintaining impulsion, balance, bend and rhythm.
6. Errors.
  - a. When a competitor makes an “error of the course” (takes the wrong turn, omits a movement, etc.) the Judge warns them by sounding the bell. The Judge shows them if necessary, the point at which the competitor must take up the test again and the next movement to be executed then leaves them to continue by themselves. If the same error is made when the competitor takes up the test again, only one error is recorded.
  - b. Switching from one hand to two hands or vice versa during a test is considered an “error of course”. From time to time an unsafe situation may arise that requires a rider to switch from one hand to two hands, or vice versa, at the discretion of the judge, this may be done without penalty so long as there is no unfair advantage given to the rider.
  - c. Every “error of the course” whether the bell is sounded or not, must be penalized, as noted above:
    1. The first time by 2 points
    2. The second time by 4 points;
    3. The third time the competitor is eliminated. However, at the discretion of the judge, the rider may continue to finish the test. If the competitor’s continued presence in the ring is about to interfere with the start of the next scheduled ride, then the judge must excuse them from the ring.
    4. When the competitor makes an “error of the test” (at the salute does not take the reins in one hand, etc.) they must be penalized as for an “error of the course”.
    5. If the judge has not noted an error the competitor has the benefit of the doubt.
    6. The penalty points are deducted on each judge’s sheet from the total earned by the competitor.
7. Other Errors.
  - a. Entering the arena before the sound of the bell.
  - b. If the rider performs the collected jog rising when a sitting jog is required, the bell must be sounded and the rider warned that this is an error that accumulates if repeated, leading to elimination at the third occurrence.
8. Lameness. In the case of marked lameness the judge informs the competitor that they are eliminated. There is no appeal against this decision.
9. Judging a Test.
  - a. The mark for each movement should first establish the fact of whether the movement is marginal (5 or below) or higher. The judge should state the reason for their judgment, at least when giving marks of 6 and below.
  - b. If a problem appears once it may be treated lightly by the judge; if it appears successively, they will score it more harshly each time, i.e., nodding, stumbling, shying, etc.
  - c. Grinding of the teeth and excessive wringing of the tail are signs of tenseness or resistance on the part of the horse and should be considered in the marks for each movement where they appear, as well as in the Collective Marks. Horses demonstrating relaxed and free carriage of the tail shall be rewarded. Horses that get their tongues over the bit or perform with an open mouth shall be marked down.
  - d. The levels of Western Dressage are offered as a means of evaluating a horse that is changing and developing. The purpose of each test is printed on the cover. The horse shall be considered in light of the degree of training it should have achieved to be shown at that level.
  - e. In the case of a fall of horse and/or rider the competitor will be eliminated.
  - f. If the horse leaves the arena with or without the rider (all four feet outside the fence or line marking the arena perimeter) between the beginning and end of the test, the competitor is eliminated.
  - g. A test begins with the entry at “A” and ends after the final salute, as soon as the horse moves forward; except in Freestyle, where the test begins in the first stride after the salute and ends at the final salute. The competitor should leave the arena at “A” at a walk, on long or loose rein.
  - h. Horses, that enter the arena with their tongues tied down, shall be eliminated.

- i. The judge may stop a test and/or allow a competitor to restart a test from the beginning or from any appropriate point in the test if, in their discretion, some unusual circumstance has occurred to interrupt a test. Time-outs are not permitted in the Western Dressage division.
  - j. After the sound of the bell, the competitor should enter the arena at "A" as soon as possible. Exceeding 45 seconds before entering the arena after the bell has sounded will entail elimination. No competitor can be required to ride prior to their scheduled time without their written consent.
  - k. Any continuing resistance, which prevents the continuation of the test for longer than 20 seconds, is cause for elimination. However, resistance that may endanger the rider, horse, judge or the public will result in elimination for safety reasons earlier than within twenty (20) seconds.
  - l. All movements and certain transitions from one to another, which have to be marked by the judge, are numbered on the judge's sheets. They are marked 0 to 10, 0 being the lowest mark and 10 being the highest. Half marks from 0.5-9.5 may also be used both for movements and collective marks, at the discretion of the judge, and all scores given must be recorded with a decimal (i.e., as 6.0 instead of 6)
10. The scale of marks is as follows:

|    |              |   |               |
|----|--------------|---|---------------|
| 10 | Excellent    | 4 | Insufficient  |
| 9  | Very Good    | 3 | Fairly Bad    |
| 8  | Good         | 2 | Bad           |
| 7  | Fairly Good  | 1 | Very Bad      |
| 6  | Satisfactory | 0 | Not Executed* |
| 5  | Marginal     |   |               |

\* "Not executed" means practically none of the movement has been performed

11. Collective marks are awarded (from 0 to 10, including half marks) after the competitor has finished their performance for:
- a. Gaits: freedom and regularity; elasticity of steps.
  - b. Impulsion: engagement - transmission of an eager and energetic, yet controlled positive forward energy generated from the hindquarters into the athletic movement of the horse; suppleness of the back.
  - c. Rider's position, seat and hands: well-balanced elastic seat demonstrating vertical, centered alignment, with light independent contact from hand(s).
  - d. Rider's correct and effective use of aids: evidenced by the horse's responsiveness, steady elastic connection cultivating athletic expression. Accuracy - precise placement of the figures and transitions, the effectiveness of the rider's aids determines the accurate fulfillment of the required movements of the tests.
  - e. Harmony: The horse accepts the aids and influence of the rider with attention, relaxation, and confidence, and demonstrates a willing partnership between horse and rider resulting in a free flowing performance.
12. Unauthorized Assistance is forbidden under penalty of elimination. Any intervention by a third party with the object of facilitating the task of the competitor, including voice, signals, etc., is prohibited assistance. Except in the case of an error, any outside assistance provided by or not authorized by the Judge will result in elimination. A Judge may not discuss a ride with a competitor before the bell.
13. The execution of the tests is not timed, except for the Freestyle Test. The time shown on the Judge's sheet is for scheduling purposes only.
14. Time-Out: An exhibitor is not allowed to have a time-out in Western Dressage.

## **WD127 Scoring, Classification and Prize-Giving**

- 1. After each performance and after the judge has given their Collective Marks which must be done with due consideration, the judge's sheets pass into the hands of the scorers. Having two scorers is recommended. Scores and comments must be written in ink. It is recommended that adding machine tape is initialed and attached to the test. Any corrected score must be initialed by the judge having made the correction. The

marks are multiplied by the corresponding co-efficient where applicable and then totaled. Penalty points incurred for errors in the execution of the test are then deducted on each judge's sheet.

2. The total score for the classification is obtained by adding the total points. Total final results must be published in marks as well as in percentages with numbers to three places after the decimal point. Scores must be posted on a public scoreboard as soon as possible after each ride or within one hour. The public scoreboard may be in either paper or electronic format. The name of the judge must be posted, as well as the time of the posting.
3. Individual Classification. In all competitions the winner is the competitor having the highest total points. In the case of a tie, it is at competition management's discretion whether to break ties and it must be stated in the prize list. If ties are to be broken, the following process must be followed. Exception:AR278
  - a. The competitor with the highest scores for Collective Marks shall be declared the winner of the tie;
  - b. In the event a tie remains, the competitor with the highest Collective Mark scores by the judge sitting at C shall be declared the winner of the tie;
  - c. In the event a tie still remains, the competitor with the highest free walk score shall be declared the winner;
  - d. In the event there is a tie on the free walk, the competitor with the highest sum of scores with coefficients greater than one shall be declared the winner;
  - e. If a tie remains, the judge(s) must break the tie.
4. Final results for each class must be posted as soon as possible after the class is completed and all results must include total points and percentages with numbers to three places after the decimal point, eliminated horses, and the placing of each horse that receives an award. If a competitor withdraws (scratches) prior to a class or is excused, eliminated or a "no show" prior to or during the performance of a test, the words "scratched", "excused", "eliminated", or "no show" or abbreviations of each, must appear after the competitor's name in the result sheet. The published final results may be in paper or electronic format and must remain posted through-out the entire competition.
5. Video tape may not be used to dispute a judge's decision.
6. A judge is free to leave when all scores from their class/tests are totaled.
7. If a mathematical or judging error, such as speaking aloud during tests or posting when posting is allowed, on the score sheet is discovered, it must be brought to the attention of competition management within 1 hour of the official posting of the scores from the last class of that competition day. Competition Management must announce said posting, and must make test sheets available to competitors immediately.
8. After the awards for a class have been presented, the judge's score sheet should be given to the competitor. The score sheet must be handed directly to the competitor or their representative. Privacy must be maintained.
9. It is recommended that scorers and scribes may not be a competitor, or an owner, coach, trainer or family member of a competitor/horse in the class(es) in which they are scoring or scribing.

## WD128 Elimination

1. Horse and rider combinations shall be eliminated from the competition for "a, f and i" below; horse and rider combination shall be eliminated from the current or next class depending on which is closest to the time the incident occurred for all others, under the following circumstances:
  - a. Misrepresentation of entry or inappropriate entry.
  - b. Blatant disobedience (bucking, rearing, striking, etc.) while riding **in any class**.
  - c. Use of prohibited equipment, including rein holds.
  - d. Unauthorized assistance.
  - e. Three errors of the course or test.
  - f. Horse's tongue tied down.
  - g. Late entry into the arena.
  - h. All four feet of the horse leave the arena with or without rider.
  - i. Cruelty including excessive spurring.
  - j. Resistance of longer than 20 seconds.

- k. Concern for the safety of rider, other exhibitors or their entries
- l. Evidence of blood on a horse in the competition arena shall be cause for elimination from the class by the judge at "C". Evidence of blood on a horse outside the competition arena shall be cause for elimination by competition management, after consultation with the steward, from either the last class in which the horse competed or next class in which it is scheduled to compete, depending on which is closest to the time the incident occurred. Environmental causes such as insect bites shall normally not be cause for elimination.
- m. Failure of the competitor to wear their number.
- n. Fall of a horse and/or rider.
- o. Any situation where a direct rule violation can be cited. Where a violation cannot be cited, a competitor is not eliminated.

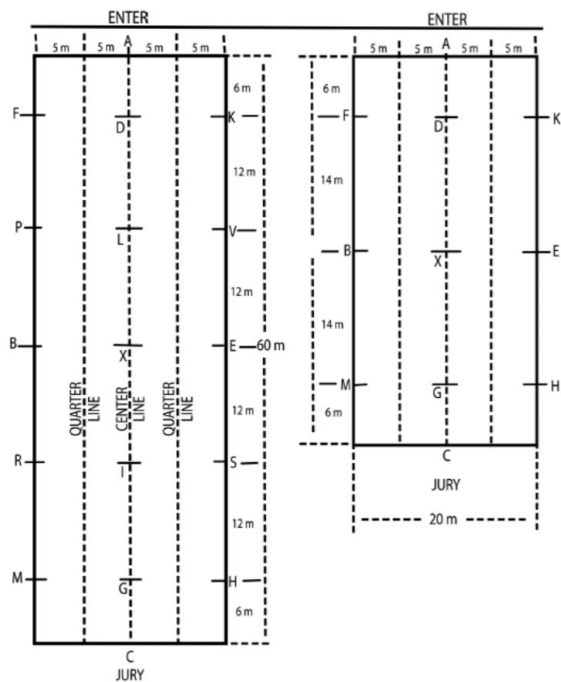

*BOD 06/17/24 Effective 12/01/24*

## **WD129 Requirements for Competition Management**

1. All classes must be listed in the prize list.
2. When permitted by the rules or special criteria, classes may be divided into separate sections based on qualifications, age or other eligibility of horses or riders.
3. Sections of a class are considered to be a separate "class" only if listed as such in the prize list. Sections of a class may be held in different rings and judged by different judges. When sections are held under different conditions (i.e., different ring or judges), separate awards must be given.
4. When entries warrant, competitions are encouraged to split classes into separate sections, and to provide separate awards for Open riders, Amateurs, and Junior. Horses may be ridden only once in any class, including separate sections of the same class and not by multiple riders.
5. Competition Schedule.
  - a. A tentative class schedule must be included in the prize list.
  - b. Organizers must prepare a time schedule including all rides. If possible, competitors should be notified of their riding times prior to arrival at the competition.
  - c. The time schedule must be posted in a conspicuous place by noon the day before the competition. Ride times may not be changed after noon the day before the start of the entire competition without the written consent of the competitor affected. Competitions may reserve the right to fill a competitor's subsequent ride times if that competitor fails to notify the competition secretary of their intention to scratch (i.e. is a "no show").
  - d. Western Dressage classes must be run in their entirety and rides may only be scheduled out of sequence to allow a reasonable interval between two or more horses entered by the same rider in the same class. Also, when preparing a time schedule consideration must be given to riders entered in more than one class or riding more than one horse.
  - e. At least 50 minutes must be scheduled between start times for a rider's tests on different horses unless they have agreed, in writing, to a shorter interval between tests. Time intervals should be allowed between rides for judge's breaks and awards presentations.
  - f. If a competitor cannot show due to the management's change of scheduling on the day a competitor must ride, their entry fees must be refunded.
  - g. Suspension of Judging: If it becomes necessary to interrupt a Western Dressage competition for any reason, the unfinished portion may be recommenced and rescheduled for the same or following day at the option of the Show Committee with the official's consent. All scores recorded before the interruption will stand. When classes are re-commenced after a delay on the same day, competitors must be given at least 30 minutes notice of the starting time. Exhibitors whose ride times are changed to or on a subsequent day as a result of an interrupted competition or inclement weather conditions, must be individually notified at least two hours prior to a rescheduled ride time.
  - h. Prior to the start of a class section, exhibitors and their horses may be provided access to the competition arena. Show management may designate time(s) for this access.
6. Schooling and Longeing.

- a. One or more schooling areas must be provided far enough away from the arena(s) so as not to disturb the competitors during their tests. Schooling areas must be of sufficient size for several competitors to prepare their horses at the same time.
  - b. Competitors will not be allowed in or around the arena while a class is in progress or inside the arena at other times except under the following conditions:
    1. Management must post and announce, in advance, designated times that competitors may school inside the arena(s);
    2. Competitors should be permitted by management or the Judge to enter the arena prior to their ride if arena conditions do not permit riding around the perimeter of the arena prior to entry. Such permission must be announced prior to the start of the class.
  - c. Competitions are permitted to charge warm-up or schooling fees prior to a competition for horses entered in the competition.
7. Judges.
- a. Judges must be given at least a 45-minute lunch break and at least a 10 minute break every 2 hours.
  - b. Judges are not to be housed in private homes unless the judge has agreed to it prior to the competition.
  - c. Judge's comments, while judging, may not be audio-recorded without prior written permission of the judge, the specific competitor(s) and management.
8. Scribes.
- a. Scribes should have knowledge of the tests being ridden.
  - b. Scribes must not be an owner, coach, trainer or family member of a competitor/horse in the class(es) in which they are scribing.
  - c. Scribe changes should not be made more than once per day for each judge.
9. Specifications.
- a. The arena should be on as flat and as level ground as possible.
  - b. The Standard Arena is 60 meters long and 20 meters wide. The Small Arena is 40 meters long and 20 meters wide. Arena measurements are for the interior of the enclosure. The Small Arena is recommended for Western Dressage classes for the Introductory and Basic Levels.
  - c. The Large Arena is required for Level 1 and above.
  - d. The enclosure itself must consist of a low fence about 0.3 meters high and must be completely enclosed, except for the entrance at "A". The width of the entrance must be at least two meters.
  - e. The fence should be such to prevent the horse's hooves from becoming entangled and arena stakes, if used, must be covered with a ball or similar object so as to prevent injury. Rope, concrete or unbreakable chain fencing is not allowed.
10. Location of Judges. The Judge should be placed at the letter "C", an elevated platform or place that ensures safe and good viewing. Additional judges are similarly placed at "E" and/or "B".
11. Footing Maintenance. Competition management must make every effort to provide the best possible footing in competition and schooling areas. The footing in all areas must be as uniform as possible.
12. Schooling/Warm-up Area Supervisor.
- a. The management must appoint a designated person to check saddlery, inspect bits and protective leg wraps in each class under the direction of the C2 Steward.
  - b. Schooling and warm-up areas must be monitored by the designated ring stewards starting at least 30 minutes before the first scheduled ride.
  - c. The designated ring stewards must use new disposable gloves should it be necessary to physically touch the bits.
13. Miscellaneous.
- a. A separate number must be issued for each horse/rider combination. Exception: Arabians see AR112. This number must be worn when the horse is in the designated schooling area and during the competition.
  - b. The Prize List must state if ties will be broken or not. See WD127.3 for tie breaking system.

## SUBCHAPTER WD-8 TESTS

### WD130 General

The WDAA approves and issues tests for use at Federation licensed and WDAA recognized competitions in the United States. Tests cannot be modified without approval of the WDAA with the exception that gaited horses must be ridden at the saddle gait instead of the jog in Western Dressage classes.

A link to the tests is located on the Federation website at [www.usef.org](http://www.usef.org). Competitions are permitted to hold gaited classes but they are to be held as separate classes. If gaited classes are not being held at a competition, then gaited and non-gaited horses are permitted to compete together in the same class. The gaits required in lieu of the jog are defined in Subchapter WD-2.

1. Introductory Level. Tests provide an introduction to the discipline of Western Dressage; the horse performs only at the gaits of walk and jog. The rider may sit or post the jog. The rider should demonstrate correct basic position, use of basic aids, and understanding of the figures. The horse should show relaxation and harmony between horse and rider is important. The horse accepts the aids and influence of the rider. The jog should be a natural gait within the horse's scope and should demonstrate a swinging back. To be eligible for Intro Level, a horse/rider combination must not have shown in a Western Dressage Test at Level 1 or above in the same competition year.
2. Basic. Tests confirm that the horse is supple and moves freely forward in a clear and steady rhythm, accepting light contact with the bit. The horse demonstrates a greater understanding of the aids and calm acceptance of the bridle; greater emphasis is placed on relaxation, willing cooperation, harmony, rideability and pure gaits. The horse is beginning to develop more impulsion and balance.
3. Level 1. Tests confirm that the horse is building on the elements from lower levels and is developing more engagement to show sufficient impulsion as the lengthened jog and lope are performed. The horse demonstrates a more consistent light contact with the bit. These tests introduce some collection and lateral and longitudinal balance, suppleness, and emphasize harmony and rideability.
4. Level 2. To confirm that the horse, having achieved the impulsion required in Level 1, now accepts more weight on the hindquarters (collection); moves with an uphill tendency; especially in the lengthened paces; and is reliably and lightly on the bit. A greater degree of straightness, bending, suppleness, balance and self carriage is required than at Level 1.

5. Level 3. To confirm that the horse has achieved the impulsion required in Level 2, now accepts more weight on the hindquarters (collection); moves with a greater degree of an uphill tendency as required in the collected gaits especially in the collected lope. The horse must maintain a light contact on the bit showing balance, self-carriage and energy that result from improved engagement and weight-carrying by the hind quarters as performed in the collected lope. The movements should be performed with greater bending, suppleness, balance and self-carriage than in Level 2.
6. Level 4. To confirm that the horse has achieved the impulsion, engagement, uphill balance and self-carriage required in Level 3. Level 4 movements should be performed with greater engagement, straightness, suppleness and balance. The marked lightness of the forehand results from a distinct lowering of the haunches and throughness required to perform the partial lope pirouette. A solid foundation is evidenced throughout by a correct, willing, harmonious performance softly on the aids.
7. Level 5. To Confirm that the horse has achieved the suppleness, impulsion, thoroughness and clear uphill balance required in Level 5. The marked lightness of the forehead resulting from improved engagement and collection is demonstrated in the full lope pirouette. The flying lead changes in series reveal the responsiveness and obedience of the horse to the aids. A solid foundation is evidenced throughout by a calm, willing, harmonious performance.

## **SUBCHAPTER WD-9 FREESTYLE**

### **WD131 Western Musical Freestyle**

1. A Western Dressage Freestyle is a performance utilizing the gaits and movements of the discipline ridden to music. Each test includes the required movements, gaits and paces of the standard Western Dressage Tests for that level. The competitor is absolutely free in the form and manner of the presentation they choose within a fixed time provided. The performance should clearly show the unity between rider and horse as well as harmony in all the movements and transitions. The horse and rider should appear as one; lightness of contact is the hallmark of Western Dressage Freestyle.
  - a. The competitor must declare to the management (and consequently the judge) at what level they will be riding.
  - b. The competitor must provide two (2) recordings of the music to which the Freestyle will be performed. Management must provide time for a sound check.
  - c. The Freestyle ride must not exceed the time limit listed on the test. Time begins when the horse moves forward out of the initial halt and ends with the final halt and salute. Both halts are mandatory.
  - d. The judge will provide two (2) sets of scores; one for the technical correctness of the movements performed and one for the artistic merit.
    1. The artistic score is comprised of several elements:
      - a. Harmony between horse and rider.
      - b. Choreography: use of arena, design and creativity. Not "test-like".
      - c. Degree of difficulty: points are only awarded when the attempts are performed well.
      - d. Music: suitability to the horse. Edits in music are smooth/flowing.
      - e. Interpretation: music must express gaits and paces.
    2. Technical correctness:
      - a. Judged on the execution of required technical movements in the test i.e. figures, gaits/paces and transitions.
      - b. Certain movements (leg yield, half-pass etc.) must be performed in both directions.
      - c. Riders are permitted to switch from one hand to two hands or vice versa during their test.
2. Penalties:
  - a. Within 45 seconds of the entry bell the rider must either enter the arena, signal the sound engineer, or be eliminated. The rider must enter the arena within 20 seconds of the start of the music, or may be eliminated, at the discretion of the judge.
  - b. Time Limit Deductions: One (1) point is deducted from the total for artistic merit for exceeding the time limit. There is no minimum time, or specified deduction.

- c. Four (4) points will be deducted for forbidden movements and above the level movements. They are not cumulative and will not result in elimination.

## **CHAPTER WS WESTERN DIVISION**

### **SUBCHAPTER WS-1 GENERAL**

#### **WS101 Eligibility**

Horses may be of any breed or combination of breeds 14.1 hands and over. Junior exhibitor classes are open to horses and ponies. Stallions are prohibited in junior exhibitor classes. Horses must be serviceably sound, in good condition and of stock horse type. A full mane is not required. Entries may be judged for soundness and conformation before entering the arena. Any horse showing evidence of altered tail carriage may be penalized.

#### **WS102 Instructions to Riders**

1. Only one hand may be used on reins and hands must not be changed except to negotiate an obstacle in a Trail Horse Class. Hand to be around reins. When ends of split reins fall on side of reining hand, one finger between reins is permitted. When using a romal, the rider's hand must be closed around the reins with the wrist kept straight and relaxed, the thumb on top. When split reins are used and ends of split reins fall on the same side as reining hand, one finger between reins is permitted. When using a romal or when the ends of split reins are held in the hand not used for reining, no finger between the reins is permitted. The position of the hand not being used for reining is optional, but it should be kept free of the horse and equipment. Rider can hold romal or end of split reins to keep from swinging and to adjust the position of the reins provided it is held with at least 16 inches of slack rein between the hands. The hand must be above or slightly in front of the horn and as near to it as possible.
2. Two hands may be used on hackamore (Bosal) and Western snaffle reins. Hands should be held at approximately the elbow height when elbows are held at rider's side. The acceptable distance of the rider's hands from the pommel of the saddle should be a minimum of six (6) inches with a maximum of twelve (12) inches vertically. Hands should be held no more than riders shoulder width apart. Rider's hands should be steady with very limited movement. Both hands must be visible to the judge. Judges will penalize hand position that does not conform with the description above.

#### **WS103 Conduct**

1. If bridles are to be checked it is the sole responsibility of the judge(s) to do so. The judge may designate the steward to check bridles at the out gate. Riders must dismount.
2. A judge has the authority to excuse any horse from a class, due to lameness, at any time while being judged.
3. Any class with 50 or more entries must be divided. Awards and prize money must be given in each section; add-back money to be awarded according to number of horses in each section.
4. Classes which require individual performances shall have a draw performed by the competition management to determine the horses' order to perform. A systematic rotation of the starting list must be employed so that a complete cycle is made during the competition. This draw to be posted at the back gate, not less than one hour prior to that class. The draw must be adhered to except in the following cases:
  - a. If exhibitor is showing more than one horse, their horses shall be staggered to allow for changing horses.
  - b. No horse shall perform as the first horse in more than one class per competition unless there are more classes than horses.
  - c. An accident.
  - d. Multiple rings showing.
5. Courses or patterns for classes which require individual performance will be posted a minimum of one hour prior to the class. The posted pattern is to be followed unless a change becomes necessary due to safety considerations. In this case, the judge will meet with all exhibitors and explain the change. If a pattern or course is posted and publicly announced, the announcement shall be for the benefit of the audience and if there is any discrepancy between the posted pattern and the announced pattern, the posted pattern is the

pattern to be followed. If there is a discrepancy between the written pattern and the drawn pattern, the written pattern will take precedence.

6. All horses must leave the ring in a forward motion, no backing out of ring. A disqualified or eliminated competitor who continues to school excessively will be asked to leave the arena. Any delay or refusal will subject the competitor to further disciplinary action. No horse or exhibitor will be allowed to enter or show in any class in which they is not eligible. In individual performance classes, an off course will receive no score and no award (Exception: WS114). In classes where horses perform individually, they shall enter the ring one at a time, rather than work out of a lineup in the arena.
7. In the case of a first place tie in the Trail horse and Western Riding classes, tied horses must repeat part of the course or pattern.

## **WS104 Personal Appointments**

1. Competitors must be penalized for incomplete appointments but not necessarily disqualified.
2. Riders must wear a Western hat; long-sleeved shirt any type of collar, (exhibitors in National Show Horse, and Saddlebred divisions must wear a necktie, kerchief or bolo tie) trousers or pants and boots; (a one-piece long-sleeved equitation suit is acceptable provided it includes any type of collar). Chaps, shotgun chaps, **chinks**, and spurs are optional unless riders are showing in trail or pleasure class (riders showing at an Arabian, Half Arabian, Morgan or National Show Horse competition must wear chaps). A vest, jacket, coat and/or sweater may also be worn. Whips are not allowed except with side saddle. (See GR1310.2 Dispensations). Protective headgear may be worn without penalty; not required to be of Western style. Refer to GR801.
3. A side saddle rider must wear an apron of closed or button type with belt under loops. It is suggested that an apron with waist band cut the same as chaps and double thickness, be used in classes where chaps are required.

*BOD 06/17/24 Effective 12/01/24*

## **WS105 Tack**

1. Competitors must be penalized for incomplete appointments but not necessarily disqualified. Entries shall be shown with stock saddle but silver equipment will not count over a good working outfit. A side saddle shall be considered permitted equipment. Breast collars are acceptable. Tapaderos are prohibited.
2. There shall be no discrimination against any standard Western bit. A standard Western bit is defined as having a shank with a maximum length overall of 8 1/2". The mouthpiece will consist of a metal bar 5/16" to 3/4" in diameter as measured one inch in from the shank. The bars may be inlaid but must be smooth or latex wrapped. (The bars may be encased in smooth 5/16" to 3/4" in diameter tubular barrels that rotate around the bars). Nothing may protrude above or below the mouthpiece (bar) such as extensions, prongs or rivets designed to intimidate the horse. Rollers attached to the center of the bit are acceptable, and may extend below the bar. Jointed mouthpieces are acceptable and may consist of two or three pieces and may have one or two joints. A three-piece mouthpiece may include a connecting ring of 1 1/4" or less in diameter or a connecting flat bar of 3/8" to 3/4" (measured top to bottom with a maximum length of 2"), which lies flat in the mouth, or a roller or port as described herein. The port must be no higher than 3 1/2" maximum with roller(s) and covers acceptable. Jointed mouthpieces, half-breeds and spade bits are standard. Slip or gag bits, rigid donut mouthpieces and flat polo mouthpieces are prohibited. Roping bits with both reins connected to a single ring at center of cross bar shall not be used. Reins must be attached to each shank. Any rein design or other device which increases the effective length and thereby the leverage of the shank of a standard western bit is prohibited. Anything that alters the intended use of equipment as provided for in the description of appointments for a given class is considered to be an artificial appliance.
3. Standard snaffle bits are permitted in any class on a junior horse five years old and under. A standard snaffle bit is defined as a center jointed single rounded, unwrapped smooth mouthpiece of 5/16" to 3/4" diameter metal as measured from ring to 1" in from the ring with a gradual decrease to the center of the snaffle. The

rings may be from 2" to 4" outside diameter of either the loose type, eggbutt, dee or center mounted without cheeks. The inside circumference of the ring must be free of rein, curb or headstall attachment hooks. If a curb strap is used it must be attached below the reins. Closed reins (example mecate) on a snaffle bit are prohibited.

4. Hackamores are permitted in any class on a junior horse five years old and under. A hackamore includes a bosal rounded in shape and constructed of braided rawhide or leather and must have a flexible nonmetallic core attached to a suitable headstall. No other material of any kind is to be used in conjunction with a bosal, i.e., plastic, resin, glue, steel, metal or chains (Exception: smooth plastic electrical tape is acceptable if applied in a smooth, untwisted manner). There must be approximately  $\frac{3}{4}$ " between the nose and the bosal. The bosal will be no larger than  $\frac{3}{4}$ " in diameter at the cheek and will flex easily. Attached reins may be of hair, rope, or leather.
5. Horses shall not be shown with artificial appliances that would tend to alter their performance. When a curb bit is used, a curb strap or curb chain is required and must be at least  $\frac{1}{2}$ " in width, lie flat against the jaw, and be free of bars, wire, and/or twists. No wire, rawhide, metal or other substance can be used in conjunction with or as part of the leather chin strap, or curb chains. Rounded, rolled, braided or rawhide curb straps are prohibited. A light lip strap is permissible. Hackamore bits, bosals, cavesson type nosebands, martingales and tie-downs are prohibited. A judge does not have the authority to add or to remove any of the standard equipment as specified above.
6. Bandages and boots of any type are prohibited. In the event of injury, the Judge may permit a protective bandage. In Working Cow Horse classes, the use of shin, bell boots and/or protective bandages on the front legs and standard sliding or rundown boots on the rear fetlocks are permitted.

#### SOME ACCEPTABLE CURB CHAINS

**CORRECT METHOD OF MEASURING OVERALL BIT LENGTH. A VERTICAL LINE FROM THE UPPER MOST PART OF HEADSTALL SLOT TO THE REIN RING.**

### **WS106 Amateur**

Refer to General Rules, GR1306 regarding amateur status. When dividing by age of rider, no horse may compete in more than one age section of the same class (Exception: Arabian and Morgan Divisions).

### **WS107 Amateur Owners**

To be ridden by Amateur Owners or an amateur member of the owner's family. In either case classes are restricted to riders who are no longer eligible to compete as a Junior Exhibitor. Leased horses are not eligible and multiple ownership is not permitted unless all owners are members of the same family. An Amateur who rides for a person outside of their family may not ride in a class restricted to Amateur Owners in the same competition. If a class is divided by age, the age split must be stated in the prize list.

### **WS108 Maiden, Novice, Limit**

Ribbons won in classes at Federation Recognized Competitions and in classes at competitions recognized by any breed organization count in reckoning a horse's Maiden, Novice or Limit status (See GR136.)

### **WS109 Snaffle or Hackamore Horse**

A snaffle or hackamore horse is a junior horse and may be shown in a ring snaffle or hackamore with two hands (both hands must be visible to the judge) and may also be shown in a bridle (one handed). A junior horse may be switched back and forth from a bridle to snaffle or hackamore (Arabians, Half Arabians, National Show Horses, and may not switch back and forth from a bridle to snaffle or hackamore with the exception of Arabian and Half Arabian classes within the Working Western subchapter).

## **WS110 Falls**

A fall of a horse and/or rider in a working cow, trail, or western riding class will result in a score of zero. A fall in a Western Pleasure class will be cause for elimination (GR118). For definition of a fall in working cow classes see WS114, for pleasure, trail and western riding see GR122.

## **SUBCHAPTER WS-2 WORKING COW HORSE SECTION**

It is the intent of the Federation Western Committee to comply with the National Reined Cow Horse Association (NRCHA) rules and refer to Chapter 6 Broken Equipment, Chapter 18 Scoring, Chapter 19 Judging, Chapter 20 Patterns, Chapter 21 Pattern Description (Maneuvers) and Chapter 22 Judges Score Sheet regarding working cow classes held at licensed competitions. For further information regarding the conduct of Working Cow competitions, contact the NRCHA.

## **WS111 Working Cow Horse**

The working cow horse class consists of two mandatory phases, the reined work and the cow work. (Exception: In the Arabian and Half/Anglo Arabian Division, only cow work is required in Working Cow classes but both phases are required in Reined Cow Horse classes.) Each phase will have equal bearing and the final placings will be determined by the total of both scores. In cases of ties for first place the entry with the highest cow work score will prevail. If the cow work scores are identical, the tied entries for first place will work off with an additional cow work. All ties for other than first place will remain tied for points and prize money purposes and riders will flip for ribbons. Horses receiving a zero score in one phase and a score in the other are eligible for placing. Horses receiving a zero in both phases or a no score in either or both phases are ineligible for placing.

Riders will be permitted to inspect the course on foot during the Judge's instructions prior to the start of the class. Tests which may be required are negotiating gate, carrying objects from one part of arena to another, riding through water, over logs or simulated brush, riding down into and up out of ditch without lunging or jumping, crossing a bridge, backing through obstacles, sidepassing, and performing over any reasonable conditions encountered along the trail. However, unnatural obstacles, such as fire extinguishers, perforated plywood in water boxes, animals, haybales or unsafe elements shall not be used. Course to include a minimum of six obstacles. Care in preparing the course should be exercised to prevent a direct advantage to either a small or large horse. Rider's hands shall be clear of horse to avoid cueing. Horses to be penalized for any unnecessary delay while approaching obstacle. Judges are encouraged to advance on to next obstacle any horse taking excessive time at an obstacle. Two or more horses may be entered by the same exhibitor and the same rider may elect to show more than one horse. Obvious unsoundness must be disqualified with no prize awarded. Rail work shall not be required.

### **WS121 Green Trail Horse**

A Green Trail Horse is a horse of any age that has not been shown in Trail Horse classes prior to December 1 of the previous year.

### **WS122 Conduct**

1. Management may select a particular scoring system or allow the judge to use a system of their choice. (See WS124 for optional systems.)
2. This class will be judged on the performance of the horse over obstacles, with emphasis on manners, response to the rider, and quality of movement. Credit will be given to horses negotiating the obstacles with style and efficiency, providing correctness is not sacrificed. Horses should receive credit for showing attentiveness to the obstacles and the capability of picking their own way through the course when obstacles warrant it, and willingly responding to the rider's cues on more difficult obstacles.
3. Horses shall be penalized for any unnecessary delay while approaching or negotiating the obstacles. Horses with artificial appearance over obstacles should be penalized.

4. Horses must not be required to work on the rail. The course must be designed, however, to require each horse to show the three gaits (walk, jog at least 30 feet, lope right and left lead) somewhere between and or over obstacles as a part of its work, and quality of movement and cadence should be considered as part of the maneuver score.
5. The course to be used must be posted at least one hour before scheduled starting time of the class.
6. Refer to WS126 for mandatory obstacle dimensions.
7. The judge may alter the course prior to the course walk.
8. If at any time the trail obstacle is found to be unsafe, it shall be repaired or removed from the course. If it cannot be repaired and horses have completed the course, the score for that obstacle shall be deducted. No horse shall be asked to repeat the course, except in the case of a tie.
9. All entered exhibitors will be allowed to walk and inspect the course with the judge and the course designer, if present, prior to the start of the class. In amateur and junior exhibitor classes, exhibitors may be accompanied by their trainer.
10. Recommended that a course should be no longer than 2 minutes per horse.
11. Recommended to have at least 30 feet between obstacles, when arena is big enough to permit it. Not recommended for walkovers/bridge/back through combinations.
12. No Time Outs will be allowed.

  - b. Evading or running past an obstacle.
  - c. Each complete loss of the gate.

  - b. Negotiating an obstacle from the wrong side
  - c. Skipping an obstacle unless directed by the Judge.

2. Scores to be announced following the conclusion of each work and before the next horse begins the course.

5. All horses enter the arena with a score of 70. With each obstacle, the judge will instruct a scribe to assign a score as well as any appropriate penalties if one or more occurs. At the end of the work, obstacle scores will be totaled. Any penalties will then be subtracted to arrive at a final score. All horses are judged from the time they enter the arena until the completion of the last obstacle.

7. In the case of a displaced obstacle not being corrected the judge may grant a re-ride.

8. Scoring will be on the basis of 0-infinity, with 70 denoting an average performance. Each obstacle will receive an obstacle score that should be added or subtracted from 70 and is subject to a penalty that should be subtracted. Each obstacle will be scored on the following basis, ranging from plus 1 1/2 to minus 1 1/2: -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, +1/2 good, +1 very good, + 1 1/2 excellent. In all classes in this section, horses are to be shown at a flat footed four-beat walk; free moving easy riding two-beat jog, and three-beat lope both ways of the ring on a reasonably loose rein without undue restraint. Extended gaits may be called for by the judge. Entries shall be penalized for being on the wrong lead. Special emphasis shall be placed on the walk. Horses may be asked to back at judge's discretion. All horses chosen for a workout must be worked both ways of the ring at any gait requested by the judge.

## **SUBCHAPTER WS-5 WESTERN RIDING HORSE SECTION**

### **WS130 Working**

Western Riding is an event where the horse is judged on quality of gaits, lead changes at the lope, response to the rider, manners and disposition. The horse should perform with reasonable speed, and be sensible, well-mannered, free and easy moving.

### **WS131 Credit**

Credit shall be given for and emphasis placed on smoothness, even cadence of gaits, and the horse's ability to change leads precisely and easily rear and front at the center point between markers. The horse should have a relaxed head carriage showing response to the rider's hands, with a moderate flexion at the poll. Horses may be ridden with light contact or on a reasonably loose rein. The horse should cross the log at both the jog-trot and lope without breaking gait or radically changing stride.

### **WS132 Patterns**

1. The judge will select one of the four patterns to be performed. The judge is responsible for the pattern being correctly set.
2. On the pattern:
  - a. The eight small circles represent pylon markers which are recommended. These should be separated by a uniform measured distance of not less than 30 feet nor more than 50 feet on the sides with 5 markers. In pattern one, the three markers on the opposite side should be set adjacent to the appropriate markers. It is recommended that markers be set a minimum of 15 feet from the fence and with 50 to 80 foot width in the pattern, as the arena permits.
  - b. A solid log or pole should be used and be a minimum of 8 feet in length.
  - c. The long serpentine line indicates the direction of travel and gaits at which the horse is to move. The shaded area represents the lead changing area between the markers. The dotted line (...) indicates walk, the dash line (—) jog, and the solid line (\_\_\_) lope.

## WS133 Scoring

Scoring will be on a basis of 0-100 with 70 denoting an average performance. Scoring guidelines to be considered: points will be added or subtracted from the maneuvers on the following basis, ranging from plus 1 1/2 to minus 1 1/2; -1 1/2 extremely poor, - 1/2 poor, 0 average, +1/2 good, +1 very good, +1 1/2 excellent. Maneuver scores are to be determined independently of penalty points.

## WS134 Penalties

An exhibitor shall be penalized for:

1. Five Points
  - a. Out of lead beyond the next designated area (note: failures to change, including cross-cantering. Two consecutive failures to change would result in two five-point penalties)

4. One-Half Point
  - a. Tick or light touch of log
  - b. Hind legs skipping or coming together during lead change

## **WS136 Faults**

1. The following characteristics are considered faults and should be judged accordingly:
  - a. Opening mouth excessively or raising head on maneuvers.
  - b. Anticipating signals or early lead changes.
  - c. Stumbling.
  - d. Any unnecessary aid given by the rider, such as: unnecessary talking, petting, spurring, quirting, or jerking of the reins.

## **SUBCHAPTER WS-6 RANCH SECTION**

### **WS138 General Rules**

#### 1. Tack/equipment

Refer to WS105 for Tack and Equipment rules except as seen below

- a. In Ranch classes involving Cows, the use of shin, bell boots, and/or protective bandages on the front legs and standard sliding or rundown boots on the rear fetlocks are permitted
- b. Braiding or banding of the mane is prohibited
- c. Tail extensions are prohibited
- d. Silver on bridles and saddles is discouraged
- e. Trimming of bridle path, fetlocks, facial hair, and ears is permitted but a horse left in a natural state will not be penalized.
- f. Clear Hoof Polish is permitted
- g. Tongue Tying is prohibited
- h. Competitors are encouraged to use a breast collar and a rear cinch
- i. Romal reins are allowed in all classes, including Ranch Cutting. When riding with a romal, a get down rope may be used. A get down rope is defined as a small rope tied around the neck of the horse with a bowline or other non-slip knot and run back to the exhibitor or tied to the saddle. The get down can be used to lead, ground tie, or tie the horse. A get down rope may also be attached to a bosilito defined as a noseband typically of braided rawhide used with a headstall or hanger and worn under the bridle. The diameter of the noseband is ¼ inch or less.

#### 2. Attire

Refer to WS104 for Attire rules

#### 3. Class definitions

- a. Open: Open to all exhibitors
- b. Junior Exhibitor: See GR128 for age definition
- c. Adult (senior): See GR101 for age definition
- d. Amateur: See GR105 and GR106 for age definition and eligibility rules
- e. Green Horse: Horse must not have been shown in any ranch class in any prior year (this includes showing in a snaffle bit or hackamore). The horse may be shown using one or two handed with any permissible bit but may not switch back and forth upon entering the arena.
- f. Green Exhibitor: Open to any exhibitor who has not trained a ranch horse for remuneration, has not won a World, Reserve World, Grand National or Reserve Grand National title in a ranch class. The exhibitor does

not have to own the horse being shown. The horse may be shown multiple times with different exhibitors but is limited to being shown 3 times per class. An exhibitor may show either one or two handed with any permissible bit but may not switch back and forth upon entering the arena. Entry may execute either a flying lead change or a simple lead change. The intent is to have an introductory class for new ranch exhibitors. Classes may be subdivided by age of exhibitor status (Open/Amateur/Non-Pro) if desired by Show Management.

- g. Non-Pro: A Non-Pro is defined as a person who has not received direct (money) or indirect (goods or services) remuneration for training or showing astride in any equine discipline or giving instruction on showing or training of a performance horse. An exhibitor may be of any age and the exhibitor does not have to own the horse being shown.

#### 4. Horse/Class restrictions

- a. There is no restriction on the number of horses an exhibitor may show in a class
- b. No horse may be shown more than once per class in Ranch classes except for Green Exhibitor classes, see WS138.3f.
- c. All horses may be shown in one class (ie. Stallion, mares, and geldings).
- d. Substitution of exhibitors: Competition management may only allow substitutions in the case of injury.
- e. The exhibitor in a championship class does not have to be the same as the exhibitor in the qualifying class, with the exception of Recognized Affiliate or Federation championship, final, or world competition where the exhibitor must be the same.
- f. Horses may be shown one-handed in a bridle or two-handed in a Hackamore or Western Snaffle reins in any Ranch Class regardless of age
  - 1. Exception: see breed chapter for breed restricted classes

#### 5. Order of Go Process

- a. The order of go will be drawn in a random manner (computer/electronically)
  - 1. Exhibitors with multiple horses will not be shown back- to- back where the total number of horses entered permits. When the number of horses in a class permits, exhibitors with multiple horses must be drawn with a minimum of two (2) horses between runs.
  - 2. No horse is permitted to perform as the first horse in more than one class (go-around/section) per competition unless there are more classes than horses. The number drawn will be that exhibitors order of go. No changes with the exception of extraordinary circumstance as determined by the judge(s) and steward(s).
- b. The order of go will be posted at least one (1) hour before the start of the class.
- c. When specified patterns are required, patterns for each class must be posted at least one (1) hour prior to the start of the class. The posted pattern is to be followed unless a change becomes necessary due to safety reasons. If a pattern or course is posted and publicly announced and there is a discrepancy between the posted and the announced pattern, the posted pattern is to be followed.
- d. The use of video footage for Judge's review is permitted when available.

#### 6. Scoring Process

SCORING SYSTEM: Unless otherwise listed for a specific class, each horse/exhibitor team is scored between 0-100 points and automatically begins the run with a score of 70 points. The horse/exhibitor team is scored on the quality of each maneuver (e.g. -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, + 1/2 good, +1 very good, and +1 1/2 excellent). Pluses and minuses are a reflection of the smoothness, finesse, attitude, quickness, and authority of the horse/exhibitor team when performing the various maneuvers. Maneuver scores are to be determined and assessed independently of penalty points.

#### 7. Licensed Officials

A Federation licensed Arabian, Morgan/Roadster/Saddlebred, or Western judge must officiate Ranch classes. A judge licensed by the National Reining Horse Association (NRHA), National Reined Cow Horse Association (NRCHA), or judges licensed in a non-affiliated breed for western classes (i.e. AQHA, APHA, ApHC, etc.) may officiate Ranch classes with a Guest Card.

- A. Exception: See MO201 for Morgan working western requirements.

#### 8. Shoeing regulations

- a. A single pad per hoof is only permitted for therapeutic reasons.
- b. See breed chapter for shoeing regulations regarding breed restricted classes

## 9. Gaits

In all gaits, movement of the ranch horse should simulate a horse needing to cover long distances, softly and quietly, like that of a working ranch horse with a natural topline and a bright, attentive expression, as a representation of their breed and conformation as a working ranch horse. The following terminology applies:

- a. Walk- The walk is a natural, flat footed, four-beat gait. The gait is rhythmic and ground-covering. As in all gaits, the horse should display a natural topline with a bright, attentive expression.
- b. Trot- The trot is a natural two-beat gait demonstrating more forward motion than the western jog.
- c. Extended Trot- The extended trot is an obvious lengthening of the stride with a definite increase in pace. The horse should be moving in a manner as if it were covering a large area on a ranch with an above level topline. Posting at the extended trot is acceptable.
- d. Lope- The lope is a three-beat gait. The lope should be relaxed and smooth with a natural, forward moving stride.
- e. Extended Lope- The extended lope is not a run or a race but should be an obvious lengthening of the stride, demonstrating a forward, working speed. The horse should display a natural topline with a bright, attentive expression.

## WS139 Ranch Horse Riding

### 1. Eligibility

- a. The purpose of the ranch riding class is to measure the ability of the horse to be a pleasure to ride while being used as a means of conveyance from performing one ranch task to another. The horse should reflect the versatility, attitude, and movement of a working ranch horse riding outside the confines of an arena. The horse should be well-trained, relaxed, quiet, soft, and cadenced at all gaits. The ideal ranch horse will travel with forward movement and demonstrate an obvious lengthening of stride at extended gaits. The horse can be ridden with light contact or on a relatively loose rein without requiring undue restraint, but not show on a full drape of reins. The overall manners and responsiveness of the ranch riding horse to make timely transitions in a smooth and correct manner, as well as the quality of the movement are of primary considerations. The ideal ranch riding horse shall have a natural head carriage at each gait.
- b. Open to horses three (3) years of age or older. Classes may be restricted to junior exhibitor, senior, amateur, or held as all-age open division.

### 2. Class Specifications

- a. Each horse will work individually, performing both required and optional maneuvers, and scored on the basis of 0 to 100, with 70 denoting an average performance. Each maneuver will receive a score that should be added or subtracted from 70 and is subject to a penalty that should be subtracted. Each maneuver will be scored on the following basis, ranging from plus 1 1/2 to minus 1 1/2.: -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, +1/2 good, + 1 very good, + 1 1/2 excellent. Maneuver scores are to be determined and assessed independently of penalty points.
- b. The required maneuvers will include the walk, trot, and lope both directions and the extended trot and extended lope at least one direction, as well as stops and back.
- c. Three optional maneuvers may include a side pass, turns of 360 degrees or more, change of lead (simple or flying), walk, trot, or lope over a pole(s); or some reasonable combination of maneuvers that would be reasonable for a ranch horse to perform.
- d. The maneuvers may be arranged in various combinations with final approval by the judge.
- e. The overall cadence and performance of the gaits should be as those described in WS141 Gaits, with an emphasis on forward movement, free-flowing, and ground covering for all gaits. Transitions should be performed where designated, with smoothness and responsiveness.

f. One of the suggested patterns may be used (found on the Federation website), however a judge may utilize a different pattern, as long as all required maneuvers and the three (or more) optional maneuvers are included. Should a judge use one of their own patterns, it is recommended to not have the stop following an extended lope.

### 3. Conduct

- a. There is no time limit.
- b. The use of natural logs is encouraged.
- c. Posting or standing in the stirrups at the extended trot is acceptable.

### 4. Penalties

- a. A contestant must be penalized each time the following occur:
  1. One (1) point penalties:
    - a. Too slow/per gait
    - b. Over-Bridled
    - c. Out of Frame
    - d. Break of gait at walk or trot for two (2) strides or less
    - e. Splitting log or rail at lope
  2. Three (3) point penalties:
    - a. Break of gait at walk or trot for more than two (2) strides
    - b. Break of gait at lope; wrong lead or out of lead
    - c. Excessive draped reins
    - d. Severe disturbance of any obstacle
    - e. Out of lead for more than 2 strides when changing leads
    - f. Trotting more than three strides when making a simple lead change
  3. Five (5) point penalties:
    - a. Blatant disobedience (kick, bite, buck, rear, etc.) for each refusal
  4. **Ten (10) point penalties:**
    - a. **Off Pattern, including: eliminates or adds maneuver, incomplete maneuver, and wrong sequence**
  5. Zero (0) score:
    - a. Prohibited equipment including, but not limited to, hoof black, braided or banded manes, or tail extensions
    - b. Willful abuse
    - c. Major disobedience or schooling
    - d. Lameness
    - e. More than one finger between split reins or any fingers between romal reins
  6. No specific penalties will be incurred for nicks/hits on logs or rails but deduction may be made in maneuver score.
  7. No specific penalties will be incurred for over/under spins but deduction may be made in maneuver score.

*BOD 06/17/24 Effective 12/01/24*

## WS140 Ranch Horse Cow Work

### 1. General Information

- a. The ideal Ranch horse must also be a cow horse and this class demonstrates and measures the horse's ability to do cow work. In addition, the ideal ranch cow horse should have a natural ranch horse appearance from head to tail in each maneuver. Holding the saddle horn is permitted.
- b. There is a time limit per horse/exhibitor team to perform the work and the time begins when the gate closes behind the cow after being let into the area. If the time has not elapsed and the judge is satisfied that all requirements of the class have been met, the judge should blow the whistle for the exhibitor to cease work.
- c. The judge may blow a whistle at any time for the exhibitor to cease work for safety reasons.
- d. Judges will give credit for what they have seen.
- e. Only the judge may award a new cow to a contestant to replace a cow that will not honor a horse. If the judge awards a new cow, the exhibitor has the option to refuse the new cow by continuing to work. If the exhibitor accepts the new cow, the time for working the cow will start over. If the exhibitor intends to accept the new cow, the exhibitor must pull up immediately.
- f. When multiple judges are scoring, any one of the judges may terminate the work or signal for a new cow.

- g. Exhibitors in the Ranch Horse Cow Work cannot compete in both the Ranch Horse Cow Work, Reined Cow Horse or Working Cow Horse class at the same show with the same horse. However, exhibitors may cross-enter Ranch Horse Cow Work and Limited Reined Cow Horse Classes.

## 2. Conduct

- a. Exhibitors in Ranch Horse Cow Work are allotted one minute and thirty seconds to complete the work. The announcer will announce when there are thirty seconds remaining. At one minute and thirty seconds, the announcer will call for time. Exhibitors are not required to use all of the allotted time, but must ride until the judge whistles the end of the run or time expires, whichever occurs first. There are four parts to the work: boxing the cow; setting up the cow and driving it down the fence to the opposite end of the arena; boxing the cow at the opposite end of the arena; and, then driving the cow past the middle marker again. There is no expectation that the exhibitor will make a “fence turn,” rather the drive down the fence demonstrates correct position and control around the corner.
  1. Part One- Boxing the Cow: The exhibitor shall ride into the arena, face the cattle entry gate, and signal for their cow to be turned into the arena. The cow shall be controlled on the entry end of the arena for a sufficient amount of time to demonstrate the horse’s ability to “hold” the cow. If the cow does not immediately challenge the horse, the exhibitor shall aggressively move in on the cow to demonstrate the horse’s ability to drive and block the cow.
  2. Part Two- Set Up Cow and Drive Down Fence to Opposite End of the Arena: After the cow has been controlled on the entry end of the arena, the exhibitor shall set the cow up for driving down the side of the arena. When coming out of the corner, the horse shall be close enough to the cow to demonstrate control with the cow against the fence. This distance and control should be maintained for approximately  $\frac{1}{2}$  to  $\frac{3}{4}$  the length of the arena. The exhibitor will then stop and release the cow and move the horse toward the center of the arena to set the cow up for boxing on the opposite end of the arena.
  3. Part Three- Boxing the Cow at Opposite End of Arena: The exhibitor will regain control or “hold” the cow at end of the arena to demonstrate the horse’s ability to “hold” the cow.
  4. Part Four- Drive the Cow Back Down the Fence: Past the middle marker and continue until the judge blows the whistle to show completion. The cow should be driven back down the same side of the fence.
- b. Credits and Penalties
  1. All runs begin upon entering the pen; any infractions (such as two hands on the reins, using either hand to instill fear or praise, etc.) are subject to penalty at that time.
  2. During the “Boxing” portion of the run, credit will be given for the horse’s expression and its “cow sense” (i.e. making moves with little exhibitor assistance); holding, controlling, and turning the cow; the amount of work actually done; and the degree of difficulty of the work.
  3. Credit will be given during the “Set Up Cow and Drive Down Fence” for rating the cow; blocking the cow with pressure towards the end of the arena; driving the cow with control down the side of the arena; and controlling a difficult cow.
  4. Penalties will be assessed as follows:
    - i. One (1) Point Penalties:
      1. Over-bridled (per maneuver)
      2. Out of frame (per maneuver)
      3. Loss of working advantage
      4. Driving cow down the opposite fence (changing sides)
      5. Working out of position
      6. Slipping rein
      7. Failure to drive cow past the middle marker on second drive before time expired
    - ii. Three (3) Point Penalties:
      1. Knocking down the cow without having a working advantage

      2. Blatant disobedience
      3. Use of either hand to instill fear or praise

## WS141 Ranch Horse Rail Pleasure

1. General Information
  - a. The ranch horse rail pleasure class measures the ability of the horse to be a pleasure to ride while being used as a means of conveyance from one ranch task to another and should reflect the versatility, attitude, and movement of a working horse. The horse should be well-broke, relaxed, quiet, soft, and cadenced at all gaits. The horse should be ridden on a relatively loose rein with light contact and without requiring undue restraint. The horse should be responsive to the exhibitor and make timely transitions in a smooth and correct manner. The horse should be soft and quiet in the bridle and yield to contact from the rein. The ideal ranch rail pleasure horse should have a natural head carriage comfortable for the horse at each gait.
  - b. In all gaits, movements of the ranch rail pleasure horse should simulate a horse needing to cover long distances, softly and quietly, like that of a working ranch horse.
  - c. This class should show the horse's ability to work at a forward, working speed while under control by the exhibitor. Light contact should be rewarded and horse must not be shown on a full drape of reins. The overall manners and responsiveness of the horse while performing the maneuver requirements and the horse's quality of movement are the primary considerations.
2. Eligibility
  - a. Open to horses three (3) years of age or older. Classes may be restricted to junior exhibitor, senior, amateur, or held as all-age open division.
  - b. Horses may cross-enter with any other pleasure class at the same competition.
3. Class Specifications
  - a. Horses to enter at walk or trot in either direction at discretion of the judge. Entries will be worked both directions of the ring at all qualifying gaits. The overall manners and responsiveness of the horse while performing the requirements and the horse's quality of movement are the primary considerations.
  - b. Part of the evaluation of this class is on smoothness of transitions. A horse may be collected from the extended trot as the horse moves into the lope. The transition from the extended lope down to the trot is a transition to the seated trot, not the extended trot. Therefore, an extra cue to achieve this gait is expected. Horses that complete this total transition within three (3) strides calmly and obediently should be rewarded. Horses that attempt to stop or do stop prior to trotting will be penalized.
  - c. Judges expect to see horses that have been trained to respond to cues and when cues are applied correctly, it could be a credit earning situation.
  - d. A ranch horse should be willingly guided or controlled with little or no apparent resistance. Any movement on their own must be considered a lack of control.
  - e. This class is intended as a rail class but individuals working off the rail will not be penalized, and exhibitors are encouraged to use adequate space given the extension of gaits required.
4. Penalties
  - a. An exhibitor must be penalized for:
    - i. Too slow a gait
    - ii. Over-bridled
    - iii. Out of frame
    - iv. Break of gait

- v. Wrong lead, out of lead, or cross-cantering
  - vi. Draped reins
  - vii. Trotting more than two strides when taking lead
  - viii. Blatant disobedience (kick, bite, buck, rear, etc.)
  - ix. Schooling
  - x. Spurring in front of cinch
  - xi. Use of either hand to instill fear/ praise
- b. A disqualification will be given for Lameness

## WS142 Ranch Horse Trail

### 1. General Information

- a. The Ranch Trail class should test the horse's ability to cope with situations encountered while being ridden through a pattern of obstacles generally found during the course of everyday ranch work. The horse/exhibitor team is judged on the correctness, efficiency, and pattern accuracy with which the obstacles are negotiated, and the attitude and mannerisms exhibited by the horse. Judging emphasis is on identifying the well broke, responsive, and well-mannered horse which can correctly navigate and negotiate the course. The ideal ranch trail horse should have a natural appearance from head to tail in all maneuvers.
- b. When ground-tying with split reins, one or both reins may be dropped, romal reins may be loosely draped over the horse when used with or without a get-down rope. Hobbles are allowed.

### 2. Conduct

- a. The trail course should be posted at least one (1) hour prior to competition. Printed handouts for the exhibitors are helpful and encouraged.
- b. The ranch trail course will include no less than six and no more than ten (10) obstacles. The horse must be asked to walk, trot, and lope during the course. Walk can be part of the obstacle score or be scored with the approaching obstacle. Trot must cover at least 35 feet and be scored with the approaching obstacle. Lope must be lead-specific in the pattern, at least 50 feet and scored with approaching obstacle. Care must be exercised to avoid setting up any obstacles that may be hazardous to the horse or exhibitor. The course must be designed using the mandatory obstacles and maneuvers plus optional obstacles. Combining two or more of the obstacles is acceptable.
- c. When setting courses, management will be mindful not to trap a horse/exhibitor team or eliminate it by making an obstacle overly difficult. All courses and obstacles should be constructed with safety in mind so as to reduce the risk for accidents. Show committee will have the option of setting up the course to best fit the arena conditions. An outdoor course is encouraged wherever available with appropriate terrain. Each single-performance event can be time consuming, especially with large classes, so it is imperative that time restrictions are placed on the class. The show committee, either through a pilot run or estimation, shall select a course that has continuous and positive flow that can be negotiated in four (4) minutes or less.
- d. If mounting/dismounting is required in the pattern, a safe mounting step must be provided. Use of a ground tie maneuver in a pattern is only to be used if there is an appropriate arena enclosure. Use of livestock (cattle, sheep, goats) is allowed but only where there is appropriate livestock containment equipment.
- e. The judge or judges must walk the course and should alter the course if it is not in keeping with the intent of the class. Judges may remove or change any obstacles they deem unsafe, unnavigable, or unnecessarily difficult. Any time a trail obstacle becomes unsafe during a class it shall be repaired or removed from the course. If the obstacle cannot be repaired and some horses have completed the course, the score for that obstacle shall be deducted from all previous draws in that class.

### 3. Eligibility

- a. Open to horses three (3) years of age or older. Classes may be restricted to junior exhibitor, senior, amateur, or held as all-age open division.
- b. Horses may cross-enter with any other Trail class at the same show.

### 4. Class Specifications

- a. All entries will be judged upon entering the arena and any infractions are subject to penalty at that time. The exhibitor has the option of eliminating any obstacle in the pattern; however, this will result in being "off pattern" (OP) and the horse/exhibitor team may not place above others who have completed the pattern entirely. A judge may ask a horse to pass on an obstacle after three (3) refusals or at any time for safety concerns.

- b. Each horse will work individually, performing both required and optional maneuvers, and scored on the basis of 0 to 100, with 70 denoting an average performance. Each maneuver will receive a score that should be added or subtracted from 70 and is subject to a penalty that should be subtracted.
  - c. Each maneuver will be scored on the following basis, ranging from plus 1 1/2 to minus 1 1/2.: -1 1/2 extremely poor, -1 very poor, -1/2 poor, 0 correct, +1/2 good, + 1 very good, + 1 1/2 excellent. Maneuver scores are to be determined and assessed independently of penalty points.
5. Credits and Penalties
- a. Credit is given to horse/exhibitor teams who negotiate the obstacles correctly and efficiently. Horses should receive credit for showing attentiveness to obstacles and ability to negotiate through the course when the obstacles warrant it while willingly responding to exhibitor's cues on more difficult obstacles. Quality of movement and cadence should be considered part of the maneuver score for the obstacle.
  - b. Exhibitors will not be penalized for touching/holding the saddle horn during extended gaits (extended trot, extended lope) or while working obstacles where exhibitor safety is a concern.
  - c. Penalties are assessed as follows:
    - i. One (1) Point Penalties:
      - a. Over-bridled (per maneuver);
      - b. Out of frame (per maneuver);
      - c. Each hit, bite, or stepping on a log or rail, cone, plant, or any component of the obstacle;

      - e. Both front or hind feet in a single-stride slot or space at a walk or trot;
      - f. Skipping over or failing to step into required space;

## WS143 Ranch Reining

### 1. General Information

- a. The ranch reining class measures the ability of the ranch horse to perform basic handling maneuvers with a natural head carriage in a forward-looking manner.

- b. The ideal Ranch Reining horse should have a natural ranch horse appearance from head to tail in each maneuver.
2. Eligibility
    - a. Open to horses three (3) years of age or older. Classes may be restricted to junior exhibitor, senior, amateur, or held as all-age open division.
    - b. Show Management has the discretion to prohibit the cross-entering of Ranch Reining with Reining by the same horse/exhibitor combination at their show, but the prohibition must be clearly stated in the prize list.
  3. Class Specifications
    - a. Horses will be shown individually. All runs begin upon entering the pen and any infractions are subject to penalty at that time such as two hands on the reins (except for junior horses five (5) years & under wearing snaffle bit or hackamore), using either hand to instill fear or praise, etc.
    - b. Patterns may be chosen from any of the ranch reining patterns found in the Versatility Ranch Horse (VRH) section of the AQHA Handbook.
  4. Credits and Penalties
    - a. To rein a horse is not only to guide them but also to control their every movement. The best reined horse should be willingly guided or controlled with little or no apparent resistance and dictated to completely.
    - b. Any movement on their own must be considered a lack of control. All deviations from the exact written pattern must be considered a lack of, or temporary, loss of control; and, therefore, a fault that must be marked down according to severity of deviation.
    - c. The horse/exhibitor team's overall performance should be credited for smoothness, finesse, attitude, quickness, and authority of performing various maneuvers while using controlled speed which raises the degree of difficulty and makes the horse/exhibitor team more exciting and a pleasure to watch.
    - d. Penalties
      - i. One-half (1/2) Point Penalties: Starting a circle or exiting a roll-back at a trot for up to two (2) strides; Delayed change of lead by one stride where the lead change is required by the pattern description; Failure to remain a minimum of twenty feet from the wall or fence when approaching a stop and/or rollback; Over-spin or under-spin up to 1/8 turn.
      - ii. One (1) Point Penalties: Over-bridled (per maneuver); Out of frame (per maneuver); Out of lead in the circles, figure eights, or around the end of the arena (this penalty is cumulative and will be deducted for each quarter of a circle the horse is out of lead); Over- or under-spinning 1/8 to 1/4 turn; Slipping rein.
      - iii. Two (2) Point Penalties: Break of gait; Freeze up in spins or roll-backs; Failure to stop or walk before executing a lope departure on trot-in patterns; Failure to be in a lope prior to the first marker on run-in patterns; Failure to completely pass the specified marker before initiating a stop position; Trotting beyond two strides, but less than 1/2 circle or 1/2 length of the arena.
      - iv. Five (5) Point Penalties: Spurring in front of cinch; Blatant disobedience; Use of either hand to instill fear/praise; Use of two hands per maneuver (Excess rein may be straightened anytime during the pattern, provided the exhibitors' free hand remains behind the rein hand. Any attempt to alter tension or length of the reins from the bridle to the rein hand is considered use of two hand and a 5-point penalty will be applied); More than one (1) finger between split reins or any fingers between romal reins per maneuver.
      - v. Ten (10) Point Penalties: Unnatural ranch horse appearance (Horse's tail is obvious and consistently carried in an unnatural manner in every maneuver); Off pattern; Inclusion of maneuver (e.g., over or under-spinning, backing more than two (2) strides, etc.).
      - vi. Zero (0) Score: Leaving arena before pattern is complete; Repeated blatant disobedience.
      - vii. No Score: Lameness; Abuse; Prohibited equipment; Disrespect or misconduct; Improper western attire; Fall of horse and/or exhibitor.

## **WS144 Ranch Working Cow**

1. General Information
  - a. The ideal Ranch horse must also be a cow horse and this class demonstrates and measures the horse's ability to do cow work. In addition, the ideal ranch cow horse should have a natural ranch horse appearance from head to tail in each maneuver.
  - b. Holding the saddle horn is permitted.
2. Conduct

- a. There is a time limit per horse/exhibitor team to perform the work and the time begins when the cow is turned into the arena. If the time has not elapsed and the judge is satisfied that all requirements of the class have been met, the judge should blow the whistle for the exhibitor to cease work.
  - b. The judge may blow a whistle at any time for the exhibitor to cease work for safety reasons. Only the judge may award a new cow to an exhibitor to replace a cow that will not honor a horse. One whistle will terminate the work, two whistles will award a new cow.
    - i. If the judge awards a new cow, the exhibitor has the option to refuse the new cow by continuing to work.
    - ii. If the exhibitor accepts the new cow, the time for working the cow will start over. If the exhibitor intends to accept the new cow, the exhibitor must pull up immediately.
    - iii. When multiple judges are scoring, any one of the judges may terminate the work or signal for a new cow.
    - iv. Judges will give credit for what they have seen.
  - c. Exhibitors in the Ranch Working Cow must not compete in both the Ranch Working Cow and the Ranch Horse Cow Work or Limited Reined Cow Horse at the same show on the same horse. However, exhibitors may cross enter Ranch Working Cow and Working Cow Horse and Reined Cow Horse.
3. Class Specifications: Exhibitors in the open, amateur, and Junior exhibitor divisions are allotted three (3) minutes to complete the work. The announcer will announce when there is one (1) minute remaining. At three (3) minutes, the announcer will call for time. There are three (3) parts to the class: boxing, fence work and roping or circling.
- a. Part One – Boxing the Cow: The exhibitor will ride into the arena, face the cattle entry gate and signal for their cow to be turned into the arena. The cow must be controlled on the entry end of the arena for a sufficient amount of time to demonstrate the horse's ability to hold the cow. If the cow does not immediately challenge the horse, the exhibitor must aggressively move in on the cow to demonstrate their horse's ability to drive and block the cow on the entry fence.
  - b. Part Two – Fence Work: After the cow has been controlled on the entry end of the arena, the rider shall set the cow up and drive it down either side of the arena. The cow should be turned on the fence at least once in each direction. The first run out for a turn shall be past the half-way mark of the arena. All turns down the side shall be completed before reaching the end of the fence.
  - c. Part Three – Roping or Circling: The amateur and junior exhibitor has the option of circling the cow in the middle of the arena in both directions in lieu of roping. An amateur or junior exhibitor may circle or rope the cow but cannot combine the two to get credit for this portion of the run. Open exhibitors must rope the cow.
    - i. To rope the cow, the exhibitor must be carrying a rope when the run starts. The exhibitor may pull up after the fence work, take down the rope and proceed to rope and stop the cow.
    - ii. In the roping portion of the class, two (2) throws are permitted and the horse will be judged on two (2) maneuvers: tracking/rating and stopping the cow. It is not necessary that the exhibitor catch to receive a score in the roping portion. The catch is permitted so long as the cow looks through the loop and the rope pulls tight on any part of the animal's body except the tail. The rope may be tied or dallied. If exhibitor does not catch, the horse will be given credit for tracking and rating and will be assessed the appropriate penalty.
    - iii. To circle the cow, the exhibitor will maneuver the cow smoothly at least 360 degrees in each direction without interference from the fence. The circle's size, symmetry, speed and relative balance from right and left show control. Tightening the circles down with fast head-to-head speed will be a credit situation. The circles should be completed before the cow is exhausted. Once an exhibitor has committed to circling a cow, if the cow falls no new cow will be awarded. The exhibitor will complete the run by riding around the fallen cow to fulfill circling requirements.
4. Credits and Penalties
- a. All runs begin upon entering the pen; any infractions (such as two hands on the reins, using either hand to instill fear or praise, etc.) are subject to penalty at that time.
  - b. During Boxing, credit will be given for the horse's expression and its cow sense (i.e., making moves with little exhibitor assistance); holding, controlling, and turning the cow; the amount of work actually done; and the degree of difficulty of the work.
  - c. Credit will be given during Fence Work for making the first run past the center of the arena; making turns right on the cow; and controlling a difficult cow.

- d. If Roping, credit will be given for rating and following cow to allow exhibitor the optimal roping position; stopping hard; and staying in the ground during the hold. Credits for each element of Roping range from – 1 1/2 to +1 1/2 points.
- e. If Circling, credit will be given when the horse works willingly; acknowledges the cow; and gets close enough to the cow to control the circles. Credits for Circling range from -1 1/2 to +1 1/2 points for each direction.
- f. Penalties will be assessed as follows:
  - i. One (1) Point Penalties: Over-bridled (per maneuver), out of frame (per maneuver), loss of working advantage; Using the corner or the end of the arena to turn the cow when going down the fence; changing sides of arena to turn cow; for each length horse runs past cow; working out of position; slipping rein; failure to drive cow past middle marker on first turn; two-loop catch in amateur and junior exhibitor classes.
  - ii. Two (2) Point Penalties: Going around the corner of the arena before turning cow; when working an animal in the open field (at least 20' from the side of arena) and the animal gets within three (3) feet from the end fence before being turned; any prohibited catch, or failure to catch if roping in amateur and junior exhibitor classes.
  - iii. Three (3) Point Penalties: Exhausting or overworking the cow before circling or roping; hanging up on the fence (refusing to turn); knocking down the cow without having a working advantage; two-loop catch when roping in Open class.
  - iv. Five (5) Point Penalties: Failure to turn the cow both directions on the fence; spurring in front of cinch; blatant disobedience; use of either hand to instill fear/praise; a prohibited catch or failure to catch when roping in Open class.
  - v. Ten (10) Point Penalties: Unnatural ranch horse appearance (Horse's tail is obvious and consistently carried in an unnatural manner in every maneuver); Off-Pattern.
  - vi. Zero (0) Score: Turning tail; failure to attempt any part of the class (includes failure to attempt to rope in the Open class); repeated blatant disobedience; schooling after entering the arena prior to calling for cow; schooling horse between cows if new cow is awarded, complete loss of rope in Open class; complete loss of rope in amateur or junior exhibitor classes once committed to roping; use of two (2) hands (except junior horses shown in a snaffle bit/hackamore), more than one (1) finger between split reins or any fingers between romal reins.
  - vii. No Score: bringing the cow straight over backwards landing on its back or head with all four feet in the air, lameness, abuse, prohibited equipment, disrespect, or misconduct, leaving arena before run is complete; improper western attire; fall of horse/exhibitor. Note: If the Open exhibitor runs out of time to rope, there will be no credit for the stop/hold maneuver and a 5-point penalty for failure to catch. Exhibitors may still earn credit for tracking/rating, control/position, and speed/degree of difficulty.

## **WS145 Ranch Cutting**

1. General Information:
  - a. This class is judged on the ability of the horse to work a cow by separating it from the herd and holding it. A single cow is cut from the herd and the horse must demonstrate its ability to work the cow. A Ranch Cutting horse should have a natural ranch horse appearance from head to tail in each maneuver. The objective will be to cut one or two cows, based on the division, from the herd and work the cow(s) with the assistance of two turn-back exhibitors and two herd holders.
2. Conduct:
  - a. Show management may supply two (2) herd holders and two (2) turn back riders or exhibitors may supply their own helpers. If an exhibitor is a herd holder or turn back rider, they may use the horse that they are competing on or use a different horse.
  - b. Herd holders' and turn back riders' horses should be appropriate Ranch Horses for this task.
  - c. For Open and Amateur division competition there will be a two-minute time limit. Each exhibitor must work two (2) head and has the option of ending their run before the two-minute limit or working the full two (2) minutes.
  - d. For junior exhibitor competition, there will be a one and one-half minute time limit. Each exhibitor may work one (1) or two (2) cows and has the option of ending their run before the one and one-half minute time limit or working the full one and one-half minutes. Working two cows does not assure extra credit to the run.

- e. Time will begin when an exhibitor crosses a time-line just prior to entering the herd. Time should not start until contestant crosses a pre-determined and marked timeline. The exhibitor will then separate quietly their cow from the herd.
  - f. Unnecessary roughness or disturbing the herd excessively could result in disqualification.
3. Credits and Penalties:
- a. Ultimate credit will be given to the horses demonstrating excellence in the herd work by committing to, driving, setting up, and working a cow in the center of the arena with minimal disturbance to the herd. The horse will be judged on its performance and natural ability. Horses will not be penalized for reining during the cutting portion but should display natural ability.

Penalties should be assessed as follows:

- i. One (1) Point Penalties: Over-bridled (per maneuver); Out of frame (per maneuver); Losing working advantage; Toe, foot, or stirrup on the shoulder; Working out of position.
- ii. Three (3) Point Penalties: Cattle picked up or scattered; Spurring on shoulder; Pawing or biting cattle; Back fence; Hot quit.
- iii. Five (5) Point Penalties: Horse quitting cow; Losing cow; Changing cattle after a specific commitment; Failure to separate a single animal after leaving the herd; Blatant disobedience; Use of two (2) hands (per cow) except for junior horses five (5) years and under wearing a snaffle bit or hackamore; More than one (1) finger between split reins or any fingers between romal reins (per cow).
- iv. Ten (10) point Penalties: Unnatural ranch horse appearance (Horse's tail is obviously and consistently carried in an unnatural manner in every maneuver); Turn tail; Failure to cut two cows in Amateur or Open division.
- v. Zero (0) Score: Repeated blatant disobedience.
- vi. No Score: Lameness; Abuse; Prohibited equipment; Disrespect or misconduct; Improper western attire; Fall of horse and/or exhibitor; Excessive disturbance of herd to the point that exhibitor is asked to leave the arena.

## **WS146 Ranch Versatility**

1. General Information:
- a. A superior ranch riding horse has a free-flowing stride of reasonable length in keeping with their conformation and covering a reasonable amount of ground as if they were going across the pasture to do a task on the ranch in a timely fashion.
  - b. Ideally, the horse should have a balanced, flowing motion, while exhibiting correct gaits with proper cadence and rhythm reflecting the versatility, attitude, and movement of a working ranch horse riding outside the confines of an arena. The ideal ranch horse will travel with forward movement and demonstrate an obvious lengthening of stride at extended gaits.
  - c. The horse can be ridden with light contact or on a relatively loose rein without requiring undue restraint, but not shown on a full drape of reins.
  - d. The overall manners and responsiveness of the Versatility Ranch Riding horse to make timely transitions in a smooth and correct manner, as well as the quality of the movement and consistency of the gaits are of major consideration.
  - e. The ideal Versatility Ranch Riding horse should have a natural ranch horse appearance from head to tail in each maneuver.
  - f. No horse may cross enter Western Pleasure and Versatility Ranch Riding at the same show regardless of the section (Open, Amateur or Junior exhibitor). However, horses may cross-enter Versatility Ranch Riding and Ranch Horse Riding.
2. Class Specifications
- a. Horses will be shown individually at three (3) gaits; walk, trot, and lope in each direction of the arena. Horses will also be asked to reverse, stop, and back.
  - b. The selected pattern must ask for an extended trot and extended lope at least one direction of the ring. The pattern may be started either to the right or left direction. Show management has the option to set markers to designate gait changes. The pattern may be set outside or inside an arena. If the class is held inside an arena, the course must be set up to make approximately one pass of the arena in each direction. One of the suggested patterns for Versatility Ranch Riding may be used from the current AQHA Handbook in the Versatility Ranch Horse (VRH) section. The judge may utilize a different pattern as long as all required gaits and maneuvers are included.

3. Credits and Penalties
  - a. Part of the evaluation of this class is on smoothness of transitions. A horse may be collected from the extended trot as the horse moves into the lope.
  - b. The transition from the extended lope down to the trot is a transition to the seated trot not the extended trot. Therefore, an extra cue to achieve this gait is expected. Horses that complete this total transition within three strides calmly and obediently should be rewarded. Horses that attempt to stop or do stop prior to trotting will be penalized.
  - c. Judges expect to see horses that have been trained to respond to cues. To see these cues applied discretely and the horse responding correctly could be a credit-earning situation.
  - d. Penalties will be assessed as follows:
    - i. One (1) Point Penalties: Over-bridled (per maneuver); Out of frame (per maneuver); Too slow; Gaping mouth; Break of gait at walk or trot for two (2) strides or less.
    - ii. Three (3) Point Penalties: Wrong lead or out of lead; Draped reins; Break of gait at lope; Break of gait at walk or trot for more than two (2) strides.
    - iii. Five (5) Point Penalties: Spurring in front of cinch; Blatant disobedience; Use of either hand to instill fear/praise; Use of two (2) hands per maneuver; 1st or 2nd cumulative refusal; More than one (1) finger between split reins or any fingers between romal reins per maneuver.
    - iv. Ten (10) Point Penalties: Unnatural ranch horse appearance (Horse's tail is obviously and consistently carried in an unnatural manner in every maneuver) breaking pattern; Leaving working area before pattern is complete; Repeated disobedience.
    - v. No Score: Lameness; Abuse, prohibited equipment; Disrespect or misconduct; Improper western attire; Fall of horse/exhibitor.

## WS147 Ranch Conformation

1. General Information: The purpose of Ranch Horse Conformation is to preserve the ranch type and conformation best suited to the function of a natural ranch horse. Selection is based upon well-mannered individuals in the order of their resemblance to the ranch ideal that possess the most positive combination of balance, structural correctness, and movement. The ideal ranch horse should have a natural ranch horse appearance from head to tail.
2. Conduct: To be eligible to compete in the ranch horse conformation class the horse must be entered, shown, and judged in at least one riding class in the Ranch division at that show. Horses must be at least three (3) years of age. Horses in each division may be shown together as one class or divided into Open, Adult (Senior), Amateur, Junior exhibitor, Non-Pro, or in any combination deemed appropriate by show management. All stallions must be examined to confirm that they have two visible testicles. All stallions and mares must be examined for over-shot and under-shot mouth. The exhibitor will mouth the horse for this examination. If examination reveals that a horse is a cryptorchid or has an over-/under-shot mouth, the judge shall not use such horse in the final placings of the class.
3. Appointments: Horses are to be shown in a good working halter: rope, braided, nylon or plain leather. Any horse shown in the ranch horse conformation class may not be shown with a lip cord/chain, however a lead shank with an attached chain may be used under the chin.
  - a. No whips, nor any other attention getting devices (i.e., treats, candy) are permitted.
  - b. For rules regarding correct western attire refer to WS104.
4. Class Specifications:
  - a. Each horse enters the arena and walks towards the judge. As the horse approaches, the judge will step to the right to enable the horse to trot straight to a cone placed 50 feet away. At the cone, the horse will continue trotting, turn to the left and trot toward the left wall or fence of the arena. After trotting, horses will be lined up head to tail for individual inspection by the judge. No hard stand-up is permitted. The judge(s) shall inspect each horse from both sides, front and rear and place the horses in order of preference.
  - b. Exhibitors may qualify and show more than one horse in ranch horse conformation classes. Once a horse has entered the arena and been trotted for the judge, a designated handler may hold the horse in line-up while that exhibitor shows additional horses.
  - c. Any person designated as a handler must also be an exhibitor at the same show.
  - d. Back tag with horse's entry number remains with the horse.
